INTRODUCTORY STATEMENT

The following tax lists for Surry County, N. C., for the year 1813 were copied from the original tax lists now on file in the office of the Clerk of Court for Surry County at Dobson, N. C.

In so far as possible the names were copied in the exact spelling in which they were originally listed. However, I have copied the lists with the given names first and the surnames last, believing that such a form will be more simple for average lay readers than would the original listing that placed surnames first.

It will be noted that sometimes a tax-payer or property owner will be listed, followed immediately afterward by the words DITTO FOR in capital letters and then by another listing for someone else. This simply means that the first tax-payer listed first for himself and then for some relative, friend or neighbor.

In some instances the reader will find that the same name is listed in more than one district. It is possible that there may have been more than one person of the same name, but readers may note whether each of the listings showed one or more polls. If the name John Smith were listed in one district with some land and one poll and in another district with some land but no poll shown, then it is probable that it is the same John Smith, who listed his poll and home place in the district in which he resided, while listing his other lands in the district in which the other lands lay.

This list of owners of taxable property serve to a certain extent as a supplementary census list for Surry County for the year 1813, and it is the hope of the compiler of the list that it may be of some service to searchers after geneological information.
