 MANAGER

May 4, 1935.

Mr. Matt Hines,
 Mt. Airy, N. C.

Dear Mr. Hines:

We have your letter of May 2nd addressed to Mr. Bowman, and owing to the fact that Mr. Bowman is out of the city until next week, we are taking the privilege of answering the letter.

You are correct in your assumption that this price of \$499.00 included all of the door and transom glass, as well as the store front glass which was shown on the plans for the McLellan's store building at Mt. Airy.

There was only one question in our mind and that was the question regarding the etching of the plate glass back of the show windows on which it was advised by the writer on April 25th that this price might vary according to what was actually required for this material. We have been unable as yet to find out just what was required for these openings and as soon as we do, we will write you further. If Mr. Bowman has made some definite promises on this etched glass please advise.

Regarding your last paragraph as to obtaining approval from the McLellan's store Company as to the acceptance of our store front metal, wish to advise that we are writing them today.

Yours very truly,

BINSWANGER & CO. Inc.,
