Mount Airy,

Dear Sirs:- N.C

Enclosed find sale and check covering net proceeds of Apples recently shipped me on consignment.

As written you when these apples arrived the market was glutted and I could not get an offer of them at any price. Since then I have done everything possible to dispose of them to an advantage - but as they were very ripe on arrival and keeping them will not improve their condition thought best to accept the only offer I have had on them - 75¢ per barrel.

I regret exceedingly that I could not get a better price - but the finest "Baldwin Apples" are being sold here at \$1.50 per bbl - and other very fine varieties at equally low prices.

Yours truly,
