

Chatham Hill Va

Dec 26th 1902

Dear Bro. I will

try to answer you
later and send the
Church deed book
to you I will sign
and you can witness
it any time as Adam
has officiated long ago
but as there is no
date about signing
suppose deed will
be good.

We are having
the first cold weather
- ever we have had

This winter - we
have had a fine
fall and winter so
far have not had
to feed much yet
it was well enough
to for our crops were
so good if we had
had to feed much
we would not have
been able to winter
much stock. I am
not trying to winter
as many cattle as
I will want in
the spring they are
very scarce and
high. We are all
well, so are all the
kin. No news every
thing seems to be drag-
ging 2

along in the same
old way. This year
(1902) has been the hardest
it has ever been since
we lived here - all crops
failed cattle did not
put on much - if it
had not been for the high
prices we would have
lost money as it was
I made out mighty
little. Hope you made
a good crop and getting
on well. Did you
ever pay Frank on
Paythe Abraham's note -
he said something
to me about it some
time ago I promised
to write you but
did not - now if you

How not could
you do so at once
I was in hopes

I could make you
all a visit last fall
while Corrie was away
or after she come back
but always find so
much that ought to be done
and do so very little that
I find it hard to get away
Could you all come over
and see us.

Much love to all.

Your Bros

Alfred

Dear Bro:

I will try to answer your letter and send the Church deed back to you I will sign and you can witness it My time as Admr has expired long ago but as there is no date about signing suppose deed will be good.

We are having the first cold weather we have had this winter_ we have had a fine fall and winter so far have not had to feed much yet it was well enough too for our crops were so poor if we had had to feed much we would not have been able to winter much stock. I am not trying to winter as many cattle as I will want in the spring they are very scarce and high. We are all well, so are all the kin No news every thing seems to be dragging along in the same old way. This year (1902) has been the hardest it has ever been since we lived here_ all crops failed cattle did not put on much_ if it had not been for the high prices we would have lost money as it was I made but mightly little. Hope you made a good crop and getting on well. Did you ever pay interest on Wythe Graham's note he said some thing to me about it some time ago I promised to write you but did not_ now if you have not could you do so at once.

I was in hopes I could make you all a visit last fall while Carrie was away or after she came back but always find so much that ought to be done and do so very little that I find it hard to get away. Cant you all come over and see us.

Much love to all,

Your Bro
