COMPLETE AND PROGRESSIVE

The ABCD type of ConSurvey directory was originated by Robert Morton Baldwin and Heber Page. While many publishers have been content to rest on their laurels, issuing the same type directory used fifty years ago, the Mullin-Kille and Baldwin organizations have led the way to the production of an up-to-date ConSurvey directory to meet modern selling and credit conditions.

Newspapers, chambers of commerce, merchants' associations and individual business concerns are invited to write for particulars concerning this type directory service. In the future, as in the past, Mullin-Kille and Baldwin ConSurvey directories will stand for the highest ideals in public service.

ROBERT MORTON BALDWIN

The information herein contained was taken by trained enumerators in a house-to-house canvass of the city and adjacent territory and checked with material supplied by employers. The publishers offer it as the most reliable information available but do not assume any responsibility for errors.

FIVE DIVISIONS OF THE BOOK

The principal divisions of the Mullin-Kille Directory contain the following information:

1. THE PREFACE contains historical and civic information with photographs of general interest.

2. THE BUYERS' GUIDE and CLASSIFIED BUSINESS DIRECTORY SECTION contains display information concerning the leading business firms of the city, announcements of churches, clubs, lodges, associations and schools, and the names of all business firms, professional men and women and non-profit organizations, properly classified, with the names of distributors of national brands of merchandise.

3. THE NUMERICAL TELEPHONE DIRECTORY contains telephone numbers arranged in numerical sequence.

4. THE HOUSEHOLDERS' DIRECTORY AND STREET TELEPHONE GUIDE contains a complete directory of streets and avenues, properly located, gives the names of all householders arranged as they come upon the streets and avenues, indicates ownership of property, and gives the telephone number of each house.

5. THE RESIDENT DIRECTORY AND COSMOPOLITAN TELEPHONE DIRECTORY contains most of the data concerning the individual. The wife's name is given in parentheses, and the number of dependents under 18 is shown as well as the ownership of homes. This is followed by position, place of employment, home address and accessible telephone numbers.

Northwestern Regional Library

Explanation

All persons over 18 years of age living in the community are listed.

The wife's name is shown in parentheses after the husband's as follows: Smith Robt R (Mary L).

The number of children under eighteen years of age is shown after the wife's name as follows: Smith Robt R (Mary L) 3.

In the resident directory home ownership is designated by Ⓗ as follows: Smith Robt R (Mary L) 3 Ⓗ. Renters are shown by the omission of the Ⓗ.

In the householder's directory ownership is shown by the same designation as follows: 210 Main Smith R R Ⓗ.

In the case of a natural widow this fact is shown with the name of the deceased husband in parentheses, whenever possible, as follows: Smith Mary L (wid Robt R).

The occupation and place of employment are shown as follows: Smith Robt R (Mary L) clk Hub Clo Co.

The residence of each person is shown by "h" denoting householder or head of a family and by "r" denoting other persons in the home. Only one person in each home is listed with an "h". Therefore, a circular mailed to each householder marked "h" will reach every home in the city.

Married women engaged in some responsible occupation are listed individually in addition to their regular listing with the husband as follows: Smith Mary L (Mrs Robt R) bkpr Hub Clo Co r 210 Main.

The words street and avenue are understood.

Persons living outside the city limits and receiving their mail in the country are marked RD.

Telephone numbers are designated in the resident directory at the end of the line with the designation △ as follows: Smith Robt R (Mary L) 3 Ⓗ clk Hub Clo Co h 210 Main △498.

In the householders' directory the telephone number of each house is given at the end of the line as follows: 210 Main Smith R R Ⓗ—△498. In this division of the book each street is listed alphabetically and each house on the street is listed according to number. All street intersections are shown at the proper places with the names of the cross street. In case there is no telephone shown the nearest telephone on the street may be found.

In the numerical telephone directory the telephone numbers are listed in numerical order.

In the business directory and buyers' guide the various business and professional firms are arranged according to their line of business and merchandise sold. Nationally advertised brands are designated with a ★. For example under the heading automobiles will be found the following classification: ★FORD—Jones Mtr Co 110 Elm. The buyers' guide carries the printed message of the city's leading business and professional firms.

This directory contains all the regular departments of the modern city directory and many features used by no other publisher. It shows the exact population of the city and environs at the present time.

MOUNT AIRY CHAMBER OF COMMERCE

•

Mount Airy, the northern gateway to the beautiful Blue Ridge Mountains, is a city of approximately 7,200 citizens with a metropolitan population of approximately 25,000 people and a retail shopping area of 45,000 persons. The "Friendly City" began as a stage stop in the 1870's, had a population of 519 people in 1880 and was incorporated in 1885.

Just thirteen miles north of Mount Airy is the Blue Ridge Parkway, a National Park Motorway designed for tourists to give everyone a beautiful and impressive view of the grandeur of the best known mountain range in Eastern United States. The parkway can be reached from Mount Airy by U.S. Highway 52 and N.C. Highway 89 with many special attractions to be found along this National Park near Mount Airy.

Mount Airy is in Surry County, nestled at the foothills of mountains to the North and West providing the protection needed for an unusually temperate climate for the area. Winter weather is never real severe and the summers are always cool. Its average temperature is 58.8 degrees, ranging from an average of 41 degrees in January to 77 degrees in July. The annual total rainfall is 46 inches and total snow, seven inches. Altitude is 1,100 feet above sea level.

Mount Airy is noted for some very famous residents. The original Siamese Twins lived, died and were buried near our community; Andy Griffith, stage, radio and TV star, is a native of Mount Airy.

This fine little community has excellent industrial diversification with 57 manufacturing firms employing over 7,600 workers with a payroll of approximately $28 million. There are 19 textile, hosiery or apparel firms, eight furniture or allied industries, four plastics, four metal working or electrical, nine concrete or granite and 13 paper, printing or other types. Industrial growth shows an increase of 1,700 new jobs within the past five years.

Mount Airy is known as the "Granite City" which comes from the best known industry located in Mount Airy, the world's largest open-faced granite quarry covering 80 acres. This granite has been used in many well known structures in the United States including Arlington Memorial Bridge in Washington, D.C., the Wright Brothers Memorial at Kitty Hawk, N.C., and the Gold Bullion Depository in Fort Knox, Kentucky. Most important buildings in Mount Airy have used it as well as Davidson County's Courthouse and many State Office Buildings.

Duke Power Company furnishes electric power at rates well below the national average and their facilities are continuously being expanded.

Education is adequately supplied to the 3,110 total students enrolled in five elementary schools with 1,620 students and 59 teachers, two junior high schools with 805 students and 32 teachers and two senior high schools with 685 students and 33 teachers. All schools are fully accredited by the North Carolina State Department of Public Instruction and the Mount Airy High School is also accredited by the Southern Association of Colleges and Secondary Schools. The quality of teaching provided is apparent when 79% of the graduates attend an institution of higher learning. A new Surry County Community College and the Mount Airy School of Beauty Culture adds to the vocational and technical education facilities for the area. The cultural and further educational growth is enhanced by having 20 colleges and universities within a 100 mile radius.

Mount Airy has four financial institutions where the citizens of the community find a safe depository for their funds, adequate facilities to aid and assist business, a readiness to extend credit to worthy persons or enterprises, a responsibility to cherish and maintain high ethics in banking and cooperation with other banking institutions and the government. These houses of finance are: The First National Bank, organized in 1893, The Northwestern Bank, organized in 1910, Workmen's Federal Savings and Loan Association, organized in 1910 and United Savings and Loan Association, organized in 1956. Their combined assets total over $65,500,000.

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. Numerical Telephone Directory

1966

Containing a list of telephone subscribers arranged in numerical sequence. The information listed below was obtained by a house-to-house canvass and is offered for the convenience of subscribers to the City Directory. The Publishers are very careful in using these numbers but do not assume any responsibility in case of error. Since telephone numbers change rapidly, it is suggested that persons using this list refer to the latest edition of the regular telephone directory issued by the local telephone company in order to verify the information contained herein.
