INTRODUCTORY STATEMENT

The following tax lists for Surry County, N. C., for the year 1789 were copied from the original tax lists now on file in the office of the Clerk of Court for Surry County at Dobson, N. C.

The names were copied in the exact spelling as they were originally listed. This means that in many cases the same names will be found with varied spelling.

The tabulation is listed for "White Polls" and "Black Polls", but in several districts in this 1789 tax list one finds that the white and black polls were listed under the same classification.

At the end of the list for the various districts I have explained the rough location of the district itself, having done so in the light of personal knowledge of land holdings of that day.

I hereby make affidavit that the list is, to the best of my ability, an exact copy of the original tax lists, made after twelve years of experience and study of the records of Surry County.

It is the hope of this researcher that the copy will serve as an aid to searchers after genealogical information in old Surry County.
