

FRANKLIN SCHOOL

BULLETIN

1978-79

Philosophy of Franklin Elementary School

The administration and faculty of Franklin Elementary School believe that since the child is the most important part of the school, the major purpose of any school is to offer a situation in which each individual student can realize and develop his individual abilities, talents, and creative interests. The school should provide a variety of instructions, opportunities, and experiences which will contribute to the development of each student's potentialities.

We believe that the school should lay a solid foundation for the betterment of society by providing each student with not only a basic education, but also by instilling in them humanitarian principles and values. With these tools, the student will be able to make a constructive contribution to society; thereby, leading a happier and more meaningful life himself.

As modern living becomes more complex, each student must gain a greater competency in basic skills which are needed for further education and employment. As people become more interdependent, the need of all races, colors, and creeds to love and work together peacefully becomes more important also. It thus becomes the purpose of the school to work closely with the parents of students in training young people to have a respect for the property and rights of others as well as a deep sense of responsibility and integrity when dealing with all people.

We believe that each student should be assisted in developing his ability to make a rational approach to any situation he may face. If he is to do this, he must learn to think and reason out any problem.

We believe that the elementary school should provide programs and facilities to improve and protect the health of boys and girls both mentally and physically.

We believe that the school should develop within the child a love and appreciation of our rights, privileges, and responsibilities in our democratic way of life. An appreciation of all beauty, both man-made and non man-made, should be instilled in each student.

We believe that it is our particular purpose in an elementary school to build a foundation on which future education can be built and to stimulate in each student a desire for learning which will continue throughout life.

In order to carry out these purposes of our school, we believe that a good, friendly, co-operative relationship should exist between the faculty and the administration. This same type of relationship should also exist between parents and teachers. We feel that there should be love and genuine interest between student and teacher.

Teachers' Responsibilities

1. Teachers are to arrive at school each day at 8:00, A. M. and remain until 3:30, P. M.
2. Teachers should attend teachers' meetings (local, county, and district) and P.T.A. meetings.
3. Keeping records and making reports
 - a. Keep register
 - b. Book reports
 - c. Statistical reports
 - d. Attendance reports
 - e. Lunchroom records
 - f. Student report cards and cumulative records
 - g. Library books and Audio-Visual report
4. Teachers are responsible for school property
 - a. Books
 - b. Desks
 - c. Window blinds and blackboard
 - d. Walls (in room and halls)
 - e. Physical Education equipment
 - f. Other school property
5. Teachers' responsibilities to pupils
 - A. The pupil's welfare
 1. Physical development
 - a. Physical exercise
 - b. Bodily injury (report to office, fill out insurance blank)
 2. Health
 - a. Eating habits
 - b. Cleanliness
 - c. Play habits
 - d. Need of free lunch or clothing
 - B. Mental Development
 1. Develop individual skills
 2. Create good learning situations
 3. Encourage each child to do his best

Good discipline is good evidence of good teaching.

A genuine love and sincere interest in the child goes a long way toward our goal.

Students' Responsibilities

1. Each student should go directly to his room upon arriving at school each morning.
2. No one is to leave school grounds during the school day without proper permission.
3. Playing and running in the hallways are not permitted.
4. No throwing on the grounds except under supervision.
5. Students should not be permitted to go to other buildings or to other rooms during the school day unless scheduled.
6. Good order must be observed by the students in homerooms, going to and from their homerooms, and in the lunchroom.
7. Chewing gum is not allowed in school.
8. Proper dress should be worn to school.
