2006-2007

SURRY COMMUNITY COLLEGE IS ACCREDITED BY THE COMMISSION ON
COLLEGES OF THE SOUTHERN ASSOCIATION OF COLLEGES AND SCHOOLS
(1866 SOUTHERN LANE, DECATUR, GA 30033-4097)
TO AWARD ASSOCIATE DEGREES, DIPLOMAS, AND CERTIFICATES.
[Questions concerning accreditation status may be
directed to the college (336-386-8121) or to SACS (404-679-4501)]

The provisions of this publication are not to be regarded as an irrevocable contract between the student and Surry Community College. The College reserves the right to make changes in the regulations, courses, fees, and other matters of policy and procedures as deemed necessary. The College further reserves the right, at any time, to request a student to withdraw when such action is considered to be in the best interest of the College.

An application for admission may be found inside the back cover of this catalog.

Inquiries should be addressed to

SURRY COMMUNITY COLLEGE
630 SOUTH MAIN STREET
DOBSON, NC 27017-8432
TELEPHONE (336) 386-8121
FAX (336) 386-8951
http://www.surry.edu

Surry Community College provides educational and employment opportunities without regard to race, religion, national origin, age, gender, or disability.
For additional information, contact the Director, Human Resources/Auxiliary Operations (336) 386-3380.

Surry Community College is a certified drug-free workplace, an equal opportunity/ affirmative action employer, and an ADA compliant institution.

A MESSAGE FROM THE PRESIDENT

G. Frank Sells

We are happy to provide you with this copy of the *Surry Community College Catalog*. Within it you'll find information about the many programs and services that we offer you on our Dobson campus, at our Yadkin Center campus, and at other locations throughout Surry and Yadkin Counties. We're proud of the programs and services that we bring you because, just like our local college as a whole, they are built on a foundation of quality learning principles.

Your learning needs provide the reason for our existence and we keep that concept at the center of our daily operations. Your success in reaching your educational goals is the ultimate measure of the college's success, and we welcome that challenge. Your choice to become involved with any educational activity holds the potential for changing your life in dramatic ways, and we value your interest in becoming involved with Surry Community College.

I invite you to visit our campuses in person and talk with our faculty and staff about your interests and what we can do to assist you in pursuing them. I think you'll be very glad that you did!

Sincerely,

G Frank Sells

Dr. G. Frank Sells
President

PURPOSE OF THE CATALOG

The purpose of this catalog is to provide a general description of Surry Community College and its various programs and services. Its provisions do not constitute an offer for a contract which may be accepted by students through registration and enrollment in the College. Surry Community College reserves the right to change without notice any fee, provision, offering, or requirements for admission or graduation.

The student's catalog of record will be that in effect on the date of his first enrollment in a specific degree program as long as his enrollment is continuous. If the student changes programs or stays out of classes for one or more semesters, his catalog of record will be that in effect when he re-enrolls in his new or old program.

COLLEGE MISSION

INSTITUTIONAL DESCRIPTION

Surry Community College is a public, community-centered, comprehensive community college with an open-door admissions policy. It is a member institution of the North Carolina Community College System. Its primary service area consists of Surry and Yadkin counties. The College offers educational programs which lead to associate degrees, diplomas, and certificates. It also offers a variety of learning opportunities and services through continuing education offerings.

MISSION

The mission of Surry Community College is to promote personal growth and community development through excellence in teaching, learning, and service.

INSTITUTIONAL GOALS

To fulfill its mission, the College will:

1. Produce excellence in student learning through quality educational programs that meet the needs of the service area.
2. Create systems of learning support to enable students to achieve extraordinary learning results in classrooms, laboratories, and beyond.
3. Improve technology resources to better address student learning, services to students, and workplace efficiency.
4. Maintain an attractive, safe, and efficient learning environment.
5. Continue to recruit, develop, and retain an excellent, learning-centered faculty and staff.
6. Position Surry as a powerful and effective community partner for creating a learning workforce in a knowledge-based economy.
7. Cultivate an organizational climate in which policies, programs, practices, and personnel support student learning as the major priority.

VALUES

In planning and implementing activities to accomplish its mission, the College affirms the following values.

1. The College is committed to offering programs which allow individuals to start where they are and progress toward their educational and occupational objectives.
2. The College is committed to providing opportunities for lifelong learning and encouraging individuals to respond to such opportunities.
3. The College is committed to excellence in teaching and learning.
4. The College is committed to the concept of academic freedom in the classroom.
5. The College is committed to using emerging technologies, including distance learning technologies, to meet the training needs of students and the community.
6. The College is committed to working with other community organizations to promote the economic development of the area and to enrich the quality of community life.
7. The College is committed to providing opportunities and incentives for professional development to support a quality team of faculty, staff, and trustees unified by the mission of the college.

8. The College is committed to the development of effective ways to evaluate college programs and services, the use of results of evaluation to improve the college, and the appropriate reporting of results to the public.
9. The College is committed to making the institution a stimulating and rewarding place to work and study.

COLLEGE VISION STATEMENT

Surry Community College will strive, through a process of continuous improvement, to exceed the expectations of the people we serve. We strive for excellence in teaching and learning as we provide quality programs and services that anticipate and respond to the needs of a changing community. We are committed to the following values: integrity, academic excellence, personal responsibility, diversity, and a life-long love of learning. We will establish and stand by commitments which foster trust, pride, teamwork, and confidence. We will work to nurture a stimulating and productive educational environment characterized by

the free exchange of ideas,
effective and respectful communication,
innovative approaches to instruction, and
a climate of mutual support and caring among students, faculty, and staff.

PERFORMANCE MEASURES AND STANDARDS

Beginning with the 1999-2000 fiscal year, the North Carolina Community College System initiated a new process to ensure public accountability for state monies spent. The new system consists of twelve performance measures. While these measures do not reflect all aspects of Surry Community College's mission, they do reflect many of the key elements of our mission. The faculty and staff of Surry Community College welcome the opportunity to document for the communities we serve our performance on these measures. We are committed to continuous assessment and improvement of the programs and services we offer.

The table on Page 12 indicates how Surry Community College rated on each measure for 2003-2004. For more information on each measure, visit the North Carolina Community College System website: http://www.ncccs.cc.nc.us/Keith_Brown/docs/planning/perfmas.pdf. Questions may be addressed to the SCC Office of Research and Assessment (336) 386-3451.

#	Measure	State Standard	SCC Results	Met Standard	Colleges Achieving	System Averages
1. $$	Progress of Basic Skills Students	75% show progress	76%	Yes	55	80%
2. $$	Passing Rates on Licensure & Certification Exams for First-Time Test Takers	80% aggregate & no single exam <70%	86% aggregate & 1 exam < 70%	No	28	85%
3. $$	Goal Completion of Program Completers	95% report goal completion	96%	Yes	56	99%
4. $$	Employment Status of Graduates	95% employed	100%	Yes	57	99.43%
5. $$	Performance of College Transfer Students	86.8% attain GPA ≥2.0	88.5%	Yes	17	83.1%
6.	Passing Rates of Students in Developmental Courses	70%	76%	Yes	56	81%
7.	Success of Dev. Students in Subsequent Course	No statistically significant difference between Developmental and Non-Developmental	Developmental 93% Non-Developmental 95%	Yes	46	Developmental 86% Non-Developmental 87%
8. $$	Satisfaction of Program Completers and Non-Completers	90% satisfied	98%	Yes	58	98%
9.	Curriculum Student Retention & Graduation	60% graduate or return	71%	Yes	52	65%
10.	Employer Satisfaction with Graduates	85% satisfied	93%	Yes	58	95%
11.	Business/Industry Satisfaction with Services Provided	90% satisfied	100%	Yes	58	100%
12.	Program Unduplicated Headcount Enrollment	No Three-Year Average Annual Enrollment of <10	1 program <10	No	34	N/A

Note: Data were taken from 2005 Critical Success Factors for 2003-2004 fiscal year.

[$$]Measures 1-5 are included in the state Performance Funding Plan. Measure 8 was selected by SCC to also be included in the plan for the 2005 report. Surry Community College exceeded the state standard on 5 out of 6 performance funding measures and thereby achieved **superior status** for the 2005 report.

LEARNING COLLEGE PHILOSOPHY

Surry Community College embraces the concept of the "learning college."[1] As a learning college, SCC will ensure that every action and decision is made from a frame of reference that first ascertains how learning is impacted. Accordingly, the College subscribes to these six key principles[2]:

- The learning college creates substantive change in individual learners.
- The learning college engages learners in the learning process as full partners, assuming primary responsibility for their own choices.
- The learning college creates and offers as many options for learning as possible.
- The learning college assists learners to form and participate in collaborative learning activities.
- The learning college defines the roles of learning facilitators by the needs of the learners.
- The learning college and its learning facilitators succeed only when improved and expanded learning can be documented for its learners.

[1] Terry O'Banion, *Creating More Learning-Centered Community Colleges*, League for Innovation in the Community College, (1997).

[2]Ibid.

SCC LEARNING INITIATIVE

The *SCC Learning Initiative* seeks to engage faculty and staff throughout the college in systemic efforts to develop the learning environment's full potential. The *Initiative* aims to establish structures, policies, leadership practices, professional development, and curriculum initiatives designed to improve the educational outcomes of all students.

The project, proposed as a three-year Quality Enhancement Plan, intends to more fully transform Surry Community College into a 21st Century Learning College. Project objectives are as follows:

Reform Organizational Culture. The College will cultivate an organizational culture in which policies, programs, practices, and personnel support learning as the major priority.

Improve Student Engagement. The College will develop and implement strategies for improving learning. Professional development programs that prepare all staff and faculty to become more effective facilitators of learning will be identified and planned.

Establish Learning Outcomes Assessment Model. The College will agree on learning outcomes relevant for all degree programs, on strategies to improve learning outcomes, on assessment processes to measure the acquisition of learning outcomes, and on means for documenting achievement of outcomes.

ADMISSIONS INFORMATION

ADMISSIONS POLICY

Admission to Surry Community College is open to anyone who is eighteen years of age or older. Under certain conditions, individuals between the ages of sixteen and eighteen may be granted admission if their local school system recommends it as appropriate. Concurrent enrollment allows high school students the opportunity to enroll in specific courses while still attending high school. Details and student release forms necessary for participation are available in the college Student Development Office and in local high school guidance offices.

Although this open-door admission policy allows access to college courses for virtually anyone, **immediate** admission to some degree/diploma programs is dependent on various factors. These factors include the following:

1. Students admitted to all associate degree programs must have been awarded a high school diploma from an accredited secondary school or have earned either a GED or Adult High School Diploma.
2. Degree-seeking students must complete placement tests prior to enrolling. Results of the testing are used to ensure students' ability to succeed in certain programs. If results indicate a lack of readiness to begin college-level work, students will be required to complete appropriate developmental studies.
3. Students interested in pursuing a degree or diploma in any of the Surry Community College nursing programs must follow the specific admission procedures which follow.

GENERAL ADMISSION PROCEDURES

The Office of Student Development is responsible for the administration and coordination of all admissions procedures.

It's not complicated or time-consuming to become an SCC student. Students should decide whether they want to pursue a degree or take a few classes. Once this decision is made, help is available in the Student Development Office. Interested persons may call the office at (336) 386-3204.

Students Seeking a Degree

I. **Admissions Form:** Applications for admission may be obtained from the main campus, the Yadkin Center, the Workforce Development Center (Mt. Airy), the back of the ***SCC Catalog***, or online at www.surry.edu. Completed forms are to be returned to the Student Development Office.

II. **Transcripts:** Have official transcripts sent to SCC from high school and any previously attended colleges. Postcards for this purpose are available in the Student Development Office. GED graduates should have copies of their scores sent to the SCC Admissions Office.

III. **Placement Tests:** An effective placement system is seldom one dimensional and this is true at Surry Community College. SCC offers the Computerized Placement Tests (CPT's) and the Paper Pencil Companion Tests to help students, with the assistance of a counselor or academic advisor, select courses and programs. The placement tests cover the important "Tool Skills" of reading, English, and math. All entering degree-seeking students are required to take the placement tests prior to enrolling. Applicants to the ADN and PN nursing programs must complete the placement tests as one part of the process for consideration for the pool of candidates for admission. (See Page 17.)

IV. **Pre-requisite Waiver Policy:** Surry Community College requires all students, including Huskins and dually enrolled students, to follow course pre-requisites as outlined by the North Carolina Community College System (NCCCS). However, students who have an extensive body of evidence (transcripts, test scores, portfolios, etc.) to merit waiver consideration can present their case to the division chair who oversees the course in question. Only the division chair responsible for the pre-requisite course in question can provide students a waiver.

V. **Course Scheduling:** After completing the placement tests, students should meet with an admissions counselor. During this meeting, a faculty (academic) advisor will be assigned to help the student plan his or her academic program.

Students Not Seeking a Degree (Special Credit Students)

I. **Admissions Form:** Applications for admission may be obtained from the main campus, the Yadkin Center, the Workforce Development Center (Mt. Airy), the back of the ***SCC Catalog***, or online at www.surry.edu. Completed forms are to be returned to the Student Development Office.

II. **Course Scheduling:** Students should meet with the staff in Student Development to select courses they would like to take and for which they are adequately prepared.

ADMISSIONS CRITERIA FOR INTELLECTUALLY GIFTED AND MATURE STUDENTS UNDER 16 YEARS OLD

Prospective students must complete the admissions application process, including supporting documentation, 30 days prior to the start of the semester. All applications and supporting documentation will be reviewed by the Surry Community College Admissions Committee. Admission to the college will be at the discretion of the committee. For a list of required documentation or for more information contact the Admissions Department at 336-386-3204 or hazelwoodr@surry.edu.

INTERNATIONAL STUDENT ADMISSION

Information on the admissions process for international, foreign, or undocumented students may be obtained from the Director of Admissions at (336) 386-3204.

ADMISSION PROCEDURES FOR NURSING PROGRAMS:
2007-2009 ADN Class and 2008 PNE Class

A student's admission to either the Associate Degree Nursing (ADN) and the Practical Nursing (PNE) programs is based upon their grades and entrance test ranking with other applicants.

I. MINIMUM ADMISSIONS REQUIREMENTS

A. MINIMUM APPLICATION REQUIREMENTS

1. STUDENTS MUST DO THE FOLLOWING TO APPLY TO THE NURSING PROGRAM AND TO TAKE THE TEST OF ESSENTIAL ACADEMIC SKILLS (TEAS)

a. Complete the SCC General Admissions Application.
b. Have an official high school transcript or GED scores mailed to the Admissions and Records Office. Official transcripts should be mailed from the institution(s) attended or be hand delivered by applicant in an envelope sealed by a representative of the school(s) attended.
c. Completed appropriate Placement Test, completed developmental perquisites or achieved the cut off scores for credit in these courses
d. Have and maintain an overall GPA of 2.5 or higher in *all* post-secondary courses taken in the last 3 years. If high school students have no post-secondary courses they must have at least a 3.0 GPA in their high school courses.
e. Have achieved at least a "C" in required curriculum courses with no more than 3 attempts per course.
f. For ADN applicants who have not taken BIO 165 Anatomy & Physiology I , Biology and Chemistry must have been completed in either high school or college and achieved at least a grade of "C".

TEAS Test Schedule
ADN – January 20, 2007
PNE- May 19, 2007

2. COLLEGE PLACEMENT TEST SCORES

a. To be considered for admission to the program, all applicants must have completed all developmental prerequisites or met cut-off scores for exiting MAT 070, RED 090, and ENG 090.
b. If an applicant scores less than the minimum cut-off scores on the Placement Test, he/she will be required to complete the essential sequence of developmental courses. If the student completes all of the required remedial courses with a grade of "C" or better prior to the application deadline date and meets the other minimum requirements, he/she may be considered eligible to apply to the Program.
c. The College Placement Test or any combination of college placement tests may be taken twice in twelve (12) consecutive months and must have been taken in the last three years. However, when a nursing applicant has tested more than twice in twelve consecutive months, only the first two attempts will be considered in the application process. Placement test scores which violate the testing policy will be disregarded.
d. If the college placement test has been taken at another community college (in the past three years), it is the student's responsibility to ensure that the scores are transferred to Surry Community College.

3. REQUIRED PREREQUISITE FOR BIOLOGY 165 ANATOMY & PHYSIOLOGY I

Students who take BIO 165 at Surry Community College must have completed a Biology and a Chemistry course in high school or college and achieved a grade of "C" or higher.

4. **REQUIRED GRADES AND LENGTH OF TIME SINCE COMPLETING SCIENCE IF TAKEN PRIOR TO ADMISSION.**
Students must have achieved at least a "C" in all curriculum courses with no more than 3 attempts. BIO 165 & BIO 166 completion must have been within the last 5 years. (LPN/ADN students are exempt from "Length of Time Criteria.")

5. **TEST OF ESSENTIAL ACADEMIC SKILLS (TEAS): NURSING ADMISSION TEST**
   a. When the student has met all minimum application requirements, they must contact the Nursing Admissions Counselor in Student Development who will compete the checklist form which is required to register for the TEAS test. The student must then contact the Nursing Department's Administrative Assistant at 386-3275 to register to take the TEAS Nursing Admissions exam. A testing time will be provided when the applicant is scheduled for the TEAS. The cost must be paid at the time of registration.
   b. Nursing applicants are allowed to take the TEAS once a year (12 months). TEAS score are valid for 3 years. Study guides and online practice tests for the TEAS may be purchased online at www.atitesting.com.
   c. In order to be considered for the Associate Degree Nursing Program or Practical Nursing Program, a student must score at or above the national mean score for all students taking the TEAS the previous year. Those who have taken the TEAS in previous years should be aware that only those scores from the two most recent attempts will be considered.

6. **LPN/ADN APPLICANTS MUST HAVE A UNRESTRICTED PRACTICAL NURSING LICENSE IN NORTH CAROLINA OR ONE OF THE COMPACT STATES.**

II. CRITERIA FOR SELECTION OF NURSING STUDENTS

Those student applicants who have the highest rank on their grades earned in BIO 165, BIO 166, ENG 111, ENG 112 or 114 and RED 111 (current High School students in top 15% of class receive 10 points) and the number of correct questions they have on the *Test of Essential Academic Skills (*TEAS) will be admitted into nursing program. Students must achieve the required TEAS score to be considered for admission. The required TEAS score is the TEAS national average of questions answered correctly for the previous year.

III. ADMISSION NOTIFICATION

Those students who are accepted into the ADN program will be notified by mail in March before the Fall Semester entry point. Those students who are accepted into the PN program will be notified by mail in July before the Spring Semester entry point. Medical forms, acceptance cards and orientation information will be included in the acceptance packets. Students must immediately return acceptance forms in order to maintain their admitted status. Final admission status is contingent upon completion of the required items (See III. Additional admission requirements) by the dates requested.

IV. NURSING ADMISSION TIMELINE

If your projected start date is fall semester:
(ADN program, including LPN/RN Option)

College Application	Completion of Minimum Nursing Application Requirements	TEAS	Acceptance Notification
January 19	January 19	January 20	March

If your projected start date is spring semester:
(PN program)

College Application	Completion of Minimum Nursing Application Requirements	TEAS	Acceptance Notification
May 18	May 18	May 19	July

V. MEETING

It is recommended that all nursing program applicants attend a Nursing Applicant Information Session. Contact the Nursing Admissions Counselor for more information.

VI. ADDITIONAL ADMISSION REQUIREMENTS

Admission into either nursing program is contingent upon completion of the following items by the dates requested. Prospective students **must** submit:

A. Valid documentation of current Nurse Aide I certification and any other current related certifications, licenses, etc. (LPN/ADN students are exempt from this requirement.)

B. A completed medical form with test results and the most recent dates of immunizations, including Hepatitis B series, or certification of immunity or a signed waiver; positive Chicken Pox titer or recent immunization; positive MMR titer; and Td booster within the last 8 years. The medical form must be completed and submitted to the nursing department no later than June 1 for ADN students and September 1 for PN students. Arrangements will be made at the students' expense to have TB tests the first month of their initial nursing course and the same month the following year.

C. CPR provider certification class will be held for the entire class prior to the beginning of clinicals. Students will be responsible for the cost of the CPR class.

D. Evidence of appropriate health and/or accident insurance.

E. Malpractice insurance must be paid by the orientation session for new nursing students.

***F. Documentation** of one year of clinical experience with direct patient care in a health care agency within the last three years.

* Required for LPN/ADN program

VII. CRIMINAL BACKGROUND CHECKS AND DRUG SCREENING

In the nursing program, students are assigned clinical rotations in a number of participating agencies. Various accrediting bodies, as well as state and federal mandates regulate these agencies. The accrediting bodies or state and federal regulations may require that students while practicing in a clinical setting have a criminal background check or drug screening. The drug screening may be done once, before the student reports to the clinical agency, or randomly, during the clinical experience. If the student has a criminal conviction, tests positive for illicit drugs, or drugs that a student cannot produce a valid prescription, the agency may refuse to allow the student to participate in the clinical experience. The Surry Community College Nursing Department is supportive of the clinical agencies that choose to perform drug tests and/or criminal background checks on nursing students.

If a nursing student is prohibited from participating in a clinical agency based on their criminal background screening, the school will make every effort to place the student in a comparable clinical setting. If the school is unable to facilitate this placement, the student will be dismissed from the nursing program due to their inability to progress.

STUDENT CLASSIFICATION

A freshman is a student who has met regular admission requirements and has earned fewer than 30 semester hours of credit.

A sophomore is a student who has earned 30 or more semester hours of credit with at least a 2.0 quality point average.

Full-time students are those who carry academic loads of 12 or more credit hours each semester. Part-time students are those who carry fewer than 12 credit hours per semester.

ADMISSIONS REQUIREMENTS

Availability of programs based on educational preparation

If you have a . . .	*You may enroll in . . .*
High School Diploma	--**All programs
GED	--**All programs
High School Certificate	--Most diploma and certificate programs
No high school diploma, GED, or high school certificate	--Some diploma and certificate programs

In order to qualify for financial aid, a student must possess a high school diploma or GED.

***Nursing admissions information is listed on preceding pages.*

STUDENTS' RIGHTS AND RESPONSIBILITIES

STUDENT RIGHTS

Surry Community College exists to help students attain the educational goals they have set for themselves. When students register for classes and pay tuition, they gain certain specific rights designed to guarantee fair and consistent services for all students. Students have the right to

1) receive in writing the requirements, evaluation methods, and the method of grade determination of a course at the beginning of each semester;
2) appeal any grade they think is unfair;
3) express any concerns privately with instructors, administrators, and other staff members;
4) participate in a college-approved process of course evaluation;
5) access their official academic student records;
6) be assured confidentiality of their official student records; (Access to student records will be granted to appropriate college officials and persons or agencies having a legitimate educational interest. Others wishing access must have written consent from the student. An exception to the above right will be made in the event of legal action where the safety of persons or property is involved);
7) permanent maintenance of their academic transcripts by the College; and
8) receive information concerning college student graduation rates.

STUDENT RESPONSIBILITIES

All programs establish certain academic requirements that must be met before an academic award is granted. Advisors, department chairpersons and deans are available to help the student understand and arrange to meet these requirements, but the student is responsible for fulfilling them. If at the end of a student's course of study, the requirements for graduation have not been satisfied, the respective certificate, degree, or diploma will not be granted. For this reason, it is important for each student to acquaint himself or herself with all academic requirements throughout his or her college career and to be responsible for completing all such requirements.

Students are responsible for

1) being aware of and abiding by institutional rules, regulations, and policies;
2) maintaining individual honor in their academic pursuits by neither participating in nor condoning acts of academic dishonesty;
3) maintaining the standards of academic performance established by each course in which they are enrolled;
4) learning the content and demonstrating the competencies of any course of study in which they are enrolled;
5) maintaining in each course the standard of classroom conduct deemed by the institution to be conducive to the learning process;
6) complying with procedures governing tardies and absences explained in each course syllabus;
7) reviewing periodically their institutional academic record for completeness and accuracy;
8) conducting themselves in an appropriate manner while on campus or while functioning as a representative of Surry Community College;
9) conducting the business of student clubs and associations in a fair and equitable manner; and
10) adhering to and complying with prescribed institutional grievance procedures.

ROLE IN DECISION-MAKING

The college trustees, administrative staff, and faculty are involved constantly in making decisions which affect students. Because students' ideas and concerns are highly valued, every effort is made to solicit student input for the decision-making process. Student representatives are found on the SCC Foundation Board, Board of Trustees, and administrative standing committees. Guidelines for appointment to these groups can be found in the Inter-Club Council/Student Government Association Bylaws.

STUDENT CONDUCT

The conduct of college students, both in and out of school, is expected to be that of any respectable adult in a public place. Students should consider at all times that the reputation of the institution depends in no small part upon their behavior. No long list of rules and penalties should be necessary if each student abides by the rules of common courtesy and cooperation; however, certain North Carolina state laws govern the use and possession of drugs or alcoholic beverages in public and the possession of firecrackers, firearms, or explosives of any kind. Surry Community College has adopted and implemented a program to prevent the illicit use of drugs and the abuse of alcohol by students and employees.

State laws also prohibit hazing of any student by another student or students. The College will dismiss any students who in its judgment conduct themselves in a manner incompatible with the purposes of the college.

DISCIPLINARY ACTION

Students on SCC premises or at college-sponsored events whose conduct adversely affects the objectives of the College or violates the rules and regulations of the College are subject to disciplinary action. Violations involving cheating; copying; forgery; disruptions; physical threat or abuse; theft; property damage; failure to heed an official's directive; persistent infractions of traffic regulations; selling or solicitation of goods or services; harassing; using, possessing, transmitting, or being under the influence of alcohol or drugs; and behavior conflicting with safety are all subject to disciplinary action. The Executive Vice President/Chief Financial Officer, Dean of Student Development, and President are responsible for enforcing these policies.

STUDENT SAFETY

The administration and staff at Surry Community College make an effort to provide a safe and healthy educational environment. From time to time, certain elements or factors such as weather conditions, power outages, accidents, human error, or poor judgment by other students can create potentially dangerous situations. Students at Surry Community College are advised and encouraged to be conscious of their personal safety and to always take whatever actions necessary to preserve that safety. Students having concerns about safety on campus should contact the Dean of Student Development or the Dean of Evening Studies.

RESPECT FOR PROPERTY

Respect for private and public property reflects upon a person's character. Students at Surry Community College are requested to show respect for the property of others at all times.

Traditionally, students take pride in their school's property. This means assuming a responsibility for preserving the beauty of the grounds and the buildings. The Inter-Club Council/Student Government Association asks that all students join in an effort to carry out this student responsibility.

INCLEMENT WEATHER SITUATIONS

Extreme weather conditions during the winter months may require Surry Community College to cancel or delay classes. According to college policy, weather conditions must be **extreme** before classes will be cancelled.

Two decisions are possible in the mornings: (1) Surry Community College will be closed, or (2) the college will delay its opening. **If no announcement is made, classes will operate on a regular schedule.** If classes are cancelled or delayed, faculty and staff workday is also cancelled or delayed, unless otherwise specified.

An announcement concerning evening classes will be made by 5:00 p.m.

Suggestions are listed below for faculty and students to follow.

1. Listen to one of the following radio or television stations for information:

WPAQ - Mount Airy (740 AM)	WBOB-AM - Galax
WSYD - Mount Airy (1300 AM)	WKZL - Winston-Salem (107.5 FM)
WYZD - Dobson	WMAG - Winston-Salem (99.5 FM)
WIFM - Elkin (100.9 FM)	WXII-TV - Winston-Salem
WSJS - Winston-Salem (600 AM)	WFMY-TV - Greensboro
WCOK - Sparta	WGHP-TV - High Point
WHHV - Hillsville	WXLV-TV 45 - Winston-Salem
WBRF-FM - Galax	
WFDD - Winston-Salem (88.5 FM)	

2. A decision to close the college or operate on a delayed schedule will be announced no later than 7:00 a.m. (usually earlier). **No announcement will be made if the college is to operate on a regular schedule.**
3. Any decision to delay or cancel classes will be available as soon as it is made by calling the main campus phone number (386-8121) and by connecting to the college internet website (*www.surry.edu*).
4. A decision to close early will be implemented so that everyone gets the message as close to the same time as possible. No classes are to dismiss before receiving an official message. A decision to close means that faculty and staff may also leave after reasonably assuring that all students in their charge have been released. Any exception to the early release of faculty and staff will be announced.
5. If no announcement is made, classes will operate on a regular schedule.

If you have questions concerning this policy, contact a member of the college administrative staff.

GRADUATION RATE DISCLOSURE

Title II, Public Law 101-542, dated November 8, 1990, requires educational institutions to disclose graduation rate data. Such data for Surry Community College are available in the Office of Research and Assessment, Richards Health Sciences Building, Room H-218.

GENERAL INFORMATION

TELEPHONES

Pay telephones are available for students to use at any time. These telephones are located in the almost all college buildings. **Students are requested not to use phones located in the college offices except in an emergency. Also, incoming calls for students will be honored only in the case of emergencies.**

LOST AND FOUND

If students have lost or found an item, they should check with the receptionist in the Business Office.

CHANGE OF NAME/ADDRESS

Students whose name or address changes while they are enrolled at the college should fill out a Data Change Card and submit it to the Admissions Office. Someone is also available in the evening to make these changes.

LOCKERS

A limited number of lockers are available for use on a first-come, first-served basis with the purchase of a lock. Check in the bookstore for availability.

FINAL EXAM SCHEDULE

The schedule for final examinations is distributed approximately two weeks before the end of each semester. Copies of the schedule are available from faculty advisors and counselors.

SMOKING

Smoking is not permitted in any campus building. Smokers should place all waste paper and cigarette butts in the proper disposal units outside each building. Please limit smoking to the designated areas outside of each building.

CHILDREN ON CAMPUS

Parents and other students are requested not to bring young children to campus or to class. The college liability insurance will not cover anyone who is not officially registered for classes at SCC. State law requires that a person be 16 years old in order to register for a class. Also, a small child in class can be disconcerting to other students and the instructor. SCC provides supplemental financial support for students unable to afford day care for their children. Students who have daycare needs should contact Tony Searcy in the Student Development Office.

PARKING AND TRAFFIC

Parking and traffic regulations have been established to make the fullest use of the present parking facilities and to make the campus a safe place to visit, work, and study. All students and staff are required to register their vehicles during registration. Vehicle registrants must present the state vehicle registration card and remit $5.00 to obtain a parking permit. A copy of ***SCC Traffic Rules & Regulations*** is provided to all students and staff at the time of registration.

RELEASE OF STUDENTS' PICTURES

SCC uses pictures of college activities and students for public information and advertising purposes. Students who do not want to appear in such photographs should notify the Office of Student Development in writing.

STUDENT-RELATED POLICIES

STUDENT RECORDS POLICY

I. **Responsibility for Security and Release of Students Records.** Dean of Student Development.

II. **Definition of Student Records.** Records are defined as data of an administrative or educational nature normally stored in a student's cumulative record folder. Records not considered a part of the official school records include notes or other memory aids of a confidential nature maintained by school personnel for their own use in working with students. Such notes become part of the student's official record only when they are shared with another person.

III. **Right to Inspect Student Records.** An eligible student's request to inspect or review his or her record shall be honored within a reasonable time by the Dean of Student Development; in all cases, within 45 days after the initial request.

IV. **A.** Personnel who may have access to student records:

1. School officials within the local educational agency who have legitimate educational interests.
2. School officials of other local educational agencies in which the student intends to enroll.
3. Certain authorized representatives of the State and Federal Government (PL 93-380).
4. Official representatives of a college, university, or other higher educational institution in connection with a student's application for, or receipt of, financial aid.
5. All other persons may gain access to a student's records only with the specific written consent of the eligible student.
6. Recipients of student records will be cautioned that student information may not be released to third parties without the consent of the eligible student.

B. Information from a student's record should be furnished without the student's consent when required by a judicial order or any lawfully issued subpoena upon condition that students are notified by the law enforcement agency of all such orders or subpoenas in advance of the compliance. Eligible students will be provided with the opportunity to review and challenge their records prior to compliance of the school with the judicial order or subpoena.

V. **Request from Prospective Employers.** Every effort shall be made to cooperate with prospective employers of Surry Community College graduates. Information given shall be of a general nature such as: dates of enrollment; program of study; fair, poor, good, excellent student; participation in extra-curricular activities, etc.

COMMUNICABLE DISEASE POLICY

The communicable disease policy of Surry Community College is an effort to ensure the health and safety of all employees and students. This policy includes, but is not limited to, acquired immune deficiency syndrome (AIDS), chicken pox, hepatitis, measles, tuberculosis, meningitis, mononucleosis, and whooping cough.

Faculty, staff, students and employees of contractors or contracted services infected with communicable disease have the responsibility of reporting this fact to the Dean of Student Development, the Executive Vice President/Chief Financial Officer, or the Vice President for Academic and Student Affairs.

The College will support an ongoing program of educating and informing faculty, staff, and students about communicable diseases, warning signs, and protective measures through publications, seminars, and other appropriate means.

DRUG AND ALCOHOL ABUSE POLICY

Surry Community College has become increasingly aware of the immediate and long term health risks associated with the use of illicit drugs and the abuse of alcohol. These substances can create both physical and psychological dependence. The harmful effects of alcohol abuse are alcoholism; damage to brain cells; malnutrition; blackouts; memory loss; personality disorders; degeneration of muscles and bones; and the increased risk of cirrhosis, ulcers, heart disease, heart attack, and cancers of the liver, mouth, throat, and stomach. The harmful effects of drug abuse include hallucinations, heart problems, malnutrition, loss of coordination, coma, convulsions, damage to the lungs, brain, liver, and bone marrow, risk of AIDS or hepatitis, or death.

Drugs and alcohol are detrimental to the learning process. Surry Community College pledges full support to other

agencies in our community in the fight to rid our society of these elements in the school environment. Therefore, drug or alcohol use, possession, and distribution on school grounds and at school functions by students or school personnel will not be tolerated. Surry Community College will impose sanctions on students and employees consistent with local, state and federal laws.

CHEATING AND PLAGIARISM POLICY

Students at Surry Community College are expected to complete their coursework without resorting to any form of cheating or plagiarism. SCC is a learning college committed to enhancing and improving student learning; when students cheat on assignments and tests, they rob themselves of the very learning opportunities they are paying for.

Cheating involves giving unauthorized help of any kind to another student on written assignments or tests. It also includes receiving such help from another student. Examples of cheating include possessing unauthorized notes during a test; assisting others to cheat; altering grade reports; giving test questions to students who have not taken the test; taking a test or writing an assignment for another person; and entering an instructor's office without authorization.

Plagiarism is offering the work of another person as one's own without proper acknowledgment. Examples of plagiarism include copying a source (whether it be phrases, sentences, or paragraphs) verbatim without using quotation marks; quoting or paraphrasing a source without including a citation; failing to give credit for a source's ideas; inaccurately citing and listing bibliographic information; and purchasing papers on the Internet to submit (in part or in whole) under one's own name.

Any student who engages in these activities will be subject to disciplinary action. Each faculty member at SCC outlines his/her policies on cheating and plagiarism, including disciplinary actions, in course syllabi. Students should be aware that there is no college-wide system of penalties for plagiarism and cheating and that individual instructor's policies are respected and followed. Students do have the right to due process through the review and appeal council. Any appeal or grievance should be filed with the department chairperson, appropriate dean, or supervisor within 30 days after the incident or problem developed.

Student Responsibilities: It is the students' responsibility to provide proof that all written work is indeed their work. Students should copy all drafts, notes, revisions, and source material (e.g., note cards) to offer as proof of ownership if such proof is requested. Students should acknowledge any assistance they have received, including proofreading, and should decline any unauthorized assistance on assignments. Students should not submit the same assignment in more than one course unless they have received prior permission from both instructors. Students should avoid the appearance of cheating during tests by covering their answers, sitting away from friends, keeping their eyes on their own work, speaking only to the instructor, and clearing their work space of all unauthorized material.

HARASSMENT AND DISCRIMINATION POLICY

Surry Community College prohibits discrimination based on race, color, creed, religion, national or ethnic origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status and will not tolerate any form of unlawful discrimination or harassment. Surry Community College will take all steps necessary to prohibit unlawful discrimination and/or harassment in the workplace and educational setting. All employees and students are responsible for ensuring a work and educational environment free from prohibited discrimination and harassment. Employees and students are encouraged to report violations of this Policy in the manner hereinafter stated.

1. **Scope of Policy**. This Policy applies to all Surry Community College employees and students, and to all College sponsored events, programs, and activities both on and off campus.
2. **Policy Objectives**. By adopting and publishing this Policy, it is the intention of the Surry Community College Board of Trustees to: (1) notify employees and students about the types of conduct which constitute unlawful discrimination or harassment prohibited by this Policy; (2) inform employees and students about the complaint procedures established by the College which enable any employee/student who believes (s)he is the victim of unlawful discrimination or harassment to submit a complaint which will be investigated by the College; (3) clearly advise all supervisory staff, administrators, employees, and students that discriminatory treatment or harassment based on race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, and veteran or marital status is strictly prohibited and no such person possesses the authority to harass or discriminate; and (4) notify all employees and students that the College has an appointed Compliance Officer who is specifically designated to receive complaints of discrimination or harassment and to ensure compliance with this Policy.

3. **Definitions.**
   A. **"Prohibited Discrimination of Employees and/or Students"**.
   Prohibited discrimination of employees and/or students is any form of negative treatment of an employee or a student, by either a College employee, official, or student which: (a) negatively impacts an employee's employment opportunities and/or employment negatively impacts a student's educational opportunities; *and* (b) is based upon the employee's or student's race, color, creed, religion, national or ethnic origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status. Prohibited discrimination of employees or students can also take the form of harassment even where there is no tangible impact upon the employee's employment opportunities and/or employment benefits or the student's educational opportunities. The phrase "prohibited unlawful discrimination" as used in this Policy includes all forms of "prohibited unlawful harassment" (defined below).
   B. **"Prohibited Unlawful Harassment"**.
   Harassment can constitute a form of prohibited unlawful discrimination under this Policy if it is unwelcome and has the purpose or effect of unreasonably interfering with an individual's work or educational performance, or creating an intimidating, hostile or offensive working or educational environment. Such harassment of employees or students is prohibited by this Policy if it is based upon race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, and veteran or marital status. In this regard, individuals subject to this Policy should be mindful that conduct or behavior that is acceptable, amusing or inoffensive to some individuals may be viewed as unwelcome, abusive or offensive to others.
   C. **"Prohibited Behavior"**. While it is impossible to list all of the possible forms of unlawful harassment, the following is a list of *examples* of conduct that may constitute harassment:
      - Using slurs or derogatory terms based on race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status
      - Telling derogatory jokes or stories based on race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status
      - Displaying graffiti or other derogatory or insulting writings based on race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, and veteran or marital status
      - Making degrading comments about a person and/or his or her appearance based on race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status
      - Demeaning or criticizing an individual because of his or her race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status
      - Sabotaging, damaging, or interfering with an individual's work because of that individual's race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status
      - Threatening or intimidating an individual because of his or her race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status.

   This list is not intended to be all-inclusive. Furthermore, while a single incident of these types of behavior may not create a hostile working or educational environment, if such behavior is severe, persistent or pervasive, or if submission to such conduct is made either explicitly or implicitly a term or condition of employment or receipt of employment benefits or educational outcome, such conduct constitutes prohibited discrimination and/or harassment.

4. **Policy Enforcement.**
   A. **Complaint Procedure for Employees and/or Students**
      1. **Notification Procedure**. Prompt reporting of complaints or concerns is encouraged so that timely and constructive action can be taken before relationships become strained. Reporting of all perceived incidents of prohibited discrimination and/or harassment is encouraged, regardless of the offender's identity or position. An individual who feels aggrieved because of harassment or unlawful discrimination has several ways to make his or her concerns known:
         a. An aggrieved person who feels comfortable doing so should directly inform the person[s] engaging in the harassment or unlawful discrimination that such conduct or communication is offensive and must stop.

NOTE: Confronting the offender is NOT required. All employees and/or students have the right to file a complaint without first communicating with the offender.

b. An aggrieved person who does not wish to communicate directly with the individual whose conduct or communication is offensive, or if direct communication with the offending party has not stopped the behavior, should contact the Compliance Officer listed in Section 8 of this Policy, or any Dean or Vice President, or the President.

c. An aggrieved person alleging harassment or discrimination by anyone with supervisory authority, or alleging failure of supervision to take immediate action on the individual's complaint, should contact the Compliance Officer, any Dean or Vice President, or the President.

2. **Making a Complaint**. All complaints should be in writing and should include: the name of the complaining party, the name of the alleged offender(s), date of the incident(s), description of the incident(s), names of witnesses to the incident(s) and the signature of the complaining party. Once the complaining party has completed and dated a written complaint, the complaint may be submitted, either by hand delivery or mail, to the Compliance Officer listed in Section 8 below, to any Dean or Vice President, or to the President who will then advise the Compliance Officer. Complainants are expected to cooperate with the College's investigation procedures by providing all relevant information relating to the complaint, as are other individuals having relevant or related knowledge or information.

B. **Time for Reporting a Complaint**. Prompt reporting of all complaints is strongly encouraged to ensure appropriate resolution of discrimination and harassment complaints.

C. **Confidentiality and Privacy**. In recognition of the personal nature of discrimination and harassment complaints and the emotional impact of alleged discrimination and harassment, the College shall keep complaints as confidential as is consistent with a thorough investigation and with laws and regulations regarding employees and/or students.

D. **Acknowledgment of Complaints**. Upon receipt of a written complaint, the Compliance Officer, Dean, Vice President, or President shall contact the complainant within 10 business days to confirm that the written complaint has been received. If the complainant does not receive such confirmation promptly, (s)he is encouraged to contact the Compliance Officer, Dean, Vice President, or President. The purpose of this acknowledgment procedure is to ensure that all written complaints are received by authorized individuals, carefully processed, and promptly investigated.

5. **Investigation Procedures.**

A. **Timing of Investigations**. The College will promptly investigate all allegations of discrimination and harassment prohibited by this Policy and shall initiate the investigation within ten (10) business days following receipt of the complaint. The College will also attempt to complete investigations under this Policy promptly. The length of the investigation will depend upon the complexity and particular circumstances of each complaint.

B. **Method of Investigation**. Investigations will be conducted by the College's Compliance Officer, the College's legal counsel, and/or other impartial persons designated by the President. The primary purposes of all investigations under this Policy will be to determine: (1) Did the conduct complained of occur?; (2) Did the conduct complained of violate this Policy?; and (3) What remedial or preventative steps, if any, are recommended? The College will investigate each complaint in a thorough and comprehensive manner. Any notes, memoranda, or other records created by College employees or agents conducting an investigation under this Policy shall be deemed confidential and/or privileged to the extent allowed by law.

C. **Notification to Complaining Party and the Accused Party**. The President or his/her designee shall notify the complainant of the outcome of the investigation with justification for his decision. Such notification shall be in writing, shall include a brief summary of the factual findings and, wherever possible, shall include a summary of any remedial measures that have been or will be taken by the College. While reasonable efforts will be made to inform the complaining party about the outcome of investigations, the College will nonetheless consider the privacy rights of all parties involved in disseminating information obtained during and through the investigation. The President shall notify within fourteen (14) business days following the completion of the investigation the person accused of violating this Policy whether a violation of this Policy was found and what remedial measures, if any, will be taken by the College or recommended to the Board of Trustees for action.

D. **Remedial Measures**. Surry Community College's primary goal in responding to complaints of prohibited discrimination under this Policy is prevention. This Policy is intended to prevent all forms of

unlawful discrimination and harassment in the College and put an end to any prohibited discrimination that is found to have occurred. While disciplinary action may be appropriate in certain instances, punitive measures are not the exclusive means for responding to prohibited discrimination. During the pendency of any investigation being conducted pursuant to this Policy, remedial measures may be taken if appropriate and necessary. Any individual who is found to have engaged in prohibited discrimination or conduct which may be prohibited by this Policy, may receive education, training, counseling, warnings, discipline, and/or other measures designed to prevent future violations of this Policy. Disciplinary action may include reprimands, warnings, suspension, or discharge from employment or enrollment, in the event of a student. Any third party found to have engaged in discrimination or harassment of an employee and/or student may be barred from College property.

Time limitations set forth above in paragraphs A, B, and C may be extended by mutual agreement of the complainant and respondent with the approval of the President. Such extensions shall be confirmed in writing.

6. **Prohibition Against Retaliation And Abuse Of The Policy.** Retaliation is strictly prohibited by this Policy and by law against anyone who in good faith reports a suspected violation of this Policy, who assists in making such a complaint, or who cooperates in a harassment or discrimination investigation. Retaliation means taking any adverse action in response to a complaint being made. Written complaints of retaliation should be brought directly to the Compliance Officer, Dean, Vice President, or the President. The written complaint should specify the date(s), time(s), locations(s), and witness(es), and should describe the incident(s). Such complaints will be promptly investigated. If retaliation is found, the person retaliating will be subject to corrective action up to and including termination from employment, or in the case of a student up to and including suspension and/or dismissal. Because of the damage resulting from false accusations, any individual who in bad faith knowingly makes a false complaint or report of harassment or discrimination will be subject to disciplinary action up to and including termination from employment, or in the case of a student up to and including suspension and/or dismissal.

7. **Appeals.** Any complainant or accused party who wishes to appeal the procedures which the College followed in investigating a written complaint filed under this Policy, may do so within ten (10) business days of receipt of the appellant's notification of the investigation outcome. Untimely submissions shall not receive consideration. Such appeal must be made in writing to the Board of Trustees by submission to the President. The appellant shall be entitled to a hearing before the Board of Trustees or a panel of its membership selected by the Board's Chairperson. At the hearing the appellant may be represented by counsel at his or her expense and may present evidence as to why the decision of the President should be reversed or modified. Following a review of the evidence, as well as the information obtained in the investigation process and conclusions derived therefrom, the Board of Trustees shall issue a decision within fourteen (14) business days following completion of the hearing. The decision of the Board of Trustees shall be final.

8. **Compliance Officer**. The Director of Human Resources shall be the Compliance Officer for purposes of this policy and can be reached at (336) 386-3380.

9. **Effective Date And Policy Dissemination**. The effective date of this Policy shall be January 1, 2005. The President shall ensure that this Policy is adequately disseminated and made available to all employees and students of the College. This Policy shall be distributed at the beginning of each academic year with or as part of the College's Policy and Procedure Manual and on the College's web page at *www.surry.edu*. In addition, copies of this Policy shall be maintained at the following College offices: Admissions, Student Development, Human Resources, and the President.

Adopted by the Board of Trustees February, 2005

CAMPUS SECURITY POLICY

Federal regulations require that colleges inform all students and employees about recent crime statistics and related concerns. There were no occurrences of criminal activity reported and no arrests made on campus during 2005.

Surry Community College is a drug-free campus. Policies relating to this matter are available in their entirety in the Student Development Office, Building A-Room 108, and on the college web site.

1. **Reporting Criminal Activity.** Students and staff are advised to report any emergency or crime to the SCC Police Department and to the switchboard as soon as possible**.** These staff will report any crime that takes place at SCC to the college police department. In cases of extreme emergency, telephones are conveniently located throughout the campus for "911" calls.

2. **Orientation.** Students are advised of security and safety regulations at SCC during fall orientation and in College Student Success classes. Students are also familiarized with the college drug and alcohol policy, and are advised to seek help in Student Development for any related problems. Student Development refers students to other community agencies for additional services when appropriate.
3. **Safety Committee.** SCC has an active safety committee chaired by the Executive Vice President/Chief Financial Officer. This committee monitors all aspects of campus safety and security. Reviews of lighting, visibility, parking lot security and building security are made on a regular basis.
4. **Campus Police.** SCC is a certified law enforcement agency, and as such, employs sworn law enforcement officers to enhance the safety of students and staff while on campus. The police force patrols the campus on a regular basis. The officers are authorized to enforce federal, state and local laws, as well as certain campus policies, and they do have the authority to make arrests. The SCC Police Department cooperates with federal, state and local police agencies in law enforcement matters.
5. **Programs and Seminars.** SCC's Police chief speaks to all orientation classes about campus security and explains current policies to all new students. SCC offers one seminar per year on sexual assault/date rape and drug/alcohol concerns. SCC registration forms inform students about the Drug and Alcohol Policy, Sexual Harassment Policy, prohibition of weapons on campus, unlawful demonstrations, violence or force, and campus security. This information is also available in the SCC catalog. All on-campus activities are designated as drug-free activities. SCC hosts an annual Health Fair where information is available regarding domestic violence and other personal issues. One SCC counselor in Student Development is assigned to advise students on alcohol/drug issues.
6. **Publications.** The annual campus security report is published on the SCC website. *(www.surry.edu).*
7. **Security Awareness.** The chief of the SCC Police Department is responsible for collecting statistics on campus crime and for maintaining a daily public crime log. The Chief is also responsible for distributing the campus security report to all employees. The Student Development Office is responsible for distributing the report to students and for informing the campus community in a timely manner of certain crimes considered to represent a threat to students or employees.

Surry Community College attempts to provide a safe environment in which to learn. The occurrence of crime on campus has been minimal throughout the history of the College. However, students are advised to keep up with books and other possessions and to lock their vehicles. Evening students are advised to walk to their cars with other students, especially if they stay late to complete a class or assignment. In general, SCC parking lots are close to the classroom buildings and are well lighted. The College is committed to providing a learning environment that is as safe and secure as possible.

Approved September, 2000; President's Cabinet

APPEAL PROCESS POLICY

In order to be fair and guarantee due process for faculty, employees, and students, the Board of Trustees of Surry Community College recognizes the need for an Appeal Policy. In approving the policy, the Board of Trustees recognizes that problems should be solved at the level of occurrence. The adoption of an Appeal Policy by the Board of Trustees does not relieve individuals of making every effort to find a solution to the problem before making an appeal to the next authority.

I. Hearing the Appeal Procedure

A. If a person has a grievance or if an impasse occurs between persons at the college, the aggrieved person may request in writing within 30 days a hearing by the department chairperson and appropriate dean or supervisor of employees. A hearing shall be granted within seven days, and within five days after such a hearing, the department shall render in writing a decision on the grievance. A copy of the decision shall be given to the petitioner and a copy filed with the president of the college.

B. If the person receives an unsatisfactory decision from the hearing as outlined in Paragraph I.A., the petitioner may request in writing within seven days for a hearing or a review of the decision by the Appeal Council of the College. The Appeal Council shall render its decision in writing within five days after receiving the request from the petitioner.

C. If the person receives an unsatisfactory decision from the Appeal Council, the petitioner may request in writing for a hearing or a review of the decision by the president. The person shall file his or her request within seven days from the time he or she receives the decision of the Appeal Council.

D. A dean or supervisor of employees shall file his or her grievance directly with the Appeal Council.

II. Appeal Council

The Appeal Council is composed of the college's Vice President for Academic and Student Affairs, the Associate Vice President of Continuing Education, Dean of Student Development, and three faculty representatives selected by the Employee Association.

A. Schedule of Hearings. Upon receipt of a written request for hearing by a petitioner, the Appeal Council shall conduct such hearing within a period of seven days.

B. Notice of Hearing. The petitioning party shall be given at least three days notice of the date, time, and place of the hearing.

C. Conduct of Hearing

1. The petitioning party shall appear before the Appeal Council with witnesses and evidence to support his or her contentions as to the reasons the decision should not be affirmed, but should be changed or modified.
   a. It shall be at the discretion of the Appeal Council to determine the number of witnesses it will hear about the matter under consideration.
   b. All witnesses may be questioned by the petitioner and by the members of the Appeal Council.
2. Within five days after the termination of the hearing, the Appeal Council shall render its decision in writing and furnish a copy to the petitioner and file a copy with the president of the college.

III. Board of Trustees

Requests for Hearing. Within 30 days after a petitioner receives an unsatisfactory decision from the president, the petitioner may file a written request with the president of the college for a hearing by the Board of Trustees stating the reason for the appeal. The hearing by the Board of Trustees shall be conducted according to Article VI of the Bylaws of the Board of Trustees of Surry Community College.

IV. Failure to File Notice of Appeal

Failure to file a notice of appeal within the specified time limit shall result in the termination of the right to appeal unless such failure to file is the result of just cause not attributable to the petitioner.

Adopted June 14, 1976; Amended August 19, 1996

ATHLETIC POLICY

Surry Community College will provide intercollegiate athletic programs to the extent that facilities, as well as student and financial resources, are available to support them. Such programs and the teams that comprise them will continue to receive college sponsorship as long as they remain in good standing with the College and resources allow.

Students are requested to contact the Dean of Student Development to begin the process of creating a new athletic program. New programs will be started as club teams. If significant long-term interest and adequate support can be identified, National Junior College Athletic Association (NJCAA) caliber teams will be sponsored. All teams will be financed with student activity funds and/or monies raised by the participants. No student activity funds will be used for administrative expenses or coaching supplements.

Surry Community College sponsors all athletic programs without regard to race, religion, national origin, age, gender, veterans status, or disability. Moreover, the College operates its athletic programs in accordance with the NJCAA bylaws for Division III schools, which prohibit athletic scholarship aid of any kind. Although some SCC teams may compete at the Division I and II levels at times, the College will retain its Division III status and will provide no scholarship monies for student athletes.

STATEMENT OF COLLEGE POLICY

Surry Community College is proud of its history, its faculty, and its student body. A statement at this time does not indicate any special concern in regard to possible activities on our campus such as have been witnessed on college campuses across the country. However, in view of the temper of the times, we believe it proper to reassure our students, faculty, alumni, and friends by a clear statement relative to the following items:

1. Surry Community College is a county owned and state operated and controlled community college. It has grown and expanded over the past few years with state and local funds. In accordance with state law, its management and control are the responsibility of the Board of Trustees.
2. Surry Community College proudly affirms its belief in and support of the philosophy of individual freedom and responsibility. Academic freedom is not academic license, and the right to criticize and protest is not the right to disrupt or interfere with the freedom of others. Surry Community College believes in a government of law and not of men. It is the right of any citizen to criticize, protest, and attempt to change the law in accordance with constitutional procedures. It is not the citizen's right, however, to disregard or disobey the law even under the excuse of his own conscience.

3. A student enters Surry Community College voluntarily. Students apply presumably because they wish to further their education and because they believe Surry Community College, with its traditions and reputation, is capable of advancing their intellectual development. Any student who is not in agreement with the rules and regulations, traditions, and policies of the college is always welcome to suggest changes in an orderly manner; however, having been accepted and having decided to enroll, he or she is expected to abide by the laws of our nation and comply with the rules and policies of Surry Community College until change is accomplished by proper procedure.
4. Moreover, the administration of the college pledges unequivocally to give full and prompt attention to proposals presented in a serious and orderly manner. The use of violence, disturbances, or force of any kind--whether by single students, a minority or a majority group--will not be tolerated.

Accordingly, the Board of Trustees formally announces this college offers no sanctuary to any individual or group which condones, advocates, or exercises the taking over or damaging of property or the use of intimidation or physical force. Any who engage in such activities will be held legally and individually responsible. Corrective steps may include suspension, expulsion, and/or prosecution in the courts of the State of North Carolina.

-Board of Trustees, SCC

BULLETIN BOARDS POLICY

1. Campus bulletin boards are provided for use by recognized student organizations and by individual students for the sale of used books.
2. For purposes of this policy a "recognized student organization" is defined as an organized student group that is recognized by the Student Development Office. To attain this recognition, a student group must file with the Dean of Student Development an application stating the names, addresses, and student identification numbers of at least ten students who are members of that group, the name and signature of a Surry Community College faculty member who has agreed to serve as advisor for the group, and a copy of the group's bylaws, constitution, or other document outlining its purpose or function.
3. Prior to posting, all materials must be presented to the Dean of Student Development (or his designee) for verification of the group's recognized status. Neither the recognition of a student organization nor the authorization for its use of campus bulletin boards is the affirmation or acceptance by Surry Community College of the organization's purpose, philosophy, or objective.
4. The use of campus bulletin boards by recognized student organizations or by individual students for the sale of books is subject to the following general regulations:
   - All materials posted on campus bulletin boards must be directly related to college programs.
   - All posted materials must be clear and legible, must include the organization's name and must provide current contact information.
   - Posted materials shall not include: (1) any commercial advertisement; (2) any endorsement of the use, sale, consumption, or distribution of alcohol, controlled substances, or illicit drugs; or (3) profanity, or other language that is offensive, discriminatory, or harassing.
   - No notice, advertisement, document, or signage of any kind may be affixed to any building, wall, window, door, street, sidewalk, traffic sign, campus signage, light post or pole, trash can, staircase, railing, tree or other vegetation, or any other part of the campus of Surry Community College. Campus bulletin boards are the sole designated location for posting of communication.
   - The use of campus bulletin boards to advertise the sale of used books is limited to current or former students of Surry Community College and limited to required or supplemental books used in courses offered through Surry Community College.
5. Any violation of this policy shall result in the immediate forfeiture of the privilege of using campus bulletin boards.

INFORMATION TECHNOLOGY ACCEPTABLE USE POLICY

Electronic information technology systems at Surry Community College are essential and indispensable tools for learning, research and administration. It is the policy of the College that the facilities be used ethically and legally, in accordance with applicable licenses and contracts, and according to their intended use for educational purposes in support of the college's mission and goals. The systems are owned by the College and provided for the appropriate use of students, faculty, and staff. It is expected that all users of these systems will do so responsibly, respecting the rights of other users, maintaining the integrity of the physical facilities and adhering to all applicable laws and regulations. Access to electronic systems is a privilege that is granted by the College and comes with a responsibility to

respect the rights of other users and the rights of the college at all times. All technology equipment and records are considered the property of Surry Community College, and their use may be monitored as a means to ensure their proper and effective use. Users should be aware that seemingly private computer records may be subject to public disclosure.

Examples of specific activities not permitted on college-owned equipment include:

- Sending or displaying offensive messages, pictures or materials;
- Using obscene language, or sending/posting any harassing, abusive, libelous, or obscene materials, or assisting in any similar activities;
- Damaging electronic components, computers, computer systems, or networks, including knowingly transferring viruses;
- Violating the rights of any person protected by copyright, trade secret, patent, or other intellectual property laws, including, but not limited to, the installation or distribution of "pirated" or other software products that are not appropriately licensed for use by the College;
- Trespassing in others' files, folders or storage areas of any kind or using others' passwords;
- Intentionally wasting limited resources (Internet time, supplies, etc.);
- Using the network for commercial, political or any unlawful purposes; or
- Connecting to inappropriate Internet sites, such as pornography, hate groups, and other similar sites.

The advent of electronic voice mail and email has made possible the instantaneous broadcast of information campus-wide. While this technology provides the College with expanded communication capabilities, it also provides the opportunity for a type of "span" to be inflicted on the unsuspecting. The All Surry email distribution list for example, sends messages to every employee with a computer, on campus, as well as at the Boonville and Mt Airy centers. Prior to sending a broadcast message through any electronic information system, therefore, the sender should ensure that

- Distribution lists are as accurate as possible, so that faculty/staff do not receive information that does not apply to them, and that
- The content of broadcast messages relates to college business and has been approved by a division chair, director or dean.

The broadcasting of chain letters and other personal messages is not an appropriate use of this technology.

North Carolina criminal statutes outlaw certain computer-related conduct, including unauthorized access or use of another person's computer, computer system, or computer network to (1) commit fraud or obtain property under false pretenses; (2) cause computer-related damage; or (3) alter, disable, delete, or copy computer data. Most of these criminal provisions apply in incidents involving computer "viruses" or "hacking." It is also a crime to send (or allow to be sent) electronic communications that (1) threaten harm to a person or property; (2) are sent, repeatedly, for the purpose of "abusing, annoying, threatening, terrifying, harassing, or embarrassing any person," or (3) contain any false statement "concerning death, injury, illness, disfigurement, indecent conduct, or criminal conduct … with the intent to abuse, annoy, threaten, terrify, harass, or embarrass." Educational institutions or officials who are victimized by such conduct, therefore, may file criminal charges against perpetrators of such crimes, and may recover damages through civil actions.

Electronic information systems include, but are not limited to, terminals, computers, computer peripherals, communication devices, telephones and telecommunications equipment, fax machines, computer data networks, video equipment, tapes or video networks, photocopying machines, computer software, supporting documentation, supplies, storage media, support facilities and energy sources. Electronic systems are limited to those leased, rented, owned by, or loaned to the College wherever located.

Violation of this policy should be reported to the appropriate area supervisor. Violations may result in suspension of privileges to access the information technology involved, initiation of college disciplinary procedures, or in extreme cases, criminal prosecution under federal or state law. Before attempting any activity about which you are in doubt, or if you have questions about this policy, consult your local area supervisor, dean or vice-president.

Approved by the Technology Executive Committee 3/3/97
Last updated July, 2001 by the President's Cabinet

CURRICULUM PROGRAMS AND ACADEMIC SUPPORT SERVICES

DEGREES

A.A./A.S. (Associate in Arts and Associate in Science Degrees)

The College Transfer Program offers courses designed to parallel those taken during the freshman and sophomore years of study at a four-year college or university. During these first two years, students pursue general education courses in the areas of humanities, social sciences, mathematics, and science. This program provides great flexibility in course requirements so that students can design a curriculum plan to lead them smoothly into the junior year of a particular four-year college or university.

Students may choose to stay long enough to earn an Associate in Arts or Associate in Science Degree, or they may choose to transfer the credit they've earned at any time along the way. Counselors are available to help students plan their programs to meet their specific needs.

Many courses within the College Transfer Program will also appeal to adults who are not really interested in earning a degree or in transferring to another college. These *Special Credit Students* may take courses in any program for which they meet the admissions criteria (excludes NUR courses).

Students who complete the A.A. or A.S. degree, including the general education core and appropriate electives, are assured that their credits will transfer to the University of North Carolina System schools. (Students must, of course, apply to and be accepted by a particular UNC System school in order for their credits to transfer.)

A.A.S. (Associate in Applied Science Degrees)

Curriculum programs in the technology areas are designed to provide students with technical competence for immediate employment in such fields as business, industry, government, health, agriculture, and social services or as owner/manager of their own businesses. Some general education courses are included in technical degree programs to provide knowledge essential for success in one's chosen field. Students who complete these two-year programs are awarded an Associate in Applied Science Degree.

In addition to immediate employment, another option for students who earn an A.A.S. degree is to transfer to a four-year school. Some career technology programs at Surry allow this option. Both public and private four-year institutions have designed programs specifically for A.A.S. degree recipients. For a complete list of these options, as well as transfer guides, contact the Student Development Office.

A.G.E. (Associate in General Education Degree)

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities.

GENERAL EDUCATION COMPETENCY REQUIREMENTS FOR ALL DEGREES

Students who graduate from Surry Community College's Associate Degree programs must demonstrate competence in reading, computer usage, written communication, oral communication, and quantitative skills as described here. These requirements apply to Associate in Arts, Associate in Science, Associate in General Education, and Associate in Applied Science degree recipients.

The College-wide Learning Outcomes are the learning goals for all Surry Community College students. As they are assessed inside and outside the classroom, these outcomes guide learning, decision-making, and actions by all members of the college community. The College-wide Learning Outcomes have the following definitions:

Critical Thinking: Students who graduate from Surry Community College should be able to demonstrate skill in "conceptualizing, applying, analyzing, synthesizing, and/or evaluating information gathered from, or generated by, observation, experience, reflection, reasoning, or communication."[1]

Communication: The Communication Learning Outcome measures the following skills: Writing, Speaking, and Reading.

Communicate effectively through writing: Students who graduate from Surry Community College should be able to produce writing that is clear, precise, organized, incisive, and correct (according to the guidelines of Standard Written English) for a variety of purposes and audiences.

Communicate effectively through speaking: Students who graduate from Surry Community College should be able to speak in a manner that is clear, precise, coherent, perceptive, audience-aware, and correct (according to the guidelines of Standard English) in both small and large group settings.

Communicate effectively through reading: Students who graduate from Surry Community College should be able to read actively and analytically at the college level and should be able to synthesize and apply information across disciplines.

Information Literacy and Technology Skills

Information Literacy: Students who graduate from Surry Community College should be able to recognize when information is needed and have the ability to locate, evaluate, and use effectively the needed information.

Technology Skills: Students who graduate from Surry Community College should be able to use computers, software applications, databases, and other technologies to achieve a wide variety of academic, work-related, and personal goals.

Quantitative Literacy

Quantitative Literacy: Students who graduate from Surry Community College should be able to apply college-level mathematical concepts and methods to understand, analyze, and communicate in quantitative terms

Culture and Ethics

Culture and Ethics: Students who graduate from Surry Community College should be able to demonstrate an understanding of social, professional, or environmental issues that will enhance their capacity for making sound ethical judgments as well as demonstrate a respect and understanding of diverse people including those with different cultural and linguistic backgrounds or different physical abilities.

[1]Richard Paul and Michael Scriven, "Defining Critical Thinking," National Council for Excellence in Critical Thinking. Available from <http://www.criticalthinking.org>

DIPLOMAS

Diploma programs are designed to prepare students for initial employment in skilled occupations, to retrain skilled workers for new occupations, and to provide skill upgrading for one's advancement in current occupations. Most of these diploma programs require one year of participation on a full-time basis to complete, although courses can be taken on a part-time basis. These programs do not require a high school diploma for admission, but if a student has academic deficiencies in subjects basic to success, he or she may be required to complete supplementary studies prior to entering the program on a full-time basis.

CERTIFICATES

Some technical programs are designed to allow students to receive a certificate after completing a designated set of specific courses. These programs are one year or less in length. Required courses are generally those which provide specific job-related skills. For more information, consult a counselor in Student Development.

DISTANCE EDUCATION

Surry Community College now offers students an alternate way to further their education through our Distance Education program. The purpose of distance learning at Surry Community College is to support the College's mission to provide high quality, reasonably priced educational and job training programs which meet the needs of the adults in its service area. Several options are now available for students to obtain degrees completely online. Currently our online degree programs include an Associate in Arts, Information Systems, Business Administration, Early Childhood, and Viticulture.

Distance learning opportunities provide a means for students to enroll in credit classes that do not require traditional classroom attendance. The Distance Education program shares the same goals, objectives, skills, and competencies as all educational opportunities at SCC. Students are offered full service access to learning resources, program advisement and financial aid information. At SCC, these opportunities include telecourses, hybrid courses, teleweb courses, Internet *(online)* courses, and North Carolina Information Highway (NCIH) courses.

Telecourses are offered in cooperation with the UNC-TV public broadcasting stations and with Time Warner Cablevision of Dobson, North Carolina. Instruction is provided through videotape broadcast at scheduled times and may be recorded for viewing at students' convenience. Teleweb course instruction is also provided through videotape broadcast like telecourses but adds an additional instructional tool using a computer with Internet access.

Courses are also available via the Internet. Students must have some computer skills as well as an email account to participate in this type of course. SCC provides all Distance Education students a free email account. Internet courses are delivered online via a program called Blackboard. Faculty and student communication takes place primarily through the computer. Interaction in an online course is primarily through email and the use of discussion boards and takes place asynchronously, so students are not required to be online at a certain time of the day or night, but when it is convenient for them.

Hybrid courses combine classroom instruction with the interactivity of an Internet course. The Internet is used to deliver approximately half of the course requirements, with the other half delivered through on-site meetings. Hybrid courses include face-to-face instruction, course websites, textbooks, hotlinks, online and in-class discussions, collaboration and problem-solving.

Selected courses are taught on-campus using SCC's specially-designed NC Information Highway classroom. NCIH classes bring together students located at multiple locations, with communication conducted through interactive use of television monitors, tabletop microphones, and video cameras. All necessary technologies are provided in the classrooms.

Distance Education offerings appear on the semester schedule of courses each term. Distance Education courses are identified in course listings by the section code as follows:

Course Type	Section Code	Example
Hybrid courses	HB	HUM-115-HB1
Internet Courses	IT	CIS-110-IT1
NCIH	IH	COM-231-IH1
Telecourses	TC	PSY-150-TC1
Teleweb courses	TW	SOC-210-TW1

In order to successfully complete Distance Education courses, students should be aware of specific technical skills and equipment needs that are required when taking a Distance Education course. Information students should be aware of when registering for Distance Education courses follows.

Teleweb & Telecourse Information

*In order to receive these courses, you must subscribe to Time Warner Cable in Surry or Yadkin counties or be able to receive UNC TV. Videotapes may also be viewed in the Learning Center on the SCC campus.

*Students taking Telecourse and/or Teleweb courses are required to attend an on-campus student orientation at SCC at the beginning of each semester.

*Students taking Teleweb courses for the first time are also required to complete an online orientation.

**TELECOURSES*: You must have a VCR, television and must be able to receive UNC TV. Also, some courses are only broadcast by Time Warner Cable of Dobson, North Carolina. See schedule for more information.

**TELEWEB COURSES*: You must have a VCR, television, Internet access and an email account and be able to receive UNC TV. Also, some courses are only broadcast by Time Warner Cable of Dobson, North Carolina. SCC provides all students a free email account.

*VIDEOTAPE RENTAL OPTION - Students may rent a full set of tapes for each telecourse or teleweb course from RMI Media, Inc., a private company, for a set fee (usually $70.00). The student receives all the tapes at the beginning of the semester and mails them back at the end of the course. This is a private transaction between the student and RMI. Visit www.rmimedia.com or call 1-800-745-5480 to rent tapes. You will need to give the name and title of your course (e.g. PSY 150, Discovering Psychology), your name and address, a daytime phone number, and credit card information. See RMI's rental guide for more details.

Internet Course Information

***Online Orientation Required:**
Students taking Internet courses for the first time are required to complete an online orientation. Students will not be allowed to take Internet, Teleweb or Hybrid courses without completing the online orientation.

***Personal Capability Requirements:**
Students taking an Internet course at Surry Community College are required to have basic computer skills.

*Office XP Applications
*Knowledge of the procedures for sending/receiving e-mail and e-mail with attached files.
*Knowledge of navigating & conducting information searches within the World Wide Web
*Able to identify file types
*Fundamental awareness of common computing terms
*Familiarity with your own hardware, software, & operating system environment

***Hardware Requirements:**

Students who do not meet these standards must contact the course instructor to determine if they will be able to successfully participate in the course. The following are minimal system requirements to take an Internet course.

*Pentium III 300 MHz or faster
*128 MB or more of RAM memory
*SVGA monitor w/8 MB of video RAM
*Sound card and speakers
*Windows 2000 or higher
*Hard drive with a minimum 250 MB free space
*56K Modem or higher (DSL recommended)
*Printer
*CD-ROM Drive

***Software Requirements:**

Students who do not meet these standards must contact the course instructor to determine if they will be able to successfully participate in the course. The following are minimal system requirements to take an Internet course.

*Word processing package – Office XP
*E-mail software that supports e-mail attachments. Microsoft Outlook Express, Netscape eMail and Eudora. SCC provides each student a free email account which must be used when taking a Distance Education course.
*Internet Explorer version 5.0 or higher or Netscape version 4.0 or higher
*Acrobat Reader (Free download)
*Real Media Player (Free download)
*Other software that may be required to complete the course.

***Internet Service Requirements:**

*The greatest single challenge for students taking Internet courses is obtaining the services of a reliable Internet Provider. If you are unsure about Internet providers in your area, contact a local computer dealer.

Further information about Surry Community College's Distance Education program can be found at the following website: http://www.surry.edu/DE

COOPERATIVE EDUCATION

Cooperative Education (Co-op) is designed to give students enrolled in many programs within the College an opportunity to work in their fields of study while completing their degrees. This combination of classroom instruction with practical/related work experience provides numerous benefits to participating students.

Co-op students work from one to four semesters in part-time or full-time jobs with employers selected and/or approved by the College. Academic credit is given for the learning gained during the work period. Students are contacted periodically by a faculty coordinator and receive on-the-job supervision by the employers.

Admission to the Cooperative Education Program is based on scholarship and interest, not financial need. Employers select the students and determine salaries to be offered; therefore, the College does not guarantee employment for all who are eligible.

Eligibility. Students who are enrolled in programs offering Co-op for academic credit are eligible to participate if they meet the following conditions:

1. Must be enrolled in a degree/diploma/certificate that includes Co-op;
2. Must have completed at least 9 credit hours toward degree (3 of which must be from the core curriculum);
3. Must have a minimum GPA of 2.0;
4. Recommendation of an instructor within program of study;
5. Completion of a professional development course or a job-seeking skills workshop which is arranged on demand by the Co-op office (not required if already employed).
6. Approval from program director or Co-op Coordinator. Certain curriculum programs may specify additional conditions.

Application Procedure. Interested students should obtain an application from the Co-op Office (located in the A-Building) and schedule an interview with the director or Co-op Coordinator. Students are selected on the basis of information obtained from their application forms, college transcripts, and an interview regarding career goals. After students have been accepted into the program, the director, Co-op Coordinator, or faculty coordinator will be responsible for locating and/or approving appropriate work assignments. Students already employed in curriculum-related jobs may be eligible to receive Co-op credit.

Academic Credit. Co-op students may earn from one to eight hours of Cooperative Education credit toward completion of diploma or degree requirements in approved curriculums.

Registration. Students who are approved for Co-op must register in the Co-op Office before going on their assignments. Students interested in Cooperative Education are invited to contact the Career Services Center. Information is also available through faculty advisors.

NOTE: Co-op options are listed under each participating curriculum program of study.

CAREER SERVICES CENTER

The Career Services Center offers a comprehensive career development program designed to assist students in setting career and educational goals and developing employability skills.

Services include career counseling, career assessments, career research and exploration, resume development and preparation for employment interviews. The center provides students with quick and easy access to local, national, and international labor market data through current printed materials, Internet sites, video and audio tapes, and face-to-face interview with area employers.

Located in the Reeves Building on the main college campus, the center is open five days and four evenings per week. Individuals may learn more about the center by calling 336-386-3388.

ACADEMIC SUPPORT CENTER

The Academic Support Center (ASC) offers academic support for students and faculty alike. Students enrolled in at least one curriculum class at SCC may receive free academic assistance by working with qualified tutors. The ASC bases its tutoring on a critical thinking model that encourages students to actively think through course content. Additionally, the ASC director coordinates professional development for faculty in critical thinking and other teaching innovations such as learning communities and linked courses.

Tutoring Services

Students needing a tutor must fill out an application at the ASC, located in H-277. Generally students can expect a two- to five-day wait for placement with a tutor. The assigned tutor will work with the student at regularly scheduled sessions throughout the semester. One-time tutoring sessions are available to help students with reading and writing assignments in any subject; appointments for these sessions can be scheduled by calling

386-3460 or visiting the ASC. Tutoring is held in H-277 and is supervised by the Director and the Assistant Directors. No off-campus tutoring is offered.

Students wishing to become tutors must demonstrate proficiency in the subject area. They must also submit faculty referrals, complete an application and interview process, and pass a transcript review. Upon selection, tutors are given an orientation and are required to attend training sessions in critical thinking throughout the semester. Tutors are compensated for their services.

Learning Communities

Students interested in exploring subjects in an environment that creates and fosters connections between classes should investigate learning community opportunities at SCC. In these courses, students must enroll in all three classes linked in the community. Because the same students enroll in these classes, they get to know each other as scholars and friends and work closely together. Additionally, instructors work together to link disciplines and integrate ideas and assignments. All learning communities cover required materials and provide the same credits for transferring and graduation as traditional classes.

Other learning community variations include linked and paired courses. These options require students to enroll in two courses in which assignments are either shared between courses (linked) or used to support the content of the other course (paired). Learning community options appear in published semester schedules.

DEVELOPMENTAL STUDIES

The goal of Developmental Studies at Surry Community College is to help students succeed in college. Courses in the basic skills of reading, writing, mathematics, and study skills are offered. With the cooperation of the Learning Center, the developmental program offers lab classes that supplement the basic courses. In these lab classes, students work individually on the computer and in small groups to practice needed skills.

Placement testing is mandatory for all students taking associate level courses with a developmental prerequisite. Degree seeking students must take developmental courses when they score below the cut-off scores established by the college on the ASSET or CPT. Students may waive the placement test requirement if they meet any one of the following criteria:

- Have documented successful completion of appropriate prerequisite developmental courses,
- Have met minimum SAT scores (500 verbal; 500, math) and their scores are not more than 3 years old,
- Have documented successful completion of appropriate college level English and mathematics courses at another college within the past five years.

Students placing into both developmental reading and English at the 070 or 080 levels will be advised to complete these courses before taking transfer level courses. Students placing into Reading 090 and English 090 will be advised to take these courses at the beginning of their program as co-requisites or prerequisites to any curriculum courses that they take. Finally, students placing into developmental math should enter the sequence by their second semester at Surry Community College.

Students must achieve a "C" or better in required developmental courses to advance into curriculum courses. Credits for developmental courses are not counted toward graduation.

Students seeking a waiver for any developmental course must receive approval from the Chair of Developmental Studies.

COMPUTER RESOURCES

Surry Community College has several computer labs that are available for use by students. These labs are available for computer classes, computer-related classes, and for computer-assisted instruction. Internet access is available for class and research use by faculty, staff, and students in selected labs (E148, H265, H273), the Learning Center, and the Learning Resources Center (Library, second floor).

LEARNING RESOURCES CENTER

The Learning Resources Center, housed in the "R" Building, provides print and non-print materials and support services to supplement classroom instruction and support lifelong learning in the Surry Community College service area. The LRC Collection includes over 46,000 books, 3,000 audiovisual items, and 350 newspaper and magazine subscriptions. The first floor contains the circulating collection of books and audiovisual materials, current issues of newspapers and magazines, computers for typing papers, audiovisual equipment and preview rooms, and reserve materials. Non-circulating materials are kept on the second floor and include the reference collection, the genealogy and local history collection, and back issues of periodicals and newspapers. Internet-access computers and television production facilities are also located on the second floor.

The Learning Resources Center also provides a variety of services for students and faculty. Assistance in finding materials is always available at the Circulation Desk or the Reference Desk. Instructors may place materials on reserve at the Circulation Desk. Help with research questions is available at the Reference Desk, and reference assistance is also available to distance learning students via email. Library use instruction is available for individuals, small groups, or whole classes. The reference staff also handles interlibrary loan services. The audiovisual department provides help with the production and duplication of audiovisual materials.

The Learning Resources Center is open from 7:30 a.m. to 9:00 p.m., Monday through Thursday, and from 7:30 a.m. to 3:00 p.m. on Friday, but may be closed or have reduced hours during student breaks. The LRC is open to the general public, and local residents aged sixteen and older may apply for a library card and receive limited borrowing privileges.

TESTING CENTER

College Placement Testing (CPT) is offered in the Testing Center located in A-204. *Accuplacer Online* is a comprehensive, computer adaptive placement assessment designed to place students in appropriate courses to maximize their success. These tests are un-timed. Tutorials are available prior to testing for those students who are unfamiliar with computers. See the Testing Director for times and location.

We suggest that all students study prior to taking the CPT. A study guide can be obtained from the Student Development Office or the Testing Center. Be sure to bring a ***Photo ID*** and ***Social Security Card for all testing.*** ***NO CALCULATORS ARE ALLOWED*** on the CPT. Pencils and paper will be provided for Arithmetic and Algebra calculations.

Curriculum students will be placed in English, Reading, and Mathematics courses on the basis of placement test results. This placement enables the student to enroll in these subjects at a point that is aligned with the student's achievement level. Certain course prerequisites may make it necessary for the student to enroll in remedial courses which are identified by a numerical "0" prefix (i.e., RED 080, ENG 090, etc.).

All placement tests are offered on a walk-in basis. To insure adequate time for testing a student must be inside the Testing Center two hours before closing to start the CPT.

Distance Education Testing is also available in the Testing Center. Students enrolled in any distance education course, for example Telecourse, Internet or Teleweb can test in the Testing Center. The Testing Center offers proctoring services to the community and provides service hours to help students achieve their goals successfully. Students should be aware of the length and difficulty of their exams and plan their time wisely. Tests are to be started and finished in one sitting and must be turned in 10 minutes prior to closing.

Service hours may be different during the semester break. Please call the Testing Center for more information @ 336-386-3443. The Testing Center will also be closed for all holidays recognized by Surry Community College and as indicated by inclement weather.

TESTING CENTER HOURS OF OPERATION ***(Testing times are subject to change)***

Monday-Wednesday, 8:30am-5:30pm

Thursday, 8:30 a.m.-8:00 p.m. ***Friday***, 8:30 a.m.-2:00 p.m.

TELEPHONE: 336-386-3443 **E-mail:** *brackenl@surry.edu*

educational record are issued to students upon written request unless there are unpaid financial obligations to the College, or other unresolved issues. A written request (with a live signature) is required if the transcript is for personal use or is being sent to an employer. Faxed or email requests are accepted when the transcript is being sent to another educational institution.

In accordance with the Family Educational Rights and Privacy Act of 1974, only Directory Information will be released without the written consent of the student. Such information may be released at the discretion of the Dean of Student Development.

Directory information includes: name, hometown, major field of study, dates of attendance, degrees awarded, and awards received. However, a student may request in writing to the Dean of Student Development that such information be withheld. Such requests will be honored. **Failure of students to keep their names and addresses updated in the Student Development Office can cause confusion that could result in mail not being received or colleges and employers not receiving transcripts.**

CREDIT BY PROFICIENCY

Surry Community College recognizes that students gain knowledge and skills both inside and outside traditional classrooms. Therefore, students who can provide tangible evidence of preparation to successfully challenge a course, may request credit by proficiency for that course.

Students who are interested in pursuing credit by proficiency for a course must do the following:

- Register for the course and attend class prior to requesting permission to take the proficiency examination.
- Initiate the request for demonstration of proficiency through the class instructor. Forms to accommodate this written request are available from the instructional deans and vice presidents' offices.
- Provide tangible evidence of preparation to challenge the course.
- Obtain approval from the instructor, the division chair, and the appropriate dean.

A written, oral, and/or performance examination will be administered by the instructor in a manner pertinent to the content of the course. If the student exhibits satisfactory performance on the examination, the appropriate credit hours and proficiency credit grade will be placed on the student's transcript. The decision of the examining instructor will be final.

Additional considerations guiding the implementation of this policy include the following:

- Credit by proficiency must be requested and completed during the first ten percent (10%) of the class content.
- Some courses may not be appropriate for proficiency testing, and are excluded from this procedure.
- Students who earn less than a "C" on the proficiency exam receive no transcript notation and may complete the class for credit.
- Students who earn at least a "C" on the proficiency exam will receive the appropriate credit hours and proficiency grade (CR) on their transcripts.
- Students may attempt credit by proficiency only once for any given course.
- To ensure consistency in testing, each instructional department will develop a common proficiency exam for all eligible courses.
- Financial aid, veterans, and some third parties do not pay for credit by proficiency.
- No credit is given for experiential learning or training.

Please note that the "CR" grade assigned for proficiency may have implications for financial aid awards, and the credit may not be accepted by all transfer institutions.

TRANSFER CREDIT

Students who transfer to SCC from another accredited college or university, will need to furnish **official transcripts** for evaluation. The college or university must be accredited by an entity recognized by the U. S. Department of Education. Courses that are satisfactorily completed at other accredited institutions are evaluated in terms of the program the student selects at Surry Community College. Normally, grades of "D" or below do not transfer.

AP and CLEP credits are granted based on scores recommended by the College Board and other accrediting agencies. (See Advanced Placement) In some cases, transfer credit can be granted for military training. In order to receive this credit, students must provide official documentation to support their claims. Normally, only course credit recommended by American Council of Education guides is granted. No credit is given for experiential training or for courses taken at non-accredited schools.

Transfer credit presented is evaluated and then placed on an official transcript. These transcripts are available in Student Development upon request. Students receiving transfer credit toward an associate degree must complete at least 20 semester hours in their major at Surry Community College in order to complete graduation requirements. These 20 hours may not be earned by proficiency.

ADVANCED PLACEMENT

The College supports the requirements of the North Carolina Community College System's common course library in regard to students' need to meet specified course prerequisites before they enroll in some classes. However, the College also recognizes that some students enter the curricula with previously earned credits and skills which may equate to some prerequisites. Therefore, waivers of selected prerequisites may sometimes be made upon documentation of such credits or skills. Documentation may take the form of placement test scores, academic transcripts from other institutions, course proficiency testing results, or other appropriate means. Final approval of prerequisite waivers rests with the Dean of Student Development, in consultation with the Vice President for Academic and Student Affairs.

College TechPrep Articulation

Through the statewide College Tech Prep Articulation agreement among high schools and community colleges and efforts of the SYSTEM (Surry Community College, Yadkin and Surry County Schools, and Elkin and Mt. Airy City Schools), students entering Surry Community College may receive advanced placement courses for a number of Career Technical courses completed in high school. To receive credit, the high school must provide documentation that the student completed the course with a grade of "B" or better and scored at or above the mastery level (Score of 80) on the end-of-course VoCats test, and the student must enroll in SCC within two years of high school graduation. The current SCC College Tech Prep Articulation Agreement is shown on the following pages.

SURRY COMMUNITY COLLEGE

Collision Repair Technology I - 7521 & Collision Repair Technology II - 7522	AUB 121 - Non-Structural Damage I	3

Criteria to award college credit

The following criteria shall be used to award college credit for courses identified above.

1. Grade of B or higher in the course and
2. A raw score of 80 or higher on the standardized VoCATS post-assessment. (*or 80 or above on the CISCO final exams or pass an industry standard certification.) In order to receive articulated credit, students must enroll at Surry Community College within two years of their high school graduation date.

The official high school transcript and all official standardized VoCATS post-assessment scores shall be required to verify that the criteria has been met to award credit for articulated course work. A community college advanced placement credit form must be attached to the front of the student's official high school transcript. This form is available to high school personnel upon request from Surry Community College. Once SCC receives transcript and form, credit will be awarded and a credit evaluation form will be mailed to the student.

Surry Community College officials shall have responsibility for verifying eligibility and acceptance of the articulated course on the high school transcript for college credit.

Advanced Placement Examination. AP exams are usually taken by high school students enrolled in advanced classes. Students are responsible for having scores forwarded to the Dean of Student Development for consideration. Students who achieve a score of 4 or higher will receive credit for two semesters of English composition. Students who achieve a score of 3 will receive credit for English 111.

Written English Expression Test/CPT Sentences. Students who do not take one of these tests at the time of their initial enrollment may make arrangements for testing through the Student Development Office. Either of these tests may be taken only once in an attempt for advanced placement. Students who achieve acceptable scores will receive credit for English 111.

AUDITING COURSES

Students who would like to take a particular class but do not care about earning credit for it, may register to audit the class. The process for registering is the same as if one were taking it for credit, and the tuition is also the same. The only difference is that on the first day of class the students must advise the instructor that they are auditing the class. Once begun as an audit, the course may not later be changed to credit. Similarly, after the drop/add period, the course should not be changed to an audit. The course will still appear on the students' transcripts and will show a final grade of "AU." It will not be included either as hours attempted or hours earned and will not be considered in the calculation of grade point average. No financial aid or veteran's benefits will be paid for an audited class.

COURSE REPETITION

Students who successfully complete a course (minimum "C" or "S" grade), may repeat the course twice. Students who do not successfully complete a course may repeat it as many times as necessary to be successful. Some curriculum students may be advised to audit a course more than once in order to gain basic skills necessary for success in the selected course. Students who completed a course five or more years earlier may repeat the course more than twice in order to improve their grades, or to refresh their knowledge of, or skills in, the subject. Tuition and fees charged to students who repeat courses, as well as the reporting of student hours, follow regulations as set out in the current North Carolina Administrative Code.

When curriculum courses are repeated, the highest grade is recorded as the final grade for the course and will be the only grade used in calculating quality point averages or hours toward graduation. Quality point averages, hours necessary for graduation, and other specific information concerning audits and repetition of courses as related to graduation requirements are outlined elsewhere in this college catalog.

INDEPENDENT STUDY

Degree-seeking students who need to complete a particular course to meet graduation requirements but who cannot take it at its scheduled time as a result of unavoidable problems may request it on an independent study basis. This request is generally made through an instructor or division chairperson on a Request for Independent Study Form. The form is then signed by the student, instructor, division chairperson and the appropriate dean. It should be completed and returned to Student Development by the end of the drop/add period. Registration and tuition for such a course are the same as if taken on a regular basis.

CHANGE OF PROGRAM

Degree-seeking students who change their minds about the curriculum they wish to pursue must see a counselor to make this change official. Special Credit students who decide to complete the requirements for a diploma or degree program must see both a counselor (for orientation and testing requirements) and the admissions staff to be sure required transcripts and other pertinent information are on file.

CLASS CANCELLATION

At times it may become necessary for the college administration to cancel a class appearing on a schedule. Normally this is done only when the enrollment for this class is not sufficient to allow it to be taught as scheduled. When class cancellations are made, Student Development staff will work with students to find an acceptable

alternative. Students need to come to the Student Development Office if they want to replace the cancelled class. Students are automatically dropped from cancelled classes and refunds are issued if they are due.

WITHDRAWAL FROM CLASSES

A student who withdraws should do so officially through the office of Student Development and the Business Office. Failure to withdraw officially could result in the assignment of an "F" grade for the work attempted and in a forfeiture of refunds. It is the student's responsibility to be sure his/her registration and withdrawal are correct.

During Drop/Add Period. The drop/add period consists of the first five days of classes each semester. If students decide to drop or add a course, they should come by Student Development and fill out a drop/add card. Instructors' permission is not required during this period. Students who do not attend a class at least once, and do not officially drop the class, will receive a "NS" grade for the class. A grade of "NS" applies if a student never physically attends. Official drops for such classes must be completed by students within the drop/add period.

After Drop/Add Period. If students decide that they need to drop a class after the drop/add period, they need to follow these procedures:

1. Come by Student Development and fill out a drop/add card.
2. Ask the instructor to sign the drop/add card. Failure to get the instructor's signature may cause students to receive an "F."
3. Turn in drop/add card to the registration desk.
4. Students receiving financial aid should notify the Financial Aid Office of any changes in their schedule.

Students must make certain their registration is correct. This procedure is the responsibility of the students and is one of the most important functions they have as a college student.

When a student officially withdraws from school or a class after the drop-add period, a "W" (withdrawal) grade will be assigned unless the instructor determines that the student's performance at the point of withdrawal has been unsatisfactory. A student can only receive a "W" if they have actually attended class. An "NS" grade cannot be changed to a "W." If the instructor's evaluation of the student's status is unsatisfactory, an "F" grade will be recorded on the transcript at the end of the semester. If a punitive grade ("F") is going to be assigned, the student is encouraged to continue in the class in an effort to earn a passing or non-punitive ("W") grade.

ACA Withdrawals. ACA 111 is required for all first-year, full-time students. Students who decide to drop this class will need to have their drop/add cards signed by the appropriate dean, in addition to following the procedures described above. Students who have completed at least 24 semester hours during a previous period of enrollment, with a GPA of 3.0, will be waivered from the ACA 111 requirement.

REMOVAL OF INCOMPLETE GRADES

When students receive a grade of "I" in a course, they should reregister and pay the appropriate tuition for it if completion will require attending the class. The "I" grade for all other courses can be removed by working with the instructor to complete the work necessary to finish the course. The instructor then turns in a change of grade form to Student Development, and this final grade is placed on the student's transcript replacing the "I."

Students having an "I" grade on their transcripts have a maximum of one year from the date it was given in which to remove the "I." If at the end of this time the "I" has not been removed, it will remain on the transcript as an "I." If students need credit for the course, they will need to reregister and repeat the entire course. Transfer students should be aware that "I" grades not removed before transferring are treated as an "F" for computation of grade point averages by many receiving institutions.

FRESH START/IN-HOUSE TRANSFER

Two policies provide qualifying students a one-time opportunity to petition the registrar to exclude, for GPA calculation purposes, all previously completed courses in which a grade of **D** or **F** was earned. Prior to submitting the written petition, the student must have completed at least 12 college-level semester hours and have a current

overall GPA of 2.5. The only physical change to the transcript will be the placement of an asterisk beside the courses that will not be used in the GPA calculation.

*__The Fresh Start Policy__ allows a former SCC student who returns after a minimum three-year period of non-enrollment, to submit a written petition to remove previously earned D's and F's from the GPA calculation process.

*__In-House Transfer of Program Policy__ enables a student who officially changes programs at SCC to submit a written petition to the registrar to have D's and F's earned in the old program left out of the GPA calculation process for the new program.

NOTE: Neither the "Fresh Start Policy" nor the "In-House Transfer of Program Policy" are applicable in meeting the "Satisfactory Progress" guidelines for financial aid students.

ACADEMIC PROGRESS

The policies governing academic progress at Surry Community College are intended to assist students in successfully completing their programs of study and to prevent prolonged failure for all students. Procedures are designed to identify students experiencing academic difficulty and to ensure effective corrective action. These procedures are supported by both the staff and faculty, who are committed to

(1) informing all students of minimum academic standards and grading procedures;
(2) identifying and alerting students displaying signs of academic difficulty as early in the semester as possible;
(3) providing opportunities for corrective action to such students; and
(4) notifying all students of their grade point averages immediately following the end of the semester.

Students enrolled in degree, diploma, or certificate programs are expected to maintain satisfactory academic progress toward the completion of the requirements for their programs. Since a 2.0 minimum grade point average is required for graduation from all programs, students are expected to regularly maintain upward progress toward this average in order to be considered in good academic standing.

For purposes of determining academic progress, final grades on all courses within the student's program will be considered. Because a period of adjustment to college life is often necessary for new students, the following scales are used to determine satisfactory academic progress. Students who are receiving financial aid should also read and consider the ***STANDARDS OF ACADEMIC PROGRESS FOR ALL FINANCIAL AID RECIPIENTS*** section of this catalog, since some specific additional conditions apply for the continuation of their financial assistance.

SATISFACTORY PROGRESS IN ASSOCIATE DEGREE PROGRAMS

Credit Hours Attempted	Minimum Grade Point Average
0-30	1.00
31-50	1.50
51 and above	1.75
Graduation	2.00

SATISFACTORY PROGRESS IN DIPLOMA/CERTIFICATE PROGRAMS

Credit Hours Attempted	Minimum Grade Point Average
0-25	1.00
26 and above	1.50
Graduation	2.00

Academic Probation

Students who do not achieve the appropriate minimum average shown previously will be placed on academic probation. These students will be notified by letter of their probationary status and will be required to consult with their academic advisor. Students who are placed on academic probation must either remove themselves from probation or demonstrate progress toward removing the probationary status. Progress toward removing probationary status is defined as achieving a minimum 2.0 semester grade point average for each subsequent semester until the probationary status is removed.

Following notification of probation, the student and academic advisor will meet by the third week of the subsequent semester in order to assess cooperatively the problems impeding success and to identify possible corrective actions. Recommendations may be made to the student regarding his or her course load and/or chosen program, as well as obtaining academic assistance.

Students who do not demonstrate progress toward removing themselves from probationary status following these actions will encounter one or more of the following:

(1) suspension for one semester
(2) loss of financial aid
(3) additional semester probation
(4) transfer to another curriculum
(5) loss of veterans educational benefits
(6) reduced academic course load and counseling

The Dean of Student Development, in consultation with the student and his or her academic advisor, will determine which one or more of these actions will apply in each individual case.

Academic Suspension

Students who do not maintain the minimum grade point average shown here will be subject to a period of academic suspension equal to one semester or more. Length of suspension will be determined on an individual basis by the Dean of Student Development in consultation with the student's academic advisor. Maximum length of suspension for academic reasons is one calendar year. Academic suspension may be appealed by the student through the regular grievance/appeal policy explained in this catalog.

Credit Hours Attempted	Minimum Grade Point Average
16-35	0.50
36-50	0.75
51 and above	1.00

Academic Dismissal

Dismissal of students from Surry Community College is an action taken only in the severest situations. Although a student's best interests may sometimes be served through a short-term break from school to promote increased focus and/or responsibility, the College exists to provide opportunities for learning, not to deny them. Students will, therefore, not be dismissed permanently for academic reasons.

Readmission

Students who have withdrawn in good standing and/or who have not enrolled for a period of one year or more will need to request readmission status through the Student Development Office. Normally, new copies of previous academic transcripts and placement tests are not required. Applicants for readmission to limited admission programs must follow regular admissions procedures for those programs. Students who have been suspended for academic or disciplinary reasons may request readmission after the term of suspension has expired. These students will be required to consult with their academic advisor (academic suspensions) and/or the Dean of Student Development (disciplinary suspensions) prior to registration.

Additional Academic Requirements for Nursing Students

Nursing students must meet general academic progress policies. Additionally, some nursing (NUR) courses have prerequisites. These prerequisites are listed in the catalog under the description of the courses. A student must make a grade of "C" or better in both theory and clinical practice in the prerequisite nursing (NUR) courses before registering for the next nursing (NUR) course. For related nursing prerequisites, a student must make a "C" or better to register for the next nursing course.

> In accordance with the North Carolina State Board of Nursing rules, a student will be dismissed from the nursing program for problems which conflict with safety essential to nursing practice. These problems include physical or emotional health problems which conflict with safe nursing practice and do not respond to appropriate treatment and counseling within a reasonable period of time.

A student must make a "C" or better in both nursing (NUR) and related prerequisite courses in order to register for the next nursing course. Students transferring into the nursing program will be given no credit for a grade less than a "C."

ACADEMIC HONORS

The Dean's List

The Dean's List is published for fall and spring semesters to honor those students who achieve significant academic status in their classes. It recognizes each student who carries at least twelve college-level credit hours of coursework during the semester, maintains at least a 3.25 quality point average for the semester, and has no final grade lower than a "C" in any course taken. The Dean's List is posted each semester on bulletin boards around campus and published in local newspapers. Courses below 100 level (i.e., ENG 080) are not considered part of the course load for selection for the dean's list or president's list.

The President's List

The President's List is used to recognize full-time students who achieve true academic excellence as measured by a minimum semester quality point average of 3.75, with no grade below a "C" in any course. Each President's list student receives a congratulatory letter from the college president.

Honors Graduates

In order to qualify as an honor graduate, a student must have completed the requirements for graduation (see Graduation Requirements) with a 3.25 average on all work required for the degree at Surry Community College with no grade lower than "C."

GRADUATION REQUIREMENTS

In order to receive a degree, diploma, or certificate from Surry Community College, students must fulfill these requirements:

A. Complete all course work and credit hours required in the program. Students must complete all credit hours with no grade below a "D."
   1. Transfer Credit - All transfer credit must be evaluated by the Registrar and placed on an official transcript before it can be counted toward graduation.
   2. Substitutions - All programs must be completed as stated in the catalog unless a substitution has been approved and filed in Student Development.
      Example: Substitute ENG 112 for ENG 114 in an A.A.S. program. This practice is acceptable, but it must be approved beforehand. The paperwork can be picked up from the department chairperson or in Student Development.

B. Students must have a *2.0 Grade Point Average with no grade below a "D" for all courses counted toward graduation. (A "D" will count toward graduation, but in most cases it will not transfer.) See Grade Point Average in the Credit and Grading Issues section.

***IN ORDER TO RECEIVE A DEGREE, DIPLOMA, OR CERTIFICATE, IT IS THE STUDENT'S RESPONSIBILITY TO APPLY IN THE STUDENT DEVELOPMENT OFFICE AND PAY THE FEES IN THE BUSINESS OFFICE BY THE ANNOUNCED DEADLINE.** This procedure is normally completed at the beginning of the semester in which the student will complete all coursework.

*At least 20 credit hours of coursework **must** have been completed at Surry Community College by those applying for an associate degree. These 20 hours may not be earned by proficiency and must be in the student's major area.

C. In addition to the general graduation requirements described above, nursing students must meet each of the following requirements:

1. Earn a grade of "C" or better in all nursing courses.
2. Earn an overall minimum grade point average of 2.0 ("C").
3. Earn at least a "C" in all related courses required in the nursing curriculum.

STUDENT DEVELOPMENT SERVICES

The Student Development Office is a place students may need to visit often. It is filled with competent, friendly staff whose sole purpose is to ensure that student experiences at SCC are the best to be found anywhere. This is the place where the SCC experience begins as students apply for admission, and if they're a degree/ diploma student, it's where their SCC experience reaches its apex as they apply for graduation. Additionally, for all the days in between these events, it's the place to come for information and assistance, as well as to register for classes. Whether a student becomes a degree student or a special credit student, he or she needs to take advantage of the help this staff is ready to give. These services include:

Academic Advising/Counseling

A wide range of both counseling and academic advising services is available here. If students need to talk with someone about any problem or concern, qualified counselors are available to listen and help resolve problems in a confidential and relaxed setting. Students can talk through whatever is on their mind and quite often gain insight into how to solve the problem through this process.

In addition to personal counseling, academic advising services are readily available to all students. Student Development staff and faculty advisors will work with students to plan a course of study to take them from where they are to where they want to be. From learning more about what a particular course is really like to making sure students are going to be ready to complete a degree when they want to, the staff will be there to help. For students interested in transferring, this staff will help make the transition a positive experience through such assistance as helping students find the right person to see at the senior college or guiding students through the application process.

Career Services

The Career Services Center offers a comprehensive career development program designed to assist students in setting career and educational goals and developing employability skills.

Services include career counseling, career assessments, career research and exploration, resume development and preparation for employment interviews. The center provides students with quick and easy access to local, national, and international labor market data through current printed materials, Internet sites, video and audio tapes, and face-to-face interview with area employers.

Located in the Reeves Building on the main college campus, the center is open five days and four evenings per week. Individuals may learn more about the center by calling 336-386-3388.

Educational Opportunity Center Services

Funded by a grant from the US Department of Education, the Educational Opportunity Center (EOC) offers a wide range of services to first-generation college students from Surry, Yadkin, Davie, Stokes, and Rockingham counties. Some of these services include assistance with admissions, financial aid, career counseling, and referrals to other service agencies. Many of the students served locally by the EOC are displaced workers who decide to return to school for training in a new career field. Services provided by the Center staff often add the final touch of personal attention that helps students find success in their educational programs. For additional information about the services available, call 336-386-3328, or ask for the EOC in the Student Development Office.

Upward Bound Program

The Upward Bound Program, funded through a grant from the U.S. Department of Education, assists local high school students by providing tutoring, instruction in computer applications, personal development, composition, literature, Spanish, ESL, math, and social studies. The program is designed to help young people develop the academic skills and motivation necessary for success in college. For additional information about Upward Bound, call (336) 386-3268 or 1-877-532-0090, or ask for Upward Bound in the Student Development Office.

Academic Assistance

Degree-seeking students whose placement test scores indicate a need for more background preparation and other students who are looking for refresher courses are offered space in developmental studies classes. Participation in this program enables these students to gain the necessary skills to become successful college students. The Academic Support Center has student tutors and professional staff available for individualized instruction in reading, English, and mathematics.

Veterans Services

If a student is a veteran of military service, serves in the Reserves or the N. C. National Guard, or is the spouse or child of someone disabled or killed during service, he or she will want to take advantage of the Veterans Services Office within Student Development. The veterans certifying official will help students apply for any educational benefits available to them and will answer questions about these benefits. Students receiving veterans educational benefits must (1) follow the Standards of Progress for Financial Aid Recipients at Surry Community College; and (2) maintain regular class attendance in order to continue receiving these benefits.

Veterans Attendance. Any student missing one week of day classes or two consecutive evening classes should be reported to the Veterans Administration. State and federal laws require that all persons receiving veterans educational benefits attend class on a regular basis. Instructors will be notified each semester concerning who these students are.

Student Activities

A well-balanced educational program includes some time for social, cultural, and recreational activities. Each year the college provides a variety of such activities through student clubs and organizations. The SCC Inter Club Council coordinates many of these activities and the College encourages students to learn more about specific clubs. An intramural sports program is also offered each year for those not-so-serious about formal sports, but still looking for exercise and fun. Student interest, participation, and enthusiasm are usually high in these programs.

Disability Support Services (ADA)

Mission. Disability Services is here to assist the College in ensuring equal access to programs and services and to provide equal opportunities for students with disabilities, through the provision of reasonable accommodations, resources and services. Disability services are in compliance with section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990.

Request Services. Surry Community College is committed to making the educational opportunities it offers reasonable and accessible to all qualified students with disabilities. Students seeking assistance or accommodations are responsible for making their disability known to the coordinator of Disability Services, in the office of Student Development. Students seeking disability services need to make their needs known in a timely manner, since it may take some time to acquire the necessary aids and notify the student's instructors. If the student hasn't made a request for services or reasonable accommodations in a timely manner prior to enrollment, SCC cannot assure that all appropriate accommodations can be accomplished prior to the first class.

Self Advocacy. Students have the opportunity to voluntarily self-identify with the college as having a disability or special need. Students can self identify to the Office of Disability Services located in A-204 or contact the Student Development Office.

Note: Identifying yourself as having a disability, to an individual professor, school, friend or department other than the Student Development Office IS NOT considered an official notification to the College.

Documentation. Services of a disability or special need are provided based on documentation provided by the student. The student must provide information about a substantial limitation to one or more major life activities, specifically as it applies to meeting the demands of the college life, in and/or out of the classroom. Acceptable documentation of a disability or special need may include: medical report, physician's statement,

psychological evaluation, psycho educational evaluation or other professional evaluations which verify the need for reasonable accommodations or modifications. The documentation should be current (within the last three years). IEP's and 504 Plans, although providing historical evidence of services and accommodations, are generally not considered sufficient to make a student eligible for services. Please note that students will be evaluated on a case-by-case basis. If no current documentation is available, it is the responsibility of the student to have new documentation prepared.

Resources. When possible, SCC will rely on the resources available from community agencies such as the Division of Vocational Rehabilitation Services, Services for the Blind and Services for the Deaf and Hard of Hearing and others which provide educational auxiliary aids. The college is not required to, and cannot provide personal attendants, individually prescribed devices, readers for personal use or study, or other devices or services of a personal nature.

Disability Services Office is located in the A-Building Room 204, above the Student Development Office.

Availability

Anytime students are on campus, there is someone in the Student Development Office to assist them if they need help. Regular office hours are **Monday-Thursday -** 7:30 a.m.-8:00 p.m.**; Friday -** 7:30 a.m.-3:00 p.m. **For more information call (336) 386-3264.**

Business Programs	**386-3246**
College Transfer	**386-3370**
Evening Programs	**386-3276**
Financial Aid/Veterans Services	**386-3465**
Nursing Program	**386-3247**
Technical Programs/Diploma Programs	**386-3281**
Student Employment Center	**386-3325**

Health Services

First aid supplies are kept at various locations around campus such as Student Development, Administration Offices, Nursing Department, Physical Education Department (Gym), Maintenance Office & shop, as well as all technical and science lab areas.

In the event of any emergency, students should contact the Campus Police through the switchboard/ information center window or dial 0. If further help is needed for the situation, Surry County Emergency Medical Services will be notified. Students will be transported to Northern Surry Hospital in Mt. Airy if deemed necessary by the EMS.

Copies of the Communicable Disease Policy and Alcohol & Drug Abuse Policy are available in the Student Development Offices.

All health services are coordinated through the Dean of Student Development.

A limited accident insurance policy is purchased upon registration. Because this is a limited policy, students must read carefully the brochure which is provided. If it becomes necessary to receive medical treatment under this policy, students must notify the Business Office within two days of the injury and complete the required forms.

Cosmetology Services

The Cosmetology Department is located on the lower level of the Richards Health Sciences (H) Building. Although the purpose of the department is to train students to gain employment in the beauty culture field, the department offers its services to SCC students, faculty/staff, and the general public. Services are administered on a first-come, first served basis.

Voter Registration Services

Throughout the academic year, voter registration opportunities will be made available in the Student Development Office. For additional information, contact the Special Programs Coordinator in the Student Development Office.

Food Services

The Knight's Grill, a full-service cafeteria, is located just below the Student Development Office. A wide selection of choices from sandwiches, soups and salads to full meals are prepared fresh daily. Hours of operation are 7:00 a.m. until 8:30 p.m. Monday through Thursday, and 7:00 a.m. until 1:30 p.m. on Friday.

COSTS AND STUDENT FINANCIAL AID

TUITION AND FEES

Surry Community College offers educational opportunities at minimal cost to students. Charges are set by the North Carolina State Legislature and are subject to change.

The tuition for in-state students is $39.50 per credit hour with a maximum charge of $632.00 per semester. To qualify for in-state tuition, a legal resident must have maintained his domicile in North Carolina for at least the twelve months preceding the date of first enrollment or re-enrollment in the college. If questions arise concerning legal residency, students may contact the Dean of Student Development.

For out-of-state students, tuition is $219.50 per credit hour with a maximum charge of $3,512.00 per semester. Out-of-state students attending Surry Community College are eligible for in-state tuition rates provided they are employed in North Carolina and the employer pays the tuition for the student employee with a company check. Also, a letter on company letterhead must be submitted to the Business Office stating that the student is an employee of the company. North Carolina residents age 65 and older may register for college classes free of tuition, but must pay for fees associated with their class registration.

Tuition Payment Options

Payment of **tuition and fees** must be made by **Registration Day.** Otherwise, student registration may be voided and enrollment cancelled. Options for payment are as follows:

*Cash, check, or money order

*Credit Card - VISA or MasterCard

*Financial Aid - Financial aid approved and awarded by the Financial Aid Office prior to registration includes PELL and scholarships which have been received by the Business Office.

*Third Party Authorizations - Businesses, agencies, organizations, etc. may authorize payment for students' educational expenses. Authorization from the agency must be either on file or presented to the Business Office at the time of registration stating the specific charges covered.

*FACTS Tuition Management Company - Students may electronically send payment in full for tuition and fees to the college from their personal bank account via a link on the college's website for a nominal fee. For more information contact the Business Office or visit the college website at ***http://www.surry.edu.*** Students may also apply for an installment plan through FACTS Tuition Management Company for payment of tuition and fees. Payments are set up at 0% interest with a $25 per semester fee. Payments will be drafted from the students' personal bank accounts. **There will be a $25 fee imposed by FACTS Tuition Management Company for any missed payment.** Students must enroll for at least (3) semester hours and complete an application via the college website at ***http://www.surry.edu.*** For more information contact the Business Office or visit the college website. ***Payment options subject to change.***

*Collection Costs - In the case that Surry Community College considers it necessary to refer all or part of the unpaid principal and/or interest evidenced by this note to an attorney or collection agency for collection, I am liable for and shall pay the college the attorney's fees and/or collection agency fees resulting from the referral. I agree to pay all charges and other costs, including attorney's fees, that are allowed by Federal and State laws and regulations and that are necessary for the collection of these amounts.

Tuition Rate: Self-SupportingClasses

The College may choose to provide classes under a financially self-supporting method at any time. Tuition rates for self-supporting classes in both curriculum and continuing education will be set at a rate that permits recovery of instructional cost. Each student pays a pro-rata share of that cost. Under this course method, the t**uition rate may exceed the standard state-established tuition rate.**

Tuition and Fee Summary *(Tuition rates listed below are correct at the time the catalog was printed. These rates are subject to change and will not be final until the legislature adjourns at the end of the term.)*

ALL CURRICULUM PROGRAMS: Tuition

Student Classification	Rate Per Credit Hour	Maximum Charge (16 or more credit hours per semester)
Resident	$39.50	$632.00
Non-Resident	$219.50	$3,512.00

ALL CURRICULUM PROGRAMS: Fees

While Surry Community College attempts to keep student costs as low as possible, some fees are necessary to maintain adequate services. Presented below are the fees currently applicable to curriculum students. These fees can be refunded only in cases of class cancellation. Any questions regarding these fees should be addressed to the Dean of Student Development or the Executive Vice President/Chief Financial Officer.

Type of Fee	Basis	Applies To	Amount
Parking	Annual (Fall-Summer)	All Students (Day & Evening)	$5.00
Accident Insurance	Semester	All Students (Day & Evening)	$2.00
Student Activity	Semester	All Students (Day & Evening)	$1.00/Credit Hr. max: $14 fall/spr $10 summer
Technology	Semester	All Students (Day & Evening)	$1.00/Credit Hr. max: $16
Distance Education	Course	Students registered for DE courses	$10.00/DE course
Graduation	Program	Students ordering diplomas	$15.00

BOOKS AND SUPPLIES

A student is required to have the necessary textbooks and supplies prescribed in the curriculum he or she is pursuing. The average cost of books will vary from $250 to $450 per semester, depending upon the curriculum and the number of courses taken.

Books and supplies are sold during regular bookstore hours (Monday-Thursday 7:30 am-8:00 pm; Friday 7:30 am-3:00 pm).

A receipt is required for all refunds or exchanges. Refunds are made only when a receipt is presented and schedules are changed (Drop slip must be presented), or incorrect book is purchased. Refunds on books purchased in the bookstore may be made only when classes requiring the books are dropped by the drop/add date. Refunds will not be given to students who purchase a new book and then find a used book. Students interested in buying used books should do so before purchasing books in the bookstore. **All refunds must be settled within two weeks after the drop/add period.**

TUITION REFUNDS*

A refund shall not be made except under the following circumstances:

1) A 100 percent refund shall be made if the student officially withdraws prior to the first day of class (es) of the academic semester as noted in the college catalog. A tuition refund request must be completed in order to be eligible.

2) A student is eligible for a 100 percent refund if the class a student is officially registered for is cancelled by Surry Community College. A tuition refund request is not necessary in this situation.

3) A 75 percent refund shall be made if the student officially withdraws from the class (es) prior to or on the official 10 percent point of the semester as noted in the college catalog. A tuition refund request must be completed in order to be eligible.

The tuition refund request needs to be completed in the Student Development Office. There are no refunds for payment of activity fees, insurance premium fees, or other special fees unless the class(es) are cancelled by Surry Community College.

**This policy is subject to change by North Carolina State Legislature.*

STUDENT FINANCIAL AID

The Student Financial Aid Program is designed to assist eligible students in meeting the costs of attending Surry Community College. Financial assistance includes several types of aid: grants, scholarships, loans, and student employment. Financial aid awards may include one or more types of aid. Only students who have been accepted for admission will be offered financial assistance. An enrolled student must reapply for aid during the second year of attendance.

Anyone interested in financial aid information may contact the Financial Aid Office which is located in Student Development. Application packets are available which explain the opportunities and responsibilities in more detail. All financial assistance is awarded without regard to the student's race, religion, national origin, age, sex, or disability.

Application Procedure

Students should:

1. Complete the Free Application for Federal Student Aid (FAFSA), and mail it to the address shown on the form. Students must specify in the appropriate section that they will be attending Surry Community College. SCC's Title IV school code is 002970. Students completing the FAFSA before March 15 may be considered for the North Carolina Student Incentive Grant. After completing the FAFSA, students will receive a Student Aid Report from the Federal Processing Center. Students may also complete the FAFSA online at www.fafsa.ed.gov.
2. Submit all copies of the Student Aid Report to the Financial Aid Office immediately, or notify the office in writing of plans to attend SCC. The report will allow the aid office to determine what types of aid students are eligible for and what amounts of aid they may receive.
3. Complete a Surry Community College Application for Financial Aid and return it to the Financial Aid Office, Surry Community College, 630 S. Main Street, Dobson, NC 27017.

To receive notification of eligibility, a student must have a completed aid application file on record in the Financial Aid Office by the following deadline dates:

Fall Semester: May 1
Spring Semester: October 1
Summer Semester: February 1

Students with incomplete files will be required to use personal funds or apply for tuition assistance through the FACTS deferred payment plan. Subsequent eligibility may allow for reimbursement after the semester begins.

Federal Pell Grant Program

The Federal Pell Grant Program is an aid program designed to provide financial assistance to those who need it to attend college. Award amounts are based on adjusted gross income and number in household.

Federal Pell Grants are intended to be the "floor" of a financial aid package and may be combined with other forms of aid in order to meet the full costs of education. Students seeking financial assistance should apply for this type of aid.

North Carolina Student Incentive Grant (NCSIG)

Full-time students who are legal residents of North Carolina may apply for the NCSIG. These grants are awarded by College Foundation, Inc., Raleigh, NC. Students must demonstrate substantial financial need as calculated by the Department of Education. Students must apply for federal aid using the FAFSA form by March 15th of each year to be considered for these monies.

Federal Supplemental Educational Opportunity Grants

The Federal Supplemental Educational Opportunity Grant Program is sponsored by the federal government and was authorized under the Higher Education Act of 1972. A limited number of these grants will be available to students who have "exceptional financial need." Any student who completes the FAFSA is considered for this grant. Priority is given to early applicants.

Federal Work-Study Program

Part-time jobs are available for students wishing to earn money for part of their college expenses. The jobs may be on campus or off campus with a public or private non-profit agency. The amount of work varies and is determined solely on need as determined by the Financial Aid Office.

Students applying for work-study must complete the application forms previously explained. This type of aid is paid to the student in the form of monthly wages. There is no repayment.

Student Loan Programs

Separate application forms, in addition to the FAFSA and SCC Aid Application, must be completed to apply for these programs. Detailed information may be obtained from a high school counselor or from the Financial Aid office staff.

Other Scholarships

The Surry Community College Foundation, Inc., provides scholarships for students having financial need and meeting other specified criteria. This form of aid is made possible by businesses, industries, and individuals who have contributed to this non-profit organization.

A number of local scholarships are provided by various clubs, organizations, businesses, and individuals. Some of the recipients of these scholarships are chosen by the organization involved; other scholarships are administered through the Financial Aid Office. To apply for scholarships administered by the college, a student should complete the Surry Community College Application for Financial Aid. An annual list of scholarships awarded is available from the Surry Community College Foundation Office.

Withdrawal Calculation Policy

Students receiving financial aid must follow official withdrawal procedures. Students will now be required to repay a portion of aid funds used at the time they withdraw, or receive reimbursement for time in attendance.

To comply with this policy, an aid recipient must do the following:

1. Follow official school withdrawal procedures, which are found in the college catalog.
2. After obtaining "instructors' signatures" and "last date of attendance" on the drop card, the card must be taken to the aid office for a staff signature. The "last date of attendance" will be used to calculate the repayment/refund amount of aid due. Repayment/Refund pertains only to students completely withdrawing from all classes. Students on approved Leave of Absence are not considered withdrawn unless they do not return to school within the stated time frame.

3. The school will calculate: 1) total amount of aid that the student received from the Pell Grant program, SEOG, and any federal loans; b) total amount of same aid that was used for tuition, fees, books, and supplies (charged to account); c) total number of days student attended classes, and compare this number to total days in semester. This calculation will give school the percentage of the semester completed by the student. If the student has completed at least 60% of the semester, no further action is taken; d) school will apply percentage of semester completed to the amount of aid student received to determine the amount of aid they are eligible to have for the days enrolled; 3) if the student used more aid than they were eligible to receive according to days in attendance, then the student must repay to the school an amount equal to "funds overspent x 50%". NOTE: If student owes repayment on federal funds, money must be repaid in full to school within 45 days, or student will be ineligible for further aid. The student's account can be referred to Department of Education for collections and can result in garnishment of wages and/or tax returns; f) If the student used less aid than they were entitled to receive according to days in attendance, then the school owes the student a "post-withdrawal disbursement". School will notify the student of amount and date of availability of funds. Student must claim the funds within 14 days or disbursement will be voided.

A mathematical example showing the application of this policy is available upon request from the Financial Aid Office.

STANDARDS OF ACADEMIC PROGRESS FOR ALL AID RECIPIENTS AT SURRY COMMUNITY COLLEGE

Introduction

This college policy outlines the regulations for satisfactory academic progress required of all students receiving financial assistance. These standards apply to any student receiving grants, scholarships, college work-study, or any other type of financial assistance through Surry Community College.

Procedures

Transcripts of all aid recipients will be reviewed at the end of fall and spring semesters by the Financial Aid Office. From this review, a determination will be made about the satisfactory progress of each financial aid recipient. This review will include the student's total academic history at Surry Community College, including remedial or developmental classes. The "Fresh Start/In-House Transfer" exclusion policy does not apply to the grade point calculation used to qualify students for federal aid. In order to receive aid, a student must be making satisfactory progress regardless of whether he or she has previously received aid. These are the conditions related to satisfactory progress:

I. Financial aid recipients in the two-year college transfer or Associate in Applied Science Degree (Technical) programs must maintain the following grade point average to be classified as making satisfactory progress:

0 to 20 credit hours attempted - 1.00 cumulative grade point average must be attained.
21 to 35 credit hours attempted - 1.50 cumulative grade point average must be attained.
36 to 50 credit hours attempted - 1.75 cumulative grade point average must be attained.
51 credit hours to end of program - 2.0 cumulative grade point average must be attained.

Note: In addition to these GPA requirements, a student must complete at least 50% of the credit hours attempted each semester.

II. Financial aid recipients in the diploma or eligible certificate programs must maintain the following grade point averages to be classified as making satisfactory progress:

0 to 15 credit hours attempted - 1.50 cumulative grade point average must be attained.
16-26 credit hours attempted - 1.75 cumulative grade point average must be attained.
27 to end of program - 2.00 cumulative grade point average must be attained.

Note: In addition to these GPA requirements, a student must complete at least 50% of the credit hours attempted each semester.

III. At the end of each level previously described, an aid recipient has one full probationary semester in which to bring his/her GPA up to the minimum requirements. During the probationary semester, a student must attempt at least 6 credit hours, attain a minimum GPA **and** complete at least 50% of the credit hours attempted for that semester. Failure to do so will cause the student to be terminated from receiving further financial assistance. To re-establish eligibility after termination, students must complete at least 6 credit hours including 50% of the hours attempted in a semester, and attain the minimum GPA required on the proceeding page. Students must present an updated copy of their qualifying transcript to the aid office, along with a request for reconsideration of eligibility.

IV. Students receiving certain types of aid who withdraw from any or all courses during any semester or pay period, may be subject to repay a pro-rated amount of the assistance.

V. Any financial aid recipient who withdraws from school **MUST** notify the Financial Aid Office. Failure to notify the Financial Aid Office can result in a forfeiture of the probationary semester.

VI. Only grades of A, B, C, D, and F will be used to calculate GPA as explained in this catalog. Financial aid cannot be awarded for an audit. Also, Title IV aid will not pay for a student to repeat any classes already showing on a transcript, including those listed as transfer credit, regardless of whether aid was received for the class(es). No aid can be paid for classes in which a student has earned proficiency credits, designated as "CR" on the transcript.

VII. **Time Limitation:** Federal regulations require that schools establish a maximum time limit during which the student on aid must complete his or her degree at Surry Community College. This time limit is 150% of the number of credit hours required for the program. For example, a student pursuing an A.A.S. degree in Paralegal Technology (69 credit hours) must attain that degree after attempting 104 credit hours (69 x 150% = 104). Students will be terminated from aid after reaching the maximum time frame allowed for their program of study. A reconsideration due to mitigating circumstances is only allowed one time. **All** attempted hours on the transcript will be counted in this time frame, unless hours are used for a previous degree received.

Note: Students who are terminated from an aid program must receive counseling from the Financial Aid Director before being eligible for future financial assistance. Any deviation from the above policy will be at the discretion of the Financial Aid Director. In order to appeal financial aid termination , a student must be able to document mitigating circumstances.

To appeal, students must indicate in writing to the Financial Aid Office the reason why they did not meet satisfactory progress requirements and why financial aid should not be terminated. Documentation to support the appeal is required.

The Financial Aid Director will review the appeal to determine whether or not termination of aid is justified and will advise the student in person or by letter.

A student who wishes to appeal the decision of the Financial Aid Director may request a hearing with the Dean of Student Development for final determination. This action will exhaust the appeals process.

VETERANS--STANDARDS OF ACADEMIC PROGRESS FOR ALL VETERANS RECEIVING GI BILL OR OTHER VETERAN'S BENEFITS

The minimum grade point averages detailed in Sections I and II of the Standards of Academic Progress Policy previously described also pertain to students receiving veteran's benefits. In addition to these Grade Point Average requirements, the following conditions apply.

1. Only grades of A, B, C, D, and F will be used to calculate GPA as explained in the college catalog. The Veterans Administration will not pay for audits, withdrawals, incompletes, or proficiency credits.
2. For all degrees, diplomas, or certificates, after 75% of credit hours are earned in a particular program, a 2.00 cumulative grade point average must be attained. There is no probationary period if students do not meet this requirement. For example, if a student needs 100 total credit hours in his or her program, after 75 credit hours are earned, he or she must have a 2.00 GPA to continue receiving benefits.
3. Students may contact the veterans certifying official in Student Development for questions pertaining to veterans benefits.

SURRY COMMUNITY COLLEGE FOUNDATION, INC.

The Surry Community College Foundation, Inc. was established in 1966 as a non-profit organization dedicated to providing financial assistance to students, promoting faculty development and supporting programs which enhance the college's learning environment.

The first grant to the Foundation was an $800 scholarship from North Carolina Foam Industries in September 1966. The Foundation has a variety of methods through which contributions can be made to serve the best interests of the donor and the purposes of the Foundation. These include gifts of cash; common stock or other securities; life insurance policies with the Foundation as beneficiary; property and/or real estate with provisions for continued use for the duration of a person's life; donations by will through an estate; gifts in honor or memorial; annuity trusts; individual retirement accounts; gifts-in-kind; and other methods developed to meet specific needs of the donor. All gifts must meet the requirements of the Foundation by-laws and practice.

All philanthropic support to benefit Surry Community College should be channeled through the Surry Community College Foundation, Inc., which is the affiliated agency through which tax deductible gifts can be made to the college.

The Ambassador Scholars Program

The Ambassador Scholars Program was originated by the Surry Community College Foundation, Inc., in 1993. Ambassadors are students who are proven leaders and scholars. Ambassadors are trained as public relations representatives for the College and Foundation. They are chosen from a variety of curriculum areas and have differing educational and career goals. For more information about this program, contact the Student Development Office.

CONTINUING EDUCATION DIVISION

The Continuing Education Division offers a vast array of courses and programs in over 100 sites throughout our two county service area of Surry and Yadkin Counties. Course categories include arts and crafts, automotive, computer science, insurance, languages, law enforcement, fire/rescue, medical, real estate, recreation, teaching, trades, and miscellaneous other classes.

Through the Continuing Education Division you can prepare for a new career in one of our licensing/certification programs, enhance your work skills, earn your high school diploma (GED), learn a trade, or take a class for personal enrichment.

Occupational Extension Courses are designed to prepare individuals for an occupation/career through licensing and certification courses. Courses are also available to enhance the skills of students in their current employment situation. Some representative courses are law enforcement, certified nursing assistant, real estate, insurance, teacher assistant, emergency medical technician, computer science, HVAC, electrical contractor, general contractor, and plumbing.

The Basic Skills Program includes the following components:

·The High School Completion Program (GED) is designed to prepare adults for the Tests of General Educational Development. Upon successful completion of the program of study and a satisfactory score on the GED Tests, students are awarded a high school diploma by the State of North Carolina.

·The Adult Basic Education Program provides a means for adults to learn to read, write, and improve basic math skills. Practical teaching methods enable students to acquire basic skills such as using a telephone directory, reading road signs, counting money, and completing job applications.

·English for Speakers of Other Languages courses are designed to teach English communication skills as well as American customs and history to persons whose primary language is not English.

·The Compensatory Education Program provides educational opportunities for adults who have special learning needs due to a developmental disability or traumatic brain injury.

·The Family Literacy Program is a comprehensive family oriented educational program that the college offers in partnership with the public school systems and other agencies. Parents and children attend classes together to enhance the education level of the whole family.

The Human Resources Development Program provides employability skills for unemployed and underemployed adults. The curriculum addresses six core components: (1) assessment of an individual's assets and limitations, (2) development of a positive self-concept, (3) development of employability skills, (4) development of communication skills, (5) development of problem-solving skills, and (6) awareness of the impact of information technology in the workplace. Also, the framework of the course can be based on four post-employment service strategies: transition, advancement, retention, and re-employment. Career exploration and training success strategies are emphasized for those people returning to school.

The Small Business Center offers free or low-cost services for both start-up and existing businesses. Services include consultation and referral, courses and seminars, and access to entrepreneurial literature. The mission of the Small Business Center is to increase the success rate of small businesses and to enhance economic development in North Carolina.

The Focused Industrial Training Program (FIT) is a special training source for North Carolina's traditional industries. Serving primarily manufacturing clients, FIT uses individualized needs assessments and consultants to design and implement targeted, customized training for organizations that need to upgrade workers' skills because of technological or process advances.

The New and Expanding Industry Program is designed to assist any company that creates at least twelve (12) new production jobs in our service area with average hourly rates exceeding the county average. The versatility of this training is virtually unlimited. The final design of the training is the result of a partnership between the company and the college.

Community Service and Self-Supporting Programs include courses designed to meet the personal growth, recreational, and enrichment needs of adult students. Representative courses include painting, photography, sewing, cake decorating, banjo, guitar, basketweaving, floral design, Chrismons, scrapbooking, a variety of needlework classes, golf, fly fishing, motorcycle safety, and Alive at 25.

The Emergency Services Training Center is a comprehensive training facility for emergency services personnel, law enforcement personnel, and industrial employees. The center includes a driving range, live fire simulators, a structural burn building, confined space and high angle rescue simulators, and an off-road emergency vehicle operators training course.

TUITION, FEES & REFUNDS

All Basic Skills (ABE, GED, ESL, CED, Family Literacy) classes are offered **tuition free**.

Tuition and fees for occupational and community service classes are as follows.

Course Hours	Tuition	Technology Fee
1-10 hours	$50.00	none
11-30 hours	$55.00	$1.00
31-100 hours	$60.00	$2.00
101+ hours	$65.00	$3.00
Community Service	$40.00	based on hours of class as stipulated above

Students who enroll in **self-supporting classes** pay fees that are based on a pro rata cost of the course. Technology fees are based on the hours of the course as stipulated above.

A student who **wishes to withdraw** from a Continuing Education course must contact the Continuing Education office prior to the 10% point of the scheduled hours of the class to be eligible for a tuition refund. A 75% refund will be given if the student request is received by the deadline. If a student pre-registers/prepays for a class and requests a refund prior to the first class meeting, 100% of the tuition will be returned.

North Carolina residents age 65 years of age and older may register free of charge with the exception of Self-Supporting courses. Tuition fees are set by the North Carolina General Assembly and may change. **Any person repeating an Occupational course for the third time will be charged an additional fee.**

The **technology fee** is waived for Basic Skills students, HRD students whose tuition is waived, and students enrolled in emergency services training courses. It does apply to senior citizens, even when tuition is waived and to college faculty/staff who enroll in continuing education classes.

All continuing education students who attend class during the day must purchase a **parking permit**. Students who are registered for an evening class that is more than 20 hours in duration must purchase a parking permit.

REGISTRATION AND ATTENDANCE

Continuing Education students register at the first class session unless noted as "pre-registration required" in the course information. To pre-register, please call the appropriate extension number from the class schedule.

Any person eighteen years of age or older may be admitted to a Continuing Education class. Surry Community College provides educational opportunities without regard to race, sex, creed, national origin, or disability.

Students are encouraged to attend all classes. Those who attend at least 80 percent of the classes and complete course requirements will be awarded a satisfactory grade and CEU's where applicable.

Continuing Education classes may be cancelled if a sufficient number of persons do not register at the first class meeting.

CONTINUING EDUCATION UNITS

Continuing Education Units (CEU's) are awarded by the college (one CEU for ten contact hours of class) to students who complete all course requirements for non-credit classes above the secondary school level. CEU records are maintained by the Continuing Education Division. Transcripts of individual records are available upon written request.

COMPUTER COURSES

COMPUTER SKILLS FOR JOB SEEKERS — Hours: 36 — Semester: FSSu

This course focuses on Computer Basics and is an introduction to Windows. It provides employability skills training for unemployed and underemployed adults. The curriculum framework is designed to introduce computers and computer terms, develop a moderate comfort level of basic computer use skills, introduce the Internet and develop email capabilities, and develop skills in navigating the Internet and using search engines. It teaches the use of Windows controls, file management, word processing, and spreadsheet. Prerequisites: None

INTERNET FOR JOB SEEKERS — Hours: 30 — Semester: FSSu

This course on Internet Basics can be used to learn about the most important topics of using the Internet, including using e-mail, browsing Web sites, searching for information, downloading data & programs, using file transfer protocol (FTP) software, and other Internet related topics. The training for this course is a combination of Instructor-led lecture and student hands-on use of the Internet. Students will be shown how to set up their own e-mail account and how to determine their home page on the web. Each class session will begin with the instructor's demonstrating how to use a certain segment of the World Wide Web that the student will need to use when working the assignments on your own during the last part of each class. This lecture and hands-on approach is designed to make you more productive when using the Internet. Prerequisites: Computer Skills or prior computer knowledge.

KEYBOARDING SKILLS FOR THE WORKPLACE — Hours: 30 — Semester: FSSu

This course is designed to provide training in keyboarding skills using a computer keyboard. Course topics include focusing on alphabetic keys and the numeric key pad. The student will become familiar with numeric, symbol and function keys, and will drill for speed, accuracy, and keyboard applications. This class will help the student develop strong keyboarding skills and will reinforce proper techniques to build keyboarding fluency. Learning to keyboard requires continual diligence and repetition to master; therefore, technique drills and speed and accuracy drills are included. Prerequisites: None

MICROSOFT OFFICE INTRODUCTORY — Hours: 78 — Semester: FSSu

This MS-Office Introductory course consists of twelve projects that are designed to take full advantage of the MS-Office application. The objective of this course is to teach the introductory and the intermediate levels of MS-Office, showing the student how to create Word documents, Excel workbooks, Access databases, and PowerPoint presentations. The training for this course is a combination of Instructor-led lecture and student hands-on exercises. Each class session will begin with the instructor's lecture of the subject, which includes a preview of the steps that you will need to use when working the assignments on your own during the last part of each class session. This lecture and hands-on approach is designed to make students more productive when using MS-Office. The textbook, *MS-Office: Introductory Concepts and Techniques*, consists of a brief introduction to computers, a project on MS-Windows, three projects each on MS-Word, MS-Excel, and MS-Access and two projects on MS-PowerPoint. After completing the projects and activities in this course, students will have started a foundation of the training that will eventually prepare them for the Core Level Microsoft Office User Specialist (MOUS) program.
Prerequisites: Computer Skills for Job Seekers or prior computer knowledge.

MICROSOFT OFFICE ADVANCED — Hours: 78 — Semester: FSSu

This MS-Office Advanced course will extend the student's basic knowledge of working with Word documents, Excel workbooks, Access databases, and PowerPoint presentations. This Advanced course is a continuation of the MS-Office Introductory course, and it is assumed that students are familiar with the fundamentals of MS-Word, MS-Excel, MS-Access, and MS-PowerPoint. The textbook, *MS-Office: Advanced Concepts and Techniques*, consists of, projects four, five and six for MS-Word, MS-Excel, and MS-Access and projects three and four for MS-PowerPoint. After completing the projects and activities in this course, students will be prepared to pass the Core & Comprehensive-level Microsoft Office User Specialist (MOUS) exam. Prerequisites: Introductory Microsoft Office.

EDUCATION			
CHILD CARE PROVIDER CONTINUING EDUCATION	12	FSSu	

Offered periodically throughout the year, a variety of topics are covered to provide professional development for child care providers and to meet their continuing education training hour requirements. All sessions address developmentally appropriate curriculum for child care providers to use in their classrooms.

EFFECTIVE TEACHER TRAINING 30 FSSu

This class presents an overview of the Effective Teacher Training course. The ETT program emphasizes information and behavioral skills needed in order to recognize and apply those teaching practices that research supports as most effective. Educators must look at time as a resource whose appropriate use is carefully planned for and strictly managed. This class presents teaching skills, which maximize learning time.

NATIONAL BOARD CERTIFICATION FOR PUBLIC SCHOOL TEACHERS
24 FSSu

This course provides a comprehensive introduction to the National Board for Professional Teaching Standards certification process. Providing information for both candidates and potential candidates, the course focuses on the four portfolio entries and the six assessment center entries. Detailed instructions for each aspect of the ten areas are discussed. Tips for completing the certification process, including the video entries, are given during the course.

GRE PREP I (On-Line) 24 FSSu

This course covers all question types on the verbal and analytical sections of the GRE. We will discuss how to do your best on reading comprehension, analogies, sentence completions, antonyms, and logical and analytical reasoning questions. We will cover time saving techniques for both the paper based and computer administrations of the test.

GRE PREP II (On-Line) 24 FSSu

This course features a math review and techniques for tackling the quantitative comparison, discrete quantitative, and data interpretation questions that make up the math section of the GRE. We will also cover time saving techniques for both the paper-based and computer administrations of the test.

WORKKEYS ASSESSMENT 4 FSSu

The WorkKeys test is open to those current or potential teacher's assistants who need to take the complete assessment for the first time or those who may need to retake a section of the test. Pre-registration and pre-payment are required.

MEDICAL

	Hours	Semester	Certificate/License
EMERGENCY MEDICAL			
Medical Responder	72	OR	Certification

This course is designed to train individuals with the knowledge and skills to operate ambulances throughout the state. Students are instructed in Basic Life Support skills including the use of AED to assist Emergency Medical technicians in the field. Skills developed are patient assessment, vitals signs, airway management CPR, splinting, and hemorrhage control. This is an entry level course for state certification. This course must follow the guidelines established by the NC Office of EMS. The curriculum for the MR educational program shall be the 1995 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) First Responder Course: National Standard Curriculum. Student prerequisites: High school diploma or general education development (GED); or successful completion of an entrance exam assessing basic reading comprehension skills at a minimum at the tenth grade level.

EMT-Basic	208	FS	Certificaiton

The Emergency Medical Technician-NR course establishes the basic knowledge needed to provide, under medical authority, prehospital emergency care and to pass the NC State and/or National Registry certification exam. Students will acquire basic life support knowledge through a combination of classroom instruction, practical laboratory exercises and clinical experience in hospitals. Students will acquire a thorough understanding of criminal, civil and vehicle laws pertaining to the EMT's services; develop understanding and knowledge of human anatomy and physiology; deal calmly and efficiently with childbirth, injuries, poisonings and other medical emergencies such as heart disorders, strokes and diabetes; and in general be able to provide basic life support for seriously/critically ill patients. This course follows the guidelines established by the NC Office of EMS. The curriculum for the EMT-B educational program shall be the 1994 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) EMT-Basic Course: National Standard Curriculum and the Supplemental Airway Modules for EMT-Basic: NSC. Prerequisites: High school diploma or general education development (GED); and successful completion of the TABE assessment exam for basic reading comprehension skills. This test may be taken at any of the learning centers at no cost to the student.

EMT-Intermediate	276	F	Certification

Certification as an Emergency Medical Technician is a prerequisite for this course, which details more advanced airway devices, insertion and maintenance of intravenous lines, AED use and basic pharmacological therapy, in accordance with local protocols. This course must follow the guidelines established by the NC Office of EMS. The curriculum for the EMT-I educational program shall be the 1985 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) EMT-Intermediate Course: National Standard Curriculum. Prerequisites: High school diploma or general education development (GED); successful completion of the TABE assessment exam assessing basic reading comprehension and language skills at a minimum at the post-secondary grade level and basic math skills at a minimum high school level; successful completion of an EMT Basic course; and a current NC EMT certification prior to beginning the Clinical and Field Internship components. The TABE may be taken at any of the learning centers at no cost to the student.

EMT-Paramedic	1000+	S	Certification

This course is designed to develop knowledge and skills for the Advanced Emergency care of ill or injured persons. This course follows the National Department of Transportation Guidelines and is approved by the North Carolina Office of Emergency Medical Services. Lecture, demonstrations, skills evaluation, and both Hospital and Field Internships are the principal methods of instruction. Specific training areas include administration of I.V. fluids, advanced airway management, cardiac monitoring including Defibrillation, Cardioversion, Cardiac Pacing, and the administration of prehospital advanced life support medications. This course must follow the guidelines established by the NC Office of EMS. The curriculum for the EMT-I to EMT-P educational bridge program shall be the 1998 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) EMT-Paramedic course: National Standard Curriculum. Prerequisites: High school diploma or general education development (GED); successful completion of the TABE assessment exam assessing basic reading comprehension and language skills at a minimum at the post-secondary grade level and basic math skills at a minimum high school level; successful completion of an EMT-Basic and EMT-Intermediate course. Certification as an EMT-Intermediate is required prior to beginning the clinical or field internship component of this course. Successful completion of EMS 3000 Anatomy and Physiology or approved equivalent of Anatomy and Physiology (BIO 163 or BIO 165 and BIO 166) is required prior to beginning the course. The TABE may be taken at any of the learning centers at no cost to the student.

ADVANCED CERTIFICATION FOR EMERGENCY MEDICAL

ACLS - Advanced Cardiac Life Support — 16 — OR — Certification

The ACLS Provider course follows the standard American Heart Association guidelines. It provides physicians, nurses, paramedics, and other health care providers with the information concerning advanced management of the cardiac patient.

ITLS - International Trauma Life Support — 16 — OR — Certification

The ITLS Course is designed to increase the knowledge and skill level of the emergency medical technician in assessing and treating any trauma-related injury. Much of the material in this course is not covered in the initial EMT or EMT-I course. It is designed for the student to better recognize possible trauma injuries due to mechanism of injury, better assess the patient and more aggressively treat shock and trauma in general.

PALS - Pediatric Advanced Life Support — 16 — OR — Certification

The PALS course is designed to certify Emergency Medical Personnel in Pediatric Advanced Life Support through the American Heart Association. This course teaches the proper evaluation and treatment of a pediatric patient in cardiopulmonary arrest. Upon successful completion, the student will be awarded PALS certification from the American Heart Association. Pre-requisite: It is desirable but not required that an Advanced Life Support certification be held.

PEPP - Pediatric Education for Prehospital Providers — 16 — OR — Certification

EMERGENCY MEDICAL GENERAL

EMT-Recertification Continuing Education	36	FSSu	Certification
First Responder Continuing Education	36	FSSu	Certification

MEDICAL

MEDICAL TERMINOLOGY — 72 — FS

This course is an introduction to the study of the structure of medical words and terms. Emphasis is placed on spelling and defining commonly used prefixes, suffixes, root words, and their combining forms. Program content covers the basic human anatomy and physiology for all systems, elements of medical terms and names of major diseases, including terms used in physical exams, operative procedures, and diagnosis.

HEALTHCARE BILLING AND CODING — 120+ — FS

This course prepares the individual for entry level healthcare billing and coding in a variety of healthcare settings. This course is in three parts. Upon completion the student will be prepared to take the Certified Coder Examination.
Prerequisite: High school diploma /GED, Medical Terminology, and Introduction to Computers.

HEALTH UNIT COORDINATOR — 164 — FS

This course is designed to prepare the individual for employment in a hospital or other healthcare facility. Areas covered are assembling patient charts, transcribing doctors orders, recording lab values, and communication skills. There is a clinical component to this course.
Prerequisite: High school diploma/GED, Medical Terminology.

Continuing Education Course Listing

MEDICAL *continued...*	Hours	Semester	Certificate/License

MEDICAL TRANSCRIPTION — 84 — FS

This class prepares the individual to transcribe medical dictation. Students will use keyboarding skills and medical terminology. Students may find jobs in hospitals, physician practices, insurance companies and private transcription agencies.
Prerequisites: Keyboarding, Medical Terminology, and High school diploma/GED

MEDICAL OFFICE ASSISTANT I
ADMINISTRATION — 60 — FS

This course is designed to prepare students to handle front office operations. Areas include scheduling, patient medical records, communication skills, billing and reimbursement procedures, medical law and ethics.
Prerequisite: Medical terminology

MEDICAL OFFICE ASSISTANT II
CLINICAL — 60 — FS

This course is designed to prepare the student to assist the physician and other medical staff in the physician office setting. Areas may include body systems, diseases, and clinical procedures used in a medical office.
Prerequisite: Medical Office Assistant I -Administrative

CERTIFIED NURSING ASSISTANT	Hours	Semester	Certificate/License
NURSE AIDE LEVEL I	176	FS	Certification

The Nursing Assistant I student is prepared to provide personal care and perform basic nursing skills for the elderly and other adults. Emphasis is placed on the aging process, patient's rights, nutrition, safety/infection control procedures, restorative care, structure and function of the human body, diseases and functions, communication/documentation, death and dying process, role of the nursing assistant, and CPR . Upon satisfactory completion of the CNA I course and the skills/competency evaluation, the student will be listed on the North Carolina Division of Facility Services Nurse Aide I Registry.
Prerequisites: Each student must take a reading proficiency test prior to registration. This test may be taken at any of the learning centers at no cost to the student.

NURSE AIDE LEVEL II — 192 — FSSu — Certification

The Nursing Assistant II course prepares the student to perform more complex skills for patients or residents. Emphasis is placed on oxygen therapy, sterile technique, wound care, suctioning techniques, tracheostomy care, IV fluids (specific procedures as approved by the NC Board of Nursing), urinary catheterization and irrigation, oral/nasogastric and gastrostomy feeding tubes, and ostomy care and elimination procedures. Upon satisfactory completion of the CNA II course the student will be listed with the North Carolina Board of Nursing. Prerequisites: High School Diploma or GED and current CNA I.

NURSE AIDE LEVEL III (Refresher) — 24 — FS — Certification

The Nursing Assistant III course or refresher is available to those students who have let their CNA I listing lapse no more than 24 months from their expiration date. This course refreshes the student on areas of change in their career field, i.e. infection control and safety. Students will take a skills competency test as well as a written exam. Upon satisfactory completion the student will be listed as a CNA I on the North Carolina Division of Facility Services Nurse Aide I Registry.

PHARMACY TECHNICIAN — 72 — FS — Certification

This course prepares students to work under the supervision of a pharmacist in a hospital or retail pharmacy. Topics covered in the course include drug classification, drug distribution, anatomy and physiology in relationship to disease with an emphasis on drug therapy, and laws and regulations basic to pharmacy practice. Interested student are prepared to sit for the Pharmacy Technician Certification Exam upon successful completion of this course. For more information about pharmacy technician you may go to www.ptcb.org. Prerequisites: High School Diploma or GED required to take certification exam.

Continuing Education Course Listing

MEDICAL *continued...*	Hours	Semester	Certificate/License
CPR/First Aid	8 to 12	OR	Certification

ADVANCED CERTIFICATION FOR EMERGENCY MEDICAL

ACLS - Advanced Cardiac Life Support — 16 — OR — Certification

The ACLS Provider course follows the standard American Heart Association guidelines. It provides physicians, nurses, paramedics, and other health care providers with the information concerning advanced management of the cardiac patient.

ITLS - International Trauma Life Support — 16 — OR — Certification

The ITLS Course is designed to increase the knowledge and skill level of the emergency medical technician in assessing and treating any trauma-related injury. Much of the material in this course is not covered in the initial EMT or EMT-I course. It is designed for the student to better recognize possible trauma injuries due to mechanism of injury, better assess the patient and more aggressively treat shock and trauma in general.

PALS - Pediatric Advanced Life Support — 16 — OR — Certification

The PALS course is designed to certify Emergency Medical Personnel in Pediatric Advanced Life Support through the American Heart Association. This course teaches the proper evaluation and treatment of a pediatric patient in cardiopulmonary arrest. Upon successful completion, the student will be awarded PALS certification from the American Heart Association. Pre-requisite: It is desirable but not required that an Advanced Life Support certification be held.

PEPP - Pediatric Education for Prehospital Providers — 16 — OR — Certification

EMERGENCY MEDICAL GENERAL

EMT-Recertification Continuing Education	36	FSSu	Certification
First Responder Continuing Education	36	FSSu	Certification
Industrial Medical	24	OR	Certification

MEDICAL

MEDICAL TERMINOLOGY — 72 — FS

This course is an introduction to the study of the structure of medical words and terms. Emphasis is placed on spelling and defining commonly used prefixes, suffixes, root words, and their combining forms. Program content covers the basic human anatomy and physiology for all systems, elements of medical terms and names of major diseases, including terms used in physical exams, operative procedures, and diagnosis.

HEALTHCARE BILLING AND CODING — 120+ — FS

This course prepares the individual for entry level healthcare billing and coding in a variety of healthcare settings. This course is in three parts. Upon completion the student will be prepared to take the Certified Coder Examination.
Prerequisite: High school diploma /GED, Medical Terminology, and Introduction to Computers.

HEALTH UNIT COORDINATOR — 164 — FS

This course is designed to prepare the individual for employment in a hospital or other healthcare facility. Areas covered are assembling patient charts, transcribing doctors orders, recording lab values, and communication skills. There is a clinical component to this course.
Prerequisite: High school diploma/GED, Medical Terminology.

Semester = (F) Fall (S) Spring (Su) Summer OR = On Request

Continuing Education Course Listing

MEDICAL *continued...*	Hours	Semester	Certificate/License

MEDICAL TRANSCRIPTION — 84 — FS

This class prepares the individual to transcribe medical dictation. Students will use keyboarding skills and medical terminology. Students may find jobs in hospitals, physician practices, insurance companies and private transcription agencies.
Prerequisites: Keyboarding, Medical Terminology, and High school diploma/GED

MEDICAL OFFICE ASSISTANT I
ADMINISTRATION — 60 — FS

This course is designed to prepare students to handle front office operations. Areas include scheduling, patient medical records, communication skills, billing and reimbursement procedures, medical law and ethics.
Prerequisite: Medical terminology

MEDICAL OFFICE ASSISTANT II
CLINICAL — 60 — FS

This course is designed to prepare the student to assist the physician and other medical staff in the physician office setting. Areas may include body systems, diseases, and clinical procedures used in a medical office.
Prerequisite: Medical Office Assistant I -Administrative

CERTIFIED NURSING ASSISTANT	Hours	Semester	Certificate/License

NURSE AIDE LEVEL I — 176 — FS — Certification

The Nursing Assistant I student is prepared to provide personal care and perform basic nursing skills for the elderly and other adults. Emphasis is placed on the aging process, patient's rights, nutrition, safety/infection control procedures, restorative care, structure and function of the human body, diseases and functions, communication/documentation, death and dying process, role of the nursing assistant, and CPR . Upon satisfactory completion of the CNA I course and the skills/competency evaluation, the student will be listed on the North Carolina Division of Facility Services Nurse Aide I Registry.
Prerequisites: Each student must take a reading proficiency test prior to registration. This test may be taken at any of the learning centers at no cost to the student.

NURSE AIDE LEVEL II — 192 — FSSu — Certification

The Nursing Assistant II course prepares the student to perform more complex skills for patients or residents. Emphasis is placed on oxygen therapy, sterile technique, wound care, suctioning techniques, tracheostomy care, IV fluids (specific procedures as approved by the NC Board of Nursing), urinary catheterization and irrigation, oral/nasogastric and gastrostomy feeding tubes, and ostomy care and elimination procedures. Upon satisfactory completion of the CNA II course the student will be listed with the North Carolina Board of Nursing. Prerequisites: High School Diploma or GED and current CNA I.

NURSE AIDE LEVEL III (Refresher) — 24 — FS — Certification

The Nursing Assistant III course or refresher is available to those students who have let their CNA I listing lapse no more than 24 months from their expiration date. This course refreshes the student on areas of change in their career field, i.e. infection control and safety. Students will take a skills competency test as well as a written exam. Semester = (F) Fall (S) Spring (Su) Summer OR = On Request

Continuing Education Course Listing

MEDICAL *continued...*	Hours	Semester	Certificate/License
PHLEBOTOMY			
PHLEBOTOMY I	96	FS	Certification

This is the classroom portion of Phlebotomy Education which includes didactic and lab. The course prepares students to take the clinical portion (Phlebotomy II) of the program. This class may be used as a refresher/continuing education if students are already working in the field. Prerequisites: High school diploma or GED. CNA I & II, MOA I & II, CMA or comparable credentials.

PHLEBOTOMY II (Clinical)	100	FS	Certification

This is the clinical portion of Phlebotomy Education. The student will go to a designated clinical site and perform learned skills. Each student must have 100 hours of clinical, 100 venipunctures, and 25 skin punctures. Upon satisfactory completion of Phlebotomy I & II the student may sit for his/her certification exam. Prerequisites: High school diploma or GED. CNA I & II, MOA I & II, CMA or comparable credentials.

REAL ESTATE	**Hours**	**Semester**	**Certificate/License**
REAL ESTATE BROKER PRELICENSE COURSE	75	FS	License

Any person who transacts real estate business (including time share transactions) in North Carolina for compensation as an agent for another must first obtain a real estate broker license issued by the North Carolina Real Estate Commission. A broker may perform a full range of real estate services. Brokers can work for other brokers or brokerage firms, or they can open and operate their own real estate businesses. Successful completion of a Real Estate Broker Prelicense Course is required for any person seeking eligibility to take the North Carolina real estate license examination and to obtain a real estate broker license.
Prerequisite: Any individual wanting to take the Real Estate Broker Prelicense Course at Surry Community College must first show proficiency on the mathematics section of the Tests of Adult Basic Education (TABE) prior to enrollment in the course. The math section is comprised of 40 questions and candidates have 45 minutes to complete the exam (calculator usage during testing is not allowed). The proficiency can be taken in any Surry Community College Learning Center at no cost.

REAL ESTATE BROKER POSTLICENSE PROGRAM	90	FS	Certification

Upon successful completion of the Real Estate Broker Prelicense Course and examination by the state of North Carolina, a person is classified as a broker with provisional status. Each individual classified as a provisional broker must, within three years of initial licensure, complete an additional postlicensing education program in order to retain his/her broker license. Until completion of the postlicensing program, provisional brokers must be supervised by a broker in charge.
Prerequisite: Real Estate Broker Prelicense Course

Continuing Education Course Listing

REAL ESTATE continued ...	Hours	Semester	Certificate/License
REAL ESTATE UPDATE & ELECTIVE	8	S	Certification

The North Carolina Real Estate Commission requires eight hours of continuing education instruction/credit annually for brokers. The block offered by Surry Community College consists of a four hour Real Estate Update class and an approved four hour elective.
Prerequisite: Real Estate Broker License

REAL ESTATE APPRAISAL CONTINUING EDUCATION	14	S	Certification

The North Carolina Appraisal Board requires that 28 hours of continuing education instruction/credit be acquired by licensed appraisers within a two-year period. Surry Community College will offer four to fourteen hours of continuing education instruction/credit to assist North Carolina real estate appraisers in meeting those license recertification requirements.
Prerequisite: Real Estate Appraisal License
*Appraisal prelicensing is offered through the curriculum division (direct prelicensing questions to 386-3267).

ALL CURRICULUM PROGRAMS

The outlines for curricula (Associate Degrees, Certificates, and Diplomas) shown in this catalog are suggested only. The institution reserves the right to arrange teaching and student schedules so as to maximize the use of personnel, plant, equipment, and time. Courses will always be taken in logical or sequential order where appropriate, but not necessarily in the same sequence or order as shown in the catalog. Under extenuating circumstances, course substitutions may be approved to fulfill graduation requirements provided the substitution is appropriate to the student's program and a comparable course is offered. Extenuating circumstances may include academic and/or physical limitations, unresolved scheduling conflicts or the event that a course is no longer offered. The Division Chair and the Dean of Student Development must approve requests for course substitution. If course substitution is granted, the registrar is notified by submitting the course substitution form.

COLLEGE TRANSFER: ASSOCIATE IN ARTS, ASSOCIATE IN FINE ARTS, AND ASSOCIATE IN SCIENCE

The Associate in Arts, Associate in Fine Arts, and the Associate in Science degrees are designed for students interested in transferring to a four-year institution. Additionally, certain other programs, listed in the Associate in Applied Science section of this catalog, also may transfer to four-year schools (see your counselor or faculty advisor for more information). **Pre-major guides are available in the "H" building (first and second floors), "T" building, Student Development, and at *www.surry.edu/Transfer/default.htm*.**

Associate in Fine Arts
Art

DISTANCE EDUCATION INFORMATION
The Associate in Arts degree is offered through the Distance Education program. Further information can be found on the Internet at ***http://www.surry.edu/DE***
concerning completing this degree online.

**Guides are available in fine arts areas (Arts, Music and Music Education, Drama). Transfer after one year is generally recommended for these three majors.*

Those students who are not sure what they would like to major in should follow the checksheets on the following pages to complete their Associate's Degree. **College transfer students are encouraged to visit the Admissions Office of the senior institutions they are considering early in the program.**

MINIMUM COURSE REQUIREMENTS (MCR)

All students who plan to enter a four-year university must have met the MCR requirements either in high school or at a community college. **Generally, the continued study of language (beyond English) and a strong math curriculum in college are recommended.**

Completion of MCR Requirements in High School

You have already met the **MCR requirements in high school** if you completed ALL of the following requirements.

1. Completed 4 units of English
2. Completed Algebra I, Algebra II, and Geometry (or a higher math course for which Algebra II is a prerequisite)
3. Completed 3 units of science – one life science, one physical science, and at least one laboratory science
4. Completed 2 units of social sciences – one must have been US History
5. Completed 2 units of the same language other than English.
6. Students who graduated from high school in May of 2006 will have to have an additional math class that is more advanced than Algebra II (AP Calculus, AP Statistics, Pre-Calculus--formerly Advanced Math--and Discrete Mathematics, IB Mathematics Level II, Integrated Mathematics IV, Advanced Functions and Modeling (new course).

If you **missed any one** of the high school MCR requirements, you must complete the MCR requirements at a community college. If you are deficient in one area, you are considered to be deficient in all areas.

Completion of MCR Requirements at a Community College

There are three ways to complete the MCR requirements at a community college.

#1. Complete 6 semester hours of college-level work in **EACH** (a-e) of the following areas (total of 30-32 SHC):
   a. English (ENG 111 and either ENG 112 or ENG 113)
   b. Math (two General Education math courses; must have MAT prefix)
   c. Science (two General Education science courses)
   d. Social Sciences (two General Education social sciences courses)
   e. Language other than English (two semesters of the same language)

#2. Complete the 44 semester hour General Education core of the Associate in Arts or the Associate in Science degrees.

#3. Complete the Associate in Arts, Associate in Science, or the Associate in Fine Arts degrees. Two semesters of the same language other than English are strongly recommended.

ASSOCIATE IN ARTS (A10100) REQUIREMENTS

65 semester hours

See page 79 to insure minimum course requirements (MCR) are met.

GENERAL EDUCATION: 44 SHC

English/Composition (6 SHC)

___ ENG 111 Expository Writing (3)

and one of the following:

___ ENG 112 Argument-based Research (3)
___ ENG 113 Literature-based Research (3)

Humanities/Fine Arts (12 SHC)
Select four courses from three different prefix areas. One must be Literature. See MCR language requirement.

___ ART 111 Art Appreciation (3)
___ ART 114 Art History Survey I (3)
___ ART 115 Art History Survey II (3)
___ ART 116 Survey of American Art (3)

___ COM 231 Public Speaking (3)

___ ENG 131 Intro to Literature (3)
___ ENG 231 American Literature I (3)
___ ENG 232 American Literature II (3)
___ ENG 233 Major American Writers (3)
___ ENG 241 British Literature I (3)
___ ENG 242 British Literature II (3)
___ ENG 243 Major British Writers (3)
___ ENG 261 World Literature I (3)
___ ENG 262 World Literature II (3)

___ HUM 110 Technology and Society (3)
___ HUM 115 Critical Thinking (3)
___ HUM 120 Cultural Studies (3)
___ HUM 121 Nature of America (3)
___ HUM 130 Myth in Human Culture (3)

___ MUS 110 Music Appreciation (3)

___ PHI 215 Philosophical Issues (3)
___ PHI 240 Intro to Ethics (3)

___ REL 110 World Religions (3)
___ REL 211 Intro to Old Testament (3)
___ REL 212 Intro to New Testament (3)
___ REL 221 Religion in America (3)

___ SPA 111 Elementary Spanish I (3)
___ SPA 112 Elementary Spanish II (3)
___ SPA 211 Intermediate Spanish I (3)
___ SPA 212 Intermediate Spanish II (3)

Social/Behavioral Science (12 SHC)
Select four courses from three different prefix areas. One must be HIS.

___ ANT 210 General Anthropology (3)
___ ANT 220 Cultural Anthropology (3)
___ ANT 240 Archaeology (3)

___ ECO 151 Survey of Economics (3)
___ ECO 251 Prin of Microeconomics (3)
___ ECO 252 Prin of Macroeconomics (3)

___ HIS 121 Western Civilization I (3)
___ HIS 122 Western Civilization II (3)
___ HIS 131 American History I (3)
___ HIS 132 American History II (3)

___ POL 110 Intro Political Sci. (3)
___ POL 120 American Government (3)

___ PSY 150 General Psychology (3)
___ PSY 237 Social Psychology (3)
___ PSY 239 Psychology of Personality (3)
___ PSY 241 Developmental Psychology (3)
___ PSY 281 Abnormal Psychology (3)

___ SOC 210 Introduction to Sociology (3)
___ SOC 213 Sociology of the Family (3)
___ SOC 220 Social Problems (3)
___ SOC 225 Social Diversity (3)
___ SOC 230 Race & Ethnic Relations (3)
___ SOC 240 Social Psychology (3)

Natural Science (8 SHC)
Select two classes on advisement:

___ AST 151 Gen Astronomy I (4)
___ AST 152 Gen Astronomy II (4)
___ BIO 110 Principles of Biology (4)
___ BIO 111 General Biology I (4)
___ BIO 112 General Biology II (4)
___ BIO 120 Introductory Botany (4)
___ BIO 140 & 140A Enviro. Biology & Lab

___ CHM 131 Intro to Chemistry & Lab (4)
___ CHM 132 Organic & Biochemistry (4)
___ CHM 151 General Chemistry I (4)
___ CHM 152 General Chemistry II (4)

___ PHY 110 Conceptual Physics I (3)
___ PHY 110A Conceptual Physica Lab (1)
___ PHY 151 College Physics I (4)
___ PHY 152 College Physics II (4)
___ PHY 251 General Physics I (4)
___ PHY 252 General Physics II (4)

Mathematics (6-8 SHC)
Select one or both courses from the following:

___ *MAT 140 Survey of Mathematics (3)
___ MAT 141 Math Concepts I (3)
___ MAT 161 College Algebra (3)
___ MAT 162 College Trigonometry (3)
___ MAT 171 Precalculus Algebra (3)
___ MAT 172 Precalculus Trigonometry (3)
___ MAT 175 Precalculus (4)
___ MAT 263 Brief Calculus (3)
___ MAT 271 Calculus I (4)
___ MAT 272 Calculus II (4)

The second unit may be selected from the following:

___ *CIS 110 Intro to Computers (3)
___ CIS 115 Intro to Programming (3)

___ MAT 151 Statistics (3)
(RECOMMENDED OVER CIS)

***More math will typically be required after transfer if MAT 140 & CIS 110 are used to meet these requirements.**

The general education core component (44 SHC), if completed successfully with a grade of "C" or better on each course, shall be portable and transferable as a block from Surry Community College to UNC institutions whether or not the student has earned the associate degree. Students who transfer the full general education core component shall be considered to have fulfilled the institution-wide, lower division requirements of the receiving institution. **However, graduates of the Associate in Arts or Associate in Science degree program (65 SHC) will be eligible to transfer to all constituent institutions of the University of North Carolina with junior status if admitted into the institution.**

ASSOCIATE IN ARTS **OTHER REQUIRED HOURS ("Electives"): 20-21 SHC**

Select 20 hours from previous page or from following list:

___+ ACA 111 College Student Success (1) **(Required for degree)**
___+ACA 120 Career Assessment (1)
___ ACC 120 Principles of Financial Accounting (4)
___ ACC 121 Principles of Managerial Accounting (4)
___ ART 130 Basic Drawing (2)
___ ART 131-132 Drawing I & II (3)
___ ART 140 Basic Painting (2)
___ ART 240-241 Painting I & II (3)
___ ART 244 Watercolor (3)
___ BIO 140 Environmental Biology (3)
___ BIO 140A Environmental Biology Lab (3)
___ BIO 143 Field Biology Minicourse (2)
___ BIO 145 Ecology (4)
___ BIO 146 Regional Natural History (4)
___ BIO 155 Nutrition (3)
___ BIO 163 Basic Anatomy & Physiology (5)
___ BIO 165 Anatomy & Physiology I (4)
___ BIO 166 Anatomy & Physiology II (4)
___ BIO 175 General Microbiology (3)
___ BIO 223 Field Botany (3)
___ BIO 275 Microbiology (3)

___ MAT 280 Linear Algebra (3)
___ MAT 285 Differential Equations (3)
___ MUS 131-252 Music (1)
___ PED (All activity courses are acceptable)
___ PED 110 Fit and Well for Life (2)
___ POL 130 State & Local Government (3)
___ PSY 211 Psychology of Adjustment (3)
___ PSY 243 Child Psychology (3)
___ PSY 246 Adolescent Psychology (3)
___ PSY 263 Educational Psychology (3)
___ +RED 111 Critical Reading for College (3)
___ SPA 141-161 Spanish Culture (3)
___ SOC 232 Social Context of Aging (3)
___ SPA 151 Hispanic Literature (3)

***STRONGLY RECOMMENDED:* (Check as completed)**

___Visit Admissions Offices of universities considered during first year.
___Meet and work with SCC Faculty Advisor each semester.
___Apply to universities in fall of sophomore year for admission following fall.
___Regularly use the SCC Transfer web-site *(www.surry.edu/Transfer/default.htm)*
___Apply for graduation in February.

NOTES

1. *Students must meet the receiving institution's foreign language and/or heath & p.e. requirements, if applicable, prior to or after transfer.*
2. *1 SHC of Cooperative Education (+COE) may be included in the AS and AA as an elective.*
3. *See link below for a complete transfer list from NC Community Colleges to UNC/CAA private college http://intranet.northcarolina.edu/docs/assessment/caa/December%202005/132_Transfer_Course_List_11.16.05.pdf*

In compliance with the Comprehensive Articulation Agreement, graduates of the Associate in Arts degree program as outlined here will be eligible to transfer to all constituent institutions of the University of North Carolina with junior status if admitted into the institution. To be considered for junior status, graduates must meet the same requirements set for native university students with respect to such things as grade point average and credit hours accumulated. Graduates will normally receive 64 SHC upon admission to a university. Admission to a university does not constitute admission to a particular school or a specific program within the university.

All courses listed on this sheet (except those identified with a +) will transfer to all UNC institutions. These and other courses offered at SCC may transfer to selected public and private colleges and universities. ***See your SCC advisor and contact an advisor at the college you wish to attend for additional information.***

___ PHY 252 General Physics II (4)

Mathematics (6-8 SHC)
**Select one or both courses from the following:*
(Recommended to select both from this category)

___ MAT 171 Precalculus Algebra (3)
___ MAT 172 Precalculus Trig (3)
___ MAT 175 Precalculus (4)
___ MAT 252 Statistics II (3)
___ MAT 263 Brief Calculus (3)
___ MAT 271 Calculus I (4)
___ MAT 272 Calculus II (4)
___ MAT 273 Calculus III (4)

The second unit may be selected from the following:

___ CIS 110 Intro to Computers (3)
___ CIS 115 Intro to Programming (3)
___ MAT 151 Statistics (3)

Additional hours to total 20 may come from below courses, MAT courses on this page, or any from "GEN ED: Natural Science or Math" courses from list beginning on p. 83.

___ AST 151 Gen Astronomy I (4)
___ AST 152 Gen Astronomy II (4)
___ BIO 110 Principles of Biology (4)
___ BIO 120 Introductory Botany (4)
___ BIO 140 & 140A Enviro. Biology & Lab (4)
___ CHM 131 Intro to Chemistry & Lab (4)
___ CHM 132 Organic & Biochemistry (4)
___ PHY 110 Conceptual Physics (4)

The general education core component (44 SHC), if completed successfully with a grade of "C" or better on each course, shall be portable and transferable as a block from Surry Community College to UNC institutions whether or not the student has earned the associate degree. Students who transfer the full general education core component shall be considered to have fulfilled the institution-wide, lower division requirements of the receiving institution. **However, graduates of the Associate in Arts or Associate in Science degree program (65 SHC) will be eligible to transfer to all constituent institutions of the University of North Carolina with junior status if admitted into the institution.**

ASSOCIATE IN SCIENCE **OTHER REQUIRED HOURS ("Electives") : 20-21 SHC**

Required Courses: *Select 20 hours from previous page or from following list:* ***(Of the elective hours, a minimum of 14 shc of college transfer courses in mathematics, natural sciences, or computer science is required.)***

___ SOC 232 Social Context of Aging (3)

***STRONGLY RECOMMENDED:* (Check as completed)**

___Visit Admissions Offices of universities considered during first year.
___Meet and work with SCC Faculty Advisor each semester.
___Apply to universities in fall of sophomore year for following fall.
___Regularly use the SCC Transfer web-site *(www.surry.edu/Transfer/default.htm)*
___Apply for graduation in February.

NOTES:

1. *Students must meet the receiving institution's foreign language and/or health & p.e. requirements, if applicable, prior to or after transfer.*
2. *1 SHC of Cooperative Education (+COE) may be included in the AS and AA as an elective.*
3. *See link below for a complete transfer list from NC Community Colleges to UNC/CAA private college http://intranet.northcarolina.edu/docs/assessment/caa/December%202005/132_Transfer_Course_List_11.16.05.pdf*

In compliance with the Comprehensive Articulation Agreement, graduates of the Associate in Science degree program as outlined here will be eligible to transfer to all constituent institutions of the University of North Carolina with junior status if admitted into the institution. To be considered for junior status, graduates must meet the same requirements set for native university students with respect to such things as grade point average and credit hours accumulated. Graduates will normally receive 64 SHC upon admission to a university. Admission to a university does not constitute admission to a particular school or a specific program within the university.

All courses listed on this sheet (except those identified with a +) will transfer to all UNC institutions. These and other courses offered at SCC may transfer to selected public and private colleges and universities. ***See your SCC advisor and contact an advisor at the college you wish to attend for additional information.***

Upon admission to another public two-year institution or to a public university, a community college student who was enrolled in an associate in fine arts degree program and who satisfactorily completed with a grade of "C" or better all courses that are designated for college transfer (general education, elective, or pre-major) will receive credit for those courses. The receiving institution will determine whether the course will count as general education, major, or elective credit. Because the AFA curriculum standard includes only 28 SHC for general education, AFA students who transfer must meet the general education requirements of the receiving institution.

While this degree is designed to prepare students to meet selective admission criteria for programs such as the Bachelor of Fine Arts, this degree does not guarantee automatic admission into a college or university art program. Many art programs contain a portfolio requirement for certain courses or programs.

*Pre-major credit at select institutions only.

NOTE: ***This list includes courses that are currently transferrable under the CAA. Under this agreement, students who complete the AA or AS degree or who complete the 44-hour core will, upon acceptance to a university, meet the institution's general education requirements. Students who do not complete the degree or the 44-hour core will receive general education or elective credit for courses at the discretion of the university.***

ASSOCIATE IN GENERAL EDUCATION

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development.

Course work includes study in the areas of fine arts, social and behavioral sciences, natural sciences and mathematics, and English Composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interests and become better qualified for a wide range of employment opportunities.

GENERAL EDUCATION (A10300) REQUIREMENTS

ASSOCIATE IN APPLIED SCIENCE

Programs in the career technologies are designed to prepare students with technical competence for immediate employment in business, industry, government, heath fields, agriculture, social services, or as owner-managers of their own firms. In addition, a number of these programs allow students to transfer to four-year schools. For a complete list of the A.A.S. degree programs which will transfer and the schools to which they transfer, contact the Student Development Office.

Accounting
Advertising & Graphic Design
Air Conditioning, Heating, and Refrigeration Technology
Automotive Systems Technology
Business Administration
Business Administration: Electronic Commerce
Community Spanish Interpreter
Computer Engineering Technology
Computer Programming
Cosmetology
Criminal Justice Technology
Early Childhood Associate
Early Childhood: Special Education
Early Childhood: Teacher Associate
Electronics Engineering Technology
General Occupational Technology
Horticulture Technology
Industrial Systems Technology

Paralegal Technology
Viticulture & Enology Technology

Cooperative Programs

Guilford Technical Community College:	Physical Therapy Assisting
Forsyth Technical Community College:	Dental Hygiene
	Dental Assisting (Diploma)
	Biotechnology

DIPLOMA PROGRAMS

Diploma programs prepare students for initial employment in recognized skilled occupations and retrain adults for entering new career fields or advancing in their current fields.

Diploma programs normally require one full year of full-time participation. Most courses are available during both the day and evening hours.

Air Conditioning, Heating & Refrigeration Technology
Autobody Repair
Automotive Systems Technology
Construction Technology: Carpentry
Cosmetology
Electrical/Electronics Technology
Horticulture Technology
Industrial Systems Technology
Machining Technology
Mechanical Drafting Technology
Medical Office Administration
Nursing: General Occupational Technology (Pre-Nursing)
Nursing: Practical Nursing (PN)
Office Systems Technology
Viticulture & Enology
Welding Technology

CERTIFICATE PROGRAMS

Some career technology programs are designed to allow students to receive a certificate after completing a designated set of specific courses. These programs take one year or less to complete. Required courses are generally those which provide specific job-related skills.

Accounting
Autobody Repair
Automotive Systems
Basic HVAC Controls Specialist
Basic HVAC System Designer
Business Administration
Computer-Assisted Drafting
Computer Programming
Construction Technology: Carpentry
Early Childhood Associate
Electrical/Electronics Technology
Industrial Systems Technology
Information Systems
Information Systems Networking Administration and Support Concentration
LPN Refresher
Machining Technology
Medical Office Administration
Office Systems Technology
Real Estate Appraisal
Viticulture & Enology
Web Management
Web Programming
Welding Technology

ACCOUNTING — Degree/Certificate

CURRICULUM DESCRIPTION

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the "language of business," accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

ADVERTISING & GRAPHIC DESIGN TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Advertising and Graphic Design curriculum is designed to provide students with knowledge and skills necessary for employment in the graphic design profession, which emphasizes design, advertising, illustration, and digital and multimedia preparation of printed and electronic promotional materials. Students will be trained in the development of concept and design for promotional materials such as newspaper and magazine advertisements, posters, folders, letterheads, corporate symbols, brochures, booklets, preparation of art for printing, lettering and typography, photography, and electronic media. Graduates should qualify for employment opportunities with graphic design studios, advertising agencies, printing companies, department stores, a wide variety of manufacturing industries, newspapers, and businesses with in-house graphics operations.

AIR CONDITIONING, HEATING, AND REFRIGERATION TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Diploma graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems. AAS degree graduates should be able to demonstrate an understanding of systems selection and balance and advanced systems. Students may stop at the end of the summer semester and earn a diploma or complete the entire program of study to earn a degree.

AUTO BODY REPAIR — Diploma/Certificate

CURRICULUM DESCRIPTION

The Auto Body Repair curriculum provides training in the use of equipment and materials of the autobody repair trade. The student studies the construction of the automobile body and techniques of autobody repairing, rebuilding, and refinishing.

The course work includes autobody fundamentals, industry overview, and safety. Students will perform hands-on repairs in the areas of non-structural and structural repairs, MIG welding, plastics and adhesives, refinishing, and other related areas.

Graduates of the curriculum should qualify for entry-level employment opportunities in the automotive body and refinishing industry. Graduates may find employment with franchised independent garages, or they may become self-employed.

AUTOMOTIVE SYSTEMS TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Automotive Systems Technology curriculum prepares individuals for employment as Automotive Service Technicians. It provides an introduction to automotive careers and increases student awareness of the challenges associated with this fast and ever-changing field.

Classroom and lab experiences integrate technical and academic course work. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control, and manual drive trains.

Upon completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

BUSINESS ADMINISTRATION

Degree/Certificate

CURRICULUM DESCRIPTION

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team-building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small business or industry.

DISTANCE EDUCATION INFORMATION
This degree program is offered through the Distance Education program. Further information can be found on the Internet at http://www.surry.edu/DE concerning completing this degree on-line.

COMMUNITY SPANISH INTERPRETER Degree

CURRICULUM DESCRIPTION

The Community Spanish Interpreter curriculum prepares individuals to work as entry-level Spanish Interpreters who will provide communication access in interview and interactive settings. In addition, this curriculum provides in-service training for working interpreters who want to upgrade their skills.

Course work includes the acquisition of Spanish grammar, structure, and sociolinguistic properties, cognitive processes associates with interpretation between Spanish and English: the structure and character of the Spanish speaking community; and acquisition of consecutive and simultaneous interpreting skills.

Entry-level jobs for para-professional interpreters are available in educational systems or a variety of community settings individuals may choose from part-time, full-time, or self-employment/free-lance positions or apply language skills to other human service related areas.

COMPUTER ENGINEERING TECHNOLOGY Degree

CURRICULUM DESCRIPTION

The Computer Engineering Technology curriculum provides the skills required to install, service and maintain computers, peripherals, networks, and microprocessor and computer controlled equipment. It includes training in both hardware and software, emphasizing operating systems concepts to provide a unified view of computer systems.

Course work includes mathematics, physics, electronics, digital circuits and programming, with emphasis on the operation, use, and interfacing of memory and devices to the CPU. Additional topics may include communications, networks, operating systems, programming languages, Internet configuration and design, and industrial applications.

Graduates should qualify for employment opportunities in electronics technology, computer service, computer networks, server maintenance, programming, and other areas requiring a knowledge of electronic and computer systems. Graduates may also qualify for certification in electronics, computers, or networks.

COMPUTER INFORMATION TECHNOLOGY Degree/Certificate

CURRICULUM DESCRIPTION

The Computer Information Technology curriculum is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. This is a flexible curriculum that can be customized to meet community information systems needs.

Course work will develop a student's ability to communicate complex technical issues related to computer hardware, software, and networks in a manner that computer users can understand. Classes cover computer operations and terminology, operating systems, database, networking, security, and technical support.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to manage information. Graduates should be prepared to sit for industry-recognized certification exams.

COMPUTER PROGRAMMING — Degree/Certificate

CURRICULUM DESCRIPTION

The Computer Programming curriculum prepares individuals for employment as computer programmers and related positions through study and applications in computer concepts, logic, programming procedures, languages, generators, operating systems, networking, data management, and business operations.

Students will solve business computer problems through programming techniques and procedures, using appropriate languages and software. The primary emphasis of the curriculum is hands-on training in programming and related computer areas that provide the ability to adapt as systems evolve.

Graduates should qualify for employment in business, industry, and government organizations as programmers, programmer trainees, programmer/analysts, computer operators, systems technicians, or database specialists.

CONSTRUCTION TECHNOLOGY:
CARPENTRY — Diploma/Certificate

CURRICULUM DESCRIPTION

The Carpentry curriculum is designed to train students to construct residential structures using standard building materials and hand and power tools. Carpentry skills and a general knowledge of residential construction will also be taught.

Course work includes footings and foundations, framing, interior and exterior trim, cabinetry, blueprint reading, residential planning and estimating, and other related topics. Students will develop skills through hands-on participation.

Graduates should qualify for employment in the residential building construction field as rough carpenters, framing carpenters, roofers, maintenance carpenters, and other related job titles.

CONSTRUCTION TECHNOLOGY/BUSINESS:
GENERAL OCCUPATIONAL TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs. The curriculum content will be individualized for students according to their occupational interests and needs and local businesses and industries are encouraged to design programs to meet their employees specific needs. A program of study for each student will be selected from associate degree-level courses (all courses except those numbered 100-109 and 200-209) offered by the College.

This curriculum is designed as a foundation for General Contractor licensing in North Carolina.

COSMETOLOGY — Degree/Diploma

CURRICULUM DESCRIPTION

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multicultural practices, business/computer principles, product knowledge, and other selected topics.

Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and related businesses.

All diploma- and degree-seeking Cosmetology students must take a placement test upon entering the Cosmetology Program. This testing will enable proper academic advising for students who wish to qualify for the North Carolina State Board of Cosmetic Arts Examination.

All Surry Community College Cosmetology students who wish to sit for the North Carolina State Board of Cosmetic Arts Examination must complete the diploma or degree program before they will be eligible to sit for the cosmetology boards.

CRIMINAL JUSTICE TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections, and security service. The criminal justice system's role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

Students successfully completing a Basic Law Enforcement Training course accredited by the North Carolina Criminal Justice Education and Training Standards Commission and the North Carolina Sheriffs' Education and Training Standards Commission will receive credit for CJC 131, CJC 132, CJC 221, and CJC 231 toward the Associate in Applied Science degree in Criminal Justice Technology. Students must have successfully passed the Commissions' comprehensive certification examination. Students must have completed Basic Law Enforcement Training since 1985.

EARLY CHILDHOOD ASSOCIATE — Degree/Certificate

CURRICULUM DESCRIPTION

The Early Childhood Associate curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school age programs.

concerning completing this degree on-line.

EARLY CHILDHOOD ASSOCIATE: SPECIAL EDUCATION CONCENTRATION — Degree

CURRICULUM DESCRIPTION

The Special Education concentration is under the curriculum of Early Childhood Associate. This curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories in actual settings with young under the supervision of qualified teachers. The Special Education concentration focuses on preparing adults to work in inclusive environments, including public and private early care and preschool settings as well as public and private primary and/or elementary schools. Graduates demonstrate competence in assessing children and implementing appropriate learning experiences for children with exceptionalities, including writing and implementing Individual Family Service Plans (IFSP) and Individual Education Plans (IEP).

Course work includes childhood growth and development, physical/nutritional needs of children, care and guidance of children, and communication skills with parents and children. Students will foster cognitive/language, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and childcare programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

EARLY CHILDHOOD ASSOCIATE:
TEACHER ASSOCIATE CONCENTRATION — Degree/Certificate

CURRICULUM DESCRIPTION

Teacher Associate is a concentration under the curriculum title of Early Childhood Associate. This curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes childhood growth and development, physical/nutritional needs of children, care and guidance of children, and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

ELECTRICAL/ELECTRONICS TECHNOLOGY — Diploma/Certificate

CURRICULUM DESCRIPTION

The Electrical/Electronics Technology curriculum is designed to provide training for persons interested in the installation and maintenance of electrical/electronic systems found in residential, commercial, and industrial facilities.

Training, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, digital electronics, programmable logic controllers, industrial motor controls, and National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical/electronics field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical/electronic systems.

ELECTRONICS ENGINEERING TECHNOLOGY Degree

CURRICULUM DESCRIPTION

The Electronics Engineering Technology curriculum prepares individuals to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems.

A broad based core of courses, including basic electricity, solid-state fundamentals, digital concepts, and microprocessors, ensures the student will develop the skills necessary to perform entry-level tasks. Emphasis is placed on developing the students' ability to analyze and troubleshoot electronic systems.

Graduates should qualify for employment as engineering assistants or electronic technicians with job titles such as electronics engineering technician, field service technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

GENERAL OCCUPATIONAL TECHNOLOGY Degree

CURRICULUM DESCRIPTION

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs. The curriculum content will be individualized for students according to their occupational interests and needs and local businesses and industries are encouraged to design programs to meet their employees specific needs. A program of study for each student will be selected from associate degree-level courses (all courses except those numbered 100-109 and 200-209) offered by the College. Graduates will become effective workers, better qualified for advancements within the field of employment, and become qualified for a wide range of entry-level employment opportunities.

Note: Students must ask the registrar to complete a GOT Degree Program of Study Form for them prior to the semester in which they plan to graduate.

HORTICULTURE TECHNOLOGY — Degree/Diploma

CURRICULUM DESCRIPTION

The Horticulture Technology curriculum encompasses the study and practical application of a variety of subjects in the field of horticulture. The curriculum consists of identifying and selecting plant materials; propagating, planting, and growing plants; designing basic landscapes and planting materials at the appropriate places and in the correct manner; properly maintaining plant materials; and managing the nursery, greenhouse, and garden center. In addition, skills are developed in designing and building planters, walks, patios, fences and other landscape features. The curriculum is designed to provide students with the knowledge, skills, and attitudes that are necessary for independent, creative thinking essential to success in this field.

Various types of employers hire the graduates of this curriculum. Examples are nurseries, greenhouse operations, garden centers, landscape contractors, landscape maintenance companies, and municipal governmental agencies.

INDUSTRIAL SYSTEMS TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to safely service, maintain, repair, or install equipment. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial systems.

Students will learn multi-craft technical skills in blueprint reading, mechanical systems maintenance, electricity, hydraulics/pneumatics, welding, machining or fabrication, and includes various diagnostic and repair procedures. Practical application in these industrial systems will be emphasized and additional advanced course work may be offered.

Upon completion of this curriculum, graduates should be able to individually, or with a team, safely install, inspect, diagnose, repair, and maintain industrial process and support equipment. Students will also be encouraged to develop their skills as life-long learners.

MACHINING TECHNOLOGY Degree

CURRICULUM DESCRIPTION

The Machining Technology curriculum is designed to develop skills in the theory and safe use of hand tools, power machinery, computerized equipment and sophisticated precision inspection instruments.

Students will learn to interpret blueprints, set up manual and CNC machines, perform basic and advanced machining operations and make decisions to insure that work quality is maintained.

Employment opportunities for machining technicians exist in manufacturing industries, public institutions, governmental agencies and in a wide range of specialty machining job shops.

MECHANICAL DRAFTING TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Mechanical Drafting Technology curriculum prepares technicians to produce drawings of mechanical parts, components of mechanical systems, and mechanisms. CAD and the importance of technically correct drawings and designs based on current standards are emphasized.

Course work includes mechanical drafting, CAD, and proper drawing documentation. Concepts such as machine shop processes, basic materials, and physical sciences as they relate to the design process are also included. The use of proper dimensioning and tolerance techniques is stressed.

Graduates should qualify for employment in mechanical areas such as manufacturing, fabrication, research and development, and service industries.

MEDICAL ASSISTING
Degree

CURRICULUM DESCRIPTION

The Medical Assisting curriculum prepares multi-skilled health care professionals qualified to perform administrative, clinical and laboratory procedures.

Course work includes instruction in scheduling appointments, coding and processing insurance accounts, billing, collections, medical transcription, computer operations; assisting with examinations/treatments, performing routine laboratory procedures, electrocardiography, supervised medication administration; and ethical/legal issues associated with patient care.

Graduates of a CAAHEP-accredited medical assisting program may be eligible to sit for the American Association of Medical Assistants' Certification Examination to become Certified Medical Assistants. Employment opportunities include physicians' offices, health maintenance organizations, health departments, and hospitals.

Note: Surry Community College is a CAAHEP accredited school.

MEDICAL OFFICE ADMINISTRATION — Degree

CURRICULUM DESCRIPTION

This curriculum prepares individuals for employment in medical and other health-care related offices.

Course work will include medical terminology; information systems; office management; medical coding, billing, and insurance; legal and ethical issues; and formatting and word processing. Students will learn administrative and support functions and develop skills applicable in medical environments.

Employment opportunities are available in medical and dental offices, hospitals, insurance companies, laboratories, medical supply companies, and other health-care related organizations.

NETWORKING TECHNOLOGY — Degree/Certificate

CURRICULUM DESCRIPTION

The Networking Technology curriculum prepares individuals for employment supporting network infrastructure environments. Students will learn how to use technologies to provide reliable transmission and delivery of data, voice, image, and video communications in business, industry, and education.

Course work includes design, installation, configuration, and management of network infrastructure technologies and network operating systems. Emphasis is placed on the implementation and management of network software and the implementation and management of hardware such as switches and routers.

Graduates may find employment in entry-level jobs as local area network managers, network operators, network analysts, and network technicians. Graduates may also be qualified to take certification examinations for various network industry certifications.

NURSING: ASSOCIATE DEGREE NURSING (ADN) (NON-INTEGRATED) Degree

CURRICULUM DESCRIPTION

The Associate Degree Nursing curriculum provides individuals with the knowledge and skills necessary to provide nursing care to clients and groups of clients throughout the lifespan in a variety of settings.

Courses will include content related to the nurse's role as provider of nursing care, as manager of care, as member of the discipline of nursing, and as a member of the interdisciplinary team.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN) which is required for practice as a Registered Nurse. Employment opportunities include hospitals, long term care facilities, clinics, physicians' offices, industry, and community agencies.

Note: Each nursing (NUR) course with clinical/lab hours must be successfully completed in order to progress to the nursing course with clinical/lab hours in the next semester.

If a nursing student is prohibited from participating in a clinical agency based on their criminal background screening, the school will make every effort to place the student in a comparable clinical setting. If the school is unable to facilitate this placement, the student will be dismissed from the nursing program due to their inability to progress.

NURSING: GENERAL OCCUPATIONAL TECHNOLOGY (PRE-NURSING) — Diploma

CURRICULUM DESCRIPTION

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from associate degree-level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry-level employment opportunities.

OFFICE SYSTEMS TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Office Systems Technology curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Students will complete courses designed to develop proficiency in the use of integrated software, oral and written communication, analysis and coordination of office duties and systems, and other support topics. Emphasis is placed on non-technical as well as technical skills.

Graduates should qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level to supervisor to middle management.

PARALEGAL TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Course work includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Required courses also include subjects such as English, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

VITICULTURE & ENOLOGY TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Viticulture & Enology curriculum is designed to prepare individuals for various careers in the grape growing and wine making industry. Classroom instruction, laboratory and field applications of viticultural/enological principles and practices are included in the program of study.

Course work in viticulture includes aspects of plant science, vineyard stock selection, and propagation, soils, vine nutrition and pest management. Also included are courses in planning, layout, economics and management of vineyards. Those interested in enology will receive training in the classroom, laboratory and field in the tools and techniques or wine making. Related courses in microbiology and fermentation science, sensory analysis, and winery economics and marketing are offered.

Graduates should qualify for positions in vineyards, wineries, and in related areas of sales and services. Graduates in viticulture will also be certified as North Carolina Private Pesticide Applicators.

WEB TECHNOLOGIES — Degree/Certificates

CURRICULUM DESCRIPTION

The Web Technologies curriculum prepares graduates for careers in the information technology arena using computers and distributed computing to disseminate and collect information via the web.

Course work in this program covers the terminology and use of computers, network devices, networks, servers, databases, applications, programming languages, as well as web applications, site development and design. Studies will provide opportunity for students to learn related industry standards.

Graduates should qualify for career opportunities as designers, administrators, or developers in the areas of web applications, websites, web services, and related areas of distributed computing.

WELDING TECHNOLOGY — Diploma/Certificate

CURRICULUM DESCRIPTION

The Welding Technology curriculum provides students with a sound understanding of the science, technology, and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing provides the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

COURSES OF INSTRUCTION

Numbers following the course title indicate the number of lecture, lab, and credit hours for the course. Courses below 100 level are not included in calculation of GPA or academic honors (dean's list, etc.).

ACADEMIC RELATED

ACA 090 Study Skills (3/0/3)
Prerequisites: None
Corequisites: None
This course is intended for those who placed into credit-level course work but who are not maintaining satisfactory academic progress toward meeting program goals. Topics include study skills, note taking, learning styles and strategies, test taking, goal setting, and self-assessment skills. Upon completion, students should be able to manage their learning experiences to successfully meet educational goals.

ACA 111 College Student Success (1/0/1)
Prerequisites: None
Corequisites: None
This course introduces the college's physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self-esteem, motivation, goal-setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives.

ACA 118 College Study Skills (1/2/2)
Prerequisites: None
Corequisites: None
This course covers skills and strategies designed to improve study behaviors. Topics include time management, note taking, test taking, memory techniques, active reading strategies, critical thinking, communication skills, learning styles, and other strategies for effective learning. Upon completion, students should be able to apply appropriate study strategies and techniques to the development of an effective study plan.

ACA 120 Career Assessment (1/0/1)
Prerequisites: None
Corequisites: None
This course provides the information and strategies necessary to develop clear personal, academic, and professional goals. Topics include personality styles, goal setting, various college curricula, career choices, and campus leadership development. Upon completion, students should be able to clearly state their personal, academic, and professional goals and have a feasible plan of action to achieve those goals.

ACA 220 Professional Transition (1/0/1)
Prerequisites: None
Corequisites: None
This course provides preparation for meeting the demands of employment or education beyond the community college experience. Emphasis is placed on strategic planning, gathering information on workplaces or colleges, and developing human interaction skills for professional, academic, and/or community life. Upon completion, students should be able to successfully make the transition to appropriate workplaces or senior institutions.

ACCOUNTING

ACC 120 Prin Of Financial Acct I (3/2/4)
Prerequisites None
Corequisites: None
This course introduces business decision-making using accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making, and address ethical considerations. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ACC 121 Prin of Managerial Acct II (3/2/4)
Prerequisites: ACC 120
Corequisites: None
This course is a continuation of accounting principles. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting, and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product costing systems. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ACC 122 Prin of Financial Acct II (3/0/3)
Prerequisites: ACC 120
Corequisites: None
This course provides additional instruction in the financial accounting concepts and procedures introduced in ACC 120. Emphasis is placed on the analysis of specific balance sheet accounts, with in-depth instruction of the accounting principles applied to these accounts. Upon completion, students should be able to analyze data, prepare journal entries, and prepare reports in compliance with generally accepted accounting principles.

ACC 131 Federal Income Taxes (2/2/3)
Prerequisites: None
Corequisites: None
This course provides an overview of federal income taxes for individuals, partnerships, and corporations. Emphasis is placed on the application of the Internal Revenue Code to preparation of tax returns for individuals, partnerships, and corporations. Upon completion, students should be able to complete federal tax returns for individuals, partnerships, and corporations.

ACC 150 Acct Software Appl (1/2/2)
Prerequisites: ACC 120
Corequisites: None
This course introduces computer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting software package to solve accounting problems.

ACC 220 Intermediate Acct I (3/2/4)
Prerequisites: ACC 120
Corequisites: None
This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and extensive analyses of financial statements. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards.

ACC 221 Intermediate Acct II (3/2/4)
Prerequisites: ACC 220
Corequisites: None
This course is a continuation of ACC 220. Emphasis is placed on special problems which may include leases, bonds, investments, ratio

analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 225 Cost Accounting (3/0/3)
Prerequisites: ACC 121
Corequisites: None
This course introduces the nature and purposes of cost accounting as an information system for planning and control. Topics include direct materials, direct labor, factory overhead, process, job order, and standard cost systems. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

AGRICULTURE

AGR 110 Agricultural Economics (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an introduction to basic economic principles in agriculture. Topics include supply and demand, the role of agriculture in the economy, economic systems, and micro- and macroeconomics. Upon completion, students should be able to explain economic systems, interpret supply and demand curves, and complete cost and revenue production schedules.

AGR 140 Agricultural Chemicals (2/2/3)
Prerequisites: None
Corequisites: None
This course covers all aspects of agricultural chemicals. Topics include safety, environmental effects, federal and state laws, pesticide classification, sprayer calibration, and licensing. Upon completion, students should be able to calibrate a sprayer, give proper pesticide recommendations, and demonstrate safe handling of pesticides.

AGR 160 Plant Science (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the basic principles of botany that pertain to agricultural production. Emphasis is placed on the anatomy and physiology of flowering plants. Upon completion, students should be able to identify and explain plant systems.

AGR 170 Soil Science (2/2/3)
Prerequisites: None
Corequisites: None
This course covers the basic principles of soil fertilizing. Topics include liming, fertilization, management, and plant nutrients. Upon completion, students should be able to give nutrient and liming recommendations for soils.

AGR 180 Crop Insects & Diseases (2/3/3)
Prerequisites: None
Corequisites: None
This course includes a study of the major insects and diseases in the southeast. Topics include the structure, life cycle, identification, and control of various insects and diseases. Upon completion, students should be able to identify and recommend methods of control for selected insects and diseases.

AGR 212 Farm Business Mgmt. (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces budgeting, farm analysis, production costs, business organizations, and general management principles. Topics include enterprise budgets, partial budgets, whole farm budgets, income analysis, and business organizations. Upon completion, students should be able to prepare and analyze a farm budget. *This course is a unique concentration requirement in the Agribusiness concentration in the Agricultural Technology program.*

AGR 214 Agricultural Marketing (3/0/3)
Prerequisites: None
Corequisites: None
This course covers basic marketing principles for agricultural products. Topics include buying, selling, processing, standardizing, grading, storing, and marketing of agricultural commodities. Upon completion, students should be able to construct a marketing plan for an agricultural product.

AGR 261 Agronomy (2/2/3)
Prerequisites: None
Corequisites: None
This course provides a basic introduction to field and forage crops. Topics include forage crops, field crops, seed selection, fertility management, field preparation, harvesting, and storage. Upon completion, students should be able to demonstrate a knowledge of forage and field crop production practices.

AGR 262 Weed ID & Control (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the annual and perennial weeds of economic importance in the southeast. Topics include the life-cycles, flowering habits, identification, and control of various weeds in the southeast. Upon completion, students should be able to identify selected weeds and recommend methods of control.

AGR 271 Soil & Water Engineering (2/2/3)
Prerequisites: None
Corequisites: None
This course is designed to introduce basic soil and water conservation practices. Topics include waterways, strip cropping, terracing, ditching, conservation farming, and water quality. Upon completion, students should be able to operate a differential level, interpret a farm plan, and explain water quality principles.

AIR CONDITIONING, HEATING, & REFRIGERATION

AHR 110 Intro. to Refrigeration (2/6/5)
Prerequisites: None
Corequisites: None
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.

AHR 111 HVACR Electricity (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 112 Heating Technology (2/4/4)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of heating including oil, gas, and electric heating systems. Topics include safety, tools and instrumentation, system operating characteristics, installation techniques, efficiency testing, electrical power, and control systems. Upon completion, students should be able to explain the basic oil, gas, and electrical heating systems and describe the major components of a heating system.

AHR 113 Comfort Cooling (2/4/4)
Prerequisites: None
Corequisites: None
This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychometrics, manufacturer specifications, and test instruments to determine proper system operation.

AHR 114 Heat Pump Technology (2/4/4)
Prerequisites: AHR 110 or AHR 113
Corequisites: None
This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures.

AHR 125 HVAC Electronics (1/3/2)
Prerequisites: None
Corequisites: AHR 111 or ELC 111
This course introduces the common electronic control components in HVAC systems. Emphasis is placed on identifying electronic components and their functions in HVAC systems and motor-driven control circuits. Upon completion, students should be able to identify components, describe control circuitry and functions, and use test instruments to measure electronic circuit values and identify malfunctions.

AHR 130 HVAC Controls (2/2/3)
Prerequisites: AHR 111 or ELC 111
Corequisites: None
This course covers the types of controls found in residential and commercial comfort systems. Topics include electrical and electronic controls, control schematics and diagrams, test instruments, and analysis and troubleshooting of electrical systems. Upon completion, students should be able to diagnose and repair common residential and commercial comfort system controls.

AHR 133 HVAC Servicing (2/6/4)
Prerequisites: None
Corequisites: AHR 112 or AHR 113
This course covers the maintenance and servicing of HVAC equipment. Topics include testing, adjusting, maintaining, and troubleshooting HVAC equipment and record keeping. Upon completion, students should be able to adjust, maintain, and service HVAC equipment.

AHR 151 HVAC Duct Systems I (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces the techniques used to lay out and fabricate duct work commonly found in HVAC systems. Emphasis is placed on the skills required to fabricate duct work. Upon completion, students should be able to lay out and fabricate simple duct work.

AHR 152 HVAC Duct Systems II (1/3/2)
Prerequisites: AHR 151
Corequisites: None
This course introduces the techniques used to lay out and fabricate more advanced types of duct work found in HVAC systems. Emphasis is placed on the skills required to work with complex rectangular and round fittings and transitions. Upon completion, students should be able to lay out and fabricate complex rectangular and round fittings.

AHR 160 Refrigerant Certification (1/0/1)
Prerequisites: None
Corequisites: None
This course covers the requirements for the EPA certification examinations. Topics include small appliances, high pressure systems, and low pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.

AHR 180 HVACR Cust Relations (1/0/1)
Prerequisites: None
Corequisites: None
This course introduces common business and customer relation practices that may be encountered in HVACR. Topics include business practices, appearance of self and vehicle, ways of handling customer complaints, invoices, telephone communications, and warranties. Upon completion, students should be able to present themselves to customers in a professional manner, understand how the business operates, complete invoices, and handle complaints.

AHR 210 Residential Building Code (1/2/2)
Prerequisites: None
Corequisites: None
This course covers the residential building codes that are applicable to the design and installation of HVAC systems. Topics include current residential codes as applied to HVAC design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of residential building codes that apply to specific areas of the HVAC trade.

AHR 211 Residential System Design (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system.

AHR 212 Advanced Comfort Syst (2/6/4)
Prerequisites: AHR 114
Corequisites: None
This course covers water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pump systems including variable speed drives and controls.. Emphasis is placed on the application, installation, and servicing of water-source systems and the mechanical and electronic control components of advanced comfort systems. Upon completion, students should be able to test, analyze, and troubleshoot water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pumps.

AHR 215 Commercial HVAC Cont (1/3/2)
Prerequisites: AHR 111 or ELC 111
Corequisites: None
This course introduces HVAC control systems used in commercial applications. Topics include electric/electronic control systems, pneumatic control systems, DDC temperature sensors, humidity sensors, pressure sensors, wiring, controllers, actuators, and controlled devices. Upon completion, students should be able to verify or correct the performance of common control systems with regard to sequence of operation and safety.

AHR 250 HVAC Syst Diagnostics (0/4/2)
Prerequisites: None
Corequisites: AHR 212
This course is a comprehensive study of air conditioning, heating, and refrigeration system diagnostics and corrective measures. Topics include advanced system analysis, measurement of operating efficiency, and inspection and correction of all major system components. Upon completion, students should be able to restore a residential or commercial AHR system so that it operates at or near manufacturers' specifications.

ANIMAL SCIENCE

ANS 110 Animal Science (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the livestock industry. Topics include nutrition, reproduction, production practices, diseases, meat processing, and marketing. Upon completion, students should be able to demonstrate a basic understanding of livestock production practices and the economic impact of livestock in North Carolina.

ANS 115 Animal Feeds & Nutrition (2/2/3)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of animal feeding and nutrition. Topics include nutrient requirements, digestion, feed formulation, and classification. Upon completion, students should be able to demonstrate a knowledge of nutritional requirements and feeding practices of farm animals.

ANS 120 Beef Production (2/2/3)
Prerequisites: ANS 110
Corequisites: None
This course provides an introduction to the beef cattle industry. Topics include reproduction, cattle management, marketing, anatomy and physiology, and pasture management. Upon completion, students should be able to demonstrate a basic understanding of beef cattle production practices and the economic impact of the beef cattle industry in North Carolina.

ANS 130 Poultry Production (2/2/3)
Prerequisites: ANS 110
Corequisites: None
This course provides an introduction to the poultry industry. Topics include anatomy and physiology, reproduction, incubation, and husbandry. Upon completion, students should be able to demonstrate a basic understanding of poultry production and the economic impact of the poultry industry in North Carolina.

ANS 140 Swine Production (2/2/3)
Prerequisites: ANS 110
Corequisites: None
This course provides an introduction to the swine industry. Topics include basic skills for breeding, farrowing, nursery, and grower/finisher. Upon completion, students should be able to demonstrate a basic understanding of swine production practices and the economic impact of the swine industry in North Carolina.

ANS 150 Animal Health Mgmt (3/0/3)
Prerequisites: ANS 110
Corequisites: None
This course introduces animal diseases and health management. Topics include identification, prevention, control, and treatment of diseases. Upon completion, students should be able to recognize disease symptoms, recommend treatments, identify preventive steps, and develop biosecurity procedures.

ANS 160 Animal Waste Mgmt (3/0/3)
Prerequisites: ANS 110
Corequisites: None
This course introduces proper animal waste management. Emphasis is placed on waste management practices, environmental laws and issues relating to animal waste, soil and water conservation, and dead animal disposal. Upon completion, students should be able to calculate proper application rates, apply best management practices, and identify methods of animal waste collection, storage, and utilization.

ANS 212 Livestock Rec & Analy (3/0/3)
Prerequisites: ANS 110
Corequisites: None
This course introduces records and record keeping systems utilized in the livestock industry. Topics include heritability, cattle performance data, swine performance data, and poultry production. Upon completion, students should be able to select animals based on performance records, evaluate performance of operations, and complete production records.

ANTHROPOLOGY

ANT 210 General Anthropology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ANT 220 Cultural Anthropology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are collected and analyzed. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ANT 240 Archaeology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the scientific study of the unwritten record of the human past. Emphasis is placed on the process of human cultural evolution as revealed through archaeological methods of excavation and interpretation. Upon completion, students should be able to demonstrate an understanding of how archaeologists reconstruct the past and describe the variety of past human cultures. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ART

ART 111 Art Appreciation (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ART 114 Art History Survey I (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ART 115 Art History Survey II (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ART 116 Survey of American Art (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the development of American art forms from colonial times to the present. Emphasis is placed on architecture, painting, sculpture, graphics, and the decorative arts. Upon completion, students should be able to demonstrate understanding of the history of the American creative experience. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ART 121 Design I (0/6/3)
Prerequisites: None
Corequisites: None
This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 122 Design II (0/6/3)
Prerequisites: ART 121
Corequisites: None
This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 131 Drawing I (0/6/3)
Prerequisites: None
Corequisites: None
This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. *This course has been approved to satisfy the Comprehensive Articulation Agreement for trnasferability as a premajor and/or elective course requirement.*

ART 132 Drawing II (0/6/3)
Prerequisites: ART 131
Corequisites: None
This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 212 Gallery Assistantship I (0/2/1)
Prerequisites: None
Corequisites: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 222 Wood Design I (0/6/3)
Prerequisites: None
Corequisites: None
This course introduces the historical and contemporary design concepts and their application to the construction of functional and sculptural wood forms. Emphasis is placed on the mastery of hand and power tools. Upon completion, students should be able to demonstrate appropriate use of tools to create unique designs. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 223 Wood Design II (0/6/3)
Prerequisites: ART 222
Corequisites: None
This course provides a continuation of the skills and techniques used in ART 222. Emphasis is placed on woodcarving and other processes. Upon completion, students should be able to use original designs in the creation of functional and sculptural forms. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 240 Painting I (0/6/3)
Prerequisites: None
Corequisites: None
This course introduces the language of painting and the use of various painting materials. Emphasis is placed on the understanding and use of various painting techniques, media, and color principles. Upon completion, students should be able to demonstrate competence in the use of creative processes directed toward the development of expressive form. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as premajor and/or elective course requirement.*

ART 241 Painting II (0/6/3)
Prerequisites: ART 240
Corequisites: None
This course provides a continuing investigation of the materials, processes, and techniques of painting. Emphasis is placed on the exploration of expressive content using a variety of creative processes. Upon completion, students should be able to demonstrate competence in the expanded use of form and variety. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as premajor and/or elective course requirement.*

ART 244 Watercolor (0/6/3)
Prerequisites: None
Corequisites: None
This course introduced basic methods and techniques used in watercolor. Emphasis is placed on application, materials, content, and individual expression. Upon completion, students should be able to demonstrate a variety of traditional and nontraditional concepts used in watercolor media. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as premajor and/or elective course requirement.*

ART 261 Photography I (0/6/3)
Prerequisites: None
Corequisites: None
This course introduces photographic equipment, theory, and processes. Emphasis is placed on camera operation, composition, darkroom technique, and creative expression. Upon completion, students should be able to successfully expose, develop, and print a well-conceived composition. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as premajor and/or elective course requirement.*

ART 262 Photography II (0/6/3)
Prerequisites: ART 261
Corequisites: None
This course introduces the creative manipulation of alternative photographic materials and processes such as toning, hand coloring, infrared, and multiple exposure. Emphasis is placed on personal vision and modes of seeing. Upon completion, students should be able to create properly exposed images using a variety of photographic materials and processes. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 264 Digital Photography I (1/4/3)
Prerequisites: None
Corequisites: None
This course introduces digital photographic equipment, theory and processes. Emphasis is placed on camera operation, composition, computer photo manipulation and creative expression. Upon completion, students should be able to successfully expose, digitally

manipulate, and print a well-conceived composition. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 265 Digital Photography II (1/4/3)
Prerequisites: ART 264
Corequisites: None
This course provides exploration of the concepts and processes of photo manipulation through complex composite images, special effects, color balancing and image/text integration. Emphasis is placed on creating a personal vision and style. Upon completion, students should be able to produce well-executed images using a variety of photographic and photo manipulative approaches. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 281 Sculpture I (0/6/3)
Prerequisites: None
Corequisites: None
This course provides an exploration of the creative and technical methods of sculpture with focus on the traditional processes. Emphasis is placed on developing basic skills as they pertain to three-dimensional expression in various media. Upon completion, students should be able to show competence in variety of sculptural approaches. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 283 Ceramics I (0/6/3)
Prerequisites: None
Corequisites: None
This course provides an introduction to three-dimensional design principles using the medium of clay. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing. Upon completion, students should be able to demonstrate skills in slab and coil construction, simple wheel forms, glaze technique, and creative expression. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 284 Ceramics II (0/6/3)
Prerequisites: ART 283
Corequisites: None
This course covers advanced hand building and wheel techniques. Emphasis is placed on creative expression, surface design, sculptural quality, and glaze effect. Upon completion, students should be able to demonstrate a high level of technical competence in forming and glazing with a development of three-dimensional awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

AUTOMATION TRAINING

ATR 280 Robotic Fundamentals (3/2/4)
Prerequisites: None
Corequisites: None
This course covers application, programming, and maintenance fundamentals for robotic devices. Emphasis is placed on terminology, problem solving, robotic systems controls, and hands-on projects. Upon completion, students should be able to apply basic concepts in application, programming, and robotic control systems.

AUTOMOTIVE BODY REPAIR

AUB 111 Painting & Refinishing I (2/6/4)
Prerequisites: None
Corequisites: None
This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing following accepted industry standards.

AUB 112 Painting & Refinishing II (2/6/4)
Prerequisites: AUB 111
Corequisites: None
This course covers advanced painting techniques and technologies with an emphasis on identifying problems encountered by the refinishing technician. Topics include materials application, color matching, correction of refinishing problems, and other related topics. Upon completion, students should be able to perform spot, panel, and overall refinishing repairs and identify and correct refinish problems.

AUB 114 Special Finishes (1/2/2)
Prerequisites: AUB 111
Corequisites: None
This course introduces multistage finishes, custom painting, and protective coatings. Topics include base coats, advanced intermediate coats, clear coats, and other related topics. Upon completion, students should be able to identify and apply specialized finishes based on accepted industry standards.

AUB 121 Non-Structural Damage I (1/4/3)
Prerequisites: None
Corequisites: None
This course introduces safety, tools, and the basic fundamentals of body repair. Topics include shop safety, damage analysis, tools and equipment, repair techniques, materials selection, materials usage, and other related topics. Upon completion, students should be able to identify and repair minor direct and indirect damage including removal/repairing/ replacing of body panels to accepted standards.

AUB 122 Non-Structural Damage II (2/6/4)
Prerequisites: None
Corequisites: None
This course covers safety, tools, and advanced body repair . Topics include shop safety, damage analysis, tools and equipment, advanced repair techniques, materials selection, materials usage, movable glass, and other related topics. Upon completion, students should be able to identify and repair or replace direct and indirect damage to accepted standards including movable glass and hardware.

AUB 131 Structural Damage I (2/4/4)
Prerequisites: None
Corequisites: None
This course introduces safety, equipment, structural damage analysis, and damage repairs. Topics include shop safety, design and construction, structural analysis and measurement, equipment, structural glass, repair techniques, and other related topics. Upon completion, students should be able to analyze and perform repairs to a vehicle which has received light/moderate structural damage.

AUB 132 Structural Damage II (2/6/4)
Prerequisites: AUB 131
Corequisites: None
This course provides an in-depth study of structural damage analysis and repairs to vehicles that have received moderate to heavy structural damage. Topics include shop safety, structural analysis and measurement, equipment, structural glass, advanced repair techniques, structural component replacement and alignment, and other related topics. Upon completion, students should be able to analyze and perform repairs according to industry standards.

AUB 134 Autobody MIG Welding (1/4/3)
Prerequisites: None
Corequisites: None
This course covers the terms and procedures for welding the various metals found in today's autobody repair industry with an emphasis on personal/environmental safety. Topics include safety and precautionary measures, setup/operation of MIG equipment, metal identification methods, types of welds/joints, techniques, inspection methods, and other related topics. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standards.

AUB 136 Plastics & Adhesives (1/4/3)
Prerequisites: None
Corequisites: None
This course covers safety, plastic and adhesive identification, and the various repair methods of automotive plastic components. Topics include safety, identification, preparation, material selection, and the various repair procedures including refinishing. Upon completion, students should be able to identify, remove, repair, and/or replace automotive plastic components in accordance with industry standards.

AUTOMOTIVE

AUT 111 Basic Auto Technology (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces basic concepts, terms, workplace safety, regulations, and service information relating to automotive technology. Emphasis is placed on developing familiarity with automotive components along with basic identification and proper use of various hand and power tools and shop equipment. Upon completion, students should be able to define and use terms associated with automobiles and identify and use basic tools and shop equipment.

AUT 113 Automotive Servicing (2/6/4)
Prerequisites: None
Corequisites: None
This course covers diagnostic procedures necessary to determine the nature and cause of auto service problems and the procedures used to repair/replace components. Emphasis is placed on troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon completion, students should be able to perform a variety of automotive repairs using proper service procedures and operate appropriate equipment.

AUT 115 Engine Fundamentals (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis/repair of automotive engines using appropriate tools, equipment, procedures, and service information.

AUT 116 Engine Repair (1/3/2)
Prerequisites: None
Corequisites: None
This course covers service/repair/rebuilding of block, head, and internal engine components. Topics include engine repair/reconditioning using service specifications. Upon completion, students should be able to rebuild/recondition an automobile engine to service specifications.

AUT 141 Susp & Steering Sys (2/4/4)
Prerequisites: None
Corequisites: None
This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair various steering and suspension components, check and adjust various alignment angles, and balance wheels.

AUT 151 Brake Systems (2/2/3)
Prerequisites: None
Corequisites: None
This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 152 Brake Systems Lab (0/2/1)
Prerequisites: None
Corequisites: AUT 151
This course provides a laboratory setting to enhance brake system skills. Emphasis is placed on practical experiences that enhance the topics presented in AUT 151. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 151.

AUT 161 Electrical Systems (2/6/4)
Prerequisites: None
Corequisites: None
This course covers basic electrical theory and wiring diagrams, test equipment, and diagnosis/repair/replacement of batteries, starters, alternators, and basic electrical accessories. Topics include diagnosis and repair of battery, starting, charging, lighting, and basic accessory systems problems. Upon completion, students should be able to diagnose, test, and repair the basic electrical components of an automobile.

AUT 162 Chassis Elect & Electr (2/2/3)
Prerequisites: None
Corequisites: None
This course covers electrical/electronic diagnosis/repair, including wiring diagrams, instrumentation, and electronic/computer-controlled devices and accessories. Topics include interpreting wiring diagrams and diagnosis and repair of chassis electrical and electronic systems. Upon completion, students should be able to read and interpret wiring diagrams and determine/perform needed repairs on chassis electrical and electronic systems.

AUT 163 Chassis Elec & Elect Lab (0/2/1)
Prerequisites: None
Corequisites: AUT 162
This course provides a laboratory setting to enhance chassis electrical and electronic system skills. Emphasis is placed on practical experiences that enhance the topics presented in AUT 162. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 162.

AUT 164 Automotive Electronics (2/2/3)
Prerequisites: None
Corequisites: None
This course covers fundamentals of electrical/electronic circuitry, semi-conductors, and microprocessors. Topics include Ohm's law, circuits, AC/DC current, solid state components, digital applications, and the use of digital multimeters. Upon completion, students should be able to apply Ohm's law to diagnose and repair electrical/electronic circuits using digital multimeters and appropriate service information.

AUT 171 Heating & Air Condition (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis/repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

AUT 181 Engine Perf.-Electrical (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the principles, systems, and procedures required for diagnosing and restoring engine performance using electrical/electronics test equipment. Topics include procedures for diagnosis and repair of ignition, emission control, and related electronic systems. Upon completion, students should be able to describe operation of and diagnose/repair ignition/emission control systems using appropriate test equipment and service information.

AUT 182 Engine Perfor-Elec Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 181
This course provides a laboratory setting to enhance the skills for diagnosing and restoring engine performance using electrical/electronics test equipment. Emphasis is placed on practical experiences that enhance the topics presented in AUT 181. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 181.

AUT 183 Engine Performance-Fuels (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the principles of fuel delivery/management, exhaust/emission systems, and procedures for diagnosing and restoring engine performance using appropriate test equipment. Topics include procedures for diagnosis/repair of fuel delivery/management and exhaust/emission systems using appropriate service information. Upon completion, students should be able to describe, diagnose, and repair engine fuel delivery/management and emission control systems using appropriate service information and diagnostic equipment.

AUT 184 Engine Perfor-Fuels Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 183
This course provides a laboratory setting to enhance the skills for diagnosing and repairing fuel delivery/management and emission systems. Emphasis is placed on practical experiences that enhance the topics presented in AUT 183. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 183.

AUT 186 Auto Computer Appl (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces computer operating systems, word processing, and electronic automotive service information systems. Emphasis is placed on operation systems, word processing, and electronic automotive service information systems. Upon completion, students should be able to use an operating system to access information pertaining to automotive technology and perform word processing.

AUT 221 Automatic Transmissions (2/6/4)
Prerequisites: None
Corequisites: None
This course covers operation, diagnosis, service, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to explain operational theory and diagnose and repair automatic drive trains.

AUT 231 Manual Drive Train/Axles (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the operation, diagnosis, and repair of manual transmission/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory and diagnose and repair manual drive trains.

AUT 232 Manual Dr Train/Axle Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 231
This course provides a laboratory setting to enhance the skills for diagnosing and repairing manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Emphasis is placed on practical experiences that enhance the topics presented in AUT 231. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 231.

BIOLOGY

BIO 110 Principles of Biology (3/3/4)
Prerequisites None
Corequisites: None
This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, taxonomy, evolution, ecology, diversity, and other related topics. Upon completion, students should be able to demonstrate increased knowledge and better understanding of biology as it applies to everyday life. *This course has been approved to satisfy the Comprehensive Articulation Agreement in general education core requirement in natural sciences/mathematics.*

BIO 111 General Biology I (3/3/4)
Prerequisites ENG 090, MAT 070, RED 090
Corequisites: None
This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, cell structure and function, metabolism and energy transformation, genetics, evolution, classification, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 112 General Biology II (3/3/4)
Prerequisites: BIO 111
Corequisites: None
This course is a continuation of BIO 111. Emphasis is placed on organisms, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 120 Introductory Botany (3/3/4)
Prerequisites: BIO 110 or BIO 111
Corequisites: None
This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 130 Introductory Zoology (3/3/4)
Prerequisites: BIO 110 or BIO 111
Corequisites: None
This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function including comparative systems of selected groups. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 140 Environ Biology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 140A Environ Biology Lab (0/3/1)
Prerequisites: None
Corequisites: BIO 140
This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 143 Field Biology Minicourse (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the biological and physical components of a field environment. Emphasis is placed on a local field environment with extended field trips to other areas. Upon completion, students should be able to demonstrate an understanding of the biological and physical components of the specific biological environment.

BIO 145 Ecology (3/3/4)
Prerequisites: BIO 110 or BIO 111
Corequisites: None
This course provides an introduction to ecological concepts using an ecosystems approach. Topics include energy flow, nutrient cycling, succession, population dynamics, community structure, and other related topics. Upon completion, students should be able to demonstrate comprehension of basic ecosystem structure and dynamics.

BIO 146 Regional Natural History (3/3/4)
Prerequisites: None
Corequisites: None
This course is an interdisciplinary and historical analysis of the natural resources of the region. Emphasis is placed on geology, climate, forest systems, watersheds, water resources, and fish and wildlife resources of the region. Upon completion, students should be able to demonstrate comprehension of the natural history and the integration of the natural resources of the region. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 155 Nutrition (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the biochemistry of foods and nutrients with consideration of the physiological effects of specialized diets for specific biological needs. Topics include cultural, religious, and economic factors that influence a person's acceptance of food as well as nutrient requirements of the various life stages. Upon completion, students should be able to identify the functions and sources of nutrients, the mechanisms of digestion, and the nutritional requirements of all age groups.

BIO 156 Nutrition and the Child (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an outline of food requirements for children. Topics include menu plans, food preparation, and nutrition education for children and their parents. Upon completion, students should be able to identify sources and functions of nutrients and describe and use standards for evaluating nutritional adequacy in children.

BIO 161 Intro to Human Biology (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a basic survey of human biology. Emphasis is placed on the basic structure and function of body systems and the medical terminology used to describe normal and pathological states. Upon completion, students should be able to demonstrate an understanding of normal anatomy and physiology and the appropriate use of medical terminology.

BIO 163 Basic Anatomy & Physio (4/2/5)
Prerequisites: MAT 060, RED 090
Corequisites: None
This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships.

BIO 165 Anatomy and Physio. I (3/3/4)
Prerequisites: high school biology and chemistry; ENG 090, MAT 070, RED 090
Corequisites: None
This course is the first of a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships.

BIO 166 Anatomy and Physio. II (3/3/4)
Prerequisites: BIO 165
Corequisites: None
This course is the second in a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and the interrelationships of all body systems.

BIO 170 Intro Microbiology (3/3/4)
Prerequisites: None
Corequisites: None
This course introduces fundamental concepts of microbiology with emphasis on the relationships of microorganisms to humans. Topics include common groups of microorganisms and their relationships to human disease, including means of transmission, body defenses, prevention, control, and treatment. Upon completion, students should be able to practice and recognize the value of aseptic technique in microbial control.

BIO 175 General Microbiology (2/2/3)
Prerequisites: BIO 110 or BIO 163 or BIO 166 or BIO 169
Corequisites: None
This course covers principles of microbiology with emphasis on microorganisms and human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 223 Field Botany (2/3/3)
Prerequisites: BIO 112
Corequisites: None
This course provides a field and laboratory study of local flora. Emphasis is placed on local flora classificaiton, identification, and ecology by the use of keys and field studies. Upon completion, students should be able to use keys for the classification and identification of local flora and to demonstrate an understanding of plant ecology. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 224 Local Flora Spring (1/2/2)
Prerequisites: None
Corequisites: None
This course provides an introduction to the identification of native plants. Emphasis is placed on spring wild flowers. Upon completion, students should be able to identify a variety of spring wild flowers and native plants. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 225 Local Flora Summer (1/2/2)
Prerequisites: None
Corequisites: None
This course provides an introduction to the identification of native plants. Emphasis is placed on summer wild flowers. Upon completion, students should be able to identify a variety of summer wild flowers and native plants. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 226 Local Flora Fall (1/2/2)
Prerequisites: None
Corequisites: None
This course provides an introduction to the identification of native plants. Emphasis is placed on fall wild flowers. Upon completion, students should be able to identify a variety of fall wild flowers and native plants. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 227 Winter Plant ID (1/2/2)
Prerequisites: None
Corequisites: None
This course provides an introduction to the identification of native plants. Emphasis is placed on plants in their winter condition. Upon completion, students should be able to identify a variety of native plants in their winter condition. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 235 Ornithology (3/3/4)
Prerequisites: BIO 110 or BIO 111
Corequisites: None
This course introduces the biology of birds. Emphasis is placed on the systematics, recognition, distribution, anatomy, physiology, behavior, and ecology of birds. Upon completion, students should be able to identify various avian species and demonstrate a knowledge of their biology and ecology. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 240 Waste Management (3/0/3)
Prerequisites: BIO 110 or BIO 111
Corequisites: None
This course is a study of human use of and impact on the environment. Topics include how human activities can negatively affect the land and water and how to avoid and cope with waste problems. Upon completion, students should be able to identify both hazardous and nonhazardous waste products and solutions for their management.

BIO 242 Natural Resource Conserv (3/0/3)
Prerequisites: BIO 112
Corequisites: None
This course describes the importance of natural resources and their role in our environment. Emphasis is placed on the physical, biological, and ecological principles underlying natural resource conservation with attention to the biological consequences of human impacts. Upon completion, students should be able to demonstrate an understanding of natural resource conservation.

BLUEPRINT READING

BPR 111 Blueprint Reading (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the basic principles of blueprint reading. Topics include line types, orthographic projections, dimensioning methods, and notes. Upon completion, students should be able to interpret basic blueprints and visualize the features of a part.

BPR 121 Blueprint Reading: Mech (1/2/2)
Prerequisites: BPR 111 or MAC 131
Corequisites: None
This course covers the interpretation of intermediate blueprints. Topics include tolerancing, auxiliary views, sectional views, and assembly drawings. Upon completion, students should be able to read and interpret a mechanical working drawing.

BPR 130 Blueprint Reading/Const (1/2/2)
Prerequisites: None
Corequisites: CAR 111
This course covers the interpretation of blueprints and specifications that are associated with the construction trades. Emphasis is placed on interpretation of details for foundations, floor plans, elevations, and schedules. Upon completion, students should be able to read and interpret a set of construction blueprints.

BPR 221 Interpretation of GD & T (2/0/2)
Prerequisites: BPR 121 or MAC 132
Corequisites: None
This course introduces dimensioning and tolerancing standards as established by ANSI and ISO 9000. Topics include dimensioning, symbols and terms, application of tolerances and limits, tolerances of position and form, and the advantages of geometric concepts. Upon completion, students should be able to interpret blueprints that utilize the GD & T system.

BUSINESS

BUS 110 Introduction to Business (3/0/3)
Prerequisite: None
Corequisite: None
This course provides a survey of the business world. Topics include the basic principles and practices of contemporary business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects. *This course has been approved for transfer through the Comprehensive Articulation Agreement.*

BUS 115 Business Law I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the ethics and legal framework of business. Emphasis is placed on contracts, negotiable instruments, Uniform Commercial Code, and the working of the court systems. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations.

BUS 116 Business Law II (3/0/3)
Prerequisites: None
Corequisites: None
This course continues the study of ethics and business law. Emphasis is placed on bailments, sales, risk-bearing, forms of business ownership, and copyrights. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations.

BUS 121 Business Math (2/2/3)
Prerequisites: MAT 060
Corequisites: None
This course covers fundamental mathematical operations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business. Upon completion, students should be able to apply mathematical concepts to business.

BUS 125 Personal Finance (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a study of individual and family financial decisions. Emphasis is placed on building useful skills in buying, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan.

BUS 135 Principles of Supervision (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the basic responsibilities and duties of the supervisor and his/her relationship to higher-level supervisors, subordinates, and associates. Emphasis is placed on effective utilization of the work force and understanding the role of the supervisor. Upon completion, students should be able to apply supervisory principles in the work place.

BUS 137 Principles of Management (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management.

BUS 151 People Skills (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the basic concepts of identity and communication in the business setting. Topics include self-concept, values, communication styles, feelings and emotions, roles versus relationships, and basic assertiveness, listening, and conflict resolution. Upon completion, students should be able to distinguish between unhealthy, self-destructive, communication patterns and healthy, non-destructive, positive communication patterns.

BUS 225 Business Finance (2/2/3)
Prerequisites: ACC 120, ACC 121
Corequisites: None
This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

BUS 230 Small Business Mgmt. (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan. *Knowledge of Excel and Word is highly recommended for successful completion of the required business plan and ENG 111 is strongly recommended.*

BUS 255 Org Behavior in Busin. (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the impact of different management practices and leadership styles on worker satisfaction and morale, organizational effectiveness, productivity, and profitability. Topics include a discussion of formal and informal organizations, group dynamics, motivation, and managing conflict and change. Upon completion, students should be able to analyze different types of interpersonal situations and determine an appropriate course of action.

BUS 260 Business Communication (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the work place.

CABINETMAKING

CAB 111 Cabinetmaking I (4/9/7)
Prerequisites: None
Corequisites: None
This course introduces wood technology, materials, purchasing, estimating, design considerations, and cabinet construction. Topics include wood identification and use, hand tools, safe machine operation, glue and clamping, abrasives, wood joinery, kitchen and bath layout, laminates, and finishing techniques. Upon completion, students should be able to select and process materials; make sound production decisions; and design, lay out, construct, and install cabinets. *This is a diploma-level course.*

CARPENTRY

CAR 110 Intro to Carpentry (2/0/2)
Prerequisites: None
Corequisites: None
This course introduces the student to the carpentry trade. Topics include duties of a carpenter, hand and power tools, building materials, construction methods, and safety. Upon completion, students should be able to identify hand and power tools, common building materials, and basic construction methods.

CAR 111 Carpentry I (3/15/8)
Prerequisites: None
Corequisites: None
This course introduces the theory and construction methods associated with the building industry, including framing, materials, tools, and equipment. Topics include safety, hand/power tool use, site preparation, measurement and layout, footings and foundations, construction framing, and other related topics. Upon completion, students should be able to safely lay out and perform basic framing skills with supervision. *This is a diploma-level course.*

CAR 112 Carpentry II (3/15/8)
Prerequisites: CAR 111
Corequisites: None
This course covers the advanced theory and construction methods associated with the building industry including framing and exterior finishes. Topics include safety, hand/power tool use, measurement and layout, construction framing, exterior trim and finish, and other related topics. Upon completion, students should be able to safely frame and apply exterior finishes to a residential building with supervision.

CAR 113 Carpentry III (3/9/6)
Prerequisites: CAR 111
Corequisites: None
This course covers interior trim and finishes. Topics include safety, hand/power tool use, measurement and layout, specialty framing, interior trim and finishes, cabinetry, and other related topics. Upon completion, students should be able to safely install various interior trim and finishes in a residential building with supervision.

CAR 114 Residential Bldg Codes (3/0/3)
Prerequisites: None
Corequisites: CAR 112
This course covers building codes and the requirements of state and local construction regulations. Emphasis is placed on the minimum requirements of the North Carolina building codes related to residential structures. Upon completion, students should be able to determine if a structure is in compliance with North Carolina building codes.

CAR 115 Res Planning/Estimating (3/0/3)
Prerequisites: BPR 130
Corequisites: CAR 112
This course covers project planning, management, and estimating for residential or light commercial buildings. Topics include planning and scheduling, interpretation of working drawings and specifications, estimating practices, and other related topics. Upon completion, students should be able to perform quantity take-offs and cost estimates.

COMPUTER ENGINEERING TECHNOLOGY

CET 111 Computer Upgrade/Rep. I (2/3/3)
Prerequisites: None
Corequisites: None
This course is the first of two courses covering repairing, servicing, and upgrading computers and peripherals in preparation for industry certification. Topics include safety practices, CPU/memory/bus identification, disk subsystem, hardware/software installation/configuration, common device drivers, data recovery, system maintenance, and other related topics. Upon completion, students should be able to safely repair and/or upgrade computer systems to perform within specifications.

CHEMISTRY

CHM 131 Introduction to Chemistry (3/0/3)
Prerequisites: ENG 090, MAT 070, RED 090
Corequisites: None
This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

CHM 131A Intro. to Chemistry Lab (0/3/1)
Prerequisites: None
Corequisites: CHM 131
This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

CHM 132 Organic and Biochemistry (3/3/4)
Prerequisites: CHM 131 & 131A or CHM 151
Corequisite: None
This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

CHM 151 General Chemistry I (3/3/4)
Prerequisites: ENG 090, RED 090, and MAT 161 or MAT 171
Corequisites: None
This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

CHM 152 General Chemistry II (3/3/4)
Prerequisites: CHM 151
Corequisites: None
This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

CHM 251 Organic Chemistry I (3/3/4)
Prerequisites: CHM 152
Corequisites: None
This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252.

CHM 252 Organic Chemistry II (3/3/4)
Prerequisites: CHM 251
Corequisites: None
This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields.

INFORMATION SYSTEMS

CIS 110 Intro. to Computers (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option).*

CIS 111 Basic PC Literacy (1/2/2)
Prerequisites: None
Corequisites: None
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills.

CIS 115 Intro to Prog & Logic (2/3/3)
Prerequisites: MAT 070, MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175
Corequisites: None
This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option).*

CIS 120 Spreadsheet I (2/2/3)
Prerequisites: CIS 110 or CIS 111 or OST 137
Corequisites: None
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

CIS 121 User Support & Softw Eval (1/4/3)
Prerequisites: CIS 110 or CIS 111
Corequisites: None
This course provides an opportunity to evaluate software and hardware and make recommendations to meet end-user needs. Emphasis is placed on software and hardware evaluation, installation, training, and support. Upon completion, students should be able to present proposals and make hardware and software recommendations based on their evaluations.

CIS 135 PC Diagn/Configuration (2/2/3)
Prerequisites: None
Corequisites: None
This course covers personal computer hardware including identification, installations, diagnostics, and repair. Topics include component/bus identification, safety procedures, hardware/software installation and configuration, diagnosing and replacing field replaceable units including memory and storage devices. Upon completion, students should be able to identify, install, upgrade, maintain, diagnose and repair/replace basic microcomputer components.

CIS 147 Oper. Syst. -Windows (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces operating systems concepts for a Windows operating system. Topics include hardware management, file and memory management, system configuration/ optimization, and utilities. Upon completion, students should be able to perform operating system functions at the support level in a Windows environment.

CIS 152 Database Concpts & Apps (2/2/3)
Prerequisites: CIS 110, CIS 111, or CIS 115
Corequisites: None
This course introduces database design and creation using a DBMS product. Topics include database terminology, usage in industry, design theory, types of DBMS models, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to create simple database tables, queries, reports, and forms which follow acceptable design practices.

CIS 157 Database Programming I (2/2/3)
Prerequisites: None
Corequisites: None
This course is designed to develop programming proficiency in a selected DBMS. Emphasis is placed on the Data Definition Language (DDL) and Data Manipulation Language (DML) of the DBMS as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports representative of industry requirements.

CIS 164 DTP Layout & Design (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the fundamentals of design and page layout. Emphasis is placed on page layout organization, typography, and color. Upon completion, students should be able to create projects that visually enhance communication.

CIS 165 Desktop Publishing I (2/2/3)
Prerequisites: None
Corequisites: None
This course provides an introduction to desktop publishing software capabilities. Emphasis is placed on efficient use of a page layout software package to create, design, and print publications; hardware/software compatibility; and integration of specialized peripherals. Upon completion, students should be able to prepare publications given design specifications.

CIS 169 Business Presentations (1/2/2)
Prerequisites: CIS 110 or CIS 111
Corequisites: None
This course provides hands-on experience with a graphics presentation package. Topics include terminology, effective chart usage, design and layout, integrating hardware components, and enhancing presentations with text and graphics. Upon completion, students should be able to design and demonstrate an effective presentation.

CIS 220 Spreadsheets II (1/2/2)
Prerequisites: CIS 120
Corequisites: None
This course covers advanced spreadsheet design and development. Topics include advanced functions, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets.

CIS 235 Adv PC Diagn/Config. (2/2/3)
Prerequisites: CIS 215 or CIS 135
Corequisites: None
This course covers upgrading and repairing personal computers and peripherals. Topics include configuring and trouble shooting peripherals, installing device drivers, resolving resource conflicts, configuring and optimizing operating systems, and related topics. Upon completion, students should be able to install peripherals and upgrade personal computers components, diagnose problems, resolve resource conflict, and optimize system performance.

CIS 274 Network Syst Manager II (2/2/3)
Prerequisites: CIS 174
Corequisites: None
This course is a continuation of CIS 174 focusing on advanced network management, configuration, and installation. Emphasis is placed on server configuration files, startup procedures, server protocol support, memory and performance concepts, and management and maintenance. Upon completion, students should be able to install and upgrade networks and servers for optimal performance.

CIS 275 Network Management II (2/2/3)
Prerequisites: CIS 175
Corequisites: None
This course is a continuation of CIS 175 focusing on advanced enterprise networks. Topics include directory service tree planning, management distribution and protection, improving network security, auditing the network, printing, networking, and system administration of an Internet node. Upon completion, students should be able to manage client services and network features and optimize network performance.

CIS 286 Syst Analysis & Design (3/0/3)
Prerequisites: CIS 115
Corequisites: None
This course examines established and evolving methodologies for the analysis, design, and development of a business information system. Emphasis is placed on business systems characteristics, managing information systems projects, prototyping, CASE tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.

CIS 287 Network Support (2/2/3)
Prerequisites: CIS 274 or CIS 275
Corequisites: None
This course provides experience using CD ROM and on-line research tools and hands-on experience for advanced hardware support and troubleshooting. Emphasis is placed on troubleshooting network adapter cards and cabling, network storage devices, the DOS workstation, and network printing. Upon completion, students should be able to analyze, diagnose, research, and fix network hardware problems.

CIS 288 Systems Project (1/4/3)
Prerequisites: CIS 227 or CIS 286
Corequisites: None
This course provides an opportunity to complete a significant systems project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation. *This is the capstone course required to successfully complete the Information Systems degree program.*

CRIMINAL JUSTICE

CJC 111 Intro to Criminal Justice (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

CJC 112 Criminology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.

CJC 113 Juvenile Justice (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition.

CJC 121 Law Enforcement Oper (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

CJC 131 Criminal Law (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

CJC 132 Court Procedure & Evid (3/0/3)
Prerequisites: None
Corequisites: None
This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence.

CJC 141 Corrections (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

CJC 212 Ethics & Comm Relations (3/0/3)
Prerequisites: None
Corequisites: None
This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations.

CJC 215 Organiz. & Admin (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

CJC 221 Investigative Principles (3/2/4)
Prerequisites: None
Corequisites: None
This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation.

CJC 231 Constitutional Law (3/0/3)
Prerequisites: None
Corequisites: None
The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts.

COOPERATIVE EDUCATION

COE 110 World of Work (1/0/0/1)
Prerequisites: None
Corequisites: None
This course covers basic knowledge necessary for gaining and maintaining employment. Topics include job search skills, work ethic, meeting employer expectations, workplace safety, and human relations. Upon completion, students should be able to successfully make the transition from school to work.

COE 111 Co-op Work Exper I (0/0/10/1)
Prerequisites: ACA 220, COE 110, OST 286, a Co-op Workshop, or permission from Co-op staff
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 112 Co-op Work Exper I (0/0/20/2)
Prerequisites: ACA 220, COE 110, OST 286 ,a Co-op Workshop, or permission from Co-op staff
Corequisites: None
This course provides work experience with a college approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 113 Co-op Work Exp. I (Apprenticeship) (0/0/30/3)
Prerequisites: ACA 220, COE 110, OST 286, a Co-op Workshop, or permission from Co-op staff
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 114 Co-op Work Experience I (Apprenticeship) (0/0/40/4)
Prerequisites: ACA 220, COE 110, OST 286, a Co-op Workshop, or permission from Co-op staff
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 115 Work Exp Seminar I (1/0/0/1)
Prerequisites: None
Corequisites: COE 111, COE 112, COE 113, or COE 114
This course provides the opportunity for students to share their work experiences. Emphasis is placed on integrating classroom learning with related work experience. Upon completion students should be able to apply the qualities and skills they have acquired through working to become a more productive employee.

COE 121 Co-op Work Exper II (0/0/10/1)
Prerequisites: COE 111 or COE 112
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 122 Co-op Work Exper II (0/0/20/2)
Prerequisites: COE 111 or COE 112
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 123 Co-op Work Experience II (Apprenticeship) (0/0/30/3)
Prerequisites: COE 113
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 124 Co-op Work Experience II (Apprenticeship) (0/0/40/4)
Prerequisites: COE 114
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 125 Work Exp Seminar II (1/0/0/1)
Prerequisites: COE 121, COE 122, COE 123, or COE 124
Corequisites: None
This course provides the opportunity for students to share their work experiences. Emphasis is placed on integrating classroom learning with related work experience. Upon completion students should be able to apply the qualities and skills they have acquired through working to become a more productive employee.

COE 131 Co-op Work Exper III (0/0/10/1)
Prerequisites: COE 121 or COE 122
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COS 240 Contemporary Design (1/3/2)
Prerequisites: COS 111 and COS 112
Corequisites: None
This course covers methods and techniques for contemporary designs. Emphasis is placed on contemporary designs and other related topics. Upon completion, students should be able to demonstrate and apply techniques associated with contemporary design.

COS 250 Computerized Salon Ops (1/0/1)
Prerequisites: None
Corequisites: None
This course introduces computer and salon software. Emphasis is placed on various computer and salon software applications. Upon completion, students should be able to utilize computer skills and software applications in the salon setting.

COS 251 Manicure Instr Concepts (8/0/8)
Prerequisites: None
Corequisites: None
This course introduces manicuring instructional concepts. Topics include orientation, theories of education, unit planning, daily lesson planning, laboratory management, student assessment, record keeping, and other related topics. Upon completion, students should be able to identify theories of education, develop lesson plans, demonstrate supervision techniques, and assess student classroom performance.

COS 252 Manicure Instr Pract (0/15/5)
Prerequisites: NC Cosmetology or Manicurist License and six months work experience in a cosmetic arts salon
Corequisites: COS 251
This course covers supervisory and instructional skills for teaching manicuring students in a laboratory setting. Topics include demonstrations of services, supervision, student assessment, and other related topics. Upon completion, students should be able to demonstrate competence in the areas covered by the Manicuring Instructor Licensing Examination and meet program completion requirements.

COS 260 Design Applications (1/3/2)
Prerequisites: None
Corequisites: None
This course provides an overview of the design concepts used in cosmetology. Topics include the application of art principles and elements to artistically design hair, nails, and make-up and other related topics. Upon completion, students should be able to demonstrate knowledge and techniques associated with design concepts.

COS 271 Instructor Concepts I (5/0/5)
Prerequisites: Cosmetology License and six months experience as a licensed cosmetologist
Corequisites: COS 272
This course introduces the basic cosmetology instructional concepts. Topics include orientation, theories of education, unit planning, daily lesson planning, laboratory management, student assessment, record keeping, and other related topics. Upon completion, students should be able to identify theories of education, develop lesson plans, demonstrate supervisory techniques, and assess student performance in a classroom setting.

COS 272 Instructor Practicum I (0/21/7)
Prerequisites: Cosmetology License and six months experience as a licensed cosmetologist
Corequisites: COS 271
This course covers supervisory and instructional skills for teaching entry-level cosmetology students in a laboratory setting. Topics include demonstrations of services, supervision, and entry-level student assessment. Upon completion, students should be able to demonstrate salon services and instruct and objectively assess the entry-level student.

COS 273 Instructor Concepts II (5/0/5)
Prerequisites: COS 271 and COS 272
Corequisites: COS 274
This course covers advanced cosmetology instructional concepts. Topics include practical demonstrations, lesson planning, lecture techniques, development and administration of assessment tools, record keeping, and other related topics. Upon completion, students should be able to develop lesson plans, demonstrate supervision techniques, assess student performance in a classroom setting, and keep accurate records.

COS 274 Instructor Practicum II (0/21/7)
Prerequisites: COS 271 and COS 272
Corequisites: COS 273
This course is designed to develop supervisory and instructional skills for teaching advanced cosmetology students in a laboratory setting. Topics include practical demonstrations, supervision, and advanced student assessment. Upon completion, students should be able to demonstrate competence in the areas covered by the Instructor Licensing Examination and meet program completion requirements. *This is a certificate-level course.*

COMPUTER INFORMATION TECHNOLOGY

CTS 115 Info Sys Bus Concept (3/03)
Prerequisites: None
Corequisites: None
The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the 'hybrid business manager' and the potential offered by new technology and systems.

CTS 120 Hardware/Software Sup (2/3/3)
Prerequisites: CIS 110 or CIS 111
Corequisites: None
This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

CTS 125 Presentation Graphics (2/2/3)
Prerequisites: CIS 110 or CIS 111
Corequisites: None
This course provides hands-on experience with a graphics presentation package. Topics include terminology, effective chart usage, design and layout, integrating hardware components, and enhancing presentations with text, graphics, audio and video. Upon completion, students should be able to design and demonstrate an effective presentation.

CTS 130 Spreadsheet (2/2/3)
Prerequisites: CIS 110 or CIS 111 or OST 137
Corequisites: None
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

CTS 220 Adv Hard/Software Sup (2/3/3)
Prerequisites: CTS 120
Corequisites: None
This course provides advanced knowledge and competencies in hardware and operating system technologies for computer technicians to support personal computers. Emphasis is placed on: configuring and upgrading; diagnosis and troubleshooting; as well as preventive maintenance of hardware and system software. Upon completion, students should be able to install, configure, diagnose, perform preventive maintenance, and maintain basic networking on personal computers.

CTS 230 Advanced Spreadsheet (2/2/3)
Prerequisites: CTS 130
Corequisites: None
This course covers advanced spreadsheet design and development. Topics include advanced functions and statistics, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets.

CTS 250 User Sup & Softw Eval (2/2/3)
Prerequisites: CTS 120 and NOS 130
Corequisites: None
This course provides an opportunity to evaluate software and hardware and make recommendations to meet end-user needs. Emphasis is placed on software and hardware evaluation, installation, training, and support. Upon completion, students should be able to present proposals and make hardware and software recommendations based on their evaluations.

CTS 285 Systems Analy & Design (3/03)
Prerequisites: CIS 115
Corequisites: None
This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.

CTS 286 Network Support (2/2/3)
Prerequisites: NOS 230 or NOS 231
Corequisites: None
This course provides experience using CD ROM and on-line research tools and hands-on experience for advanced hardware support and troubleshooting. Emphasis is placed on troubleshooting network adapter cards and cabling, network storage devices, the DOS workstation, and network printing. Upon completion, students should be able to analyze, diagnose, research, and fix network hardware problems.

CTS 289 System Support Project (1/4/3)
Prerequisites: CTS 285
Corequisites: None
This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation. *This is the capstone course required to successfully complete the Computer Information Technology degree program.*

COMPUTER SCIENCE

CSC 131 Assembly Programming (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces assembly language programming with emphasis on program efficiency. Topics include registers, instruction, data types, memory layout, I/O, bit manipulation, debugging, and code considerations. Upon completion, students should be able to create and modify program modules written in an assembly language.

CSC 134 C++ Programming (2/3/3)
Prerequisites: CIS 115 or CSC 131
Corequisites: None
This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

CSC 135 COBOL Programming (2/3/3)
Prerequisites: CIS 115
Corequisites: None
This course introduces computer programming using the COBOL programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

CSC 138 RPG Programming (2/3/3)
Prerequisites: CIS 115
Corequisites: None
This course introduces computer programming using the RPG programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

CSC 139 Visual BASIC Prog (2/3/3)
Prerequisites: CIS 115
Corequisites: None
This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level.

CSC 151 JAVA Programming (2/3/3)
Prerequisites: CIS 115
Corequisites: None
This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

CSC 160 Intro to Internet Prog (2/2/3)
Prerequisites: CIS 115
Corequisites: None
This course introduces client-side Internet programming using HTML and Javascript. Topics include use of frames and tables, use of meta tags, Javascript techniques for site navigation. Upon completion, students should be able to write HTML documents that incorporate programming to provide web page organization and navigation functions.

CSC 234 Adv C++ Programming (2/3/3)
Prerequisites: CSC 134
Corequisites: None
This course is a continuation of CSC 134 using the C++ programming language with standard programming principles. Emphasis is placed on advanced arrays/tables, file management/

processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 235 Adv COBOL Program (2/3/3)
Prerequisites: CSC 135
Corequisites: None
This course is a continuation of CSC 135 using the COBOL programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 238 Adv RPG Program (2/3/3)
Prerequisites: CSC 138
Corequisites: None
This course is a continuation of CSC 138 using the RPG programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 239 Adv Visual BASIC Prog (2/3/3)
Prerequisites: CSC 139
Corequisites: None
This course is a continuation of CSC 139 using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment

CSC 248 Adv. Internet Progr (2/3/3)
Prerequisites: CSC 134 or CSC 140 or CSC 141 or CSC 148 or CSC 160
Corequisites: None
This course covers advanced programming skills required to design Internet applications. Emphasis is placed on programming techniques required to support network applications. Upon completion, students should be able to design, code, debug, and document network-based programming solutions to various real-world problems using an appropriate programming language.

CSC 285 Programming Project (2/2/3)
Prerequisites: CIS 115
Corequisites: None
This course provides an opportunity to complete a significant Programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation. *This is the capstone course required to successfully complete the Computer Programming degree program.*

CSC 289 Program Capstone Proj (1/4/3)
Prerequisites: CTS 285
Corequisites: None
This course provides an opportunity to complete a significant programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation. *This is the capstone course required to successfully complete the Computer Programming degree program.*

CONSTRUCTION

CST 110 Intro to Construction (1/2/2)
Prerequisites: None
Corequisites: CAR 111
This course introduces construction terminology, materials, and practices found at a construction worksite. Emphasis is placed on common and innovative practices, methods, materials, and other related topics of the construction industry. Upon completion, students should be able to successfully identify various practices, methods, and materials used in the construction industry.

DATABASE MANAGEMENT TECHNOLOGY

DBA 110 Database Concepts (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

DBA 115 Database Applications (2/2/3)
Prerequisites: DBA 110
Corequisites: None
This course applies concepts learned in DBA 110 to a specific DBMS. Topics include manipulating multiple tables, advanced queries, screens and reports, linking, and command files. Upon completion, students should be able to create multiple table systems that demonstrate updates, screens, and reports representative of industry requirements.

DBA 120 Database Program I (2/2/3)
Prerequisites: None
Corequisites: None
This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports.

DBA 220 Oracle DB Program II (2/2/3)
Prerequisites: DBA 120
Corequisites: None
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop an Oracle DBMS application which includes a GUI front-end and report generation.

DESIGN DRAFTING

DDF 211 Design Drafting I (2/6/4)
Prerequisites: DFT 112, DFT 112A, DFT 151
Corequisites: None
This course emphasizes design processes for finished products. Topics include data collection from manuals and handbooks, efficient use of materials, design sketching, specifications, and vendor selection. Upon completion, students should be able to research and plan the design process for a finished product.

DRAFTING

DFT 111 Technical Drafting I (1/3/2)
Prerequisites: None
Corequisites: DFT 111A
This course introduces basic drafting skills, equipment, and applications. Topics include sketching, measurements, lettering, dimensioning, geometric construction, orthographic projections and pictorials drawings, sections, and auxiliary views. Upon completion, students should be able to understand and apply basic drawing principles and practices.

DFT 111A Technical Drafting I Lab (0/3/1)
Prerequisites: None
Corequisites: DFT 111
This course provides a laboratory setting to enhance basic drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 111. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in DFT 111.

DFT 112 Technical Drafting II (1/3/2)
Prerequisites: DFT 111, DFT 111A
Corequisites: DFT 112A
This course provides for advanced drafting practices and procedures. Topics include detailed working drawings, hardware, fits and tolerances, assembly and sub-assembly, geometric dimensioning and tolerancing, intersections, and developments. Upon completion, students should be able to produce detailed working drawings.

DFT 112A Technical Drafting II Lab (0/3/1)
Prerequisites: DFT 111, DFT 111A
Corequisites: DFT 112
This course provides a laboratory setting to enhance advanced drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 112. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in DFT 112.

DFT 115 Architectural Drafting (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces basic drafting practices used in residential and light commercial design. Topics include floor plans, foundations, details, electrical components, elevations, and dimensioning practice. Upon completion, students should be able to complete a set of working drawings for a simple structure.

DFT 121 Intro to GD & T (1/2/2)
Prerequisites: DFT 111, DFT 111A
Corequisites: None
This course introduces basic geometric dimensioning and tolerancing principles. Topics include symbols, annotation, theory, and applications. Upon completion, students should be able to interpret and apply basic geometric dimensioning and tolerancing principles to drawings.

DFT 151 CAD I (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

DFT 152 CAD II (2/3/3)
Prerequisites: DFT 112, DFT 112A, and DFT 151
Corequisites: None
This course is a continuation of DFT 151. Topics include advanced two-dimensional, three-dimensional, and solid modeling and extended CAD applications. Upon completion, students should be able to generate and manage CAD drawings and models to produce engineering documents.

DFT 214 Descriptive Geometry (1/2/2)
Prerequisites: DFT 111, DFT 111A
Corequisites: None
This course includes a graphic analysis of space problems. Topics include points, lines, planes, connectors, and combinations of these. Upon completion, students should be able to solve real world spatial problems using descriptive geometry techniques.

DRAMA/THEATRE

DRA 111 Theatre Appreciation (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a study of the art, craft, and business of the theatre. Emphasis is placed on the audience's appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theatre terms and to recognize the contributions of various theatre artists. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

DRA 115 Theatre Criticism (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to develop a critical appreciation of the theatre from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theatre performance, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ELECTRONIC COMMERCE

ECM 168 Electronic Business (2/2/3)
Prerequisites: None
Corequisites: None
This course provides a survey of the world of electronic business. Topics include the definition of electronic business, current practices as they evolve using Internet strategy in business, and application of basic business principles to the world of e-commerce. Upon completion, students should be able to define electronic business and demonstrate an understanding of the benefits of e-commerce as a foundation for developing plans leading to electronic business implementation.

ECM 210 Intro to Electr Commerce (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, and site administration. Upon completion, students should be able to setup a working Electronic Commerce Internet web site. *This course is a unique concentration requirement of the E-Commerce concentration in the Business Administration program.*

ECM 220 E-Comm Plan. & Implem. (2/2/3)
Prerequisites: None
Corequisites: None
This course builds on currently accepted business practices to develop a business plan and implementation model for e-commerce. Topics include analysis and synthesis of the planning cycle, cost/benefit analysis, technical systems, marketing, security, financial support, Internet strategies, website design, customer support and feedback and assessment. Upon completion, students should be able to develop a plan for e-commerce in a small to medium size business.

ECM 230 Capstone Project (1/6/3)
Prerequisites: ECM 220
Corequisites: None
This course provides experience in Electronic Commerce. Emphasis is placed on the implementation of an e-commerce model for an existing business. Upon completion, students should be able to successfully develop and implement a plan for e-commerce in a small to medium size business.

ECONOMICS

ECO 151 Survey of Economics (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon

processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 235 Adv COBOL Program (2/3/3)
Prerequisites: CSC 135
Corequisites: None
This course is a continuation of CSC 135 using the COBOL programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 238 Adv RPG Program (2/3/3)
Prerequisites: CSC 138
Corequisites: None
This course is a continuation of CSC 138 using the RPG programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 239 Adv Visual BASIC Prog (2/3/3)
Prerequisites: CSC 139
Corequisites: None
This course is a continuation of CSC 139 using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment

CSC 248 Adv. Internet Progr (2/3/3)
Prerequisites: CSC 134 or CSC 140 or CSC 141 or CSC 148 or CSC 160
Corequisites: None
This course covers advanced programming skills required to design Internet applications. Emphasis is placed on programming techniques required to support network applications. Upon completion, students should be able to design, code, debug, and document network-based programming solutions to various real-world problems using an appropriate programming language.

CSC 285 Programming Project (2/2/3)
Prerequisites: CIS 115
Corequisites: None
This course provides an opportunity to complete a significant Programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation. *This is the capstone course required to successfully complete the Computer Programming degree program.*

CSC 289 Program Capstone Proj (1/4/3)
Prerequisites: CTS 285
Corequisites: None
This course provides an opportunity to complete a significant programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation. *This is the capstone course required to successfully complete the Computer Programming degree program.*

CONSTRUCTION

CST 110 Intro to Construction (1/2/2)
Prerequisites: None
Corequisites: CAR 111
This course introduces construction terminology, materials, and practices found at a construction worksite. Emphasis is placed on common and innovative practices, methods, materials, and other related topics of the construction industry. Upon completion, students should be able to successfully identify various practices, methods, and materials used in the construction industry.

DATABASE MANAGEMENT TECHNOLOGY

DBA 110 Database Concepts (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

DBA 115 Database Applications (2/2/3)
Prerequisites: DBA 110
Corequisites: None
This course applies concepts learned in DBA 110 to a specific DBMS. Topics include manipulating multiple tables, advanced queries, screens and reports, linking, and command files. Upon completion, students should be able to create multiple table systems that demonstrate updates, screens, and reports representative of industry requirements.

DBA 120 Database Program I (2/2/3)
Prerequisites: None
Corequisites: None
This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports.

DBA 220 Oracle DB Program II (2/2/3)
Prerequisites: DBA 120
Corequisites: None
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop an Oracle DBMS application which includes a GUI front-end and report generation.

DESIGN DRAFTING

DDF 211 Design Drafting I (2/6/4)
Prerequisites: DFT 112, DFT 112A, DFT 151
Corequisites: None
This course emphasizes design processes for finished products. Topics include data collection from manuals and handbooks, efficient use of materials, design sketching, specifications, and vendor selection. Upon completion, students should be able to research and plan the design process for a finished product.

DRAFTING

DFT 111 Technical Drafting I (1/3/2)
Prerequisites: None
Corequisites: DFT 111A
This course introduces basic drafting skills, equipment, and applications. Topics include sketching, measurements, lettering, dimensioning, geometric construction, orthographic projections and pictorials drawings, sections, and auxiliary views. Upon completion, students should be able to understand and apply basic drawing principles and practices.

DFT 111A Technical Drafting I Lab (0/3/1)
Prerequisites: None
Corequisites: DFT 111
This course provides a laboratory setting to enhance basic drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 111. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in DFT 111.

DFT 112 Technical Drafting II (1/3/2)
Prerequisites: DFT 111, DFT 111A
Corequisites: DFT 112A
This course provides for advanced drafting practices and procedures. Topics include detailed working drawings, hardware, fits and tolerances, assembly and sub-assembly, geometric dimensioning and tolerancing, intersections, and developments. Upon completion, students should be able to produce detailed working drawings.

DFT 112A Technical Drafting II Lab (0/3/1)
Prerequisites: DFT 111, DFT 111A
Corequisites: DFT 112
This course provides a laboratory setting to enhance advanced drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 112. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in DFT 112.

DFT 115 Architectural Drafting (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces basic drafting practices used in residential and light commercial design. Topics include floor plans, foundations, details, electrical components, elevations, and dimensioning practice. Upon completion, students should be able to complete a set of working drawings for a simple structure.

DFT 121 Intro to GD & T (1/2/2)
Prerequisites: DFT 111, DFT 111A
Corequisites: None
This course introduces basic geometric dimensioning and tolerancing principles. Topics include symbols, annotation, theory, and applications. Upon completion, students should be able to interpret and apply basic geometric dimensioning and tolerancing principles to drawings.

DFT 151 CAD I (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

DFT 152 CAD II (2/3/3)
Prerequisites: DFT 112, DFT 112A, and DFT 151
Corequisites: None
This course is a continuation of DFT 151. Topics include advanced two-dimensional, three-dimensional, and solid modeling and extended CAD applications. Upon completion, students should be able to generate and manage CAD drawings and models to produce engineering documents.

DFT 214 Descriptive Geometry (1/2/2)
Prerequisites: DFT 111, DFT 111A
Corequisites: None
This course includes a graphic analysis of space problems. Topics include points, lines, planes, connectors, and combinations of these. Upon completion, students should be able to solve real world spatial problems using descriptive geometry techniques.

DRAMA/THEATRE

DRA 111 Theatre Appreciation (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a study of the art, craft, and business of the theatre. Emphasis is placed on the audience's appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theatre terms and to recognize the contributions of various theatre artists. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

DRA 115 Theatre Criticism (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to develop a critical appreciation of the theatre from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theatre performance, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ELECTRONIC COMMERCE

ECM 168 Electronic Business (2/2/3)
Prerequisites: None
Corequisites: None
This course provides a survey of the world of electronic business. Topics include the definition of electronic business, current practices as they evolve using Internet strategy in business, and application of basic business principles to the world of e-commerce. Upon completion, students should be able to define electronic business and demonstrate an understanding of the benefits of e-commerce as a foundation for developing plans leading to electronic business implementation.

ECM 210 Intro to Electr Commerce (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, and site administration. Upon completion, students should be able to setup a working Electronic Commerce Internet web site. *This course is a unique concentration requirement of the E-Commerce concentration in the Business Administration program.*

ECM 220 E-Comm Plan. & Implem. (2/2/3)
Prerequisites: None
Corequisites: None
This course builds on currently accepted business practices to develop a business plan and implementation model for e-commerce. Topics include analysis and synthesis of the planning cycle, cost/benefit analysis, technical systems, marketing, security, financial support, Internet strategies, website design, customer support and feedback and assessment. Upon completion, students should be able to develop a plan for e-commerce in a small to medium size business.

ECM 230 Capstone Project (1/6/3)
Prerequisites: ECM 220
Corequisites: None
This course provides experience in Electronic Commerce. Emphasis is placed on the implementation of an e-commerce model for an existing business. Upon completion, students should be able to successfully develop and implement a plan for e-commerce in a small to medium size business.

ECONOMICS

ECO 151 Survey of Economics (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon

completion, students should be able to explain alternative solutions for economic problems faced by private and government sectors. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ECO 251 Prin of Microeconomics (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces economic analysis of individual, business, and industry choices in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ECO 252 Prin of Macroeconomics (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

EDUCATION

EDU 113 Family/Early Child Cred (2/0/2)
Prerequisites: None
Corequisites: None
This course covers business/professional practices for family early childhood providers, developmentally appropriate practices, positive guidance, and methods of providing a safe and healthy environment. Topics include developmentally appropriate practices; health, safety and nutrition; and business and professionalism. Upon completion, students should be able to develop a handbook of policies, procedures, and practices for a family child care home.

EDU 118 Teach Assoc Princ & Prac (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the teachers associate's role in the educational system. Topics include history of education, professional responsibilities and ethics, cultural diversity, communication skills, and identification of the optional learning environment. Upon completion, students should be able to describe the supporting professional role of the teacher associate, demonstrate positive communication, and discuss educational philosophy. *This course is a unique concentration requirement in the Teacher Associate concentration in the Early Childhood Associate program.*

EDU 119 Early Childhood Ed (4/0/4)
Prerequisites: None
Corequisites: None
This course covers the foundations of the education profession, types of programs, professionalism, and planning quality programs for children. Topics include historical foundations, career options, types of programs, professionalism, observational skills, and planning developmentally appropriate schedules, environments, and activities for children. Upon completion, students should be able to demonstrate observational skills, identify appropriate schedules and environments, develop activity plans, and describe influences on the profession.

EDU 131 Child, Family, & Comm (3/0/3)
Prerequisites: None
Corequisite: None
This course covers the relationships between the families, programs for children/schools, and the community. Emphasis is placed on establishing and maintaining positive collaborative relationships with families and community resources. Upon completion, students should be able to demonstrate strategies for effectively working with diverse families and identifying and utilizing community resources.

EDU 144 Child Development I (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the theories of child development and the developmental sequences of children from conception through the pre-school years for early childhood educators. Emphasis is placed on sequences in physical/motor, social, emotional, cognitive, and language development and appropriate experiences for the young child. Upon completion, students should be able to identify developmental milestones, plan experiences to enhance development, and describe appropriate interaction techniques and environments for typical/atypical development.

EDU 145 Child Development II (3/0/3)
Prerequisites: None
Corequisites: None
This course covers theories of child development and developmental sequences of children from pre-school through middle childhood for early childhood educators. Emphasis is placed on characteristics of physical/motor, social, emotional, and cognitive/language development and appropriate experiences for children. Upon completion, students should be able to identify developmental characteristics, plan experiences to enhance development, and describe appropriate interaction techniques and environments.

EDU 146 Child Guidance (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces practical principles and techniques for developmentally appropriate guidance. Emphasis is placed on encouraging self-esteem and cultural awareness, effective communication skills, and direct and indirect guidance techniques and strategies. Upon completion, students should be able to demonstrate strategies which encourage positive social interactions, promote conflict resolution, and develop self-control, self-motivation, and self-esteem in children.

EDU 147 Behavior Disorders (3/0/3)
Prerequisites: None
Corequisites: None
This course is a comprehensive study of behavior disorders encompassing characteristics, assessments, and placement alternatives. Topics include legislation, appropriate management interventions, and placement options for children with behavior disorders. Upon completion, students should be able to identify, develop, and utilize appropriate behavior management applications. *This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Education program.*

EDU 148 Learning Disabilities (4/2/5)
Prerequisites: None
Corequisites: None
This course is a comprehensive study of the characteristics, teaching strategies, assessment tools, and placement alternatives for children with learning disabilities. Topics include characteristics, causes, assessment instruments, learning strategies, and collaborative methods for children with learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with learning disabilities. *This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Education program.*

EDU 151 Creative Activities (3/0/3)
Prerequisites: None
Corequisites: None
This course covers creative learning environments, planning and implementing developmentally appropriate experiences, and developing appropriate teaching materials for the classroom. Emphasis is placed on creative activities for children in art, music, movement and physical skills, and dramatics. Upon completion, students should be able to select and evaluate developmentally appropriate learning materials and activities.

EDU 153 Health, Safety, & Nutrit (3/0/3)
Prerequisites: None
Corequisites: None
This course focuses on promoting and maintaining the health and well-being of children. Topics include health and nutritional needs, safe and healthy environments, and recognition and reporting of child abuse and neglect. Upon completion, students should be able to set up and monitor safe indoor and outdoor environments and implement a nutrition education program.

EDU 161 Intro to Exceptional Child (3/3/4)
Prerequisites: None
Corequisites: None
This course covers exceptional children as learners within the context of community, school, and family. Emphasis is placed on the legal, social, physical, political, and cultural issues relating to the analysis and teaching of exceptional children. Upon completion, students should be able to demonstrate knowledge of identification processes, mainstreaming techniques, and professional practices and attitudes.

EDU 185 Cognitive & Lang Act (3/0/3)
Prerequisites: None
Corequisites: None
This course covers methods of developing cognitive and language/communication skills in children. Emphasis is placed on planning the basic components of language and cognitive processes in developing curriculum activities. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate developmentally appropriate curriculum activities.

EDU 186 Reading & Writing Meth (3/0/3)
Prerequisites: None
Corequisites: None
This course covers concepts, resources, and methods for teaching reading and writing to school-age children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches, and instructional strategies. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate reading and writing experiences. *This course is a unique concentration requirement in the Teacher Associate concentration in the Early childhood Associate program.*

EDU 216 Foundations of Education (3/2/4)
(EDU 216 replaced EDU 116)
Prerequisites: None
Corequisites: None
This course introduces the American educational system and the teaching profession. Topics include historical and philosophical foundations of education, contemporary educational, structural, legal, and financial issues. PRAXIS I preparation and observation and participation in public school classrooms. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).*

EDU 221 Child with Except Needs (3/0/3)
Prerequisites: EDU 144 and EDU 145 or PSY 244 and PSY 245
Corequisites: None
This course introduces working with children with special needs. Emphasis is placed on the characteristics and assessment of children and strategies for adapting the home and classroom environment. Upon completion, students should be able to recognize atypical development, make appropriate referrals, and work collaboratively to plan, implement, and evaluate inclusion strategies.

EDU 234 Infants, Toddlers, & Twos (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the skills needed to effectively implement group care for infants, toddlers, and two-year olds. Emphasis is placed on child development and developmentally appropriate practices. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate a developmentally appropriate curriculum.

EDU 235 School-Age Dev & Prog (2/0/2)
Prerequisites: None
Corequisites: None
This course presents developmentally appropriate practices in group care for school-age children. Topics include principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for children five to twelve years of age and plan and implement age-appropriate activities.

EDU 247 Physical Disabilities (3/0/3)
Prerequisites: EDU 144 or PSY 244
Corequisites: None
This course covers characteristics, intervention strategies, adaptive procedures, and technologies for children with physical disabilities. Topics include intervention strategies, inclusive placement options, and utilization of support services for children with physical disabilities. Upon completion, students should be able to identify and utilize intervention strategies for specific disabilities and service delivery options for those disabilities. *This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Education program.*

EDU 248 Mental Retardation (2/2/3)
Prerequisites: EDU 221
Corequisites: None
This course covers the causes and assessment of mental retardation and individualized instruction and curriculum for children with mental retardation. Emphasis is placed on definition, characteristics, assessment, and educational strategies for children with mental retardation. Upon completion, students should be able to identify, assess, and plan educational intervention strategies for children with mental retardation. *This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Education program.*

EDU 250 PRAXIS I Preparation (1/0/1)
Prerequisites: None
Corequisites: None
This course is designed to prepare potential teachers for the PRAXIS I exam that is necessary to enter the field of education. Emphasis is placed on content specifications of the PRAXIS I exam, study skills and simulated examinations. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of the PRAXIS I exam.

EDU 252 Math & Sci Activities (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces discovery experiences in math and science. Topics include concepts, facts, phenomena, and skills in each area. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate developmentally appropriate curriculum materials.

EDU 257 Math Methods & Mater (2/2/3)
Prerequisites: None
Corequisites: None
This course covers concepts, activities, methods, and materials for teaching mathematics in elementary through middle school grades. Topics include individual instruction, developmental skill building, manipulatives, problem solving, critical thinking, and numerical concepts. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate math experiences.

EDU 259 Curriculum Planning (3/0/3)
Prerequisites: EDU 112, 119, or 113
Corequisites: None
This course covers early childhood curriculum planning. Topics include philosophy, curriculum, indoor and outdoor environmental design, scheduling, observation and assessment, and instructional planning and evaluation. Upon completion, students should be able to assess children and curriculum; plan for daily, weekly, and long-range instruction; and design environments with appropriate equipment and supplies.

EDU 261 Early Childhood Admin I (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the policies, procedures, and responsibilities for the management of early childhood education programs. Topics include implementation of goals, principles of supervision, budgeting and financial management, and meeting the standards for a NC Child Day Care license. Upon completion, students should be able to develop program goals, explain licensing standards, determine budgeting needs, and describe effective methods of personnel supervision.

EDU 262 Early Childhood Admin II (3/0/3)
Prerequisites: EDU 261
Corequisites: None
This course provides a foundation for budgetary, financial, and personnel management of the child care center. Topics include budgeting, financial management, marketing, hiring, supervision, and professional development of a child care center. Upon completion, students should be able to formulate marketing, financial management, and fund development plans and develop personnel policies, including supervision and staff development plans.

EDU 271 Educational Technology (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the use of technology to enhance teaching and learning in all educational settings. Topics include technology concepts, instructional strategies, materials and adaptive technology for children with exceptionalities, facilitation of assessment/evaluation, and ethical issues surrounding the use of technology. Upon completion, students should be able to apply technology enhanced instructional strategies, use a variety of technology resources and demonstrate appropriate technology skills in educational environment.

EDU 275 Effective Teacher Train (2/0/2)
Prerequisites: None
Corequisites: None
This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion, students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students' time-on-task.

EDU 280 Language & Literacy Exp (3/0/3)
Prerequisites: None
Corequisites: None
This course explores the continuum of children's communication development, including verbal and written language acquisition and other forms of communication. Topics include selection of literature and other media, the integration of literacy concepts throughout the classroom environment, inclusive practices and appropriate assessments. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate literacy experiences. *This course is also available through the Virtual Learning Community (VLC).*

EDU 285 Internship Exp-School Age (1/0/1)
Prerequisites: ENG 111
Corequisites: COE 121 or COE 122
This course provides an opportunity to discuss internship experiences with peers and faculty. Emphasis is placed on evaluating and integrating practicum experiences. Upon completion, students should be able to demonstrate competence in early childhood education. *This course is a unique concentration requirement in the Teacher Associate concentration in the Early Childhood Associate program.*

EDU 291 Sel Top: CDA Credentials (1/0/1)
Prerequisites: Enrollment in program
Corequisites: None
This course provides an opportunity to explore areas of current interest in the early childhood area. Emphasis is placed on subject matter appropriate to preparing a person to work with children from ages infant through kindergarten. Upon completion students should be able to demonstrate an understanding of the principles and applications involved with early childhood education. The Child Development Associate (CDA) candidate should be able to display competence in thirteen functional areas as defined by the Council for Early Childhood Professional Recognition, Washington, DC.

EDU 293 The Whole Child (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to promote understanding of the needs and developmental stages of children. Emphasis is on giving students, parents, teachers, and professional child care providers the tools they need to foster the growth and well-being of children in their care, particularly infants, toddlers, and pre-schoolers. Upon completion, students should be able to demonstrate proper child care techniques in light of current child development theory.

ELECTRICITY

ELC 112 DC/AC Electricity (3/6/5)
Prerequisites: None
Corequisites: ELC 113
This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, and analyze simple DC/AC circuits.

ELC 113 Basic Wiring I (2/6/4)
Prerequisites: None
Corequisites: ELC 112
This course introduces the care/usage of tools and materials used in electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical blueprint reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with basic electrical installations.

ELC 114 Basic Wiring II (2/6/4)
Prerequisites: ELC 113
Corequisites: None
This course provides additional instruction in the application of electrical tools, materials, and test equipment associated with electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with electrical installations.

ELC 115 Industrial Wiring (2/6/4)
Prerequisites: ELC 113
Corequisites: None
This course covers layout, planning, and installation of wiring systems in industrial facilities. Emphasis is placed on industrial wiring methods and materials. Upon completion, students should be able to install industrial systems and equipment.

ELC 117 Motors and Controls (2/6/4)
Prerequisites: ELC 111 or ELC 112 or ELC 131
Corequisites: None
This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

ELC 118 National Electrical Code (1/2/2)
Prerequisites: ELC 112 and ELC 113
Corequisites: None
This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.

ELC 121 Electrical Estimating (1/2/2)
Prerequisites: ELC 113
Corequisites: None
This course covers the principles involved in estimating electrical projects. Topics include take-offs of materials and equipment, labor, overhead, and profit. Upon completion, students should be able to estimate simple electrical projects.

ELC 125 Diagrams and Schematics (1/2/2)
Prerequisites: None
Corequisites: None
This course covers the interpretation of electrical diagrams, schematics, and drawings common to electrical applications. Emphasis is placed on reading and interpreting electrical diagrams and schematics. Upon completion, students should be able to read and interpret electrical diagrams and schematics.

ELC 127 Software for Technicians (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces computer software which can be used to solve electrical/electronics problems. Topics include electrical/electronics calculations, applications, and controls. Upon completion, students should be able to utilize a personal computer for electrical/electronics-related applications.

ELC 128 Intro to PLC (2/3/3)
Prerequisites: ELC 112 and ELC 117 or ELC 131
Corequisites: None
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to install PLCs and create simple programs.

ELC 131 DC/AC Circuit Analysis (4/3/5)
Prerequisites: None
Corequisites: MAT 121
This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation software, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

ELC 133 Adv Circuit Analysis (2/3/3)
Prerequisite: ELC 131
Corequisite: None
This course covers additional concepts of DC/AC electricity, the use of test equipment, and measurement techniques for electrical/electronics majors. Topics include the application of network theorems such as delta/wye transformations, Superposition Theorem, and other advanced circuit analysis principles. Upon completion, students should be able to construct and analyze DC/AC circuits, use advanced circuit analysis theorems, circuit simulators, and test equipment.

ELC 215 Electrical Maintenance (2/3/3)
Prerequisites: ELC 117
Corequisites: None
This course introduces the theory of maintenance and the skills necessary to maintain electrical equipment found in industrial and commercial facilities. Topics include maintenance theory, predictive and preventive maintenance, electrical equipment operation and maintenance, and maintenance documentation. Upon completion, students should be able to perform maintenance on electrical equipment in industrial and commercial facilities.

ELC 228 PLC Applications (2/6/4)
Prerequisites: ELC 128
Corequisites: None
This course continues the study of the programming and applications of programmable logic controllers. Emphasis is placed on advanced programming, networking, advanced I/O modules, reading and interpreting error codes, and troubleshooting. Upon completion, students should be able to program and troubleshoot programmable logic controllers.

ELC 229 Applications Project (1/3/2)
Prerequisites: ELC 112, ELC 113, or ELC 140
Corequisites: None
This course provides an individual and/or integrated team approach to a practical project as approved by the instructor. Topics include project selection and planning, implementation and testing, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented project.

ELECTRONICS

ELN 131 Electronic Devices (3/3/4)
Prerequisites: None
Corequisites: ELC 112 or ELC 131 or ELC 140
This course includes semiconductor-based devices such as diodes, bipolar transistors, FETs, thermistors, and related components . Emphasis is placed on analysis, selection, biasing, and applications in power supplies, small signal amplifiers, and switching and control circuits. Upon completion, students should be able to construct, analyze, verify, and troubleshoot discrete component circuits using appropriate techniques and test equipment.

ELN 132 Linear IC Applications (3/3/4)
Prerequisites: ELN 131 or BMT 113
Corequisites: None
This course introduces the characteristics and applications of linear integrated circuits. Topics include op-amp circuits, differential amplifiers, instrumentation amplifiers, waveform generators, active filters, PLLs, and IC voltage regulators. Upon completion, students should be able to construct, analyze, verify, and troubleshoot linear integrated circuits using appropriate techniques and test equipment.

ELN 133 Digital Electronics (3/3/4)
Prerequisites: None
Corequisites: None
This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, MSI and LSI circuits, AD/DA conversion, and other re-

lated topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment.

ELN 152 Fabrication Techniques (1/3/2)
Prerequisites: None
Corequisites: None
This course covers the fabrication methods required to create a prototype product from the initial circuit design. Topics include CAD, layout, sheet metal working, component selection, wire wrapping, PC board layout and construction, reverse engineering, soldering, and other related topics. Upon completion, students should be able to design and construct an electronic product with all its associated documentation.

ELN 231 Industrial Controls (2/3/3)
Prerequisite: ELC 112 or ELC 131 or ELC 140
Corequisite: None
This course introduces the fundamental concepts of solid-state control of rotating machinery and associated peripheral devices. Topics include rotating machine theory, ladder logic, electromechanical and solid state relays, motor controls, pilot devices, three-phase power systems, and other related topics. Upon completion, students should be able to interpret ladder diagrams and demonstrate an understanding of electromechanical and electronic control of rotating machinery.

ELN 232 Intro to Microprocessors (3/3/4)
Prerequisites: ELN 133
Corequisites: None
This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include assembly language programming, bus architecture, bus cycle types, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.

ELN 233 Microprocessor Systems (3/3/4)
Prerequisites: ELN 232
Corequisites: None
This course covers the application and design of microprocessor control systems. Topics include control and interfacing of systems using AD/DA, serial/parallel I/O, communication protocols, and other related applications. Upon completion, students should be able to design, construct, program, verify, analyze, and troubleshoot fundamental microprocessor interface and control circuits using related equipment.

ELN 234 Communication Syst. (3/3/4)
Prerequisites: ELN 132 or ELN 140
Corequisites: None
This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test equipment.

ELN 235 Data Commun Syst (3/3/4)
Prerequisites: ELN 133
Corequisites: None
This course covers data communication systems and the transmission of digital information from source to destination. Topics include data transmission systems, serial interfaces and modems, protocols, networks, and other related topics. Upon completion, students should be able to demonstrate knowledge of the concepts associated with data communication systems.

ELN 237 Local Area Networks (2/3/3)
Prerequisites: CIS 110 or 111
Corequisites: None
This course introduces the fundamentals of local area networks and their operation in business and computer environments. Topics include the characteristics of network topologies, system hardware (repeaters, bridges, routers, gateways), system configuration, and installation and administration of the LAN. Upon completion, students should be able to install, maintain, and manage a local area network. *This course meets certification standards for an elective on the Microsoft track.*

ELN 238 Advanced LANs (2/3/3)
Prerequisites: ELN 237
Corequisites: None
This course covers advanced concepts, tools, and techniques associated with servers, workstations, and overall local area network performance. Topics include network security and configuration, system performance and optimization, communication protocols and packet formats, troubleshooting techniques, multi-platform integration, and other related topics. Upon completion, students should be able to use advanced techniques to install, manage, and troubleshoot networks and optimize server and workstation performance.

ELN 244 Computer Repair (3/6/5)
Prerequisites: ELN 133 or ELN 141
Corequisites: None
This course covers the assembly, upgrading, and repair of microcomputers. Topics include logic test equipment, computer motherboards, storage devices, I/O devices, power supplies, and other peripherals. Upon completion, students should be able to assemble, upgrade, maintain, troubleshoot, and repair microcomputers.

ELN 245 Computer Peripherals (3/6/5)
Prerequisites: ELN 123 or ELN 232
Corequisites: None
This course covers the assembly, upgrading, and repair of microcomputer peripherals. Topics include printers, monitors, and modems. Upon completion, students should be able to assemble, upgrade, maintain, troubleshoot, and repair microcomputer peripherals.

ELN 246 Cert Elect Tech Prep (3/0/3)
Prerequisites: None
Corequisites: None
This course covers electronic principles, theories, and concepts. Emphasis is placed on those items covered in the Certified Electronic Technician examination. Upon completion, students should be able to demonstrate competence in electronics and be prepared for the Certified Electronic Technician examination.

ELN 260 Prog Logic Controllers (3/3/4)
Prerequisite: None
Corequisite: None
This course provides a detailed study of PLC applications, with a focus on design of industrial control circuits using the PLC. Topics include PLC components, memory organization, math instructions, programing documentation, input/output devices, and applying PLC's in the design of industrial control systems. Upon completion, students should be able to design and program a PLC system to perform a wide variety of industrial control functions.

ELN 275 Troubleshooting (1/2/2)
Prerequisites: None
Corequisites: ELN 133 or ELN 141
This course covers techniques of analyzing and repairing failures in electronic equipment. Topics include safety, signal tracing, use of service manuals, and specific troubleshooting methods for analog, digital, and other electronics-based circuits and systems. Upon completion, students should be able to logically diagnose and isolate faults and perform necessary repairs to meet manufacturers' specifications.

ENGLISH

ENG 060 Speaking English Well (2/0/2)
Prerequisite: None
Corequisite: None
This course is designed to improve conversational skills. Emphasis is placed on practice using fluent standard spoken English. Upon completion, students should be able to converse comfortably in a variety of situations.

ENG 070 Basic Language Skills (2/2/3)
Prerequisite: None
Corequisite: None
This course introduced the fundamentals of standard written English. Emphasis is placed on effective word choice, recognition of sentences and sentence parts, and basic usage. Upon completion, students should be able to generate a variety of sentence types that clearly express ideas.

ENG 080 Writing Foundations (3/2/4)
Prerequisites: ENG 070 or ENG 075
Corequisites: None
This course introduces the writing process and stresses effective sentences. Emphasis is placed on applying the conventions of written English, reflecting standard usage and mechanics in structuring a variety of sentences. Upon completion, students should be able to write correct sentences and a unified, coherent paragraph. *This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.*

ENG 090 Composition Strategies (3/0/3)
Prerequisites: ENG 080 or ENG 085
Corequisites: None
This course provides practice in the writing process and stresses effective paragraphs. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay. *This course satisfies the developmental reading and writing prerequisite for ENG 111 and ENG 111A.*

ENG 090A Comp Strategies Lab (0/2/1)
Prerequisites: ENG 080 or ENG 085
Corequisites: ENG 090
This writing lab is designed to practice the skills introduced in ENG 090. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay.

ENG 101 Applied Communications I (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. *This is a diploma-level course.*

ENG 102 App Communications II (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to enhance writing and speaking skills for the workplace. Emphasis is placed on generating short writings such as job application documents, memoranda, and reports and developing interpersonal communication skills with employees and the public. Upon completion, students should be able to prepare effective, short, and job-related written and oral communications. *This is a diploma-level course.*

ENG 111 Expository Writing (3/0/3)
Prerequisites: ENG 090 and RED 090; or ENG 095
Corequisites: None
This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 111A Expository Writing Lab (0/2/1)
Prerequisites: ENG 090 and RED 090; or ENG 095
Corequisites: ENG 111
This writing laboratory is designed to apply the skills introduced in ENG 111. Emphasis is placed on the editing and revision components of the writing process. Upon completion, students should be able to apply those skills in the production of final drafts in ENG 111.

ENG 112 Argument-Based Res. (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course, the second in a series of two, introduces research techniques, documentation styles, and argumentative strategies. Emphasis is placed on analyzing data and incorporating research findings into documented argumentative essays and research projects. Upon completion, students should be able to summarize, paraphrase, interpret, and synthesize information from primary and secondary sources using standard research format and style. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 113 Literature-Based Research (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 114 Prof Research & Report (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 115 Oral Communication (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the basic principles of oral communication in both small group and public settings. Emphasis is placed on the components of the communication process, group decision-making, and public address. Upon completion, students should be able to demonstrate the principles of effective oral communication in small group and public settings.

ENG 125 Creative Writing I (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others.

ENG 126 Creative Writing II (3/0/3)
Prerequisites: ENG 125
Corequisites: None
This course is designed as a workshop approach for advancing imaginative and literary skills.

Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication.

ENG 131 Introduction to Literature (3/0/3)
Prerequisites: ENG 111
Corequisites: ENG 112, ENG 113, or ENG 114
This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 132 Introduction to Drama (3/0/3)
Prerequisites: ENG 111
Corequisites: ENG 112 or ENG 113 or ENG 114
This course provides intensive study of drama as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of drama. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of drama. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ENG 231 American Literature I (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 232 American Literature II (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 233 Major American Writers (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 241 British Literature I (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 242 British Literature II (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 243 Major British Writers (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 253 The Bible as Literature (3/0/3)
Prerequisites: ENG 112, 113 or 114
Corequisites: None
This course introduces the Hebrew Old Testament and the Christian New Testament as works of literary art. Emphasis is placed on the Bible's literary aspects including history, composition, structure, and cultural contexts. Upon completion, students should be able to identify and analyze selected books and passages using appropriate literary conventions. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ENG 261 World Literature I (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 262 World Literature II (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

GEOLOGY

GEL 120 Physical Geology (3/2/4)
Prerequisites: None
Corequisites: None
This course provides a study of the structure and composition of the earth's crust. Emphasis is placed on weathering, erosional and depositional processes, mountain building forces, rocks and minerals, and structural changes. Upon completion, students should be able to explain the structure, composition, and formation of the earth's crust. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

GRAPHIC ARTS

GRA 151 Computer Graphics I (1/3/2)
Prerequisites: CIS 110 and GRD 141 or ART 121
Corequisites: None
This course introduces the use of hardware and software for production and design in graphic arts. Topics include graphical user interface and current industry uses such as design, layout, typography, illustration, and imaging for production. Upon completion, students should be able to understand and use the computer as a fundamental design and production tool.

GRA 152 Computer Graphics II (1/3/2)
Prerequisites: GRA 151
Corequisites: None
This course covers advanced design and layout concepts utilizing illustration, page layout, and imaging software in graphic arts. Emphasis is placed on enhancing and developing the skills that were introduced in GRA 151. Upon completion, students should be able to select and utilize appropriate software for design and layout solutions.

GRA 153 Computer Graphics III (1/3/2)
Prerequisites: GRA 152
Corequisites: None
This course is a continuation of GRA 152. Emphasis is placed on advanced computer graphics hardware and software applications. Upon completion, students should be able to demonstrate competence in selection and utilization of appropriate software for specialized applications.

GRA 154 Computer Graphics IV (1/3/2)
Prerequisites: GRA 153
Corequisites: None
This course is a continuation of GRA 153. Emphasis is placed on advanced techniques using a variety of hardware and software applications to produce complex projects. Upon completion, students should be able to use electronic document production tools.

GRA 163 Comp Graphics Apps III (0/3/1)
Prerequisites: None
Corequisites: GRA 153
This course is designed to provide additional hands-on training using computer software and hardware for production and design in graphic arts. Emphasis is placed on utilizing various computer software and hardware to produce advanced graphic arts projects. Upon completion, students should be able to effectively use the computer as a graphic arts production tool.

GRAPHIC DESIGN

GRD 110 Typography I (2/2/3)
Prerequisites: None
Corequisites: GRD 141, CIS 110
This course introduces the history and mechanics of type and its application to layout and design. Topics include typographic fundamentals, anatomy, measurements, composition, identification, and terminology. Upon completion, students should be able to demonstrate proficiency in design application, analysis, specification, and creation of typographic elements.

GRD 121 Drawing Fundamentals I (1/3/2)
Prerequisites: None
Corequisites: None
This course increases observation skills using basic drawing techniques and media in graphic design. Emphasis is placed on developing the use of graphic design principles, media applications, spatial considerations, drawing styles, and approaches. Upon completion, students should be able to show competence and proficiency in finished works.

GRD 131 Illustration I (1/3/2)
Prerequisites: ART 131 or DES 125 or GRD 121
Corequisites: None
This course introduces the application of rendering techniques to create illustrations. Emphasis is placed on controlling various media, methods, surfaces, design problems, and the appropriate media selection process. Upon completion, students should be able to produce quality illustrations from conception through finished artwork.

GRD 141 Graphic Design I (2/4/4)
Prerequisites: Portfolio Review
Corequisites: CIS 110, GRD 110
This course introduces the conceptualization process used in visual problem solving. Emphasis is placed on learning the principles of design and on the manipulation and organization of elements. Upon completion, students should be able to apply design principles and visual elements to projects.

GRD 142 Graphic Design II (2/4/4)
Prerequisites: DES 135 or GRD 141 ART 121
Corequisites: None
This course covers the application of visual elements and design principles in advertising and graphic design. Topics include creation of various designs, such as logos, advertisements, posters, outdoor advertising, and publication design. Upon completion, students should be able to effectively apply design principles and visual elements to projects.

GRD 151 Computer Design Basics (1/4/3)
Prerequisites: None
Corequisites: None
This course covers designing and drawing with various types of software applications for advertising and graphic design. Emphasis is placed on creative and imaginative use of space, shapes, value, texture, color, and typography to provide effective solutions to advertising and graphic design problems. Upon completion, students should be able to use the computer as a creative tool.

GRD 241 Graphic Design III (2/4/4)
Prerequisites: DES 136 or GRD 142
Corequisites: None
This course is an advanced exploration of various techniques and media for advertising and grphic design. Emphasis is placed on advanced concepts and solutions to complex and challenging graphic design problems. Upon completion, students should be able to demonstrate competence and professionalism in visual problem solving.

GRD 242 Graphic Design IV (2/4/4)
Prerequisites: GRD 241
Corequisites: None
This course is a continuation of GRD 241. Emphasis is placed on using advanced media techniques, concepts, strategies, and professionalism in all aspects of design. Upon completion, students should be able to conceptualize, create, and produce designs for reproduction.

GRD 280 Portfolio Design (2/4/4)
Prerequisites: GRD 242
Corequisites: None
This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a resume and self-promotional materials, and interview techniques. Upon completion, students should be able to prepare and professionally present an effective portfolio and related self-promotional materials.

HEALTH

HEA 110 Personal Health/Wellness (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness.

HEA 112 First Aid & CPR (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the basics of emergency first aid treatment. Topics include rescue breathing, CPR, first aid for choking and bleeding, and other first aid procedures. Upon completion, students should be able to demonstrate skills in providing emergency care for the sick and injured until medical help can be obtained.

HEA 120 Community Health (3/0/3)
Prerequisites: None
Corequisites: None
This course provides information about contemporary community health and school hygiene issues. Topics include health education and current information about health trends. Upon completion, students should be able to recognize and devise strategies to prevent today's community health problems.

HISTORY

HIS 121 Western Civilization I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces western civilization from pre-history to the early modern era. Topics include ancient Greece, Rome, and Christian institutions of the Middle Ages and the emergence of national monarchies in western Europe. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early western civilization. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

HIS 122 Western Civilization II (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces western civilization from the early modern era to the present. Topics include the religious wars, the Industrial Revolution, World Wars I and II, and the Cold War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern western civilization. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

HIS 131 American History I (3/0/3)
Prerequisites: None
Corequisites: None
This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

HIS 132 American History II (3/0/3)
Prerequisites: None
Corequisites: None
This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

HIS 163 The World Since 1945 (3/0/3)
Prerequisites: None
Corequisites: None
This course surveys world developments since the end of World War II. Topics include the Cold War, nationalism, colonialism, the Third World, the arms race, and global capitalism and regionalism. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the world since 1945.

HIS 221 African-American History (3/0/3)
Prerequisites: None
Corequisites: None
This course covers African-American history from the Colonial period to the present. Topics include African origins, the slave trade, the Civil War, Reconstruction, the Jim Crow era, the civil rights movement, and contributions of African Americans. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the history of African Americans.

HIS 226 The Civil War (3/0/3)
Prerequisites: None
Corequisites: None
This course examines the social, political, economic, and ideological forces that led to the Civil War and Reconstruction. Topics include regional conflicts and sectionalism, dissolution of the Union, military campaigns, and the War's socioeconomic impact, aftermath, and consequences. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the United States during the era of the Civil War. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HIS 232 History of the Old West (3/0/3)
Prerequisites: None
Corequisites: None
This course surveys the development of the western United States. Emphasis is placed on Native American cultures, Manifest Destiny, conflicts on the frontier, and subsequent developments. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the western United States. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HIS 236 North Carolina History (3/0/3)
Prerequisites: None
Corequisites: None
This course is a study of geographical, political, economic, and social conditions existing in North Carolina from America's discovery to the present. Topics include native and immigrant backgrounds; colonial, antebellum, and reconstruction periods; party politics; race relations; and the transition from an agrarian to an industrial economy. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in North Carolina. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HORTICULTURE

HOR 112 Landscape Design I (2/3/3)
Prerequisites: None
Corequisites: None
This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis, and common elements of good design, plant material selection, and proper plant utilization. Upon completion, students should be able to read, plan, and draft a landscape design.

HOR 124 Nursery Operations (2/3/3)
Prerequisites: None
Corequisites: None
This course covers nursery site and crop selection, cultural practices, and production and marketing methods. Topics include site considerations, water availability, equipment, irrigation, fertilization, containers, media, and pest control. Upon completion, students should be able to design and implement a nursery operation and grow and harvest nursery crops.

HOR 138 Greenhouse Veg Prod (1/2/2)
Prerequisites: None
Corequisites: None
This course covers the production of greenhouse vegetable crops. Emphasis is placed on controlling the greenhouse environment, production principles, insect and disease control, and harvesting and marketing the crops. Upon completion, students should be able to produce and market a greenhouse vegetable crop.

HOR 160 Plant Materials I (2/2/3)
Prerequisites: None
Corequisites: None
This course covers identification, culture, characteristics, and use of plants. Emphasis is placed on nomenclature, identification, growth requirements, cultural requirements, soil preferences, and landscape applications. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials

HOR 162 Applied Plant Science (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the basic concepts of botany as they apply to horticulture. Topics include nomenclature, physiology, morphology, and anatomy as they apply to plant culture. Upon completion, students should be able to apply the basic principles of botany to horticulture.

HOR 164 Hort Pest Management (2/2/3)
Prerequisites: None
Corequisites: None
This course covers the identification and control of plant pests including insects, diseases, and weeds. Topics include pest identification and chemical regulations, safety, and pesticide application. Upon completion, students should be able to meet the requirements for North Carolina Commercial Pesticide Ground Applicators license.

HOR 166 Soils & Fertilizers (2/2/3)
Prerequisites: None
Corequisites: None
This course covers the physical and chemical properties of soils and soil fertility and management. Topics include soil formation, classification, physical and chemical properties, testing, fertilizer application, and other amendments. Upon completion, students should be able to analyze, evaluate, and properly amend soils/media.

HOR 168 Plant Propagation (2/2/3)
Prerequisites: None
Corequisites: None
This course is a study of sexual and asexual reproduction of plants. Emphasis is placed on seed propagation, grafting, stem and root propagation, micro-propagation, and other propagation techniques. Upon completion, students should be able to successfully propagate ornamental plants.

HUMANITIES

HUM 110 Technology and Society (3/0/3)
Prerequisites: None
Corequisites: None
This course considers technological change from historical, artistic, and philosophical perspectives and its effect on human needs and concerns. Emphasis is placed on the causes and consequences of technological change. Upon completion, students should be able to critically evaluate the implications of technology. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 115 Critical Thinking (3/0/3)
Prerequisites: ENG 095 or RED 090 and ENG 090
Corequisites: None
This course introduces the use of critical thinking skills in the context of human conflict. Emphasis is placed on evaluating information, problem solving, approaching cross-cultural perspectives, and resolving controversies and dilemmas. Upon completion, students should be able to demonstrate orally and in writing the use of critical thinking skills in the analysis of appropriate texts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course may meet the SACS humanities requirement for AAS degree programs. This course is also available through the Virtual Learning Community (VLC).*

HUM 120 Cultural Studies (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the distinctive features of a particular culture. Topics include art, history, music, literature, politics, philosophy, and religion. Upon completion, students should be able to appreciate the unique character of the study culture. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 121 The Nature of America (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an interdisciplinary survey of the American cultural, social, and political experience. Emphasis is placed on the multicultural character of American society, distinctive qualities of various regions, and the American political system. Upon completion, students should be able to analyze significant cultural, social, and political aspects of American life. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 122 Southern Culture (3/0/3)
Prerequisites: None
Corequisites: None
This course explores the major qualities that make the South a distinct region. Topics include music, politics, literature, art, religion, race relations, and the role of social class in historical and contemporary contexts. Upon completion, students should be able to identify the characteristics that distinguish Southern culture. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities fine arts.*

HUM 123 Appalachian Culture (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an interdisciplinary study of the unique features of Appalachian culture. Topics include historical, political, sociological, psychological, and artistic features which distinguish this region. Upon completion, students should be able to demonstrate a broad-based awareness and appreciation of Appalachian culture. *This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.*

HUM 130 Myth in Human Culture (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an in-depth study of myths and legends. Topics include the varied sources of myths and their influence on the individual and society within diverse cultural contexts. Upon completion, students should be able to demonstrate a general familiarity with myths and a broad-based understanding of the influence of myths and legends on modern culture. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 160 Introduction to Film (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the fundamental elements of film artistry and production. Topics include film styles, history, and production techniques, as well as the social values reflected in film art. Upon completion, students should be able to critically analyze the elements covered in relation to selected films. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 220 Human Values and Mean (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 230 Leadership Development (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations.

HYDRAULICS

HYD 110 Hydraulic Pneumatics I (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the basic components and functions of hydraulic and pneumatic systems. Topics include standard symbols, pumps, control valves, control assemblies, actuators, FRL, maintenance procedures, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting.

INDUSTRIAL SCIENCE

ISC 112 Industrial Safety (2/0/2)
Prerequisites: None
Corequisites: None
This course introduces the principles of industrial safety. Emphasis is placed on industrial safety and OSHA and environmental regulations. Upon completion, students should be able to demonstrate knowledge of a safe working environment.

ISC 121 Envir Health & Safety (3/0/3)
Prerequisites: None
Corequisites: None
This course covers workplace environmental, health, and safety issues. Emphasis is placed on managing the implementation and enforcement of environmental health and safety regulations and on preventing accidents, injuries, and illnesses. Upon completion, students should be able to demonstrate an understanding of basic concepts of environmental, health, and safety issues.

ISC 131 Quality Management (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a study and analysis of the aspects and implications of quality management that lead to customer satisfaction through continuous quality improvement. Topics include Total Quality Management, ISO 9000, organizing for quality, supplier/vendor relationships, and the role of leadership in quality management. Upon completion, students should be able to demonstrate an understanding of quality management concepts and techniques.

ISC 135 Prin. of Industrial Mgmt (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the managerial principles and practices required for organizations to succeed in modern industry. Topics include the functions and roles of all levels of management, organization design, and planning and control of manufacturing operations. Upon completion, students should be able to demonstrate an understanding of management principles and integrate these principles into job situations.

ISC 210 Oper & Prod Planning (3/0/3)
Prerequisites: Completion of curriculum mathematics requirement
Corequisites: None
This course includes the fundamentals of operations and production planning, forecasting, and scheduling. Topics include demand management, production planning and control, scheduling, and budgeting. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques involved in operations and production planning. *This course is a unique concentration requirement of the Operations Management concentration in the Business Administration program.*

INFORMATION SYSTEMS SECURITY

SEC 110 Security Concepts (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

INTERNET TECHNOLOGIES

ITN 120 Intro. Internet Multimedia (2/2/3)
Prerequisites: None
Corequisites: None
This is the first of two courses covering the creation of Internet Multimedia. Topics include Internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create Internet multimedia presentations utilizing a variety of methods and applications.

ITN 130 Web Site Management (2/2/3)
Prerequisites: None
Corequisites: None
This course covers the issues involved in web site architecture. Topics include operating system directory structures, web site structural design, web site navigation, web site maintenance, backup and security. Upon completion, students should be able to design a web site directory plan optimized for navigation and ease of maintenance.

ITN 160 Principles of Web Design (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces intermediate to advanced web page design techniques. Topics include effective use of graphics, fonts, colors, navigation tools, advanced markup language elements, as well as a study of bad design techniques. Upon completion, the student should be able to employ advanced design techniques to create high impact and highly functional web pages.

ITN 210 Advanced Web Graphics (2/2/3)
Prerequisites: ITN 110
Corequisites: None
This course is the second of two courses covering web graphics. Topics include graphics acquisition using scanners and digital cameras, graphics optimization, use of masks, advanced special effects, GIF animation, and other related topics. Upon completion, students should be able to create graphics that are optimized for size and graphic file type, properly converted from digitized sources and create useful animated graphics.

ITN 240 Internet Security (2/2/3)
Prerequisites: None
Corequisites: None
This course covers security issues related to Internet services. Topics include the operating system and Internet service security mechanisms. Upon completion, students should be able to implement security procedures for operating system level and server level alerts.

ITN 260 Intro to E-Commerce (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, security transactions, used and verification of credit cards, publishing of catalogs, and site administration. Upon completion, students should be able to set up a working e-commerce Internet web-site.

ITN 289 Internet Technologies Project (1/4/3)
Prerequisites: None
Corequisites: None
This course provides an opportunity to complete a significant Internet technologies project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete an Internet project from the definition phase through implementation. *This course is the capstone course required to successfully complete the two-year Internet Technologies Degree.*

JOURNALISM

JOU 110 Intro to Journalism (3/0/3)
Prerequisites: None
Corequisites: None
This course presents a study of journalistic news, feature, and sports writing. Emphasis is placed on basic news writing techniques and on related legal and ethical issues. Upon completion, students should be able to gather, write, and edit news, feature, and sports articles.

LEGAL EDUCATION

LEX 110 Intro Paralegal Study (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the paralegal profession and the legal system and an emphasis is placed on the role of professional and legal ethics. Topics include regulation, ethics, case analysis, legal reasoning, career opportunities, professional organizations, terminology and other related topics. Upon completion, the student should be able to understand the role of a paralegal and identify the skills, knowledge and ethics required or paralegals.

LEX 120 Legal Research/Writing I (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the techniques of legal research and writing. Emphasis is placed on locating, analyzing, applying, and updating sources of law; effective legal writing, including proper citation; and the use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course.

LEX 121 Legal Research/Writing II (2/2/3)
Prerequisites: LEX 120
Corequisites: None
This course covers advanced topics in legal research and writing. Topics include more complex legal issues and assignments involving preparation of legal memos, briefs, and other documents and the advanced use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course.

LEX 130 Civil Injuries (3/0/3)
Prerequisites: None
Corequisites: None
This course covers traditional tort concepts and the evolving body of individual rights created by statute. Topics include intentional and non-intentional torts with emphasis on negligence, strict liability, civil rights, workplace and environmental liability, remedies, and damages. Upon completion, students should be able to recognize, explain, and evaluate elements of civil injuries and related defenses.

LEX 140 Civil Litigation I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the structure of the legal system and the rules governing civil litigation. Topics include jurisdiction state and federal rules of civil procedure and evidence. Upon completion, students should be able to assist an attorney in pre-litigation matters and preparation of pleadings and motions.

LEX 141 Civil Litigation II (2/2/3)
Prerequisites: LEX 140
Corequisites: None
This course covers the paralegal's role in the civil litigation process. Topics include investigation, interviewing, pleadings, motions, discovery, and trial and appellate procedures. Upon completion, students should be able to assist an attorney in preparing, directing, and organizing documents for civil litigation.

LEX 150 Commercial Law (2/2/3)
Prerequisites: None
Corequisites: None
This course covers legally enforceable agreements, forms of organization, and selected portions of the Uniform Commercial Code. Topics include drafting and enforcement of contracts, leases, and related documents and selection and implementation of business organization forms, sales, and commercial papers. Upon completion, students should be able to apply the elements of a contract, prepare various business documents, and understand the role of commercial paper.

LEX 160 Criminal Law & Procedure (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces substantive criminal law and procedural rights of the accused. Topics include elements of state/federal crimes, defenses, constitutional issues, pre-trial and trial process, and other related topics. Upon completion, students should be able to explain elements of specific crimes and assist an attorney in preparing a criminal case.

LEX 192 Sel. Topics: Law Office (1/2/2)
Prerequisite: OST 131
Corequisite: None
This course provides an opportunity to explore areas of current interest in the paralegal program. Emphasis is placed on subject matter appropriate to legal studies. Upon completion, students

should be able to demonstrate an understanding of filing, telephone usage and general office procedures.

LEX 210 Real Property I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the study of real property law. Topics include the distinction between real and personal property, various estates, mechanics of conveyance and encumbrance, recordation, special proceedings, and other related topics. Upon completion, students should be able to identify estates, forms of deeds, requirements for recording, and procedures to enforce rights to real property.

LEX 211 Real Property II (1/4/3)
Prerequisites: LEX 210
Corequisites: None
This course continues the study of real property law relating to title examination and preparation of closing documents. Topics include use of courthouse and other public records in title examination and preparation of documents required in real estate transactions and closings. Upon completion, students should be able to plot/draft a description, perform complete title examination, draft closing documents including title insurance forms, and prepare disbursement reconciliation.

LEX 240 Family Law (3/0/3)
Prerequisites: None
Corequisites: None
This course covers laws governing domestic relations. Topics include marriage, separation, divorce, child custody, support, property division, adoption, domestic violence, and other related topics. Upon completion, students should be able to interview clients, gather information, and draft documents related to family law.

LEX 250 Wills, Estates, & Trusts (2/2/3)
Prerequisites: None
Corequisites: None
This course covers various types of wills, trusts, probate, estate administration, and intestacy. Topics include types of wills and execution requirements, caveats and dissents, intestate succession, inventories and accountings, distribution and settlement, and other related topics. Upon completion, students should be able to draft simple wills, prepare estate forms, understand administration of estates including taxation, and explain terms regarding trusts.

LEX 260 Bankruptcy & Collections (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an overview of the laws of bankruptcy and the rights of creditors and debtors. Topics include bankruptcy procedures and estate management, attachment, claim and delivery, repossession, foreclosure, collection, garnishment, and post-judgment collection procedure. Upon completion, students should be able to prepare and file bankruptcy forms, collection letters, statutory liens, and collection of judgments.

LEX 270 Law Office Mgt/Tech (1/2/2)
Prerequisites: OST 136
Corequisites: None
This course provides an overview of law office management and organization. Topics include office forms, filing systems, billing/time keeping, computer systems, calendar systems, library administration, case management, office/personnel procedures, ethics, and technology. Upon completion, students should be able to establish and maintain various law office systems, monitor case progress, and supervise non-lawyer personnel.

LEX 287 CLA Review Seminar (2/0/2)
Prerequisites: LEX 210
Corequisites: None
This course is designed to prepare students for voluntary national certification sponsored by the National Association of Legal Assistants to demonstrate significant competencies in paralegalism. Topics include Communications, Ethics, Human Relations, Interviewing Techniques, Judgment and Analytical Analysis, Legal Research, Legal Terminology, General Law and nine tested specialty areas of law. Upon completion, students should be able to demonstrate that they are eligible to take the NALA's Certified Legal Assistant Exam.

MACHINING

MAC 111 Machining Technology I (2/12/6)
Prerequisites: None
Corequisites: None
This course introduces machining operations as they relate to the metalworking industry. Topics include machine shop safety, measuring tools, lathes, drilling machines, saws, milling machines, bench grinders, and layout instruments. Upon completion, students should be able to safely perform the basic operations of measuring, layout, drilling, sawing, turning, and milling.

MAC 112 Machining Technology II (2/12/6)
Prerequisites: MAC 111
Corequisites: None
This course provides additional instruction and practice in the use of precision measuring tools, lathes, milling machines, and grinders. Emphasis is placed on setup and operation of machine tools including the selection and use of work holding devices, speeds, feeds, cutting tools, and coolants. Upon completion, students should be able to perform basic procedures on precision grinders and advanced operations of measuring, layout, drilling, sawing, turning, and milling.

MAC 113 Machining Tech III (2/12/6)
Prerequisites: MAC 112
Corequisites: None
This course provides an introduction to advanced and special machining operations. Emphasis is placed on working to specified tolerances with special and advanced setups. Upon completion, students should be able to produce a part to specifications.

MAC 114 Intro to Metrology (2/0/2)
Prerequisites: None
Corequisites: None
This course introduces the care and use of precision measuring instruments. Emphasis is placed on the inspection of machine parts and use of a wide variety of measuring instruments. Upon completion, students should be able to demonstrate the correct use of measuring instruments.

MAC 121 Intro to CNC (2/0/2)
Prerequisites: None
Corequisites: None
This course introduces the concepts and capabilities of computer numerical control machine tools. Topics include setup, operation, and basic applications. Upon completion, students should be able to explain operator safety, machine protection, data input, program preparation, and program storage.

MAC 122 CNC Turning (1/3/2)
Prerequisite: None
Corequisite: None
This course introduced the programming setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC turning centers.

MAC 124 CNC Milling (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces the manual programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC machining centers.

MAC 151 Machining Calculations (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces basic calculations as they relate to machining occupations. Emphasis is placed on basic calculations and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.

MAC 152 Adv Machining Calc (1/2/2)
Prerequisites: None
Corequisites: None
This course combines mathematical functions with practical machine shop applications and problems. Emphasis is placed on gear ratios, lead screws, indexing problems, and their applications in the machine shop. Upon completion, students should be able to calculate solutions to machining problems

MAC 214 Machining Tech IV (2/12/6)
Prerequisites: MAC 112
Corequisites: None
This course provides advanced applications and practical experience in the manufacturing of complex parts. Emphasis is placed on inspection, gauging, and the utilization of machine tools. Upon completion, students should be able to manufacture complex assemblies to specifications.

MAC 215 Machining Technology V (2/12/6)
Prerequisites: MAC 214
Corequisites: None
This course provides an opportunity to apply skills acquired in previous course work. Emphasis is placed on the production of parts using modern machining and gauging techniques. Upon completion, students should be able to demonstrate problem-solving skills as they relate to advanced machining.

MASONRY

MAS 140 Intro to Masonry (1/2/2)
Prerequisites: None
Corequisites: CAR 113
This course introduces basic principles and practices of masonry. Topics include standard tools, materials, and practices used in basic masonry and other related topics. Upon completion, students should be able to demonstrate an understanding of masonry and be able to use basic masonry techniques.

MATHEMATICS

MAT 050 Basic Math Skills (3/2/4)
Prerequisite: None
Corequisite: None
This course is designed to strengthen basic math skills. Topics include properties, rounding, estimating, comparing, converting, and computing whole numbers, fractions, and decimals. Upon completion, students should be able to perform basic computations and solve relevant mathematical problems.

MAT 060 Essential Mathematics (3/2/4)
Prerequisites: MAT 050
Corequisites: None
This course is a comprehensive study of mathematical skills which should provide a strong mathematical foundation to pursue further study. Topics include principles and applications of decimals, fractions, percents, ratio and proportion, order of operations, geometry, measurement, and elements of algebra and statistics. Upon completion, students should be able to perform basic computations and solve relevant, multi-step mathematical problems using technology where appropriate.

MAT 070 Introductory Algebra (3/2/4)
Prerequisites: MAT 060
Corequisites: RED 080 or ENG 085
This course establishes a foundation in algebraic concepts and problem solving. Topics include signed numbers, exponents, order of operations, simplifying expressions, solving linear equations and inequalities, graphing, formulas, polynomials, factoring, and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.

MAT 080 Intermediate Algebra (3/2/4)
Prerequisites: MAT 070
Corequisites: RED 080 or ENG 085
This course continues the study of algebraic concepts with emphasis on applications. Topics include factoring; rational expressions; rational exponents; rational, radical, and quadratic equations; systems of equations; inequalities; graphing; functions; variations; complex numbers; and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.

MAT 090 Accelerated Algebra (3/2/4)
Prerequisites: MAT 060
Corequisites: RED 080 or ENG 085
This course covers algebraic concepts with emphasis on applications. Topics include those covered in MAT 070 and MAT 080. Upon completion, students should be able to apply algebraic concepts in problem solving using appropriate technology.

MAT 101 Applied Mathematics I (2/2/3)
Prerequisites: MAT 060
Corequisites: None
This course is a comprehensive review of arithmetic with basic algebra designed to meet the needs of certificate and diploma programs. Topics include arithmetic and geometric skills used in measurement, ratio and proportion, exponents and roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study. *This course is intended for certificate and diploma programs.*

MAT 102 Applied Mathematics II (2/2/3)
Prerequisites: MAT 101
Corequisites: None
This course introduces the concepts of right triangle trigonometry and geometry with emphasis on applications to problem solving. Topics include the basic definitions and properties of plane and solid geometry, area and volume, and right triangle trigonometry. Upon completion, students should be able to solve applied problems both independently and collaboratively. *This course is intended for certificate and diploma programs.*

MAT 110 Mathematical Measurement (2/2/3)
Prerequisites: MAT 070
Corequisites: None
This course provides an activity-based approach to utilizing, interpreting, and communicating data in a variety of measurement systems. Topics include accuracy, precision, conversion, and estimation within metric, apothecary, and avoirdupois systems; ratio and proportion; measures of central tendency and dispersion; and charting of data. Upon completion, students should be able to apply proper techniques to gathering, recording, manipulating, analyzing, and communicating data.

MAT 115 Mathematical Models (2/2/3)
Prerequisites: MAT 070
Corequisites: None
This course develops the ability to utilize mathematical skills and technology to solve problems at a level found in non-mathematics-intensive programs. Topics include applications to percent, ratio and proportion, formulas, statistics, functional notation, linear functions and their groups, probability, sampling techniques, scatter plots, and modeling. Upon completion, students should be able to solve practical problems, reason and communicate with mathemat-

ics, and work confidently, collaboratively, and independently.

MAT 121 Algebra/Trigonometry I (2/2/3)
Prerequisites: MAT 070
Corequisites: None
This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include simplification, evaluation, and solving of algebraic and radical functions; complex numbers; right angle trigonometry; systems of equations; and the use of technology. Upon completion, students should be able to demonstrate an understanding of the use of mathematics and technology to solve problems and analyze and communicate results.

MAT 122 Algebra/Trigonometry II (2/2/3)
Prerequisites: MAT 121
Corequisites: None
This course extends the concepts covered in MAT 121 to include additional topics in algebra, function analysis, trigonometry, and systems of equations. Topics include translation and scaling of functions, Sine Law, Cosine Law, complex numbers, vectors, statistics, and systems of equations. Upon completion, students should be able to demonstrate an understanding of the use of technology to solve problems and to analyze and communicate results.

MAT 140 Survey of Mathematics (3/0/3)
Prerequisites: MAT 080
Corequisites: None
This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry, topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 141 Mathematical Concepts I (3/0/3)
Prerequisites: MAT 080 or MAT 090
Corequisites: None
This course is the first of a two course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on sets, logic, number bases, elementary number theory, introductory algebra, measurement including metrics, and problem solving. Upon completion students should be able to communicate orally and in writing these basic mathematical concepts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 142 Mathematical Concepts II (3/0/3)
Prerequisites: MAT 141
Corequisites: None
This course is the second of a two course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on probability, statistics, functions, introductory geometry, and mathematics of finance. Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 145 Analytical Math (3/0/3)
Prerequisites: MAT 080
Corequisites: None
This course is designed to develop problem-solving and reasoning skills by the study of selected areas of mathematics. Topics include elementary and Boolean algebra, sets, logic, number theory, numeration systems, probability, statistics, and linear programming. Upon completion, students should be able to apply logic and other mathematical concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MAT 151 Statistics I (3/0/3)
Prerequisites: MAT 080 or MAT 090
Corequisites: None
This course provides a project-based approach to the study of basic probability, descriptive and inferential statistics, and decision making. Emphasis is placed on measures of central tendency and dispersion, correlation, regression, discrete and continuous probability distributions, quality control, population parameter estimation, and hypothesis testing. Upon completion, students should be able to describe important characteristics of a set of data and draw inferences about a population from sample data. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 151A Statistics I Lab (0/2/1)
Prerequisites: MAT 080 or MAT 090
Corequisites: MAT 151
This course is a laboratory for MAT 151. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively.

MAT 161 College Algebra (3/0/3)
Prerequisites: MAT 080 or MAT 090
Corequisites: None
This course provides an integrated technological approach to algebraic topics used in problem solving. Emphasis is placed on equations and inequalities; polynomial, rational, exponential and logarithmic functions; and graphing and data analysis/modeling. Upon completion, students should be able to choose an appropriate model to fit a data set and use the model for analysis and prediction. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 162 College Trigonometry (3/0/3)
Prerequisites: MAT 161
Corequisites: None
This course provides an integrated technological approach to trigonometry and its applications. Topics include trigonometric ratios, right triangles, oblique triangles, trigonometric functions, graphing, vectors, and complex numbers. Upon completion, students should be able to apply the above principles of trigonometry to problem solving and communication. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 167 Discrete Mathematics (3/0/3)
Prerequisites: MAT 121 or MAT 161
Corequisites: None
This course is a study of discrete mathematics with emphasis on applications. Topics include number systems, combinations/permutations, mathematical logic/proofs, sets/counting, Boolean algebra, mathematical induction, trees/graphs, and algorithms. Upon completion, students should be able to demonstrate competence in the topics covered. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

MAT 171 Precalculus Algebra (3/0/3)
Prerequisites: MAT 080 or MAT 090
Corequisites: None
This course is the first of two courses designed to emphasize topics which are fundamental to the study of calculus. Emphasis is placed on equations and inequalities, functions (linear, polynomial, rational), systems of equations and inequalities, and parametric equations. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and predictions. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics.*

MAT 172 Precalculus Trigonometry (3/0/3)
Prerequisites: MAT 171
Corequisites: None
This course is the second of two courses designed to emphasize topics which are fundamental to the study of calculus. Emphasis is placed on properties and applications of transcendental functions and their graphs, right and oblique triangle trigonometry, conic sections, and vectors. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics.*

MAT 175 Precalculus (4/0/4)
Prerequisites: High School Algebra III/Trigonometry
Corequisites: None
This course provides an intense study of the topics which are fundamental to the study of calculus. Emphasis is placed on functions and their graphs with special attention to polynomial, rational, exponential, logarithmic and trigonometric functions, and analytic trigonometry. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 191 Sel Topics in Math (1/0/1)
Prerequisites: MAT 271
Corequisites: None
This course provides an opportunity to explore areas of current interest in mathematics. Emphasis is placed on geometry and algebra from an advanced standpoint. Upon completion, students should be able to demonstrate an understanding of foundations of geometry, Euclidean geometry, transformations, non-Euclidean geometry, fractals, and algebraic structures.

MAT 252 Statistics II (3/0/3)
Prerequisites: MAT 151 and either MAT 121 or MAT 161
Corequisites: None
This course provides a technology-based treatment of multiple sample inferential statistics. Emphasis is placed on two sample hypothesis tests and confidence intervals, linear and multiple regression, analysis of variance, experimental design, and non-parametric techniques. Upon completion, students should be able to draw statistical inferences on multiple sample data taken from business and health, social, natural, and applied sciences. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

MAT 252A Statistics II Lab (0/2/1)
Prerequisites: MAT 151 and either MAT 121 or MAT 161
Corequisites: MAT 252
This course is a laboratory for MAT 252. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively.

MAT 263 Brief Calculus (3/0/3)
Prerequisites: MAT 161
Corequisites: None
This course introduces concepts of differentiation and integration and their applications to solving problems; the course is designed for students needing one semester of calculus. Topics include functions, graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 271 Calculus I (3/2/4)
Prerequisites: MAT 172 or MAT 175
Corequisites: None
This course covers in depth the differential calculus portion of a three-course calculus sequence. Topics include limits, continuity, derivatives, and integrals of algebraic and transcendental functions of one variable, with applications. Upon completion, students should be able to apply differentiation and integration techniques to algebraic and transcendental functions. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 272 Calculus II (3/2/4)
Prerequisites: MAT 271
Corequisites: None
This course provides a rigorous treatment of integration and is the second calculus course in a three-course sequence. Topics include applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to use integration and approximation techniques to solve application problems. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 273 Calculus III (3/2/4)
Prerequisites: MAT 272
Corequisites: None
This course covers the calculus of several variables and is third calculus course in a three-course sequence. Topics include functions of several variables, partial derivatives, multiple integrals, solid analytical geometry, vector-valued functions, and line and surface integrals. Upon completion, students should be able to solve problems involving vectors and functions of several variables. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 280 Linear Algebra (3/0/3)
Prerequisites: MAT 271
Corequisites: None
This course provides a study of linear algebra topics with emphasis on the development of both abstract concepts and applications. Topics include vectors, systems of equations, matrices, determinants, vector spaces, linear transformations in two or three dimensions, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts and appropriate use of linear algebra models to solve application problems.

MAT 285 Differential Equations (3/0/3)
Prerequisites: MAT 272
Corequisites: None
This course provides an introduction to ordinary differential equations with an emphasis on applications. Topics include first-order, linear higher-order, and systems of differential equations; numerical methods; series solutions; eigenvalues and eigenvectors; Laplace transforms; and Fourier series. Upon completion, students should be able to use differential equations to model physical phenomena, solve the equations, and use the solutions to analyze the phenomena.

MECHANICAL

MEC 111 Machine Processes I (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces safety, hand tools, machine processes, measuring instruments, and the operation of machine shop equipment. Topics

include safety, measuring tools, and the basic setup and operation of lathes, milling machines, drill presses, and saws. Upon completion, students should be able to manufacture a simple part to a specified tolerance.

MEC 130 Mechanisms (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the purpose and action of various mechanical devices. Topics include cams, cables, gear trains, differentials, screws, belts, pulleys, shafts, levers, lubricants, and other devices used to transmit or control signals. Upon completion, students should be able to analyze, maintain, and troubleshoot the components of mechanical systems.

MEC 142 Physical Metallurgy (1/2/2)
Prerequisites: None
Corequisites: None
This course covers the heat treating of metals. Emphasis is placed on the effects of hardening, tempering, and annealing on the structure and physical properties of metals. Upon completion, students should be able to heat treat materials.

MEC 160 Mechanical Industrial Sys (1/3/2)
Prerequisites: None
Corequisites: None
This course covers mechanical components used in industrial machine operation. Emphasis is placed on mechanical drives, belts, gears, couplings, electrical drives, and other related topics. Upon completion, students should be able to demonstrate an understanding of industrial machines and be able to maintain this equipment.

MEC 211 Engineer Mats & Testing (3/3/4)
Prerequisites: None
Corequisites: None
This course introduces the electrical, physical, and mechanical properties of materials and appropriate test methods and equipment. Topics include ferrous and non-ferrous metals, plastics, and other engineering materials. Upon completion, students should be able to solve problems regarding material selection and processing based on knowledge of the behavior and characteristics of engineering materials.

MEC 231 Comp-Aided Manuf I (1/4/3)
Prerequisites: None
Corequisites: None
This course introduces computer-aided manufacturing (CAM) applications and concepts. Emphasis is placed on developing/defining part geometry and the processing of information needed to manufacture parts. Upon completion students should be able to demonstrate skills in defining part geometry, program development, and code generation using CAM software. Basic setup and operation of computer numerical control turning and machining centers will also be covered.

MEC 251 Statics (2/2/3)
Prerequisites: MAT 121 *(PHY 131 recommended)*
Corequisites: None
This course covers the concepts and principles of statics. Topics include systems of forces and moments on structures in two- and three-dimensions in equilibrium. Upon completion, students should be able to analyze forces and moments on structures.

MEC 252 Strength of Materials (2/2/3)
Prerequisites: MEC 251
Corequisites: None
This course covers the principles and concepts of stress analysis. Topics include centroids, moments of inertia, shear/mount diagrams, and stress and strain. Upon completion, students should be able to perform a stress and strain analysis on structural components.

MEC 265 Fluid Mechanics (2/2/3)
Prerequisites: MAT 121 *(PHY 131 recommended)*
Corequisites: None
This course covers the physical behavior of fluids and fluid systems. Topics include fluid statics and dynamics, laminar and turbulent flow, Bernoulli's Equation, components, applications, and other related topics. Upon completion, students should be able to apply fluid power principles to practical applications.

MEC 275 Engineering Mechanisms (2/2/3)
Prerequisites: MAT 121, DFT 151, and PHY 131 or PHY 151
Corequisites: None
This course covers plane motion and devices used to generate plane motion. Topics include analysis of displacement, velocity, acceleration, gears, cams, and other mechanical systems. Upon completion, students should be able to graphically and mathematically analyze a plane motion system.

MEDICAL ASSISTING

MED 110 Orient to Med Asst (1/0/0/1)
Prerequisites: None
Corequisites: None
This course covers the history of medicine and the role of the medical assistant in the health care setting. Emphasis is placed on professionalism, communication, attitude, behaviors, and duties in the medical environment. Upon completion, students should be able to project a positive attitude and promote the profession of medical assisting.

MED 116 Intro to Anatomy & Phys (3/2/0/4)
Prerequisites: None
Corequisites: None
This course introduces basic anatomy and physiology. Emphasis is placed on the relationship between body structure and function and the procedures common to health care. Upon completion, students should be able to identify body system components and functions relating this knowledge to the delivery of health care.

MED 121 Medical Term I (3/0/0/3)
Prerequisites: None
Corequisites: OST 131
This course introduces prefixes, suffixes, and word roots used in the language of medicine. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.

MED 122 Medical Term II (3/0/0/3)
Prerequisites: MED 121
Corequisites: None
This course is the second in a series of medical terminology courses. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.

MED 130 Adm Office Proc I (1/2/0/2)
Prerequisites: OST 131
Corequisites: None
This course introduces medical office administrative procedures. Topics include appointment processing, written and oral communications, medical records, patient orientation, and safety. Upon completion, students should be able to perform basic administrative skills within the medical environment.

MED 131 Adm Office Proc II (1/2/0/2)
Prerequisites: MED 130
Corequisites: None
This course provides medical office procedures in both economic and management skills. Topics include physical plant maintenance, equipment and supplies, liability coverage, medical economics, and introductory insurance procedures. Upon completion, students should be able to manage the economics of the medical office and supervise personnel.

MED 134 Medical Transcription (2/2/0/3)
Prerequisites: MED 121, OST 131
Corequisites: None
This course provides the basic knowledge, understanding, and skills required to complete medical reports and transcribe medical dictation. Emphasis is placed on correct punctuation, capitalization, and spelling. Upon completion, students should be able to demonstrate competence in medical transcription.

MED 140 Exam Room Proc I (3/4/0/5)
Prerequisites: MED 122
Corequisites: None
This course provides instruction in clinical examining room procedures. Topics include asepsis, infection control, assisting with exams and treatment, patient education, preparation and administration of medications, EKG, vital signs, and medical emergencies. Upon completion, students should be able to demonstrate competence in exam room procedures.

MED 150 Laboratory Proc I (3/4/0/5)
Prerequisites: MED 122
Corequisites: None
This course provides instruction in basic lab techniques used by the medical assistant. Topics include lab safety, quality control, collecting and processing specimens, performing selective tests, phlebotomy, screening and follow-up of test results, and OSHA/CLIA regulations. Upon completion, students should be able to perform basic lab tests/skills based on course topics.

MED 180 CPR Certification (0/2/0/1)
Prerequisites: None
Corequisites: None
This course provides the basic knowledge and skills necessary to perform infant, child, and adult CPR and manage foreign body airway obstruction. Emphasis is placed on triage, assessment, and proper management of emergency care. Upon completion, students should be able to perform the infant, child, and adult CPR.

MED 260 MED Clin Externship (0/0/15/5)
Prerequisites: MED 122, MED 180, MED 272, MED 276 and successful completion of first four semesters of study.
Corequisites: None
This course provides the opportunity to apply clinical, laboratory, and administrative skills in a medical facility. Emphasis is placed on enhancing competence in clinical and administrative skills necessary for comprehensive patient care and strengthening professional communications and interactions. Upon completion, students should be able to function as an entry-level health care professional.

MED 262 Clinical Perspectives (1/0/0/1)
Prerequisites: None
Corequisites: MED 260
This course is designed to explore personal and occupational responsibilities of the practicing medical assistant. Emphasis is placed on problems encountered during externships and development of problem-solving skills. Upon completion, students should be able to demonstrate courteous and diplomatic behavior when solving problems in the medical facility.

MED 272 Drug Therapy (3/0/0/3)
Prerequisites: MED 122
Corequisites: None
This course focuses on major drug groups, including their side effects, interactions, methods of administration, and proper documentation. Emphasis is placed on the theory of drug administration. Upon completion, students should be able to identify, spell, recognize side effects of, and document the most commonly used medications in a physician's office.

MED 276 Patient Education (1/2/0/2)
Prerequisites: None
Corequisites: None
This course is designed to provide communication skills, basic education principles, and knowledge of available community resources and to apply this knowledge to the clinical setting. Emphasis is placed on identifying appropriate community resources, developing patient education materials, and perfecting written and oral communication skills. Upon completion, students should be able to instruct, communicate effectively, and act as a liaison between the patient and community agencies.

MARKETING AND RETAILING

MKT 120 Principles of Marketing (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making. ***ENG 111 is strongly recommended.***

MKT 220 Advert and Sales Prom (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the elements of advertising and sales promotion in the business environment. Topics include advertising and sales promotion appeals, selection of media, use of advertising and sales promotion as a marketing tool, and means of testing effectiveness. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application.

MAINTENANCE

MNT 110 Intro to Maint Procedures (1/3/2)
Prerequisites: None
Corequisites: None
This course covers basic maintenance fundamentals for power transmission equipment. Topics include equipment inspection, lubrication, alignment, and other scheduled maintenance procedures. Upon completion, students should be able to demonstrate knowledge of accepted maintenance procedures and practices according to current industry standards.

MNT 240 Indust Equip Troubleshoot (1/3/2)
Prerequisites: ELC 112 or ELC 131
Corequisites: None
This course covers the various service procedures, tools, instruments, and equipment necessary to analyze and repair typical industrial equipment. Emphasis is placed on electro-mechanical and fluid power equipment troubleshooting and repair, including common techniques and procedures. Upon completion, students should be able to troubleshoot and repair industrial equipment.

MUSIC

MUS 110 Music Appreciation (3/0/3)
Prerequisites: None
Corequisites: None
This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

NETWORKING OPERATING SYSTEMS

NOS 110 Operating Syst Concepts (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is placed on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems.

NOS 120 Linux/UNIX Single User (2/2/3)
Prerequisites: NOS 110
Corequisites: None
This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.

NOS 130 Windows Single User (2/2/3)
Prerequisites: NOS 110
Corequisites: None
This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.

NOS 220 Linux/UNIX Admin I (2/2/3)
Prerequisites: NOS 120
Corequisites: None
This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS client and DHCP client configuration, NFS, SMB/Samba, Configure X, Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring and attaching a new Linux workstation to an existing network.

NOS 230 Windows Admin I (2/2/3)
Prerequisites: NOS 130
Corequisites: None
This course covers the installation and administration of a Windows Server network operating system. Topics include managing and maintaining physical and logical devices, access to resources, the server environment, managing users, computers, and groups, and Managing/Implementing Disaster Recovery. Upon completion, students should be able to manage and maintain a Windows Server environment.

NOS 231 Windows Admin II (2/2/3)
Prerequisites: NOS 230
Corequisites: None
This course covers implementing, managing, and maintaining a Windows Server network infrastructure. Topics include implementing, managing, and maintaining IP addressing, name resolution, network security, routing and remote access, and managing a network infrastructure. Upon completion, students should be able to manage and maintain a Windows Server environment

NETWORKING TECHNOLOGY

NET 110 Networking Concepts (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols.

NET 125 Networking Basics (1/4/3)
Prerequisites: None
Corequisites: None
This course introduces the networking field. Emphasis is placed on network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols.

NET 126 Routing Basics (1/4/3)
Prerequisites: NET 125
Corequisites: None
This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.

NET 225 Routing & Switching I (1/4/3)
Prerequisites: NET 126
Corequisites: None
This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in prerequisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.

NET 226 Routing & Switching II (1/4/3)
Prerequisites: NET 225
Corequisites: None
This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol.

NET 240 Network Design (3/0/3)
Prerequisites: NET 110 or NET 125
Corequisites: None
This course covers the principles of the design of LANs and WANs. Topics include network architecture, transmission systems, traffic management, bandwidth requirements, Internet working devices, redundancy, and broad-band versus base-band systems. Upon completion, students should be able to design a network to meet specified business and technical requirements.

NET 280 Networking Project (1/4/3)
Prerequisites: NET 110
Corequisites: None
This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation.*This course is the capstone course required to successfully complete the two-year network degree program.*

NET 289 Networking Project (1/4/3)
Prerequisites: None
Corequisites: NET 226
This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation.

NURSING

NUR 101A Pract Nurs I Theory (7/6/0/9)
Prerequisites: None
Corequisites: NUR 117
This course introduces concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, legal/ethical/professional issues, wellness/illness patterns, and basic nursing skills. Upon completion, students should be able to demonstrate beginning understanding of nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span.

NUR 101B Pract Nurs I Clinical (0/0/6/2)
Prerequisites: NUR 101A
Corequisites: NUR 117
This course introduces concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, legal/ethical/professional issues, wellness/illness patterns, and basic nursing skills. Upon completion, students should be able to demonstrate beginning understanding of nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. *Clinical experience will be provided in area health care facilities and selected community agencies. This is a diploma-level course.*

NUR 102A Pract Nurs II Theory (8/0/0/8)
Prerequisites: NUR 103B
Corequisites: NUR 118
This course includes more advanced concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span.

NUR 102B Pract Nurs II Clinical (0/0/12/4)
Prerequisites: NUR 102A
Corequisites: NUR 118
This course includes more advanced concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. *Clinical experiences will be provided in area health care facilities, with emphasis on the role of collaborator and delegator within the health care team.*

NUR 103A Pract Nurs III Theory (6/0/0/6)
Prerequisites: NUR 101B, NUR 117
Corequisites: None
This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span.

NUR 103B Pract Nurs III Clinical (0/0/12/4)
Prerequisites: NUR 103A
Corequisites: None
This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. *Clinical experiences will be provided in local health care facilities and community agencies, including maternal/child and pediatric health care experiences.*

NUR 107A LPN Refresher Theory (9/0/0/9)
Prerequisites: Previous licensure as a Licensed Practical Nurse
Corequisites: None
This refresher course is designed to provide an independent didactic review for the previously licensed practical nurse whose license has lapsed. Emphasis is placed on common medical-surgical conditions and nursing interventions, including mental health principles, pharmacological concepts, and safe clinical practice. Upon completion, students will be eligible to apply for reinstatement of licensure.

NUR 107B LPN Refresher Clinical (0/0/9/3)
Prerequisites: NUR 107A
Corequisites: None
This refresher course is designed to provide an independent didactic review for the previously licensed practical nurse whose license has lapsed. Emphasis is placed on common medical-surgical conditions and nursing interventions, including mental health principles, pharmacological concepts, and safe clinical practice. Upon completion, students will be able to apply for reinstatement of licensure. *Clinical and lab experiences will be provided in a medical/surgical clinical site.*

NUR 115A Fund of Nurs Theory (2/3/0/3)
Prerequisites: None
Corequisites: NUR 117, NUR 133
This course introduces concepts basic to beginning nursing practice. Emphasis is placed on the application of the nursing process to provide and manage care as a member of the discipline of nursing. Upon completion, students should be able to demonstrate beginning competence in caring for individuals with common alterations of health.

NUR 115B Fund of Nursing B (2/0/2)
Prerequisites: Admission into the Evening Option for Licensed Practical Nurses Only
Corequisites: None
This course introduces concepts basic to beginning nursing practice. Emphasis is placed on the application of the nursing process to provide and manage care as a member of the discipline of nursing. Upon completion, students should be able to demonstrate beginning competence in caring for individuals with common alterations of health. *This course is restricted to LPN-ADN students only.*

NUR 115C Fund of Nurs Clinical (0/0/6/2)
Prerequisites: NUR 115A
Corequisites: NUR 117, NUR 133
This course introduces concepts basic to beginning nursing practice. Emphasis is placed on the application of the nursing process to provide and manage care as a member of the discipline of nursing. Upon completion, students should be able to demonstrate beginning competence in caring for individuals with common alterations of health. *Clinical experience will be provided in area health care facilities and selected community agencies.*

NUR 117 Pharmacology (1/3/0/2)
Prerequisites: None
Corequisites: NUR 133, NUR 115
This course introduces information concerning sources, effects, legalities, and the safe use of medications as therapeutic agents. Emphasis is placed on nursing responsibility, accountability, and application of the nursing process regarding drug therapy. Upon completion, students should be able to compute dosages and administer medication safely.

NUR 118 Nutrition/Diet Therapy (2/0/0/2)
Prerequisites: None
Corequisites: None
This course covers the six nutrient categories and provides an overview of diet recommendations for promotion and maintenance of health. Topics include the food pyramid recommendations for individuals across the life span, energy balance, and special dietary modifications for common alterations in health. Upon completion, students should be able to complete a nutritional assessment, analyze diets, and recommend dietary adaptations to meet individual health needs.

NUR 125W Maternal-Child Nursing (Maternal Theory) (2.5/1.5/0/3)
Prerequisites: NUR 135X, NUR 185C, and/or NUR 125Z (Child)
Corequisites: None
This course introduces nursing concepts related to the delivery of nursing care for the expanding family. Emphasis is placed on utilizing the nursing process as a framework for managing/providing nursing care to individuals and families along the wellness-illness continuum. Upon completion, students should be able to utilize the nursing process to deliver nursing care to mothers, infants, children, and families.

NUR 125X Maternal-Child Nurs (Maternal Clinical) (0/0/3/1)
Prerequisites: NUR 125W (Maternal)
Corequisites: NUR 255
This course introduces nursing concepts related to the delivery of nursing care for the expanding family. Emhasis is placed on utiziling the nursing process as a framework for managing/providing nursing care to individuals and families along the wellness-illness continuum. Upon completion, students should be able to utilize the nursing process to deliver nursing care to mothers, infants, children, and families. *Clinical experience will be provided in area health care facilities and selected community agencies.*

NUR 125Y Maternal-Child Nurs (Child Theory) (2.5/1.5/0/3)
Prerequisites: NUR 135C & NUR 185Cand/orNUR 125X
Corequisites: None
This course introduces nursing concepts related to the delivery of nursing care for the expanding family. Emhasis is placed on utiziling the nursing process as a framework for managing/providing nursing care to individuals and families along the wellness-illness continuum. Upon completion, students should be able to utilize the nursing process to deliver nursing care to mothers, infants, children, and families.

NUR 125Z Maternal-Child Nurs (Child Clinical) (0/0/3/1)
Prerequisites: NUR 135C and NUR 185C and/or NUR 125Y
Corequisites: None
This course introduces nursing concepts related to the delivery of nursing care for the expanding family. Emhasis is placed on utiziling the nursing process as a framework for managing/providing nursing care to individuals and families along the wellness-illness continuum. Upon completion, students should be able to utilize the nursing process to deliver nursing care to mothers, infants, children, and families. *Clinical experience will be provided in area health care facilities and selected community agencies.*

NUR 125B Maternal-Child Nurs B (3/3/4)
Prerequisites: NUR 185
Corequisites: NUR 255
This course introduces nursing concepts related to the delivery of nursing care for the expanding family. Emhasis is placed on utiziling the nursing process as a framework for managing/providing nursing care to individuals and families along the wellness-illness continuum. Upon completion, students should be able to utilize the nursing process to deliver nursing care to mothers, infants, children, and families. This course is restricted to LPN/ADN students only. *Clinical experience will be provided in area health care facilities and selected community agencies.*

NUR 133 Nursing Assessment (2/3/0/3)
Prerequisites: None
Corequisites: NUR 115A, NUR 115, NUR 117
This course provides theory and application experience for performing nursing assessment of individuals across the life span. Emphasis is placed on interviewing and physical assessment techniques and documentation of findings appropriate for nursing. Upon completion, students should be able to complete a health history and perform a noninvasive physical assessment.

NUR 135A Adult Nurs I Theory (5/3/0/6)
Prerequisites: NUR 115B, NUR 117, NUR 133
Corequisites: NUR 118
This course introduces concepts related to the nursing care of individuals experiencing acute and chronic alterations in health. Emphasis is placed on utilizing the nursing process as a framework for providing and managing nursing care to individuals along the wellness-illness continuum. Upon completion, students should be able to apply the nursing process to individuals experiencing acute and chronic alterations in health.

NUR 135C Adult Nurs I Clinical (0/0/9/3)
Prerequisites: NUR 135A
Corequisites: NUR 118
This course introduces concepts related to the nursing care of individuals experiencing acute and chronic alterations in health. Emphasis is placed on utilizing the nursing process as a framework for providing and managing nursing care to individuals along the wellness-illness continuum. Upon completion, students should be able to apply the nursing process to individuals experiencing acute and chronic alterations in health. *Clinical experience will be provided in area health care facilities and selected community agencies.*

NUR 135B Adult Nurs I B (4/6/6)
Prerequisites: NUR 115B
Corequisites: ENG 114
This course introduces concepts related to the nursing care of individuals experiencing acute and chronic alterations in health. Emphasis is placed on utilizing the nursing process as a framework for providing and managing nursing care to individuals along the wellness-illness continuum. Upon completion, students should be able to apply the nursing process to individuals experiencing acute and chronic alterations in health. *This course is restricted to LPN/ADN students only. Clinical experience will be provided in area health care facilities and selected community agencies.*

NUR 185A Mental Health Nurs Theory (3/0/0/3)
Prerequisites: NUR 135C and/or NUR 125Y and/ or NUR 125Z
Corequisites: None
This course includes concepts related to the nursing care of individuals experiencing alterations in social and psychological functioning. Emphasis is placed on utilizing the nursing process to provide and manage nursing care for individuals with common psychiatric disorders or mental health needs. Upon completion, students should be able to apply psychosocial theories in the nursing care of individuals with psychiatric/mental health needs.

NUR 185C Mental Health Nurs Clinical (0/0/6/2)
Prerequisites: NUR 185A
Corequisites: None
This course includes concepts related to the nursing care of individuals experiencing alterations in social and psychological functioning. Emphasis is placed on utilizing the nursing process to provide and manage nursing care for individuals with common psychiatric disorders or mental health needs. Upon completion, students should be able to apply psychosocial theories in the nursing care of individuals with psychiatric/mental health needs. *Clinical experiences will be provided in area health care facilities and selected community agencies.*

NUR 185 Mental Health Nursing (3/0/6/5)
Prerequisites: NUR 135B
Corequisites: None
This course includes concepts related to the nursing care of individuals experiencing alterations in social and psychological functioning. Emphasis is placed on utilizing the nursing process to provide and manage nursing care for individuals with common psychiatric disorders or mental health needs. Upon completion, students should be able to apply psychosocial theories in the nursing care of individuals with psychiatric/mental health needs. *This course is restricted to LPN/ADN students only. Clinical experiences will be provided in area health care facilities and selected community agencies.*

NUR 233 Leadership in Nursing (2/0/0/2)
Prerequisites: NUR 255 and/or NUR 185C and NUR 125Y and NUR 125Z or NUR 185B
Corequisites: NUR 235A, NUR 235C
This course is designed to enhance nursing leadership and management skills in a variety of health care settings. Emphasis is placed on leadership styles, supervision, delegation, leadership and management theories, conflict resolution, change, and time management. Upon completion, students should be able to apply leadership and management skills in a variety of health care settings.

NUR 235A Adult Nurs II Theory (4/3/0/5)
Prerequisites: NUR 185C, NUR 125Y, NUR 125Z, NUR 255
Corequisites: NUR 233
This course provides expanded concepts related to nursing care for individuals experiencing common complex alterations in health. Emphasis is placed on the nurse's role as a member of a multidisciplinary team and as a manager of care for a group of individuals. Upon completion, students should be able to provide comprehensive nursing care for groups of individuals with common complex alterations in health.

NUR 235C Adult Nurs II Clinical (0/0/15/5)
Prerequisites: NUR 235A
Corequisites: NUR 233
This course provides expanded concepts related to nursing care for individuals experiencing common complex alterations in health. Emphasis is placed on the nurse's role as a member of a multidisciplinary team and as a manager of care for a group of individuals. Upon completion, students should be able to provide comprehensive nursing care for groups of individuals with common complex alterations in health. *Clinical experiences will be provided in area health care facilities and selected community agencies.*

NUR 235B Adult Nursing II B (4/6/6)
Prerequisites: NUR 185, NUR 255
Corequisites: NUR 233
This course provides expanded concepts related to nursing care for individuals experiencing common complex alterations in health. Emphasis is placed on the nurse's role as a member of a multidisciplinary team and as a manager of care for a group of individuals. Upon completion, students should be able to provide comprehensive nursing care for groups of individuals with common complex alterations in health. *This course is restricted to LPN-ADN students only. Clinical experiences will be provided in area health care facilities and selected community agencies.*

NUR 255 Professional Issues (3/0/0/3)
Prerequisites: NUR 135C or NUR 135B
Corequisites: NUR 185A and NUR 185C and/or NUR 125W & NUR 125X and/or NUR 125Y & NUR 125Z
This course explores basic concepts of practice in the management of patient care in a complex health care system. Emphasis is placed on professional, legal, ethical, and political issues and management concepts. Upon completion, students should be able to articulate professional and management concepts.

OPERATIONS MANAGEMENT

OMT 112 Materials Management (3/0/3)
Prerequisites: NET 125
Corequisites: None
This course covers the basic principles of materials management. Emphasis is placed on the planning, procurement, movement, and storage of materials. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques related to materials management. *This course is a unique concentration requirement of the Operations Management concentration in the Business Administration program.*

OMT 260 Issues in Operations Mgt. (3/0/3)
Prerequisites: ISC 121 & ISC 130
Corequisites: None
This course presents a variety of topics that highlight contemporary problems and issues related to operations management. Emphasis is placed on production and operations planning, environmental health and safety, materials management, and quality systems. Upon completion, students should be able to demonstrate the ability to make decisions and resolve problems in an operations management environment. *This course is a unique concentration requirement of the Operations Management concentration in the Business Administration program.*

OFFICE SYSTEMS TECHNOLOGY

OST 131 Keyboarding (1/2/2)
Prerequisites: None
Corequisites: None
This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to key at an acceptable speed and accuracy level using the touch system.

OST 134 Text Entry & Formatting (2/2/3)
Prerequisites: None
Corequisites: None
This course is designed to provide the skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce mailable documents.

OST 135 Adv Text Entry & Format (3/2/4)
Prerequisites: OST 134
Corequisites: None
This course is designed to incorporate computer application skills in the generation of office documents. Emphasis is placed on the production of letters, manuscripts, business forms, tabulation, legal documents, and newsletters. Upon completion, students should be able to make independent decisions regarding planning, style, and method of presentation.

OST 136 Word Processing (1/2/2)
Prerequisites: OST 134
Corequisites: None
This course introduces word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment.

OST 137 Office Software Appl. (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the concepts and functions of software that meets the changing needs of the community. Emphasis is placed on the terminology and use of software through a hands-on approach. Upon completion, students should be able to use software in a business environment.

OST 138 Advanced Software Appl (2/2/3)
Prerequisites: OST 137
Corequisites: None
This course develops proficiency in the utilization of software applications used in business offices through a hands-on approach. Emphasis is placed on in-depth usage of software to create a variety of documents applicable to current business environments. Upon completion, students should be able to master the skills required to design documents that can be customized using the latest software applications.

OST 148 Med Coding Billing & Insu (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces CPT and ICD coding as they apply to medical insurance and billing. Emphasis is placed on accuracy in coding, forms preparation, and posting. Upon completion, students should be able to describe the steps of the total billing cycle and explain the importance of accuracy. *This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.*

OST 149 Med Legal Issues (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the complex legal, moral, and ethical issues involved in providing healthcare services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior. *This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.*

OST 164 Text Editing Applications (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text.

OST 181 Intro to Office Systems (2/2/3)
Prerequisites: OST 134, OST 137
Corequisites: OST 136

This course introduces the skills and abilities needed in today's office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today's offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.

OST 184 Records Management (1/2/2)
Prerequisites: None
Corequisites: None
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system.

OST 223 Machine Transcription I (1/2/2)
Prerequisites: OST 164, OST 136
Corequisites: None
This course covers the use of transcribing machines to produce mailable documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe documents into mailable copy.

OST 236 Adv Word/Inform Proc (2/2/3)
Prerequisites: OST 136
Corequisites: None
This course develops proficiency in the utilization of advanced word/information processing functions. Topics include tables, graphics, macros, sorting, document assembly, merging, and newspaper and brochure columns. Upon completion, students should be able to produce a variety of complex business documents.

OST 243 Med Office Simulation (2/2/3)
Prerequisites: OST 148
Corequisites: None
This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections. *This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.*

OST 286 Professional Development (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multicultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.

OST 289 Office Systems Mgmt (2/2/3)
Prerequisites: OST 164, OST 181
Corequisites: None
This course provides a capstone course for the office professional. Topics include administrative office procedures, imaging, communication techniques, ergonomics, and equipment utilization. Upon completion, students should be able to function proficiently in a changing office environment.

PHYSICAL EDUCATION

PED 110 Fit and Well for Life (1/2/2)
Prerequisites: None
Corequisites: None
This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health-related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests.

PED 111 Physical Fitness I (0/3/1)
Prerequisites: None
Corequisites: None
This course provides an individualized approach to physical fitness utilizing the five major components. Emphasis is placed on the scientific basis for setting up and engaging in personalized physical fitness programs. Upon completion, students should be able to set up and implement an individualized physical fitness program.

PED 112 Physical Fitness II (0/3/1)
Prerequisites: PED 111
Corequisites: None
This course is an intermediate-level fitness class. Topics include specific exercises contributing to fitness and the role exercise plays in developing body systems. Upon completion, students should be able to implement and evaluate an individualized physical fitness program.

PED 113 Aerobics I (0/3/1)
Prerequisites: None
Corequisites: None
This course introduces a program of cardiovascular fitness involving continuous, rhythmic exercise. Emphasis is placed on developing cardiovascular efficiency, strength, and flexibility and on safety precautions. Upon completion, students should be able to select and implement a rhythmic aerobic exercise program.

PED 114 Aerobics II (0/3/1)
Prerequisites: PED 113
Corequisites: None
This course provides a continuation of a program of cardiovascular fitness involving rhythmic exercise. Emphasis is placed on a wide variety of aerobic activities which include cardiovascular efficiency, strength, and flexibility. Upon completion, students should be able to participate in and design a rhythmic aerobic exercise routine.

PED 117 Weight Training I (0/3/1)
Prerequisites: None
Corequisites: None
This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program.

PED 118 Weight Training II (0/3/1)
Prerequisites: PED 117
Corequisites: None
This course covers advanced levels of weight training. Emphasis is placed on meeting individual training goals and addressing weight training needs and interests. Upon completion, students should be able to establish and implement an individualized advanced weight training program.

PED 119 Circuit Training (0/3/1)
Prerequisites: None
Corequisites: None
This course covers the skills necessary to participate in a developmental fitness program. Emphasis is placed on the circuit training method which involves a series of conditioning timed stations arranged for maximum benefit and variety. Upon completion, students should be able to understand and appreciate the role of circuit training as a means to develop fitness.

PED 120 Walking for Fitness (0/3/1)
Prerequisites: None
Corequisites: None
This course introduces fitness through walking. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to participate in a recreational walking program.

PED 128 Golf-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course emphasizes the fundamentals of golf. Topics include the proper grips, stance, alignment, swings for the short and long game, putting, and the rules and etiquette of golf. Upon completion, students should be able to perform the basic golf shots and demonstrate a knowledge of the rules and etiquette of golf.

PED 129 Golf-Intermediate (0/2/1)
Prerequisites: PED 128
Corequisites: None
This course covers the more advanced phases of golf. Emphasis is placed on refining the fundamental skills and learning more advanced phases of the games such as club selection, trouble shots, and course management. Upon completion, students should be able demonstrate the knowledge and ability to play a recreational round of golf.

PED 130 Tennis-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course emphasizes the fundamentals of tennis. Topics include basic strokes, rules, etiquette, and court play. Upon completion, students should be able to play recreational tennis.

PED 131 Tennis-Intermediate (0/2/1)
Prerequisites: PED 130
Corequisites: None
This course emphasizes the refinement of playing skills. Topics include continuing the development of fundamentals, learning advanced serves, and strokes and pace and strategies in singles and doubles play. Upon completion, students should be able to play competitive tennis.

PED 137 Badminton (0/2/1)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of badminton. Emphasis is placed on the basics of serving, clears, drops, drives, smashes, and the rules and strategies of singles and doubles. Upon completion, students should be able to apply these skills in playing situations.

PED 143 Volleyball-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of volleyball. Emphasis is placed on the basics of serving, passing, setting, spiking, blocking, and the rules and etiquette of volleyball. Upon completion, students should be able to participate in recreational volleyball.

PED 144 Volleyball-Intermediate (0/2/1)
Prerequisites: PED 143
Corequisites: None
This course covers more advanced volleyball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to participate in competitive volleyball.

PED 145 Basketball-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of basketball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational basketball.

PED 146 Basketball-Intermediate (0/2/1)
Prerequisites: PED 145
Corequisites: None
This course covers more advanced basketball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play basketball at a competitive level.

PED 148 Softball (0/2/1)
Prerequisites: None
Corequisites: None
This course introduces the fundamental skills and rules of softball. Emphasis is placed on proper techniques and strategies for playing softball. Upon completion, students should be able to participate in recreational softball.

PED 150 Baseball/Beginning (0/3/1)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of baseball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational baseball. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

PED 151 Baseball/Intermediate (0/3/1)
Prerequisites: PED 150
Corequisites: None
This course covers more advanced baseball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play baseball at a competitive level. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

PED 152 Swimming-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course is designed for non-swimmers and beginners. Emphasis is placed on developing confidence in the water, learning water safety, acquiring skills in floating, and learning elementary strokes. Upon completion, students should be able to demonstrate safety skills and be able to tread water, back float, and use the crawl stroke for 20 yards. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

PED 154 Swimming for Fitness (0/2/1)
Prerequisites: PED 152
Corequisites: None
This course introduces lap swimming, aquacises, water activities, and games. Emphasis is placed on increasing cardiovascular efficiency through aquatic exercise. Upon completion, students should be able to develop an individualized aquatic fitness program. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

PED 160 Canoeing-Basic (0/2/1)
Prerequisites: PED 152
Corequisites: None
This course provides basic instruction for the beginning canoeist. Emphasis is placed on safe and correct handling of the canoe and rescue skills. Upon completion, students should be able to demonstrate basic canoeing, safe-handling, and self-rescue skills.

PED 161 Canoeing-Rivers (0/2/1)
Prerequisites: PED 160
Corequisites: None
This course provides practice in the basic skills of river and whitewater canoeing. Emphasis is placed on river running, safety, and care of equipment. Upon completion, students should be able to demonstrate navigation in a moving current, canoe safety, and self-rescue skills.

PED 170 Backpacking (0/2/1)
Prerequisites: None
Corequisites: None
This course covers the proper techniques for establishing a campsite, navigating in the wilderness, and planning for an overnight trip. Topics include planning for meals, proper use of maps and compass, and packing and dressing for extended periods in the outdoors. Upon completion, students should be able to identify quality backpacking equipment, identify the principles of no-trace camping, and successfully complete a backpacking experience.

PED 171 Nature Hiking (0/2/1)
Prerequisites: None
Corequisites: None
This course provides instruction on how to equip and care for oneself on the trail. Topics include clothing, hygiene, trail ethics, and necessary equipment. Upon completion, students should be able to successfully participate in nature trail hikes. *This course has been approved to satisfy the Comprehensive Articulation Agreement for pre-major and/or elective course requirement.*

PED 181 Snow Skiing-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course introduces the fundamentals of snow skiing. Topics include basic techniques, safety, and equipment involved in snow skiing. Upon completion, students should be able to ski a down slope, enter and exit a ski lift, and perform basic maneuvers on skis.

PED 182 Snow Skiing Intermediate (0/2/1)
Prerequisites: PED 181
Corequisites: None
This course is designed to further develop snow skiing skills. Topics include selection and care of equipment, parallel skiing and turns, christies, advanced jumps, trail skiing, and slalom racing. Upon completion, students should be able to ski on varying terrains and snow conditions with control and safety.

PED 252 Officiating/Bsball/Sfball (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the rules and techniques for sports officiating in baseball and softball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in baseball and softball. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course.*

PED 256 Coaching Baseball (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the theory and methods of coaching baseball. Emphasis is placed on rules, game strategies, and selected techniques of coaching baseball. Upon completion, students should be able to demonstrate competent coaching skills in baseball. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PHILOSOPHY

PHI 215 Philosophical Issues (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critique the philosophical components of an issue. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

PHI 240 Introduction to Ethics (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on utilitarianism, rule-based ethics, existentialism, relativism versus objectivism, and egoism. Upon completion, students should be able to apply various ethical theories to individual moral issues such as euthanasia, abortion, crime and punishment, and justice. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

PHYSICS

PHY 110 Conceptual Physics (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a conceptually-based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studies. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PHY 110A Conceptual Physics Lab (0/2/1)
Prerequisites: None
Corequisites: PHY 110
This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PHY 121 Applied Physics I (3/2/4)
Prerequisites: MAT 070
Corequisites: None
This algebra-based course introduces fundamental physical concepts as applied to industrial and service technology fields. Topics include systems of units, problem-solving methods, graphical analyses, vectors, motion, forces, Newton's laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

PHY 122 Applied Physics II (3/2/4)
Prerequisites: None
Corequisites: None
This algebra-based course introduces fundamental physical concepts as applied to industrial and service technology fields. Emphasis is placed on systems of units, problem-solving methods, graphical analysis, static electricity, AC and DC circuits, magnetism, transformers, AC and DC motors, and generators. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

PHY 131 Physics-Mechanics (3/2/4)
Prerequisites: MAT 121 or MAT 161
Corequisites: None
This algebra/trigonometry-based course introduces fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem-solving methods, graphical analysis, vectors, motion, forces, Newton's laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields.

PHY 151 College Physics I (3/2/4)
Prerequisites: MAT 161 or MAT 171
Corequisites: None
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PHY 152 College Physics II (3/2/4)
Prerequisites: PHY 151
Corequisites: None
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PHY 251 General Physics I (3/3/4)
Prerequisites: MAT 271
Corequisites: MAT 272
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PHY 252 General Physics II (3/3/4)
Prerequisites: MAT 272 and PHY 251
Corequisites: None
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PLUMBING

PLU 110 Modern Plumbing (4/15/9)
Prerequisites: None
Corequisites: None
This course introduces the tools, equipment, and materials associated with the plumbing industry. Topics include safety, use and care of tools, recognition and assembly of fittings and pipes, and other related topics. Upon completion, students should be able to safely assemble various pipes and fittings in accordance with state code requirements.

PLU 111 Intro to Basic Plumbing (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces basic plumbing tools, materials, and fixtures. Topics include standard tools, materials, and fixtures used in basic plumbing systems and other related topics. Upon completion, students should be able to demonstrate an understanding of a basic plumbing system.

POLITICAL SCIENCE

POL 110 Intro Political Science (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

POL 120 American Government (3/0/3)
Prerequisites: None
Corequisites: None
This course is a study of the origins, development, structure, and functions of American national government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy formation. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

POL 130 State & Local Govern (3/0/3)
Prerequisites: None
Corequisites: None
This course includes state and local political institutions and practices in the context of American federalism. Emphasis is placed on procedural and policy differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual.

PSYCHOLOGY

PSY 115 Stress Management (2/0/2)
Prerequisites: None
Corequisites: None
This course covers stressors and techniques for stress management. Topics include anger, assertiveness, adaptation to change, conflict, coping skills, identification of stressors, time management, and the physiology of stress and burnout. Upon completion, students should be able to demonstrate an understanding of the effective management of stress.

PSY 118 Interpersonal Psychology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development.

PSY 150 General Psychology (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

PSY 211 Psychology of Adjustment (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course introduces the study of the adjustment process focusing on contemporary challenges individuals must deal with in everyday life. Topics include theories of behavior, career choices, self-understanding, coping mechanisms, human relationships, intimacy, sociocultural factors influencing healthy personal adjustment, and other related topics. Upon completion, students should be able to demonstrate an awareness of the processes of adjustment

PSY 237 Social Psychology (3/0/3)
Prerequisites: PSY 150 or SOC 210
Corequisites: None
This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

PSY 239 Psychology of Personality (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

PSY 241 Developmental Psych (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

PSY 243 Child Psychology (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course provides an overview of physical, cognitive, and psychosocial development from conception through adolescence. Topics include theories and research, interaction of biological and environmental factors, language development, learning and cognitive processes, social relations, and moral development. Upon completion, students should be able to identify typical and atypical childhood behavior patterns as well as appropriate strategies for interacting with children.

PSY 244 Child Development I (3/0/3)
Prerequisite: None
Corequisite: None
This course provides an introduction to the study of child development and examines the growth and development of children from conception through early childhood. Topics include historical and theoretical perspectives, terminology, research and observation techniques as well as physical, cognitive, and psychosocial growth and change. Upon completion, students should be able to demonstrate an understanding of the early stages of child development.

PSY 245 Child Development II (3/0/3)
Prerequisite: None
Corequisite: None
This course examines the growth and development of children during early and middle childhood. Emphasis is placed on factors influencing physical, cognitive, and psychosocial growth and change. Upon completion, students should be able to demonstrate an understanding of early and middle child development.

PSY 246 Adolescent Psychology (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course provides an overview of the behavior patterns, life changes, and social issues that accompany the developmental stage of adolescence. Topics include developmental theories; physical, cognitive and psychosocial growth; transitions to young adulthood; and sociocultural factors that influence adolescent roles in home, school and community. Upon completion, students should be able to identify typical and atypical adolescent behavior patterns as well as appropriate strategies for interacting with adolescents.

PSY 256 Exceptional Children (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course introduces major exceptionalities in children including mental, emotional, and physical variations; learning disabilities; and giftedness. Emphasis is placed on theoretical perspectives, identification methods, and intervention strategies. Upon completion, students should be able to demonstrate a general knowledge of the exceptionalities of children and recommended intervention techniques.

PSY 263 Educational Psychology (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice.

PSY 271 Sports Psychology (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course provides an overview of the field of sports and exercise psychology. Topics include concentration, goal setting, arousal level, exercise psychology, mental imagery, confidence, and other issues related to sport and exercise performance. Upon completion, students should be able to demonstrate a knowledge of psychological factors involved in sport and exercise.

PSY 281 Abnormal Psychology (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

REAL ESTATE APPRAISAL

REA 101 Intro Real Est App R-1 (2/0/2)
Prerequisites: None
Corequisites: None
This course introduces the entire valuation process, with specific coverage of residential neighborhood and property analysis. Topics include basic real property law, concepts of value and operation of real estate markets, mathematical and statistical concepts, finance, and residential construction/design. Upon completion, students should be able to demonstrate adequate preparation for REA 102. *This course is required for the Real Estate Appraisal certificate.*

REA 102 Valuation Prin & Prac R-2 (2/0/2)
Prerequisites: REA 101
Corequisites: None
This course introduces procedures used to develop an estimate of value and how the various principles of value relate to the application of such procedures. Topics include the sales comparison approach, site valuation, sales comparison, the cost approach, the income approach, and reconciliation. Upon completion, students should be able to complete the Uniform Residential Appraisal Report (URAR). *This course is required for the Real Estate Appraisal certificate.*

REA 103 Applied Res Prop Val R-3 (1/0/1)
Prerequisites: REA 102
Corequisites: None
This course covers the laws and standards practiced by appraisers in the appraisal of residential 1-4 unit properties and small farms. Topics include Financial Institutions Reform and Recovery Enforcement Act (FIRREA), and North Carolina statutes and rules. Upon completion, students should be able to demonstrate eligibility to sit for the NC Appraisal Board license trainee examination. *This course is required for the Real Estate Appraisal certificate.*

REA 104 USPAP R-4 (1/0/1)
Prerequisites: REA 103
Corequisites: None
This course introduces all aspects of the appraisers conduct, ethics and competency. Topics include appraisal standards, reviews, reports, and the confidentiality provision as set forth by the North Carolina Appraisal Board. Upon completion, students should be able to sit for the National USPAP examination.

REA 201 Intro Income Prop App G-1 (2/0/2)
Prerequisites: REA 103
Corequisites: None
This course introduces concepts and techniques used to appraise real estate income properties. Topics include real estate market analysis, property analysis and site valuation, how to use financial calculators, present value, NOI, and before-tax cash flow. Upon completion, students should be able to estimate income property values using direct capitalization and to sit for the NC Certified Residential Appraiser examination. *This course is required for the Real Estate Appraisal certificate.*

REA 202 Adv Inc Capital Proc G-2 (2/0/2)
Prerequisites: REA 201
Corequisites: None
A financial calculator is required for this course
This course expands direct capitalization techniques and introduces yield capitalization. Topics include yield rates, discounted cash flow, financial leverage, and traditional yield capitalization formulas. Upon completion, students should be able to estimate the value of income producing property using yield capitalization techniques. *This course is required for the Real Estate Appraisal certificate.*

REA 203 Applied Inc Prop Val G-3 (2/0/2)
Prerequisites: REA 202
Corequisites: None
This course covers the laws, rules, and standards pertaining to the principles and practices applicable to the appraisal of income properties. Topics include FIRREA, USPAP, Uniform Commercial and Industrial Appraisal Report (UCIAR) form, North Carolina statutes and rules, and case studies. Upon completion, students should be able to prepare a narrative report that conforms to the USPAP and sit for the NC Certified General Appraisal examination.

This course is required for the Real Estate Appraisal certificate.

READING

RED 070 Essential Reading Skills (3/2/4)
Prerequisite: None
Corequisite: None
This course is designed for those with limited reading skills. Emphasis is placed on basic word attack skills, vocabulary, transitional words, paragraph organization, basic comprehension skills, and learning strategies. Upon completion, students should be able to demonstrate competence in the skills required for RED 080.

RED 080 Intro to College Reading (3/2/4)
Prerequisites: RED 070
Corequisites: None
This course introduces effective reading and inferential thinking skills in preparation for RED 090. Emphasis is placed on vocabulary, comprehension, and reading strategies. Upon completion, students should be able to determine main ideas and supporting details, recognize basic patterns of organization, draw conclusions, and understand vocabulary in context. *This course does not satisfy the developmental reading prerequisite for ENG 111 or ENG 111A.*

RED 090 Improved College Reading (3/2/4)
Prerequisites: RED 080
Corequisites: None
This course is designed to improve reading and critical thinking skills. Topics include vocabulary enhancement; extracting implied meaning; analyzing author's purpose, tone, and style; and drawing conclusions and responding to written material. Upon completion, students should be able to comprehend and analyze college-level reading material. *This course satisfies the developmental reading prerequisite for ENG 111 or ENG 111A.*

RED 111 Crit Reading for College (3/0/3)
Prerequisites: RED 090 or comp. placement
Corequisites: None
This course is designed to enhance critical reading skills. Topics include vocabulary enrichment, reading flexibility, metacognitive strategies, and advanced comprehension skills, including analysis and evaluation. Upon completion, students should be able to demonstrate comprehension and analysis and respond effectively to material across disciplines.

RELIGION

REL 110 World Religions (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the world's major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

REL 211 Intro to Old Testament (3/0/3)
Prerequisites: None
Corequisites: None
This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

REL 212 Intro to New Testament (3/0/3)
Prerequisites: None
Corequisites: None
This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

REL 221 Religion in America (3/0/3)
Prerequisites: None
Corequisites: None
This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non-traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

SOCIOLOGY

SOC 210 Introduction to Sociology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

SOC 213 Sociology of the Family (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences*

SOC 220 Social Problems (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

SOC 225 Social Diversity (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

SOC 230 Race and Ethnic Relations (3/0/3)
Prerequisites: None
Corequisites: None
This course includes an examination of the various aspects of race and ethnicity and how these lead to different experiences, opportunities, problems, and contributions. Topics include prejudice, discrimination, perceptions, myths, stereotypes, and intergroup relationships. Upon completion, students should be able to identify and analyze relationships among racial and ethnic groups within the larger society.

SOC 232 Social Context of Aging (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an overview of the social implications of the aging process. Emphasis is placed on the roles of older adults within families, work and economics, politics, religion, education, and health care. Upon completion, students should be able to identify and analyze changing perceptions, diverse lifestyles, and social and cultural realities of older adults.

SOC 234 Sociology of Gender (3/0/3)
Prerequisites: None
Corequisites: None
This course examines contemporary roles in society with special emphasis on recent changes. Topics include sex role socialization, myths and stereotypes, gender issues related to family, work, and power. Upon completion, students should be able to analyze modern relationships between men and women.

SOC 240 Social Psychology (3/0/3)
Prerequisites: None
Corequisites: None
This course examines the influence of culture and social groups on individual behavior and personality. Emphasis is placed on the process of socialization, communication, conformity, deviance, interpersonal attraction, intimacy, race and ethnicity, small group experiences, and social movements. Upon completion, students should be able to identify and analyze cultural and social forces that influence the individual in a society. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

SOC 244 Soc of Death & Dying (3/0/3)
Prerequisites: None
Corequisites: None
This course presents sociological perspectives on death and dying. Emphasis is placed on analyzing the different death rates among various groups, races, and societies, as well as various types of death. Upon completion, students should be able to discuss the rituals of death, both cultural and religious, and examine current issues relating to death and dying.

SPANISH

SPA 110 Introduction to Spanish (2/0/2)
Prerequisites: None
Corequisites: None
This course provides an introduction to understanding, speaking, reading, and writing Spanish. Emphasis is placed on pronunciation, parts of speech, communicative phrases, culture, and skills for language acquisition. Upon completion, students should be able to identify and apply basic grammar concepts, display cultural awareness, and communicate in simple phrases in Spanish.

SPA 111 Elementary Spanish I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

SPA 112 Elementary Spanish II (3/0/3)
Prerequisites: SPA 111
Corequisites: None
This course is a continuation of SPA 111 focusing on the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate further cultural awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

SPA 120 Spanish for the Workplace (3/0/3)
Prerequisites: None
Corequisites: None
This course offers applied Spanish for the workplace to facilitate basic communication with people whose native language is Spanish. Emphasis is placed on oral communication and career-specific vocabulary that targets health, business, and/or public service professions. Upon completion, students should be able to communicate at a functional level with native speakers and demonstrate cultural sensitivity.

SPA 141 Culture and Civilization (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an opportunity to explore issues related to the Hispanic world. Topics include historical and current events, geography, and customs. Upon completion, students should be able to identify and discuss selected topics and cultural differences related to the Hispanic world. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

SPA 151 Hispanic Literature (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course includes selected readings by Hispanic writers. Topics include fictional and non-fictional works by representative authors from a variety of genres and literary periods. Upon completion, students should be able to analyze and discuss selected texts within relevant cultural and historical contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

SPA 161 Cultural Immersion (2/3/3)
Prerequisites: SPA 111
Corequisites: None
This course explores Hispanic culture through intensive study on campus and field experience in a host country or area. Topics include an overview of linguistic, historical, geographical, sociopolitical, economic, and/or artistic concerns of the area visited. Upon completion, students should be able to exhibit first-hand knowledge of issues pertinent to the host area and demonstrate understanding of cultural differences. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

SPA 181 Spanish Lab 1 (0/2/1)
Prerequisites: None
Corequisites: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the

Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPA 182 Spanish Lab 2 (0/2/1)
Prerequisites: SPA 181
Corequisites: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate cultural awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPA 211 Intermediate Spanish I (3/0/3)
Prerequisites: SPA 112
Corequisites: None
This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

SPA 212 Intermediate Spanish II (3/0/3)
Prerequisites: SPA 211
Corequisites: None
This course provides a continuation of SPA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

SPA 215 Spanish Phonetics/Structu (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to improve the understanding of Spanish phonetics and the structure of the Spanish language. Topics include the structure of the Spanish language, phonology, morphology, and syntax. Upon completion, students should have an understanding of the phonetics and structure of the Spanish language and be able to contrast the structure of the Spanish and English languages.

SPA 221 Spanish Conversation (3/0/3)
Prerequisites: SPA 212
Corequisites: None
This course provides an opportunity for intensive communication in spoken Spanish. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPA 231 Reading and Composition (3/0/3)
Prerequisites: SPA 212
Corequisites: None
This course provides an opportunity for intensive reading and composition in Spanish. Emphasis is placed on the use of literary and cultural materials to enhance and expand reading and writing skills. Upon completion, students should be able to demonstrate in writing an in-depth understanding of assigned readings. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPA 281 Spanish Lab 3 (0/2/1)
Prerequisites: SPA 182
Corequisites: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPA 282 Spanish Lab 4 (0/2/1)
Prerequisites: SPA 281
Corequisites: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPANISH INTERPRETER

SPI 113 Intro to Spanish Inter. (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the field of interpreting, interpretation models, cognitive processes associated with interpretation, professional ethical standards, employment opportunities, and working conditions. Topics include specialized jargon, code of ethics, interpreter assessments/qualifications, and protocol associated with various settings. Upon completion, students should be able to explain the rationale for placement of interpreters and apply ethical standards to a variety of working situations.

SPI 114 Ana Skills Spanish Inter. (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to improve cognitive processes associated with interpreting, listening, short-term memory, semantic equivalence, visual/auditory processing, thought organization and logic. Emphasis is placed on developing skills necessary to generate equivalent messages between Spanish and English. Upon completion, students should be able to consecutively interpret non-technical, interactive messages between Spanish and English.

SPI 213 Review of Grammar (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to review the common elements of Spanish grammar in oral and written form. Emphasis is placed on the fundamental grammatical concepts of the Spanish language. Upon completion, students should be able to demonstrate comprehension and correct usage of specified grammatical concepts in both oral and written form.

SPI 214 Intro to Translation (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to improve the quality of Spanish to English and English to Spanish translation. Emphasis is placed on the practice of Spanish to English and English to Spanish translation in a variety of prose styles. Upon completion, students should be able to demonstrate the usage and understanding of the processes involved in translating.

SPI 245 Community Interpreting I (2/3/3)
Prerequisites: None
Corequisites: None
This course is designed to expose students to interpreting in areas such as social services, business and industry. Emphasis is placed on the development of social services, business and industry vocabulary through role-play. Upon completion, students should be able to consecutively interpret basic messages in a variety of social services, business and industry situations.

TURFGRASS MANAGEMENT

TRF 110 Intro Turfgrass Cult & ID (3/2/4)
Prerequisites: None
Corequisites: None
This course provides an in-depth study of turfgrass. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawn applications. Upon completion, students should be able to identify turfgrass species through characteristics and reproductive stages and develop an establishment and maintenance plan for high quality turf areas.

VITICULTURE & ENOLOGY

VEN 132 Wines of the World (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the major wine growing regions of the world, including their history, distribution, climate, and wine types. Emphasis will be placed on grape varieties planted, and upon environmental and cultural factors influencing grape growth and wine quality and style.

VEN 133 Intro. to Winemaking (3/0/3)
Prerequisites: CHM 131
Corequisites: None
This course provides an overview of the history of winemaking, fermentation, winery operations, and the physiology of wine consumption. Emphasis is placed on the types of wines produced in the United States with particular attention to wines of the Southeast. Upon completion, students should be familiar with general winemaking procedures.

VEN 134 Grape Harvest (1/0/1)
Prerequisites: None
Corequisites: None
This course introduces grape harvest practices. Topics include labor contracts; harvest crew organization; standards of fruit maturity; product transportation; and maintenance of fruit quality and grape crush. Upon completion students should be able to demonstrate competency in grape harvest management.

VEN 135 Intro. to Viticulture (3/2/4)
Prerequisites: None
Corequisites: None
This course introduces grape growing. Topics include botany, fruiting and rootstock cultivars; anatomy and physiology; history and distribution of grapes; vine classification; world growing areas including latitude, climate, and soils; and common diseases and pests. Upon completion, students should be able to demonstrate an overall understanding of the viticulture field.

VEN 136 Gen. Viticulture (3/0/3)
Prerequisites: None
Corequisites: None
This course surveys winter vineyard management practices. Topics include training, pruning, and trellising, grape diseases and their control, propagation, and vineyard economics. Upon completion, students should be able to demonstrate competency in managing vineyards through the winter months.

VEN 137 Vineyard Mgmt. (3/2/4)
Prerequisites: None
Corequisites: None
This course introduces the biology and control of grape diseases and disorders. Topics include fungal, bacterial, and virus diseases, phylloxers, insect and vertebrate control and vineyard floor management. Upon completion, students should be able to demonstrate an understanding of grape diseases and their control.

VEN 138 Vineyard Estab. & Dev. (3/0/3)
Prerequisites: VEN 135
Corequisites: None
This course covers site selection and preparation, varietal, clonal, and rootstock selection and planting, appropriate trellis systems, and vine training during the first year of growth. Emphasis will be placed on the development of healthy vines which will bear high-quality fruit at reasonable cost. Upon completion, students should be able to make independent decisions with regard to the establishment of a new vineyard.

VEN 139 Grape and Wine Sci (4/2/5)
Prerequisites: None
Corequisites: None
This course provides the students with basic elements of science necessary to the understanding of processes in viticulture and enology. Topics include the pertinent aspects of taxonomy, cell biology, chemistry, plant physiology, environmental biology, and soil science. Upon completion, students should be able to demonstrate the science associated with effective grape production and wine making.

VEN 235 Fall Vineyard Pract (3/0/3)
Prerequisites: None
Corequisites: None
This course covers general fall vineyard management practices. The topics covered include site selection, varieties, rootstock, information sources and fall diseases and their control. Upon completion, students should be able to identify diseases particular to fall weather, and demonstrate an overall knowledge of vineyard practices for fall weather.

VEN 236 Winery Practices (3/2/4)
Prerequisites: None
Corequisites: None
This course is a study of the fundamentals of commercial winery operations. Topics include equipment operation and maintenance, sanitation, and safety practices. Laboratory data is collected throughout the course and used to analyze the operation.

VEN 237 Wine Grape Production (3/0/3)
Prerequisites: AGR 138
Corequisites: None
This course covers cultural practices in wine grape production after the first year, including training, summer and winter pruning, canopy management, irrigation, mineral nutrition, crop rejutation, and harvesting. Emphasis will be placed upon particular problems associated with grape production in the southeast. Upon completion, students should be able to make decisions essential to the production of high-quality wine grapes.

VEN 238 Grape Pests, Dis & Disord (3/0/3)
Prerequisites: VEN 138
Corequisites: None
This course provides an introduction to pests and diseases of vineyards. Topics include pest/disease identification and control methods and sampling techniques, with emphasis on integrated management in pest control. Upon

completion, students should be able to identify and manage common vineyard pests and diseases.

VEN 239 Vineyard Mgmt II (3/0/3)
Prerequisites: VEN 138
Corequisites: None
This course covers practical aspects of the daily operations of the vineyard. Topics include scheduling and timing of vineyard activities, personnel acquisition and management, and legal and regulatory issues, as well as sources and types of supplies. Upon completion, students should be conversant with most aspects of vineyard management.

VEN 280 Wine Production (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces winemaking practices. The topics of study include fruit choices and quality, crushing, fermenting, bottling, basic winemaking chemistry and microbiology. Upon completion, students should be able to demonstrate knowledge of the overall winemaking process.

VEN 282 Wine Fermentation (3/0/3)
Prerequisites: VEN 133
Corequisites: None
This course addresses the nature, development, physiology, and control of yeasts and bacteria involved in the making, aging, and spoilage of wines. Topics include morphology, physiology, and culture of common wine microorganisms, their place in the fermentation process, and control of undesirable microorganisms. Upon completion, students should be able to manage fermentation and prevent or control wine spoilage.

VEN 283 Wine Production and Analy (2/6/5)
Prerequisites: VEN 133
Corequisites: None
This course applies previously introduced winemaking principles to actual wine production, while providing the student with sensory and chemical analytical tools fundamental to good winemaking. Topics of study include fruit choices and quality assessment, crushing, fermentation monitoring and control, analysis of product and the process decisions dictated by these analyses. Upon completion, students should demonstrate familiarity with wine analysis winemaking practices.

VEN 284 Wine Design & Mgmt (3/0/3)
Prerequisites: VEN 133
Corequisites: None
This course provides approaches to the design of a winery, including sizing, layout, materials, tools, and utilities required. Topics include estimating cost of production and daily operation, and regulatory issues in planning and operation of a winery. Upon completion, students should be equipped to make national decisions related to the efficient and economical operation of a winery.

VEN 285 Winery Operations (3/2/4)
Prerequisites: VEN 133
Corequisites: None
This course provides practical cellar-oriented winery experience. Students will be actively involved in the daily activities of the winemaking process. Upon completion, students should have an enhanced understanding of practical cellar operations.

VEN 286 Wine Marketing (3/0/3)
Prerequisites: VEN 132 and VEN 133
Corequisites: None
This course introduces students to aspects of marketing that are unique to the wine industry, and provides experience in designing and implementing a wine marketing plan. Emphasis is placed on the nature of the wine market, examples of marketing programs, and practical experience in their design and implementation. Upon completion, students should be able to demonstrate comprehension and familiarity with the tools and techniques of marketing wine.

VEN 287 Vineyard Operations (3/2/4)
Prerequisites: None
Corequisites: None
This course covers basic vineyard operations, including field applications and activities necessary for the successful operation of a commercial winegrape vineyard in the southeastern U.S. Topics include planting, canopy management, equipment selection and use, fertilization, harvesting and contracts. Upon completion, students will be able to make and implement sound viticultural decisions that allow the production of a sustainable and quality crop of grapes.

VEN 288 Wine Finishing & Pkging (1/4/3)
Prerequisites: VEN 283
Corequisites: None
This course introduces process applications and tools necessary for the satisfactory finishing of wines preparatory to bottling, and to the bottling process itself. Processes covered are aspects of wine stabilization, fining and filtration, sterile filtration and bottling. Upon completion, students should be able to demonstrate understanding of the processes and competency with the necessary tools and techniques.

WEB TECHNOLOGIES

WEB 110 Internet/Web Fundament (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces basic markup language, various navigational tools and services of the Internet. Topics include creating web pages, using Internet protocols, search engines, file compression/decompression, FTP, E-mail, listservers, and other related topics. Upon completion, students should be able to deploy a web-site created with basic markup language, retrieve/decompress files, e-mail, FTP, and utilize other Internet tools.

WEB 111 Intro to Web Graphics (2/2/3)
Prerequisites: None
Corequisites: None
This course is the first of two courses covering the creation of web graphics, addressing problems peculiar to WWW display using appropriate software. Topics include web graphics file types, type conversion, RGB color, the browser-safe palette, elementary special effects, image maps, and other related topics. Upon completion, students should be able to create graphics such as banners buttons, backgrounds, and other graphics for Web pages.

WEB 115 Web Markup& Script (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces client-side Internet programming using the current W3C-recommended presentation markup language and supporting elements. Topics include site management and development, markup elements, stylesheets, validation, accessibility, standards, browsers, and basic JavaScripting. Upon completion, students should be able to hand-code web pages with various media elements according to current markup standards and integrate them into websites.

WEB 120 Intro Internet Multimedia (2/2/3)
Prerequisites: None
Corequisites: None
This is the first of two courses covering the creation of Internet Multimedia. Topics include Internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create Internet multimedia presentations utilizing a variety of methods and applications.

WEB 140 Web Development Tools (2/2/3)
Prerequisites: None
Corequisites: None
This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.

WEB 210 Web Design (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces intermediate to advanced web page design techniques. Topics include effective use of graphics, fonts, colors, navigation tools, advanced markup language elements, as well as a study of bad design techniques. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web pages.

WEB 211 Advanced Web Graphics (2/2/3)
Prerequisites: WEB 110
Corequisites: None
This course is the second of two courses covering web graphics. Topics include graphics acquisition using scanners and digital cameras, graphics optimization, use of masks, advanced special effects, GIF animation, and other related topics. Upon completion, students should be able to create graphics optimized for size, graphic file type, properly converted from digitized sources and create useful animated graphics.

WEB 215 Adv Markup &Scripting (2/2/3)
Prerequisites: WEB 115
Corequisites: None
This course covers advanced programming skills required to design Internet applications. Emphasis is placed on programming techniques required to support network applications. Upon completion, students should be able to design, code, debug, and document network-based programming solutions to various real-world problems using an appropriate programming language.

WEB 220 Advanced Multimedia (2/2/3)
Prerequisites: WEB 120
Corequisites: None
This is the second of two courses covering Internet multimedia. Topics include use of advanced Internet multimedia applications. Upon completion, students should be able to create interactive Internet multimedia presentations.

WEB 230 Implementing Web Serv (2/2/3)
Prerequisites: NET 110 or NET 125
Corequisites: None
This course covers website and web server architecture. Topics include installation, configuration, administration, and security of web servers, services and sites. Upon completion, students should be able to effectively manage the web services deployment lifecycle according to industry standards.

WEB 240 Internet Security (2/2/3)
Prerequisites: WEB 110 and CIS 110 or CIS 111 and SEC 110
Corequisites: None
This course covers security issues related to Internet services. Topics include the operating system and the Internet service security mechanisms. Upon completion, students should be able to implement security procedures for operating system level and server level alerts.

WEB 250 Database Driven Websites (2/2/3)
Prerequisites: DBA 110 and WEB 140
Corequisites: None
This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.

WEB 289 Internet Technol Project (1/4/3)
Prerequisites: WEB 230 and WEB 250
Corequisites: None
This course provides an opportunity to complete a significant Web technologies project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete an Internet project from the definition phase through implementation. *This capstone course required to successfully complete the two-year Web Technologies degree program.*

WELDING

WLD 110 Cutting Processes (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.

WLD 112 Basic Welding Processes (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.

WLD 115 SMAW (Stick) Plate (2/9/5)
Prerequisites: None
Corequisites: None
This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes.

WLD 116 SMAW (Stick) Plate/Pipe (1/9/4)
Prerequisites: WLD 115
Corequisites: None
This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions.

WLD 121 GMAW (MIG) FCAW/Pl (2/6/4)
Prerequisites: None
Corequisites: None
This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.

WLD 131 GTAW (TIG) Plate (2/6/4)
Prerequisites: None
Corequisites: None
This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

WLD 141 Symbols & Specifications (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

WLD 261 Certification Practices (1/3/2)
Prerequisites: WLD 115, WLD 121, and WLD 131
Corequisites: None
This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

BOARD OF TRUSTEES

George L. "Andy" Anderson, Jr. ..... Yadkinville, NC
Charlotte S. Bokesch ..... Mount Airy, NC
Robert F. Comer ..... Dobson, NC
Barbara H. Harrell ..... Elkin, NC
Joe Hennings ..... East Bend, NC
Jewel D. Jarrell ..... Mount Airy, NC
Charles Madison, Chair ..... Elkin, NC
LaDonna McCarther, Vice Chair ..... Mount Airy, NC
Gene Rees ..... Mount Airy, NC
Michael F. Royster ..... Pilot Mountain, NC
Dan Stone ..... Pilot Mountain, NC
Bonnie H. Stuart ..... Elkin, NC
Paul H. Taylor ..... Mount Airy, NC
Betty Kay Vaughn ..... Mount Airy, NC
Inter Club Council President, Ex Officio
Fredrick G. Johnson, College Attorney
Dr. G. Frank Sells, SCC President, Secretary to the Board

PRESIDENT'S CABINET

Dr. Steve Atkins ..... Vice-President for Academic and Student Affairs
Jamie Childress ..... Dean of Student Development
Bob Hemmings ..... Dean of Evening Studies
Dr. Anne Hennis ..... Dean of Research & Assessment
Michael McHone .. Vice-President/Coordinator of Workforce Dev. Ctr.
Susan Pendergraft ..... Director, Human Resources & Auxiliary Operations
Dr. George O. Sappenfield ..... Associate Vice President for Corporate & Continuing Education
Dr. G. Frank Sells ..... President
Dr. G. Carson Tilley ..... Exec. Vice-President & Chief Financial Officer
Dr. Jami Woods .... Associate Vice President for Curriculum Programs

DIVISION CHAIRS

Dr. Dwight Atkins ..... Mathematics
Michael Ayers ..... Science
Carol Boles ..... Allied Health
Kandy Burnett ..... Cosmetology
Dr. Darin Cozzens ..... English/Communications
Randy LeQuire ..... Engineering Technologies
Danajean Mabry ..... Humanities/Social Sciences
Wilborn Rives ..... Business Technologies
Shelia Shelton ..... Computer Science/Electronics
Dr. Susan Worth ..... Developmental Studies

CONTINUING EDUCATION ADMINISTRATIVE STAFF

Debbie M. Cave ..... Nursing Assistant
Dean R. Gordon ..... Law Enforcement
Raymond (Ray) Hall ..... Computer Science
Bennie E. Harris ..... Industrial Training
Carmen P. Jessup ..... Human Resources Development
Kirk R. Killon ..... Emergency Medical
Dennis Lowe ..... Small Business Center
Wayne Matthews ..... Occupational: Yadkin County
Anna P. (Penny) Ruble ..... Basic Skills: Yadkin County
Dr. George O. Sappenfield ..... Associate Vice President for Corporate & Continuing Education
Gregory F. Smith ..... Community Services/Occupational
Virginia A. (Ginny) Stammetti ..... Basic Skills

AUXILIARY STAFF

BUILDING AND GROUNDS

Greg Belcher
Carolyn Bingman
Bobby Brown
Henry "Junior" Corn, Administrative Assistant
Brent Crissman
Butch Hazelwood
Danny Holt
Jerry Holt, Maintenance Supervisor-Evening
Roger Hunter, Maintenance Supervisor-Day
Brenda Hutchins
Dale Jessup
Michael Joyce
Rickie Mabe
Dennis Ray Sexton
Crystal Stevens
Tim Stevens
Curtis Workman, Director of Physical Facilities

KNIGHTS' GRILL (CAFETERIA)

Joan Bledsoe
Judy Gillespie, Assistant Food Services Manager
Eula Johnson
Michele Miller, Food Services Manager
Nettie Norman
Penny Tilley

2007-2008

SURRY COMMUNITY COLLEGE IS ACCREDITED BY THE COMMISSION ON
COLLEGES OF THE SOUTHERN ASSOCIATION OF COLLEGES AND SCHOOLS
(1866 SOUTHERN LANE, DECATUR, GA 30033-4097)
TO AWARD ASSOCIATE DEGREES, DIPLOMAS, AND CERTIFICATES.
[Questions concerning accreditation status may be
directed to the college (336-386-8121) or to SACS (404-679-4501)]

The provisions of this publication are not to be regarded as an irrevocable contract between the student and Surry Community College. The College reserves the right to make changes in the regulations, courses, fees, and other matters of policy and procedures as deemed necessary. The College further reserves the right, at any time, to request a student to withdraw when such action is considered to be in the best interest of the College.

Inquiries should be addressed to

SURRY COMMUNITY COLLEGE
630 SOUTH MAIN STREET
DOBSON, NC 27017-8432
TELEPHONE (336) 386-8121
FAX (336) 386-8951

Surry Community College provides educational and employment opportunities without regard to race, religion, national origin, age, gender, or disability.
For additional information, contact the Director, Human Resources/Auxiliary Operations (336) 386-3380.

Surry Community College is a certified drug-free workplace, an equal opportunity/ affirmative action employer, and an ADA compliant institution.

A MESSAGE FROM THE PRESIDENT

G. Frank Sells

We are happy to provide you with this copy of the *Surry Community College Catalog.* Within it you'll find information about the many programs and services that we offer you on our Dobson campus, at our Yadkin Center campus, and at other locations throughout Surry and Yadkin Counties. We're proud of the programs and services that we bring you because, just like our local college as a whole, they are built on a foundation of quality learning principles.

Your learning needs provide the reason for our existence and we keep that concept at the center of our daily operations. Your success in reaching your educational goals is the ultimate measure of the college's success, and we welcome that challenge. Your choice to become involved with any educational activity holds the potential for changing your life in dramatic ways, and we value your interest in becoming involved with Surry Community College.

I invite you to visit our campuses in person and talk with our faculty and staff about your interests and what we can do to assist you in pursuing them. I think you'll be very glad that you did!

Sincerely,

G Frank Sells

Dr. G. Frank Sells
President

PURPOSE OF THE CATALOG

The purpose of this catalog is to provide a general description of Surry Community College and its various programs and services. Its provisions do not constitute an offer for a contract which may be accepted by students through registration and enrollment in the College. Surry Community College reserves the right to change without notice any fee, provision, offering, or requirements for admission or graduation.

The student's catalog of record will be that in effect on the date of his first enrollment in a specific degree program as long as his enrollment is continuous. If the student changes programs or stays out of classes for one or more semesters, his catalog of record will be that in effect when he re-enrolls in his new or old program.

SURRY COMMUNITY COLLEGE
Dobson, North Carolina

COLLEGE MISSION

INSTITUTIONAL DESCRIPTION

Surry Community College is a public, community-centered, comprehensive community college with an open-door admissions policy. It is a member institution of the North Carolina Community College System. Its primary service area consists of Surry and Yadkin counties. The College offers educational programs which lead to associate degrees, diplomas, and certificates. It also offers a variety of learning opportunities and services through continuing education offerings.

MISSION

The mission of Surry Community College is to promote personal growth and community development through excellence in teaching, learning, and service.

INSTITUTIONAL GOALS

To fulfill its mission, the College will:

1. Identify and support under-prepared students.
2. Create and implement a comprehensive marketing strategy.
3. Implement strategies to develop new programs to respond to community needs.
4. Implement a process to identify programs that need to be revitalized or phased out.
5. Secure additional funds from external sources.
6. Use existing resources more effectively.
7. Improve communication regarding resource management.
8. Expand non-traditional delivery options.
9. Focus on distinguishing ourselves from the competition through relevant rigor and student focus.

VALUES

In planning and implementing activities to accomplish its mission, the College affirms the following values.

1. The College is committed to offering programs which allow individuals to start where they are and progress toward their educational and occupational objectives.
2. The College is committed to providing opportunities for lifelong learning and encouraging individuals to respond to such opportunities.
3. The College is committed to excellence in teaching and learning.
4. The College is committed to the concept of academic freedom in the classroom.
5. The College is committed to using emerging technologies, including distance learning technologies, to meet the training needs of students and the community.
6. The College is committed to working with other community organizations to promote the economic development of the area and to enrich the quality of community life.
7. The College is committed to providing opportunities and incentives for professional development to support a quality team of faculty, staff, and trustees unified by the mission of the college.
8. The College is committed to the development of effective ways to evaluate college programs and services, the use of results of evaluation to improve the college, and the appropriate reporting of results to the public.
9. The College is committed to making the institution a stimulating and rewarding place to work and study.

COLLEGE VISION STATEMENT

Surry Community College will strive, through a process of continuous improvement, to exceed the expectations of the people we serve. We strive for excellence in teaching and learning as we provide quality programs and services that anticipate and respond to the needs of a changing community. We are committed to the following values: integrity, academic excellence, personal responsibility, diversity, and a life-long love of learning. We will establish and stand by commitments which foster trust, pride, teamwork, and confidence. We will work to nurture a stimulating and productive educational environment characterized by

the free exchange of ideas,
effective and respectful communication,
innovative approaches to instruction, and
a climate of mutual support and caring among students, faculty, and staff.

PERFORMANCE MEASURES AND STANDARDS

Beginning with the 1999-2000 fiscal year, the North Carolina Community College System initiated a new process to ensure public accountability for state monies spent. The new system consists of twelve performance measures. While these measures do not reflect all aspects of Surry Community College's mission, they do reflect many of the key elements of our mission. The faculty and staff of Surry Community College welcome the opportunity to document for the communities we serve our performance on these measures. We are committed to continuous assessment and improvement of the programs and services we offer.

The table on Page 12 indicates how Surry Community College rated on each measure for 2004-2005. For more information on each measure, visit the North Carolina Community College System website: http://www.ncccs.cc.nc.us/Keith_Brown/docs/planning/perfmas.pdf. Questions may be addressed to the SCC Office of Planning, Research, and Assessment (336) 386-3451.

#	Measure	State Standard	SCC Results	Met Standard	Colleges Achieving	System Averages
1. $$	Progress of Basic Skills Students	75% show progress	75%	Yes	55	81%
2. $$	Passing Rates on Licensure & Certification Exams for First-Time Test Takers	80% aggregate & no single exam <70	92% aggregate & 1 exam < 70%	No	43	85%

12.	Program Unduplicated Headcount Enrollment	No Three-Year Average Annual Enrollment of <10	0 program <10	No	44	N/A

Note: Data were taken from 2006 Critical Success Factors for 2004-2005 fiscal year.

$$Measures 1-5 are included in the state Performance Funding Plan. Measure 8 was selected by SCC to also be included in the plan for the 2006 report. Surry Community College exceeded the state standard on 5 out of 6 performance funding measures and thereby achieved **superior status** for the 2006 report.

LEARNING COLLEGE PHILOSOPHY

Surry Community College embraces the concept of the "learning college."[1] As a learning college, SCC will ensure that every action and decision is made from a frame of reference that first ascertains how learning is impacted. Accordingly, the College subscribes to these six key principles[2]:

- The learning college creates substantive change in individual learners.
- The learning college engages learners in the learning process as full partners, assuming primary responsibility for their own choices.
- The learning college creates and offers as many options for learning as possible.
- The learning college assists learners to form and participate in collaborative learning activities.
- The learning college defines the roles of learning facilitators by the needs of the learners.
- The learning college and its learning facilitators succeed only when improved and expanded learning can be documented for its learners.

[1] Terry O'Banion, *Creating More Learning-Centered Community Colleges*, League for Innovation in the Community College, (1997).

[2] Ibid.

SCC LEARNING INITIATIVE

The *SCC Learning Initiative* seeks to engage faculty and staff throughout the college in systemic efforts to develop the learning environment's full potential. The *Initiative* aims to establish structures, policies, leadership practices, professional development, and curriculum initiatives designed to improve the educational outcomes of all students.

The project, proposed as a three-year Quality Enhancement Plan, intends to more fully transform Surry Community College into a 21st Century Learning College. Project objectives are as follows:

Reform Organizational Culture. The College will cultivate an organizational culture in which policies, programs, practices, and personnel support learning as the major priority.

Improve Student Engagement. The College will develop and implement strategies for improving learning. Professional development programs that prepare all staff and faculty to become more effective facilitators of learning will be identified and planned.

Establish Learning Outcomes Assessment Model. The College will agree on learning outcomes relevant for all degree programs, on strategies to improve learning outcomes, on assessment processes to measure the acquisition of learning outcomes, and on means for documenting achievement of outcomes.

ADMISSIONS INFORMATION

ADMISSIONS POLICY

Admission to Surry Community College is open to anyone who is eighteen years of age or older. Under certain conditions, individuals between the ages of sixteen and eighteen may be granted admission if their local school system recommends it as appropriate. Concurrent enrollment allows high school students the opportunity to enroll in specific courses while still attending high school. Details and student release forms necessary for participation are available in the college Student Development Office and in local high school guidance offices.

Although this open-door admission policy allows access to college courses for virtually anyone, immediate admission to some degree/diploma programs is dependent on various factors. These factors include the following:

1. Students admitted to all associate degree programs must have been awarded a high school diploma from an accredited secondary school or have earned either a GED or Adult High School Diploma.
2. Degree-seeking students must complete placement tests prior to enrolling. Results of the testing are used to ensure students' ability to succeed in certain programs. If results indicate a lack of readiness to begin college-level work, students will be required to complete appropriate developmental studies.
3. Students interested in pursuing a degree or diploma in any of the Surry Community College nursing programs must follow the specific admission procedures which follow.

GENERAL ADMISSION PROCEDURES

The Office of Student Development is responsible for the administration and coordination of all admissions procedures.

It's not complicated or time-consuming to become an SCC student. Students should decide whether they want to pursue a degree or take a few classes. Once this decision is made, help is available in the Student Development Office. Interested persons may call the office at (336) 386-3392.

Students Seeking a Degree

I. **Admissions Form:** Applications for admission may be obtained from the main campus, the Yadkin Center, the Workforce Development Center (Mt. Airy), or online at www.surry.edu. Completed forms are to be returned to the Student Development Office.

II. **Transcripts:** Have official transcripts sent to SCC from high school and any previously attended colleges. Postcards for this purpose are available in the Student Development Office. GED graduates should have copies of their scores sent to the SCC Admissions Office.

III. **Placement Tests:** An effective placement system is seldom one dimensional and this is true at Surry Community College. SCC offers the Computerized Placement Tests (CPT's) and the Paper Pencil Companion Tests to help students, with the assistance of a counselor or academic advisor, select courses and programs. The placement tests cover the important "Tool Skills" of reading, English, and math. All entering degree-seeking students are required to take the placement tests prior to enrolling. Applicants to the ADN and PN nursing programs must complete the placement tests as one part of the process for consideration for the pool of candidates for admission. (See Page 17.)

IV. **Pre-requisite Waiver Policy:** Surry Community College requires all students, including Huskins and dually enrolled students, to follow course pre-requisites as outlined by the North Carolina Community College System (NCCCS). However, students who have an extensive body of evidence (transcripts, test scores, portfolios, etc.) merit waiver consideration and may present their case to the division chair who oversees the course in question. Only the division chair responsible for the pre-requisite course in question can provide students a waiver.

V. **Course Scheduling:** After completing the placement tests, students should meet with an admissions counselor. During this meeting, a faculty (academic) advisor will be assigned to help the student plan his or her academic program.

Students Not Seeking a Degree (Special Credit Students)

I. **Admissions Form:** Applications for admission may be obtained from the main campus, the Yadkin Center, the Workforce Development Center (Mt. Airy), or online at www.surry.edu. Completed forms are to be returned to the Student Development Office.

II. **Course Scheduling:** Students should meet with the staff in Student Development to select courses they would like to take and for which they are adequately prepared.

ADMISSIONS CRITERIA FOR INTELLECTUALLY GIFTED AND MATURE STUDENTS UNDER 16 YEARS OLD

Prospective students must complete the admissions application process, including supporting documentation, 30 days prior to the start of the semester. All applications and supporting documentation will be reviewed by the Associate Dean for Enrollment Management. For a list of required documentation or for more information contact the Admissions Department.

INTERNATIONAL STUDENT ADMISSION

Information on the admissions process for international, foreign, or undocumented students may be obtained from the Director of Admissions at (336) 386-3392.

ADMISSION PROCEDURES FOR NURSING PROGRAMS:
2008-2010 ADN Class and 2009 PNE Class

A student's admission to either the Associate Degree Nursing (ADN) and the Practical Nursing (PNE) programs is based upon their grades and entrance test ranking with other applicants.

I. MINIMUM ADMISSIONS REQUIREMENTS

A. MINIMUM APPLICATION REQUIREMENTS

1. STUDENTS MUST DO THE FOLLOWING TO APPLY TO THE NURSING PROGRAM AND TO TAKE THE TEST OF ESSENTIAL ACADEMIC SKILLS (TEAS)

a. Complete the SCC General Admissions Application.
b. Have an official high school transcript or GED scores and official transcripts from all colleges attended mailed to the Admissions and Records Office. Official transcripts should be mailed from the institution(s) attended or be hand delivered by applicant in an envelope sealed by a representative of the school(s) attended.
c. Completed appropriate Placement Test, completed developmental prerequisites or achieved the cut off scores for credit in these courses.
d. **Have and maintain an overall GPA of 2.5 or higher in *all* post-secondary courses taken in the last 3 years. If high school students have no post-secondary courses they must have at least a 3.0 GPA in their high school courses.**
e. For ADN applicants who have not taken BIO 165 Anatomy & Physiology I , Biology and Chemistry must have been completed in either high school or college.

TEAS Test Schedule
ADN – January 26, 2008
PNE- May 17, 2008

2. COLLEGE PLACEMENT TEST SCORES

a. To be considered for admission to the program, all applicants must have completed all developmental prerequisites or met cut-off scores for exiting MAT 070, RED 090, and ENG 090.
b. If an applicant scores less than the minimum cut-off scores on the Placement Test, he/she will be required to complete the essential sequence of developmental courses. If the student completes all of the required remedial courses with a grade of "C" or better prior to the application deadline date and meets the other minimum requirements, he/she may be considered eligible to apply to the Program.
c. The College Placement Test or any combination of college placement tests may be taken twice in twelve (12) consecutive months and must have been taken in the last three years. However, when a nursing applicant has tested more than twice in twelve consecutive months, only the first two attempts will be considered in the application process. Placement test scores which violate the testing policy will be disregarded.
d. If the college placement test has been taken at another community college (in the past three years), it is the student's responsibility to ensure that the scores are transferred to Surry Community College.

3. REQUIRED PREREQUISITE FOR BIOLOGY 165 ANATOMY & PHYSIOLOGY I

Students who take BIO 165 at Surry Community College must have completed a Biology and a Chemistry course in high school or college.

4. **REQUIRED GRADES AND LENGTH OF TIME SINCE COMPLETING SCIENCE IF TAKEN PRIOR TO ADMISSION.**
Students must have achieved at least a "C" in all curriculum courses with no more than three attempts. BIO 165 & BIO 166 completion must have been within the last five years. (LPN/ADN students are exempt from "Length of Time Criteria.")

5. **TEST OF ESSENTIAL ACADEMIC SKILLS (TEAS): NURSING ADMISSION TEST**
   a. When the student has met all minimum application requirements, they must contact the Nursing Admissions Counselor in Student Development who will compete the checklist form which is required to register for the TEAS test. The student must then contact the Nursing Department's Administrative Assistant at 386-3275 to register to take the TEAS Nursing Admissions exam. A testing time will be provided when the applicant is scheduled for the TEAS. The cost must be paid at the time of registration.
   b. Nursing applicants are allowed to take the TEAS once a year (twelve months). TEAS scores are valid for three years. Study guides and online practice tests for the TEAS may be purchased online at www.atitesting.com.
   c. In order to be considered for the Associate Degree Nursing Program or Practical Nursing Program, a student must score at or above the national mean score for all students taking the TEAS the previous year. Those who have taken the TEAS in previous years should be aware that only those scores from the two most recent attempts will be considered.

6. **LPN/ADN APPLICANTS MUST HAVE A UNRESTRICTED PRACTICAL NURSING LICENSE IN NORTH CAROLINA OR ONE OF THE COMPACT STATES.**

II. CRITERIA FOR SELECTION OF NURSING STUDENTS

Those student applicants who have the highest rank on their grades earned in BIO 165, BIO 166, ENG 111, ENG 112 or 114 and RED 111 (current High School students in top 15% of class receive ten points) and the number of correct questions they have on the *Test of Essential Academic Skills (*TEAS) will be admitted into the nursing program. Students must achieve the required TEAS score to be considered for admission. The required TEAS score is the TEAS national average of questions answered correctly for the previous year.

III. ADMISSION NOTIFICATION

Those students who are accepted into the ADN program will be notified, by mail, in March before the fall semester entry point. Those students who are accepted into the PN program will be notified by mail, in July, before the spring semester entry point. Medical forms, acceptance cards and orientation information will be included in the acceptance packets. Students must immediately return acceptance forms in order to maintain their admitted status. Final admission status is contingent upon completion of the required items (See VI. Additional admission requirements) by the dates requested.

IV. NURSING ADMISSION TIMELINE

If your projected start date is fall semester:
(ADN program, including LPN/RN Option)

College Application	Completion of Minimum Nursing Application Requirements	TEAS	Acceptance Notification
January 25	January 25	January 26	March

If your projected start date is spring semester:
(PN program)

College Application	Completion of Minimum Nursing Application Requirements	TEAS	Acceptance Notification
May 16	May 16	May 17	July

V. MEETING

It is recommended that all nursing program applicants attend a Nursing Applicant Information Session. Contact the Nursing Admissions Counselor for more information.

VI. ADDITIONAL ADMISSION REQUIREMENTS

Admission into either nursing program is contingent upon completion of the following items by the dates requested. Prospective students **must** submit:

A. Valid documentation of current Nurse Aide I certification and any other current related certifications, licenses, etc. (LPN/ADN students are exempt from this requirement.)

B. A completed medical form with test results and the most recent dates of immunizations/proof of immunity, including a positive Hepatitis B titer, or a signed waiver; positive Chicken Pox titer or recent immunization; positive MMR titer; and Td booster within the last eight years. The medical form must be completed and submitted to the nursing department no later than June 1 for ADN students and September 1 for PN students. Arrangements will be made at the students' expense to have TB tests the first month of their initial nursing course and the same month the following year.

C. CPR provider certification class will be held for the entire class prior to the beginning of clinicals. Students will be responsible for the cost of the CPR class.

D. Evidence of appropriate health and/or accident insurance.

E. Malpractice insurance must be paid by the orientation session for new nursing students.

***F. Documentation** of one year of clinical experience with direct patient care in a health care agency within the last three years.

* Required for LPN/ADN program

VII. CRIMINAL BACKGROUND CHECKS AND DRUG SCREENING

In the nursing program, students are assigned clinical rotations in a number of participating agencies. Various accrediting bodies, as well as state and federal mandates regulate these agencies. The accrediting bodies or state and federal regulations may require that students while practicing in a clinical setting have a criminal background check or drug screening. The drug screening may be done once, before the student reports to the clinical agency, or randomly, during the clinical experience. If the student has a criminal conviction, tests positive for illicit drugs, or drugs that a student cannot produce a valid prescription, the agency may refuse to allow the student to participate in the clinical experience. The Surry Community College Nursing Department is supportive of the clinical agencies that choose to perform drug tests and/or criminal background checks on nursing students.

If a nursing student is prohibited from participating in a clinical agency based on their criminal background screening, the school will make every effort to place the student in a comparable clinical setting. If the school is unable to facilitate this placement, the student will be dismissed from the nursing program due to their inability to progress.

ADMISSION PROCEDURES FOR THE MEDICAL ASSISTING PROGRAM

The **Medical Assisting** program curriculum prepares graduates to perform entry-level administrative and clinical functions in the outpatient medical setting. Each graduating class is limited to twenty full-time students.

Application Process

Students must do the following:

1. Complete the SCC General Admissions Application.
2. Complete appropriate Placement Test(s). Meet minimum cut-off scores on the Placement Test(s).
3. Have an official high school transcript or GED scores mailed to the Office of Admissions at SCC. Official transcripts should be mailed from the institution(s) attended or be hand delivered in an envelope sealed by a representative of the school(s) attended.
4. Contact the Medical Assisting Program Director to be placed on the program waiting list.

Minimum Admissions Requirements

To be considered for admission to the program, all students must have completed all developmental prerequisites or met cut-off scores for exiting MAT 070, RED 090, and ENG 090.

If an applicant scores less than the minimum cut-off scores on the Placement Test, he/she will be required to complete the essential sequence of developmental courses.

If a Placement Test(s) was taken at another community college, the applicant has responsibility for ensuring the scores are transferred to SCC.

Any student who has taken MED 116 (or approved equivalent), MED 121, MED 122, and MAT 110, AND earned a "C" or better in each course will be given special consideration for acceptance into the program.

STUDENT CLASSIFICATION

A freshman is a student who has met regular admission requirements and has earned fewer than thirty semester hours of credit.

A sophomore is a student who has earned thirty or more semester hours of credit with at least a 2.0 quality point average.

Full-time students are those who carry academic loads of twelve or more credit hours each semester. Part-time students are those who carry fewer than twelve credit hours per semester.

ADMISSIONS REQUIREMENTS

Availability of programs based on educational preparation

If you have a . . .	*You may enroll in . . .*
High School Diploma	--**All programs
GED	--**All programs
High School Certificate	--Most diploma and certificate programs
No high school diploma, GED, or high school certificate	--Some diploma and certificate programs

In order to qualify for financial aid, a student must possess a high school diploma or GED.

***Nursing admissions information is listed on preceding pages.*

STUDENTS' RIGHTS AND RESPONSIBILITIES

STUDENT RIGHTS

Surry Community College exists to help students attain the educational goals they have set for themselves. When students register for classes and pay tuition, they gain certain specific rights designed to guarantee fair and consistent services for all students. Students have the right to

1) receive in writing the requirements, evaluation methods, and the method of grade determination of a course at the beginning of each semester;
2) appeal any grade they think is unfair;
3) express any concerns privately with instructors, administrators, and other staff members;
4) participate in a college-approved process of course evaluation;
5) access their official academic student records;
6) be assured confidentiality of their official student records; (Access to student records will be granted to appropriate college officials and persons or agencies having a legitimate educational interest. Others wishing access must have written consent from the student. An exception to the above right will be made in the event of legal action where the safety of persons or property is involved);
7) permanent maintenance of their academic transcript by the College; and
8) receive information concerning college student graduation rates.

STUDENT RESPONSIBILITIES

All programs establish certain academic requirements that must be met before an academic award is granted. Advisors, department chairpersons and deans are available to help the student understand and arrange to meet these requirements, but the student is responsible for fulfilling them. If at the end of a student's course of study, the requirements for graduation have not been satisfied, the respective certificate, degree, or diploma will not be granted. For this reason, it is important for each student to acquaint himself or herself with all academic requirements throughout his or her college career and to be responsible for completing all such requirements.

Students are responsible for

1) being aware of and abiding by institutional rules, regulations, and policies;
2) maintaining individual honor in their academic pursuits by neither participating in nor condoning acts of academic dishonesty;
3) maintaining the standards of academic performance established by each course in which they are enrolled;
4) learning the content and demonstrating the competencies of any course of study in which they are enrolled;
5) maintaining in each course the standard of classroom conduct deemed by the institution to be conducive to the learning process;
6) complying with procedures governing tardies and absences explained in each course syllabus;
7) reviewing periodically their institutional academic record for completeness and accuracy;
8) conducting themselves in an appropriate manner while on campus or while functioning as a representative of Surry Community College;
9) conducting the business of student clubs and associations in a fair and equitable manner; and
10) adhering to and complying with prescribed institutional grievance procedures.

GENERAL INFORMATION

TELEPHONES

Pay telephones are available for students to use at any time. These telephones are located in the almost all college buildings. **Students are requested not to use phones located in the college offices except in an emergency. Also, incoming calls for students will be honored only in the case of emergencies.**

LOST AND FOUND

If students have lost or found an item, they should check with the receptionist in the Business Office.

CHANGE OF NAME/ADDRESS

Students whose name or address changes while they are enrolled at the college should fill out a Data Change Card and submit it to the Admissions Office. Someone is also available in the evening to make these changes.

LOCKERS

A limited number of lockers are available for use on a first-come, first-served basis with the purchase of a lock. Check in the bookstore for availability.

FINAL EXAM SCHEDULE

The schedule for final examinations is distributed approximately two weeks before the end of each semester. Copies of the schedule are available from faculty advisors and counselors.

SMOKING

Smoking is not permitted in any campus building. Smokers should place all waste paper and cigarette butts in the proper disposal units outside each building. Please limit smoking to the designated areas outside of each building.

CHILDREN ON CAMPUS

Parents and other students are not to bring young children to class. The college liability insurance will not cover anyone who is not officially registered for classes at SCC. State law requires that a person be 16 years old in order to register for a class. Also, a small child in class can be disconcerting to other students and the instructor. SCC provides supplemental financial support for students unable to afford day care for their children. Students who have daycare needs should contact the Financial Aid Office in Student Development.

PARKING AND TRAFFIC

Parking and traffic regulations have been established to make the fullest use of the present parking facilities and to make the campus a safe place to visit, work, and study. All students and staff are required to register their vehicles during registration. Vehicle registrants must present the state vehicle registration card and remit $5.00 to obtain a parking permit. A copy of ***SCC Traffic Rules & Regulations*** is provided to all students and staff at the time of registration.

RELEASE OF STUDENTS' PICTURES

SCC uses pictures of college activities and students for public information and advertising purposes. Students who do not want to appear in such photographs should notify the Office of Student Development in writing.

STUDENT-RELATED POLICIES

STUDENT RECORDS POLICY

I. **Responsibility for Security and Release of Students Records.** Associate Vice President of Student Development.

II. **Definition of Student Records.** Records are defined as data of an administrative or educational nature normally stored in a student's cumulative record folder. Records not considered a part of the official school records include notes or other memory aids of a confidential nature maintained by school personnel for their own use in working with students. Such notes become part of the student's official record only when they are shared with another person.

III. **Right to Inspect Student Records.** An eligible student's request to inspect or review his or her record shall be honored within a reasonable time by the Associate Vice President of Student Development; in all cases, within 45 days after the initial request.

IV. **A.** Personnel who may have access to student records:
1. School officials within the local educational agency who have legitimate educational interests.
2. School officials of other local educational agencies in which the student intends to enroll.
3. Certain authorized representatives of the State and Federal Government (PL 93-380).
4. Official representatives of a college, university, or other higher educational institution in connection with a student's application for, or receipt of, financial aid.
5. All other persons may gain access to a student's records only with the specific written consent of the eligible student.
6. Recipients of student records will be cautioned that student information may not be released to third parties without the consent of the eligible student.

B. Information from a student's record should be furnished without the student's consent when required by a judicial order or any lawfully issued subpoena upon condition that students are notified by the law enforcement agency of all such orders or subpoenas in advance of the compliance. Eligible students will be provided with the opportunity to review and challenge their records prior to compliance of the school with the judicial order or subpoena.

V. **Request from Prospective Employers.** Every effort shall be made to cooperate with prospective employers of Surry Community College graduates. Information given shall be of a general nature such as: dates of enrollment; program of study; fair, poor, good, excellent student; participation in extra-curricular activities, etc.

COMMUNICABLE DISEASE POLICY

The communicable disease policy of Surry Community College is an effort to ensure the health and safety of all employees and students. This policy includes, but is not limited to, acquired immune deficiency syndrome (AIDS), chicken pox, hepatitis, measles, tuberculosis, meningitis, mononucleosis, and whooping cough.

Faculty, staff, students and employees of contractors or contracted services infected with communicable disease have the responsibility of reporting this fact to the Associate Vice President of Student Development, the Executive Vice President/Chief Financial Officer, or the Vice President for Academic and Student Affairs.

The College will support an ongoing program of educating and informing faculty, staff, and students about communicable diseases, warning signs, and protective measures through publications, seminars, and other appropriate means.

DRUG AND ALCOHOL ABUSE POLICY

Surry Community College has become increasingly aware of the immediate and long term health risks associated with the use of illicit drugs and the abuse of alcohol. These substances can create both physical and psychological dependence. The harmful effects of alcohol abuse are alcoholism; damage to brain cells; malnutrition; blackouts; memory loss; personality disorders; degeneration of muscles and bones; and the increased risk of cirrhosis, ulcers, heart disease, heart attack, and cancers of the liver, mouth, throat, and stomach. The harmful effects of drug abuse include hallucinations, heart problems, malnutrition, loss of coordination, coma, convulsions, damage to the lungs, brain, liver, and bone marrow, risk of AIDS or hepatitis, or death.

Drugs and alcohol are detrimental to the learning process. Surry Community College pledges full support to other agencies in our community in the fight to rid our society of these elements in the school environment. Therefore, drug or alcohol use, possession, and distribution on school grounds and at school functions by students or school personnel will not be tolerated. Surry Community College will impose sanctions on students and employees consistent with local, state and federal laws.

CHEATING AND PLAGIARISM POLICY

Students at Surry Community College are expected to complete their coursework without resorting to any form of cheating or plagiarism. SCC is a learning college committed to enhancing and improving student learning; when students cheat on assignments and tests, they rob themselves of the very learning opportunities they are paying for.

Cheating involves giving unauthorized help of any kind to another student on written assignments or tests. It also includes receiving such help from another student. Examples of cheating include possessing unauthorized notes during a test; assisting others to cheat; altering grade reports; giving test questions to students who have not taken the test; taking a test or writing an assignment for another person; and entering an instructor's office without authorization.

Plagiarism is offering the work of another person as one's own without proper acknowledgment. Examples of plagiarism include copying a source (whether it be phrases, sentences, or paragraphs) verbatim without using quotation marks; quoting or paraphrasing a source without including a citation; failing to give credit for a source's ideas; inaccurately citing and listing bibliographic information; and purchasing papers on the Internet to submit (in part or in whole) under one's own name.

Any student who engages in these activities will be subject to disciplinary action. Each faculty member at SCC outlines his/her policies on cheating and plagiarism, including disciplinary actions, in course syllabi. Students should be aware that there is no college-wide system of penalties for plagiarism and cheating and that individual instructor's policies are respected and followed. Students do have the right to due process through the review and appeal council. Any appeal or grievance should be filed with the department chairperson, appropriate dean, or supervisor within 30 days after the incident or problem developed.

Student Responsibilities: It is the students' responsibility to provide proof that all written work is indeed their work. Students should copy all drafts, notes, revisions, and source material (e.g., note cards) to offer as proof of ownership if such proof is requested. Students should acknowledge any assistance they have received, including proofreading, and should decline any unauthorized assistance on assignments. Students should not submit the same assignment in more than one course unless they have received prior permission from both instructors. Students should avoid the appearance of cheating during tests by covering their answers, sitting away from friends, keeping their eyes on their own work, speaking only to the instructor, and clearing their work space of all unauthorized material.

HARASSMENT AND DISCRIMINATION POLICY

Surry Community College prohibits discrimination based on race, color, creed, religion, national or ethnic origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status and will not tolerate any form of unlawful discrimination or harassment. Surry Community College will take all steps necessary to prohibit unlawful discrimination and/or harassment in the workplace and educational setting. All employees and students are responsible for ensuring a work and educational environment free from prohibited discrimination and harassment. Employees and students are encouraged to report violations of this Policy in the manner hereinafter stated.

1. **Scope of Policy**. This Policy applies to all Surry Community College employees and students, and to all College sponsored events, programs, and activities both on and off campus.
2. **Policy Objectives**. By adopting and publishing this Policy, it is the intention of the Surry Community College Board of Trustees to: (1) notify employees and students about the types of conduct which constitute unlawful discrimination or harassment prohibited by this Policy; (2) inform employees and students about the complaint procedures established by the College which enable any employee/student who believes (s)he is the victim of unlawful discrimination or harassment to submit a complaint which will be investigated by the College; (3) clearly advise all supervisory staff, administrators, employees, and students that discriminatory treatment or harassment based on race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, and veteran or marital status is strictly prohibited and no such person possesses the authority to harass or discriminate; and (4) notify all employees and students that the College has an appointed Compliance Officer who

is specifically designated to receive complaints of discrimination or harassment and to ensure compliance with this Policy.

3. **Definitions.**
   A. **"Prohibited Discrimination of Employees and/or Students"**.
   Prohibited discrimination of employees and/or students is any form of negative treatment of an employee or a student, by either a College employee, official, or student which: (a) negatively impacts an employee's employment opportunities and/or employment negatively impacts a student's educational opportunities; *and* (b) is based upon the employee's or student's race, color, creed, religion, national or ethnic origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status. Prohibited discrimination of employees or students can also take the form of harassment even where there is no tangible impact upon the employee's employment opportunities and/or employment benefits or the student's educational opportunities. The phrase "prohibited unlawful discrimination" as used in this Policy includes all forms of "prohibited unlawful harassment" (defined below).
   B. **"Prohibited Unlawful Harassment"**.
   Harassment can constitute a form of prohibited unlawful discrimination under this Policy if it is unwelcome and has the purpose or effect of unreasonably interfering with an individual's work or educational performance, or creating an intimidating, hostile or offensive working or educational environment. Such harassment of employees or students is prohibited by this Policy if it is based upon race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, and veteran or marital status. In this regard, individuals subject to this Policy should be mindful that conduct or behavior that is acceptable, amusing or inoffensive to some individuals may be viewed as unwelcome, abusive or offensive to others.
   C. **"Prohibited Behavior"**. While it is impossible to list all of the possible forms of unlawful harassment, the following is a list of *examples* of conduct that may constitute harassment:
   - Using slurs or derogatory terms based on race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status
   - Telling derogatory jokes or stories based on race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status
   - Displaying graffiti or other derogatory or insulting writings based on race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, and veteran or marital status
   - Making degrading comments about a person and/or his or her appearance based on race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status
   - Demeaning or criticizing an individual because of his or her race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status
   - Sabotaging, damaging, or interfering with an individual's work because of that individual's race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status
   - Threatening or intimidating an individual because of his or her race, color, creed, religion, national origin, disability, political affiliation, age, sex, sexual orientation, or veteran or marital status.

This list is not intended to be all-inclusive. Furthermore, while a single incident of these types of behavior may not create a hostile working or educational environment, if such behavior is severe, persistent or pervasive, or if submission to such conduct is made either explicitly or implicitly a term or condition of employment or receipt of employment benefits or educational outcome, such conduct constitutes prohibited discrimination and/or harassment.

4. **Policy Enforcement.**
   A. **Complaint Procedure for Employees and/or Students**
      1. **Notification Procedure**. Prompt reporting of complaints or concerns is encouraged so that timely and constructive action can be taken before relationships become strained. Reporting of all perceived incidents of prohibited discrimination and/or harassment is encouraged, regardless of the offender's identity or position. An individual who feels aggrieved because of harassment or unlawful discrimination has several ways to make his or her concerns known:

a. An aggrieved person who feels comfortable doing so should directly inform the person[s] engaging in the harassment or unlawful discrimination that such conduct or communication is offensive and must stop.

NOTE: Confronting the offender is NOT required. All employees and/or students have the right to file a complaint without first communicating with the offender.

b. An aggrieved person who does not wish to communicate directly with the individual whose conduct or communication is offensive, or if direct communication with the offending party has not stopped the behavior, should contact the Compliance Officer listed in Section 8 of this Policy, or any Dean or Vice President, or the President.

c. An aggrieved person alleging harassment or discrimination by anyone with supervisory authority, or alleging failure of supervision to take immediate action on the individual's complaint, should contact the Compliance Officer, any Dean or Vice President, or the President.

2. **Making a Complaint**. All complaints should be in writing and should include: the name of the complaining party, the name of the alleged offender(s), date of the incident(s), description of the incident(s), names of witnesses to the incident(s) and the signature of the complaining party. Once the complaining party has completed and dated a written complaint, the complaint may be submitted, either by hand delivery or mail, to the Compliance Officer listed in Section 8 below, to any Dean or Vice President, or to the President who will then advise the Compliance Officer. Complainants are expected to cooperate with the College's investigation procedures by providing all relevant information relating to the complaint, as are other individuals having relevant or related knowledge or information.

B. **Time for Reporting a Complaint**. Prompt reporting of all complaints is strongly encouraged to ensure appropriate resolution of discrimination and harassment complaints.

C. **Confidentiality and Privacy**. In recognition of the personal nature of discrimination and harassment complaints and the emotional impact of alleged discrimination and harassment, the College shall keep complaints as confidential as is consistent with a thorough investigation and with laws and regulations regarding employees and/or students.

D. **Acknowledgment of Complaints**. Upon receipt of a written complaint, the Compliance Officer, Dean, Vice President, or President shall contact the complainant within 10 business days to confirm that the written complaint has been received. If the complainant does not receive such confirmation promptly, (s)he is encouraged to contact the Compliance Officer, Dean, Vice President, or President. The purpose of this acknowledgment procedure is to ensure that all written complaints are received by authorized individuals, carefully processed, and promptly investigated.

5. **Investigation Procedures.**

A. **Timing of Investigations**. The College will promptly investigate all allegations of discrimination and harassment prohibited by this Policy and shall initiate the investigation within ten (10) business days following receipt of the complaint. The College will also attempt to complete investigations under this Policy promptly. The length of the investigation will depend upon the complexity and particular circumstances of each complaint.

B. **Method of Investigation**. Investigations will be conducted by the College's Compliance Officer, the College's legal counsel, and/or other impartial persons designated by the President. The primary purposes of all investigations under this Policy will be to determine: (1) Did the conduct complained of occur?; (2) Did the conduct complained of violate this Policy?; and (3) What remedial or preventative steps, if any, are recommended? The College will investigate each complaint in a thorough and comprehensive manner. Any notes, memoranda, or other records created by College employees or agents conducting an investigation under this Policy shall be deemed confidential and/or privileged to the extent allowed by law.

C. **Notification to Complaining Party and the Accused Party**. The President or his/her designee shall notify the complainant of the outcome of the investigation with justification for his decision. Such notification shall be in writing, shall include a brief summary of the factual findings and, wherever possible, shall include a summary of any remedial measures that have been or will be taken by the College. While reasonable efforts will be made to inform the complaining party about the outcome of investigations, the College will nonetheless consider the privacy rights of all parties involved in disseminating information obtained during and through the investigation. The President shall notify within fourteen (14) business days following the completion of the investigation the person accused

of violating this Policy whether a violation of this Policy was found and what remedial measures, if any, will be taken by the College or recommended to the Board of Trustees for action.

D. **Remedial Measures**. Surry Community College's primary goal in responding to complaints of prohibited discrimination under this Policy is prevention. This Policy is intended to prevent all forms of unlawful discrimination and harassment in the College and put an end to any prohibited discrimination that is found to have occurred. While disciplinary action may be appropriate in certain instances, punitive measures are not the exclusive means for responding to prohibited discrimination. During the pendency of any investigation being conducted pursuant to this Policy, remedial measures may be taken if appropriate and necessary. Any individual who is found to have engaged in prohibited discrimination or conduct which may be prohibited by this Policy, may receive education, training, counseling, warnings, discipline, and/or other measures designed to prevent future violations of this Policy. Disciplinary action may include reprimands, warnings, suspension, or discharge from employment or enrollment, in the event of a student. Any third party found to have engaged in discrimination or harassment of an employee and/or student may be barred from College property.

Time limitations set forth above in paragraphs A, B, and C may be extended by mutual agreement of the complainant and respondent with the approval of the President. Such extensions shall be confirmed in writing.

6. **Prohibition Against Retaliation And Abuse Of The Policy.** Retaliation is strictly prohibited by this Policy and by law against anyone who in good faith reports a suspected violation of this Policy, who assists in making such a complaint, or who cooperates in a harassment or discrimination investigation. Retaliation means taking any adverse action in response to a complaint being made. Written complaints of retaliation should be brought directly to the Compliance Officer, Dean, Vice President, or the President. The written complaint should specify the date(s), time(s), locations(s), and witness(es), and should describe the incident(s). Such complaints will be promptly investigated. If retaliation is found, the person retaliating will be subject to corrective action up to and including termination from employment, or in the case of a student up to and including suspension and/or dismissal. Because of the damage resulting from false accusations, any individual who in bad faith knowingly makes a false complaint or report of harassment or discrimination will be subject to disciplinary action up to and including termination from employment, or in the case of a student up to and including suspension and/or dismissal.

7. **Appeals.** Any complainant or accused party who wishes to appeal the procedures which the College followed in investigating a written complaint filed under this Policy, may do so within ten (10) business days of receipt of the appellant's notification of the investigation outcome. Untimely submissions shall not receive consideration. Such appeal must be made in writing to the Board of Trustees by submission to the President. The appellant shall be entitled to a hearing before the Board of Trustees or a panel of its membership selected by the Board's Chairperson. At the hearing the appellant may be represented by counsel at his or her expense and may present evidence as to why the decision of the President should be reversed or modified. Following a review of the evidence, as well as the information obtained in the investigation process and conclusions derived therefrom, the Board of Trustees shall issue a decision within fourteen (14) business days following completion of the hearing. The decision of the Board of Trustees shall be final.

8. **Compliance Officer**. The Director of Human Resources shall be the Compliance Officer for purposes of this policy and can be reached at (336) 386-3380.

9. **Effective Date And Policy Dissemination**. The effective date of this Policy shall be January 1, 2005. The President shall ensure that this Policy is adequately disseminated and made available to all employees and students of the College. This Policy shall be distributed at the beginning of each academic year with or as part of the College's Policy and Procedure Manual and on the College's web page at *www.surry.edu*. In addition, copies of this Policy shall be maintained at the following College offices: Admissions, Student Development, Human Resources, and the President.

Adopted by the Board of Trustees February, 2005

CAMPUS SECURITY POLICY

Federal regulations require that colleges inform all students and employees about recent crime statistics and related concerns. There were no occurrences of criminal activity reported and no arrests made on campus during 2005.

Surry Community College is a drug-free campus. Policies relating to this matter are available in their entirety in the Student Development Office, Building A-Room 108, and on the college web site.

1. **Reporting Criminal Activity.** Students and staff are advised to report any emergency or crime to the SCC Police Department and to the switchboard as soon as possible. These staff will report any crime that takes place at SCC to the College Police Department. In cases of extreme emergency, telephones are conveniently located throughout the campus for "911" calls.
2. **Orientation.** Students are advised of security and safety regulations at SCC during fall orientation and in College Student Success classes. Students are also familiarized with the college drug and alcohol policy, and are advised to seek help in Student Development for any related problems. Student Development refers students to other community agencies for additional services when appropriate.
3. **Safety Committee.** SCC has an active safety committee chaired by the Executive Vice President/Chief Financial Officer. This committee monitors all aspects of campus safety and security. Reviews of lighting, visibility, parking lot security and building security are made on a regular basis.
4. **Campus Police.** SCC is a certified law enforcement agency, and as such, employs sworn law enforcement officers to enhance the safety of students and staff while on campus. The police force patrols the campus on a regular basis. The officers are authorized to enforce federal, state and local laws, as well as certain campus policies, and they do have full arrest powers. The SCC Police Department cooperates with federal, state and local police agencies in law enforcement matters.
5. **Programs and Seminars.** SCC's Police chief speaks to all orientation classes about campus security and explains current policies to all new students. SCC offers one seminar per year on sexual assault/date rape and drug/alcohol concerns. SCC registration forms inform students about the Drug and Alcohol Policy, Sexual Harassment Policy, prohibition of weapons on campus, unlawful demonstrations, violence or force, and campus security. This information is also available in the SCC catalog. All on-campus activities are designated as drug-free activities. SCC hosts an annual Health Fair where information is available regarding domestic violence and other personal issues. One SCC counselor in Student Development is assigned to advise students on alcohol/drug issues.
6. **Publications.** The annual campus security report is published on the SCC website. *(www.surry.edu)*.
7. **Security Awareness.** The Chief of the SCC Police Department is responsible for collecting statistics on campus crime and for maintaining a daily public crime log. The Chief is also responsible for distributing the campus security report to all employees. The Student Development Office is responsible for distributing the report to students and for informing the campus community in a timely manner of certain crimes considered to represent a threat to students or employees.

Surry Community College attempts to provide a safe environment in which to learn. The occurrence of crime on campus has been minimal throughout the history of the College. However, students are advised to keep up with books and other possessions and to lock their vehicles. Evening students are advised to walk to their cars with other students, especially if they stay late to complete a class or assignment. In general, SCC parking lots are close to the classroom buildings and are well lighted. The College is committed to providing a learning environment that is as safe and secure as possible.

Approved September, 2000; President's Cabinet

APPEAL PROCESS POLICY

In order to be fair and guarantee due process for faculty, employees, and students, the Board of Trustees of Surry Community College recognizes the need for an Appeal Policy. In approving the policy, the Board of Trustees recognizes that problems should be solved at the level of occurrence. The adoption of an Appeal Policy by the Board of Trustees does not relieve individuals of making every effort to find a solution to the problem before making an appeal to the next authority.

I. Hearing the Appeal Procedure

A. If a person has a grievance or if an impasse occurs between persons at the College, the aggrieved person may request in writing within 30 days a hearing by the department chairperson and appropriate dean or supervisor of employees. A hearing shall be granted within seven days, and within five days after such a hearing, the department shall render in writing a decision on the grievance. A copy of the decision shall be given to the petitioner and a copy filed with the president of the college.

B. If the person receives an unsatisfactory decision from the hearing as outlined in Paragraph I.A., the petitioner may request in writing within seven days for a hearing or a review of the decision by the Appeal Council of the College. The Appeal Council shall render its decision in writing within five days after receiving the request from the petitioner.

C. If the person receives an unsatisfactory decision from the Appeal Council, the petitioner may request in writing for a hearing or a review of the decision by the president. The person shall file his or her request within seven days from the time he or she receives the decision of the Appeal Council.

D. A dean or supervisor of employees shall file his or her grievance directly with the Appeal Council.

II. Appeal Council

The Appeal Council is composed of the college's Vice President for Academic and Student Affairs, the Associate Vice President of Continuing Education, Dean of Student Development, and three faculty representatives selected by the Employee Association.

A. Schedule of Hearings. Upon receipt of a written request for hearing by a petitioner, the Appeal Council shall conduct such hearing within a period of seven days.

B. Notice of Hearing. The petitioning party shall be given at least three days notice of the date, time, and place of the hearing.

C. Conduct of Hearing

1. The petitioning party shall appear before the Appeal Council with witnesses and evidence to support his or her contentions as to the reasons the decision should not be affirmed, but should be changed or modified.
   a. It shall be at the discretion of the Appeal Council to determine the number of witnesses it will hear about the matter under consideration.
   b. All witnesses may be questioned by the petitioner and by the members of the Appeal Council.
2. Within five days after the termination of the hearing, the Appeal Council shall render its decision in writing and furnish a copy to the petitioner and file a copy with the president of the college.

III. Board of Trustees

Requests for Hearing. Within 30 days after a petitioner receives an unsatisfactory decision from the president, the petitioner may file a written request with the president of the college for a hearing by the Board of Trustees stating the reason for the appeal. The hearing by the Board of Trustees shall be conducted according to Article VI of the Bylaws of the Board of Trustees of Surry Community College.

IV. Failure to File Notice of Appeal

Failure to file a notice of appeal within the specified time limit shall result in the termination of the right to appeal unless such failure to file is the result of just cause not attributable to the petitioner.

Adopted June 14, 1976; Amended August 19, 1996

ATHLETIC POLICY

Surry Community College will provide intercollegiate athletic programs to the extent that facilities, as well as student and financial resources, are available to support them. Such programs and the teams that comprise them will continue to receive college sponsorship as long as they remain in good standing with the College and resources allow.

Students are requested to contact the Associate Vice President of Student Development to begin the process of creating a new athletic program. New programs will be started as club teams. If significant long-term interest and adequate support can be identified, National Junior College Athletic Association (NJCAA) caliber teams will be sponsored. All teams will be financed with student activity funds and/or monies raised by the participants. No student activity funds will be used for administrative expenses or coaching supplements.

Surry Community College sponsors all athletic programs without regard to race, religion, national origin, age, gender, veterans status, or disability. Moreover, the College operates its athletic programs in accordance with the NJCAA bylaws for Division III schools, which prohibit athletic scholarship aid of any kind. Although some SCC teams may compete at the Division I and II levels at times, the College will retain its Division III status and will provide no scholarship monies for student athletes.

STATEMENT OF COLLEGE POLICY

Surry Community College is proud of its history, its faculty, and its student body. A statement at this time does not indicate any special concern in regard to possible activities on our campus such as have been witnessed on college campuses across the country. However, in view of the temper of the times, we believe it proper to reassure our students, faculty, alumni, and friends by a clear statement relative to the following items:

1. Surry Community College is a county owned and state operated and controlled community college. It has grown and expanded over the past few years with state and local funds. In accordance with state law, its management and control are the responsibility of the Board of Trustees.
2. Surry Community College proudly affirms its belief in and support of the philosophy of individual freedom and responsibility. Academic freedom is not academic license, and the right to criticize and protest is not the

right to disrupt or interfere with the freedom of others. Surry Community College believes in a government of law and not of men. It is the right of any citizen to criticize, protest, and attempt to change the law in accordance with constitutional procedures. It is not the citizen's right, however, to disregard or disobey the law even under the excuse of his own conscience.

3. A student enters Surry Community College voluntarily. Students apply presumably because they wish to further their education and because they believe Surry Community College, with its traditions and reputation, is capable of advancing their intellectual development. Any student who is not in agreement with the rules and regulations, traditions, and policies of the college is always welcome to suggest changes in an orderly manner; however, having been accepted and having decided to enroll, he or she is expected to abide by the laws of our nation and comply with the rules and policies of Surry Community College until change is accomplished by proper procedure.
4. Moreover, the administration of the College pledges unequivocally to give full and prompt attention to proposals presented in a serious and orderly manner. The use of violence, disturbances, or force of any kind--whether by single students, a minority or a majority group--will not be tolerated.

Accordingly, the Board of Trustees formally announces this college offers no sanctuary to any individual or group which condones, advocates, or exercises the taking over or damaging of property or the use of intimidation or physical force. Any who engage in such activities will be held legally and individually responsible. Corrective steps may include suspension, expulsion, and/or prosecution in the courts of the State of North Carolina.

-Board of Trustees, SCC

BULLETIN BOARDS POLICY

1. Campus bulletin boards are provided for use by recognized student organizations and by individual students for the sale of used books.
2. For purposes of this policy a "recognized student organization" is defined as an organized student group that is recognized by the Student Development Office. To attain this recognition, a student group must file with the Associate Vice President of Student Development an application stating the names, addresses, and student identification numbers of at least ten students who are members of that group, the name and signature of a Surry Community College faculty member who has agreed to serve as advisor for the group, and a copy of the group's bylaws, constitution, or other document outlining its purpose or function.
3. Prior to posting, all materials must be presented to the Associate Vice President of Student Development (or his designee) for verification of the group's recognized status. Neither the recognition of a student organization nor the authorization for its use of campus bulletin boards is the affirmation or acceptance by Surry Community College of the organization's purpose, philosophy, or objective.
4. The use of campus bulletin boards by recognized student organizations or by individual students for the sale of books is subject to the following general regulations:
   - All materials posted on campus bulletin boards must be directly related to college programs.
   - All posted materials must be clear and legible, must include the organization's name and must provide current contact information.
   - Posted materials shall not include: (1) any commercial advertisement; (2) any endorsement of the use, sale, consumption, or distribution of alcohol, controlled substances, or illicit drugs; or (3) profanity, or other language that is offensive, discriminatory, or harassing.
   - No notice, advertisement, document, or signage of any kind may be affixed to any building, wall, window, door, street, sidewalk, traffic sign, campus signage, light post or pole, trash can, staircase, railing, tree or other vegetation, or any other part of the campus of Surry Community College. Campus bulletin boards are the sole designated location for posting of communication.
   - The use of campus bulletin boards to advertise the sale of used books is limited to current or former students of Surry Community College and limited to required or supplemental books used in courses offered through Surry Community College.
5. Any violation of this policy shall result in the immediate forfeiture of the privilege of using campus bulletin boards.

INFORMATION TECHNOLOGY ACCEPTABLE USE POLICY

Electronic information technology systems at Surry Community College are essential and indispensable tools for learning, research and administration. It is the policy of the College that the facilities be used ethically and legally, in

accordance with applicable licenses and contracts, and according to their intended use for educational purposes in support of the college's mission and goals. The systems are owned by the College and provided for the appropriate use of students, faculty, and staff. It is expected that all users of these systems will do so responsibly, respecting the rights of other users, maintaining the integrity of the physical facilities and adhering to all applicable laws and regulations. Access to electronic systems is a privilege that is granted by the College and comes with a responsibility to respect the rights of other users and the rights of the College at all times. All technology equipment and records are considered the property of Surry Community College, and their use may be monitored as a means to ensure their proper and effective use. Users should be aware that seemingly private computer records may be subject to public disclosure.

Examples of specific activities not permitted on college-owned equipment include:

- Sending or displaying offensive messages, pictures or materials;
- Using obscene language, or sending/posting any harassing, abusive, libelous, or obscene materials, or assisting in any similar activities;
- Damaging electronic components, computers, computer systems, or networks, including knowingly transferring viruses;
- Violating the rights of any person protected by copyright, trade secret, patent, or other intellectual property laws, including, but not limited to, the installation or distribution of "pirated" or other software products that are not appropriately licensed for use by the College;
- Trespassing in others' files, folders or storage areas of any kind or using others' passwords;
- Intentionally wasting limited resources (Internet time, supplies, etc.);
- Using the network for commercial, political or any unlawful purposes; or
- Connecting to inappropriate Internet sites, such as pornography, hate groups, and other similar sites.

The advent of electronic voice mail and email has made possible the instantaneous broadcast of information campus-wide. While this technology provides the College with expanded communication capabilities, it also provides the opportunity for a type of "span" to be inflicted on the unsuspecting. The All Surry email distribution list for example, sends messages to every employee with a computer, on campus, as well as at the Boonville and Mt Airy centers. Prior to sending a broadcast message through any electronic information system, therefore, the sender should ensure that

- Distribution lists are as accurate as possible, so that faculty/staff do not receive information that does not apply to them, and that
- The content of broadcast messages relates to college business and has been approved by a division chair, director or dean.

The broadcasting of chain letters and other personal messages is not an appropriate use of this technology.

North Carolina criminal statutes outlaw certain computer-related conduct, including unauthorized access or use of another person's computer, computer system, or computer network to (1) commit fraud or obtain property under false pretenses; (2) cause computer-related damage; or (3) alter, disable, delete, or copy computer data. Most of these criminal provisions apply in incidents involving computer "viruses" or "hacking." It is also a crime to send (or allow to be sent) electronic communications that (1) threaten harm to a person or property; (2) are sent, repeatedly, for the purpose of "abusing, annoying, threatening, terrifying, harassing, or embarrassing any person," or (3) contain any false statement "concerning death, injury, illness, disfigurement, indecent conduct, or criminal conduct … with the intent to abuse, annoy, threaten, terrify, harass, or embarrass." Educational institutions or officials who are victimized by such conduct, therefore, may file criminal charges against perpetrators of such crimes, and may recover damages through civil actions.

Electronic information systems include, but are not limited to, terminals, computers, computer peripherals, communication devices, telephones and telecommunications equipment, fax machines, computer data networks, video equipment, tapes or video networks, photocopying machines, computer software, supporting documentation, supplies, storage media, support facilities and energy sources. Electronic systems are limited to those leased, rented, owned by, or loaned to the College wherever located.

Violation of this policy should be reported to the appropriate area supervisor. Violations may result in suspension of privileges to access the information technology involved, initiation of college disciplinary procedures, or in extreme cases, criminal prosecution under federal or state law. Before attempting any activity about which you are in doubt, or if you have questions about this policy, consult your local area supervisor, dean or vice-president.

Approved by the Technology Executive Committee 3/3/97
Last updated July, 2001 by the President's Cabinet

CURRICULUM PROGRAMS AND ACADEMIC SUPPORT SERVICES

DEGREES

A.A./A.S. (Associate in Arts and Associate in Science Degrees)

The College Transfer Program offers courses designed to parallel those taken during the freshman and sophomore years of study at a four-year college or university. During these first two years, students pursue general education courses in the areas of humanities, social sciences, mathematics, and science. This program provides great flexibility in course requirements so that students can design a curriculum plan to lead them smoothly into the junior year of a particular four-year college or university.

Students may choose to stay long enough to earn an Associate in Arts or Associate in Science Degree, or they may choose to transfer the credit they've earned at any time along the way. Counselors are available to help students plan their programs to meet their specific needs.

Many courses within the College Transfer Program will also appeal to adults who are not really interested in earning a degree or in transferring to another college. These *Special Credit Students* may take courses in any program for which they meet the admissions criteria (excludes NUR and Medical Assisting courses).

Students who complete the A.A. or A.S. degree, including the general education core and appropriate electives, are assured that their credits will transfer to the University of North Carolina System schools. (Students must, of course, apply to and be accepted by a particular UNC System school in order for their credits to transfer.)

A.A.S. (Associate in Applied Science Degrees)

Curriculum programs in the technology areas are designed to provide students with technical competence for immediate employment in such fields as business, industry, government, health, agriculture, and social services or as owner/manager of their own businesses. Some general education courses are included in technical degree programs to provide knowledge essential for success in one's chosen field. Students who complete these two-year programs are awarded an Associate in Applied Science Degree.

In addition to immediate employment, another option for students who earn an A.A.S. degree is to transfer to a four-year school. Some career technology programs at Surry allow this option. Both public and private four-year institutions have designed programs specifically for A.A.S. degree recipients. For a complete list of these options, as well as transfer guides, contact the Student Development Office.

A.G.E. (Associate in General Education Degree)

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities.

A.F.A. (Associate in Fine Arts Degree)

The Associate in Fine Arts curriculum provides basic course work in humanities, fine arts, English, mathematics, and social sciences with additional concentration in the fine arts, specifically the area of clay, woodworking, and sculpture. This degree is designed for students planning to transfer to four-year colleges and universities. In general, the components of the degree meet requirements for majors in the Fine Arts. The degree is designed to prepare students to meet selective admission criteria for programs such as the Bachelor of Fine Arts, which may require a portfolio requirement. The Associate in Fine Arts program is part of the Comprehensive Articulation Agreement which allows graduates of the program to transfer to one of the member institutions of the University of North Carolina system.

GENERAL EDUCATION COMPETENCY REQUIREMENTS FOR ALL DEGREES

Students who graduate from Surry Community College's Associate Degree programs must demonstrate competence in reading, computer usage, written communication, oral communication, and quantitative skills as described here. These requirements apply to Associate in Arts, Associate in Science, Associate in General Education, and Associate in Applied Science degree recipients.

The College-wide Learning Outcomes are the learning goals for all Surry Community College students. As they are assessed inside and outside the classroom, these outcomes guide learning, decision-making, and actions by all members of the College community. The College-wide Learning Outcomes have the following definitions:

Critical Thinking: Students who graduate from Surry Community College should be able to demonstrate skill in "conceptualizing, applying, analyzing, synthesizing, and/or evaluating information gathered from, or generated by, observation, experience, reflection, reasoning, or communication."[1]

Communication: The Communication Learning Outcome measures the following skills: Writing, Speaking, and Reading.

Communicate effectively through writing: Students who graduate from Surry Community College should be able to produce writing that is clear, precise, organized, incisive, and correct (according to the guidelines of Standard Written English) for a variety of purposes and audiences.

Communicate effectively through speaking: Students who graduate from Surry Community College should be able to speak in a manner that is clear, precise, coherent, perceptive, audience-aware, and correct (according to the guidelines of Standard English) in both small and large group settings.

Communicate effectively through reading: Students who graduate from Surry Community College should be able to read actively and analytically at the college level and should be able to synthesize and apply information across disciplines.

Information Literacy and Technology Skills

Information Literacy: Students who graduate from Surry Community College should be able to recognize when information is needed and have the ability to locate, evaluate, and use effectively the needed information.

Technology Skills: Students who graduate from Surry Community College should be able to use computers, software applications, databases, and other technologies to achieve a wide variety of academic, work-related, and personal goals.

Quantitative Literacy

Quantitative Literacy: Students who graduate from Surry Community College should be able to apply college-level mathematical concepts and methods to understand, analyze, and communicate in quantitative terms

[1]Richard Paul and Michael Scriven, "Defining Critical Thinking," National Council for Excellence in Critical Thinking. Available from <http://www.criticalthinking.org>

DIPLOMAS

Diploma programs are designed to prepare students for initial employment in skilled occupations, to retrain skilled workers for new occupations, and to provide skill upgrading for one's advancement in current occupations. Most of these diploma programs require one year of participation on a full-time basis to complete, although courses can be taken on a part-time basis. These programs do not require a high school diploma for admission, but if a student has academic deficiencies in subjects basic to success, he or she may be required to complete supplementary studies prior to entering the program on a full-time basis.

CERTIFICATES

Some technical programs are designed to allow students to receive a certificate after completing a designated set of specific courses. These programs are one year or less in length. Required courses are generally those which provide specific job-related skills. For more information, consult a counselor in Student Development.

DISTANCE EDUCATION

Surry Community College now offers students an alternate way to further their education through our Distance Education program. The purpose of distance learning at Surry Community College is to support the College's mission to provide high quality, reasonably priced educational and job training programs which meet the needs of the adults in its service area. Several options are now available for students to obtain degrees completely online. Currently our online degree programs include an Associate in Arts, Information Systems, Business Administration, Early Childhood, and Viticulture.

Distance learning opportunities provide a means for students to enroll in credit classes that do not require traditional classroom attendance. The Distance Education program shares the same goals, objectives, skills, and competencies as all educational opportunities at SCC. Students are offered full service access to learning resources, program advisement and financial aid information. At SCC, these opportunities include telecourses, hybrid courses, teleweb courses, Internet *(online)* courses, and North Carolina Information Highway (NCIH) courses.

Telecourses are offered in cooperation with the UNC-TV public broadcasting stations and with Time Warner Cablevision of Dobson, North Carolina. Instruction is provided through videotape broadcast at scheduled times and may be recorded for viewing at students' convenience. Teleweb course instruction is also provided through videotape broadcast like telecourses but adds an additional instructional tool using a computer with Internet access.

Courses are also available via the Internet. Students must have some computer skills as well as an email account to participate in this type of course. SCC provides all Distance Education students a free email account. Internet courses are delivered online via a program called Blackboard. Faculty and student communication takes place primarily through the computer. Interaction in an online course is primarily through email and the use of discussion boards and takes place asynchronously, so students are not required to be online at a certain time of the day or night, but when it is convenient for them.

Hybrid courses combine classroom instruction with the interactivity of an Internet course. The Internet is used to deliver approximately half of the course requirements, with the other half delivered through on-site meetings. Hybrid courses include face-to-face instruction, course websites, textbooks, hotlinks, online and in-class discussions, collaboration and problem-solving.

Selected courses are taught on-campus using SCC's specially-designed NC Information Highway classroom. NCIH classes bring together students located at multiple locations, with communication conducted through interactive use of television monitors, tabletop microphones, and video cameras. All necessary technologies are provided in the classrooms.

Distance Education offerings appear on the semester schedule of courses each term. Distance Education courses are identified in course listings by the section code as follows:

Course Type	Section Code	Example
Hybrid courses	HB	HUM-115-HB1
Internet Courses	IT	CIS-110-IT1
NCIH	IH	COM-231-IH1
Telecourses	TC	PSY-150-TC1
Teleweb courses	TW	SOC-210-TW1

In order to successfully complete Distance Education courses, students should be aware of specific technical skills and equipment needs that are required when taking a Distance Education course. Information students should be aware of when registering for Distance Education courses follows.

Teleweb & Telecourse Information

*In order to receive these courses, you must subscribe to Time Warner Cable in Surry or Yadkin counties or be able to receive UNC TV. Videotapes may also be viewed in the Learning Center on the SCC campus.

*Students taking Telecourse and/or Teleweb courses are required to attend an on-campus student orientation at SCC at the beginning of each semester.

*Students taking Teleweb courses for the first time are also required to complete an online orientation.

**TELECOURSES*: You must have a VCR, television and must be able to receive UNC TV. Also, some courses are only broadcast by Time Warner Cable of Dobson, North Carolina. See schedule for more information.

**TELEWEB COURSES*: You must have a VCR, television, Internet access and an email account and be able to receive UNC TV. Also, some courses are only broadcast by Time Warner Cable of Dobson, North Carolina. SCC provides all students a free email account.

*VIDEOTAPE RENTAL OPTION - Students may rent a full set of tapes for each telecourse or teleweb course from RMI Media, Inc., a private company, for a set fee (usually $70.00). The student receives all the tapes at the beginning of the semester and mails them back at the end of the course. This is a private transaction between the student and RMI. Visit www.rmimedia.com or call 1-800-745-5480 to rent tapes. You will need to give the name and title of your course (e.g. PSY 150, Discovering Psychology), your name and address, a daytime phone number, and credit card information. See RMI's rental guide for more details.

Internet Course Information

***Online Orientation Required:**
Students taking Internet courses for the first time are required to complete an online orientation. Students will not be allowed to take Internet, Teleweb or Hybrid courses without completing the online orientation.

***Personal Capability Requirements:**
Students taking an Internet course at Surry Community College are required to have basic computer skills.

*Office XP Applications
*Knowledge of the procedures for sending/receiving e-mail and e-mail with attached files.

*Knowledge of navigating & conducting information searches within the World Wide Web
*Able to identify file types
*Fundamental awareness of common computing terms
*Familiarity with your own hardware, software, & operating system environment

***Hardware Requirements:**

Students who do not meet these standards must contact the course instructor to determine if they will be able to successfully participate in the course. The following are minimal system requirements to take an Internet course.

*Pentium III 300 MHz or faster
*128 MB or more of RAM memory
*SVGA monitor w/8 MB of video RAM
*Sound card and speakers
*Windows 2000 or higher
*Hard drive with a minimum 250 MB free space
*56K Modem or higher (DSL recommended)
*Printer
*CD-ROM Drive

***Software Requirements:**

Students who do not meet these standards must contact the course instructor to determine if they will be able to successfully participate in the course. The following are minimal system requirements to take an Internet course.

*Word processing package – Office XP
*E-mail software that supports e-mail attachments. Microsoft Outlook Express, Netscape eMail and Eudora. SCC provides each student a free email account which must be used when taking a Distance Education course.
*Internet Explorer version 5.0 or higher or Netscape version 4.0 or higher
*Acrobat Reader (Free download)
*Real Media Player (Free download)
*Other software that may be required to complete the course.

***Internet Service Requirements:**

*The greatest single challenge for students taking Internet courses is obtaining the services of a reliable Internet Provider. If you are unsure about Internet providers in your area, contact a local computer dealer.

Further information about Surry Community College's Distance Education program can be found at the following website: http://www.surry.edu/DE

COOPERATIVE EDUCATION

Cooperative Education (Co-op) is designed to give students enrolled in many programs within the College an opportunity to work in their fields of study while completing their degrees. This combination of classroom instruction with practical/related work experience provides numerous benefits to participating students.

Co-op students work from one to four semesters in part-time or full-time jobs with employers selected and/or approved by the College. Academic credit is given for the learning gained during the work period. Students are contacted periodically by a faculty coordinator and receive on-the-job supervision by the employers.

Admission to the Cooperative Education Program is based on scholarship and interest, not financial need. Employers select the students and determine salaries to be offered; therefore, the College does not guarantee employment for all who are eligible.

Eligibility. Students who are enrolled in programs offering Co-op for academic credit are eligible to participate if they meet the following conditions:

1. Must be enrolled in a degree/diploma/certificate that includes Co-op;
2. Must have completed at least 9 credit hours toward degree (3 of which must be from the core curriculum);
3. Must have a minimum GPA of 2.0;
4. Recommendation of an instructor within program of study;
5. Completion of a professional development course or a job-seeking skills workshop which is arranged on demand by the Co-op office (not required if already employed).
6. Approval from program director or Co-op Coordinator. Certain curriculum programs may specify additional conditions.

Application Procedure. Interested students should obtain an application from the Co-op Office (located in the A-Building) and schedule an interview with the director or Co-op Coordinator. Students are selected on the basis of information obtained from their application forms, college transcripts, and an interview regarding career goals. After students have been accepted into the program, the director, Co-op Coordinator, or faculty coordinator will be responsible for locating and/or approving appropriate work assignments. Students already employed in curriculum-related jobs may be eligible to receive Co-op credit.

Academic Credit. Co-op students may earn from one to eight hours of Cooperative Education credit toward completion of diploma or degree requirements in approved curriculums.

Registration. Students who are approved for Co-op must register in the Co-op Office before going on their assignments. Students interested in Cooperative Education are invited to contact the Career Services Center. Information is also available through faculty advisors.

NOTE: Co-op options are listed under each participating curriculum program of study.

ACADEMIC SUPPORT CENTER

The Academic Support Center (ASC) offers academic support for students and faculty alike. Students enrolled in at least one curriculum class at SCC may receive free academic assistance by working with qualified tutors. The ASC bases its tutoring on a critical thinking model that encourages students to actively think through course content.

Tutoring Services

Students needing a tutor must fill out an application at the ASC, located on the second floor of the library. Generally students can expect a two- to five-day wait for placement with a tutor. The assigned tutor will work with the student at regularly scheduled sessions throughout the semester. One-time tutoring sessions are available to help students with reading and writing assignments in any subject; appointments for these sessions can be scheduled by calling 386-3460 or visiting the ASC. Tutoring is held on the second floor of the library and is supervised by the Assistant Directors. No off-campus tutoring is offered.

Students wishing to become tutors must demonstrate proficiency in the subject area. They must also submit faculty referrals, complete an application and interview process, and pass a transcript review. Upon selection, tutors are given an orientation and are required to attend training sessions in critical thinking throughout the semester. Tutors are compensated for their services.

LEARNING COMMUNITIES

Students interested in exploring subjects in an environment that creates and fosters connections between classes should investigate learning community opportunities at SCC. In these courses, students must enroll in all three classes linked in the community. Because the same students enroll in these classes, they get to know each other as scholars and friends and work closely together. Additionally, instructors work together to link disciplines and integrate ideas and assignments. All learning communities cover required materials and provide the same credits for transferring and graduation as traditional classes.

Other learning community variations include linked and paired courses. These options require students to enroll in two courses in which assignments are either shared between courses (linked) or used to support the content of the other course (paired). Learning community options appear in published semester schedules.

DEVELOPMENTAL STUDIES

The goal of Developmental Studies at Surry Community College is to help students succeed in college. Courses in the basic skills of reading, writing, mathematics, and study skills are offered. With the cooperation of the Learning Center, the developmental program offers lab classes that supplement the basic courses. In these lab classes, students work individually on the computer and in small groups to practice needed skills.

Placement testing is mandatory for all students taking associate level courses with a developmental prerequisite. Degree seeking students must take developmental courses when they score below the cut-off scores established by the college on the ASSET or CPT. Students may waive the placement test requirement if they meet any one of the following criteria:

- Have documented successful completion of appropriate prerequisite developmental courses,
- Have met minimum SAT scores (500 verbal; 500 math) and their scores are not more than 3 years old,
- Have documented successful completion of appropriate college level English and mathematics courses at another college within the past five years.

Students placing into both developmental reading and English at the 070 or 080 levels will be advised to complete these courses before taking transfer level courses. Students placing into Reading 090 and English 090 will be advised to take these courses at the beginning of their program as co-requisites or prerequisites to any curriculum courses that they take. Finally, students placing into developmental math should enter the sequence by their second semester at Surry Community College.

Students must achieve a "C" or better in each required developmental course in order to advance. Credits for developmental courses are not counted toward graduation.

Students seeking a waiver for any developmental course must receive approval from the Chair of Developmental Studies.

COMPUTER RESOURCES

Surry Community College has several computer labs that are available for use by students. These labs are available for computer classes, computer-related classes, and for computer-assisted instruction. Internet access is available for class and research use by faculty, staff, and students in selected labs (E148, H265, H273), the Learning Center, and the Learning Resources Center (Library, second floor).

LEARNING RESOURCES CENTER

The Learning Resources Center (LRC), housed in the "R" Building, provides printed and electronic materials to supplement classroom instruction and support lifelong learning in the Surry Community College service area. The LRC collection includes approximately 30,000 books, 2,000 audiovisual items, and 235 current print magazine and newspaper titles.

The Learning Resources Center web pages contain links to a number of databases provided for student and faculty use through Surry Community College and NC Live. Any current student has access to the databases, either while on campus or by computer from home at any time day or night. The databases provide thousands of full-text magazine and newspaper titles. Research assistance and inter-library loan services are available at the Reference Desk on the second floor of the LRC as well as through e-mail, especially for distance learning students. Instructional sessions in using print and electronic resources are available for individuals, small groups, or classes. The Circulation Desk and most of the book collection are on the main floor of the LRC.

Computers for student research and a local history and genealogy research collection are available on the second floor of the LRC.

The Learning Resources Center is open from 7:30 a.m. to 9:00 p.m. Monday through Thursday, and from 7:30 a.m. to 3:00 p.m. on Friday when classes are in session. During breaks the LRC may be closed or operate on a limited number of hours. Check the LRC website for exceptions to the normal hours. The LRC is open to the

general public. Local residents 16 years old and up may apply for a library card and receive limited borrowing privileges.

TESTING CENTER

The Testing Center uses Accuplacer Online to help place students in classes. Accuplacer helps determine your skill levels in Reading Comprehension, English (Sentence Skills) and Math. Accuplacer Online is a comprehensive, Computer adaptive placement assessment designed to place students in appropriate courses to maximize their success. These tests are untimed.

Services Provided

The College recommends that all students study prior to taking Accuplacer Online. A study guide can be obtained from the Testing Center or the Office of Student Development. On the day that you come in to test, you should bring a Photo ID and your Social Security Card for identification purposes. Knowledge of computer is not necessary to take the test. If you are unfamiliar with using a computer, someone in the Testing Center will go through the online tutorial with you. No calculators are allowed on the test. Pencil and paper will be provided for the math sections. All placement tests are offered on a walk-in basis. To insure adequate time for testing **a student must be inside the Testing Center Monday-Wednesday by 3:30 p.m., Thursday by 6:00 p.m., and Friday by 12:00 p.m.**

Distance Education Testing is also available in the Testing Center. Students enrolled in any distance course, for example, a Telecourse, Internet, or Teleweb can test in the Center. The Testing Center offers proctoring services to the community and provides service hours to help students achieve their goals successfully. Students should be aware of the length and difficulty of their exams and plan their time wisely. Tests are to be started and finished in one sitting and must be turned in 10 minutes prior to closing. Service hours may be different during the semester break. Please call the Testing Center for more information at (336) 386-3443. The Testing Center will also be closed for all holidays recognized by Surry Community College and as indicated by inclement weather.

Testing Center Hours of Operation (Testing times are subject to change)

Monday-Wednesday, 8:30 a.m. - 5:30 p.m. (last test starts at 3:30 p.m.)
Thursday 8:30 a.m.-8:00 p.m. (last test starts at 6:00 p.m.)
Friday 8:30 a.m. - 2:00 p.m. (last test starts at 12 noon)

The Testing Center is located in Room 204 of the A Building on the main campus in Dobson. You can contact us at (336) 386-3443 or brackenl@surry.edu.

Other learning community variations include linked and paired courses. These options require students to enroll in two courses in which assignments are either shared between courses (linked) or used to support the content of the other course (paired). Learning community options appear in published semester schedules.

CREDIT AND GRADING ISSUES

CLASS SCHEDULING

Curriculum classes at SCC are normally scheduled to last for sixteen weeks, an academic semester. At times, especially during the summer, some classes are offered in abbreviated sessions. In developing the curriculum class schedule each semester, SCC tries to provide as broad a schedule as possible to allow for students' needs. Classes are generally available beginning at 8:00 a.m. on weekdays and continuing through the evening hours. Some are also available on weekends. Most curriculum credit classes are taught on the college campus in Dobson. Some are offered at off-campus sites, and some are available through television via the Public Broadcasting System and on the Internet.

SCC encourages students to take as many or as few classes at a time as they like. Some daytime classes may meet only two or three days each week; others meet each day.

Evening classes usually meet one or two evenings per week. In deciding upon a schedule, students need to remember that study time outside of classroom hours is an integral part of academic success.

CREDIT MEASUREMENT

Credit for curriculum courses is measured in semester credit hours, defined as one credit hour for one contact hour of classwork, two contact hours of laboratory, or three contact hours of shop or clinical work per week for the sixteen weeks of the semester or its equivalent. Contact hours are the actual number of clock hours that are scheduled for a class each week.

Fifteen to eighteen credit hours is considered a normal full-time academic load during fall and spring semesters. A maximum of 21 credit hours may be carried without special approval by the Associate Vice President of Student Development. A maximum of 18 credit hours may be taken during the summer without this approval. (Normal summer load is 9-12 credit hours.)

GRADE DEFINITIONS

The following grading system is used at Surry Community College.

Letter	Description	Quality Points
A	Excellent	4
B	Above Average	3
C	Average	2
D	Below Average	1
F	Failing	0
I	Incomplete	0
W	Withdrawal	0
AU	Audit	0
CR	Credit by Proficiency/Exam	0
NS	No Show	0
NC	No Credit	0
TR	Transfer Credit	0

GRADE POINT AVERAGE

Student progress is measured by grade point average, or GPA. This average is sometimes called a quality point average, or QPA. Students can compute their GPA by dividing the number of credit hours they have taken into the number of grade points they have received. Grade points are assigned in this manner:

Grade	GPA Grade Points
A	4
B	3
C	2
D	1
F	0

Grade Points Assigned for 3 Credit Hours	
A	12
B	9
C	6
D	3
F	0

*If students have taken 30 credit hours and have 90 grade points, their Grade Point Average is 3.0 (90 divided by 30 = 3.0, a "B" average). When courses are repeated, the lower grade is not counted toward the GPA.

*Courses below 100 level (i.e., ENG 080) are not included in the calculation of GPA or selection for academic honors (dean's list or president's list).

COURSE SYLLABUS/ATTENDANCE

At the beginning of each semester, instructors are required to give each student a course syllabus that should explain all course requirements, the grading scale, and the attendance policy for that class. Students have a much better chance of being successful if they understand all the procedures and requirements for each class.

All instructors do not use the same grading scale or the same attendance policy. Given the diversity of courses taught within this college, students may find that a particular number grade may be awarded different letter grades in different courses. For example, a 90 may be a "B" in one course and an "A" in another course.

Regular class attendance is a key element in becoming a successful college student. It is the student's responsibility to know and understand the attendance policies for each instructor and to understand how attendance in class might affect his or her final grade. Any leave of absence from a particular class must be approved by the individual instructor and will include arrangements for missed tests, class work, and any other assignments.

FINAL GRADES

Final grades for each class will be mailed directly to students as soon after the end of each semester as possible. Students will receive one grade mailer which lists all courses for which they were registered during the semester. In addition to the semester grades, this grade mailer will show students' semester grade point averages, the total number of credit hours they have earned as students here, and their cumulative grade point averages. Students should read this mailer carefully, and be certain that they have received a grade for each class. If they think there is an error of any kind, they should come to Student Development to have it checked.

RELEASE OF RECORDS

The most important document you will create as a college student is your academic transcript. It is created when you register for the first time, built upon each semester, and completed only when you have taken your last course. In some ways, it is really more important to your future than the diploma you receive upon completion of a degree program. Each time you apply for a job, each time you apply to take courses at another college, you will need an official copy of your transcript. It provides a complete academic record of all courses you have taken, including grades received. Therefore, even though it may be important to graduate and have a diploma hanging on the wall, jobs in your future may be won or lost on the basis of what a potential employer sees on your transcript.

Your transcript is a confidential document maintained by the Records and Registration Office in Student Development. It is accessible only to you and those you permit to have copies. Surry Community College charges

a $3.00 fee for each official transcript. Anyone needing an official transcript may choose one of the following procedures:

1. Drop by Student Development, complete a transcript request form, and pay the $3.00 per transcript fee at the Cashiers window.
2. Fax a written request (with name, signature, date of birth, and destination of transcript) to 336-386-3690. Then call 336-386-3208 and the transcript charge will be processed by phone with a credit card. You may fax credit card information (name, credit card number, and expiration date, name that appears on credit card if different than transcript) to 336-386-8951.
3. Email requests will be accepted only if the transcript is to be sent to another educational institution. Email student information (name, date of birth, destination of transcript, and estimated years of attendance) to holcombl@surry.edu and call 336-386-3208 to pay by credit card, or fax credit card information to 336-386-8951.

There is no charge for "unofficial" transcripts.

In accordance with the Family Educational Rights and Privacy Act of 1974, only Directory Information will be released without the written consent of the student. Such information may be released at the discretion of the Associate Vice President of Student Development.

Directory information includes: name, hometown, major field of study, dates of attendance, degrees awarded, and awards received. However, a student may request in writing to the Associate Vice President of Student Development that such information be withheld. Such requests will be honored. **Failure of students to keep their names and addresses updated in the Student Development Office can cause confusion that could result in mail not being received or colleges and employers not receiving transcripts.**

CREDIT BY PROFICIENCY

Surry Community College recognizes that students gain knowledge and skills both inside and outside traditional classrooms. Therefore, students who can provide tangible evidence of preparation to successfully challenge a course, may request credit by proficiency for that course.

Students who are interested in pursuing credit by proficiency for a course must do the following:

- Register for the course and attend class prior to requesting permission to take the proficiency examination.
- Initiate the request for demonstration of proficiency through the class instructor. Forms to accommodate this written request are available from the instructional deans and vice presidents' offices.
- Provide tangible evidence of preparation to challenge the course.
- Obtain approval from the instructor, the division chair, and the appropriate dean.

A written, oral, and/or performance examination will be administered by the instructor in a manner pertinent to the content of the course. If the student exhibits satisfactory performance on the examination, the appropriate credit hours and proficiency credit grade will be placed on the student's transcript. The decision of the examining instructor will be final.

Additional considerations guiding the implementation of this policy include the following:

- Credit by proficiency must be requested and completed during the first ten percent (10%) of the class content.
- Some courses may not be appropriate for proficiency testing, and are excluded from this procedure.
- Students who earn less than a "C" on the proficiency exam receive no transcript notation and may complete the class for credit.
- Students who earn at least a "C" on the proficiency exam will receive the appropriate credit hours and proficiency grade (CR) on their transcripts.
- Students may attempt credit by proficiency only once for any given course.
- To ensure consistency in testing, each instructional department will develop a common proficiency exam for all eligible courses.

- Financial aid, veterans, and some third parties do not pay for credit by proficiency.
- No credit is given for experiential learning or training.

Please note that the "CR" grade assigned for proficiency may have implications for financial aid awards, and the credit may not be accepted by all transfer institutions.

TRANSFER CREDIT

Students who transfer to SCC from another accredited college or university, will need to furnish **official transcripts** for evaluation. The college or university must be accredited by an entity recognized by the U. S. Department of Education. Courses that are satisfactorily completed at other accredited institutions are evaluated in terms of the program the student selects at Surry Community College. Normally, grades of "D" or below do not transfer.

AP and CLEP credits are granted based on scores recommended by the College Board and other accrediting agencies. (See Advanced Placement) In some cases, transfer credit can be granted for military training. In order to receive this credit, students must provide official documentation to support their claims. Normally, only course credit recommended by American Council of Education guides is granted. No credit is given for experiential training or for courses taken at non-accredited schools.

Transfer credit presented is evaluated and then placed on an official transcript. These transcripts are available in Student Development upon request. Students receiving transfer credit toward an associate degree, diploma, or certificate must complete at least 25 percent of the semester hours in their major at Surry Community College in order to complete graduation requirements. These hours may not be earned by proficiency.

College TechPrep Articulation

Through the statewide College Tech Prep Articulation agreement among high schools and community colleges and efforts of the SYSTEM (Surry Community College, Yadkin and Surry County Schools, and Elkin and Mt. Airy City Schools), students entering Surry Community College may receive advanced placement courses for a number of Career Technical courses completed in high school. To receive credit, the high school must provide documentation that the student completed the course with a grade of "B" or better and scored at or above the mastery level (Score of 80) on the end-of-course VoCats test, and the student must enroll in SCC within two years of high school graduation. The current SCC College Tech Prep Articulation Agreement is shown on the following pages.

CRITERIA TO AWARD COLLEGE CREDIT

The following criteria shall be used to award college credit for courses identified above.

1. Grade of B or higher in the course and
2. A raw score of 80 or higher on the standardized VoCATS post-assessment. (*or 80 or above on the CISCO final exams or pass an industry standard certification.) In order to receive articulated credit, students must enroll at Surry Community College within two years of their high school graduation date.

The official high school transcript and all official standardized VoCATS post-assessment scores shall be required to verify that the criteria has been met to award credit for articulated course work. A community college advanced placement credit form must be attached to the front of the student's official high school transcript. This form is available to high school personnel upon request from Surry Community College. Once SCC receives transcript and form, credit will be awarded and a credit evaluation form will be mailed to the student.

Surry Community College officials shall have responsibility for verifying eligibility and acceptance of the articulated course on the high school transcript for college credit.

Advanced Placement Examination. AP exams are usually taken by high school students enrolled in advanced classes. Students are responsible for having scores forwarded to the Admissions Office for consideration. Students who achieve a score of four or higher will receive credit for two semesters of English composition. Students who achieve a score of three will receive credit for English 111.

Written English Expression Test/CPT Sentences. Students who do not take one of these tests at the time of their initial enrollment may make arrangements for testing through the Student Development Office. Either of these tests may be taken only once in an attempt for advanced placement. Students who achieve acceptable scores will receive credit for English 111.

AUDITING COURSES

Students who would like to take a particular class but do not care about earning credit for it, may register to audit the class. The process for registering is the same as if one were taking it for credit, and the tuition is also the same. The only difference is that on the first day of class the students must advise the instructor that they are auditing the class. Once begun as an audit, the course may not later be changed to credit. Similarly, after the drop/add period, the course should not be changed to an audit. The course will still appear on the students' transcripts and will show a final grade of "AU." It will not be included either as hours attempted or hours earned and will not be considered in the calculation of grade point average. No financial aid or veteran's benefits will be paid for an audited class.

COURSE REPETITION

Students who successfully complete a course (minimum grade of "C"), may repeat the course twice. Students who do not successfully complete a course may repeat it as many times as necessary to be successful. Some curriculum students may be advised to audit a course more than once in order to gain basic skills necessary for success in the selected course. Students who completed a course five or more years earlier may repeat the course more than twice in order to improve their grades, or to refresh their knowledge of, or skills in, the subject. Tuition and fees charged to students who repeat courses, as well as the reporting of student hours, follow regulations as set out in the current North Carolina Administrative Code.

When curriculum courses are repeated, the highest grade is recorded as the final grade for the course and will be the only grade used in calculating quality point averages or hours toward graduation. Quality point averages, hours necessary for graduation, and other specific information concerning audits and repetition of courses as related to graduation requirements are outlined elsewhere in this college catalog.

INDEPENDENT STUDY

Degree-seeking students who need to complete a particular course to meet graduation requirements but who cannot take it at its scheduled time as a result of unavoidable problems may request it on an independent study basis. This request is generally made through an instructor or division chairperson on a Request for Independent Study Form. The form is then signed by the student, instructor, division chairperson and the appropriate dean. It should be completed and returned to Student Development by the end of the drop/add period. Registration and tuition for such a course are the same as if taken on a regular basis.

CHANGE OF PROGRAM

Degree-seeking students who change their minds about the curriculum they wish to pursue must see a counselor to make this change official. Special Credit students who decide to complete the requirements for a diploma or degree program must see both a counselor (for orientation and testing requirements) and the admissions staff to be sure required transcripts and other pertinent information are on file.

CLASS CANCELLATION

At times it may become necessary for the college administration to cancel a class appearing on a schedule. Normally this is done only when the enrollment for this class is not sufficient to allow it to be taught as scheduled. When class cancellations are made, Student Development staff will work with students to find an acceptable

alternative. Students need to come to the Student Development Office if they want to replace the cancelled class. Students are automatically dropped from cancelled classes and refunds are issued if they are due.

WITHDRAWAL FROM CLASSES

A student who withdraws should do so officially through the office of Student Development and the Business Office. Failure to withdraw officially could result in the assignment of an "F" grade for the work attempted and in a forfeiture of refunds. It is the student's responsibility to be sure his/her registration and withdrawal are correct.

During Drop/Add Period. The drop/add period consists of the first five days of classes each semester. If students decide to drop or add a course, they should come by Student Development and fill out a drop/add form. Instructors' permission is not required during this period. Students who do not attend a class at least once, and do not officially drop the class, will receive a "NS" grade for the class. A grade of "NS" applies if a student never physically attends. Official drops for such classes must be completed by students within the drop/add period.

After Drop/Add Period. If students decide that they need to drop a class after the drop/add period, they need to follow these procedures:

1. Come by Student Development and fill out a drop/add form.
2. Ask the instructor to sign the drop/add card. Failure to get the instructor's signature may cause students to receive an "F."
3. Turn in drop/add form to the registration desk.
4. Students receiving financial aid should notify the Financial Aid Office of any changes in their schedule.

Students must make certain their registration is correct. This procedure is the responsibility of the students and is one of the most important functions they have as a college student.

When a student officially withdraws from school or a class after the drop-add period, a "W" (withdrawal) grade will be assigned unless the instructor determines that the student's performance at the point of withdrawal has been unsatisfactory. A student can only receive a "W" if they have actually attended class. An "NS" grade cannot be changed to a "W." If the instructor's evaluation of the student's status is unsatisfactory, an "F" grade will be recorded on the transcript at the end of the semester. If a punitive grade ("F") is going to be assigned, the student is encouraged to continue in the class in an effort to earn a passing or non-punitive ("W") grade.

ACA Withdrawals. ACA 111 is required for all first-year, full-time students. Students who decide to drop this class will need to have their drop/add cards signed by the appropriate dean, in addition to following the procedures described above. Students who have completed at least 24 semester hours during a previous period of enrollment, with a GPA of 3.0, will be waivered from the ACA 111 requirement.

REMOVAL OF INCOMPLETE GRADES

When students receive a grade of "I" in a course, they should reregister and pay the appropriate tuition for it if completion will require attending the class. The "I" grade for all other courses can be removed by working with the instructor to complete the work necessary to finish the course. The instructor then turns in a change of grade form to Student Development, and this final grade is placed on the student's transcript replacing the "I."

Students having an "I" grade on their transcripts have a maximum of one year from the date it was given in which to remove the "I." If at the end of this time the "I" has not been removed, it will remain on the transcript as an "I." If students need credit for the course, they will need to reregister and repeat the entire course. Transfer students should be aware that "I" grades not removed before transferring are treated as an "F" for computation of grade point averages by many receiving institutions.

FRESH START/IN-HOUSE TRANSFER

Two policies provide qualifying students a one-time opportunity to petition the school to exclude, for GPA calculation purposes, all previously completed courses in which a grade of **D** or **F** was earned. Prior to submitting

the written petition to Student Development, the student must have completed at least twelve college-level semester hours and have a current overall GPA of 2.5. The only physical change to the transcript will be the placement of an asterisk beside the courses that will not be used in the GPA calculation. Forms requesting this recalculation are available from the Records Desk in Student Development.

***The Fresh Start Policy** allows a former SCC student who returns after a minimum three-year period of non-enrollment, to have previously earned D's and F's removed from the GPA calculation process.

***In-House Transfer of Program Policy** allows a student who officially changes programs at SCC to have D's and F's earned in the old program removed from the GPA calculation process.

NOTE: Neither the "Fresh Start Policy" nor the "In-House Transfer of Program Policy" are applicable in meeting the "Satisfactory Progress" guidelines for financial aid and veterans aid students.

ACADEMIC PROGRESS

The policies governing academic progress at Surry Community College are intended to assist students in successfully completing their programs of study and to prevent prolonged failure for all students. Procedures are designed to identify students experiencing academic difficulty and to ensure effective corrective action. These procedures are supported by both the staff and faculty, who are committed to

(1) informing all students of minimum academic standards and grading procedures;
(2) identifying and alerting students displaying signs of academic difficulty as early in the semester as possible;
(3) providing opportunities for corrective action to such students; and
(4) notifying all students of their grade point averages immediately following the end of the semester.

Students enrolled in degree, diploma, or certificate programs are expected to maintain satisfactory academic progress toward the completion of the requirements for their programs. Since a 2.0 minimum grade point average is required for graduation from all programs, students are expected to regularly maintain upward progress toward this average in order to be considered in good academic standing.

For purposes of determining academic progress, final grades on all courses within the student's program will be considered. Because a period of adjustment to college life is often necessary for new students, the following scales are used to determine satisfactory academic progress. Students who are receiving financial aid should also read and consider the ***STANDARDS OF ACADEMIC PROGRESS FOR ALL FINANCIAL AID RECIPIENTS*** section of this catalog, since some specific additional conditions apply for the continuation of their financial assistance.

SATISFACTORY PROGRESS IN ASSOCIATE DEGREE PROGRAMS

Credit Hours Attempted	Minimum Grade Point Average
0-30	1.00
31-50	1.50
51 and above	1.75
Graduation	2.00

SATISFACTORY PROGRESS IN DIPLOMA/CERTIFICATE PROGRAMS

Credit Hours Attempted	Minimum Grade Point Average
0-25	1.00
26 and above	1.50
Graduation	2.00

Academic Probation

Students who do not achieve the appropriate minimum average shown previously will be placed on academic probation. These students will be notified by letter of their probationary status and will be required to consult with their academic advisor. Students who are placed on academic probation must either remove themselves from probation or demonstrate progress toward removing the probationary status. Progress toward removing probationary status is defined as achieving a minimum 2.0 semester grade point average for each subsequent semester until the probationary status is removed.

Following notification of probation, the student and academic advisor will meet by the third week of the subsequent semester in order to assess cooperatively the problems impeding success and to identify possible corrective actions. Recommendations may be made to the student regarding his or her course load and/or chosen program, as well as obtaining academic assistance.

Students who do not demonstrate progress toward removing themselves from probationary status following these actions will encounter one or more of the following:

(1) suspension for one semester
(2) loss of financial aid
(3) additional semester probation
(4) transfer to another curriculum
(5) loss of veterans educational benefits
(6) reduced academic course load and counseling

The Associate Vice President of Student Development, in consultation with the student and his or her academic advisor, will determine which one or more of these actions will apply in each individual case.

Academic Suspension

Students who do not maintain the minimum grade point average shown here will be subject to a period of academic suspension equal to one semester or more. Length of suspension will be determined on an individual basis by the Associate Vice President of Student Development in consultation with the student's academic advisor. Maximum length of suspension for academic reasons is one calendar year. Academic suspension may be appealed by the student through the regular grievance/appeal policy explained in this catalog.

Credit Hours Attempted	Minimum Grade Point Average
16-35	0.50
36-50	0.75
51 and above	1.00

Academic Dismissal

Dismissal of students from Surry Community College is an action taken only in the severest situations. Although a student's best interests may sometimes be served through a short-term break from school to promote increased focus and/or responsibility, the College exists to provide opportunities for learning, not to deny them. Students will, therefore, not be dismissed permanently for academic reasons.

Readmission

Students who have withdrawn in good standing and/or who have not enrolled for a period of one year or more will need to request readmission status through the Student Development Office. Normally, new copies of previous academic transcripts and placement tests are not required. Applicants for readmission to limited admission programs must follow regular admissions procedures for those programs. Students who have been suspended for academic or disciplinary reasons may request readmission after the term of suspension has expired. These students will be required to consult with their academic advisor (academic suspensions) and/or the Associate Vice President of Student Development (disciplinary suspensions) prior to registration.

Additional Academic Requirements for Nursing Students

Nursing students must meet general academic progress policies. Additionally, some nursing (NUR) courses have prerequisites. These prerequisites are listed in the catalog under the description of the courses. A student must make a grade of "C" or better in both theory and clinical practice in the prerequisite nursing (NUR) courses before registering for the next nursing (NUR) course. For related nursing prerequisites, a student must make a "C" or better to register for the next nursing course.

> In accordance with the North Carolina State Board of Nursing rules, a student will be dismissed from the nursing program for problems which conflict with safety essential to nursing practice. These problems include physical or emotional health problems which conflict with safe nursing practice and do not respond to appropriate treatment and counseling within a reasonable period of time.

A student must make a "C" or better in both nursing (NUR) and related prerequisite courses in order to register for the next nursing course. Students transferring into the nursing program will be given no credit for a grade less than a "C."

ACADEMIC HONORS

The Dean's List

The Dean's List is published for fall and spring semesters to honor those students who achieve significant academic status in their classes. It recognizes each student who carries at least twelve college-level credit hours of coursework during the semester, maintains at least a 3.25 quality point average for the semester, and has no final grade lower than a "C" in any course taken. The Dean's List is posted each semester on the College website and published in local newspapers. Courses below 100 level (i.e., ENG 080) are not considered part of the course load for selection for the dean's list or president's list.

The President's List

The President's List is used to recognize full-time students who achieve true academic excellence as measured by a minimum semester quality point average of 3.75, with no grade below a "C" in any course. Each President's list student receives a congratulatory letter from the college president.

Honors Graduates

In order to qualify as an honor graduate, a student must have completed the requirements for graduation (see Graduation Requirements) with a 3.25 average on all work required for the degree at Surry Community College with no grade lower than "C."

GRADUATION REQUIREMENTS

In order to receive a degree, diploma, or certificate from Surry Community College, students must fulfill these requirements:

A. Complete all course work and credit hours required in the program. Students must complete all credit hours with no grade below a "D."
   1. Transfer Credit - All transfer credit must be evaluated by the Records Department and placed on an official transcript before it can be counted toward graduation.
   2. Substitutions - All programs must be completed as stated in the catalog unless a substitution has been approved and filed in Student Development.
      Example: Substitute ENG 112 for ENG 114 in an A.A.S. program. This practice is acceptable, but it must be approved beforehand. The paperwork can be picked up from the department chairperson or in Student Development.

B. Students must have a *2.0 Grade Point Average with no grade below a "D" for all courses counted toward graduation. (A "D" will count toward graduation, but in most cases it will not transfer.) See Grade Point Average in the Credit and Grading Issues section.

***IN ORDER TO RECEIVE A DEGREE, DIPLOMA, OR CERTIFICATE, IT IS THE STUDENT'S RESPONSIBILITY TO APPLY IN THE STUDENT DEVELOPMENT OFFICE AND PAY THE FEES IN THE BUSINESS OFFICE BY THE ANNOUNCED DEADLINE.** This procedure is normally completed at the beginning of the semester in which the student will complete all coursework.

*At least 25 percent of coursework for a degree, diploma, or certificate **must** have been completed at Surry Community College by those applying for graduation. This 25 percent of hours may not be earned by proficiency and must be in the student's major area.

C. In addition to the general graduation requirements described above, nursing students must meet each of the following requirements:

1. Earn a grade of "C" or better in all nursing courses.
2. Earn an overall minimum grade point average of 2.0 ("C").
3. Earn at least a "C" in all related courses required in the nursing curriculum.

STUDENT DEVELOPMENT SERVICES

The Student Development Office is a place students may need to visit often. It is filled with competent, friendly staff whose sole purpose is to ensure that student experiences at SCC are the best to be found anywhere. This is the place where the SCC experience begins as students apply for admission, and if they're a degree/ diploma/certificate student, it's where their SCC experience reaches its apex as they apply for graduation. Additionally, for all the days in between these events, it's the place to come for information and assistance, as well as to register for classes. Whether a student becomes a degree student or a special credit student, he or she needs to take advantage of the help this staff is ready to give. These services include:

Academic Advising/Counseling

A wide range of both counseling and academic advising services is available here. If students need to talk with someone about any problem or concern, qualified counselors are available to listen and help resolve problems in a confidential and relaxed setting. Students can talk through whatever is on their mind and quite often gain insight into how to solve the problem through this process.

In addition to personal counseling, academic advising services are readily available to all students. Student Development staff and faculty advisors will work with students to plan a course of study to take them from where they are to where they want to be. From learning more about what a particular course is really like to making sure students are going to be ready to complete a degree when they want to, the staff will be there to help. For students interested in transferring, this staff will help make the transition a positive experience through such assistance as helping students find the right person to see at the senior college or guiding students through the application process.

Career Services

The Career Services Center offers a comprehensive career development program designed to assist students in setting career and educational goals and developing employability skills.

Services include career counseling, career assessments, career research and exploration, resume development and preparation for employment interviews. The center provides students with quick and easy access to local, national, and international labor market data through current printed materials, Internet sites, video and audio tapes, and face-to-face interview with area employers.

Located in the Reeves Building on the main college campus, the center is open five days and four evenings per week. Individuals may learn more about the center by calling 336-386-3388.

Educational Opportunity Center Services

Funded by a grant from the US Department of Education, the Educational Opportunity Center (EOC) offers a wide range of services to first-generation college students from Surry, Yadkin, Davie, Stokes, and Rockingham counties. Some of these services include assistance with admissions, financial aid, career counseling, and referrals to other service agencies. Many of the students served locally by the EOC are displaced workers who decide to return to school for training in a new career field. Services provided by the Center staff often add the final touch of personal attention that helps students find success in their educational programs. For additional information about the services available, call 336-386-3328, or ask for the EOC in the Student Development Office.

Upward Bound Program

The Upward Bound Program, funded through a grant from the U.S. Department of Education, assists local high school students by providing tutoring, instruction in computer applications, personal development, composition, literature, Spanish, ESL, math, and social studies. The program is designed to help young people develop the academic skills and motivation necessary for success in college. For additional information about Upward Bound, call (336) 386-3268 or 1-877-532-0090, or ask for Upward Bound in the Student Development Office.

Academic Assistance

Degree-seeking students whose placement test scores indicate a need for more background preparation and other students who are looking for refresher courses are offered space in developmental studies classes. Participation in this program enables these students to gain the necessary skills to become successful college students. The Academic Support Center has student tutors and professional staff available for individualized instruction in reading, English, and mathematics.

Student Financial Aid

Please see pages 60-64 of this catalog for information regarding the financial assistance programs at the college.

Veterans Services

If a student is a veteran of military service, serves in the Reserves or the N. C. National Guard, or is the spouse or child of someone disabled or killed during service, he or she will want to take advantage of the Veterans Services Office in the Financial Aid Office within Student Development. The veterans certifying official will help students apply for any educational benefits available to them and will answer questions about these benefits. Students receiving veterans educational benefits must (1) follow the Standards of Progress for Financial Aid Recipients at Surry Community College; and (2) maintain regular satisfactory class attendance in order to continue receiving these benefits. State and federal laws require that all persons receiving veterans educational benefits attend class on a regular basis. Please see page 64 of the catalog for more information on Veteran's Administration Educational benefits.

Student Activities

A well-balanced educational program includes some time for social, cultural, and recreational activities. Each year the college provides a variety of such activities through student clubs and organizations. The SCC Inter Club Council coordinates many of these activities and the College encourages students to learn more about specific clubs. An intramural sports program is also offered each year for those not-so-serious about formal sports, but still looking for exercise and fun. Student interest, participation, and enthusiasm are usually high in these programs.

Disability Support Services (ADA)

Mission. Disability Services is here to assist the College in ensuring equal access to programs and services and to provide equal opportunities for students with disabilities, through the provision of reasonable accommodations, resources and services. Disability services are in compliance with section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990.

Request Services. Surry Community College is committed to making the educational opportunities it offers reasonable and accessible to all qualified students with disabilities. Students seeking assistance or accommodations are responsible for making their disability known to the coordinator of Disability Services, in the office of Student Development. Students seeking disability services need to make their needs known in a timely manner, since it may take some time to acquire the necessary aids and notify the student's instructors. If the student hasn't made a request for services or reasonable accommodations in a timely manner prior to enrollment, SCC cannot assure that all appropriate accommodations can be accomplished prior to the first class.

Self Advocacy. Students have the opportunity to voluntarily self-identify with the college as having a disability or special need. Students can self identify to the Office of Disability Services located in A-204 or contact the Student Development Office.

Note: Identifying yourself as having a disability, to an individual professor, school, friend or department other than the Student Development Office IS NOT considered an official notification to the College.

Documentation. Services of a disability or special need are provided based on documentation provided by the student. The student must provide information about a substantial limitation to one or more major life activities, specifically as it applies to meeting the demands of the college life, in and/or out of the classroom. Acceptable documentation of a disability or special need may include: medical report, physician's statement, psychological evaluation, psycho educational evaluation or other professional evaluations which verify the need for reasonable accommodations or modifications. The documentation should be current (within the last three years). IEP's and 504 Plans, although providing historical evidence of services and accommodations, are generally not considered sufficient to make a student eligible for services. Please note that students will be evaluated on a case-by-case basis. If no current documentation is available, it is the responsibility of the student to have new documentation prepared.

Resources. When possible, SCC will rely on the resources available from community agencies such as the Division of Vocational Rehabilitation Services, Services for the Blind and Services for the Deaf and Hard of Hearing and others which provide educational auxiliary aids. The College is not required to, and cannot provide personal attendants, individually prescribed devices, readers for personal use or study, or other devices or services of a personal nature.

Disability Services Office is located in the Reeves Building Room A-204, above the Student Development Office.

Service Animal Policy

Surry Community College seeks to accommodate persons with disabilities who demonstrate the necessity of a service animal. The College is also mindful of the health and safety interests of its general community. The SCC Service Animal Guidelines are aimed at meeting these concerns. The College's Office of Disability Services is responsible for implementing this policy. Success requires the cooperation of all students, staff and faculty. **No animals are allowed in SCC buildings except those defined as Service Animals.** For further information, please contact the Office of Disability Services at 386-3443.

Availability

Anytime students are on campus, there is someone in the Student Development Office to assist them if they need help. Regular office hours are **Monday-Thursday** - 7:30 a.m.-8:00 p.m.; **Friday** - 7:30 a.m.-3:00 p.m. **For more information call (336) 386-3264.**

Business Programs	**386-3246**
College Transfer	**386-3370**
Evening Programs	**386-3276**
Financial Aid/Veterans Services	**386-3465**
Nursing Program	**386-3247**
Technical Programs/Diploma Programs	**386-3281**
Student Employment Center	**386-3325**

Health Services

First aid supplies are kept at various locations around campus such as Student Development, Administration Offices, Nursing Department, Physical Education Department (Gym), Maintenance Office & shop, as well as all technical and science lab areas.

In the event of any emergency, students should contact the Campus Police through the switchboard/information center window or dial 0. If further help is needed for the situation, Surry County Emergency Medical Services will be notified. Students will be transported to Northern Surry Hospital in Mt. Airy if deemed necessary by the EMS.

Copies of the Communicable Disease Policy and Alcohol & Drug Abuse Policy are available in the Student Development Offices.

A limited accident insurance policy is purchased upon registration. Because this is a limited policy, students must read carefully the brochure which is provided. If it becomes necessary to receive medical treatment under this policy, students must notify the Business Office within two days of the injury and complete the required forms.

Cosmetology Services

The Cosmetology Department is located on the lower level of the Richards Health Sciences (H) Building. Although the purpose of the department is to train students to gain employment in the beauty culture field, the department offers its services to SCC students, faculty/staff, and the general public. Services are administered on a first-come, first served basis.

Voter Registration Services

Throughout the academic year, voter registration opportunities will be made available in the Student Development Office. For additional information, contact the Special Programs Coordinator in the Student Development Office.

Food Services

The Knight's Grill, a full-service cafeteria, is located just below the Student Development Office. A wide selection of choices from sandwiches, soups and salads to full meals are prepared fresh daily. Hours of operation are 7:00 a.m. until 8:30 p.m. Monday through Thursday, and 7:00 a.m. until 1:30 p.m. on Friday. The Knight's Grill stops serving hot entrees at 1:30 p.m., and does not serve food from 2:00 p.m. until 5:00 p.m. during fall and spring semesters. The sandwich line resumes serving at 5:00 p.m. (Monday-Thursday).

COSTS AND STUDENT FINANCIAL AID

TUITION AND FEES

Surry Community College offers educational opportunities at minimal cost to students. Charges are set by the North Carolina State Legislature and are subject to change.

The tuition for in-state students is $39.50 per credit hour with a maximum charge of $632 per semester. To qualify for in-state tuition, a legal resident must have maintained his or her domicile in North Carolina for at least the twelve months preceding the date of first enrollment or re-enrollment in the college. If questions arise concerning legal residency, students may contact the Associate Vice President of Student Development.

For out-of-state students, tuition is $219.50 per credit hour with a maximum charge of $3,512 per semester. Out-of-state students attending Surry Community College are eligible for in-state tuition rates if they are employed in North Carolina and the employer pays the tuition for the student employee with a company check. Also, a letter on company letterhead must be submitted to the Business Office stating that the student is an employee of the company. North Carolina residents age 65 and older may register for college classes free of tuition, but must pay for fees associated with their class registration.

Tuition Payment Options

Payment of **tuition and fees** must be made by **Registration Day.** Otherwise, student registration may be voided and enrollment cancelled. Options for payment are as follows:

*Cash, check, or money order

*Credit Card - VISA or MasterCard

*Financial Aid - Financial aid approved and awarded by the Financial Aid Office prior to registration includes Pell Grant and scholarships which have been received by the Business Office.

*Third Party Authorizations - Businesses, agencies, organizations, etc. may authorize payment for students' educational expenses. Authorization from the agency must be either on file or presented to the Business Office at the time of registration, stating the specific charges covered.

*FACTS Tuition Management Company - Students may electronically send payment in full for tuition and fees to the college from their personal bank account via a link on the college's website for a nominal fee. For more information, contact the Business Office or visit the college website at ***http://www.surry.edu.*** Students may also apply for an installment plan through FACTS Tuition Management Company for payment of tuition and fees. Payments are set up at 0% interest with a $25 fee per semester. Payments will be drafted from the students' personal bank accounts. **There will be a $25 fee imposed by FACTS Tuition Management Company for any missed payment.** Students must enroll for at least (3) semester hours and complete an application via the college website. For more information, contact the Business Office or visit the college website. ***Payment options are subject to change.***

*Collection Costs - In the case that Surry Community College considers it necessary to refer all or part of the unpaid principal and/or interest for tuition and fees on a student's account to an attorney or collection agency for collection, students are liable for and must pay the college the attorney's fees and/or collection agency fees resulting from the referral. Students must pay all charges and other costs, including attorney's fees, that are allowed by federal and state laws and regulations and that are necessary for the collection of these amounts.

Tuition Rate: Self-Supporting Classes

The College may choose to provide classes under a financially self-supporting method at any time. Tuition rates for self-supporting classes in both curriculum and continuing education will be set at a rate that permits recovery of instructional cost. Each student pays a pro-rata share of that cost. Under this course method, the **tuition rate may exceed the standard state-established tuition rate**.

Tuition and Fee Summary *(Tuition rates listed below are correct at the time the catalog was printed. These rates are subject to change and will not be final until the legislature adjourns at the end of the term.)*

ALL CURRICULUM PROGRAMS: Tuition

Student Classification	Rate Per Credit Hour	Maximum Charge (16 or more credit hours per semester)
Resident	$39.50	$632
Non-Resident	$219.50	$3,512

ALL CURRICULUM PROGRAMS: Fees

While Surry Community College attempts to keep student costs as low as possible, some fees are necessary to maintain adequate services. Presented below are the fees currently applicable to curriculum students. These fees can be refunded only in cases of class cancellation. Any questions regarding these fees should be addressed to the Associate Vice President of Student Development or the Executive Vice President/Chief Financial Officer.

Type of Fee	Basis	Applies To	Amount
Parking	Annual (Fall-Summer)	All Students (Day & Evening)	$5
Accident Insurance	Semester	All Students (Day & Evening)	$3
Student Activity	Semester	All Students (Day & Evening)	$1/Credit Hour *(max:* $14 fall/spring and $10 summer)
Technology	Semester	All Students (Day & Evening)	$1/Credit Hour *(max:* $16)
Distance Education	Course	Students registered for DE courses	$10/DE course
Graduation	Program	Students ordering diplomas	$15
Transcript (official)	Upon Request	All students	$3 per official copy

BOOKS AND SUPPLIES

A student is required to have the necessary textbooks and supplies prescribed in the curriculum he or she is pursuing. The average cost of books may vary, (from $250 to $450 per semester), depending upon the curriculum and the number of courses taken.

Books and supplies are sold during regular bookstore hours (Monday-Thursday 7:30 am-8:00 pm; and, Friday 7:30 am-3:00 pm).

A receipt is required for all refunds or exchanges. Refunds are made only when a receipt is presented and schedules are changed, the drop slip must be presented, or an incorrect book is purchased. Refunds on books purchased in the bookstore may be made only when classes requiring the books are dropped by the drop/add date. Refunds will not be given to students who purchase a new book and then find a used book. Students interested in buying used books should do so before purchasing books in the bookstore. **All refunds must be settled within two weeks after the drop/add period.**

TUITION REFUNDS*

The College will refund 100 percent of tuition and fees for students who **officially withdraw** from class before the semester's first day of classes.

Students will be charged 25 percent of the cost of any class dropped beginning the semester's first day of classes, if a class of equal hours or more is not added during the same transaction for drop/add.

After classes begin, the College will refund 75 percent of tuition for students who **officially withdraw** from class before the 10% point. Activity fee, technology fee, student insurance, distance education fee, and malpractice insurance fees are not refundable after classes start.

If a class is cancelled by the College, a full refund will be given for that particular class unless another class is selected for students who have less than 16 remaining credit hours.

To receive a refund, students must complete a drop/add form in the Student Development Office. No cash refunds will be made. Students should allow 6 to 8 weeks after the semester begins for processing and mailing refunds.

NOTE: The college refund policy is established by state legislative action and, therefore, is subject to change without prior notice to students.

STUDENT FINANCIAL AID

The Student Financial Aid program is designed to assist eligible students in meeting the costs of attending Surry Community College. Financial assistance includes several types of aid: grants, scholarships, loans, and student employment. Financial aid awards may include one or more types of aid. Only students who have been accepted for admission will be offered financial assistance. An enrolled student must reapply for aid during the second year of attendance.

Anyone interested in financial aid information may contact the Financial Aid Office which is located in Student Development. Application packets are available which explain the opportunities and responsibilities in more detail. Financial assistance is awarded without regard to the student's race, religion, national origin, age, sex, or disability.

Application Procedure

Students should:

1. Complete the Free Application for Federal Student Aid, (FAFSA), and mail it to the address shown on the form. Students must specify in the appropriate section that they will be attending Surry Community College. SCC's Title IV school code is 002970. Students completing the FAFSA before March 15th may be considered for the North Carolina Student Incentive Grant. After completing the FAFSA, students will receive a Student Aid Report, (SAR), from the Federal Processing Center. Students may also complete the FAFSA online at www.fafsa.ed.gov.
2. Notify the Financial Aid Office of plans to attend SCC. When the aid office determines what types of aid students are eligible for and what amounts of aid they may receive, the students will be notified in writing.
3. Complete a Surry Community College Application for Financial Aid and return it to the Financial Aid Office, Surry Community College, 630 S. Main Street, Dobson, NC 27017.

To receive notification of eligibility, a student must have a completed aid application file on record in the Financial Aid Office by the following deadline dates:

Fall Semester: May 1
Spring Semester: October 1
Summer Semester: February 1

Students with incomplete files will be required to use personal funds or apply for tuition assistance through the FACTS deferred tuition payment plan. Subsequent eligibility may allow for a late award of aid after the semester begins.

Federal Pell Grant Program

The Federal Pell Grant program is an aid program designed to provide financial assistance to those who need it to attend college. Award amounts are based on family size, income and assets.

Federal Pell Grants are intended to be the "floor" of a financial aid package and may be combined with other forms of aid in order to meet the full costs of education. Students seeking financial assistance apply for this type of aid when completing the FAFSA.

Federal Supplemental Educational Opportunity Grants (FSEOG)

The Federal Supplemental Educational Opportunity Grant program is sponsored by the federal government and was authorized under the Higher Education Act of 1972. A limited number of these grants are available to students who have "exceptional financial need." Students who complete the FAFSA and have a $0 EFC on the SAR are considered for this grant. Priority is given to early applicants.

Federal Work Study Program

Part-time jobs are available for students wishing to earn money to help pay for part of their college expenses. The jobs may be on- or off-campus with a public or private non-profit agency. The amount of work varies and is determined solely on need as determined by the Financial Aid Office.

Students applying for work study must complete the application forms previously explained. This type of aid is paid to the student in the form of monthly wages. There is no repayment.

Student Loan Programs

Separate application forms and promissory notes, in addition to the FAFSA and SCC Aid Application, must be completed to apply for the loan programs. Detailed information may be obtained from the Financial Aid Office staff.

North Carolina Student Incentive Grant (NCSIG)

Full-time students who are legal residents of North Carolina may apply for the NCSIG. These grants are funded by College Foundation, Inc., in Raleigh, NC. Students must demonstrate substantial financial need as calculated by the U.S. Department of Education. Students must apply for federal aid using the FAFSA form by March 15th of each year to be considered for these funds.

Other Scholarships

The Surry Community College Foundation, Inc., provides scholarships for students having financial need and meeting other specified criteria. This form of aid is made possible by businesses, industries, and individuals who have contributed to this non-profit organization.

A number of local scholarships are provided by various clubs, organizations, businesses, and individuals. Some of the recipients of these scholarships are chosen by the organization involved; other scholarships are administered through the Financial Aid Office. To apply for scholarships administered by the college, a student should complete the Surry Community College Application for Financial Aid.

Withdrawal Calculation Policy

Students receiving financial aid **must** follow official withdrawal procedures. Students may be required to repay a portion of aid funds used at the time they withdraw, **or** receive a late disbursement for time in attendance.

To comply with this policy, an aid recipient must:

1. Follow official school withdrawal procedures, which are found in the college catalog.
2. After obtaining "instructors' signatures" and "last date(s) of attendance" on the drop card, the card must be taken to the Financial Aid Office for a staff signature. The "last date of attendance" will be used to calculate the repayment/refund amount of aid due. Repayment/refund pertains only to students completely withdrawing from all classes.

TUITION REFUNDS*

The College will refund 100 percent of tuition and fees for students who **officially withdraw** from class before the semester's first day of classes.

Students will be charged 25 percent of the cost of any class dropped beginning the semester's first day of classes, if a class of equal hours or more is not added during the same transaction for drop/add.

After classes begin, the College will refund 75 percent of tuition for students who **officially withdraw** from class before the 10% point. Activity fee, technology fee, student insurance, distance education fee, and malpractice insurance fees are not refundable after classes start.

If a class is cancelled by the College, a full refund will be given for that particular class unless another class is selected for students who have less than 16 remaining credit hours.

To receive a refund, students must complete a drop/add form in the Student Development Office. No cash refunds will be made. Students should allow 6 to 8 weeks after the semester begins for processing and mailing refunds.

NOTE: The college refund policy is established by state legislative action and, therefore, is subject to change without prior notice to students.

STUDENT FINANCIAL AID

The Student Financial Aid program is designed to assist eligible students in meeting the costs of attending Surry Community College. Financial assistance includes several types of aid: grants, scholarships, loans, and student employment. Financial aid awards may include one or more types of aid. Only students who have been accepted for admission will be offered financial assistance. An enrolled student must reapply for aid during the second year of attendance.

Anyone interested in financial aid information may contact the Financial Aid Office which is located in Student Development. Application packets are available which explain the opportunities and responsibilities in more detail. Financial assistance is awarded without regard to the student's race, religion, national origin, age, sex, or disability.

Application Procedure

Students should:

1. Complete the Free Application for Federal Student Aid, (FAFSA), and mail it to the address shown on the form. Students must specify in the appropriate section that they will be attending Surry Community College. SCC's Title IV school code is 002970. Students completing the FAFSA before March 15th may be considered for the North Carolina Student Incentive Grant. After completing the FAFSA, students will receive a Student Aid Report, (SAR), from the Federal Processing Center. Students may also complete the FAFSA online at www.fafsa.ed.gov.
2. Notify the Financial Aid Office of plans to attend SCC. When the aid office determines what types of aid students are eligible for and what amounts of aid they may receive, the students will be notified in writing.
3. Complete a Surry Community College Application for Financial Aid and return it to the Financial Aid Office, Surry Community College, 630 S. Main Street, Dobson, NC 27017.

To receive notification of eligibility, a student must have a completed aid application file on record in the Financial Aid Office by the following deadline dates:

Fall Semester: May 1
Spring Semester: October 1
Summer Semester: February 1

Students with incomplete files will be required to use personal funds or apply for tuition assistance through the FACTS deferred tuition payment plan. Subsequent eligibility may allow for a late award of aid after the semester begins.

Federal Pell Grant Program

The Federal Pell Grant program is an aid program designed to provide financial assistance to those who need it to attend college. Award amounts are based on family size, income and assets.

Federal Pell Grants are intended to be the "floor" of a financial aid package and may be combined with other forms of aid in order to meet the full costs of education. Students seeking financial assistance apply for this type of aid when completing the FAFSA.

Federal Supplemental Educational Opportunity Grants (FSEOG)

The Federal Supplemental Educational Opportunity Grant program is sponsored by the federal government and was authorized under the Higher Education Act of 1972. A limited number of these grants are available to students who have "exceptional financial need." Students who complete the FAFSA and have a $0 EFC on the SAR are considered for this grant. Priority is given to early applicants.

Federal Work Study Program

Part-time jobs are available for students wishing to earn money to help pay for part of their college expenses. The jobs may be on- or off-campus with a public or private non-profit agency. The amount of work varies and is determined solely on need as determined by the Financial Aid Office.

Students applying for work study must complete the application forms previously explained. This type of aid is paid to the student in the form of monthly wages. There is no repayment.

Student Loan Programs

Separate application forms and promissory notes, in addition to the FAFSA and SCC Aid Application, must be completed to apply for the loan programs. Detailed information may be obtained from the Financial Aid Office staff.

North Carolina Student Incentive Grant (NCSIG)

Full-time students who are legal residents of North Carolina may apply for the NCSIG. These grants are funded by College Foundation, Inc., in Raleigh, NC. Students must demonstrate substantial financial need as calculated by the U.S. Department of Education. Students must apply for federal aid using the FAFSA form by March 15th of each year to be considered for these funds.

Other Scholarships

The Surry Community College Foundation, Inc., provides scholarships for students having financial need and meeting other specified criteria. This form of aid is made possible by businesses, industries, and individuals who have contributed to this non-profit organization.

A number of local scholarships are provided by various clubs, organizations, businesses, and individuals. Some of the recipients of these scholarships are chosen by the organization involved; other scholarships are administered through the Financial Aid Office. To apply for scholarships administered by the college, a student should complete the Surry Community College Application for Financial Aid.

Withdrawal Calculation Policy

Students receiving financial aid **must** follow official withdrawal procedures. Students may be required to repay a portion of aid funds used at the time they withdraw, **or** receive a late disbursement for time in attendance.

To comply with this policy, an aid recipient must:

1. Follow official school withdrawal procedures, which are found in the college catalog.
2. After obtaining "instructors' signatures" and "last date(s) of attendance" on the drop card, the card must be taken to the Financial Aid Office for a staff signature. The "last date of attendance" will be used to calculate the repayment/refund amount of aid due. Repayment/refund pertains only to students completely withdrawing from all classes.

3. The school will calculate: the total amount of aid that the student received from the Pell Grant program, SEOG, and any federal loans; the total amount of the same aid that was used for tuition, fees, books, and supplies (charged to the student's account); the total number of days the student attended classes, and compare this number to the total days in the semester. This calculation will give the College the percentage of the semester completed by the student. **If the student has completed at least 60 percent of the semester, no further action is taken.** The school will apply the percentage of the semester completed to the amount of aid the student received to determine the amount of aid they are eligible to have for the days enrolled. If the student used more aid than they were eligible to receive, according to the days in attendance, the student must repay to the school an amount equal to "funds overspent x 50 percent". NOTE: If the student owes a repayment on federal funds, the money must be repaid in full to the school within 45 days, or the student will be ineligible for further aid. The student's account can be referred to the U.S. Department of Education for collection and can result in garnishment of wages and/or tax refunds. If the student used less aid than they were entitled to receive according to the days in attendance, the school owes the student a "post-withdrawal disbursement". The school will notify the student of the amount and date of availability of the funds. Students must claim the funds within 14 days or the disbursement will be voided.

A mathematical example showing the application of this policy is available upon request from the Financial Aid Office.

STANDARDS OF ACADEMIC PROGRESS FOR ALL AID RECIPIENTS AT SURRY COMMUNITY COLLEGE

Introduction

This college policy outlines the regulations for satisfactory academic progress required of all students receiving financial assistance. These standards apply to any student receiving grants, scholarships, college work study, or any other type of financial assistance through Surry Community College.

Procedures

Transcripts of all aid recipients will be reviewed at the end of each semester by the Financial Aid Office. From this review, a determination will be made about the satisfactory progress of each financial aid recipient. This review will include the student's total academic history at Surry Community College, including remedial or developmental classes. The "Fresh Start/In-House Transfer" exclusion policy does not apply to the grade point calculation used to qualify students for federal aid. In order to receive aid, a student must be making satisfactory progress regardless of whether he or she has previously received aid. These are the conditions related to satisfactory progress:

I. Financial aid recipients in the two-year College Transfer or Associate in Applied Science Degree, (Technical), programs must maintain the following grade point average to be classified as making satisfactory progress:

0 to 20 credit hours attempted - 1.00 cumulative grade point average
21 to 35 credit hours attempted - 1.50 cumulative grade point average
36 to 50 credit hours attempted - 1.75 cumulative grade point average
51 credit hours to the end of the program - 2.0 cumulative grade point average

Note: In addition to these GPA requirements, a student must complete at least 50 percent of the credit hours attempted each semester.

II. Financial aid recipients in the Diploma or eligible Certificate programs must maintain the following grade point averages to be classified as making satisfactory progress:

0 to 15 credit hours attempted - 1.50 cumulative grade point average
16 to 26 credit hours attempted - 1.75 cumulative grade point average
27 to the end of the program - 2.00 cumulative grade point average

Note: In addition to these GPA requirements, a student must complete at least 50 percent of the credit hours attempted each semester.

III. At the end of each level previously described, an aid recipient has one full probationary semester in which to bring his/her GPA up to the minimum requirements. During the probationary semester, a student must attempt at least 6 credit hours, attain a minimum GPA **and** complete at least 50 percent of the credit hours attempted for that semester. Failure to do so will cause the student to be terminated from receiving further financial assistance. To re-establish eligibility after termination, students must complete at least 6 credit hours, including 50 percent of the hours attempted in a semester, and attain the minimum GPA required on the proceeding page. Students should present an updated copy of their qualifying transcript to the Financial Aid Office, along with a request for reconsideration of eligibility.

IV. Students receiving certain types of aid who withdraw from any or all courses during any semester or pay period may be subject to repay a pro-rated amount of the assistance.

V. Any financial aid recipient who withdraws from school **MUST** notify the Financial Aid Office. Failure to notify the Financial Aid Office can result in a forfeiture of the probationary semester.

VI. Only grades of A, B, C, D, and F will be used to calculate GPA as explained in this catalog. Financial aid cannot be received for an audit. Also, Title IV aid will not pay for a student to repeat any classes already showing on a transcript, including those listed as transfer credit, regardless of whether aid was received for the class(es). No aid can be paid for classes in which a student has earned proficiency credits, designated as "CR" on the transcript.

VII. **Time Limitation:** Federal regulations require that schools establish a maximum time limit during which the student on aid must complete his or her program of study at Surry Community College. This time limit is 150% of the number of credit hours required for the program. For example, a student pursuing an A.A.S. Degree in Paralegal Technology, (69 credit hours), must attain that degree after attempting 104 credit hours (69 x 150% = 104). Students will be terminated from aid after reaching the maximum time frame allowed for their program of study. A reconsideration due to mitigating circumstances is only allowed once. **All** attempted hours on the transcript will be counted in this time frame, unless hours are used for a previous degree received.

Note: Any deviation from the above policy will be at the discretion of the Financial Aid Director. In order to appeal financial aid termination, a student must be able to document mitigating circumstances.

To appeal, students must indicate in writing to the Financial Aid Office the reason why they did not meet satisfactory progress requirements and why financial aid should not be terminated. Documentation to support the appeal is required.

The Financial Aid Director will review the appeal to determine whether or not termination of aid is justified and will advise the student in person or by letter.

3. The school will calculate: the total amount of aid that the student received from the Pell Grant program, SEOG, and any federal loans; the total amount of the same aid that was used for tuition, fees, books, and supplies (charged to the student's account); the total number of days the student attended classes, and compare this number to the total days in the semester. This calculation will give the College the percentage of the semester completed by the student. **If the student has completed at least 60 percent of the semester, no further action is taken.** The school will apply the percentage of the semester completed to the amount of aid the student received to determine the amount of aid they are eligible to have for the days enrolled. If the student used more aid than they were eligible to receive, according to the days in attendance, the student must repay to the school an amount equal to "funds overspent x 50 percent". NOTE: If the student owes a repayment on federal funds, the money must be repaid in full to the school within 45 days, or the student will be ineligible for further aid. The student's account can be referred to the U.S. Department of Education for collection and can result in garnishment of wages and/or tax refunds. If the student used less aid than they were entitled to receive according to the days in attendance, the school owes the student a "post-withdrawal disbursement". The school will notify the student of the amount and date of availability of the funds. Students must claim the funds within 14 days or the disbursement will be voided.

A mathematical example showing the application of this policy is available upon request from the Financial Aid Office.

STANDARDS OF ACADEMIC PROGRESS FOR ALL AID RECIPIENTS AT SURRY COMMUNITY COLLEGE

Introduction

This college policy outlines the regulations for satisfactory academic progress required of all students receiving financial assistance. These standards apply to any student receiving grants, scholarships, college work study, or any other type of financial assistance through Surry Community College.

Procedures

Transcripts of all aid recipients will be reviewed at the end of each semester by the Financial Aid Office. From this review, a determination will be made about the satisfactory progress of each financial aid recipient. This review will include the student's total academic history at Surry Community College, including remedial or developmental classes. The "Fresh Start/In-House Transfer" exclusion policy does not apply to the grade point calculation used to qualify students for federal aid. In order to receive aid, a student must be making satisfactory progress regardless of whether he or she has previously received aid. These are the conditions related to satisfactory progress:

I. Financial aid recipients in the two-year College Transfer or Associate in Applied Science Degree, (Technical), programs must maintain the following grade point average to be classified as making satisfactory progress:

0 to 20 credit hours attempted - 1.00 cumulative grade point average
21 to 35 credit hours attempted - 1.50 cumulative grade point average
36 to 50 credit hours attempted - 1.75 cumulative grade point average
51 credit hours to the end of the program - 2.0 cumulative grade point average

Note: In addition to these GPA requirements, a student must complete at least 50 percent of the credit hours attempted each semester.

II. Financial aid recipients in the Diploma or eligible Certificate programs must maintain the following grade point averages to be classified as making satisfactory progress:

0 to 15 credit hours attempted - 1.50 cumulative grade point average
16 to 26 credit hours attempted - 1.75 cumulative grade point average
27 to the end of the program - 2.00 cumulative grade point average

Note: In addition to these GPA requirements, a student must complete at least 50 percent of the credit hours attempted each semester.

III. At the end of each level previously described, an aid recipient has one full probationary semester in which to bring his/her GPA up to the minimum requirements. During the probationary semester, a student must attempt at least 6 credit hours, attain a minimum GPA **and** complete at least 50 percent of the credit hours attempted for that semester. Failure to do so will cause the student to be terminated from receiving further financial assistance. To re-establish eligibility after termination, students must complete at least 6 credit hours, including 50 percent of the hours attempted in a semester, and attain the minimum GPA required on the proceeding page. Students should present an updated copy of their qualifying transcript to the Financial Aid Office, along with a request for reconsideration of eligibility.

IV. Students receiving certain types of aid who withdraw from any or all courses during any semester or pay period may be subject to repay a pro-rated amount of the assistance.

V. Any financial aid recipient who withdraws from school **MUST** notify the Financial Aid Office. Failure to notify the Financial Aid Office can result in a forfeiture of the probationary semester.

VI. Only grades of A, B, C, D, and F will be used to calculate GPA as explained in this catalog. Financial aid cannot be received for an audit. Also, Title IV aid will not pay for a student to repeat any classes already showing on a transcript, including those listed as transfer credit, regardless of whether aid was received for the class(es). No aid can be paid for classes in which a student has earned proficiency credits, designated as "CR" on the transcript.

VII. **Time Limitation:** Federal regulations require that schools establish a maximum time limit during which the student on aid must complete his or her program of study at Surry Community College. This time limit is 150% of the number of credit hours required for the program. For example, a student pursuing an A.A.S. Degree in Paralegal Technology, (69 credit hours), must attain that degree after attempting 104 credit hours (69 x 150% = 104). Students will be terminated from aid after reaching the maximum time frame allowed for their program of study. A reconsideration due to mitigating circumstances is only allowed once. **All** attempted hours on the transcript will be counted in this time frame, unless hours are used for a previous degree received.

Note: Any deviation from the above policy will be at the discretion of the Financial Aid Director. In order to appeal financial aid termination, a student must be able to document mitigating circumstances.

To appeal, students must indicate in writing to the Financial Aid Office the reason why they did not meet satisfactory progress requirements and why financial aid should not be terminated. Documentation to support the appeal is required.

The Financial Aid Director will review the appeal to determine whether or not termination of aid is justified and will advise the student in person or by letter.

A student who wishes to appeal the decision of the Financial Aid Director may request a hearing with the Associate Vice President of Student Development for final determination. This action will exhaust the appeals process.

STANDARDS OF ACADEMIC PROGRESS FOR ALL STUDENTS RECEIVING GI BILL OR OTHER VETERAN'S ADMINISTRATION EDUCATIONAL BENEFITS

The minimum grade point averages detailed in Sections I and II of the Standards of Academic Progress Policy previously described also pertain to students receiving veteran's benefits. In addition to these GPA requirements, the following conditions apply:

1. Only grades of A, B, C, D, and F will be used to calculate GPA as explained in the college catalog. The Veterans Administration will not pay for audits, withdrawals, incompletes, or proficiency credits.
2. Students may contact the Veterans Certifying Official in the Financial Aid Office within Student Development for questions pertaining to veterans benefits.

SURRY COMMUNITY COLLEGE FOUNDATION, INC.

The Surry Community College Foundation, Inc. was established in 1966 as a non-profit organization dedicated to providing financial assistance to students, promoting faculty development, and supporting programs which enhance the college's learning environment.

The first grant to the Foundation was an $800 scholarship from North Carolina Foam Industries in September, 1966. The Foundation has a variety of methods through which contributions can be made to serve the best interests of the donor and the purposes of the Foundation. These include gifts of cash; common stock or other securities; life insurance policies with the Foundation as beneficiary; property and/or real estate with provisions for continued use for the duration of a person's life; donations by will through an estate; gifts in honor or memorial; annuity trusts; individual retirement accounts; gifts-in-kind; and other methods developed to meet specific needs of the donor. All gifts must meet the requirements of the Foundation by-laws and practice.

All philanthropic support to benefit Surry Community College should be channeled through the Surry Community College Foundation, Inc., which is the affiliated agency through which tax deductible gifts can be made to the college.

BOARD OF DIRECTORS

The Ambassador Scholars Program

The Ambassador Scholars Program was originated by the Surry Community College Foundation, Inc., in 1993. Ambassadors are students who are proven leaders and scholars. Ambassadors are trained as public relations representatives for the College and Foundation. They are chosen from a variety of curriculum areas and have differing educational and career goals. For more information about this program, contact the Student Development Office.

CORPORATE & CONTINUING EDUCATION DIVISION

The Corporate and Continuing Education Division offers a vast array of courses and programs in over 100 sites throughout our two county service area of Surry and Yadkin Counties. Course categories include arts and crafts, automotive, computer skills, construction, insurance, languages, law enforcement, fire and rescue, emergency medical, nursing, real estate, recreation, teaching, trades, and miscellaneous other classes.

Through the Corporate and Continuing Education Division you can prepare for a new career in one of our licensing/certification programs, enhance your work skills, earn your high school diploma (GED), learn a trade, or take a class for personal enrichment.

Occupational Extension Courses are designed to prepare individuals for an occupation/career through licensing and certification courses. Courses are also available to enhance the skills of students in their current employment situation. Some of these courses include law enforcement, certified nursing assistant, real estate, teacher assistant, emergency medical technician, computer skills, HVAC, electrical contractor, general contractor, and plumbing.

The Basic Skills Program includes the following components:

- **The High School Completion Program (GED)** is designed to prepare adults for the Tests of General Educational Development. Upon successful completion of the program of study and a satisfactory score on the GED Tests, students are awarded a high school diploma by the State of North Carolina.

- **The Adult Basic Education Program** provides a means for adults to learn to read, write, and improve basic math skills. Practical teaching methods enable students to acquire basic skills such as using a telephone directory, reading road signs, counting money, and completing job applications.

- **English for Speakers of Other Languages (ESL)** courses are designed to teach English communication skills as well as American customs and history to persons whose primary language is not English. This program is part of the Center for Foreign Languages.

- **The Compensatory Education Program** provides educational opportunities for adults who have special learning needs due to a developmental disability or traumatic brain injury.

- **The Family Literacy Program** is a comprehensive family oriented educational program that the college offers in partnership with the public school systems and other agencies. Parents and children attend classes together to enhance the education level of the whole family.

The Human Resources Development Program provides employability skills for unemployed and underemployed adults. The curriculum addresses six core components: (1) assessment of an individual's assets and limitations, (2) development of a positive self-concept, (3) development of employability skills, (4) development of communication skills, (5) development of problem-solving skills, and (6) awareness of the impact of information technology in the workplace. Also, the framework of the course can be based on four post-employment service strategies: transition, advancement, retention, and re-employment. Career exploration and training success strategies are emphasized for those people returning to school.

The Small Business Center offers free or low-cost services for both start-up and existing businesses. Services include consultation and referral, courses and seminars, and access to entrepreneurial literature. The mission of the Small Business Center is to increase the success rate of small businesses and to enhance economic development in North Carolina.

A student who wishes to appeal the decision of the Financial Aid Director may request a hearing with the Associate Vice President of Student Development for final determination. This action will exhaust the appeals process.

STANDARDS OF ACADEMIC PROGRESS FOR ALL STUDENTS RECEIVING GI BILL OR OTHER VETERAN'S ADMINISTRATION EDUCATIONAL BENEFITS

The minimum grade point averages detailed in Sections I and II of the Standards of Academic Progress Policy previously described also pertain to students receiving veteran's benefits. In addition to these GPA requirements, the following conditions apply:

1. Only grades of A, B, C, D, and F will be used to calculate GPA as explained in the college catalog. The Veterans Administration will not pay for audits, withdrawals, incompletes, or proficiency credits.
2. Students may contact the Veterans Certifying Official in the Financial Aid Office within Student Development for questions pertaining to veterans benefits.

The Small Business Center offers free or low-cost services for both start-up and existing businesses. Services include consultation and referral, courses and seminars, and access to entrepreneurial literature. The mission of the Small Business Center is to increase the success rate of small businesses and to enhance economic development in North Carolina.

The Focused Industrial Training Program (FIT) is a special training source for North Carolina's traditional industries. Serving primarily manufacturing clients, FIT uses individualized needs assessments and consultants to design and implement targeted, customized training for organizations that need to upgrade workers' skills because of technological or process advances.

The New and Expanding Industry Program is designed to assist any company that creates at least twelve (12) new production jobs in our service area with average hourly rates exceeding the county average. The versatility of this training is virtually unlimited. The final design of the training is the result of a partnership between the company and the college.

Personal Enrichment and Self-Supporting Programs include courses designed to meet the personal growth, recreational, and enrichment needs of adult students. Representative courses include painting, photography, sewing, cake decorating, cooking, dance, yoga, basketweaving, floral design, stained glass, scrapbooking, a variety of needlework classes, golf, fly fishing, motorcycle safety, Alive at 25, reflexology, and therapeutic massage.

The Emergency Services Training Center is a comprehensive training facility for emergency services personnel, law enforcement personnel, and industrial employees. The center includes a driving range, live fire simulators, a structural burn building, confined space and high angle rescue simulators, and an off-road emergency vehicle operators training course.

TUITION, FEES & REFUNDS

All Basic Skills (ABE, GED, ESL, CED, Family Literacy) classes are offered **tuition free**.

Tuition and fees for occupational and community service classes are as follows.

Course Hours	Tuition	Technology Fee
1-10 hours	$50.00	none
11-30 hours	$55.00	$1.00
31-100 hours	$60.00	$2.00
101+ hours	$65.00	$3.00
Community Service	$40.00	based on hours of class as stipulated above

Students who enroll in **self-supporting classes** pay fees that are based on a pro rata cost of the course. Technology fees are based on the hours of the course as stipulated above.

A student who **wishes to withdraw** from a Continuing Education course must contact the Continuing Education office prior to the 10% point of the scheduled hours of the class to be eligible for a tuition refund. A 75% refund will be given if the student request is received by the deadline. If a student pre-registers/prepays for a class and requests a refund prior to the first class meeting, 100% of the tuition will be returned.

North Carolina residents age 65 years of age and older may register free of charge with the exception of Self-Supporting courses. Tuition fees are set by the North Carolina General Assembly and may change. **Any person repeating an Occupational course for the third time will be charged an additional fee.**

The **technology fee** is waived for Basic Skills students, HRD students, and students enrolled in emergency services training courses. It does apply to senior citizens, even when tuition is waived and to college faculty/staff who enroll in continuing education classes.

All continuing education students who attend class during the day must purchase a **parking permit**. Students who are registered for an evening class that is more than 20 hours in duration must purchase a parking permit.

REGISTRATION AND ATTENDANCE

Continuing Education students register at the first class session unless noted as "pre-registration required" in the course information. To pre-register, please call the appropriate extension number from the class schedule.

Any person eighteen years of age or older may be admitted to a Continuing Education class. Surry Community College provides educational opportunities without regard to race, sex, creed, national origin, or disability.

Students are encouraged to attend all classes. Those who attend at least 80 percent of the classes and complete course requirements will be awarded a satisfactory grade and CEU's where applicable.

Continuing Education classes may be cancelled if a sufficient number of persons do not register at the first class meeting.

CONTINUING EDUCATION UNITS

Continuing Education Units (CEU's) are awarded by the college (one CEU for ten contact hours of class) to students who complete all course requirements for non-credit classes above the secondary school level. CEU records are maintained by the Continuing Education Division.

CONTINUING EDUCATION TRANSCRIPTS

Transcripts of individual records are available upon written request and students will be charged a $3.00 fee per official copy.

COMPUTER COURSES

COMPUTER SKILLS FOR JOB SEEKERS — **Hours** 36 — **Semester** FSSu

This course focuses on Computer Basics and is an introduction to Windows. The curriculum framework is designed to introduce computers and computer terms, develop a moderate comfort level of basic computer use skills, introduce the Internet and develop email capabilities, and develop skills in navigating the Internet and using search engines. Students learn the use of Windows controls, file management, word processing, and spreadsheet applications. Prerequisites: None

INTERNET FOR JOB SEEKERS — **Hours** 30 — **Semester** FSSu

This course on Internet Basics can be used to learn about the most important topics of using the Internet, including using e-mail, browsing Web sites, searching for information, downloading data & programs, using file transfer protocol (FTP) software, and other Internet related topics. The training for this course is a combination of Instructor-led lecture and student hands-on use of the Internet. Students will be shown how to set up their own e-mail account and how to determine their home page on the web. Each class session will begin with the instructor's demonstrating how to use a certain segment of the World Wide Web that the student will need to use when working the assignments on your own during the last part of each class. This lecture and hands-on approach is designed to make you more productive when using the Internet. Prerequisites: Computer Skills or prior computer knowledge.

KEYBOARDING SKILLS FOR THE WORKPLACE — **Hours** 30 — **Semester** FSSu

This course is designed to provide training in keyboarding skills using a computer keyboard. Course topics include focusing on alphabetic keys and the numeric key pad. The student will become familiar with numeric, symbol and function keys, and will drill for speed, accuracy, and keyboard applications. This class will help the student develop strong keyboarding skills and will reinforce proper techniques to build keyboarding fluency. Learning to keyboard requires continual diligence and repetition to master; therefore, technique drills and speed and accuracy drills are included. Prerequisites: None

MICROSOFT OFFICE INTRODUCTORY — **Hours** 78 — **Semester** FSSu

This MS-Office Introductory course consists of twelve projects that are designed to take full advantage of the MS-Office application. The objective of this course is to teach the introductory and the intermediate levels of MS-Office, showing the student how to create Word documents, Excel workbooks, Access databases, and PowerPoint presentations. The training for this course is a combination of Instructor-led lecture and student hands-on exercises. Each class session will begin with the instructor's lecture of the subject, which includes a preview of the steps that you will need to use when working the assignments on your own during the last part of each class session. This lecture and hands-on approach is designed to make students more productive when using MS-Office. The textbook, *MS-Office: Introductory Concepts and Techniques*, consists of a brief introduction to computers, a project on MS-Windows, three projects each on MS-Word, MS-Excel, and MS-Access and two projects on MS-PowerPoint. After completing the projects and activities in this course, students will have started a foundation of the training that will eventually prepare them for the Core Level Microsoft Office User Specialist (MOUS) program.
Prerequisites: Computer Skills for Job Seekers or prior computer knowledge.

MICROSOFT OFFICE ADVANCED — **Hours** 78 — **Semester** FSSu

This MS-Office Advanced course will extend the student's basic knowledge of working with Word documents, Excel workbooks, Access databases, and PowerPoint presentations. This advanced course is a continuation of the MS-Office Introductory course, and it is assumed that students are familiar with the fundamentals of MS-Word, MS-Excel, MS-Access, and MS-PowerPoint. The textbook, *MS-Office: Advanced Concepts and Techniques*, consists of, projects four, five and six for MS-Word, MS-Excel, and MS-Access and projects three and four for MS-PowerPoint. After completing the projects and activities in this course, students will be prepared to pass the Core & Comprehensive-level Microsoft Office User Specialist (MOUS) exam. Prerequisites: Introductory Microsoft Office.

Continuing Education Course Listing

EDUCATION

	Hours	Semester	Certificate/License
CHILD CARE PROVIDER CONTINUING EDUCATION	12	FSSu	

Offered periodically throughout the year, a variety of topics are covered to provide professional development for child care providers and to meet their continuing education training hour requirements. All sessions address developmentally appropriate curriculum for child care providers to use in their classrooms.

EFFECTIVE TEACHER TRAINING	30	FSSu	

This class presents an overview of the Effective Teacher Training course. The ETT program emphasizes information and behavioral skills needed in order to recognize and apply those teaching practices that research supports as most effective. Educators must look at time as a resource whose appropriate use is carefully planned for and strictly managed. This class presents teaching skills, which maximize learning time.

NATIONAL BOARD CERTIFICATION FOR PUBLIC SCHOOL TEACHERS	24	FSSu	

This course provides a comprehensive introduction to the National Board for Professional Teaching Standards certification process. Providing information for both candidates and potential candidates, the course focuses on the four portfolio entries and the six assessment center entries. Detailed instructions for each aspect of the ten areas are discussed. Tips for completing the certification process, including the video entries, are given during the course.

GRE PREP I (On-Line)	24	FSSu	

This course covers all question types on the verbal and analytical sections of the GRE. We will discuss how to do your best on reading comprehension, analogies, sentence completions, antonyms, and logical and analytical reasoning questions. We will cover time saving techniques for both the paper based and computer administrations of the test.

GRE PREP II (On-Line)	24	FSSu	

This course features a math review and techniques for tackling the quantitative comparison, discrete quantitative, and data interpretation questions that make up the math section of the GRE. We will also cover time saving techniques for both the paper-based and computer administrations of the test.

WORKKEYS ASSESSMENT	4	FSSu	

The WorkKeys test is open to those current or potential teacher's assistants who need to take the complete assessment for the first time or those who may need to retake a section of the test. Pre-registration and pre-payment are required.

MEDICAL

	Hours	Semester	Certificate/License
EMERGENCY MEDICAL			
Medical Responder	**72**	**OR**	**Certification**

This course is designed to train individuals with the knowledge and skills to operate ambulances throughout the state. Students are instructed in Basic Life Support skills including the use of AED to assist Emergency Medical technicians in the field. Skills developed are patient assessment, vitals signs, airway management CPR, splinting, and hemorrhage control. This is an entry level course for state certification. This course must follow the guidelines established by the NC Office of EMS. The curriculum for the MR educational program shall be the 1995 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) First Responder Course: National Standard Curriculum. Student prerequisites: High school diploma or general education development (GED); or successful completion of an entrance exam assessing basic reading comprehension skills at a minimum at the tenth grade level.

	Hours	Semester	Certificate/License
EMT-Basic	**208**	**FS**	**Certification**

The Emergency Medical Technician-NR course establishes the basic knowledge needed to provide, under medical authority, prehospital emergency care and to pass the NC State and/or National Registry certification exam. Students will acquire basic life support knowledge through a combination of classroom instruction, practical laboratory exercises and clinical experience in hospitals. Students will acquire a thorough understanding of criminal, civil and vehicle laws pertaining to the EMT's services; develop understanding and knowledge of human anatomy and physiology; deal calmly and efficiently with childbirth, injuries, poisonings and other medical emergencies such as heart disorders, strokes and diabetes; and in general be able to provide basic life support for seriously/critically ill patients. This course follows the guidelines established by the NC Office of EMS. The curriculum for the EMT-B educational program shall be the 1994 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) EMT-Basic Course: National Standard Curriculum and the Supplemental Airway Modules for EMT-Basic: NSC. Prerequisites: High school diploma or general education development (GED); and successful completion of the TABE assessment exam for basic reading comprehension skills. This test may be taken at any of the learning centers at no cost to the student.

	Hours	Semester	Certificate/License
EMT-Intermediate	**276**	**F**	**Certification**

Certification as an Emergency Medical Technician is a prerequisite for this course, which details more advanced airway devices, insertion and maintenance of intravenous lines, AED use and basic pharmacological therapy, in accordance with local protocols. This course must follow the guidelines established by the NC Office of EMS. The curriculum for the EMT-I educational program shall be the 1985 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) EMT-Intermediate Course: National Standard Curriculum. Prerequisites: High school diploma or general education development (GED); successful completion of the TABE assessment exam assessing basic reading comprehension and language skills at a minimum at the post-secondary grade level and basic math skills at a minimum high school level; successful completion of an EMT Basic course; and a current NC EMT certification prior to beginning the Clinical and Field Internship components. The TABE may be taken at any of the learning centers at no cost to the student.

	Hours	Semester	Certificate/License
EMT-Paramedic	**1000+**	**S**	**Certification**

This course is designed to develop knowledge and skills for the Advanced Emergency care of ill or injured persons. This course follows the National Department of Transportation Guidelines and is approved by the North Carolina Office of Emergency Medical Services. Lecture, demonstrations, skills evaluation, and both Hospital and Field Internships are the principal methods of instruction. Specific training areas include administration of I.V. fluids, advanced airway management, cardiac monitoring including Defibrillation, Cardioversion, Cardiac Pacing, and the administration of prehospital advanced life support medications. This course must follow the guidelines established by the NC Office of EMS. The curriculum for the EMT-P program shall be the 1998 United States Department of Transportation (US DOT) National Highway Traffic Safety Administration (NHTSA) EMT-Paramedic course: National Standard Curriculum. Prerequisites: High school diploma or general education development (GED); successful completion of the TABE assessment exam assessing basic reading comprehension and language skills at a minimum at the post-secondary grade level and basic math skills at a minimum high school level; successful completion of an EMT-Basic and EMT-Intermediate course. Certification as an EMT-Intermediate is required prior to beginning the clinical or field internship component of this course. Successful completion of EMS 3000 Anatomy and Physiology or approved equivalent of Anatomy and Physiology (BIO 163 or BIO 165 and BIO 166) is required prior to beginning the course. The TABE may be taken at any of the learning centers at no cost to the student.

CPR/First Aid	8 to 12	OR	Certification

ADVANCED CERTIFICATION FOR EMERGENCY MEDICAL

ACLS - Advanced Cardiac Life Support 16 OR Certification

The ACLS Provider course follows the standard American Heart Association guidelines; and provides physicians, nurses, paramedics, and other health care providers with the information concerning advanced management of the cardiac patient.

ITLS - International Trauma Life Support 16 OR Certification

The ITLS Course is designed to increase the knowledge and skill level of the emergency medical technician in assessing and treating any trauma-related injury. Much of the material in this course is not covered in the initial EMT or EMT-I course, but it is designed for the student to better recognize possible trauma injuries due to mechanism of injury, better assess the patient and more aggressively treat shock and trauma in general.

PALS - Pediatric Advanced Life Support 16 OR Certification

The PALS course is designed to certify Emergency Medical Personnel in Pediatric Advanced Life Support through the American Heart Association. This course teaches the proper evaluation and treatment of a pediatric patient in cardiopulmonary arrest. Upon successful completion, the student will be awarded PALS certification from the American Heart Association. Pre-requisite: Advanced Life Support certification preferred, but not required.

PEPP - Pediatric Education for Prehospital Providers 16 OR
Certification

MEDICAL

MEDICAL TERMINOLOGY 72 FS

This course is an introduction to the study of the structure of medical words and terms. Emphasis is placed on spelling and defining commonly used prefixes, suffixes, root words, and their combining forms. Program content covers the basic human anatomy and physiology for all systems, elements of medical terms and names of major diseases, including terms used in physical exams, operative procedures, and diagnosis.

HEALTHCARE BILLING AND CODING (Basic & Intermediate) 48/48 FS

This course prepares the individual for entry level healthcare billing and coding in a variety of healthcare settings. This course is in two parts, Basic & Intermediate Coding. Upon completion the student will be prepared to take the Certified Coder Examination.
Prerequisite: High school diploma /GED and Medical Terminology.

HEALTH UNIT COORDINATOR (Unit Secretary) 132 FS

This course is designed to prepare the individual for employment in a hospital or other healthcare facility. Areas covered are assembling patient charts, transcribing doctors orders, recording lab values, and communication skills. There is a clinical component to this course.
Prerequisite: Medical Terminology or CNA I.

Continuing Education Course Listing

MEDICAL *continued...*	Hours	Semester	Certificate/License

MEDICAL TRANSCRIPTION 84 FS

This class prepares the individual to transcribe medical dictation. Students will use keyboarding skills and medical terminology. Students may find jobs in hospitals, physician practices, insurance companies and private transcription agencies.
Prerequisites: Medical Terminology, and High school diploma/GED

MEDICAL OFFICE ASSISTANT - ADMINISTRATION 60 FS

This course is designed to prepare students to handle front office operations. Areas include scheduling, patient medical records, communication skills, billing and reimbursement procedures, medical law and ethics.
Prerequisite: Medical terminology

MEDICAL OFFICE ASSISTANT - CLINICAL 60 FS

This course is designed to prepare the student to assist the physician and other medical staff in the physician office setting. Areas may include body systems, diseases, and clinical procedures used in a medical office.
Prerequisite: Medical Office Assistant I -Administrative

CERTIFIED NURSING ASSISTANT	Hours	Semester	Certificate/License

NURSE AIDE LEVEL I 188 FS Certification

The Nursing Assistant I student is prepared to provide personal care and perform basic nursing skills for the elderly and other adults. Emphasis is placed on the aging process, patient's rights, nutrition, safety/infection control procedures, restorative care, structure and function of the human body, diseases and functions, communication/documentation, death and dying process, role of the nursing assistant, and CPR . Upon satisfactory completion of the CNA I course and the skills/ competency evaluation, the student will be listed on the North Carolina Division of Facility Services Nurse Aide I Registry. Prerequisites: Each student must take a reading proficiency test prior to registration. This test may be taken at any of the learning centers at no cost to the student.

NURSE AIDE LEVEL II 192 FS Certification

The Nursing Assistant II course prepares the student to perform more complex skills for patients or residents. Emphasis is placed on oxygen therapy, sterile technique, wound care, suctioning techniques, tracheostomy care, IV fluids (specific procedures as approved by the NC Board of Nursing), urinary catheterization and irrigation, oral/nasogastric and gastrostomy feeding tubes, and ostomy care and elimination procedures. Upon satisfactory completion of the CNA II course the student will be listed with the North Carolina Board of Nursing. Prerequisites: High School Diploma or GED and current CNA I and CPR.

PHARMACY TECHNICIAN 72 FS Certification

This course prepares students to work under the supervision of a pharmacist in a hospital or retail pharmacy. Topics covered in the course include drug classification, drug distribution, anatomy and physiology in relationship to disease with an emphasis on drug therapy, and laws and regulations basic to pharmacy practice. Interested student are prepared to sit for the Pharmacy Technician Certification Exam upon successful completion of this course. For more information about pharmacy technician you may go to www.ptcb.org. Prerequisites: High School Diploma or GED required to take certification exam.

Continuing Education Course Listing

MEDICAL *continued...*	Hours	Semester	Certificate/License
PHLEBOTOMY			
PHLEBOTOMY I	**96**	**FS**	**Certification**

This is the classroom portion of Phlebotomy Education which includes didactic and lab. The course prepares students to take the clinical portion (Phlebotomy II) of the program. This class may be used as a refresher/continuing education if students are already working in the field. Prerequisites: High school diploma or GED. CNA I & II, MOA I & II, CMA or comparable credentials.

PHLEBOTOMY II (Clinical) **100** **FS** **Certification**

This is the clinical portion of Phlebotomy Education. The student will go to a designated clinical site and perform learned skills. Each student must have 100 hours of clinical, 100 venipunctures, and 25 skin punctures. Upon satisfactory completion of Phlebotomy I & II the student may sit for his/her certification exam. Prerequisites: High school diploma or GED. CNA I & II, MOA I & II, CMA or comparable credentials.

REAL ESTATE

	Hours	Semester	Certificate/License

REAL ESTATE BROKER PRELICENSE COURSE **75** **FS** **License**

Any person who transacts real estate business (including time share transactions) in North Carolina for compensation as an agent for another must first obtain a real estate broker license issued by the North Carolina Real Estate Commission. A broker may perform a full range of real estate services. Brokers can work for other brokers or brokerage firms, or they can open and operate their own real estate businesses. Successful completion of a Real Estate Broker Prelicense Course is required for any person seeking eligibility to take the North Carolina real estate license examination and to obtain a real estate broker license.

Prerequisite: Any individual wanting to take the Real Estate Broker Prelicense Course at Surry Community College must first show proficiency on the mathematics section of the Tests of Adult Basic Education (TABE) prior to enrollment in the course. The math section is comprised of 40 questions and candidates have 45 minutes to complete the exam (calculator usage during testing is not allowed). The proficiency can be taken in any Surry Community College Learning Center at no cost.

REAL ESTATE BROKER POSTLICENSE PROGRAM **90** **FS** **Certification**

Upon successful completion of the Real Estate Broker Prelicense Course and examination by the state of North Carolina, a person is classified as a broker with provisional status. Each individual classified as a provisional broker must, within three years of initial licensure, complete an additional postlicensing education program in order to retain his/her broker license. Until completion of the postlicensing program, provisional brokers must be supervised by a broker in charge.

Prerequisite: Real Estate Broker Prelicense Course

Semester = (F) Fall (S) Spring (Su) Summer OR = On Request

Continuing Education Course Listing

REAL ESTATE continued ...	Hours	Semester	Certificate/License
REAL ESTATE UPDATE & ELECTIVE	**8**	**S**	**Certification**

The North Carolina Real Estate Commission requires eight hours of continuing education instruction/credit annually for brokers. The block offered by Surry Community College consists of a four hour Real Estate Update class and an approved four hour elective.

Prerequisite: Real Estate Broker License

REAL ESTATE APPRAISAL CONTINUING EDUCATION 14 S Certification

The North Carolina Appraisal Board requires that 28 hours of continuing education instruction/credit be acquired by licensed appraisers within a two-year period. Surry Community College will offer four to fourteen hours of continuing education instruction/credit to assist North Carolina real estate appraisers in meeting those license recertification requirements.

Prerequisite: Real Estate Appraisal License

*Appraisal prelicensing is offered through the curriculum division (direct prelicensing questions to 386-3267).

ALL CURRICULUM PROGRAMS

The outlines for curricula (Associate Degrees, Certificates, and Diplomas) shown in this catalog are suggested only. The institution reserves the right to arrange teaching and student schedules so as to maximize the use of personnel, plant, equipment, and time. Courses will always be taken in logical or sequential order where appropriate, but not necessarily in the same sequence or order as shown in the catalog. Under extenuating circumstances, course substitutions may be approved to fulfill graduation requirements provided the substitution is appropriate to the student's program and a comparable course is offered. Extenuating circumstances may include academic and/or physical limitations, unresolved scheduling conflicts or the event that a course is no longer offered. The Division Chair and the Associate Vice-President of Student Development must approve requests for course substitution. If course substitution is granted, the Records Office is notified by submitting the course substitution form.

COLLEGE TRANSFER: ASSOCIATE IN ARTS, ASSOCIATE IN FINE ARTS, AND ASSOCIATE IN SCIENCE

The Associate in Arts, Associate in Fine Arts, and the Associate in Science degrees are designed for students interested in transferring to a four-year institution. Additionally, certain other programs, listed in the Associate in Applied Science section of this catalog, also may transfer to four-year schools (see your counselor or faculty advisor for more information). **Pre-major guides are available in the H Building (first and second floors), T Building, Student Development, and at *www.surry.edu/Transfer/default.htm*.**

DISTANCE EDUCATION INFORMATION
The Associate in Arts degree is offered through the Distance Education program. Further information can be found on the Internet at ***http://www.surry.edu/DE***
concerning completing this degree online.

**Guides are available in fine arts areas (Arts, Music and Music Education, Drama). Transfer after one year is generally recommended for these three majors.*

Those students who are not sure what they would like to major in should follow the checksheets on the following pages to complete their Associate's Degree. **College transfer students are encouraged to visit the Admissions Office of the senior institutions they are considering early in the program.**

MINIMUM COURSE REQUIREMENTS (MCR)

All students who plan to enter a four-year university must have met the MCR requirements either in high school or at a community college. **Generally, the continued study of language (beyond English) and a strong math curriculum in college are recommended.**

Completion of MCR Requirements in High School

You have already met the **MCR requirements in high school** if you completed ALL of the following requirements.

1. Completed 4 units of English
2. Completed Algebra I, Algebra II, and Geometry (or a higher math course for which Algebra II is a prerequisite)
3. Completed 3 units of science – one life science, one physical science, and at least one laboratory science
4. Completed 2 units of social sciences – one must have been US History
5. Completed 2 units of the same language other than English.
6. Students who graduated from high school in May of 2006 or after will have to have an additional math class that is more advanced than Algebra II (AP Calculus, AP Statistics, Pre-Calculus--formerly Advanced Math--and Discrete Mathematics, IB Mathematics Level II, Integrated Mathematics IV, Advanced Functions and Modeling (new course).

If you **missed any one** of the high school MCR requirements, you must complete the MCR requirements at a community college. If you are deficient in one area, you are considered to be deficient in all areas.

Completion of MCR Requirements at a Community College

There are three ways to complete the MCR requirements at a community college.

#1. Complete 6 semester hours of college-level work in **EACH** (a-e) of the following areas (total of 30-32 SHC):
   a. English (ENG 111 and either ENG 112 or ENG 113)
   b. Math (two General Education math courses; must have MAT prefix)
   c. Science (two General Education science courses)
   d. Social Sciences (two General Education social sciences courses)
   e. Language other than English (two semesters of the same language)

#2. Complete the 44 semester hour General Education core of the Associate in Arts or the Associate in Science degrees.

#3. Complete the Associate in Arts, Associate in Science, or the Associate in Fine Arts degrees. Two semesters of the same language other than English are strongly recommended.

ASSOCIATE IN ARTS (A10100) REQUIREMENTS

65 semester hours

See page 79 to insure minimum course requirements (MCR) are met.

GENERAL EDUCATION: 44 SHC

English/Composition (6 SHC)

___ ENG 111 Expository Writing (3)

and one of the following:

___ ENG 112 Argument-based Research (3)
___ ENG 113 Literature-based Research (3)

Humanities/Fine Arts (12 SHC)
Select four courses from three different prefix areas. One must be Literature. See MCR language requirement.

___ ART 111 Art Appreciation (3)
___ ART 114 Art History Survey I (3)
___ ART 115 Art History Survey II (3)
___ ART 116 Survey of American Art (3)

___ COM 231 Public Speaking (3)

___ ENG 131 Intro to Literature (3)
___ ENG 231 American Literature I (3)
___ ENG 232 American Literature II (3)
___ ENG 233 Major American Writers (3)
___ ENG 241 British Literature I (3)
___ ENG 242 British Literature II (3)
___ ENG 243 Major British Writers (3)

___ HUM 115 Critical Thinking (3)
___ HUM 120 Cultural Studies (3)
___ HUM 121 Nature of America (3)
___ HUM 122 Southern Culture (3)
___ HUM 130 Myth in Human Culture (3)
___ HUM 160 Intro to Film (3)
___ HUM 220 Human Val & Meaning (3)

___ MUS 110 Music Appreciation (3)

___ PHI 215 Philosophical Issues (3)
___ PHI 240 Intro to Ethics (3)

___ REL 110 World Religions (3)
___ REL 211 Intro to Old Testament (3)
___ REL 212 Intro to New Testament (3)
___ REL 221 Religion in America (3)

___ SPA 111 Elementary Spanish I (3)
___ SPA 112 Elementary Spanish II (3)
___ SPA 211 Intermediate Spanish I (3)
___ SPA 212 Intermediate Spanish II (3)

Social/Behavioral Science (12 SHC)
Select four courses from three different prefix areas. One must be HIS.

___ ANT 210 General Anthropology (3)
___ ANT 220 Cultural Anthropology (3)
___ ANT 240 Archaeology (3)

___ ECO 151 Survey of Economics (3)
___ ECO 251 Prin of Microeconomics (3)
___ ECO 252 Prin of Macroeconomics (3)

___ GEO 111 World Reg Geography (3)

___ HIS 121 Western Civilization I (3)
___ HIS 122 Western Civilization II (3)
___ HIS 131 American History I (3)
___ HIS 132 American History II (3)

___ POL 110 Intro Political Sci. (3)
___ POL 120 American Government (3)

___ PSY 150 General Psychology (3)
___ PSY 237 Social Psychology (3)
___ PSY 239 Psychology of Personality (3)
___ PSY 241 Developmental Psychology (3)
___ PSY 281 Abnormal Psychology (3)

___ SOC 210 Introduction to Sociology (3)
___ SOC 213 Sociology of the Family (3)
___ SOC 220 Social Problems (3)
___ SOC 225 Social Diversity (3)
___ SOC 230 Race & Ethnic Relations (3)
___ SOC 240 Social Psychology (3)

Natural Science (8 SHC)
Select two classes on advisement:

___ AST 151 Gen Astronomy I (4)
___ AST 152 Gen Astronomy II (4)
___ BIO 110 Principles of Biology (4)
___ BIO 111 General Biology I (4)
___ BIO 112 General Biology II (4)
___ BIO 120 Introductory Botany (4)
___ BIO 140 & 140A Enviro Bio & Lab (4)

___ CHM 131 Intro to Chemistry & Lab (4)
___ CHM 132 Organic & Biochemistry (4)
___ CHM 151 General Chemistry I (4)
___ CHM 152 General Chemistry II (4)

___ PHY 110 Conceptual Physics I (3)
___ PHY 110A Conceptual Physics Lab (1)
___ PHY 151 College Physics I (4)
___ PHY 152 College Physics II (4)
___ PHY 251 General Physics I (4)
___ PHY 252 General Physics II (4)

Mathematics (6-8 SHC)
Select one or both courses from the following:

___ *MAT 140 Survey of Mathematics (3)
___ MAT 141 Math Concepts I (3)
___ MAT 161 College Algebra (3)
___ MAT 162 College Trigonometry (3)
___ MAT 171 Precalculus Algebra (3)
___ MAT 172 Precalculus Trigonometry (3)
___ MAT 175 Precalculus (4)
___ MAT 263 Brief Calculus (3)
___ MAT 271 Calculus I (4)
___ MAT 272 Calculus II (4)

The second unit may be selected from the following:

___ *CIS 110 Intro to Computers (3)
___ CIS 115 Intro to Programming (3)

___ MAT 151 Statistics (3)
(RECOMMENDED OVER CIS)

***More math will typically be required after transfer if MAT 140 & CIS 110 are used to meet these requirements.**

The general education core component (44 SHC), if completed successfully with a grade of "C" or better on each course, shall be portable and transferable as a block from Surry Community College to UNC institutions whether or not the student has earned the associate degree. Students who transfer the full general education core component shall be considered to have fulfilled the institution-wide, lower division requirements of the receiving institution. **However, graduates of the Associate in Arts or Associate in Science degree program (65 SHC) will be eligible to transfer to all constituent institutions of the University of North Carolina with junior status if admitted into the institution.**

ASSOCIATE IN ARTS **OTHER REQUIRED HOURS ("Electives"): 20-21 SHC**

Select 20 hours from previous page or from following list:

___ + ACA 111 College Student Success (1) **(Required for degree)**
___ +ACA 120 Career Assessment (1)

___ SPA 282 Spanish Lab IV (1)

***STRONGLY RECOMMENDED:* (Check as completed)**

___ Visit Admissions Offices of universities considered during first year.
___ Meet and work with SCC Faculty Advisor each semester.
___ Apply to universities in fall of sophomore year for admission following fall.
___ Regularly use the SCC Transfer web-site. *(www.surry.edu/Transfer/default.htm)*
___ Apply for graduation in December for spring ; June for summer; October for fall.

NOTES

1. *Students must meet the receiving institution's foreign language and/or heath & p.e. requirements, if applicable, prior to or after transfer.*
2. *1 SHC of Cooperative Education (+COE) may be included in the AS and AA as an elective.*
3. *See link below for a complete transfer list from NC Community Colleges to UNC/CAA private college. http://intranet.northcarolina.edu/docs/assessment/caa/December%202005/132_Transfer_Course_List_11.16.05.pdf*

In compliance with the Comprehensive Articulation Agreement, graduates of the Associate in Arts degree program as outlined here will be eligible to transfer to all constituent institutions of the University of North Carolina with junior status if admitted into the institution. To be considered for junior status, graduates must meet the same requirements set for native university students with respect to such things as grade point average and credit hours accumulated. Graduates will normally receive 64 SHC upon admission to a university. Admission to a university does not constitute admission to a particular school or a specific program within the university.

All courses listed on this sheet (except those identified with a +) will transfer to all UNC institutions. These and other courses offered at SCC may transfer to selected public and private colleges and universities. ***See your SCC advisor and contact an advisor at the college you wish to attend for additional information.***

___ BIO 140 & 140A Enviro. Bio. & Lab (4)
___ CHM 131 Intro to Chemistry & Lab (4)
___ CHM 132 Organic & Biochemistry (4)
___ PHY 110 Conceptual Physics (4)

The general education core component (44 SHC), if completed successfully with a grade of "C" or better on each course, shall be portable and transferable as a block from Surry Community College to UNC institutions whether or not the student has earned the associate degree. Students who transfer the full general education core component shall be considered to have fulfilled the institution-wide, lower division requirements of the receiving institution. **However, graduates of the Associate in Arts or Associate in Science degree program (65 SHC) will be eligible to transfer to all constituent institutions of the University of North Carolina with junior status if admitted into the institution.**

OTHER REQUIRED HOURS ("Electives") : 20-21 SHC

Required Courses: *Select 20 hours from previous page or from following list:* ***(Of the elective hours, a minimum of 14 additional shc of college transfer courses in mathematics, natural sciences, or computer science is required.)***

STRONGLY RECOMMENDED: (Check as completed)

___Visit Admissions Offices of universities considered during first year.
___Meet and work with SCC Faculty Advisor each semester.
___Apply to universities in fall of sophomore year for following fall.
___Regularly use the SCC Transfer web-site. *(www.surry.edu/Transfer/default.htm)*
___Apply for graduation in December for spring ; June for summer; October for fall.

NOTES:

1. *Students must meet the receiving institution's foreign language and/or health & p.e. requirements, if applicable, prior to or after transfer.*
2. *1 SHC of Cooperative Education (+COE) may be included in the AS and AA as an elective.*
3. *See link below for a complete transfer list from NC Community Colleges to UNC/CAA private college. http://intranet.northcarolina.edu/docs/assessment/caa/December%202005/132_Transfer_Course_List_11.16.05.pdf*

In compliance with the Comprehensive Articulation Agreement, graduates of the Associate in Science degree program as outlined here will be eligible to transfer to all constituent institutions of the University of North Carolina with junior status if admitted into the institution. To be considered for junior status, graduates must meet the same requirements set for native university students with respect to such things as grade point average and credit hours accumulated. Graduates will normally receive 64 SHC upon admission to a university. Admission to a university does not constitute admission to a particular school or a specific program within the university.

All courses listed on this sheet (except those identified with a +) will transfer to all UNC institutions. These and other courses offered at SCC may transfer to selected public and private colleges and universities. ***See your SCC advisor and contact an advisor at the college you wish to attend for additional information.***

ASSOCIATE IN FINE ARTS (A10200) REQUIREMENTS
65 semester hours

Program/Degree Description:

Upon admission to another public two-year institution or to a public university, a community college student who was enrolled in an associate in fine arts degree program and who satisfactorily completed with a grade of "C" or better all courses that are designated for college transfer (general education, elective, or pre-major) will receive credit for those courses. The receiving institution will determine whether the course will count as general education, major, or elective credit. Because the AFA curriculum standard includes only 28 SHC for general education, AFA students who transfer must meet the general education requirements of the receiving institution.

While this degree is designed to prepare students to meet selective admission criteria for programs such as the Bachelor of Fine Arts, this degree does not guarantee automatic admission into a college or university art program. Many art programs contain a portfolio requirement for certain courses or programs.

NOTE: ***This list includes courses that are currently transferrable under the CAA. Under this agreement, students who complete the AA or AS degree or who complete the 44-hour core will, upon acceptance to a university, meet the institution's general education requirements. Students who do not complete the degree or the 44-hour core will receive general education or elective credit for courses at the discretion of the university.***

ASSOCIATE IN GENERAL EDUCATION

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development.

Course work includes study in the areas of fine arts, social and behavioral sciences, natural sciences and mathematics, and English Composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interests and become better qualified for a wide range of employment opportunities.

GENERAL EDUCATION (A10300) REQUIREMENTS
65 semester hours

Students who do not complete the degree or the 44-hour core will receive general education or elective credit for courses at the discretion of the university.***

ASSOCIATE IN GENERAL EDUCATION

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development.

Course work includes study in the areas of fine arts, social and behavioral sciences, natural sciences and mathematics, and English Composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interests and become better qualified for a wide range of employment opportunities.

ADVERTISING & GRAPHIC DESIGN TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Advertising and Graphic Design curriculum is designed to provide students with knowledge and skills necessary for employment in the graphic design profession, which emphasizes design, advertising, illustration, and digital and multimedia preparation of printed and electronic promotional materials. Students will be trained in the development of concept and design for promotional materials such as newspaper and magazine advertisements, posters, folders, letterheads, corporate symbols, brochures, booklets, preparation of art for printing, lettering and typography, photography, and electronic media. Graduates should qualify for employment opportunities with graphic design studios, advertising agencies, printing companies, department stores, a wide variety of manufacturing industries, newspapers, and businesses with in-house graphics operations.

AIR CONDITIONING, HEATING, AND REFRIGERATION TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Diploma graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems. AAS degree graduates should be able to demonstrate an understanding of systems selection and balance and advanced systems. Students may stop at the end of the summer semester and earn a diploma or complete the entire program of study to earn a degree.

AUTO BODY REPAIR — Diploma/Certificate

CURRICULUM DESCRIPTION

The Auto Body Repair curriculum provides training in the use of equipment and materials of the autobody repair trade. The student studies the construction of the automobile body and techniques of autobody repairing, rebuilding, and refinishing.

The course work includes autobody fundamentals, industry overview, and safety. Students will perform hands-on repairs in the areas of nonstructural and structural repairs, MIG welding, plastics and adhesives, refinishing, and other related areas.

Graduates of the curriculum should qualify for entry-level employment opportunities in the automotive body and refinishing industry. Graduates may find employment with franchised independent garages, or they may become self-employed.

AUTOMOTIVE SYSTEMS TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Automotive Systems Technology curriculum prepares individuals for employment as Automotive Service Technicians. It provides an introduction to automotive careers and increases student awareness of the challenges associated with this fast and ever-changing field.

Classroom and lab experiences integrate technical and academic course work. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control, and manual drive trains.

Upon completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

BUSINESS ADMINISTRATION — Degree/Certificate

CURRICULUM DESCRIPTION

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team-building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small business or industry.

DISTANCE EDUCATION INFORMATION

This degree program is offered through the Distance Education program. Further information can be found on the Internet at ***http://www.surry.edu/DE*** concerning completing this degree on-line.

COMMUNITY SPANISH INTERPRETER — Degree/Certificate

CURRICULUM DESCRIPTION

The Community Spanish Interpreter curriculum prepares individuals to work as entry-level Spanish Interpreters who will provide communication access in interview and interactive settings. In addition, this curriculum provides in-service training for working interpreters who want to upgrade their skills.

Course work includes the acquisition of Spanish grammar, structure, and sociolinguistic properties, cognitive processes associates with interpretation between Spanish and English: the structure and character of the Spanish speaking community; and acquisition of consecutive and simultaneous interpreting skills.

Entry-level jobs for para-professional interpreters are available in educational systems or a variety of community settings individuals may choose from part-time, full-time, or self-employment/free-lance positions or apply language skills to other human service related areas.

Special Admission Requirements:
Contact Loida Peterson (336-386-3484). A language skill assessment test is required before entering program.

****

There are two possible tracks for the student, one track is for native English speakers and the other is for native Spanish speakers.

A prerequisite of this certificate program is showing proficiency at the Intermediate Spanish II level as determined by testing or successful completion of SPA 212.

COMPUTER INFORMATION TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Computer Information Technology curriculum is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. This is a flexible curriculum that can be customized to meet community information systems needs.

Course work will develop a student's ability to communicate complex technical issues related to computer hardware, software, and networks in a manner that computer users can understand. Classes cover computer operations and terminology, operating systems, database, networking, security, and technical support.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to manage information. Graduates should be prepared to sit for industry-recognized certification exams.

CONSTRUCTION MANAGEMENT TECHNOLOGY

(Pending State Approval) **Degree**

CURRICULUM DESCRIPTION

This curriculum is designed to prepare individuals for careers in the construction management field. Such positions may include project manager, superintendent, estimator, or foreman.

Course work includes safety, planning, scheduling, cost control, productivity, human relations, estimating, and building codes. Students will also gain proficiency in specific construction related skills.

Graduates should qualify for entry-level positions in the field of construction management.

CONSTRUCTION TECHNOLOGY:

CARPENTRY — Diploma/Certificate

CURRICULUM DESCRIPTION

The Carpentry curriculum is designed to train students to construct residential structures using standard building materials and hand and power tools. Carpentry skills and a general knowledge of residential construction will also be taught.

Course work includes footings and foundations, framing, interior and exterior trim, cabinetry, blueprint reading, residential planning and estimating, and other related topics. Students will develop skills through hands-on participation.

Graduates should qualify for employment in the residential building construction field as rough carpenters, framing carpenters, roofers, maintenance carpenters, and other related job titles.

COSMETOLOGY — Degree/Diploma

CURRICULUM DESCRIPTION

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge, and other selected topics.

Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and related businesses.

All diploma- and degree-seeking Cosmetology students must take a placement test upon entering the Cosmetology Program. This testing will enable proper academic advising for students who wish to qualify for the North Carolina State Board of Cosmetic Arts Examination.

CRIMINAL JUSTICE TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections, and security service. The criminal justice system's role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

Students successfully completing a Basic Law Enforcement Training course accredited by the North Carolina Criminal Justice Education and Training Standards Commission and the North Carolina Sheriffs' Education and Training Standards Commission will receive credit for CJC 131, CJC 132, CJC 221, and CJC 231 toward the Associate in Applied Science degree in Criminal Justice Technology. Students must have successfully passed the Commissions' comprehensive certification examination. Students must have completed Basic Law Enforcement Training since 1985.

EARLY CHILDHOOD ASSOCIATE — Degree/Certificate

CURRICULUM DESCRIPTION

The Early Childhood Associate curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school age programs.

EARLY CHILDHOOD ASSOCIATE: SPECIAL EDUCATION CONCENTRATION — Degree

CURRICULUM DESCRIPTION

The Special Education concentration is under the curriculum of Early Childhood Associate. This curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories in actual settings with young under the supervision of qualified teachers. The Special Education concentration focuses on preparing adults to work in inclusive environments, including public and private early care and preschool settings as well as public and private primary and/or elementary schools. Graduates demonstrate competence in assessing children and implementing appropriate learning experiences for children with exceptionalities, including writing and implementing Individual Family Service Plans (IFSP) and Individual Education Plans (IEP).

Course work includes childhood growth and development, physical/nutritional needs of children, care and guidance of children, and communication skills with parents and children. Students will foster cognitive/language, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and childcare programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

ELECTRICAL/ELECTRONICS TECHNOLOGY — Diploma/Certificate

CURRICULUM DESCRIPTION

The Electrical/Electronics Technology curriculum is designed to provide training for persons interested in the installation and maintenance of electrical/electronic systems found in residential, commercial, and industrial facilities.

Training, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, digital electronics, programmable logic controllers, industrial motor controls, and National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical/electronics field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical/electronic systems.

ELECTRONICS ENGINEERING TECHNOLOGY Degree

CURRICULUM DESCRIPTION

The Electronics Engineering Technology curriculum prepares individuals to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/ computer controls, manufacturing systems, communication systems, and power electronic systems.

A broad based core of courses, including basic electricity, solid-state fundamentals, digital concepts, and microprocessors, ensures the student will develop the skills necessary to perform entry-level tasks. Emphasis is placed on developing the students' ability to analyze and troubleshoot electronic systems.

Graduates should qualify for employment as engineering assistants or electronic technicians with job titles such as electronics engineering technician, field service technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

HORTICULTURE TECHNOLOGY Degree/Diploma

CURRICULUM DESCRIPTION

The Horticulture Technology curriculum encompasses the study and practical application of a variety of subjects in the field of horticulture. The curriculum consists of identifying and selecting plant materials; propagating, planting, and growing plants; designing basic landscapes and planting materials at the appropriate places and in the correct manner; properly maintaining plant materials; and managing the nursery, greenhouse, and garden center. In addition, skills are developed in designing and building planters, walks, patios, fences and other landscape features. The curriculum is designed to provide students with the knowledge, skills, and attitudes that are necessary for independent, creative thinking essential to success in this field.

Various types of employers hire the graduates of this curriculum. Examples are nurseries, greenhouse operations, garden centers, landscape contractors, landscape maintenance companies, and municipal governmental agencies.

INDUSTRIAL SYSTEMS TECHNOLOGY Degree

CURRICULUM DESCRIPTION

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to safely service, maintain, repair, or install equipment. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial systems.

Students will learn multi-craft technical skills in blueprint reading, mechanical systems maintenance, electricity, hydraulics/pneumatics, welding, machining or fabrication, and includes various diagnostic and repair procedures. Practical application in these industrial systems will be emphasized and additional advanced course work may be offered.

Upon completion of this curriculum, graduates should be able to individually, or with a team, safely install, inspect, diagnose, repair, and maintain industrial process and support equipment. Students will also be encouraged to develop their skills as life-long learners.

INDUSTRIAL SYSTEMS TECHNOLOGY Diploma/Certificate

CURRICULUM DESCRIPTION

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to safely service, maintain, repair, or install equipment. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial systems.

Students will learn multi-craft technical skills in blueprint reading, mechanical systems maintenance, electricity, hydraulics/pneumatics, welding, machining or fabrication, and includes various diagnostic and repair procedures. Practical application in these industrial systems will be emphasized and additional advanced course work may be offered.

Upon completion of this curriculum, graduates should be able to individually, or with a team, safely install, inspect, diagnose, repair, and maintain industrial process and support equipment. Students will also be encouraged to develop their skills as life-long learners.

MACHINING TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Machining Technology curriculum is designed to develop skills in the theory and safe use of hand tools, power machinery, computerized equipment and sophisticated precision inspection instruments.

Students will learn to interpret blueprints, set up manual and CNC machines, perform basic and advanced machining operations and make decisions to insure that work quality is maintained.

Employment opportunities for machining technicians exist in manufacturing industries, public institutions, governmental agencies and in a wide range of specialty machining job shops.

The Machining Technology Program will be suspended for one year. No new students will be admitted into the program during that time.

MECHANICAL DRAFTING TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Mechanical Drafting Technology curriculum prepares technicians to produce drawings of mechanical parts, components of mechanical systems, and mechanisms. CAD and the importance of technically correct drawings and designs based on current standards are emphasized.

Course work includes mechanical drafting, CAD, and proper drawing documentation. Concepts such as machine shop processes, basic materials, and physical sciences as they relate to the design process are also included. The use of proper dimensioning and tolerance techniques is stressed.

Graduates should qualify for employment in mechanical areas such as manufacturing, fabrication, research and development, and service industries.

MEDICAL ASSISTING — Degree

CURRICULUM DESCRIPTION

The Medical Assisting curriculum prepares multi-skilled health care professionals qualified to perform administrative, clinical and laboratory procedures.

Course work includes instruction in scheduling appointments, coding and processing insurance accounts, billing, collections, medical transcription, computer operations; assisting with examinations/treatments, performing routine laboratory procedures, electrocardiography, supervised medication administration; and ethical/legal issues associated with patient care.

Graduates of a CAAHEP-accredited medical assisting program may be eligible to sit for the American Association of Medical Assistants' Certification Examination to become Certified Medical Assistants. Employment opportunities include physicians' offices, health maintenance organizations, health departments, and hospitals.

Note: Surry Community College is a CAAHEP accredited school.

Note: This is a selected admission program. Please see Page 20 for admission requirements.

MEDICAL OFFICE ADMINISTRATION — Degree

CURRICULUM DESCRIPTION

This curriculum prepares individuals for employment in medical and other health-care related offices.

Course work will include medical terminology; information systems; office management; medical coding, billing, and insurance; legal and ethical issues; and formatting and word processing. Students will learn administrative and support functions and develop skills applicable in medical environments.

Employment opportunities are available in medical and dental offices, hospitals, insurance companies, laboratories, medical supply companies, and other health-care related organizations.

NURSING: ASSOCIATE DEGREE NURSING (ADN) (NON-INTEGRATED)

Degree

CURRICULUM DESCRIPTION

The Associate Degree Nursing curriculum provides individuals with the knowledge and skills necessary to provide nursing care to clients and groups of clients throughout the lifespan in a variety of settings.

Courses will include content related to the nurse's role as provider of nursing care, as manager of care, as member of the discipline of nursing, and as a member of the interdisciplinary team.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN) which is required for practice as a Registered Nurse. Employment opportunities include hospitals, long term care facilities, clinics, physicians' offices, industry, and community agencies.

Note:

For nursing (NUR) courses with clinical/lab hours, the theory/lab components are taught during the first half of the semester. Theory/lab components must be successfully completed in order to progress to the clinical component.

Each nursing (NUR) course must be successfully completed in order to progress to subsequent nursing courses.

A nursing student prohibited from particiating in a clinical agency based on their criminal background screening may be dismissed from the nursing program due to their inability to progress.

NURSING: GENERAL OCCUPATIONAL TECHNOLOGY (PRE-NURSING) — Diploma

CURRICULUM DESCRIPTION

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from associate degree-level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry-level employment opportunities.

NURSING: PRACTICAL NURSING (PN) — Diploma

CURRICULUM DESCRIPTION

The Practical Nursing curriculum prepares individuals with the knowledge and skills to provide nursing care to children and adults.

Students will participate in assessment, planning, implementing, and evaluating nursing care.

Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-PN) which is required for practice as a Licensed Practical Nurse. Employment opportunities include hospitals, rehabilitation/long term care/ home health facilities, clinics, and physicians' offices.

Note:

For nursing (NUR) courses with clinical/lab hours, the theory/lab components are taught during the first half of the semester. Theory/lab components must be successfully completed in order to progress to the clinical component.

Each nursing (NUR) course must be successfully completed in order to progress to subsequent nursing courses.

A nursing student prohibited from particiating in a clinical agency based on their criminal background screening may be dismissed from the nursing program due to their inability to progress.

OFFICE SYSTEMS TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Office Systems Technology curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Students will complete courses designed to develop proficiency in the use of integrated software, oral and written communication, analysis and coordination of office duties and systems, and other support topics. Emphasis is placed on non-technical as well as technical skills.

Graduates should qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level to supervisor to middle management.

PARALEGAL TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Course work includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Required courses also include subjects such as English, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

SIMULATION AND GAME DEVELOPMENT
(Pending State Approval) — Degree

CURRICULUM DESCRIPTION

The Simulation and Game Development curriculum provides a broad background in simulation and game development with practical applications in creative arts, visual arts, audio/video technology, creative writing, modeling, design, programming and management.

Students will receive hands-on training in design, 3D modeling, software engineering, database administration and programming for the purpose of creating simulations and games.

Graduates should qualify for employment as designers, artists, animators, programmers, database administrators, testers, quality assurance analysts, engineers and administrators in the entertainment industry, the health care industry, engineering, forensics, education, NASA and government agencies.

VITICULTURE & ENOLOGY TECHNOLOGY — Degree

CURRICULUM DESCRIPTION

The Viticulture & Enology curriculum is designed to prepare individuals for various careers in the grape growing and wine making industry. Classroom instruction, laboratory and field applications of viticultural/enological principles and practices are included in the program of study.

Course work in viticulture includes aspects of plant science, vineyard stock selection, and propagation, soils, vine nutrition and pest management. Also included are courses in planning, layout, economics and management of vineyards. Those interested in enology will receive training in the classroom, laboratory and field in the tools and techniques or wine making. Related courses in microbiology and fermentation science, sensory analysis, and winery economics and marketing are offered.

Graduates should qualify for positions in vineyards, wineries, and in related areas of sales and services. Graduates in viticulture will also be certified as North Carolina Private Pesticide Applicators.

WELDING TECHNOLOGY — Diploma/Certificate

CURRICULUM DESCRIPTION

The Welding Technology curriculum provides students with a sound understanding of the science, technology, and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing provides the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

COURSES OF INSTRUCTION

Numbers following the course title indicate the number of lecture, lab, and credit hours for the course. Courses below 100 level are not included in calculation of GPA or academic honors (dean's list, etc.).

ACADEMIC RELATED

ACA 090 Study Skills (3/0/3)
Prerequisites: None
Corequisites: None
This course is intended for those who placed into credit-level course work but who are not maintaining satisfactory academic progress toward meeting program goals. Topics include study skills, note taking, learning styles and strategies, test taking, goal setting, and self-assessment skills. Upon completion, students should be able to manage their learning experiences to successfully meet educational goals.

ACA 111 College Student Success (1/0/1)
Prerequisites: None
Corequisites: None
This course introduces the college's physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self-esteem, motivation, goal-setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives.

ACA 118 College Study Skills (1/2/2)
Prerequisites: None
Corequisites: None
This course covers skills and strategies designed to improve study behaviors. Topics include time management, note taking, test taking, memory techniques, active reading strategies, critical thinking, communication skills, learning styles, and other strategies for effective learning. Upon completion, students should be able to apply appropriate study strategies and techniques to the development of an effective study plan.

ACA 120 Career Assessment (1/0/1)
Prerequisites: None
Corequisites: None
This course provides the information and strategies necessary to develop clear personal, academic, and professional goals. Topics include personality styles, goal setting, various college curricula, career choices, and campus leadership development. Upon completion, students should be able to clearly state their personal, academic, and professional goals and have a feasible plan of action to achieve those goals.

ACA 220 Professional Transition (1/0/1)
Prerequisites: None
Corequisites: None
This course provides preparation for meeting the demands of employment or education beyond the community college experience. Emphasis is placed on strategic planning, gathering information on workplaces or colleges, and developing human interaction skills for professional, academic, and/or community life. Upon completion, students should be able to successfully make the transition to appropriate workplaces or senior institutions.

ACCOUNTING

ACC 120 Prin Of Financial Acct I (3/2/4)
Prerequisites None
Corequisites: None
This course introduces business decision-making using accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making, and address ethical considerations. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ACC 121 Prin of Managerial Acct II (3/2/4)
Prerequisites: ACC 120
Corequisites: None
This course is a continuation of accounting principles. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting, and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product costing systems. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ACC 122 Prin of Financial Acct II (3/0/3)
Prerequisites: ACC 120
Corequisites: None
This course provides additional instruction in the financial accounting concepts and procedures introduced in ACC 120. Emphasis is placed on the analysis of specific balance sheet accounts, with in-depth instruction of the accounting principles applied to these accounts. Upon completion, students should be able to analyze data, prepare journal entries, and prepare reports in compliance with generally accepted accounting principles.

ACC 131 Federal Income Taxes (2/2/3)
Prerequisites: None
Corequisites: None
This course provides an overview of federal income taxes for individuals, partnerships, and corporations. Emphasis is placed on the application of the Internal Revenue Code to preparation of tax returns for individuals, partnerships, and corporations. Upon completion, students should be able to complete federal tax returns for individuals, partnerships, and corporations.

ACC 150 Acct Software Appl (1/2/2)
Prerequisites: ACC 120
Corequisites: None
This course introduces computer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting software package to solve accounting problems.

ACC 220 Intermediate Acct I (3/2/4)
Prerequisites: ACC 120
Corequisites: None
This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and extensive analyses of financial statements. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards.

ACC 221 Intermediate Acct II (3/2/4)
Prerequisites: ACC 220
Corequisites: None
This course is a continuation of ACC 220. Emphasis is placed on special problems which may

include leases, bonds, investments, ratio analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

AGRICULTURE

AGR 110 Agricultural Economics (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an introduction to basic economic principles in agriculture. Topics include supply and demand, the role of agriculture in the economy, economic systems, and micro- and macroeconomics. Upon completion, students should be able to explain economic systems, interpret supply and demand curves, and complete cost and revenue production schedules.

AGR 140 Agricultural Chemicals (2/2/3)
Prerequisites: None
Corequisites: None
This course covers all aspects of agricultural chemicals. Topics include safety, environmental effects, federal and state laws, pesticide classification, sprayer calibration, and licensing. Upon completion, students should be able to calibrate a sprayer, give proper pesticide recommendations, and demonstrate safe handling of pesticides.

AGR 160 Plant Science (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the basic principles of botany that pertain to agricultural production. Emphasis is placed on the anatomy and physiology of flowering plants. Upon completion, students should be able to identify and explain plant systems.

AGR 170 Soil Science (2/2/3)
Prerequisites: None
Corequisites: None
This course covers the basic principles of soil fertilizing. Topics include liming, fertilization, management, and plant nutrients. Upon completion, students should be able to give nutrient and liming recommendations for soils.

AGR 180 Crop Insects & Diseases (2/3/3)
Prerequisites: None
Corequisites: None
This course includes a study of the major insects and diseases in the southeast. Topics include the structure, life cycle, identification, and control of various insects and diseases. Upon completion, students should be able to identify and recommend methods of control for selected insects and diseases.

AGR 212 Farm Business Mgmt. (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces budgeting, farm analysis, production costs, business organizations, and general management principles. Topics include enterprise budgets, partial budgets, whole farm budgets, income analysis, and business organizations. Upon completion, students should be able to prepare and analyze a farm budget. *This course is a unique concentration requirement in the Agribusiness concentration in the Agricultural Technology program.*

AGR 214 Agricultural Marketing (3/0/3)
Prerequisites: None
Corequisites: None
This course covers basic marketing principles for agricultural products. Topics include buying, selling, processing, standardizing, grading, storing, and marketing of agricultural commodities. Upon completion, students should be able to construct a marketing plan for an agricultural product.

AGR 261 Agronomy (2/2/3)
Prerequisites: None
Corequisites: None
This course provides a basic introduction to field and forage crops. Topics include forage crops, field crops, seed selection, fertility management, field preparation, harvesting, and storage. Upon completion, students should be able to demonstrate a knowledge of forage and field crop production practices.

AGR 262 Weed ID & Control (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the annual and perennial weeds of economic importance in the southeast. Topics include the life-cycles, flowering habits, identification, and control of various weeds in the southeast. Upon completion, students should be able to identify selected weeds and recommend methods of control.

AGR 271 Soil & Water Engineering (2/2/3)
Prerequisites: None
Corequisites: None
This course is designed to introduce basic soil and water conservation practices. Topics include waterways, strip cropping, terracing, ditching, conservation farming, and water quality. Upon completion, students should be able to operate a differential level, interpret a farm plan, and explain water quality principles.

AIR CONDITIONING, HEATING, & REFRIGERATION

AHR 110 Intro. to Refrigeration (2/6/5)
Prerequisites: None
Corequisites: None
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.

AHR 111 HVACR Electricity (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 112 Heating Technology (2/4/4)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of heating including oil, gas, and electric heating systems. Topics include safety, tools and instrumentation, system operating characteristics, installation techniques, efficiency testing, electrical power, and control systems. Upon completion, students should be able to explain the basic oil, gas, and electrical heating systems and describe the major components of a heating system.

AHR 113 Comfort Cooling (2/4/4)
Prerequisites: None
Corequisites: None
This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychometrics, manufacturer specifications, and test instruments to determine proper system operation.

AHR 114 Heat Pump Technology (2/4/4)
Prerequisites: AHR 110 or AHR 113
Corequisites: None
This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures.

AHR 125 HVAC Electronics (1/3/2)
Prerequisites: None
Corequisites: AHR 111 or ELC 111
This course introduces the common electronic control components in HVAC systems. Emphasis is placed on identifying electronic components and their functions in HVAC systems and motor-driven control circuits. Upon completion, students should be able to identify components, describe control circuitry and functions, and use test instruments to measure electronic circuit values and identify malfunctions.

AHR 130 HVAC Controls (2/2/3)
Prerequisites: AHR 111 or ELC 111
Corequisites: None
This course covers the types of controls found in residential and commercial comfort systems. Topics include electrical and electronic controls, control schematics and diagrams, test instruments, and analysis and troubleshooting of electrical systems. Upon completion, students should be able to diagnose and repair common residential and commercial comfort system controls.

AHR 133 HVAC Servicing (2/6/4)
Prerequisites: None
Corequisites: AHR 112 or AHR 113
This course covers the maintenance and servicing of HVAC equipment. Topics include testing, adjusting, maintaining, and troubleshooting HVAC equipment and record keeping. Upon completion, students should be able to adjust, maintain, and service HVAC equipment.

AHR 151 HVAC Duct Systems I (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces the techniques used to lay out and fabricate duct work commonly found in HVAC systems. Emphasis is placed on the skills required to fabricate duct work. Upon completion, students should be able to lay out and fabricate simple duct work.

AHR 160 Refrigerant Certification (1/0/1)
Prerequisites: None
Corequisites: None
This course covers the requirements for the EPA certification examinations. Topics include small appliances, high pressure systems, and low pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.

AHR 180 HVACR Cust Relations (1/0/1)
Prerequisites: None
Corequisites: None
This course introduces common business and customer relation practices that may be encountered in HVACR. Topics include business practices, appearance of self and vehicle, ways of handling customer complaints, invoices, telephone communications, and warranties. Upon completion, students should be able to present themselves to customers in a professional manner, understand how the business operates, complete invoices, and handle complaints.

AHR 210 Residential Building Code(1/2/2)
Prerequisites: None
Corequisites: None
This course covers the residential building codes that are applicable to the design and installation of HVAC systems. Topics include current residential codes as applied to HVAC design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of residential building codes that apply to specific areas of the HVAC trade.

AHR 211 Residential Syst Design (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system.

AHR 212 Advanced Comfort Syst (2/6/4)
Prerequisites: AHR 114
Corequisites: None
This course covers water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pump systems including variable speed drives and controls.. Emphasis is placed on the application, installation, and servicing of water-source systems and the mechanical and electronic control components of advanced comfort systems. Upon completion, students should be able to test, analyze, and troubleshoot water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pumps.

AHR 215 Commercial HVAC Cont (1/3/2)
Prerequisites: AHR 111 or ELC 111
Corequisites: None
This course introduces HVAC control systems used in commercial applications. Topics include electric/electronic control systems, pneumatic control systems, DDC temperature sensors, humidity sensors, pressure sensors, wiring, controllers, actuators, and controlled devices. Upon completion, students should be able to verify or correct the performance of common control systems with regard to sequence of operation and safety.

AHR 250 HVAC Syst Diagnostics (0/4/2)
Prerequisites: None
Corequisites: AHR 212
This course is a comprehensive study of air conditioning, heating, and refrigeration system diagnostics and corrective measures. Topics include advanced system analysis, measurement of operating efficiency, and inspection and correction of all major system components. Upon completion, students should be able to restore a residential or commercial AHR system so that it operates at or near manufacturers' specifications.

ANTHROPOLOGY

ANT 210 General Anthropology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ANT 220 Cultural Anthropology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are collected and analyzed. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ANT 240 Archaeology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the scientific study of the unwritten record of the human past. Emphasis is placed on the process of human cultural evolution as revealed through archaeological methods of excavation and interpretation. Upon completion, students should be able to demonstrate an understanding of how archaeologists reconstruct the past and describe the variety of past human cultures. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ART

ART 111 Art Appreciation (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ART 114 Art History Survey I (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate a historical understanding of art as a product reflective of human social development. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ART 115 Art History Survey II (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate a historical understanding of art as a product reflective of human social development. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ART 116 Survey of American Art (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the development of American art forms from colonial times to the present. Emphasis is placed on architecture, painting, sculpture, graphics, and the decorative arts. Upon completion, students should be able to demonstrate understanding of the history of the American creative experience. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ART 121 Design I (0/6/3)
Prerequisites: None
Corequisites: None
This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 122 Design II (0/6/3)
Prerequisites: ART 121
Corequisites: None
This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 131 Drawing I (0/6/3)
Prerequisites: None
Corequisites: None
This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 132 Drawing II (0/6/3)
Prerequisites: ART 131
Corequisites: None
This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 212 Gallery Assistantship I (0/2/1)
Prerequisites: None
Corequisites: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 222 Wood Design I (0/6/3)
Prerequisites: None
Corequisites: None
This course introduces the historical and contemporary design concepts and their application to the construction of functional and sculptural wood forms. Emphasis is placed on the mastery of hand and power tools. Upon completion, students should be able to demonstrate appropriate use of tools to create unique designs. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 223 Wood Design II (0/6/3)
Prerequisites: ART 222
Corequisites: None
This course provides a continuation of the skills and techniques used in ART 222. Emphasis is placed on woodcarving and other processes. Upon completion, students should be able to use original designs in the creation of functional and sculptural forms. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 240 Painting I (0/6/3)
Prerequisites: None
Corequisites: None
This course introduces the language of painting and the use of various painting materials. Emphasis is placed on the understanding and use of various painting techniques, media, and color principles. Upon completion, students should be able to demonstrate competence in the use of

creative processes directed toward the development of expressive form. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as premajor and/or elective course requirement.*

ART 241 Painting II (0/6/3)
Prerequisites: ART 240
Corequisites: None
This course provides a continuing investigation of the materials, processes, and techniques of painting. Emphasis is placed on the exploration of expressive content using a variety of creative processes. Upon completion, students should be able to demonstrate competence in the expanded use of form and variety. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as premajor and/or elective course requirement.*

ART 244 Watercolor (0/6/3)
Prerequisites: None
Corequisites: None
This course introduced basic methods and techniques used in watercolor. Emphasis is placed on application, materials, content, and individual expression. Upon completion, students should be able to demonstrate a variety of traditional and nontraditional concepts used in watercolor media. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as premajor and/or elective course requirement.*

ART 261 Photography I (0/6/3)
Prerequisites: None
Corequisites: None
This course introduces photographic equipment, theory, and processes. Emphasis is placed on camera operation, composition, darkroom technique, and creative expression. Upon completion, students should be able to successfully expose, develop, and print a well-conceived composition. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 262 Photography II (0/6/3)
Prerequisites: ART 261
Corequisites: None
This course introduces the creative manipulation of alternative photographic materials and processes such as toning, hand coloring, infrared, and multiple exposure. Emphasis is placed on personal vision and modes of seeing. Upon completion, students should be able to create properly exposed images using a variety of photographic materials and processes. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 264 Digital Photography I (1/4/3)
Prerequisites: None
Corequisites: None
This course introduces digital photographic equipment, theory and processes. Emphasis is placed on camera operation, composition, computer photo manipulation and creative expression. Upon completion, students should be able to successfully expose, digitally manipulate, and print a well-conceived composition. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 265 Digital Photography II (1/4/3)
Prerequisites: ART 264
Corequisites: None
This course provides exploration of the concepts and processes of photo manipulation through complex composite images, special effects, color balancing and image/text integration. Emphasis is placed on creating a personal vision and style. Upon completion, students should be able to produce well-executed images using a variety of photographic and photo manipulative approaches. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 281 Sculpture I (0/6/3)
Prerequisites: None
Corequisites: None
This course provides an exploration of the creative and technical methods of sculpture with focus on the traditional processes. Emphasis is placed on developing basic skills as they pertain to three-dimensional expression in various media. Upon completion, students should be able to show competence in variety of sculptural approaches. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 283 Ceramics I (0/6/3)
Prerequisites: None
Corequisites: None
This course provides an introduction to three-dimensional design principles using the medium of clay. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing. Upon completion, students should be able to demonstrate skills in slab and coil construction, simple wheel forms, glaze technique, and creative expression. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 284 Ceramics II (0/6/3)
Prerequisites: ART 283
Corequisites: None
This course covers advanced hand building and wheel techniques. Emphasis is placed on creative expression, surface design, sculptural quality, and glaze effect. Upon completion, students should be able to demonstrate a high level of technical competence in forming and glazing with a development of three-dimensional awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 285 Ceramics III (0/6/3)
Prerequisites: ART 284
Corequisites: None
This course provides the opportunity for advanced self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of clay bodies, slips, engobes, and firing procedures necessary to fulfill the student's artistic goals. Upon completion, students should be able to demonstrate a knowledge of materials and techniques necessary to successfully create original projects in the clay medium. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ART 286 Ceramics IV (0/6/3)
Prerequisites: ART 285
Corequisites: None
This course provides the opportunity for self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of glaze materials, glaze formulation, and firing techniques necessary to fulfill the student's artistic goals. Upon completion, students should be able to demonstrate knowledge of materials and techniques necessary to successfully create original projects in the clay medium. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

AUTOMATION TRAINING

ATR 280 Robotic Fundamentals (3/2/4)
Prerequisites: None
Corequisites: None
This course covers application, programming, and maintenance fundamentals for robotic devices. Emphasis is placed on terminology, prob-

lem solving, robotic systems controls, and hands-on projects. Upon completion, students should be able to apply basic concepts in application, programming, and robotic control systems.

AUTOMOTIVE BODY REPAIR

AUB 111 Painting & Refinishing I (2/6/4)
Prerequisites: None
Corequisites: None
This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing following accepted industry standards.

AUB 112 Painting & Refinishing II (2/6/4)
Prerequisites: AUB 111
Corequisites: None
This course covers advanced painting techniques and technologies with an emphasis on identifying problems encountered by the refinishing technician. Topics include materials application, color matching, correction of refinishing problems, and other related topics. Upon completion, students should be able to perform spot, panel, and overall refinishing repairs and identify and correct refinish problems.

AUB 114 Special Finishes (1/2/2)
Prerequisites: AUB 111
Corequisites: None
This course introduces multistage finishes, custom painting, and protective coatings. Topics include base coats, advanced intermediate coats, clear coats, and other related topics. Upon completion, students should be able to identify and apply specialized finishes based on accepted industry standards.

AUB 121 Non-Structural Damage I (1/4/3)
Prerequisites: None
Corequisites: None
This course introduces safety, tools, and the basic fundamentals of body repair. Topics include shop safety, damage analysis, tools and equipment, repair techniques, materials selection, materials usage, and other related topics. Upon completion, students should be able to identify and repair minor direct and indirect damage including removal/repairing/ replacing of body panels to accepted standards.

AUB 122 Non-Structural Damage II (2/6/4)
Prerequisites: None
Corequisites: None
This course covers safety, tools, and advanced body repair. Topics include shop safety, damage analysis, tools and equipment, advanced repair techniques, materials selection, materials usage, movable glass, and other related topics. Upon completion, students should be able to identify and repair or replace direct and indirect damage to accepted standards including movable glass and hardware.

AUB 131 Structural Damage I (2/4/4)
Prerequisites: None
Corequisites: None
This course introduces safety, equipment, structural damage analysis, and damage repairs. Topics include shop safety, design and construction, structural analysis and measurement, equipment, structural glass, repair techniques, and other related topics. Upon completion, students should be able to analyze and perform repairs to a vehicle which has received light/ moderate structural damage.

AUB 132 Structural Damage II (2/6/4)
Prerequisites: AUB 131
Corequisites: None
This course provides an in-depth study of structural damage analysis and repairs to vehicles that have received moderate to heavy structural damage. Topics include shop safety, structural analysis and measurement, equipment, structural glass, advanced repair techniques, structural component replacement and alignment, and other related topics. Upon completion, students should be able to analyze and perform repairs according to industry standards.

AUB 134 Autobody MIG Welding (1/4/3)
Prerequisites: None
Corequisites: None
This course covers the terms and procedures for welding the various metals found in today's autobody repair industry with an emphasis on personal/environmental safety. Topics include safety and precautionary measures, setup/operation of MIG equipment, metal identification methods, types of welds/joints, techniques, inspection methods, and other related topics. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standards.

AUB 136 Plastics & Adhesives (1/4/3)
Prerequisites: None
Corequisites: None
This course covers safety, plastic and adhesive identification, and the various repair methods of automotive plastic components. Topics include safety, identification, preparation, material selection, and the various repair procedures including refinishing. Upon completion, students should be able to identify, remove, repair, and/ or replace automotive plastic components in accordance with industry standards.

AUB 162 Autobody Estimating (1/2/2)
Prerequisites: None
Corequisites: None
This course provides a comprehensive study of autobody estimating. Topics include collision damage analysis, industry regulations, flat-rate and estimated time, and collision estimating manuals. Upon completion, students should be able to prepare and interpret a damage report.

AUTOMOTIVE

AUT 110 Intro to Auto Technology (2/2/3)
Prerequisites: None
Corequisites: None
This course covers workplace safety, hazardous material and environmental regulations, use of hand tools, service information resources, basic concepts, systems, and terms of automotive technology. Topics include familiarization with vehicle systems along with identification and proper use of various automotive hand and power tools. Upon completion, students should be able to describe safety and environmental procedures, terms associated with automobiles, identify and use basic tools and shop equipment.

AUT 113 Automotive Servicing (2/6/4)
Prerequisites: None
Corequisites: None
This course covers diagnostic procedures necessary to determine the nature and cause of auto service problems and the procedures used to repair/replace components. Emphasis is placed on troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon completion, students should be able to perform a variety of automotive repairs using proper service procedures and operate appropriate equipment.

AUT 114 Safety and Emissions (1/2/2)
Prerequisites: None
Corequisites: None
This course covers the laws, procedures, and specifications needed to perform a North Carolina State Safety and Emissions inspection. Topics include brake, steering and suspension, lighting, horn, windshield wiper, tire, mirrors, and emission control devices inspection. Upon completion, students should be able to perform complete and thorough North Carolina State Safety and Emissions inspections.

AUT 116 Engine Repair (1/3/2)
Prerequisites: None
Corequisites: None
This course covers service/repair/rebuilding of block, head, and internal engine components. Topics include engine repair/reconditioning using service specifications. Upon completion, students should be able to rebuild/recondition an automobile engine to service specifications.

AUT 116A Engine Repair Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 116
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

AUT 141 Susp & Steering Sys (2/4/4)
Prerequisites: None
Corequisites: None
This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair various steering and suspension components, check and adjust various alignment angles, and balance wheels.

AUT 141A Susp & Steering Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 141
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

AUT 151 Brake Systems (2/2/3)
Prerequisites: None
Corequisites: None
This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 151A Brakes Systems Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 151
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydra-boost, electrically powered boost, and anti-lock, parking brake systems and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 161 Electrical Systems (2/6/4)
Prerequisites: None
Corequisites: None
This course covers basic electrical theory and wiring diagrams, test equipment, and diagnosis/ repair/replacement of batteries, starters, alternators, and basic electrical accessories. Topics include diagnosis and repair of battery, starting, charging, lighting, and basic accessory systems problems. Upon completion, students should be able to diagnose, test, and repair the basic electrical components of an automobile.

AUT 163 Chassis Elec & Elect Lab (0/2/1)
Prerequisites: None
Corequisites: AUT 162
This course provides a laboratory setting to enhance chassis electrical and electronic system skills. Emphasis is placed on practical experiences that enhance the topics presented in AUT 162. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 162.

AUT 163A Adv Auto Electricity Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 163
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, troubleshooting and emerging electrical/ electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

AUT 171 Heating & Air Condition (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis/repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

AUT 181 Engine Perf.-Electrical (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the principles, systems, and procedures required for diagnosing and restoring engine performance using electrical/electronics test equipment. Topics include procedures for diagnosis and repair of ignition, emission control, and related electronic systems. Upon completion, students should be able to describe operation of and diagnose/repair ignition/emission control systems using appropriate test equipment and service information.

AUT 181A Engine Perf 1 Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 181
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include overviews of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices and emerging engine performance technologies. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information.

AUT 183 Engine Performance-Fuels (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the principles of fuel delivery/management, exhaust/emission systems, and procedures for diagnosing and restoring engine performance using appropriate test equipment. Topics include procedures for diagnosis/repair of fuel delivery/management and exhaust/emission systems using appropriate service information. Upon completion, students should be able to describe, diagnose, and repair engine fuel delivery/management and emission control systems using appropriate service information and diagnostic equipment.

lem solving, robotic systems controls, and hands-on projects. Upon completion, students should be able to apply basic concepts in application, programming, and robotic control systems.

AUTOMOTIVE BODY REPAIR

AUB 111 Painting & Refinishing I (2/6/4)
Prerequisites: None
Corequisites: None
This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing following accepted industry standards.

AUB 112 Painting & Refinishing II (2/6/4)
Prerequisites: AUB 111
Corequisites: None
This course covers advanced painting techniques and technologies with an emphasis on identifying problems encountered by the refinishing technician. Topics include materials application, color matching, correction of refinishing problems, and other related topics. Upon completion, students should be able to perform spot, panel, and overall refinishing repairs and identify and correct refinish problems.

AUB 114 Special Finishes (1/2/2)
Prerequisites: AUB 111
Corequisites: None
This course introduces multistage finishes, custom painting, and protective coatings. Topics include base coats, advanced intermediate coats, clear coats, and other related topics. Upon completion, students should be able to identify and apply specialized finishes based on accepted industry standards.

AUB 121 Non-Structural Damage I (1/4/3)
Prerequisites: None
Corequisites: None
This course introduces safety, tools, and the basic fundamentals of body repair. Topics include shop safety, damage analysis, tools and equipment, repair techniques, materials selection, materials usage, and other related topics. Upon completion, students should be able to identify and repair minor direct and indirect damage including removal/repairing/ replacing of body panels to accepted standards.

AUB 122 Non-Structural Damage II (2/6/4)
Prerequisites: None
Corequisites: None
This course covers safety, tools, and advanced body repair. Topics include shop safety, damage analysis, tools and equipment, advanced repair techniques, materials selection, materials usage, movable glass, and other related topics. Upon completion, students should be able to identify and repair or replace direct and indirect damage to accepted standards including movable glass and hardware.

AUB 131 Structural Damage I (2/4/4)
Prerequisites: None
Corequisites: None
This course introduces safety, equipment, structural damage analysis, and damage repairs. Topics include shop safety, design and construction, structural analysis and measurement, equipment, structural glass, repair techniques, and other related topics. Upon completion, students should be able to analyze and perform repairs to a vehicle which has received light/ moderate structural damage.

AUB 132 Structural Damage II (2/6/4)
Prerequisites: AUB 131
Corequisites: None
This course provides an in-depth study of structural damage analysis and repairs to vehicles that have received moderate to heavy structural damage. Topics include shop safety, structural analysis and measurement, equipment, structural glass, advanced repair techniques, structural component replacement and alignment, and other related topics. Upon completion, students should be able to analyze and perform repairs according to industry standards.

AUB 134 Autobody MIG Welding (1/4/3)
Prerequisites: None
Corequisites: None
This course covers the terms and procedures for welding the various metals found in today's autobody repair industry with an emphasis on personal/environmental safety. Topics include safety and precautionary measures, setup/operation of MIG equipment, metal identification methods, types of welds/joints, techniques, inspection methods, and other related topics. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standards.

AUB 136 Plastics & Adhesives (1/4/3)
Prerequisites: None
Corequisites: None
This course covers safety, plastic and adhesive identification, and the various repair methods of automotive plastic components. Topics include safety, identification, preparation, material selection, and the various repair procedures including refinishing. Upon completion, students should be able to identify, remove, repair, and/ or replace automotive plastic components in accordance with industry standards.

AUB 162 Autobody Estimating (1/2/2)
Prerequisites: None
Corequisites: None
This course provides a comprehensive study of autobody estimating. Topics include collision damage analysis, industry regulations, flat-rate and estimated time, and collision estimating manuals. Upon completion, students should be able to prepare and interpret a damage report.

AUTOMOTIVE

AUT 110 Intro to Auto Technology (2/2/3)
Prerequisites: None
Corequisites: None
This course covers workplace safety, hazardous material and environmental regulations, use of hand tools, service information resources, basic concepts, systems, and terms of automotive technology. Topics include familiarization with vehicle systems along with identification and proper use of various automotive hand and power tools. Upon completion, students should be able to describe safety and environmental procedures, terms associated with automobiles, identify and use basic tools and shop equipment.

AUT 113 Automotive Servicing (2/6/4)
Prerequisites: None
Corequisites: None
This course covers diagnostic procedures necessary to determine the nature and cause of auto service problems and the procedures used to repair/replace components. Emphasis is placed on troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon completion, students should be able to perform a variety of automotive repairs using proper service procedures and operate appropriate equipment.

AUT 114 Safety and Emissions (1/2/2)
Prerequisites: None
Corequisites: None
This course covers the laws, procedures, and specifications needed to perform a North Carolina State Safety and Emissions inspection. Topics include brake, steering and suspension, lighting, horn, windshield wiper, tire, mirrors, and emission control devices inspection. Upon completion, students should be able to perform complete and thorough North Carolina State Safety and Emissions inspections.

AUT 116 Engine Repair (1/3/2)
Prerequisites: None
Corequisites: None
This course covers service/repair/rebuilding of block, head, and internal engine components. Topics include engine repair/reconditioning using service specifications. Upon completion, students should be able to rebuild/recondition an automobile engine to service specifications.

AUT 116A Engine Repair Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 116
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

AUT 141 Susp & Steering Sys (2/4/4)
Prerequisites: None
Corequisites: None
This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair various steering and suspension components, check and adjust various alignment angles, and balance wheels.

AUT 141A Susp & Steering Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 141
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

AUT 151 Brake Systems (2/2/3)
Prerequisites: None
Corequisites: None
This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 151A Brakes Systems Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 151
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydra-boost, electrically powered boost, and anti-lock, parking brake systems and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 161 Electrical Systems (2/6/4)
Prerequisites: None
Corequisites: None
This course covers basic electrical theory and wiring diagrams, test equipment, and diagnosis/ repair/replacement of batteries, starters, alternators, and basic electrical accessories. Topics include diagnosis and repair of battery, starting, charging, lighting, and basic accessory systems problems. Upon completion, students should be able to diagnose, test, and repair the basic electrical components of an automobile.

AUT 163 Chassis Elec & Elect Lab (0/2/1)
Prerequisites: None
Corequisites: AUT 162
This course provides a laboratory setting to enhance chassis electrical and electronic system skills. Emphasis is placed on practical experiences that enhance the topics presented in AUT 162. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 162.

AUT 163A Adv Auto Electricity Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 163
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, troubleshooting and emerging electrical/ electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

AUT 171 Heating & Air Condition (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis/repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

AUT 181 Engine Perf.-Electrical (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the principles, systems, and procedures required for diagnosing and restoring engine performance using electrical/electronics test equipment. Topics include procedures for diagnosis and repair of ignition, emission control, and related electronic systems. Upon completion, students should be able to describe operation of and diagnose/repair ignition/emission control systems using appropriate test equipment and service information.

AUT 181A Engine Perf 1 Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 181
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include overviews of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices and emerging engine performance technologies. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related driveability problems using appropriate test equipment/service information.

AUT 183 Engine Performance-Fuels (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the principles of fuel delivery/management, exhaust/emission systems, and procedures for diagnosing and restoring engine performance using appropriate test equipment. Topics include procedures for diagnosis/repair of fuel delivery/management and exhaust/emission systems using appropriate service information. Upon completion, students should be able to describe, diagnose, and repair engine fuel delivery/management and emission control systems using appropriate service information and diagnostic equipment.

AUT 186 Auto Computer Appl (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces computer operating systems, word processing, and electronic automotive service information systems. Emphasis is placed on operation systems, word processing, and electronic automotive service information systems. Upon completion, students should be able to use an operating system to access information pertaining to automotive technology and perform word processing.

AUT 212 Auto Shop Management (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the principals of management essential to decision-making, communication, authority, and leadership. Topics include shop supervision, shop organization, customer relations, cost effectiveness and work place ethics. Upon completion, students should be able to describe basic automotive shop operation from a management standpoint. *AUT 212 replaces AUT 112 per CRC 09/20/06.*

AUT 221 Automatic Transmissions (2/6/4)
Prerequisites: None
Corequisites: None
This course covers operation, diagnosis, service, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to explain operational theory and diagnose and repair automatic drive trains.

AUT 221A Auto Transm/Tr-ax Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 221
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to diagnose and repair automatic drive trains.

AUT 231 Manual Drive Train/Axles (2/3/3)
Prerequisites: None
Corequisites: None
This course covers the operation, diagnosis, and repair of manual transmission/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory and diagnose and repair manual drive trains.

AUT 231A Man Trans/Ax/Drtr Lab (0/3/1)
Prerequisites: None
Corequisites: AUT 231
This course is an optional lab for the program that needs to meet NATEF hour standards but does not have a co-op component in the program. Topics include manual drive train diagnosis, service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to diagnose and repair manual drive trains.

AUT 283 Adv Auto Electronics (2/2/3)
Prerequisites: AUT 161
Corequisites: None
This course covers advanced electronic systems on automobiles. Topics include microcontrollers, on-board communications, telematics, hybrid systems, navigation, collision avoidance, and electronic accessories. Upon completion, students should be able to diagnose electronic systems using appropriate service information, procedures, and equipment and remove/replace/reprogram controllers, sensors, and actuators.

BIOLOGY

BIO 110 Principles of Biology (3/3/4)
Prerequisites None
Corequisites: None
This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, taxonomy, evolution, ecology, diversity, and other related topics. Upon completion, students should be able to demonstrate increased knowledge and better understanding of biology as it applies to everyday life. *This course has been approved to satisfy the Comprehensive Articulation Agreement in general education core requirement in natural sciences/mathematics.*

BIO 111 General Biology I (3/3/4)
Prerequisites With a grade of C or better in ENG 090, MAT 070, RED 090
Corequisites: None
This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, cell structure and function, metabolism and energy transformation, genetics, evolution, classification, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 112 General Biology II (3/3/4)
Prerequisites: BIO 111
Corequisites: None
This course is a continuation of BIO 111. Emphasis is placed on organisms, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 120 Introductory Botany (3/3/4)
Prerequisites: BIO 110 or BIO 111
Corequisites: None
This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 130 Introductory Zoology (3/3/4)
Prerequisites: BIO 110 or BIO 111
Corequisites: None
This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function including comparative systems of selected groups. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 140 Environ Biology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 140A Environ Biology Lab (0/3/1)
Prerequisites: None
Corequisites: BIO 140
This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

BIO 143 Field Biology Minicourse (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the biological and physical components of a field environment. Emphasis is placed on a local field environment with extended field trips to other areas. Upon completion, students should be able to demonstrate an understanding of the biological and physical components of the specific biological environment. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

BIO 145 Ecology (3/3/4)
Prerequisites: BIO 110 or BIO 111
Corequisites: None
This course provides an introduction to ecological concepts using an ecosystems approach. Topics include energy flow, nutrient cycling, succession, population dynamics, community structure, and other related topics. Upon completion, students should be able to demonstrate comprehension of basic ecosystem structure and dynamics. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

BIO 146 Regional Natural History (3/3/4)
Prerequisites: None
Corequisites: None
This course is an interdisciplinary and historical analysis of the natural resources of the region. Emphasis is placed on geology, climate, forest systems, watersheds, water resources, and fish and wildlife resources of the region. Upon completion, students should be able to demonstrate comprehension of the natural history and the integration of the natural resources of the region. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 155 Nutrition (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the biochemistry of foods and nutrients with consideration of the physiological effects of specialized diets for specific biological needs. Topics include cultural, religious, and economic factors that influence a person's acceptance of food as well as nutrient requirements of the various life stages. Upon completion, students should be able to identify the functions and sources of nutrients, the mechanisms of digestion, and the nutritional requirements of all age groups. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

BIO 156 Nutrition and the Child (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an outline of food requirements for children. Topics include menu plans, food preparation, and nutrition education for children and their parents. Upon completion, students should be able to identify sources and functions of nutrients and describe and use standards for evaluating nutritional adequacy in children.

BIO 161 Intro to Human Biology (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a basic survey of human biology. Emphasis is placed on the basic structure and function of body systems and the medical terminology used to describe normal and pathological states. Upon completion, students should be able to demonstrate an understanding of normal anatomy and physiology and the appropriate use of medical terminology.

BIO 163 Basic Anatomy & Physio (4/2/5)
Prerequisites: With a grade of C or better in MAT 060, RED 090
Corequisites: None
This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships.

BIO 165 Anatomy and Physio. I (3/3/4)
Prerequisites: High school biology and chemistry; with a grade of C or better in ENG 090,MAT 070, RED 090
Corequisites: None
This course is the first of a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Leaning Community (VLC).*

BIO 166 Anatomy and Physio. II (3/3/4)
Prerequisites: BIO 165
Corequisites: None
This course is the second in a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and the interrelationships of all body systems. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Leaning Community (VLC).*

BIO 168 Anatomy and Physiology I (3/3/4)
Prerequisites: None
Corequisites: None
This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include body organization, homeostasis, cytology, histology, and the integumentary, skeletal, muscular, and nervous systems and special senses. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

BIO 169 Anatomy and Physiology II (3/3/4)
Prerequisites: BIO 168
Corequisites: None
This course provides a continuation of the comprehensive study of the anatomy and physiology of the human body. Topics include the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems as well as metabolism, nutrition, acid-base balance, and fluid and electrolyte balance. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

BIO 170 Intro Microbiology (3/3/4)
Prerequisites: None
Corequisites: None
This course introduces fundamental concepts of microbiology with emphasis on the relationships of microorganisms to humans. Topics include common groups of microorganisms and their relationships to human disease, including means of transmission, body defenses, prevention, control, and treatment. Upon completion, students should be able to practice and recognize the value of aseptic technique in microbial control.

BIO 175 General Microbiology (2/2/3)
Prerequisites: BIO 110 or BIO 163 or BIO 166 or BIO 169
Corequisites: None
This course covers principles of microbiology with emphasis on microorganisms and human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 223 Field Botany (2/3/3)
Prerequisites: BIO 112
Corequisites: None
This course provides a field and laboratory study of local flora. Emphasis is placed on local flora classificaiton, identification, and ecology by the use of keys and field studies. Upon completion, students should be able to use keys for the classification and identification of local flora and to demonstrate an understanding of plant ecology. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 224 Local Flora Spring (1/2/2)
Prerequisites: None
Corequisites: None
This course provides an introduction to the identification of native plants. Emphasis is placed on spring wild flowers. Upon completion, students should be able to identify a variety of spring wild flowers and native plants. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 225 Local Flora Summer (1/2/2)
Prerequisites: None
Corequisites: None
This course provides an introduction to the identification of native plants. Emphasis is placed on summer wild flowers. Upon completion, students should be able to identify a variety of summer wild flowers and native plants. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 226 Local Flora Fall (1/2/2)
Prerequisites: None
Corequisites: None
This course provides an introduction to the identification of native plants. Emphasis is placed on fall wild flowers. Upon completion, students should be able to identify a variety of fall wild flowers and native plants. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 227 Winter Plant ID (1/2/2)
Prerequisites: None
Corequisites: None
This course provides an introduction to the identification of native plants. Emphasis is placed on plants in their winter condition. Upon completion, students should be able to identify a variety of native plants in their winter condition. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 235 Ornithology (3/3/4)
Prerequisites: BIO 110 or BIO 111
Corequisites: None
This course introduces the biology of birds. Emphasis is placed on the systematics, recognition, distribution, anatomy, physiology, behavior, and ecology of birds. Upon completion, students should be able to identify various avian species and demonstrate a knowledge of their biology and ecology. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

BIO 240 Waste Management (3/0/3)
Prerequisites: BIO 110 or BIO 111
Corequisites: None
This course is a study of human use of and impact on the environment. Topics include how human activities can negatively affect the land and water and how to avoid and cope with waste problems. Upon completion, students should be able to identify both hazardous and nonhazardous waste products and solutions for their management.

BIO 242 Natural Resource Conserv (3/0/3)
Prerequisites: BIO 112
Corequisites: None
This course describes the importance of natural resources and their role in our environment. Emphasis is placed on the physical, biological, and ecological principles underlying natural resource conservation with attention to the biological consequences of human impacts. Upon completion, students should be able to demonstrate an understanding of natural resource conservation.

BIO 275 Microbiology (3/3/4)
Prerequisites: BIO 110, BIO 112, BIO 163, BIO 165, or BIO 168
Corequisites: None
This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

BLUEPRINT READING

BPR 111 Blueprint Reading (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the basic principles of blueprint reading. Topics include line types, orthographic projections, dimensioning methods, and notes. Upon completion, students should be able to interpret basic blueprints and visualize the features of a part.

BPR 121 Blueprint Reading: Mech (1/2/2)
Prerequisites: BPR 111 or MAC 131
Corequisites: None
This course covers the interpretation of intermediate blueprints. Topics include tolerancing, auxiliary views, sectional views, and assembly drawings. Upon completion, students should be able to read and interpret a mechanical working drawing.

BPR 130 Blueprint Reading/Const (1/2/2)
Prerequisites: None
Corequisites: CAR 111
This course covers the interpretation of blueprints and specifications that are associated with the construction trades. Emphasis is placed on interpretation of details for foundations, floor plans, elevations, and schedules. Upon completion, students should be able to read and interpret a set of construction blueprints.

BPR 221 Interpretation of GD & T (2/0/2)
Prerequisites: BPR 121 or MAC 132
Corequisites: None
This course introduces dimensioning and tolerancing standards as established by ANSI and ISO 9000. Topics include dimensioning, symbols and terms, application of tolerances and limits, tolerances of position and form, and the advantages of geometric concepts. Upon completion, students should be able to interpret blueprints that utilize the GD & T system.

BUSINESS

BUS 110 Introduction to Business (3/0/3)
Prerequisite: None
Corequisite: None
This course provides a survey of the business world. Topics include the basic principles and practices of contemporary business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects. *This course has been approved for transfer through the Comprehensive Articulation Agreement.*

BUS 115 Business Law I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the ethics and legal framework of business. Emphasis is placed on contracts, negotiable instruments, Uniform Commercial Code, and the working of the court systems. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Leaning Community (VLC).*

BUS 116 Business Law II (3/0/3)
Prerequisites: BUS 165
Corequisites: None
This course continues the study of ethics and business law. Emphasis is placed on bailments, sales, risk-bearing, forms of business ownership, and copyrights. Upon completion, students should be able to apply ethical issues and laws covered to selected business decision-making situations.

BUS 121 Business Math (2/2/3)
Prerequisites: With a grade of C or better in MAT 060
Corequisites: None
This course covers fundamental mathematical operations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business. Upon completion, students should be able to apply mathematical concepts to business.

BUS 125 Personal Finance (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a study of individual and family financial decisions. Emphasis is placed on building useful skills in buying, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan.

BUS 135 Principles of Supervision (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the basic responsibilities and duties of the supervisor and his/her relationship to higher-level supervisors, subordinates, and associates. Emphasis is placed on effective utilization of the work force and understanding the role of the supervisor. Upon completion, students should be able to apply supervisory principles in the work place.

BUS 137 Principles of Management (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management.

BUS 151 People Skills (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the basic concepts of identity and communication in the business setting. Topics include self-concept, values, communication styles, feelings and emotions, roles versus relationships, and basic assertiveness, listening, and conflict resolution. Upon completion, students should be able to distinguish between unhealthy, self-destructive, communication patterns and healthy, non-destructive, positive communication patterns.

BUS 225 Business Finance (2/2/3)
Prerequisites: ACC 120, ACC 121
Corequisites: None
This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

BUS 230 Small Business Mgmt. (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan. *Knowledge of Excel and Word is highly recommended for successful completion of the required business plan and ENG 111 is strongly recommended.*

BUS 255 Org Behavior in Business (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the impact of different management practices and leadership styles on worker satisfaction and morale, organizational effectiveness, productivity, and profitability. Topics include a discussion of formal and informal organizations, group dynamics, motivation, and managing conflict and change. Upon completion, students should be able to analyze different types of interpersonal situations and determine an appropriate course of action.

BUS 260 Business Communication (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the work place.

CABINETMAKING

CAB 111 Cabinetmaking I (4/9/7)
Prerequisites: None
Corequisites: None
This course introduces wood technology, materials, purchasing, estimating, design considerations, and cabinet construction. Topics include wood identification and use, hand tools, safe machine operation, glue and clamping, abrasives, wood joinery, kitchen and bath layout, laminates, and finishing techniques. Upon completion, students should be able to select and process materials; make sound production decisions; and design, lay out, construct, and install cabinets. *This is a diploma-level course.*

CARPENTRY

CAR 110 Intro to Carpentry (2/0/2)
Prerequisites: None
Corequisites: None
This course introduces the student to the carpentry trade. Topics include duties of a carpenter, hand and power tools, building materials, construction methods, and safety. Upon completion, students should be able to identify hand and power tools, common building materials, and basic construction methods.

CAR 111 Carpentry I (3/15/8)
Prerequisites: None
Corequisites: None
This course introduces the theory and construction methods associated with the building industry, including framing, materials, tools, and equipment. Topics include safety, hand/power tool use, site preparation, measurement and layout, footings and foundations, construction framing, and other related topics. Upon completion, students should be able to safely lay out and perform basic framing skills with supervision. *This is a diploma-level course.*

CAR 112 Carpentry II (3/15/8)
Prerequisites: CAR 111
Corequisites: None
This course covers the advanced theory and construction methods associated with the building industry including framing and exterior finishes. Topics include safety, hand/power tool use, measurement and layout, construction framing, exterior trim and finish, and other related topics. Upon completion, students should be able to safely frame and apply exterior finishes to a residential building with supervision.

CAR 113 Carpentry III (3/9/6)
Prerequisites: CAR 111
Corequisites: None
This course covers interior trim and finishes. Topics include safety, hand/power tool use, measurement and layout, specialty framing, interior trim and finishes, cabinetry, and other related topics. Upon completion, students should be able to safely install various interior trim and finishes in a residential building with supervision.

CAR 114 Residential Bldg Codes (3/0/3)
Prerequisites: None
Corequisites: CAR 112
This course covers building codes and the requirements of state and local construction regulations. Emphasis is placed on the minimum requirements of the North Carolina building codes related to residential structures. Upon completion, students should be able to determine if a structure is in compliance with North Carolina building codes.

CAR 115 Res Planning/Estimating (3/0/3)
Prerequisites: BPR 130
Corequisites: CAR 112
This course covers project planning, management, and estimating for residential or light commercial buildings. Topics include planning and scheduling, interpretation of working drawings and specifications, estimating practices, and other related topics. Upon completion, students should be able to perform quantity takeoffs and cost estimates.

COMPUTER ENGINEERING TECHNOLOGY

CET 111 Computer Upgrade/Rep. I (2/3/3)
Prerequisites: None
Corequisites: None
This course is the first of two courses covering repairing, servicing, and upgrading computers and peripherals in preparation for industry certification. Topics include safety practices, CPU/memory/bus identification, disk subsystem, hardware/software installation/configuration, common device drivers, data recovery, system maintenance, and other related topics. Upon completion, students should be able to safely repair and/or upgrade computer systems to perform within specifications.

CHEMISTRY

CHM 131 Introduction to Chemistry (3/0/3)
Prerequisites: With a grade of C or better in ENG 090, MAT 070, RED 090
Corequisites: None
This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

CHM 131A Intro. to Chemistry Lab (0/3/1)
Prerequisites: None
Corequisites: CHM 131
This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

CHM 132 Organic and Biochemistry (3/3/4)
Prerequisites: CHM 131 & 131A or CHM 151
Corequisite: None
This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

CHM 151 General Chemistry I (3/3/4)
Prerequisites: With a grade of C or better in ENG 090, RED 090, and MAT 161 or MAT 171
Corequisites: None
This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

CHM 152 General Chemistry II (3/3/4)
Prerequisites: CHM 151
Corequisites: None
This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

CHM 251 Organic Chemistry I (3/3/4)
Prerequisites: CHM 152
Corequisites: None
This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

CHM 252 Organic Chemistry II (3/3/4)
Prerequisites: CHM 251
Corequisites: None
This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

INFORMATION SYSTEMS

CIS 110 Intro. to Computers (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option).*

CIS 111 Basic PC Literacy (1/2/2)
Prerequisites: None
Corequisites: None
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills.

CIS 115 Intro to Prog & Logic (2/3/3)
Prerequisites: With a grade of C or better in MAT 070, MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175
Corequisites: None
This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option).*

CIS 164 DTP Layout & Design (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the fundamentals of design and page layout. Emphasis is placed on page layout organization, typography, and color. Upon completion, students should be able to create projects that visually enhance communication.

CIS 165 Desktop Publishing I (2/2/3)
Prerequisites: None
Corequisites: None
This course provides an introduction to desktop publishing software capabilities. Emphasis is placed on efficient use of a page layout software package to create, design, and print publications; hardware/software compatibility; and integration of specialized peripherals. Upon completion, students should be able to prepare publications given design specifications.

CIVIL ENGINEERING

CIV 230 Constr Estimating (2/3/3)
Prerequisites: ARC 111, CIS 110, CIS 111, or EGR 115
Corequisites: None
This course covers quantity take-offs of labor, materials, and equipment and calculation of direct and overhead costs for a construction project. Topics include the interpretation of working drawings and specifications, types of contracts and estimates, building codes, bidding techniques and procedures, and estimating software. Upon completion, students should be able to prepare a detailed cost estimate and bid documents for a construction project.

CRIMINAL JUSTICE

CJC 111 Intro to Criminal Justice (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

CJC 112 Criminology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.

CJC 113 Juvenile Justice (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and

laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition.

CJC 121 Law Enforcement Oper (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

CJC 131 Criminal Law (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

CJC 132 Court Procedure & Evid (3/0/3)
Prerequisites: None
Corequisites: None
This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence.

CJC 141 Corrections (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

CJC 212 Ethics & Comm Relations (3/0/3)
Prerequisites: None
Corequisites: None
This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations.

CJC 215 Organiz. & Admin (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

CJC 221 Investigative Principles (3/2/4)
Prerequisites: None
Corequisites: None
This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation.

CJC 231 Constitutional Law (3/0/3)
Prerequisites: None
Corequisites: None
The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts.

CONSTRUCTION MANAGEMENT

CMT 210 Prof Constr Superv (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the student to the fundamentals of effective supervision emphasizing professionalism through knowledge and applied skills. Topics include safety, planning and scheduling, contract, problem-solving, communications, conflict resolution, recruitment, employment laws and regulations, leadership, motivation, teamwork, discipline, setting objectives, and training. Upon completion, the student should be able to demonstrate the basic skills necessary to be successful as a supervisor in the construction industry.

CMT 212 Total Safety Perf (3/0/3)
Prerequisites: None
Corequisites: CMT 210
This course covers the importance of managing safety and productivity equally by encouraging people to take individual responsibility for safety and health in the workplace. Topics include safety management, controlling construction hazards, communicating and enforcing policies, OSHA compliance, personal responsibility and accountability, safety planning, training, and personal protective equipment. Upon completion, students should be able to supervise safety at a construction job site and qualify for the OSHA Training Certification.

CMT 214 Planning and Scheduling (3/0/3)
Prerequisites: CMT 210 and BPR 130
Corequisites: None
This course covers the need for the process of planning construction projects, as well as the mechanics and vocabulary of project scheduling. Topics include project preplanning, scheduling format, planning for production, short interval planning, schedule updating and revising, and computer-based planning and scheduling. Upon completion, the student should be able to understand the need for planning and scheduling, the language and logic of scheduling, and use of planning skills.

CMT 216 Costs and Productivity (3/0/3)
Prerequisites: CMT 210
Corequisites: None
This course covers the relationships between time, work completed, work-hours spent, schedule duration, equipment hours, and materials used. Topics include production rates, productivity unit rates, work method improvements, and overall total project cost control. Upon completion, the student should be able to demonstrate an understanding of how costs may be controlled and productivity improved on a construction project.

CMT 218 Human Relations Issues (3/0/3)
Prerequisites: CMT 210
Corequisites: None
This course provides instruction on human relations issues as they relate to construction project supervision. Topics include relationships, human behavior, project staffing issues, teamwork, effective communication networks, laws and regulations, and identifying and responding to conflict, crisis, and discipline. Upon completion, the student will demonstrate an understanding of the importance of human relations in the success of a construction project.

COOPERATIVE EDUCATION

COE 110 World of Work (1/0/0/1)
Prerequisites: None
Corequisites: None
This course covers basic knowledge necessary for gaining and maintaining employment. Topics include job search skills, work ethic, meeting employer expectations, workplace safety, and human relations. Upon completion, students should be able to successfully make the transition from school to work.

COE 111 Co-op Work Exper I (0/0/10/1)
Prerequisites: ACA 220, COE 110, OST 286, a Co-op Workshop, or permission from Co-op staff
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 112 Co-op Work Exper I (0/0/20/2)
Prerequisites: ACA 220, COE 110, OST 286 ,a Co-op Workshop, or permission from Co-op staff
Corequisites: None
This course provides work experience with a college approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 113 Co-op Work Exp. I (Apprenticeship) (0/0/30/3)
Prerequisites: ACA 220, COE 110, OST 286, a Co-op Workshop, or permission from Co-op staff
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 114 Co-op Work Experience I (Apprenticeship) (0/0/40/4)
Prerequisites: ACA 220, COE 110, OST 286, a Co-op Workshop, or permission from Co-op staff
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 115 Work Exp Seminar I (1/0/0/1)
Prerequisites: None
Corequisites: COE 111, COE 112, COE 113, or COE 114
This course provides the opportunity for students to share their work experiences. Emphasis is placed on integrating classroom learning with related work experience. Upon completion students should be able to apply the qualities and skills they have acquired through working to become a more productive employee.

COE 121 Co-op Work Exper II (0/0/10/1)
Prerequisites: COE 111 or COE 112
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 122 Co-op Work Exper II (0/0/20/2)
Prerequisites: COE 111 or COE 112
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 123 Co-op Work Experience II (Apprenticeship) (0/0/30/3)
Prerequisites: COE 113
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 124 Co-op Work Experience II (Apprenticeship) (0/0/40/4)
Prerequisites: COE 114
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 125 Work Exp Seminar II (1/0/0/1)
Prerequisites: COE 121, COE 122, COE 123, or COE 124
Corequisites: None
This course provides the opportunity for students to share their work experiences. Emphasis is placed on integrating classroom learning with related work experience. Upon completion students should be able to apply the qualities and skills they have acquired through working to become a more productive employee.

COE 131 Co-op Work Exper III (0/0/10/1)
Prerequisites: COE 121 or COE 122
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 132 Co-op Work Expe III (0/0/20/2)
Prerequisites: COE 121 or COE 122
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 133 Co-op Work Experience III (Apprenticeship) (0/0/30/3)
Prerequisites: COE 123
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 134 Co-op Work Experience III (Apprenticeship) (0/0/40/4)
Prerequisites: COE 124
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 211 Co-op Work Exper IV (0/0/10/1)
Prerequisites: COE 131 or COE 132
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 212 Co-op Work Exper IV (0/0/20/2)
Prerequisites: COE 131 or COE 132
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 213 Co-op Work Experience IV (Apprenticeship) (0/0/30/3)
Prerequisites: COE 133
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 214 Co-op Work Experience IV (Apprenticeship) (0/0/40/4)
Prerequisites: COE 134
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 221 Co-op Work Exper V (0/0/10/1)
Prerequisites: COE 211 or COE 212
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 222 Co-op Work Exper V (0/0/20/2)
Prerequisites: COE 211 or COE 212
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 223 Co-op Work Experience V (Apprenticeship) (0/0/30/3)
Prerequisites: COE 213
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 224 Co-op Work Exper V (0/0/40/4)
Prerequisites: COE 214
Corequisites: None
This course provides work experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Co-op courses are available each semester.

COMMUNICATION

COM 231 Public Speaking (3/0/3)
Prerequisites: None
Corequisites: None
This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in speech/communication.*

COM 233 Persuasive Speaking (3/0/3)
Prerequisites: ENG 112 or ENG 113
Corequisites: None
This course introduces theory and history of persuasive speaking, covering critical thinking skills in analyzing problems, assessing solutions, and communicating the information to an audience. Emphasis is placed on analysis, evidence, reasoning, and library and field research used to enhance persuasive public speaking skills. Upon completion, students should be able to apply the principles of persuasive speaking in a public setting. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

COM 251 Debate I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the principles of debate. Emphasis is placed on argument, refutation, research, and logic. Upon completion, students should be able to use research skills and logic in the presentation of ideas within the context of formal debate. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

COSMETOLOGY

COS 111 Cosmetology Concepts I (4/0/4)
Prerequisites: None
Corequisites: COS 112
This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting.

COS 112 Salon I (0/24/8)
Prerequisites: None
Corequisites: COS 111
This course introduces basic salon services. Topics include scalp treatments, shampooing, rinsing, hair color, design, haircutting, permanent waving, pressing, relaxing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate salon services.

COS 113 Cosmetology Concepts II (4/0/4)
Prerequisites: None
Corequisites: COS 114
This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, chemistry, manicuring, chemical restructuring, and hair coloring. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

COS 114 Salon II (0/24/8)
Prerequisites: None
Corequisites: COS 113
This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

COS 115 Cosmetology Concepts III (4/0/4)
Prerequisites: None
Corequisites: COS 116
This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

COS 116 Salon III (0/12/4)
Prerequisites: None
Corequisites: COS 115
This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

COS 117 Cosmetology Concepts IV (2/0/2)
Prerequisites: None
Corequisites: COS 118
This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.

COS 118 Salon IV (0/21/7)
Prerequisites: None
Corequisites: COS 117
This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.

COS 119 Esthetics Concepts I (2/0/2)
Prerequisites: None
Corequisites: None
This course covers the concepts of esthetics. Topics include orientation, anatomy, physiology, hygiene, sterilization, first aid, chemistry, basic dematology, and professional ethics. Upon completion, students should be able to demonstrate an understanding of the concepts of esthetics and meet course requirements.

COS 121 Manicure/Nail Tech I (4/6/6)
Prerequisites: None
Corequisites: None
This course covers techniques of nail technology, hand and arm massage, and recognition of nail diseases and disorders. Topics include OSHA/safety, sanitation, bacteriology, product knowledge, salesmanship, manicures, artificial applications, pedicures, massage, and other related topics. Upon completion, students should be able to safely and competently perform nail care, including manicures, pedicures, massage, decorating, and artificial applications in a salon setting.

COS 122 Manicure/Nail Technology II (4/6/6)
Prerequisites: COS 121
Corequisites: None
This course covers advanced techniques of nail technology and hand and arm massage. Topics include OSHA/safety, product knowledge, customer service, salesmanship, artificial applications, nail art, and other related topics. Upon completion, students should be able to demonstrate competence necessary for the licensing examination, including advanced nail care, artificial enhancements, and decorations.

COS 125 Esthetics Concepts II (2/0/2)
Prerequisites: None
Corequisites: None
This course covers more comprehensive esthetics concepts. Topics include nutrition, business management, makeup, and color analysis. Upon completion students should be able to demonstrate an understanding of the advanced esthetics concepts and meet course requirements.

COS 192 Select Topics in Cosmetol (0/6/2)
Prerequisites: Enrollment in program
Corequisites: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study. This course provides an opportunity for students to meet the final requirements to sit for the North Carolina State Board of Cosmetic Arts Examination.

COS 223 Contemp Hair Coloring (1/3/2)
Prerequisites: COS 111 and COS 112
Corequisites: None
This course covers basic color concepts, hair coloring problems, and application techniques. Topics include color theory, terminology, contemporary techniques, product knowledge, and other related topics. Upon completion, students should be able to identify a client's color needs and safely and competently perform color applications and correct problems.

COS 224 Trichology & Chemistry (1/3/2)
Prerequisites: None
Corequisites: None
This course is a study of hair and the interaction of applied chemicals. Emphasis is placed on pH actions and the reactions and effects of chemical ingredients. Upon completion, students should be able to demonstrate an understanding of chemical terminology, pH testing, and chemical reactions on hair.

COS 240 Contemporary Design (1/3/2)
Prerequisites: COS 111 and COS 112
Corequisites: None
This course covers methods and techniques for contemporary designs. Emphasis is placed on contemporary designs and other related topics. Upon completion, students should be able to demonstrate and apply techniques associated with contemporary design.

COS 251 Manicure Instr Concepts (8/0/8)
Prerequisites: None
Corequisites: None
This course introduces manicuring instructional concepts. Topics include orientation, theories of education, unit planning, daily lesson planning, laboratory management, student assessment, record keeping, and other related topics. Upon completion, students should be able to identify theories of education, develop lesson plans, demonstrate supervision techniques, and assess student classroom performance.

COS 252 Manicure Instr Pract (0/15/5)
Prerequisites: NC Cosmetology or Manicurist License and six months work experience in a cosmetic arts salon
Corequisites: COS 251
This course covers supervisory and instructional skills for teaching manicuring students in a laboratory setting. Topics include demonstrations of services, supervision, student assessment, and other related topics. Upon completion, students should be able to demonstrate competence in the areas covered by the Manicuring Instructor Licensing Examination and meet program completion requirements.

COS 260 Design Applications (1/3/2)
Prerequisites: None
Corequisites: None
This course provides an overview of the design concepts used in cosmetology. Topics include the application of art principles and elements to artistically design hair, nails, and make-up and other related topics. Upon completion, students should be able to demonstrate knowledge and techniques associated with design concepts.

COS 271 Instructor Concepts I (5/0/5)
Prerequisites: Cosmetology License and six months experience as a licensed cosmetologist
Corequisites: COS 272
This course introduces the basic cosmetology instructional concepts. Topics include orientation, theories of education, unit planning, daily lesson planning, laboratory management, student assessment, record keeping, and other related topics. Upon completion, students should be able to identify theories of education, develop lesson plans, demonstrate supervisory techniques, and assess student performance in a classroom setting.

COS 272 Instructor Practicum I (0/21/7)
Prerequisites: Cosmetology License and six months experience as a licensed cosmetologist
Corequisites: COS 271
This course covers supervisory and instructional skills for teaching entry-level cosmetology students in a laboratory setting. Topics include demonstrations of services, supervision, and entry-level student assessment. Upon completion, students should be able to demonstrate salon services and instruct and objectively assess the entry-level student.

COS 273 Instructor Concepts II (5/0/5)
Prerequisites: COS 271 and COS 272
Corequisites: COS 274
This course covers advanced cosmetology instructional concepts. Topics include practical demonstrations, lesson planning, lecture techniques, development and administration of assessment tools, record keeping, and other related topics. Upon completion, students should be able to develop lesson plans, demonstrate supervision techniques, assess student performance in a classroom setting, and keep accurate records.

COS 274 Instructor Practicum II (0/21/7)
Prerequisites: COS 271 and COS 272
Corequisites: COS 273
This course is designed to develop supervisory and instructional skills for teaching advanced cosmetology students in a laboratory setting. Topics include practical demonstrations, supervision, and advanced student assessment. Upon completion, students should be able to demonstrate competence in the areas covered by the Instructor Licensing Examination and meet program completion requirements. *This is a certificate-level course.*

COMPUTER INFORMATION TECHNOLOGY

CTS 115 Info Sys Bus Concept (3/03)
Prerequisites: None
Corequisites: None
The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the 'hybrid business manager' and the potential offered by new technology and systems.

CTS 120 Hardware/Software Sup (2/3/3)
Prerequisites: CIS 110 or CIS 111
Corequisites: None
This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

CTS 125 Presentation Graphics (2/2/3)
Prerequisites: CIS 110 or CIS 111
Corequisites: None
This course provides hands-on experience with a graphics presentation package. Topics include terminology, effective chart usage, design and layout, integrating hardware components, and enhancing presentations with text, graphics, audio and video. Upon completion, students should be able to design and demonstrate an effective presentation.

CTS 130 Spreadsheet (2/2/3)
Prerequisites: CIS 110 or CIS 111 or OST 137
Corequisites: None
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

CTS 220 Adv Hard/Software Sup (2/3/3)
Prerequisites: CTS 120
Corequisites: None
This course provides advanced knowledge and competencies in hardware and operating system technologies for computer technicians to support personal computers. Emphasis is placed on: configuring and upgrading; diagnosis and troubleshooting; as well as preventive maintenance of hardware and system software. Upon completion, students should be able to install, configure, diagnose, perform preventive maintenance, and maintain basic networking on personal computers.

CTS 230 Advanced Spreadsheet (2/2/3)
Prerequisites: CTS 130
Corequisites: None
This course covers advanced spreadsheet design and development. Topics include advanced functions and statistics, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets.

CTS 250 User Sup & Softw Eval (2/2/3)
Prerequisites: CTS 120 and NOS 130
Corequisites: None
This course provides an opportunity to evaluate software and hardware and make recommendations to meet end-user needs. Emphasis is placed on software and hardware evaluation, installation, training, and support. Upon completion, students should be able to present proposals and make hardware and software recommendations based on their evaluations.

CTS 285 Systems Analy & Design (3/03)
Prerequisites: CIS 115
Corequisites: None
This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.

CTS 286 Network Support (2/2/3)
Prerequisites: NOS 230 or NOS 231
Corequisites: None
This course provides experience using CD ROM and on-line research tools and hands-on experience for advanced hardware support and troubleshooting. Emphasis is placed on troubleshooting network adapter cards and cabling, network storage devices, the DOS workstation, and network printing. Upon completion, students should be able to analyze, diagnose, research, and fix network hardware problems.

CTS 289 System Support Project (1/4/3)
Prerequisites: CTS 285
Corequisites: None
This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation. *This is the capstone course required to successfully complete the Computer Information Technology degree program.*

COMPUTER SCIENCE

CSC 131 Assembly Programming (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces assembly language programming with emphasis on program efficiency. Topics include registers, instruction, data types, memory layout, I/O, bit manipulation, debugging, and code considerations. Upon completion, students should be able to create and modify program modules written in an assembly language.

CSC 134 C++ Programming (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

CSC 139 Visual BASIC Prog (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level.

CSC 151 JAVA Programming (2/3/3)
Prerequisites: CIS 115
Corequisites: None
This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

CSC 234 Adv C++ Programming (2/3/3)
Prerequisites: CSC 134
Corequisites: None
This course is a continuation of CSC 134 using the C++ programming language with standard programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, subprograms, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 239 Adv Visual BASIC Prog (2/3/3)
Prerequisites: CSC 139
Corequisites: None
This course is a continuation of CSC 139 using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.

CSC 289 Program Capstone Proj (1/4/3)
Prerequisites: CTS 285
Corequisites: None
This course provides an opportunity to complete a significant programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation. *This is the capstone course required to successfully complete the Computer Programming degree program.*

CONSTRUCTION

CST 110 Intro to Construction (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces construction terminology, materials, and practices found at a construction worksite. Emphasis is placed on common and innovative practices, methods, materials, and other related topics of the construction industry. Upon completion, students should be able to successfully identify various practices, methods, and materials used in the construction industry.

DATABASE MANAGEMENT TECHNOLOGY

DBA 110 Database Concepts (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

DBA 115 Database Applications (2/2/3)
Prerequisites: DBA 110
Corequisites: None
This course applies concepts learned in DBA 110 to a specific DBMS. Topics include manipulating multiple tables, advanced queries, screens and reports, linking, and command files. Upon completion, students should be able to create multiple table systems that demonstrate updates, screens, and reports representative of industry requirements.

DBA 120 Database Program I (2/2/3)
Prerequisites: None
Corequisites: None
This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports.

DBA 220 Oracle DB Program II (2/2/3)
Prerequisites: DBA 120
Corequisites: None
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop an Oracle DBMS application which includes a GUI front-end and report generation.

DESIGN DRAFTING

DDF 211 Design Drafting I (2/6/4)
Prerequisites: DFT 112, DFT 112A, DFT 151
Corequisites: None
This course emphasizes design processes for finished products. Topics include data collection from manuals and handbooks, efficient use of materials, design sketching, specifications, and vendor selection. Upon completion, students should be able to research and plan the design process for a finished product.

DRAFTING

DFT 111 Technical Drafting I (1/3/2)
Prerequisites: None
Corequisites: DFT 111A
This course introduces basic drafting skills, equipment, and applications. Topics include sketching, measurements, lettering, dimensioning, geometric construction, orthographic projections and pictorials drawings, sections, and auxiliary views. Upon completion, students should be able to understand and apply basic drawing principles and practices.

DFT 111A Technical Drafting I Lab (0/3/1)
Prerequisites: None
Corequisites: DFT 111
This course provides a laboratory setting to enhance basic drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 111. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in DFT 111.

DFT 112 Technical Drafting II (1/3/2)
Prerequisites: DFT 111, DFT 111A
Corequisites: DFT 112A
This course provides for advanced drafting practices and procedures. Topics include detailed working drawings, hardware, fits and tolerances, assembly and sub-assembly, geometric dimensioning and tolerancing, intersections, and developments. Upon completion, students should be able to produce detailed working drawings.

DFT 112A Technical Drafting II Lab (0/3/1)
Prerequisites: DFT 111, DFT 111A
Corequisites: DFT 112
This course provides a laboratory setting to enhance advanced drafting skills. Emphasis is placed on practical experiences that enhance the topics presented in DFT 112. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in DFT 112.

DFT 115 Architectural Drafting (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces basic drafting practices used in residential and light commercial design. Topics include floor plans, foundations, details, electrical components, elevations, and dimensioning practice. Upon completion, students should be able to complete a set of working drawings for a simple structure.

DFT 121 Intro to GD & T (1/2/2)
Prerequisites: DFT 111, DFT 111A
Corequisites: None
This course introduces basic geometric dimensioning and tolerancing principles. Topics include symbols, annotation, theory, and applications. Upon completion, students should be able to interpret and apply basic geometric dimensioning and tolerancing principles to drawings.

DFT 151 CAD I (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

DFT 152 CAD II (2/3/3)
Prerequisites: DFT 112, DFT 112A, and DFT 151
Corequisites: None
This course is a continuation of DFT 151. Topics include advanced two-dimensional, three-dimensional, and solid modeling and extended CAD applications. Upon completion, students should be able to generate and manage CAD drawings and models to produce engineering documents.

DFT 214 Descriptive Geometry (1/2/2)
Prerequisites: DFT 111, DFT 111A
Corequisites: None
This course includes a graphic analysis of space problems. Topics include points, lines, planes, connectors, and combinations of these. Upon completion, students should be able to solve real world spatial problems using descriptive geometry techniques.

DRAMA/THEATRE

DRA 111 Theatre Appreciation (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a study of the art, craft, and business of the theatre. Emphasis is placed on the audience's appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theatre terms and to recognize the contributions of various theatre artists. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

DRA 115 Theatre Criticism (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to develop a critical appreciation of the theatre from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theatre performance, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

DRA 126 Storytelling (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the art of storytelling and the oral traditions of folk literature. Topics include the history of storytelling, its value and purpose, techniques of the storyteller, and methods of collecting verbal art. Upon completion, students should be able to present and discuss critically stories from the world's repertory of traditional lore. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ECONOMICS

ECO 151 Survey of Economics (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon completion, students should be able to explain alternative solutions for economic problems faced by private and government sectors. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ECO 251 Prin of Microeconomics (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces economic analysis of individual, business, and industry choices in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

ECO 252 Prin of Macroeconomics (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

EDUCATION

EDU 113 Family/Early Child Cred (2/0/2)
Prerequisites: None
Corequisites: None
This course covers business/professional practices for family early childhood providers, developmentally appropriate practices, positive guidance, and methods of providing a safe and healthy environment. Topics include developmentally appropriate practices; health, safety and nutrition; and business and professionalism. Upon completion, students should be able to develop a handbook of policies, procedures, and practices for a family child care home.

EDU 118 Teach Assoc Princ & Prac (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the teachers associate's role in the educational system. Topics include history of education, professional responsibilities and ethics, cultural diversity, communication skills, and identification of the optional learning environment. Upon completion, students should be able to describe the supporting professional role of the teacher associate, demonstrate positive communication, and discuss educational philosophy. *This course is a unique concentration requirement in the Teacher Associate concentration in the Early Childhood Associate program.*

EDU 119 Early Childhood Ed (4/0/4)
Prerequisites: None
Corequisites: None
This course covers the foundations of the education profession, types of programs, professionalism, and planning quality programs for children. Topics include historical foundations, career options, types of programs, professionalism, observational skills, and planning developmentally appropriate schedules, environments, and activities for children. Upon completion, students should be able to demonstrate observational skills, identify appropriate schedules and environments, develop activity plans, and describe influences on the profession.

EDU 131 Child, Family, & Comm (3/0/3)
Prerequisites: None
Corequisite: None
This course covers the relationships between the families, programs for children/schools, and the community. Emphasis is placed on establishing and maintaining positive collaborative relationships with families and community resources. Upon completion, students should be able to demonstrate strategies for effectively working with diverse families and identifying and utilizing community resources.

EDU 144 Child Development I (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the theories of child development and the developmental sequences of children from conception through the pre-school years for early childhood educators. Emphasis is placed on sequences in physical/motor, social, emotional, cognitive, and language development and appropriate experiences for the young child. Upon completion, students should be able to identify developmental milestones, plan experiences to enhance development, and describe appropriate interaction techniques and environments for typical/atypical development.

EDU 145 Child Development II (3/0/3)
Prerequisites: None
Corequisites: None
This course covers theories of child development and developmental sequences of children from pre-school through middle childhood for early childhood educators. Emphasis is placed on characteristics of physical/motor, social, emotional, and cognitive/language development and appropriate experiences for children. Upon completion, students should be able to identify developmental characteristics, plan experiences to enhance development, and describe appropriate interaction techniques and environments.

EDU 146 Child Guidance (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces practical principles and techniques for developmentally appropriate guidance. Emphasis is placed on encouraging self-esteem and cultural awareness, effective com-

munication skills, and direct and indirect guidance techniques and strategies. Upon completion, students should be able to demonstrate strategies which encourage positive social interactions, promote conflict resolution, and develop self-control, self-motivation, and self-esteem in children.

EDU 147 Behavior Disorders (3/0/3)
Prerequisites: None
Corequisites: None
This course is a comprehensive study of behavior disorders encompassing characteristics, assessments, and placement alternatives. Topics include legislation, appropriate management interventions, and placement options for children with behavior disorders. Upon completion, students should be able to identify, develop, and utilize appropriate behavior management applications. *This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Education program.*

EDU 148 Learning Disabilities (4/2/5)
Prerequisites: None
Corequisites: None
This course is a comprehensive study of the characteristics, teaching strategies, assessment tools, and placement alternatives for children with learning disabilities. Topics include characteristics, causes, assessment instruments, learning strategies, and collaborative methods for children with learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with learning disabilities. *This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Education program.*

EDU 151 Creative Activities (3/0/3)
Prerequisites: None
Corequisites: None
This course covers creative learning environments, planning and implementing developmentally appropriate experiences, and developing appropriate teaching materials for the classroom. Emphasis is placed on creative activities for children in art, music, movement and physical skills, and dramatics. Upon completion, students should be able to select and evaluate developmentally appropriate learning materials and activities.

EDU 153 Health, Safety, & Nutrit (3/0/3)
Prerequisites: None
Corequisites: None
This course focuses on promoting and maintaining the health and well-being of children. Topics include health and nutritional needs, safe and healthy environments, and recognition and reporting of child abuse and neglect. Upon completion, students should be able to set up and monitor safe indoor and outdoor environments and implement a nutrition education program.

EDU 161 Intro to Exceptional Child (3/3/4)
Prerequisites: None
Corequisites: None
This course covers exceptional children as learners within the context of community, school, and family. Emphasis is placed on the legal, social, physical, political, and cultural issues relating to the analysis and teaching of exceptional children. Upon completion, students should be able to demonstrate knowledge of identification processes, mainstreaming techniques, and professional practices and attitudes.

EDU 185 Cognitive & Lang Act (3/0/3)
Prerequisites: None
Corequisites: None
This course covers methods of developing cognitive and language/communication skills in children. Emphasis is placed on planning the basic components of language and cognitive processes in developing curriculum activities. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate developmentally appropriate curriculum activities.

EDU 186 Reading & Writing Meth (3/0/3)
Prerequisites: None
Corequisites: None
This course covers concepts, resources, and methods for teaching reading and writing to school-age children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches, and instructional strategies. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate reading and writing experiences. *This course is a unique concentration requirement in the Teacher Associate concentration in the Early childhood Associate program.*

EDU 216 Foundations of Education (3/2/4)
(EDU 216 replaced EDU 116)
Prerequisites: None
Corequisites: None
This course introduces the American educational system and the teaching profession. Topics include historical and philosophical foundations of education, contemporary educational, structural, legal, and financial issues. PRAXIS I preparation and observation and participation in public school classrooms. Upon completion, students should be able to relate classroom observations to the roles of teachers and schools and the process of teacher education. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).*

EDU 221 Child with Except Needs (3/0/3)
Prerequisites: EDU 144 and EDU 145 or PSY 244 and PSY 245
Corequisites: None
This course introduces working with children with special needs. Emphasis is placed on the characteristics and assessment of children and strategies for adapting the home and classroom environment. Upon completion, students should be able to recognize atypical development, make appropriate referrals, and work collaboratively to plan, implement, and evaluate inclusion strategies.

EDU 234 Infants, Toddlers, & Twos (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the skills needed to effectively implement group care for infants, toddlers, and two-year olds. Emphasis is placed on child development and developmentally appropriate practices. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate a developmentally appropriate curriculum.

EDU 235 School-Age Dev & Prog (2/0/2)
Prerequisites: None
Corequisites: None
This course presents developmentally appropriate practices in group care for school-age children. Topics include principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for children five to twelve years of age and plan and implement age-appropriate activities.

EDU 247 Physical Disabilities (3/0/3)
Prerequisites: EDU 144 or PSY 244
Corequisites: None
This course covers characteristics, intervention strategies, adaptive procedures, and technologies for children with physical disabilities. Topics include intervention strategies, inclusive placement options, and utilization of support services for children with physical disabilities. Upon completion, students should be able to identify and utilize intervention strategies for specific disabilities and service delivery options for those disabilities. *This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Education program.*

EDU 248 Mental Retardation (2/2/3)
Prerequisites: EDU 221
Corequisites: None
This course covers the causes and assessment of mental retardation and individualized instruction and curriculum for children with mental retardation. Emphasis is placed on definition, characteristics, assessment, and educational strategies for children with mental retardation. Upon completion, students should be able to identify, assess, and plan educational intervention strategies for children with mental retardation. *This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Education program.*

EDU 250 PRAXIS I Preparation (1/0/1)
Prerequisites: None
Corequisites: None
This course is designed to prepare potential teachers for the PRAXIS I exam that is necessary to enter the field of education. Emphasis is placed on content specifications of the PRAXIS I exam, study skills and simulated examinations. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of the PRAXIS I exam.

EDU 252 Math & Sci Activities (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces discovery experiences in math and science. Topics include concepts, facts, phenomena, and skills in each area. Upon completion, students should be able to identify, plan, select materials and equipment, and implement and evaluate developmentally appropriate curriculum materials.

EDU 257 Math Methods & Mater (2/2/3)
Prerequisites: None
Corequisites: None
This course covers concepts, activities, methods, and materials for teaching mathematics in elementary through middle school grades. Topics include individual instruction, developmental skill building, manipulatives, problem solving, critical thinking, and numerical concepts. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate math experiences.

EDU 259 Curriculum Planning (3/0/3)
Prerequisites: EDU 112, 119, or 113
Corequisites: None
This course covers early childhood curriculum planning. Topics include philosophy, curriculum, indoor and outdoor environmental design, scheduling, observation and assessment, and instructional planning and evaluation. Upon completion, students should be able to assess children and curriculum; plan for daily, weekly, and long-range instruction; and design environments with appropriate equipment and supplies.

EDU 261 Early Childhood Admin I (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the policies, procedures, and responsibilities for the management of early childhood education programs. Topics include implementation of goals, principles of supervision, budgeting and financial management, and meeting the standards for a NC Child Day Care license. Upon completion, students should be able to develop program goals, explain licensing standards, determine budgeting needs, and describe effective methods of personnel supervision.

EDU 262 Early Childhood Admin II (3/0/3)
Prerequisites: EDU 261
Corequisites: None
This course provides a foundation for budgetary, financial, and personnel management of the child care center. Topics include budgeting, financial management, marketing, hiring, supervision, and professional development of a child care center. Upon completion, students should be able to formulate marketing, financial management, and fund development plans and develop personnel policies, including supervision and staff development plans.

EDU 271 Educational Technology (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the use of technology to enhance teaching and learning in all educational settings. Topics include technology concepts, instructional strategies, materials and adaptive technology for children with exceptionalities, facilitation of assessment/evaluation, and ethical issues surrounding the use of technology. Upon completion, students should be able to apply technology enhanced instructional strategies, use a variety of technology resources and demonstrate appropriate technology skills in educational environment.

EDU 275 Effective Teacher Train (2/0/2)
Prerequisites: None
Corequisites: None
This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion, students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students' time-on-task.

EDU 280 Language & Literacy Exp (3/0/3)
Prerequisites: None
Corequisites: None
This course explores the continuum of children's communication development, including verbal and written language acquisition and other forms of communication. Topics include selection of literature and other media, the integration of literacy concepts throughout the classroom environment, inclusive practices and appropriate assessments. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate literacy experiences. *This course is also available through the Virtual Learning Community (VLC).*

EDU 285 Internship Exp-School Age(1/0/1)
Prerequisites: ENG 111
Corequisites: COE 121 or COE 122
This course provides an opportunity to discuss internship experiences with peers and faculty. Emphasis is placed on evaluating and integrating practicum experiences. Upon completion, students should be able to demonstrate competence in early childhood education. *This course is a unique concentration requirement in the Teacher Associate concentration in the Early Childhood Associate program.*

EDU 291 Sel Top: CDA Credentials (1/0/1)
Prerequisites: Enrollment in program
Corequisites: None
This course provides an opportunity to explore areas of current interest in the early childhood area. Emphasis is placed on subject matter appropriate to preparing a person to work with children from ages infant through kindergarten. Upon completion students should be able to demonstrate an understanding of the principles and applications involved with early childhood education. The Child Development Associate (CDA) candidate should be able to display competence in thirteen functional areas as defined by the Council for Early Childhood Professional Recognition, Washington, DC.

EDU 293 The Whole Child (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to promote understanding of the needs and developmental stages of children. Emphasis is on giving students, parents, teachers, and professional child care providers the tools they need to foster the growth and well-being of children in their care, particularly infants, toddlers, and pre-schoolers. Upon completion, students should be able to demonstrate proper child care techniques in light of current child development theory.

ELECTRICITY

ELC 112 DC/AC Electricity (3/6/5)
Prerequisites: None
Corequisites: ELC 113
This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, and analyze simple DC/AC circuits.

ELC 113 Basic Wiring I (2/6/4)
Prerequisites: None
Corequisites: ELC 112
This course introduces the care/usage of tools and materials used in electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical blueprint reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with basic electrical installations.

ELC 114 Basic Wiring II (2/6/4)
Prerequisites: ELC 113
Corequisites: None
This course provides additional instruction in the application of electrical tools, materials, and test equipment associated with electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with electrical installations.

ELC 115 Industrial Wiring (2/6/4)
Prerequisites: ELC 113
Corequisites: None
This course covers layout, planning, and installation of wiring systems in industrial facilities. Emphasis is placed on industrial wiring methods and materials. Upon completion, students should be able to install industrial systems and equipment.

ELC 117 Motors and Controls (2/6/4)
Prerequisites: ELC 111 or ELC 112 or ELC 131
Corequisites: None
This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

ELC 118 National Electrical Code (1/2/2)
Prerequisites: ELC 112 and ELC 113
Corequisites: None
This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.

ELC 121 Electrical Estimating (1/2/2)
Prerequisites: ELC 113
Corequisites: None
This course covers the principles involved in estimating electrical projects. Topics include take-offs of materials and equipment, labor, overhead, and profit. Upon completion, students should be able to estimate simple electrical projects.

ELC 125 Diagrams and Schematics (1/2/2)
Prerequisites: None
Corequisites: None
This course covers the interpretation of electrical diagrams, schematics, and drawings common to electrical applications. Emphasis is placed on reading and interpreting electrical diagrams and schematics. Upon completion, students should be able to read and interpret electrical diagrams and schematics.

ELC 128 Intro to PLC (2/3/3)
Prerequisites: ELC 112 and ELC 117 or ELC 131
Corequisites: None
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to install PLCs and create simple programs.

ELC 131 DC/AC Circuit Analysis (4/3/5)
Prerequisites: None
Corequisites: None
This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation software, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

ELC 133 Adv Circuit Analysis (2/3/3)
Prerequisite: ELC 131
Corequisite: None
This course covers additional concepts of DC/AC electricity, the use of test equipment, and measurement techniques for electrical/electronics majors. Topics include the application of network theorems such as delta/wye transformations, Superposition Theorem, and other advanced circuit analysis principles. Upon completion, students should be able to construct and analyze DC/AC circuits, use advanced circuit analysis theorems, circuit simulators, and test equipment.

ELC 215 Electrical Maintenance (2/3/3)
Prerequisites: ELC 117
Corequisites: None
This course introduces the theory of maintenance and the skills necessary to maintain electrical equipment found in industrial and commercial facilities. Topics include maintenance theory, predictive and preventive maintenance, electrical equipment operation and maintenance, and maintenance documentation. Upon completion, students should be able to perform maintenance on electrical equipment in industrial and commercial facilities.

ELC 228 PLC Applications (2/6/4)
Prerequisites: ELC 128
Corequisites: None
This course continues the study of the programming and applications of programmable logic controllers. Emphasis is placed on advanced programming, networking, advanced I/O modules, reading and interpreting error codes, and troubleshooting. Upon completion, students should be able to program and troubleshoot programmable logic controllers.

ELC 229 Applications Project (1/3/2)
Prerequisites: ELC 112, ELC 113, or ELC 140
Corequisites: None
This course provides an individual and/or integrated team approach to a practical project as approved by the instructor. Topics include project selection and planning, implementation and testing, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented project.

ELECTRONICS

ELN 131 Semiconductor Appl (3/3/4)
Prerequisites: None
Corequisites: None
This course includes semiconductor-based devices such as diodes, bipolar transistors, FETs, thermistors, and related components . Emphasis is placed on analysis, selection, biasing, and applications in power supplies, small signal amplifiers, and switching and control circuits. Upon completion, students should be able to construct, analyze, verify, and troubleshoot discrete component circuits using appropriate techniques and test equipment.

ELN 132 Linear IC Applications (3/3/4)
Prerequisites: None
Corequisites: None
This course introduces the characteristics and applications of linear integrated circuits. Topics include op-amp circuits, differential amplifiers, instrumentation amplifiers, waveform generators, active filters, PLLs, and IC voltage regulators. Upon completion, students should be able to construct, analyze, verify, and troubleshoot linear integrated circuits using appropriate techniques and test equipment.

ELN 133 Digital Electronics (3/3/4)
Prerequisites: None
Corequisites: None
This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, MSI and LSI circuits, AD/DA conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment.

ELN 152 Fabrication Techniques (1/3/2)
Prerequisites: None
Corequisites: None
This course covers the fabrication methods required to create a prototype product from the initial circuit design. Topics include CAD, layout, sheet metal working, component selection, wire wrapping, PC board layout and construction, reverse engineering, soldering, and other related topics. Upon completion, students should be able to design and construct an electronic product with all its associated documentation.

ELN 231 Industrial Controls (2/3/3)
Prerequisite: ELC 112 or ELC 131 or ELC 140
Corequisite: None
This course introduces the fundamental concepts of solid-state control of rotating machinery and associated peripheral devices. Topics include rotating machine theory, ladder logic, electromechanical and solid state relays, motor controls, pilot devices, three-phase power systems, and other related topics. Upon completion, students should be able to interpret ladder diagrams and demonstrate an understanding of electromechanical and electronic control of rotating machinery.

ELN 232 Intro to Microprocessors (3/3/4)
Prerequisites: None
Corequisites: None
This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include assembly language programming, bus architecture, bus cycle types, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.

ELN 246 Cert Elect Tech Prep (3/0/3)
Prerequisites: None
Corequisites: None
This course covers electronic principles, theories, and concepts. Emphasis is placed on those items covered in the Certified Electronic Technician examination. Upon completion, students should be able to demonstrate competence in electronics and be prepared for the Certified Electronic Technician examination..

ENGLISH

ENG 060 Speaking English Well (2/0/2)
Prerequisite: None
Corequisite: None
This course is designed to improve conversational skills. Emphasis is placed on practice using fluent standard spoken English. Upon completion, students should be able to converse comfortably in a variety of situations.

ENG 070 Basic Language Skills (2/2/3)
Prerequisite: None
Corequisite: None
This course introduced the fundamentals of standard written English. Emphasis is placed on effective word choice, recognition of sentences and sentence parts, and basic usage. Upon completion, students should be able to generate a variety of sentence types that clearly express ideas.

ENG 080 Writing Foundations (3/2/4)
Prerequisites: With a grade of C or better in ENG 070 or ENG 075
Corequisites: None
This course introduces the writing process and stresses effective sentences. Emphasis is placed on applying the conventions of written English, reflecting standard usage and mechanics in structuring a variety of sentences. Upon completion, students should be able to write correct sentences and a unified, coherent paragraph. *This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.*

ENG 090 Composition Strategies (3/0/3)
Prerequisites: With a grade of C of better in ENG 080 or ENG 085
Corequisites: None
This course provides practice in the writing process and stresses effective paragraphs. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay. *This course satisfies the developmental reading and writing prerequisite for ENG 111 and ENG 111A.*

ENG 090A Comp Strategies Lab (0/2/1)
Prerequisites: With a grade of C or better in ENG 080 or ENG 085
Corequisites: ENG 090
This writing lab is designed to practice the skills introduced in ENG 090. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay.

ENG 101 Applied Communications I (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. *This is a diploma-level course.*

ENG 102 App Communications II (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to enhance writing and speaking skills for the workplace. Emphasis is placed on generating short writings such as job application documents, memoranda, and reports and developing interpersonal communication skills with employees and the public. Upon completion, students should be able to prepare effective, short, and job-related written and oral communications. *This is a diploma-level course.*

ENG 111 Expository Writing (3/0/3)
Prerequisites: With a grade of C or better in ENG 090 and RED 090; or ENG 095
Corequisites: None
This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 111A Expository Writing Lab (0/2/1)
Prerequisites: With a grade of C or better in ENG 090 and RED 090; or ENG 095
Corequisites: ENG 111
This writing laboratory is designed to apply the skills introduced in ENG 111. Emphasis is placed on the editing and revision components of the writing process. Upon completion, students should be able to apply those skills in the production of final drafts in ENG 111.

ENG 112 Argument-Based Res. (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course, the second in a series of two, introduces research techniques, documentation styles, and argumentative strategies. Emphasis is placed on analyzing data and incorporating research findings into documented argumentative essays and research projects. Upon completion, students should be able to summarize, paraphrase, interpret, and synthesize information from primary and secondary sources using standard research format and style. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 113 Literature-Based Research (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 114 Prof Research & Report (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 115 Oral Communication (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the basic principles of oral communication in both small group and public settings. Emphasis is placed on the components of the communication process, group decision-making, and public address. Upon completion, students should be able to demonstrate the principles of effective oral communication in small group and public settings.

ENG 125 Creative Writing I (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ENG 126 Creative Writing II (3/0/3)
Prerequisites: ENG 125
Corequisites: None
This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ENG 131 Introduction to Literature (3/0/3)
Prerequisites: ENG 111
Corequisites: ENG 112, ENG 113, or ENG 114
This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 132 Introduction to Drama (3/0/3)
Prerequisites: ENG 111
Corequisites: ENG 112 or ENG 113 or ENG 114
This course provides intensive study of drama as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of drama. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of drama. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ENG 138 English Grammar (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course focuses on traditional, structural, and transformational grammar. Emphasis is placed on syntax, grammatical terminology, prescriptive, and descriptive grammar. Upon completion, students should be able to demonstrate an understanding of grammatical theory and application.

ENG 231 American Literature I (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 232 American Literature II (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 233 Major American Writers (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 241 British Literature I (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 242 British Literature II (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 243 Major British Writers (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 253 The Bible as Literature (3/0/3)
Prerequisites: ENG 112, 113 or 114
Corequisites: None
This course introduces the Hebrew Old Testament and the Christian New Testament as works of literary art. Emphasis is placed on the Bible's literary aspects including history, composition, structure, and cultural contexts. Upon completion, students should be able to identify and analyze selected books and passages using appropriate literary conventions. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ENG 261 World Literature I (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 262 World Literature II (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

GEOGRAPHY

GEO 111 World Region Geography (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the regional concept which emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).*

GEOLOGY

GEL 120 Physical Geology (3/2/4)
Prerequisites: None
Corequisites: None
This course provides a study of the structure and composition of the earth's crust. Emphasis is placed on weathering, erosional and depositional processes, mountain building forces, rocks and minerals, and structural changes. Upon completion, students should be able to explain the structure, composition, and formation of the earth's crust. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

GRAPHIC ARTS

GRA 151 Computer Graphics I (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces the use of hardware and software for production and design in graphic arts. Topics include graphical user interface and current industry uses such as design, layout, typography, illustration, and imaging for production. Upon completion, students should be able to understand and use the computer as a fundamental design and production tool.

GRA 152 Computer Graphics II (1/3/2)
Prerequisites: GRA 151
Corequisites: None
This course covers advanced design and layout concepts utilizing illustration, page layout, and imaging software in graphic arts. Emphasis is placed on enhancing and developing the skills that were introduced in GRA 151. Upon completion, students should be able to select and utilize appropriate software for design and layout solutions.

GRA 153 Computer Graphics III (1/3/2)
Prerequisites: GRA 152
Corequisites: None
This course is a continuation of GRA 152. Emphasis is placed on advanced computer graphics hardware and software applications. Upon

ENG 111 Expository Writing (3/0/3)
Prerequisites: With a grade of C or better in ENG 090 and RED 090; or ENG 095
Corequisites: None
This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 111A Expository Writing Lab (0/2/1)
Prerequisites: With a grade of C or better in ENG 090 and RED 090; or ENG 095
Corequisites: ENG 111
This writing laboratory is designed to apply the skills introduced in ENG 111. Emphasis is placed on the editing and revision components of the writing process. Upon completion, students should be able to apply those skills in the production of final drafts in ENG 111.

ENG 112 Argument-Based Res. (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course, the second in a series of two, introduces research techniques, documentation styles, and argumentative strategies. Emphasis is placed on analyzing data and incorporating research findings into documented argumentative essays and research projects. Upon completion, students should be able to summarize, paraphrase, interpret, and synthesize information from primary and secondary sources using standard research format and style. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 113 Literature-Based Research (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 114 Prof Research & Report (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.*

ENG 115 Oral Communication (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the basic principles of oral communication in both small group and public settings. Emphasis is placed on the components of the communication process, group decision-making, and public address. Upon completion, students should be able to demonstrate the principles of effective oral communication in small group and public settings.

ENG 125 Creative Writing I (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ENG 126 Creative Writing II (3/0/3)
Prerequisites: ENG 125
Corequisites: None
This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

ENG 131 Introduction to Literature (3/0/3)
Prerequisites: ENG 111
Corequisites: ENG 112, ENG 113, or ENG 114
This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 132 Introduction to Drama (3/0/3)
Prerequisites: ENG 111
Corequisites: ENG 112 or ENG 113 or ENG 114
This course provides intensive study of drama as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of drama. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of drama. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ENG 138 English Grammar (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course focuses on traditional, structural, and transformational grammar. Emphasis is placed on syntax, grammatical terminology, prescriptive, and descriptive grammar. Upon completion, students should be able to demonstrate an understanding of grammatical theory and application.

ENG 231 American Literature I (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 232 American Literature II (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 233 Major American Writers (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 241 British Literature I (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 242 British Literature II (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 243 Major British Writers (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 253 The Bible as Literature (3/0/3)
Prerequisites: ENG 112, 113 or 114
Corequisites: None
This course introduces the Hebrew Old Testament and the Christian New Testament as works of literary art. Emphasis is placed on the Bible's literary aspects including history, composition, structure, and cultural contexts. Upon completion, students should be able to identify and analyze selected books and passages using appropriate literary conventions. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

ENG 261 World Literature I (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

ENG 262 World Literature II (3/0/3)
Prerequisites: ENG 112, ENG 113, or ENG 114
Corequisites: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

GEOGRAPHY

GEO 111 World Region Geography (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the regional concept which emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).*

GEOLOGY

GEL 120 Physical Geology (3/2/4)
Prerequisites: None
Corequisites: None
This course provides a study of the structure and composition of the earth's crust. Emphasis is placed on weathering, erosional and depositional processes, mountain building forces, rocks and minerals, and structural changes. Upon completion, students should be able to explain the structure, composition, and formation of the earth's crust. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

GRAPHIC ARTS

GRA 151 Computer Graphics I (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces the use of hardware and software for production and design in graphic arts. Topics include graphical user interface and current industry uses such as design, layout, typography, illustration, and imaging for production. Upon completion, students should be able to understand and use the computer as a fundamental design and production tool.

GRA 152 Computer Graphics II (1/3/2)
Prerequisites: GRA 151
Corequisites: None
This course covers advanced design and layout concepts utilizing illustration, page layout, and imaging software in graphic arts. Emphasis is placed on enhancing and developing the skills that were introduced in GRA 151. Upon completion, students should be able to select and utilize appropriate software for design and layout solutions.

GRA 153 Computer Graphics III (1/3/2)
Prerequisites: GRA 152
Corequisites: None
This course is a continuation of GRA 152. Emphasis is placed on advanced computer graphics hardware and software applications. Upon

completion, students should be able to demonstrate competence in selection and utilization of appropriate software for specialized applications.

GRA 154 Computer Graphics IV (1/3/2)
Prerequisites: GRA 153
Corequisites: None
This course is a continuation of GRA 153. Emphasis is placed on advanced techniques using a variety of hardware and software applications to produce complex projects. Upon completion, students should be able to use electronic document production tools.

GRAPHIC DESIGN

GRD 110 Typography I (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the history and mechanics of type and its application to layout and design. Topics include typographic fundamentals, anatomy, measurements, composition, identification, and terminology. Upon completion, students should be able to demonstrate proficiency in design application, analysis, specification, and creation of typographic elements.

GRD 131 Illustration I (1/3/2)
Prerequisites: ART 131 or DES 125 or GRD 121
Corequisites: None
This course introduces the application of rendering techniques to create illustrations. Emphasis is placed on controlling various media, methods, surfaces, design problems, and the appropriate media selection process. Upon completion, students should be able to produce quality illustrations from conception through finished artwork.

GRD 141 Graphic Design I (2/4/4)
Prerequisites: None
Corequisites: None
This course introduces the conceptualization process used in visual problem solving. Emphasis is placed on learning the principles of design and on the manipulation and organization of elements. Upon completion, students should be able to apply design principles and visual elements to projects.

GRD 142 Graphic Design II (2/4/4)
Prerequisites: DES 135 or GRD 141 ART 121
Corequisites: None
This course covers the application of visual elements and design principles in advertising and graphic design. Topics include creation of various designs, such as logos, advertisements, posters, outdoor advertising, and publication design. Upon completion, students should be able to effectively apply design principles and visual elements to projects.

GRD 151 Computer Design Basics (1/4/3)
Prerequisites: None
Corequisites: None
This course covers designing and drawing with various types of software applications for advertising and graphic design. Emphasis is placed on creative and imaginative use of space, shapes, value, texture, color, and typography to provide effective solutions to advertising and graphic design problems. Upon completion, students should be able to use the computer as a creative tool.

GRD 241 Graphic Design III (2/4/4)
Prerequisites: DES 136 or GRD 142
Corequisites: None
This course is an advanced exploration of various techniques and media for advertising and grphic design. Emphasis is placed on advanced concepts and solutions to complex and challenging graphic design problems. Upon completion, students should be able to demonstrate competence and professionalism in visual problem solving.

GRD 242 Graphic Design IV (2/4/4)
Prerequisites: GRD 241
Corequisites: None
This course is a continuation of GRD 241. Emphasis is placed on using advanced media techniques, concepts, strategies, and professionalism in all aspects of design. Upon completion, students should be able to conceptualize, create, and produce designs for reproduction.

GRD 280 Portfolio Design (2/4/4)
Prerequisites: GRD 242
Corequisites: None
This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a resume and self-promotional materials, and interview techniques. Upon completion, students should be able to prepare and professionally present an effective portfolio and related self-promotional materials.

HEALTH

HEA 110 Personal Health/Wellness (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Leaning Community (VLC).*

HEA 112 First Aid & CPR (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the basics of emergency first aid treatment. Topics include rescue breathing, CPR, first aid for choking and bleeding, and other first aid procedures. Upon completion, students should be able to demonstrate skills in providing emergency care for the sick and injured until medical help can be obtained. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HEA 120 Community Health (3/0/3)
Prerequisites: None
Corequisites: None
This course provides information about contemporary community health and school hygiene issues. Topics include health education and current information about health trends. Upon completion, students should be able to recognize and devise strategies to prevent today's community health problems. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HISTORY

HIS 121 Western Civilization I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces western civilization from pre-history to the early modern era. Topics include ancient Greece, Rome, and Christian institutions of the Middle Ages and the emergence of national monarchies in western Europe. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early western civilization. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

HIS 122 Western Civilization II (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces western civilization from the early modern era to the present. Topics include the religious wars, the Industrial Revolution, World Wars I and II, and the Cold War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern western civilization. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

HIS 131 American History I (3/0/3)
Prerequisites: None
Corequisites: None
This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

HIS 132 American History II (3/0/3)
Prerequisites: None
Corequisites: None
This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

HIS 141 Genealogy & Local History (3/0/3)
Prerequisites: None
Corequisites: None
This course explores the role of the local or family historian. Emphasis is placed on historical or genealogical research techniques including a survey of local, state, and national archival resources. Upon completion, students should be able to conduct genealogical research and do a major research project on local or family history. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HIS 162 Women and History (3/0/3)
Prerequisites: None
Corequisites: None
This course surveys the experience of women in historical perspective. Topics include the experiences and contributions of women in culture, politics, economics, science, and religion. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural contributions of women in history. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HIS 163 The World Since 1945 (3/0/3)
Prerequisites: None
Corequisites: None
This course surveys world developments since the end of World War II. Topics include the Cold War, nationalism, colonialism, the Third World, the arms race, and global capitalism and regionalism. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the world since 1945. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HIS 221 African-American History (3/0/3)
Prerequisites: None
Corequisites: None
This course covers African-American history from the Colonial period to the present. Topics include African origins, the slave trade, the Civil War, Reconstruction, the Jim Crow era, the civil rights movement, and contributions of African Americans. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the history of African Americans. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HIS 226 The Civil War (3/0/3)
Prerequisites: None
Corequisites: None
This course examines the social, political, economic, and ideological forces that led to the Civil War and Reconstruction. Topics include regional conflicts and sectionalism, dissolution of the Union, military campaigns, and the War's socioeconomic impact, aftermath, and consequences. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the United States during the era of the Civil War. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HIS 232 History of the Old West (3/0/3)
Prerequisites: None
Corequisites: None
This course surveys the development of the western United States. Emphasis is placed on Native American cultures, Manifest Destiny, conflicts on the frontier, and subsequent developments. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the western United States. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HIS 236 North Carolina History (3/0/3)
Prerequisites: None
Corequisites: None
This course is a study of geographical, political, economic, and social conditions existing in North Carolina from America's discovery to the present. Topics include native and immigrant backgrounds; colonial, antebellum, and reconstruction periods; party politics; race relations; and the transition from an agrarian to an industrial economy. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in North Carolina. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

HORTICULTURE

HOR 112 Landscape Design I (2/3/3)
Prerequisites: None
Corequisites: None
This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis, and common elements of good design, plant material selection, and proper plant utilization. Upon completion, students should be able to read, plan, and draft a landscape design.

HOR 124 Nursery Operations (2/3/3)
Prerequisites: None
Corequisites: None
This course covers nursery site and crop selection, cultural practices, and production and marketing methods. Topics include site considerations, water availability, equipment, irrigation, fertilization, containers, media, and pest con-

trol. Upon completion, students should be able to design and implement a nursery operation and grow and harvest nursery crops.

HOR 138 Greenhouse Veg Prod (1/2/2)
Prerequisites: None
Corequisites: None
This course covers the production of greenhouse vegetable crops. Emphasis is placed on controlling the greenhouse environment, production principles, insect and disease control, and harvesting and marketing the crops. Upon completion, students should be able to produce and market a greenhouse vegetable crop.

HOR 160 Plant Materials I (2/2/3)
Prerequisites: None
Corequisites: None
This course covers identification, culture, characteristics, and use of plants. Emphasis is placed on nomenclature, identification, growth requirements, cultural requirements, soil preferences, and landscape applications. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials

HOR 162 Applied Plant Science (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the basic concepts of botany as they apply to horticulture. Topics include nomenclature, physiology, morphology, and anatomy as they apply to plant culture. Upon completion, students should be able to apply the basic principles of botany to horticulture.

HOR 164 Hort Pest Management (2/2/3)
Prerequisites: None
Corequisites: None
This course covers the identification and control of plant pests including insects, diseases, and weeds. Topics include pest identification and chemical regulations, safety, and pesticide application. Upon completion, students should be able to meet the requirements for North Carolina Commercial Pesticide Ground Applicators license.

HOR 166 Soils & Fertilizers (2/2/3)
Prerequisites: None
Corequisites: None
This course covers the physical and chemical properties of soils and soil fertility and management. Topics include soil formation, classification, physical and chemical properties, testing, fertilizer application, and other amendments. Upon completion, students should be able to analyze, evaluate, and properly amend soils/media.

HOR 168 Plant Propagation (2/2/3)
Prerequisites: None
Corequisites: None
This course is a study of sexual and asexual reproduction of plants. Emphasis is placed on seed propagation, grafting, stem and root propagation, micro-propagation, and other propagation techniques. Upon completion, students should be able to successfully propagate ornamental plants.

HUMANITIES

HUM 110 Technology and Society (3/0/3)
Prerequisites: None
Corequisites: None
This course considers technological change from historical, artistic, and philosophical perspectives and its effect on human needs and concerns. Emphasis is placed on the causes and consequences of technological change. Upon completion, students should be able to critically evaluate the implications of technology. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 115 Critical Thinking (3/0/3)
Prerequisites: With a grade of C or better in ENG 095 or RED 090 and ENG 090
Corequisites: None
This course introduces the use of critical thinking skills in the context of human conflict. Emphasis is placed on evaluating information, problem solving, approaching cross-cultural perspectives, and resolving controversies and dilemmas. Upon completion, students should be able to demonstrate orally and in writing the use of critical thinking skills in the analysis of appropriate texts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course may meet the SACS humanities requirement for AAS degree programs. This course is also available through the Virtual Learning Community (VLC).*

HUM 120 Cultural Studies (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the distinctive features of a particular culture. Topics include art, history, music, literature, politics, philosophy, and religion. Upon completion, students should be able to appreciate the unique character of the study culture. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 121 The Nature of America (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an interdisciplinary survey of the American cultural, social, and political experience. Emphasis is placed on the multicultural character of American society, distinctive qualities of various regions, and the American political system. Upon completion, students should be able to analyze significant cultural, social, and political aspects of American life. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 122 Southern Culture (3/0/3)
Prerequisites: None
Corequisites: None
This course explores the major qualities that make the South a distinct region. Topics include music, politics, literature, art, religion, race relations, and the role of social class in historical and contemporary contexts. Upon completion, students should be able to identify the characteristics that distinguish Southern culture. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities fine arts.*

HUM 123 Appalachian Culture (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an interdisciplinary study of the unique features of Appalachian culture. Topics include historical, political, sociological, psychological, and artistic features which distinguish this region. Upon completion, students should be able to demonstrate a broad-based awareness and appreciation of Appalachian culture. *This course has been approved to satisfy the Comprehensive Articulation Agreement premajor and/or elective course requirement.*

HUM 130 Myth in Human Culture (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an in-depth study of myths and legends. Topics include the varied sources of myths and their influence on the individual and society within diverse cultural contexts. Upon completion, students should be able to demonstrate a general familiarity with myths and a broad-based understanding of the influence of myths and legends on modern culture. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 160 Introduction to Film (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the fundamental elements of film artistry and production. Topics include film styles, history, and production techniques, as well as the social values reflected in film art. Upon completion, students should be able to critically analyze the elements covered in relation to selected films. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 220 Human Values and Mean (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

HUM 230 Leadership Development (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations.

HYDRAULICS

HYD 110 Hydraulic Pneumatics I (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the basic components and functions of hydraulic and pneumatic systems. Topics include standard symbols, pumps, control valves, control assemblies, actuators, FRL, maintenance procedures, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting.

INDUSTRIAL SCIENCE

ISC 112 Industrial Safety (2/0/2)
Prerequisites: None
Corequisites: None
This course introduces the principles of industrial safety. Emphasis is placed on industrial safety and OSHA and environmental regulations. Upon completion, students should be able to demonstrate knowledge of a safe working environment.

INFORMATION SYSTEMS SECURITY

SEC 110 Security Concepts (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

JOURNALISM

JOU 110 Intro to Journalism (3/0/3)
Prerequisites: None
Corequisites: None
This course presents a study of journalistic news, feature, and sports writing. Emphasis is placed on basic news writing techniques and on related legal and ethical issues. Upon completion, students should be able to gather, write, and edit news, feature, and sports articles.

LEGAL EDUCATION

LEX 110 Intro Paralegal Study (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the paralegal profession and the legal system and an emphasis is placed on the role of professional and legal ethics. Topics include regulation, ethics, case analysis, legal reasoning, career opportunities, professional organizations, terminology and other related topics. Upon completion, the student should be able to understand the role of a paralegal and identify the skills, knowledge and ethics required or paralegals.

LEX 120 Legal Research/Writing I (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the techniques of legal research and writing. Emphasis is placed on locating, analyzing, applying, and updating sources of law; effective legal writing, including proper citation; and the use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course.

LEX 121 Legal Research/Writing II (2/2/3)
Prerequisites: LEX 120
Corequisites: None
This course covers advanced topics in legal research and writing. Topics include more complex legal issues and assignments involving preparation of legal memos, briefs, and other documents and the advanced use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course.

LEX 130 Civil Injuries (3/0/3)
Prerequisites: None
Corequisites: None
This course covers traditional tort concepts and the evolving body of individual rights created by statute. Topics include intentional and non-intentional torts with emphasis on negligence, strict liability, civil rights, workplace and environmental liability, remedies, and damages. Upon completion, students should be able to recognize, explain, and evaluate elements of civil injuries and related defenses.

LEX 140 Civil Litigation I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the structure of the legal system and the rules governing civil litigation. Topics include jurisdiction state and federal rules of civil procedure and evidence. Upon completion, students should be able to assist an attorney in pre-litigation matters and preparation of pleadings and motions.

LEX 141 Civil Litigation II (2/2/3)
Prerequisites: LEX 140
Corequisites: None
This course covers the paralegal's role in the civil litigation process. Topics include investigation, interviewing, pleadings, motions, discovery, and trial and appellate procedures. Upon completion, students should be able to assist an attorney in preparing, directing, and organizing documents for civil litigation.

LEX 150 Commercial Law (2/2/3)
Prerequisites: None
Corequisites: None
This course covers legally enforceable agreements, forms of organization, and selected portions of the Uniform Commercial Code. Topics include drafting and enforcement of contracts, leases, and related documents and selection and implementation of business organization forms, sales, and commercial papers. Upon completion, students should be able to apply the elements of a contract, prepare various business documents, and understand the role of commercial paper.

LEX 160 Criminal Law & Procedure (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces substantive criminal law and procedural rights of the accused. Topics include elements of state/federal crimes, defenses, constitutional issues, pre-trial and trial process, and other related topics. Upon completion, students should be able to explain elements of specific crimes and assist an attorney in preparing a criminal case.

LEX 192 Sel. Topics: Law Office (1/2/2)
Prerequisite: OST 131
Corequisite: None
This course provides an opportunity to explore areas of current interest in the paralegal program. Emphasis is placed on subject matter appropriate to legal studies. Upon completion, students should be able to demonstrate an understanding of filing, telephone usage and general office procedures.

LEX 210 Real Property I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the study of real property law. Topics include the distinction between real and personal property, various estates, mechanics of conveyance and encumbrance, recordation, special proceedings, and other related topics. Upon completion, students should be able to identify estates, forms of deeds, requirements for recording, and procedures to enforce rights to real property.

LEX 211 Real Property II (1/4/3)
Prerequisites: LEX 210
Corequisites: None
This course continues the study of real property law relating to title examination and preparation of closing documents. Topics include use of courthouse and other public records in title examination and preparation of documents required in real estate transactions and closings. Upon completion, students should be able to plot/draft a description, perform complete title examination, draft closing documents including title insurance forms, and prepare disbursement reconciliation.

LEX 240 Family Law (3/0/3)
Prerequisites: None
Corequisites: None
This course covers laws governing domestic relations. Topics include marriage, separation, divorce, child custody, support, property division, adoption, domestic violence, and other related topics. Upon completion, students should be able to interview clients, gather information, and draft documents related to family law.

LEX 250 Wills, Estates, & Trusts (2/2/3)
Prerequisites: None
Corequisites: None
This course covers various types of wills, trusts, probate, estate administration, and intestacy. Topics include types of wills and execution requirements, caveats and dissents, intestate succession, inventories and accountings, distribution and settlement, and other related topics. Upon completion, students should be able to draft simple wills, prepare estate forms, understand administration of estates including taxation, and explain terms regarding trusts.

LEX 260 Bankruptcy & Collections (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an overview of the laws of bankruptcy and the rights of creditors and debtors. Topics include bankruptcy procedures and estate management, attachment, claim and delivery, repossession, foreclosure, collection, garnishment, and post-judgment collection procedure. Upon completion, students should be able to prepare and file bankruptcy forms, collection letters, statutory liens, and collection of judgments.

LEX 270 Law Office Mgt/Tech (1/2/2)
Prerequisites: OST 136
Corequisites: None
This course provides an overview of law office management and organization. Topics include office forms, filing systems, billing/time keeping, computer systems, calendar systems, library administration, case management, office/personnel procedures, ethics, and technology. Upon completion, students should be able to establish and maintain various law office systems, monitor case progress, and supervise non-lawyer personnel.

LEX 287 CLA Review Seminar (2/0/2)
Prerequisites: LEX 210
Corequisites: None
This course is designed to prepare students for voluntary national certification sponsored by the National Association of Legal Assistants to demonstrate significant competencies in paralegalism. Topics include Communications, Ethics, Human Relations, Interviewing Techniques, Judgment and Analytical Analysis, Legal Research, Legal Terminology, General Law and nine tested specialty areas of law. Upon completion, students should be able to demonstrate that they are eligible to take the NALA's Certified Legal Assistant Exam.

MACHINING

MAC 111 Machining Technology I (2/12/6)
Prerequisites: None
Corequisites: None
This course introduces machining operations as they relate to the metalworking industry. Topics include machine shop safety, measuring tools, lathes, drilling machines, saws, milling machines, bench grinders, and layout instruments. Upon completion, students should be able to safely perform the basic operations of measuring, layout, drilling, sawing, turning, and milling.

MAC 112 Machining Technology II (2/12/6)
Prerequisites: MAC 111
Corequisites: None
This course provides additional instruction and practice in the use of precision measuring tools, lathes, milling machines, and grinders. Emphasis is placed on setup and operation of machine tools including the selection and use of work holding devices, speeds, feeds, cutting tools, and coolants. Upon completion, students should be able to perform basic procedures on precision grinders and advanced operations of measuring, layout, drilling, sawing, turning, and milling.

MAC 113 Machining Tech III (2/12/6)
Prerequisites: MAC 112
Corequisites: None
This course provides an introduction to advanced and special machining operations. Emphasis is placed on working to specified tolerances with special and advanced setups. Upon completion, students should be able to produce a part to specifications.

MAC 114 Intro to Metrology (2/0/2)
Prerequisites: None
Corequisites: None
This course introduces the care and use of precision measuring instruments. Emphasis is placed on the inspection of machine parts and use of a wide variety of measuring instruments. Upon completion, students should be able to demonstrate the correct use of measuring instruments.

MAC 121 Intro to CNC (2/0/2)
Prerequisites: None
Corequisites: None
This course introduces the concepts and capabilities of computer numerical control machine tools. Topics include setup, operation, and basic applications. Upon completion, students should be able to explain operator safety, machine protection, data input, program preparation, and program storage.

MAC 122 CNC Turning (1/3/2)
Prerequisite: None
Corequisite: None
This course introduced the programming setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC turning centers.

MAC 124 CNC Milling (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces the manual programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC machining centers.

MAC 151 Machining Calculations (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces basic calculations as they relate to machining occupations. Emphasis is placed on basic calculations and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.

MAC 152 Adv Machining Calc (1/2/2)
Prerequisites: None
Corequisites: None
This course combines mathematical functions with practical machine shop applications and problems. Emphasis is placed on gear ratios, lead screws, indexing problems, and their applications in the machine shop. Upon completion, students should be able to calculate solutions to machining problems

MAC 214 Machining Tech IV (2/12/6)
Prerequisites: MAC 112
Corequisites: None
This course provides advanced applications and practical experience in the manufacturing of complex parts. Emphasis is placed on inspection, gauging, and the utilization of machine tools. Upon completion, students should be able to manufacture complex assemblies to specifications.

MAC 215 Machining Technology V (2/12/6)
Prerequisites: MAC 214
Corequisites: None
This course provides an opportunity to apply skills acquired in previous course work. Emphasis is placed on the production of parts using modern machining and gauging techniques. Upon completion, students should be able to demonstrate problem-solving skills as they relate to advanced machining.

MASONRY

MAS 140 Intro to Masonry (1/2/2)
Prerequisites: None
Corequisites: CAR 113
This course introduces basic principles and practices of masonry. Topics include standard tools, materials, and practices used in basic masonry and other related topics. Upon completion, students should be able to demonstrate an understanding of masonry and be able to use basic masonry techniques.

MATHEMATICS

MAT 050 Basic Math Skills (3/2/4)
Prerequisite: None
Corequisite: None
This course is designed to strengthen basic math skills. Topics include properties, rounding, estimating, comparing, converting, and computing whole numbers, fractions, and decimals. Upon completion, students should be able to perform basic computations and solve relevant mathematical problems.

MAT 060 Essential Mathematics (3/2/4)
Prerequisites: With a grade of C or better in MAT 050
Corequisites: None
This course is a comprehensive study of mathematical skills which should provide a strong mathematical foundation to pursue further study. Topics include principles and applications of decimals, fractions, percents, ratio and proportion, order of operations, geometry, measurement, and elements of algebra and statistics. Upon completion, students should be able to perform basic computations and solve relevant, multi-step mathematical problems using technology where appropriate.

MAT 070 Introductory Algebra (3/2/4)
Prerequisites: With a grade of C or better in MAT 060
Corequisites: RED 080 or ENG 085
This course establishes a foundation in algebraic concepts and problem solving. Topics include signed numbers, exponents, order of operations, simplifying expressions, solving linear equations and inequalities, graphing, formulas, polynomials, factoring, and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.

MAT 080 Intermediate Algebra (3/2/4)
Prerequisites: With a grade of C or better in MAT 070
Corequisites: RED 080 or ENG 085
This course continues the study of algebraic concepts with emphasis on applications. Topics include factoring; rational expressions; rational exponents; rational, radical, and quadratic equations; systems of equations; inequalities; graphing; functions; variations; complex numbers; and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.

MAT 090 Accelerated Algebra (3/2/4)
Prerequisites: With a grade of C or better in MAT 060
Corequisites: RED 080 or ENG 085
This course covers algebraic concepts with emphasis on applications. Topics include those covered in MAT 070 and MAT 080. Upon completion, students should be able to apply algebraic concepts in problem solving using appropriate technology.

MAT 101 Applied Mathematics I (2/2/3)
Prerequisites: With a grade of C or better in MAT 060
Corequisites: None
This course is a comprehensive review of arithmetic with basic algebra designed to meet the needs of certificate and diploma programs. Topics include arithmetic and geometric skills used in measurement, ratio and proportion, exponents and roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study. *This course is intended for certificate and diploma programs.*

MAT 102 Applied Mathematics II (2/2/3)
Prerequisites: MAT 101
Corequisites: None
This course introduces the concepts of right triangle trigonometry and geometry with emphasis on applications to problem solving. Topics include the basic definitions and properties of plane and solid geometry, area and volume, and right triangle trigonometry. Upon completion, students should be able to solve applied prob-

lems both independently and collaboratively. *This course is intended for certificate and diploma programs.*

MAT 110 Mathematical Measurement (2/2/3)
Prerequisites: With a grade of C or better in MAT 070
Corequisites: None
This course provides an activity-based approach to utilizing, interpreting, and communicating data in a variety of measurement systems. Topics include accuracy, precision, conversion, and estimation within metric, apothecary, and avoirdupois systems; ratio and proportion; measures of central tendency and dispersion; and charting of data. Upon completion, students should be able to apply proper techniques to gathering, recording, manipulating, analyzing, and communicating data.

MAT 115 Mathematical Models (2/2/3)
Prerequisites: With a grade of C or better in MAT 070
Corequisites: None
This course develops the ability to utilize mathematical skills and technology to solve problems at a level found in non-mathematics-intensive programs. Topics include applications to percent, ratio and proportion, formulas, statistics, functional notation, linear functions and their groups, probability, sampling techniques, scatter plots, and modeling. Upon completion, students should be able to solve practical problems, reason and communicate with mathematics, and work confidently, collaboratively, and independently.

MAT 121 Algebra/Trigonometry I (2/2/3)
Prerequisites: With a grade of C or better in ENG 070, MAT 070
Corequisites: None
This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include simplification, evaluation, and solving of algebraic and radical functions; complex numbers; right angle trigonometry; systems of equations; and the use of technology. Upon completion, students should be able to demonstrate an understanding of the use of mathematics and technology to solve problems and analyze and communicate results.

MAT 122 Algebra/Trigonometry II (2/2/3)
Prerequisites: MAT 121
Corequisites: None
This course extends the concepts covered in MAT 121 to include additional topics in algebra, function analysis, trigonometry, and systems of equations. Topics include translation and scaling of functions, Sine Law, Cosine Law, complex numbers, vectors, statistics, and systems of equations. Upon completion, students should be able to demonstrate an understanding of the use of technology to solve problems and to analyze and communicate results.

MAT 140 Survey of Mathematics (3/0/3)
Prerequisites: With a grade of C or better in MAT 070
Corequisites: None
This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry, topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 141 Mathematical Concepts I (3/0/3)
Prerequisites: With a grade of C or better in MAT 080 or MAT 090
Corequisites: None
This course is the first of a two course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on sets, logic, number bases, elementary number theory, introductory algebra, measurement including metrics, and problem solving. Upon completion students should be able to communicate orally and in writing these basic mathematical concepts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 142 Mathematical Concepts II (3/0/3)
Prerequisites: MAT 141
Corequisites: None
This course is the second of a two course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on probability, statistics, functions, introductory geometry, and mathematics of finance. Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 145 Analytical Math (3/0/3)
Prerequisites: With a grade of C or better in MAT 080
Corequisites: None
This course is designed to develop problem-solving and reasoning skills by the study of selected areas of mathematics. Topics include elementary and Boolean algebra, sets, logic, number theory, numeration systems, probability, statistics, and linear programming. Upon completion, students should be able to apply logic and other mathematical concepts. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

MAT 151 Statistics I (3/0/3)
Prerequisites: With a grade of C or better in MAT 080 or MAT 090
Corequisites: None
This course provides a project-based approach to the study of basic probability, descriptive and inferential statistics, and decision making. Emphasis is placed on measures of central tendency and dispersion, correlation, regression, discrete and continuous probability distributions, quality control, population parameter estimation, and hypothesis testing. Upon completion, students should be able to describe important characteristics of a set of data and draw inferences about a population from sample data. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 151A Statistics I Lab (0/2/1)
Prerequisites: With a grade of C or better in MAT 080 or MAT 090
Corequisites: MAT 151
This course is a laboratory for MAT 151. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

MAT 161 College Algebra (3/0/3)
Prerequisites: With a grade of C or better in MAT 080 or MAT 090
Corequisites: None
This course provides an integrated technological approach to algebraic topics used in problem solving. Emphasis is placed on equations and inequalities; polynomial, rational, exponential and logarithmic functions; and graphing and data analysis/modeling. Upon completion, students should be able to choose an appropriate model to fit a data set and use the model for analysis and prediction. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 162 College Trigonometry (3/0/3)
Prerequisites: MAT 161
Corequisites: None
This course provides an integrated technological approach to trigonometry and its applications. Topics include trigonometric ratios, right triangles, oblique triangles, trigonometric functions, graphing, vectors, and complex numbers. Upon completion, students should be able to apply the above principles of trigonometry to problem solving and communication. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 167 Discrete Mathematics (3/0/3)
Prerequisites: MAT 121 or MAT 161
Corequisites: None
This course is a study of discrete mathematics with emphasis on applications. Topics include number systems, combinations/permutations, mathematical logic/proofs, sets/counting, Boolean algebra, mathematical induction, trees/graphs, and algorithms. Upon completion, students should be able to demonstrate competence in the topics covered. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

MAT 171 Precalculus Algebra (3/0/3)
Prerequisites: With a grade of C or better in MAT 080 or MAT 090
Corequisites: None
This course is the first of two courses designed to emphasize topics which are fundamental to the study of calculus. Emphasis is placed on equations and inequalities, functions (linear, polynomial, rational), systems of equations and inequalities, and parametric equations. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and predictions. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics.*

MAT 172 Precalculus Trigonometry (3/0/3)
Prerequisites: MAT 171
Corequisites: None
This course is the second of two courses designed to emphasize topics which are fundamental to the study of calculus. Emphasis is placed on properties and applications of transcendental functions and their graphs, right and oblique triangle trigonometry, conic sections, and vectors. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics.*

MAT 175 Precalculus (4/0/4)
Prerequisites: High School Algebra III/Trigonometry
Corequisites: None
This course provides an intense study of the topics which are fundamental to the study of calculus. Emphasis is placed on functions and their graphs with special attention to polynomial, rational, exponential, logarithmic and trigonometric functions, and analytic trigonometry. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 191 Sel Topics in Math (1/0/1)
Prerequisites: MAT 271
Corequisites: None
This course provides an opportunity to explore areas of current interest in mathematics. Emphasis is placed on geometry and algebra from an advanced standpoint. Upon completion, students should be able to demonstrate an understanding of foundations of geometry, Euclidean geometry, transformations, non-Euclidean geometry, fractals, and algebraic structures.

MAT 252 Statistics II (3/0/3)
Prerequisites: MAT 151 and either MAT 121 or MAT 161
Corequisites: None
This course provides a technology-based treatment of multiple sample inferential statistics. Emphasis is placed on two sample hypothesis tests and confidence intervals, linear and multiple regression, analysis of variance, experimental design, and non-parametric techniques. Upon completion, students should be able to draw statistical inferences on multiple sample data taken from business and health, social, natural, and applied sciences. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

MAT 252A Statistics II Lab (0/2/1)
Prerequisites: MAT 151 and either MAT 121 or MAT 161
Corequisites: MAT 252
This course is a laboratory for MAT 252. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively.

MAT 263 Brief Calculus (3/0/3)
Prerequisites: MAT 161
Corequisites: None
This course introduces concepts of differentiation and integration and their applications to solving problems; the course is designed for students needing one semester of calculus. Topics include functions, graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 271 Calculus I (3/2/4)
Prerequisites: MAT 172 or MAT 175
Corequisites: None
This course covers in depth the differential calculus portion of a three-course calculus sequence. Topics include limits, continuity, derivatives, and integrals of algebraic and transcendental functions of one variable, with applications. Upon completion, students should be able to apply differentiation and integration techniques to algebraic and transcendental functions. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 272 Calculus II (3/2/4)
Prerequisites: MAT 271
Corequisites: None
This course provides a rigorous treatment of integration and is the second calculus course in a three-course sequence. Topics include applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to use integration and approximation techniques to solve application problems. *This course has been approved to satisfy the Comprehensive Articulation Agreement general edu-*

cation core requirement in natural sciences/mathematics.

MAT 273 Calculus III (3/2/4)
Prerequisites: MAT 272
Corequisites: None
This course covers the calculus of several variables and is third calculus course in a three-course sequence. Topics include functions of several variables, partial derivatives, multiple integrals, solid analytical geometry, vector-valued functions, and line and surface integrals. Upon completion, students should be able to solve problems involving vectors and functions of several variables. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

MAT 280 Linear Algebra (3/0/3)
Prerequisites: MAT 271
Corequisites: None
This course provides a study of linear algebra topics with emphasis on the development of both abstract concepts and applications. Topics include vectors, systems of equations, matrices, determinants, vector spaces, linear transformations in two or three dimensions, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts and appropriate use of linear algebra models to solve application problems. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

MAT 285 Differential Equations (3/0/3)
Prerequisites: MAT 272
Corequisites: None
This course provides an introduction to ordinary differential equations with an emphasis on applications. Topics include first-order, linear higher-order, and systems of differential equations; numerical methods; series solutions; eigenvalues and eigenvectors; Laplace transforms; and Fourier series. Upon completion, students should be able to use differential equations to model physical phenomena, solve the equations, and use the solutions to analyze the phenomena. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

MECHANICAL

MEC 111 Machine Processes I (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces safety, hand tools, machine processes, measuring instruments, and the operation of machine shop equipment. Topics include safety, measuring tools, and the basic setup and operation of lathes, milling machines, drill presses, and saws. Upon completion, students should be able to manufacture a simple part to a specified tolerance.

MEC 130 Mechanisms (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the purpose and action of various mechanical devices. Topics include cams, cables, gear trains, differentials, screws, belts, pulleys, shafts, levers, lubricants, and other devices used to transmit or control signals. Upon completion, students should be able to analyze, maintain, and troubleshoot the components of mechanical systems.

MEC 142 Physical Metallurgy (1/2/2)
Prerequisites: None
Corequisites: None
This course covers the heat treating of metals. Emphasis is placed on the effects of hardening, tempering, and annealing on the structure and physical properties of metals. Upon completion, students should be able to heat treat materials.

MEC 160 Mechanical Industrial Sys (1/3/2)
Prerequisites: None
Corequisites: None
This course covers mechanical components used in industrial machine operation. Emphasis is placed on mechanical drives, belts, gears, couplings, electrical drives, and other related topics. Upon completion, students should be able to demonstrate an understanding of industrial machines and be able to maintain this equipment.

MEC 211 Engineer Mats & Testing (3/3/4)
Prerequisites: None
Corequisites: None
This course introduces the electrical, physical, and mechanical properties of materials and appropriate test methods and equipment. Topics include ferrous and non-ferrous metals, plastics, and other engineering materials. Upon completion, students should be able to solve problems regarding material selection and processing based on knowledge of the behavior and characteristics of engineering materials.

MEC 231 Comp-Aided Manuf I (1/4/3)
Prerequisites: None
Corequisites: None
This course introduces computer-aided manufacturing (CAM) applications and concepts. Emphasis is placed on developing/defining part geometry and the processing of information needed to manufacture parts. Upon completion students should be able to demonstrate skills in defining part geometry, program development, and code generation using CAM software. Basic setup and operation of computer numerical control turning and machining centers will also be covered.

MEC 251 Statics (2/2/3)
Prerequisites: MAT 121 *(PHY 131 recommended)*
Corequisites: None
This course covers the concepts and principles of statics. Topics include systems of forces and moments on structures in two- and three-dimensions in equilibrium. Upon completion, students should be able to analyze forces and moments on structures.

MEC 252 Strength of Materials (2/2/3)
Prerequisites: MEC 251
Corequisites: None
This course covers the principles and concepts of stress analysis. Topics include centroids, moments of inertia, shear/mount diagrams, and stress and strain. Upon completion, students should be able to perform a stress and strain analysis on structural components.

MEC 265 Fluid Mechanics (2/2/3)
Prerequisites: MAT 121 *(PHY 131 recommended)*
Corequisites: None
This course covers the physical behavior of fluids and fluid systems. Topics include fluid statics and dynamics, laminar and turbulent flow, Bernoulli's Equation, components, applications, and other related topics. Upon completion, students should be able to apply fluid power principles to practical applications.

MEC 275 Engineering Mechanisms (2/2/3)
Prerequisites: MAT 121, DFT 151, and PHY 131 or PHY 151
Corequisites: None
This course covers plane motion and devices used to generate plane motion. Topics include analysis of displacement, velocity, acceleration, gears, cams, and other mechanical systems. Upon completion, students should be able to graphically and mathematically analyze a plane motion system.

MEDICAL ASSISTING

MED 110 Orient to Med Asst (1/0/0/1)
Prerequisites: None
Corequisites: None
This course covers the history of medicine and the role of the medical assistant in the health care setting. Emphasis is placed on professionalism, communication, attitude, behaviors, and duties in the medical environment. Upon completion, students should be able to project a positive attitude and promote the profession of medical assisting.

MED 116 Intro to Anatomy & Phys (3/2/0/4)
Prerequisites: None
Corequisites: None
This course introduces basic anatomy and physiology. Emphasis is placed on the relationship between body structure and function and the procedures common to health care. Upon completion, students should be able to identify body system components and functions relating this knowledge to the delivery of health care.

MED 118 Medical Law and Ethics (2/0/0/2)
Prerequisites: None
Corequisites: None
This course covers legal relationships of physicians and patients, contractual agreements, professional liability, malpractice, medical practice acts, informed consent, and bioethical issues. Emphasis is placed on legal terms, professional attitudes, and the principles and basic concepts of ethics and laws involved in providing medical services. Upon completion, students should be able to meet the legal and ethical responsibilities of a multi-skilled health professional. *This course is also available through the Virtual Learning Community (VLC).*

MED 121 Medical Term I (3/0/0/3)
Prerequisites: None
Corequisites: OST 131
This course introduces prefixes, suffixes, and word roots used in the language of medicine. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.

MED 122 Medical Term II (3/0/0/3)
Prerequisites: MED 121
Corequisites: None
This course is the second in a series of medical terminology courses. Topics include medical vocabulary and the terms that relate to the anatomy, physiology, pathological conditions, and treatment of selected systems. Upon completion, students should be able to pronounce, spell, and define medical terms as related to selected body systems and their pathological disorders.

MED 130 Adm Office Proc I (1/2/0/2)
Prerequisites: OST 131
Corequisites: None
This course introduces medical office administrative procedures. Topics include appointment processing, written and oral communications, medical records, patient orientation, and safety. Upon completion, students should be able to perform basic administrative skills within the medical environment.

MED 131 Adm Office Proc II (1/2/0/2)
Prerequisites: MED 130
Corequisites: None
This course provides medical office procedures in both economic and management skills. Topics include physical plant maintenance, equipment and supplies, liability coverage, medical economics, and introductory insurance procedures. Upon completion, students should be able to manage the economics of the medical office and supervise personnel.

MED 134 Medical Transcription (2/2/0/3)
Prerequisites: MED 121, OST 131
Corequisites: None
This course provides the basic knowledge, understanding, and skills required to complete medical reports and transcribe medical dictation. Emphasis is placed on correct punctuation, capitalization, and spelling. Upon completion, students should be able to demonstrate competence in medical transcription.

MED 140 Exam Room Proc I (3/4/0/5)
Prerequisites: MED 122
Corequisites: None
This course provides instruction in clinical examining room procedures. Topics include asepsis, infection control, assisting with exams and treatment, patient education, preparation and administration of medications, EKG, vital signs, and medical emergencies. Upon completion, students should be able to demonstrate competence in exam room procedures.

MED 150 Laboratory Proc I (3/4/0/5)
Prerequisites: MED 122
Corequisites: None
This course provides instruction in basic lab techniques used by the medical assistant. Topics include lab safety, quality control, collecting and processing specimens, performing selective tests, phlebotomy, screening and follow-up of test results, and OSHA/CLIA regulations. Upon completion, students should be able to perform basic lab tests/skills based on course topics.

MED 260 MED Clin Externship (0/0/15/5)
Prerequisites: MED 122, MED 180, MED 272, MED 276 and successful completion of first four semesters of study.
Corequisites: None
This course provides the opportunity to apply clinical, laboratory, and administrative skills in a medical facility. Emphasis is placed on enhancing competence in clinical and administrative skills necessary for comprehensive patient care and strengthening professional communications and interactions. Upon completion, students should be able to function as an entry-level health care professional.

MED 262 Clinical Perspectives (1/0/0/1)
Prerequisites: None
Corequisites: MED 260
This course is designed to explore personal and occupational responsibilities of the practicing medical assistant. Emphasis is placed on problems encountered during externships and development of problem-solving skills. Upon completion, students should be able to demonstrate courteous and diplomatic behavior when solving problems in the medical facility.

MED 272 Drug Therapy (3/0/0/3)
Prerequisites: MED 122
Corequisites: None
This course focuses on major drug groups, including their side effects, interactions, methods of administration, and proper documentation. Emphasis is placed on the theory of drug administration. Upon completion, students should be able to identify, spell, recognize side effects of, and document the most commonly used medications in a physician's office.

MED 276 Patient Education (1/2/0/2)
Prerequisites: None
Corequisites: None
This course is designed to provide communication skills, basic education principles, and knowledge of available community resources and to apply this knowledge to the clinical setting. Emphasis is placed on identifying appropriate community resources, developing patient education materials, and perfecting written and oral communication skills. Upon completion, students should be able to instruct, communicate effectively, and act as a liaison between the patient and community agencies.

MARKETING AND RETAILING

MKT 120 Principles of Marketing (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces principles and problems

of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

MKT 220 Advert and Sales Prom (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the elements of advertising and sales promotion in the business environment. Topics include advertising and sales promotion appeals, selection of media, use of advertising and sales promotion as a marketing tool, and means of testing effectiveness. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application.

MAINTENANCE

MNT 110 Intro to Maint Procedures (1/3/2)
Prerequisites: None
Corequisites: None
This course covers basic maintenance fundamentals for power transmission equipment. Topics include equipment inspection, lubrication, alignment, and other scheduled maintenance procedures. Upon completion, students should be able to demonstrate knowledge of accepted maintenance procedures and practices according to current industry standards.

MNT 240 Indust Equip Troubleshoot (1/3/2)
Prerequisites: ELC 112 or ELC 131
Corequisites: None
This course covers the various service procedures, tools, instruments, and equipment necessary to analyze and repair typical industrial equipment. Emphasis is placed on electro-mechanical and fluid power equipment troubleshooting and repair, including common techniques and procedures. Upon completion, students should be able to troubleshoot and repair industrial equipment.

MUSIC

MUS 110 Music Appreciation (3/0/3)
Prerequisites: None
Corequisites: None
This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

MUS 210 History of Rock Music (3/0/3)
Prerequisites: None
Corequisites: None
This course is a survey of Rock music from the early 1950's to the present. Emphasis is placed on musical groups, soloists, and styles related to the evolution of this idiom and on related historical and social events. Upon completion, students should be able to identify specific styles and to explain the influence of selected performers within their respective eras. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

NETWORKING OPERATING SYSTEMS

NOS 110 Operating Syst Concepts (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is placed on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems.

NOS 120 Linux/UNIX Single User (2/2/3)
Prerequisites: NOS 110
Corequisites: None
This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.

NOS 130 Windows Single User (2/2/3)
Prerequisites: NOS 110
Corequisites: None
This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/ optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.

NOS 220 Linux/UNIX Admin I (2/2/3)
Prerequisites: NOS 120
Corequisites: None
This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS client and DHCP client configuration, NFS, SMB/Samba, Configure X, Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring and attaching a new Linux workstation to an existing network.

NOS 230 Windows Admin I (2/2/3)
Prerequisites: NOS 130
Corequisites: None
This course covers the installation and administration of a Windows Server network operating system. Topics include managing and maintaining physical and logical devices, access to resources, the server environment, managing users, computers, and groups, and Managing/ Implementing Disaster Recovery. Upon completion, students should be able to manage and maintain a Windows Server environment.

NOS 231 Windows Admin II (2/2/3)
Prerequisites: NOS 230
Corequisites: None
This course covers implementing, managing, and maintaining a Windows Server network infrastructure. Topics include implementing, managing, and maintaining IP addressing, name resolution, network security, routing and remote access, and managing a network infrastructure. Upon completion, students should be able to manage and maintain a Windows Server environment

NETWORKING TECHNOLOGY

NET 110 Networking Concepts (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/ IP Protocols.

NET 125 Networking Basics (1/4/3)
Prerequisites: None
Corequisites: None
This course introduces the networking field. Emphasis is placed on network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/ IP Protocols.

NET 126 Routing Basics (1/4/3)
Prerequisites: NET 125
Corequisites: None
This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.

NET 225 Routing & Switching I (1/4/3)
Prerequisites: NET 126
Corequisites: None
This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in pre-requisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.

NET 226 Routing & Switching II (1/4/3)
Prerequisites: NET 225
Corequisites: None
This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol.

NET 240 Network Design (3/0/3)
Prerequisites: NET 110 or NET 125
Corequisites: None
This course covers the principles of the design of LANs and WANs. Topics include network architecture, transmission systems, traffic management, bandwidth requirements, Internet working devices, redundancy, and broad-band versus base-band systems. Upon completion, students should be able to design a network to meet specified business and technical requirements.

NET 289 Networking Project (1/4/3)
Prerequisites: None
Corequisites: NET 226
This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation.

NURSING

NUR 101 Pract Nurs I (7/6/6/11)
Prerequisites: Admission to PN program
Corequisites: NUR 117
This course introduces concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, legal/ethical/professional issues, wellness/illness patterns, and basic nursing skills. Upon completion, students should be able to demonstrate beginning understanding of nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span.

NUR 102 Pract Nurs II (8/0/12/12)
Prerequisites: NUR 101 & NUR 117
Corequisites: None
This course includes more advanced concepts as related to the practical nurse's caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span.

NUR 103 Pract Nurs III (6/0/12/10)
Prerequisites: NUR 102
Corequisites: NUR 118
This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span.

NUR 107A LPN Refresher Theory (9/0/0/9)
Prerequisites: Previous licensure as a Licensed Practical Nurse
Corequisites: None
This refresher course is designed to provide an independent didactic review for the previously licensed practical nurse whose license has lapsed. Emphasis is placed on common medical-surgical conditions and nursing interventions, including mental health principles, pharmacological concepts, and safe clinical practice. Upon completion, students will be eligible to apply for reinstatement of licensure.

NUR 107B LPN Refresher Clinical (0/0/9/3)
Prerequisites: NUR 107A
Corequisites: None
This refresher course is designed to provide an independent didactic review for the previously licensed practical nurse whose license has lapsed. Emphasis is placed on common medical-surgical conditions and nursing interventions, including mental health principles, pharmacological concepts, and safe clinical practice. Upon completion, students will be able to apply for reinstatement of licensure. *Clinical and lab experiences will be provided in a medical/surgical clinical site.*

NUR 115 Fund of Nurs (2/3/6/5)
Prerequisites: Admission to ADN program
Corequisites: NUR 117, NUR 133
This course introduces concepts basic to beginning nursing practice. Emphasis is placed on the application of the nursing process to provide and manage care as a member of the discipline of nursing. Upon completion, students should be able to demonstrate beginning competence in caring for individuals with common alterations of health.

NUR 115B Fund of Nursing B (2/0/2)
Prerequisites: Admission into the Evening Option for Licensed Practical Nurses Only
Corequisites: None
This course introduces concepts basic to beginning nursing practice. Emphasis is placed on the application of the nursing process to pro-

vide and manage care as a member of the discipline of nursing. Upon completion, students should be able to demonstrate beginning competence in caring for individuals with common alterations of health. *This course is restricted to LPN-ADN students only.*

NUR 117 Pharmacology (1/3/0/2)
Prerequisites: None
Corequisites: None
This course introduces information concerning sources, effects, legalities, and the safe use of medications as therapeutic agents. Emphasis is placed on nursing responsibility, accountability, and application of the nursing process regarding drug therapy. Upon completion, students should be able to compute dosages and administer medication safely.

NUR 118 Nutrition/Diet Therapy (2/0/0/2)
Prerequisites: None
Corequisites: None
This course covers the six nutrient categories and provides an overview of diet recommendations for promotion and maintenance of health. Topics include the food pyramid recommendations for individuals across the life span, energy balance, and special dietary modifications for common alterations in health. Upon completion, students should be able to complete a nutritional assessment, analyze diets, and recommend dietary adaptations to meet individual health needs.

NUR 125A Maternal-Child Nursing (Maternal) (2.5/1.5/3/4)
Prerequisites: NUR 135
Corequisites: None
This course introduces nursing concepts related to the delivery of nursing care for the expanding family. Emphasis is placed on utiziling the nursing process as a framework for managing/providing nursing care to individuals and families along the wellness-illness continuum. Upon completion, students should be able to utilize the nursing process to deliver nursing care to mothers, infants, children, and families.

NUR 125C Maternal-Child Nurs (Child) (2.5/1.5/3/4)
Prerequisites: NUR 135
Corequisites: None
This course introduces nursing concepts related to the delivery of nursing care for the expanding family. Emphasis is placed on utiziling the nursing process as a framework for managing/providing nursing care to individuals and families along the wellness-illness continuum. Upon completion, students should be able to utilize the nursing process to deliver nursing care to mothers, infants, children, and families.

NUR 125B Maternal-Child Nurs B (3/3/4)
Prerequisites: NUR 185
Corequisites: NUR 255
This course introduces nursing concepts related to the delivery of nursing care for the expanding family. Emphasis is placed on utiziling the nursing process as a framework for managing/providing nursing care to individuals and families along the wellness-illness continuum. Upon completion, students should be able to utilize the nursing process to deliver nursing care to mothers, infants, children, and families. This course is restricted to LPN/ADN students only. *Clinical experience will be provided in area health care facilities and selected community agencies.*

NUR 133 Nursing Assessment (2/3/0/3)
Prerequisites: None
Corequisites: NUR 115, NUR 117
This course provides theory and application experience for performing nursing assessment of individuals across the life span. Emphasis is placed on interviewing and physical assessment techniques and documentation of findings appropriate for nursing. Upon completion, students should be able to complete a health history and perform a noninvasive physical assessment.

NUR 135 Adult Nurs I (5/3/9/9)
Prerequisites: NUR 115, NUR 117, NUR 133
Corequisites: NUR 118
This course introduces concepts related to the nursing care of individuals experiencing acute and chronic alterations in health. Emphasis is placed on utilizing the nursing process as a framework for providing and managing nursing care to individuals along the wellness-illness continuum. Upon completion, students should be able to apply the nursing process to individuals experiencing acute and chronic alterations in health.

NUR 135B Adult Nurs I B (4/6/6)
Prerequisites: NUR 115B
Corequisites: None
This course introduces concepts related to the nursing care of individuals experiencing acute and chronic alterations in health. Emphasis is placed on utilizing the nursing process as a framework for providing and managing nursing care to individuals along the wellness-illness continuum. Upon completion, students should be able to apply the nursing process to individuals experiencing acute and chronic alterations in health. *This course is restricted to LPN/ADN students only. Clinical experience will be provided in area health care facilities and selected community agencies.*

NUR 185 Mental Health Nursing (3/0/6/5)
Prerequisites: NUR 135B
Corequisites: None
This course includes concepts related to the nursing care of individuals experiencing alterations in social and psychological functioning. Emphasis is placed on utilizing the nursing process to provide and manage nursing care for individuals with common psychiatric disorders or mental health needs. Upon completion, students should be able to apply psychosocial theories in the nursing care of individuals with psychiatric/mental health needs. *This course is restricted to LPN/ADN students only. Clinical experiences will be provided in area health care facilities and selected community agencies.*

NUR 233 Leadership in Nursing (2/0/0/2)
Prerequisites: None
Corequisites: None
This course is designed to enhance nursing leadership and management skills in a variety of health care settings. Emphasis is placed on leadership styles, supervision, delegation, leadership and management theories, conflict resolution, change, and time management. Upon completion, students should be able to apply leadership and management skills in a variety of health care settings.

NUR 235 Adult Nurs II (4/3/15/10)
Prerequisites: None
Corequisites: NUR 233
This course provides expanded concepts related to nursing care for individuals experiencing common complex alterations in health. Emphasis is placed on the nurse's role as a member of a multidisciplinary team and as a manager of care for a group of individuals. Upon completion, students should be able to provide comprehensive nursing care for groups of individuals with common complex alterations in health.

NUR 235B Adult Nursing II B (4/6/6)
Prerequisites: NUR 185, NUR 255
Corequisites: NUR 233
This course provides expanded concepts related to nursing care for individuals experiencing common complex alterations in health. Emphasis is placed on the nurse's role as a member of a multidisciplinary team and as a manager of care for a group of individuals. Upon completion, students should be able to provide comprehensive nursing care for groups of individuals with common complex alterations in health. *This course is restricted to LPN-ADN students only. Clinical experiences will be provided in area health care facilities and selected community agencies.*

NUR 255 Professional Issues (3/0/0/3)
Prerequisites: None
Corequisites: None
This course explores basic concepts of practice in the management of patient care in a complex health care system. Emphasis is placed on professional, legal, ethical, and political issues and management concepts. Upon completion, students should be able to articulate professional and management concepts.

OFFICE SYSTEMS TECHNOLOGY

OST 131 Keyboarding (1/2/2)
Prerequisites: None
Corequisites: None
This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to key at an acceptable speed and accuracy level using the touch system.

OST 134 Text Entry & Formatting (2/2/3)
Prerequisites: OST 131
Corequisites: None
This course is designed to provide the skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce mailable documents.

OST 135 Adv Text Entry & Format (3/2/4)
Prerequisites: OST 134
Corequisites: None
This course is designed to incorporate computer application skills in the generation of office documents. Emphasis is placed on the production of letters, manuscripts, business forms, tabulation, legal documents, and newsletters. Upon completion, students should be able to make independent decisions regarding planning, style, and method of presentation.

OST 136 Word Processing (1/2/2)
Prerequisites: OST 134
Corequisites: None
This course introduces word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment.

OST 137 Office Software Appl. (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the concepts and functions of software that meets the changing needs of the community. Emphasis is placed on the terminology and use of software through a hands-on approach. Upon completion, students should be able to use software in a business environment.

OST 138 Advanced Software Appl (2/2/3)
Prerequisites: OST 137
Corequisites: None
This course develops proficiency in the utilization of software applications used in business offices through a hands-on approach. Emphasis is placed on in-depth usage of software to create a variety of documents applicable to current business environments. Upon completion, students should be able to master the skills required to design documents that can be customized using the latest software applications.

OST 148 Med Coding Billing & Insu (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces CPT and ICD coding as they apply to medical insurance and billing. Emphasis is placed on accuracy in coding, forms preparation, and posting. Upon completion, students should be able to describe the steps of the total billing cycle and explain the importance of accuracy. *This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.*

OST 149 Med Legal Issues (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the complex legal, moral, and ethical issues involved in providing healthcare services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior. *This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.*

OST 164 Text Editing Applications (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text.

OST 181 Intro to Office Systems (2/2/3)
Prerequisites: OST 134, OST 137
Corequisites: OST 136

This course introduces the skills and abilities needed in today's office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today's offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.

OST 184 Records Management (1/2/2)
Prerequisites: None
Corequisites: None
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system.

OST 220 Notetaking (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to develop efficient notetaking skills through the use of the alphabet, abbreviations, and other shortcuts. Emphasis is placed on taking accurate notes and building vocabulary. Upon completion, students should be able to take notes and transcribe from office dictation, class lectures, and meetings and record accurate telephone messages.

OST 223 Machine Transcription I (1/2/2)
Prerequisites: OST 164, OST 136
Corequisites: None
This course covers the use of transcribing machines to produce mailable documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe documents into mailable copy.

OST 243 Med Office Simulation (2/2/3)
Prerequisites: OST 148
Corequisites: None
This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections. *This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.*

OST 244 Med Docum Production (1/2/2)
Prerequisites: OST 134
Corequisites: None
This course provides production-level skill development in processing medical documents. Emphasis is placed on producing mailable documents through the use of medical-related materials. Upon completion, students should be able to perform competently in preparing accurate, correctly formatted, and usable documents.

OST 286 Professional Development (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multicultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.

OST 289 Office Systems Mgmt (2/2/3)
Prerequisites: OST 164, OST 181
Corequisites: None
This course provides a capstone course for the office professional. Topics include administrative office procedures, imaging, communication techniques, ergonomics, and equipment utilization. Upon completion, students should be able to function proficiently in a changing office environment.

PHYSICAL EDUCATION

PED 110 Fit and Well for Life (1/2/2)
Prerequisites: None
Corequisites: None
This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health-related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 111 Physical Fitness I (0/3/1)
Prerequisites: None
Corequisites: None
This course provides an individualized approach to physical fitness utilizing the five major components. Emphasis is placed on the scientific basis for setting up and engaging in personalized physical fitness programs. Upon completion, students should be able to set up and implement an individualized physical fitness program. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 112 Physical Fitness II (0/3/1)
Prerequisites: PED 111
Corequisites: None
This course is an intermediate-level fitness class. Topics include specific exercises contributing to fitness and the role exercise plays in developing body systems. Upon completion, students should be able to implement and evaluate an individualized physical fitness program. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 113 Aerobics I (0/3/1)
Prerequisites: None
Corequisites: None
This course introduces a program of cardiovascular fitness involving continuous, rhythmic exercise. Emphasis is placed on developing cardiovascular efficiency, strength, and flexibility and on safety precautions. Upon completion, students should be able to select and implement a rhythmic aerobic exercise program. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 114 Aerobics II (0/3/1)
Prerequisites: PED 113
Corequisites: None
This course provides a continuation of a program of cardiovascular fitness involving rhythmic exercise. Emphasis is placed on a wide variety of aerobic activities which include cardiovascular efficiency, strength, and flexibility. Upon completion, students should be able to participate in and design a rhythmic aerobic exercise routine. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 117 Weight Training I (0/3/1)
Prerequisites: None
Corequisites: None
This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 118 Weight Training II (0/3/1)
Prerequisites: PED 117
Corequisites: None
This course covers advanced levels of weight training. Emphasis is placed on meeting individual training goals and addressing weight training needs and interests. Upon completion, students should be able to establish and implement an individualized advanced weight training program. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 119 Circuit Training (0/3/1)
Prerequisites: None
Corequisites: None
This course covers the skills necessary to participate in a developmental fitness program. Emphasis is placed on the circuit training method which involves a series of conditioning timed stations arranged for maximum benefit and variety. Upon completion, students should be able to understand and appreciate the role of circuit training as a means to develop fitness. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 120 Walking for Fitness (0/3/1)
Prerequisites: None
Corequisites: None
This course introduces fitness through walking. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to participate in a recreational walking program. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 128 Golf-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course emphasizes the fundamentals of golf. Topics include the proper grips, stance, alignment, swings for the short and long game, putting, and the rules and etiquette of golf. Upon completion, students should be able to perform the basic golf shots and demonstrate a knowledge of the rules and etiquette of golf. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 129 Golf-Intermediate (0/2/1)
Prerequisites: PED 128
Corequisites: None
This course covers the more advanced phases of golf. Emphasis is placed on refining the fundamental skills and learning more advanced phases of the games such as club selection, trouble shots, and course management. Upon completion, students should be able demonstrate the knowledge and ability to play a recreational round of golf. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 130 Tennis-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course emphasizes the fundamentals of tennis. Topics include basic strokes, rules, etiquette, and court play. Upon completion, students should be able to play recreational tennis. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 131 Tennis-Intermediate (0/2/1)
Prerequisites: PED 130
Corequisites: None
This course emphasizes the refinement of playing skills. Topics include continuing the development of fundamentals, learning advanced serves, and strokes and pace and strategies in singles and doubles play. Upon completion, students should be able to play competitive tennis. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 137 Badminton (0/2/1)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of badminton. Emphasis is placed on the basics of serving, clears, drops, drives, smashes, and the rules and strategies of singles and doubles. Upon completion, students should be able to apply these skills in playing situations. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 142 Lifetime Sports (0/2/1)
Prerequisites: None
Corequisites: None
This course is designed to give an overview of a variety of sports activities. Emphasis is placed on the skills and rules necessary to participate in a variety of lifetime sports. Upon completion, students should be able to demonstrate an awareness of the importance of participating in lifetime sports activities. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 143 Volleyball-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of volleyball. Emphasis is placed on the basics of serving, passing, setting, spiking, blocking, and the rules and etiquette of volleyball. Upon completion, students should be able to participate in recreational volleyball. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 144 Volleyball-Intermediate (0/2/1)
Prerequisites: PED 143
Corequisites: None
This course covers more advanced volleyball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to participate in competitive volleyball. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 145 Basketball-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of basketball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational basketball. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 146 Basketball-Intermediate (0/2/1)
Prerequisites: PED 145
Corequisites: None
This course covers more advanced basketball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play basketball at a competitive level. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 148 Softball (0/2/1)
Prerequisites: None
Corequisites: None
This course introduces the fundamental skills and rules of softball. Emphasis is placed on proper techniques and strategies for playing softball. Upon completion, students should be able to participate in recreational softball. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 150 Baseball/Beginning (0/3/1)
Prerequisites: None
Corequisites: None
This course covers the fundamentals of baseball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational baseball. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 151 Baseball/Intermediate (0/3/1)
Prerequisites: PED 150
Corequisites: None
This course covers more advanced baseball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play baseball at a competitive level. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 152 Swimming-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course is designed for non-swimmers and beginners. Emphasis is placed on developing confidence in the water, learning water safety, acquiring skills in floating, and learning elementary strokes. Upon completion, students should be able to demonstrate safety skills and be able to tread water, back float, and use the crawl stroke for 20 yards. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 154 Swimming for Fitness (0/2/1)
Prerequisites: PED 152
Corequisites: None
This course introduces lap swimming, aquacises, water activities, and games. Emphasis is placed on increasing cardiovascular efficiency through aquatic exercise. Upon completion, students should be able to develop an individualized

aquatic fitness program. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 160 Canoeing-Basic (0/2/1)
Prerequisites: PED 152
Corequisites: None
This course provides basic instruction for the beginning canoeist. Emphasis is placed on safe and correct handling of the canoe and rescue skills. Upon completion, students should be able to demonstrate basic canoeing, safe-handling, and self-rescue skills. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 161 Canoeing-Rivers (0/2/1)
Prerequisites: PED 160
Corequisites: None
This course provides practice in the basic skills of river and whitewater canoeing. Emphasis is placed on river running, safety, and care of equipment. Upon completion, students should be able to demonstrate navigation in a moving current, canoe safety, and self-rescue skills. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 170 Backpacking (0/2/1)
Prerequisites: None
Corequisites: None
This course covers the proper techniques for establishing a campsite, navigating in the wilderness, and planning for an overnight trip. Topics include planning for meals, proper use of maps and compass, and packing and dressing for extended periods in the outdoors. Upon completion, students should be able to identify quality backpacking equipment, identify the principles of no-trace camping, and successfully complete a backpacking experience. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 171 Nature Hiking (0/2/1)
Prerequisites: None
Corequisites: None
This course provides instruction on how to equip and care for oneself on the trail. Topics include clothing, hygiene, trail ethics, and necessary equipment. Upon completion, students should be able to successfully participate in nature trail hikes. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 181 Snow Skiing-Beginning (0/2/1)
Prerequisites: None
Corequisites: None
This course introduces the fundamentals of snow skiing. Topics include basic techniques, safety, and equipment involved in snow skiing. Upon completion, students should be able to ski a down slope, enter and exit a ski lift, and perform basic maneuvers on skis. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 182 Snow Skiing Intermediate(0/2/1)
Prerequisites: PED 181
Corequisites: None
This course is designed to further develop snow skiing skills. Topics include selection and care of equipment, parallel skiing and turns, christies, advanced jumps, trail skiing, and slalom racing. Upon completion, students should be able to ski on varying terrains and snow conditions with control and safety. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PED 252 Officiating/Bsball/Sfball (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the rules and techniques for sports officiating in baseball and softball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in baseball and softball. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course.*

PED 256 Coaching Baseball (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the theory and methods of coaching baseball. Emphasis is placed on rules, game strategies, and selected techniques of coaching baseball. Upon completion, students should be able to demonstrate competent coaching skills in baseball. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PHILOSOPHY

PHI 215 Philosophical Issues (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critique the philosophical components of an issue. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

PHI 240 Introduction to Ethics (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on utilitarianism, rule-based ethics, existentialism, relativism versus objectivism, and egoism. Upon completion, students should be able to apply various ethical theories to individual moral issues such as euthanasia, abortion, crime and punishment, and justice. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

PHYSICS

PHY 110 Conceptual Physics (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a conceptually-based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studies. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PHY 110A Conceptual Physics Lab (0/2/1)
Prerequisites: None
Corequisites: PHY 110
This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PHY 121 Applied Physics I (3/2/4)
Prerequisites: With a grade of C or better in MAT 070
Corequisites: None
This algebra-based course introduces fundamental physical concepts as applied to industrial and service technology fields. Topics include systems of units, problem-solving methods, graphical analyses, vectors, motion, forces, Newton's laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

PHY 122 Applied Physics II (3/2/4)
Prerequisites: None
Corequisites: None
This algebra-based course introduces fundamental physical concepts as applied to industrial and service technology fields. Emphasis is placed on systems of units, problem-solving methods, graphical analysis, static electricity, AC and DC circuits, magnetism, transformers, AC and DC motors, and generators. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

PHY 131 Physics-Mechanics (3/2/4)
Prerequisites: MAT 121 or MAT 161
Corequisites: None
This algebra/trigonometry-based course introduces fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem-solving methods, graphical analysis, vectors, motion, forces, Newton's laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields.

PHY 151 College Physics I (3/2/4)
Prerequisites: MAT 161 or MAT 171
Corequisites: None
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PHY 152 College Physics II (3/2/4)
Prerequisites: PHY 151
Corequisites: None
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PHY 251 General Physics I (3/3/4)
Prerequisites: MAT 271
Corequisites: MAT 272
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PHY 252 General Physics II (3/3/4)
Prerequisites: MAT 272 and PHY 251
Corequisites: None
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.*

PLUMBING

PLU 110 Modern Plumbing (4/15/9)
Prerequisites: None
Corequisites: None
This course introduces the tools, equipment, and materials associated with the plumbing industry. Topics include safety, use and care of tools, recognition and assembly of fittings and pipes, and other related topics. Upon completion, students should be able to safely assemble various pipes and fittings in accordance with state code requirements.

PLU 111 Intro to Basic Plumbing (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces basic plumbing tools, materials, and fixtures. Topics include standard tools, materials, and fixtures used in basic plumbing systems and other related topics. Upon completion, students should be able to demonstrate an understanding of a basic plumbing system.

POLITICAL SCIENCE

POL 110 Intro Political Science (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

POL 120 American Government (3/0/3)
Prerequisites: None
Corequisites: None
This course is a study of the origins, development, structure, and functions of American national government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy formation. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

POL 130 State & Local Govern (3/0/3)
Prerequisites: None
Corequisites: None
This course includes state and local political institutions and practices in the context of American federalism. Emphasis is placed on procedural and policy differences as well as political

issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PSYCHOLOGY

PSY 115 Stress Management (2/0/2)
Prerequisites: None
Corequisites: None
This course covers stressors and techniques for stress management. Topics include anger, assertiveness, adaptation to change, conflict, coping skills, identification of stressors, time management, and the physiology of stress and burnout. Upon completion, students should be able to demonstrate an understanding of the effective management of stress.

PSY 118 Interpersonal Psychology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development.

PSY 150 General Psychology (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

PSY 211 Psychology of Adjustment (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course introduces the study of the adjustment process focusing on contemporary challenges individuals must deal with in everyday life. Topics include theories of behavior, career choices, self-understanding, coping mechanisms, human relationships, intimacy, sociocultural factors influencing healthy personal adjustment, and other related topics. Upon completion, students should be able to demonstrate an awareness of the processes of adjustment. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PSY 237 Social Psychology (3/0/3)
Prerequisites: PSY 150 or SOC 210
Corequisites: None
This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

PSY 239 Psychology of Personality (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

PSY 241 Developmental Psych (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

PSY 243 Child Psychology (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course provides an overview of physical, cognitive, and psychosocial development from conception through adolescence. Topics include theories and research, interaction of biological and environmental factors, language development, learning and cognitive processes, social relations, and moral development. Upon completion, students should be able to identify typical and atypical childhood behavior patterns as well as appropriate strategies for interacting with children. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PSY 244 Child Development I (3/0/3)
Prerequisite: None
Corequisite: None
This course provides an introduction to the study of child development and examines the growth and development of children from conception through early childhood. Topics include historical and theoretical perspectives, terminology, research and observation techniques as well as physical, cognitive, and psychosocial growth and change. Upon completion, students should be able to demonstrate an understanding of the early stages of child development.

PSY 245 Child Development II (3/0/3)
Prerequisite: None
Corequisite: None
This course examines the growth and development of children during early and middle childhood. Emphasis is placed on factors influencing physical, cognitive, and psychosocial growth and change. Upon completion, students should be able to demonstrate an understanding of early and middle child development.

PSY 246 Adolescent Psychology (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course provides an overview of the behavior patterns, life changes, and social issues that accompany the developmental stage of adolescence. Topics include developmental theories; physical, cognitive and psychosocial growth; transitions to young adulthood; and sociocultural factors that influence adolescent roles in home, school and community. Upon completion, students should be able to identify typical and atypical adolescent behavior patterns as well as appropriate strategies for interacting with adolescents. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PSY 256 Exceptional Children (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course introduces major exceptionalities in children including mental, emotional, and physical variations; learning disabilities; and giftedness. Emphasis is placed on theoretical perspectives, identification methods, and intervention strategies. Upon completion, students should be able to demonstrate a general knowledge of the exceptionalities of children and recommended intervention techniques.

PSY 263 Educational Psychology (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PSY 271 Sports Psychology (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course provides an overview of the field of sports and exercise psychology. Topics include concentration, goal setting, arousal level, exercise psychology, mental imagery, confidence, and other issues related to sport and exercise performance. Upon completion, students should be able to demonstrate a knowledge of psychological factors involved in sport and exercise. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

PSY 281 Abnormal Psychology (3/0/3)
Prerequisites: PSY 150
Corequisites: None
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

REAL ESTATE APPRAISAL

REA 111 Intro Real Est App R-1 (2/0/2)
Prerequisites: None
Corequisites: None
This course introduces the entire valuation process, with specific coverage of residential neighborhood and property analysis. Topics include basic real property law, concepts of value and operation of real estate markets, mathematical and statistical concepts, finance, and residential construction/design. Upon completion, students should be able to demonstrate adequate preparation for valuation principles and practices.

REA 112 Valuation Prin & Prac R-2 (2/0/2)
Prerequisites: REA 111
Corequisites: None
This course introduces procedures used to develop an estimate of value and how the various principles of value relate to the application of such procedures. Topics include the sales comparison approach, site valuation, sales comparison, the cost approach, the income approach, and reconciliation. Upon completion, students should be able to complete the Uniform Residential Appraisal Report (URAR).

REA 113 Applied Res Prop Val R-3 (1/0/1)
Prerequisites: REA 112
Corequisites: None
This course covers the laws and standards practiced by appraisers in the appraisal of residential 1-4 unit properties and small farms. Topics include Financial Institutions Reform and Recovery Enforcement Act (FIRREA), and North Carolina statutes and rules. Upon completion, students should be able to demonstrate eligibility to sit for the NC Appraisal Board license trainee examination.

REA 114 USPAP R-4 (1/0/1)
Prerequisites: REA 113
Corequisites: None
This course introduces all aspects of the appraisers conduct, ethics and competency. Topics include appraisal standards, reviews, reports, and the confidentiality provision as set forth by the North Carolina Appraisal Board. Upon completion, students should be able to demonstrate eligibility to sit for the NC Appraisal Board license trainee examination.

REA 210 Intro Income Prop App G-1 (2/0/2)
Prerequisites: REA 113
Corequisites: None
This course introduces concepts and techniques used to appraise real estate income properties. Topics include real estate market analysis, property analysis and site valuation, how to use financial calculators, present value, NOI, and before-tax cash flow. Upon completion, students should be able to estimate income property values using direct capitalization and to sit for the NC Certified Residential Appraiser examination.

REA 212 Adv Inc Capital Proc G-2 (2/0/2)
Prerequisites: REA 210
Corequisites: None
****A financial calculator is required for this course***
This course expands direct capitalization techniques and introduces yield capitalization. Topics include yield rates, discounted cash flow, financial leverage, and traditional yield capitalization formulas. Upon completion, students should be able to estimate the value of income producing property using yield capitalization techniques.

REA 213 Applied Inc Prop Val G-3 (2/0/2)
Prerequisites: REA 212
Corequisites: None
This course covers the laws, rules, and standards pertaining to the principles and practices applicable to the appraisal of income properties. Topics include FIRREA, USPAP, Uniform Commercial and Industrial Appraisal Report (UCIAR) form, North Carolina statutes and rules, and case studies. Upon completion, students should be able to prepare a narrative report that conforms to the USPAP and sit for the NC Certified General Appraisal examination.

READING

RED 070 Essential Reading Skills (3/2/4)
Prerequisite: None
Corequisite: None
This course is designed for those with limited reading skills. Emphasis is placed on basic word attack skills, vocabulary, transitional words, paragraph organization, basic comprehension skills, and learning strategies. Upon completion, students should be able to demonstrate competence in the skills required for RED 080.

RED 080 Intro to College Reading (3/2/4)
Prerequisites: With a grade of C or better in RED 070
Corequisites: None
This course introduces effective reading and inferential thinking skills in preparation for RED 090. Emphasis is placed on vocabulary, comprehension, and reading strategies. Upon completion, students should be able to determine main ideas and supporting details, recognize basic patterns of organization, draw conclusions, and understand vocabulary in context. *This course does not satisfy the developmental reading prerequisite for ENG 111 or ENG 111A.*

RED 090 Improved College Reading (3/2/4)
Prerequisites: With a grade of C or better in RED 080
Corequisites: None
This course is designed to improve reading and critical thinking skills. Topics include vocabulary enhancement; extracting implied meaning; analyzing author's purpose, tone, and style; and drawing conclusions and responding to written material. Upon completion, students should be able to comprehend and analyze college-level reading material. *This course satisfies the developmental reading prerequisite for ENG 111 or ENG 111A.*

RED 111 Crit Reading for College (3/0/3)
Prerequisites: With a grade of C or better in RED 090 or comp. placement
Corequisites: None
This course is designed to enhance critical reading skills. Topics include vocabulary enrichment, reading flexibility, metacognitive strategies, and advanced comprehension skills, including analysis and evaluation. Upon completion, students should be able to demonstrate comprehension and analysis and respond effectively to material across disciplines.

RELIGION

REL 110 World Religions (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the world's major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

REL 211 Intro to Old Testament (3/0/3)
Prerequisites: None
Corequisites: None
This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

REL 212 Intro to New Testament (3/0/3)
Prerequisites: None
Corequisites: None
This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

REL 221 Religion in America (3/0/3)
Prerequisites: None
Corequisites: None
This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non-traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

INFORMATION SYSTEMS SECURITY

SEC 110 Security Concepts (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

SIMULATION AND GAME DEVELOPMENT

SGD 111 Introduction to SGD (2/3/3)
Prerequisites: None
Corequisites: None
This course provides students with an introduction to simulation and game development. Topics include setting, storytelling, narrative, character design, interface design, game play, internal economy, core mechanics, game genres, AI, the psychology of game design and professionalism. Upon completion, students should be able to demonstrate knowledge of the major aspects of simulation and game design and development.

SGD 112 SGD Design (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the fundamentals of simulation and game design. Topics include industry standards and design elements for simulations and games. Upon completion, students should be able to design simple simulations and/or games.

SGD 113 SGD Programming (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the fundamentals of programming languages and tools employed in simulation and game development. Emphasis is placed on programming concepts used to create simulations and games. Upon completion, students should be able to program simple games and/or simulations.

SGD 114 3D Modeling (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the tools required to create three dimensional (3D) models. Emphasis is placed on exploring tools used to create 3D models. Upon completion, students should be able to create and animate 3D models using 3D modeling tools.

SGD 158 SGD Business Mgmt (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the business side of the interactive game industry. Emphasis will be placed on licenses, serious games, psychological profiling, publisher/developed relations, and contract negotiation skills. Upon completion, students should be able to understand how a game evolves from concept to the customer.

SGD 161 SG Animation (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the fundamental principles of animation used in simulation and game development. Emphasis is placed on a historical survey of animation, aspects of the animation process and animation techniques. Upon completion, students should be able to produce character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

SGD 163 SG Documentation (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the techniques and methods used to create simulation and game production and design documents. Emphasis is placed on the design document to include scheduling, production plans, marketing and budgeting. Upon completion, students should be able to create design and produce documents for any simulation or game.

SGD 174 SG Level Design (2/3/3)
Prerequisites: None
Corequisites: None
This course introduces the tools used to create levels for real-time simulations and games. Topics include level design, architecture theory, modeling for 3D engines and texturing methods. Upon completion, students should be able to design simple levels using industry standard tools.

SGD 212 SGD Design II (2/3/3)
Prerequisites: SGD 112
Corequisites: None
The course covers the advanced principles of simulation and game design. Topics include advanced design concepts in simulation and game development. Upon completion, students should be able to design an advanced simulation or game.

SGD 213 SGD Programming II (2/3/3)
Prerequisites: SGD 113
Corequisites: None
The course covers advanced programming concepts used to create simulations and games. Emphasis is placed on acquiring advanced programming skills for use in creating simulations and games. Upon completion, students should be able to program an advanced simulation or game.

SGD 214 3D Modeling II (2/3/3)
Prerequisites: SGD 114
Corequisites: None
This course introduces the tools used to create and animate advanced 3 dimensional models. Emphasis is placed on identifying and utilizing the tools required to create and animate advanced 3D models. Upon completion, students should be able to create and animate advanced 3D models using 3D modeling tools.

SGD 274 SG Level Design II (2/3/3)
Prerequisites: SGD 174
Corequisites: None
This course introduces the advanced tools used to create levels for real-time simulations and games. Topics include advanced level design and architecture theory, concepts related to "critical path" and "flow," game balancing, playtesting and storytelling. Upon completion, students should be able to design complex levels using industry standard tools.

SGD 285 SG Software Engineering (2/3/3)
Prerequisites: SGD 212, SGD 213, and SGD 214
Corequisites: None
This course introduces object oriented software engineering concepts related to simulation and game development. Topics include systematic approaches to the development, operation and maintenance of simulations and games. Upon completion, students should be able to apply software engineering techniques to the development of simulations and games.

SGD 289 SGD Project (2/3/3)
Prerequisites: SGD 285
Corequisites: None
This course provides students with the opportunity to create a functional simulation or game with minimal instructor support. Emphasis is placed upon verbal and written communication, skill documentation, professional presentation and user training. Upon completion, students should be able to create and professionally present a fully functional simulation or game.

SOCIOLOGY

SOC 210 Introduction to Sociology (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

SOC 213 Sociology of the Family (3/0/3)
Prerequisites: None
Corequisites: None
This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences*

SOC 220 Social Problems (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

SOC 225 Social Diversity (3/0/3)
Prerequisites: None
Corequisites: None
This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

SOC 230 Race and Ethnic Relations (3/0/3)
Prerequisites: None
Corequisites: None
This course includes an examination of the various aspects of race and ethnicity and how these lead to different experiences, opportunities, problems, and contributions. Topics include prejudice, discrimination, perceptions, myths, stereotypes, and intergroup relationships. Upon completion, students should be able to identify and analyze relationships among racial and ethnic groups within the larger society. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

SOC 232 Social Context of Aging (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an overview of the social implications of the aging process. Emphasis is placed on the roles of older adults within families, work and economics, politics, religion, education, and health care. Upon completion, students should be able to identify and analyze

changing perceptions, diverse lifestyles, and social and cultural realities of older adults. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SOC 234 Sociology of Gender (3/0/3)
Prerequisites: None
Corequisites: None
This course examines contemporary roles in society with special emphasis on recent changes. Topics include sex role socialization, myths and stereotypes, gender issues related to family, work, and power. Upon completion, students should be able to analyze modern relationships between men and women. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SOC 240 Social Psychology (3/0/3)
Prerequisites: None
Corequisites: None
This course examines the influence of culture and social groups on individual behavior and personality. Emphasis is placed on the process of socialization, communication, conformity, deviance, interpersonal attraction, intimacy, race and ethnicity, small group experiences, and social movements. Upon completion, students should be able to identify and analyze cultural and social forces that influence the individual in a society. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.*

SOC 244 Soc of Death & Dying (3/0/3)
Prerequisites: None
Corequisites: None
This course presents sociological perspectives on death and dying. Emphasis is placed on analyzing the different death rates among various groups, races, and societies, as well as various types of death. Upon completion, students should be able to discuss the rituals of death, both cultural and religious, and examine current issues relating to death and dying. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPANISH

SPA 110 Introduction to Spanish (2/0/2)
Prerequisites: None
Corequisites: None
This course provides an introduction to understanding, speaking, reading, and writing Spanish. Emphasis is placed on pronunciation, parts of speech, communicative phrases, culture, and skills for language acquisition. Upon completion, students should be able to identify and apply basic grammar concepts, display cultural awareness, and communicate in simple phrases in Spanish.

SPA 111 Elementary Spanish I (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

SPA 112 Elementary Spanish II (3/0/3)
Prerequisites: SPA 111
Corequisites: None
This course is a continuation of SPA 111 focusing on the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate further cultural awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

SPA 120 Spanish for the Workplace (3/0/3)
Prerequisites: None
Corequisites: None
This course offers applied Spanish for the workplace to facilitate basic communication with people whose native language is Spanish. Emphasis is placed on oral communication and career-specific vocabulary that targets health, business, and/or public service professions. Upon completion, students should be able to communicate at a functional level with native speakers and demonstrate cultural sensitivity.

SPA 141 Culture and Civilization (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an opportunity to explore issues related to the Hispanic world. Topics include historical and current events, geography, and customs. Upon completion, students should be able to identify and discuss selected topics and cultural differences related to the Hispanic world. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

SPA 151 Hispanic Literature (3/0/3)
Prerequisites: ENG 111
Corequisites: None
This course includes selected readings by Hispanic writers. Topics include fictional and non-fictional works by representative authors from a variety of genres and literary periods. Upon completion, students should be able to analyze and discuss selected texts within relevant cultural and historical contexts. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

SPA 161 Cultural Immersion (2/3/3)
Prerequisites: SPA 111
Corequisites: None
This course explores Hispanic culture through intensive study on campus and field experience in a host country or area. Topics include an overview of linguistic, historical, geographical, sociopolitical, economic, and/or artistic concerns of the area visited. Upon completion, students should be able to exhibit first-hand knowledge of issues pertinent to the host area and demonstrate understanding of cultural differences. *This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.*

SPA 181 Spanish Lab 1 (0/2/1)
Prerequisites: None
Corequisites: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPA 182 Spanish Lab 2 (0/2/1)
Prerequisites: SPA 181
Corequisites: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate cultural awareness. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPA 211 Intermediate Spanish I (3/0/3)
Prerequisites: SPA 112
Corequisites: None
This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

SPA 212 Intermediate Spanish II (3/0/3)
Prerequisites: SPA 211
Corequisites: None
This course provides a continuation of SPA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. *This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.*

SPA 215 Spanish Phonetics/Structu(3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to improve the understanding of Spanish phonetics and the structure of the Spanish language. Topics include the structure of the Spanish language, phonology, morphology, and syntax. Upon completion, students should have an understanding of the phonetics and structure of the Spanish language and be able to contrast the structure of the Spanish and English languages.

SPA 221 Spanish Conversation (3/0/3)
Prerequisites: SPA 212
Corequisites: None
This course provides an opportunity for intensive communication in spoken Spanish. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPA 231 Reading and Composition (3/0/3)
Prerequisites: SPA 212
Corequisites: None
This course provides an opportunity for intensive reading and composition in Spanish. Emphasis is placed on the use of literary and cultural materials to enhance and expand reading and writing skills. Upon completion, students should be able to demonstrate in writing an in-depth understanding of assigned readings. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPA 281 Spanish Lab 3 (0/2/1)
Prerequisites: SPA 182
Corequisites: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPA 282 Spanish Lab 4 (0/2/1)
Prerequisites: SPA 281
Corequisites: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. *This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.*

SPANISH INTERPRETER

SPI 113 Intro to Spanish Inter. (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces the field of interpreting, interpretation models, cognitive processes associated with interpretation, professional ethical standards, employment opportunities, and working conditions. Topics include specialized jargon, code of ethics, interpreter assessments/qualifications, and protocol associated with various settings. Upon completion, students should be able to explain the rationale for placement of interpreters and apply ethical standards to a variety of working situations.

SPI 114 Ana Skills Spanish Inter. (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to improve cognitive processes associated with interpreting, listening, short-term memory, semantic equivalence, visual/auditory processing, thought organization and logic. Emphasis is placed on developing skills necessary to generate equivalent messages between Spanish and English. Upon completion, students should be able to consecutively interpret non-technical, interactive messages between Spanish and English.

SPI 213 Review of Grammar (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to review the common elements of Spanish grammar in oral and written form. Emphasis is placed on the fundamental grammatical concepts of the Spanish language. Upon completion, students should be able to demonstrate comprehension and correct usage of specified grammatical concepts in both oral and written form.

SPI 214 Intro to Translation (3/0/3)
Prerequisites: None
Corequisites: None
This course is designed to improve the quality of Spanish to English and English to Spanish translation. Emphasis is placed on the practice of Spanish to English and English to Spanish translation in a variety of prose styles. Upon completion, students should be able to demonstrate the usage and understanding of the processes involved in translating.

SPI 245 Community Interpret I (2/3/3)
Prerequisites: None
Corequisites: None
This course is designed to expose students to interpreting in areas such as social services, business and industry. Emphasis is placed on the development of social services, business and industry vocabulary through role-play. Upon completion, students should be able to consecutively interpret basic messages in a variety of social services, business and industry situations.

TURFGRASS MANAGEMENT

TRF 110 Intro Turfgrass Cult & ID (3/2/4)
Prerequisites: None
Corequisites: None
This course provides an in-depth study of turfgrass. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawn applications. Upon completion, students should be able to identify turfgrass species through characteristics and reproductive stages and develop an establishment and maintenance plan for high quality turf areas.

VITICULTURE & ENOLOGY

VEN 132 Wines of the World (1/2/2)
Prerequisites: None
Corequisites: None
This course introduces the major wine growing regions of the world, including their history, distribution, climate, and wine types. Emphasis will be placed on grape varieties planted, and upon environmental and cultural factors influencing grape growth and wine quality and style.

VEN 133 Intro. to Winemaking (3/0/3)
Prerequisites: None
Corequisites: None
This course provides an overview of the history of winemaking, fermentation, winery operations, and the physiology of wine consumption. Emphasis is placed on the types of wines produced in the United States with particular attention to wines of the Southeast. Upon completion, students should be familiar with general winemaking procedures.

VEN 134 Grape Harvest (1/0/1)
Prerequisites: None
Corequisites: None
This course introduces grape harvest practices. Topics include labor contracts; harvest crew organization; standards of fruit maturity; product transportation; and maintenance of fruit quality and grape crush. Upon completion students should be able to demonstrate competency in grape harvest management.

VEN 135 Intro. to Viticulture (3/2/4)
Prerequisites: None
Corequisites: None
This course introduces grape growing. Topics include botany, fruiting and rootstock cultivars; anatomy and physiology; history and distribution of grapes; vine classification; world growing areas including latitude, climate, and soils; and common diseases and pests. Upon completion, students should be able to demonstrate an overall understanding of the viticulture field.

VEN 136 Gen. Viticulture (3/0/3)
Prerequisites: None
Corequisites: None
This course surveys winter vineyard management practices. Topics include training, pruning, and trellising, grape diseases and their control, propagation, and vineyard economics. Upon completion, students should be able to demonstrate competency in managing vineyards through the winter months.

VEN 137 Vineyard Mgmt. (3/2/4)
Prerequisites: None
Corequisites: None
This course introduces the biology and control of grape diseases and disorders. Topics include fungal, bacterial, and virus diseases, phylloxers, insect and vertebrate control and vineyard floor management. Upon completion, students should be able to demonstrate an understanding of grape diseases and their control.

VEN 138 Vineyard Estab. & Dev. (3/0/3)
Prerequisites: VEN 135
Corequisites: None
This course covers site selection and preparation, varietal, clonal, and rootstock selection and planting, appropriate trellis systems, and vine training during the first year of growth. Emphasis will be placed on the development of healthy vines which will bear high-quality fruit at reasonable cost. Upon completion, students should be able to make independent decisions with regard to the establishment of a new vineyard.

VEN 139 Grape and Wine Sci (4/2/5)
Prerequisites: None
Corequisites: None
This course provides the students with basic elements of science necessary to the understanding of processes in viticulture and enology. Topics include the pertinent aspects of taxonomy, cell biology, chemistry, plant physiology, environmental biology, and soil science. Upon completion, students should be able to demonstrate the science associated with effective grape production and wine making.

VEN 235 Fall Vineyard Pract (3/0/3)
Prerequisites: None
Corequisites: None
This course covers general fall vineyard management practices. The topics covered include site selection, varieties, rootstock, information sources and fall diseases and their control. Upon completion, students should be able to identify diseases particular to fall weather, and demonstrate an overall knowledge of vineyard practices for fall weather.

VEN 236 Winery Practices (3/2/4)
Prerequisites: None
Corequisites: None
This course is a study of the fundamentals of commercial winery operations. Topics include equipment operation and maintenance, sanitation, and safety practices. Laboratory data is collected throughout the course and used to analyze the operation.

VEN 237 Wine Grape Production (3/0/3)
Prerequisites: AGR 138
Corequisites: None
This course covers cultural practices in wine grape production after the first year, including training, summer and winter pruning, canopy management, irrigation, mineral nutrition, crop rejutation, and harvesting. Emphasis will be placed upon particular problems associated with grape production in the southeast. Upon completion, students should be able to make decisions essential to the production of high-quality wine grapes.

VEN 238 Grape Pests, Dis & Disord (3/0/3)
Prerequisites: VEN 138
Corequisites: None
This course provides an introduction to pests and diseases of vineyards. Topics include pest/disease identification and control methods and sampling techniques, with emphasis on integrated management in pest control. Upon completion, students should be able to identify and manage common vineyard pests and diseases.

VEN 239 Vineyard Mgmt II (3/0/3)
Prerequisites: VEN 138
Corequisites: None
This course covers practical aspects of the daily operations of the vineyard. Topics include scheduling and timing of vineyard activities, personnel acquisition and management, and legal and regulatory issues, as well as sources and types of supplies. Upon completion, students should be conversant with most aspects of vineyard management.

VEN 280 Wine Production (3/0/3)
Prerequisites: None
Corequisites: None
This course introduces winemaking practices. The topics of study include fruit choices and quality, crushing, fermenting, bottling, basic winemaking chemistry and microbiology. Upon completion, students should be able to demonstrate knowledge of the overall winemaking process.

VEN 282 Wine Fermentation (3/0/3)
Prerequisites: VEN 133
Corequisites: None
This course addresses the nature, development, physiology, and control of yeasts and bacteria involved in the making, aging, and spoilage of wines. Topics include morphology, physiology, and culture of common wine microorganisms, their place in the fermentation process, and control of undesirable microorganisms. Upon completion, students should be able to manage fermentation and prevent or control wine spoilage.

VEN 283 Wine Produc and Analy (2/6/5)
Prerequisites: VEN 133
Corequisites: None
This course applies previously introduced winemaking principles to actual wine production, while providing the student with sensory and chemical analytical tools fundamental to good winemaking. Topics of study include fruit choices and quality assessment, crushing, fermentation monitoring and control, analysis of product and the process decisions dictated by these analyses. Upon completion, students should demonstrate familiarity with wine analysis winemaking practices.

VEN 284 Wine Design & Mgmt (3/0/3)
Prerequisites: VEN 133
Corequisites: None
This course provides approaches to the design of a winery, including sizing, layout, materials, tools, and utilities required. Topics include estimating cost of production and daily operation, and regulatory issues in planning and operation of a winery. Upon completion, students should be equipped to make national decisions related to the efficient and economical operation of a winery.

VEN 285 Winery Operations (3/2/4)
Prerequisites: VEN 133
Corequisites: None
This course provides practical cellar-oriented winery experience. Students will be actively involved in the daily activities of the winemaking process. Upon completion, students should have an enhanced understanding of practical cellar operations.

VEN 286 Wine Marketing (3/0/3)
Prerequisites: VEN 132 and VEN 133
Corequisites: None
This course introduces students to aspects of marketing that are unique to the wine industry, and provides experience in designing and implementing a wine marketing plan. Emphasis is placed on the nature of the wine market, examples of marketing programs, and practical experience in their design and implementation. Upon completion, students should be able to demonstrate comprehension and familiarity with the tools and techniques of marketing wine.

VEN 287 Vineyard Operations (3/2/4)
Prerequisites: None
Corequisites: None
This course covers basic vineyard operations, including field applications and activities necessary for the successful operation of a commercial winegrape vineyard in the southeastern U.S. Topics include planting, canopy management, equipment selection and use, fertilization, harvesting and contracts. Upon completion, students will be able to make and implement sound viticultural decisions that allow the production of a sustainable and quality crop of grapes.

VEN 288 Wine Finishing & Pkging (1/4/3)
Prerequisites: VEN 283
Corequisites: None
This course introduces process applications and tools necessary for the satisfactory finishing of wines preparatory to bottling, and to the bottling process itself. Processes covered are aspects of wine stabilization, fining and filtration, sterile filtration and bottling. Upon completion, students should be able to demonstrate understanding of the processes and competency with the necessary tools and techniques.

WEB TECHNOLOGIES

WEB 110 Internet/Web Fundament (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces basic markup language, various navigational tools and services of the Internet. Topics include creating web pages, using Internet protocols, search engines, file compression/decompression, FTP, E-mail, listservers, and other related topics. Upon completion, students should be able to deploy a web-site created with basic markup language, retrieve/decompress files, e-mail, FTP, and utilize other Internet tools.

WEB 111 Intro to Web Graphics (2/2/3)
Prerequisites: None
Corequisites: None
This course is the first of two courses covering the creation of web graphics, addressing problems peculiar to WWW display using appropriate software. Topics include web graphics file types, type conversion, RGB color, the browser-safe palette, elementary special effects, image maps, and other related topics. Upon completion, students should be able to create graphics such as banners buttons, backgrounds, and other graphics for Web pages.

WEB 115 Web Markup& Script (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces client-side Internet programming using the current W3C-recommended presentation markup language and supporting elements. Topics include site management and development, markup elements, stylesheets, validation, accessibility, standards, browsers, and basic JavaScripting. Upon completion, students should be able to hand-code web pages with various media elements according to current markup standards and integrate them into websites.

WEB 120 Intro Internet Multimedia (2/2/3)
Prerequisites: None
Corequisites: None
This is the first of two courses covering the creation of Internet Multimedia. Topics include Internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create Internet multimedia presentations utilizing a variety of methods and applications.

WEB 140 Web Development Tools (2/2/3)
Prerequisites: None
Corequisites: None
This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.

WEB 210 Web Design (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces intermediate to advanced web page design techniques. Topics include effective use of graphics, fonts, colors, navigation tools, advanced markup language elements, as well as a study of bad design techniques. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web pages.

WEB 211 Advanced Web Graphics (2/2/3)
Prerequisites: WEB 110
Corequisites: None
This course is the second of two courses covering web graphics. Topics include graphics acquisition using scanners and digital cameras, graphics optimization, use of masks, advanced special effects, GIF animation, and other related topics. Upon completion, students should be able to create graphics optimized for size,

graphic file type, properly converted from digitized sources and create useful animated graphics.

WEB 215 Adv Markup &Scripting (2/2/3)
Prerequisites: WEB 115
Corequisites: None
This course covers advanced programming skills required to design Internet applications. Emphasis is placed on programming techniques required to support network applications. Upon completion, students should be able to design, code, debug, and document network-based programming solutions to various real-world problems using an appropriate programming language.

WEB 220 Advanced Multimedia (2/2/3)
Prerequisites: WEB 120
Corequisites: None
This is the second of two courses covering Internet multimedia. Topics include use of advanced Internet multimedia applications. Upon completion, students should be able to create interactive Internet multimedia presentations.

WEB 230 Implementing Web Serv (2/2/3)
Prerequisites: NET 110 or NET 125
Corequisites: None
This course covers website and web server architecture. Topics include installation, configuration, administration, and security of web servers, services and sites. Upon completion, students should be able to effectively manage the web services deployment lifecycle according to industry standards.

WEB 240 Internet Security (2/2/3)
Prerequisites: WEB 110 and CIS 110 or CIS 111 and SEC 110
Corequisites: None
This course covers security issues related to Internet services. Topics include the operating system and the Internet service security mechanisms. Upon completion, students should be able to implement security procedures for operating system level and server level alerts.

WEB 250 Database Driven Web (2/2/3)
Prerequisites: DBA 110 and WEB 140
Corequisites: None
This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.

WEB 289 Internet Technol Project (1/4/3)
Prerequisites: WEB 230 and WEB 250
Corequisites: None
This course provides an opportunity to complete a significant Web technologies project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete an Internet project from the definition phase through implementation. *This capstone course required to successfully complete the two-year Web Technologies degree program.*

WELDING

WLD 110 Cutting Processes (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.

WLD 112 Basic Welding Processes (1/3/2)
Prerequisites: None
Corequisites: None
This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.

WLD 115 SMAW (Stick) Plate (2/9/5)
Prerequisites: None
Corequisites: None
This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes.

WLD 116 SMAW (Stick) Plate/Pipe (1/9/4)
Prerequisites: WLD 115
Corequisites: None
This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions.

WLD 121 GMAW (MIG) FCAW/Pl (2/6/4)
Prerequisites: None
Corequisites: None
This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.

WLD 131 GTAW (TIG) Plate (2/6/4)
Prerequisites: None
Corequisites: None
This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

WLD 141 Symbols & Specifications (2/2/3)
Prerequisites: None
Corequisites: None
This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

WLD 261 Certification Practices (1/3/2)
Prerequisites: WLD 115, WLD 121, and WLD 131
Corequisites: None
This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

BOARD OF TRUSTEES

George L. "Andy" Anderson, Jr. ..... Yadkinville, NC
Charlotte S. Bokesch ..... Mount Airy, NC
Robert F. Comer ..... Dobson, NC
Barbara H. Harrell ..... Elkin, NC
Joe Hennings ..... East Bend, NC
Charles Madison ..... Elkin, NC
LaDonna McCarther, Chair ..... Mount Airy, NC
