Grantor	Grantee	Pg.
John Fullbright	C. Nellars	527
Barnett "	J. Buff	199 \$300 for 128 acres
Jacob "	N. Lock	346
1826 Jacob Fullbright paid \$20 to James Lockhart for 50 acres - Hominy Creek joining a 300a. tract sold to John Fullbright by John Strothers - orig. part of David Allison's 250,240 acre grant.		
Barnett Full.	Thos. Lenoir	118
Peter "	David Pipes	597

The above Barnett Fullbright deed dated Sept of 1828 for \$53.25. (Haywood Co Deeds Vol-C 1-315-1829-1835 Record of Deeds) (Tax sale)

Burncombe Co. - as I feared, both Jacob + John show on the pages I have sent. The only other records on Burn. are some loose papers in a file - unindexed. Do you want me to go through them? Misc. papers. Would bet that is where the missing M. Bonds were.

You should enjoy the census index sheets - Do you want me to run the microfilm through + give you the information? -

1810 Lincoln Co is all on page 352
" Haywood Co " 195

1820 Lincoln 392, 398, 328
" Hay 220/219

By 1830 the index only showed Jooce + Andrew Fullbright - In my research today, these 2 families grew + grew!

Fullbright (all spellings) does not show on the 1783/86 N.C. census - The census is very incomplete. The 1790 census was missing today so will pick up next time.

Have used all time allowed. - To find year they started west, I tried working the deeds, but, ran out of time.

Dont worry about coffee breaks - The staff is so busy - and they dont socialize with us - except at Society Meetings.

Assume you have copies of Rev. Vet. papers.

Hope you had a nice vacation trip. We are doing 4 days at Holden Beach N.C. this week. May the sun shine upon us.

If you want me to continue, let me know what areas you wish covered. - There are also Coast Records - they do take a lot of time to read.
Hope this little bit will give you some fun.
Sincerely,
B. J. Camin

Dear Mr Stout,

Here is your copy of the WILL. Note that the will states, I William Fulbright, not J. William F. Can you read the script? If you have any trouble send it right back and I will work it up. The only possible problem that I see is the old s that is written like an f. Doubt if you will have any trouble after wading through my handwriting.

I suspect that the Fulbrights didn't move so much as the county lines and new counties were formed. This would change the locations of the records from county to county.

Lincoln was formed from Tryon		1778
Haywood	"	Buncombe 1808
Buncombe	"	Burke/Rutherford 1791
Rutherford	"	Burke/Tryon 1779
Burke	"	Rowan Co 1773
Rowan	"	Anson 1753

In Vol. 1 Rowan Co. Deed Absts I find: 7.151 Richard Lewis and wife to William Fulbright for 74 pounds proc. 317 1/2 acres. July, 1761 and filed August 1769. This fits in with the dates you have them moving to N.C. However the first date is the purchase date and the second is the date Fulbright wandered in and filed the deed. See copy of book page. Do you want the original?

Checked all sorts of books on Rowan Co. and the only other mention I found was where Jacob witnessed a will - pg. 5 Rowan Co. Will Absts Vol. 1 by Linn. Jacob Fulbright wit. will of Peter Lawrance Aug. 24, 1772.

Marriage Bonds of Tryon and Lincoln Co show:

Eliz. Fulbright/Jacob Miller 1826

Eliz. Fulbright/Joseph Smith 1827

Peter Fullbright signed the bond.

Polly Fulbright/George Yount 1819

Polly " /John Knipe 1832-bond by George Fulbright

(Remember Polly is sometimes a nickname for Mary)

The above Barnett F. deed dated Sept of 1828 for \$53.25. (Haywood Co Deeds CVol. C 1-315 1829-1835 Record of Deeds. 2nd floor N.C. Archives)
Because of the odd amount I suspect that this may have been a tax sale.

Buncombe County - as I feared, both Jacob and John show on the deed index pages. (enclosed) The only other record there is on Buncombe Co. are some loose papers in a file folder and are not indexed. There might be about 70 pages of misc. papers. Do you want me to go through them? No marriage record available for Buncombe because of the two fires. Burke Co. is also a burned county and Rutherford was partially burned.

Afraid our yankee ancestors had something to do with the burning of the last two counties. (K I grew up in Spokane Wash. and have chased my ancestors into N.Y. and N.C. In N.C. they were so silly as to own property on the Wilkes/Burke line and all marriage records etc. that I need were apparently there in Burke. -Blast).

Do you want me to run the microfilm through and give you what shows on the 1810 and 1820 census records. 1830 only shows a Jocce Fulbright and a Andrew Fulbright.

Fullbrights -all spelling do not show on the 1783/86 census - That census is very incomplete so was not surprised. The 1790 N.C. was missing the other day so I will copy that next trip downtown and mail to you.

Don't worry about coffee breaks- the NC Archives is a very business like operation. The staff is there to bring out the records we request and answer questions if necessary.

Hope your trip was successful. We started for Holden Beach yesterday, had an accident on the way and totally destroyed our lovely trailer. No injuries and my precious 10 year old car was not hurt. EAC keeps trying to talk me into giving up the car for a little one. Perhaps if we don't get another trailer. With the gas shortage it will take some thinking over.

If you want me to continue there are court records to read (takes a bit of time), also church records. It would help if you had some idea of which group they might belong. The church records don't show much in the genealogy line. Mostly new members and old ones who were bad and punished for drinking or moral naughties.

Well, now you know. I can not type any better than I can write. Must send typewriter to doctor and have worked over a bit. - And I am under 50 (barely) and have problems with the hands.

MESSAGE

Would you please give me an estimate of what it might cost for me to have you check the N.C. estate records, the wills and the census records for information (and any available copies of info.) regarding the Fulbright families in the vicinity of Lincoln and Haywood Counties? These are the only counties that I know they lived in--the surrounding counties should also be checked, you might well locate other counties of interest in checking the above. I understand all the above info. is available to me by sending a barrage of letters to the Archives but it seems simpler and probably more productive to have someone go there and take a look for me. My main interest is the family of J.W. Fulbright who wrote a will in 1805--must have died during the next few years, George--who died before the above will was written, and Jacob, a son who may have moved away--his is my line and the most interest. Your name was forwarded by the Archives along with their 1968 pamphlet describing the records readily available and easily checked. Thanks for any help you can offer.

Dear Mr Stout - My fee is \$7⁰⁰ per hour. To estimate is difficult - There are Will Indexes by county which is quick. Then some cos. estate indexes on microfilm & take longer. The 1783/86 census book is easy but incomplete. The 1790 also in book form - After that its to microfilm for census. There might also be something in the vertical film on the family. - Again quick - Think the best thing to do would be to come up with.

I don't care when you would pay. it's easier if you wait + send an exact amount - then I don't have to bother with refunds etc.

Any copies would be extra - whatever the Archives charge me.

I don't know if your Archives information is correct or not - They charge \$2.00 to look anything up now and try and answer only one question per person. They have been denied by requests since the "Roots" business.

Do you have the J. W. Sulbright will? Are you interested in whether or not they had a land grant?

If there ain't enough wills or estate records the families can sometimes be traced by property deeds.

Haywood Co. was formed in 1808 from Buncombe Co. - which is a burned apt. Co. - There are property deeds for Bun. Co. However, (burned 1830/35) Sincerely, B. I. Camin

Dear Betty:

Thanks for your quick reply to my inquiry. I'm leaving and will be away until the 7th of April--perhaps by then you can mail me a sample of what you can readily find out for me. Then, based on what you have done and feel should yet be looked into, we can decide what to do next. I'll enclose a check for \$25.00 so you are not spending your money--and --you shouldn't trust people to pay when they want to--some day some stinker will be awfully hard to find just when you are trying to collect for a lot of work! I'm getting old--and cynical. Also my typing is very poor--forgive it in the hope it is better than my writing.

I do not know what I want you to spend any more than you know what it might cost--if you can produce info its cheap--if you cannot, it is expensive--and I don't mean to question your ability--just , is the info there, somewhere, OK? Same with your rate--if you spend your time drinking coffee with the staff it is too much. If You do your best to get info its fine--so, please lets give this a whirl and see what happens and then try to decide what to do next--if it seems like we are not through. Do the easy things first--that may be enough--I'll try to tell you my interest and then I'll just trust you to use your judgement--after all you are there and if I didn't think I needed you I'd not be trying to write.

I have a typed copy (supposedly) of the J. William Fulbright will. It was dated 1805, named his kids And left the farm to his son Jacob--my ancestor. So, he had land--the will indicated son George was gone before it was written. I think J.W. died about 1808. J.W. was JOHAN WILHELM VOLBRECHT, arrived in Phil. on Dec. 3, 1740, married Christina Halstead (or Schuck, I wish I knew which) had kids, was naturalized in 1762 (I've no papers), changed name to Fulbright (Including, I think, all the kids) and they lived at Northampton, Pa. The family moved to Lincoln Co., N.C. in 1769. Sons Jacob, and probably John, were in Rev. War. Jacob, in a pension application said he moved (probably the whole gang) to Haywood Co. 'after the war' but probably in 1783 or about then. The original will had to be written by a scribe, J.W. could not write, and I wish I had a true copy or at least a accurate typed copy. J.W.'s kids were: Jacob, born Dec. 22, 1747 and died about 1835; Johan GEORGE born Feb. 28 1746, two children, Peter and Elizabeth and nothing more is known except his death before 1805 mentioned above; Anne CATHERINE born Jan. 12, 1752, married Bullinger; Anne ELEZABETH born May 25, 1754, married Killian; Dorthea, married Moyers; Christina, married Taylor; Mary, married Link; Margaret married Crites; John William born 1757; and there was someone named Abraham who, in a writting I have a copy of, said he was a son of J acob. John showed up in Missouri, married, with a bunch of pretty well grown kids in about 1815 and they populated most of the state and the Ozarks--and when they moved west left your zone of inquiry--wonder what tracks they left in N.C.? I have names and info on his kids in MO. but that is no help to you. Jacob, I think, had five children (or more) named; John, Jacob 1778--1844, Barnette, Abraham, and Levi who is my ancestor. Levi married and had a family but must have left N.C. before he made much history but his son, Andrew 1812--1862 and Jacob ?1830--1861 might have been born in N.C.--at least the first. He had several others--Jason Franklin being my line. That, I think, is all I know of the family during the span of their years in N.C. that could possibly help you.

Every place I look I find Fulbright spelled in different ways--interchangeably, often with two 'l's'.. And the same with the name Volbrechte--as Vollbrecht, Volpreche, Wolbrecht, etc. I have no proof that all of J.W.'s family changed name to Fulbright except what you will read in his will. There were other Volbrechts who migrated here from Germany later--have traced some, none have seemed related altho they may be.

I, today (!) have finally gotten a contact in Penn. who claims to be able to look into church records where I think some of J.W.'s kids were baptized--but this probably is little help to you.

I want to prove this line, of course, also I want to learn enough about these old people, their lives and families so that when I write up my story they will become a part of our family--not just a bunch of dates and places. I do not expect they were in any way out of the ordinary and am not looking for heros or horse thieves.

Thats all I know. I don't know what you wanted for a start--but this is all you can get from me at this time, and I sincerely hope ~~it~~ is a help to you and gets you ~~stARTEEd~~ in the right direction. Take it and run, and I hope you have luck. I suggest you use your judgement and we can communicate as soon after the 7th of April as is convenient to you.

I do know about your Archives \$2.00 Root Fever. It has frustrated me because I know (obviously) too little to ask the right questions--I'd planned on going to N.C.--but its too costly and I can't wait to know! I'll be in Florida the first week in Apr. but will ~~not~~ come north--so have fun in my place.

There is a Geo. Stout in Wallace, N .C. who also does this kind of work--I have had no contact with him. I do have a good history on the Stout family back to England in 1540 and Germany about the same time--and no pressing ~~XXXXXXXXXX~~ questions except in N.C.! Perhaps you might be able to identify the father of one Ephriam Stout who married Sarah Wells in N.C. about 1810. Probably was named Samuel--there were two Sams, father and son and there is confusion about which was father of Eph. Don't fight it very much--we'd rather work out the Fulbrights--and can get you more specific info on this Stout knot if you think you could come up with something.

I'm sorry there is ~~no~~ time to do this letter over and get info better organized for you--and again apologize for the terrible typing--and again thanks for your interest--I'll bet we have fun.

Sincerely yours,

P.S. Was Buncombe Co. burned out twice?? in 1830 and 1835??
