Cost of getting water to building from main.	\$ 5.20
Cost of sewer,	26.26
Cost of plumbing inside of building, (this does not include lavatory in front room)	27.77
Cost of light in main store room	29.72
Cost of wiring and putting lights in basement.	7.54
Cost of putting light in front of store.	<u>1.00</u>
	\$97.49

On account of having two circuits run down the center of the building there has been an extra charge of about \$15.00 made, this circuit was made in order to accomodate the two fans which were not figured on when estimate was made.

\$82.14
