- Brilliant Chromacolor Picture Tube
- 100% Solid-State Titan 300V Chassis
- Patented Power Sentry Voltage Regulating System
- New Solid-State Electronic Tuning System
- Chromatic One-button Tuning

USES UP TO 64% LESS ENERGY! Zenith's 100% Solid-State Chassis featuring the Zenith Patented Power Sentry Voltage Regulating System uses up to 64% less energy than previous Zenith giant-screen all-tube sets. Zenith's energy-saving 100% solid-state chassis with its Power Sentry system of voltage regulation needs only 130 watts of power... less than two 75-watt light bulbs. Many color sets, four or more years old, use about as much power as five 75-watt light bulbs.
