Thank you for your letter dated March 5, 2004 regarding the Ring family. We are sorry it has taken so long to answer your letter. We are also sorry that we have been unable to find documentation to prove your theory of descendants as you listed: Thomas Ring 1700, Thomas Ring 1757 and Thomas Ring 1795.

We will be happy to put a query in our journal for you if you wish. Perhaps some of the other Ring researchers can be of help. My email address is wjhiatt@aol.com if you would like to email me to put a query in our fall journal. We are sorry that we could not help you more with proving your line of heritage.

Dear SCGA:

My name is Jon Wenzel. My ancestry on my mother's mother's side goes back to Thomas Ring born on June 2, 1700. I have five questions on my lineage sheet which is enclosed. Could you answer these questions?

Do you know what the epidemic was in August of 1818?

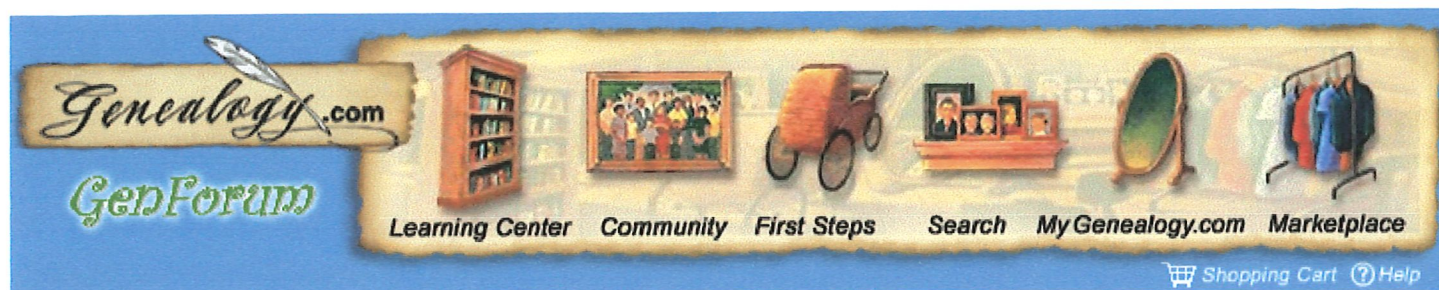

Could you fill in the missing generations between Thomas of 1700 and Martin of 1769?

The enclosed is a query I inserted in Gen Forum.

Thank you for your help.

Have a good day.

Jon Wenzel

I have documented back to Martin Ring, born ? and died ?, and his wife Celia ? born August 29, 1769 and died ?. Their children were Celia, also Selia or Silia, born Sept. 20, 1790; Susanne born Jan. 25, 1794; Thomas born Nov. 25, 1795, married Nancy Nance March 27, 1824 and died October 16, 1840, This is my gr.gr.gr.grandfather; William R. born May 25, 1805, married Elizbath Draughn on October 21, 1839; John R. born 1808 and died August 8, 1818; Joshway born March 16, 1810 and died August 18, 1818; and Martin born 1812 and died August 25, 1818. There was an epidemic in August 1818. I also have a Thomas Ring born June 2, 1700 and died Jan. 15, 1796 who married a Margaret ? born Dec. 1, 1710 and died Nov. 1, 1805. I am missing two generation between Thomas and Martin. All of this is quoted from a Ring family bible. The two missing generations were not entered. They lived in the Rowan, Surry, and Stokes Counties in North Carolina.

Do my Ring's fit into yours from England to Ma. mid 1600's

Thank you for your letter dated March 18, 2001 regarding Thomas Ring born on June 2, 1700. We are so very sorry that it has taken us so long to answer your letter.

We have been trying to find out what the epidemic was in August of 1818 but we have been unsuccessful. I suppose it would depend on where the area was that had an epidemic at that time. One of our members said they had read it was typhoid fever because so many soldiers were carriers of the disease from the War of 1812 which lasted until 1814. However, we were unable to find anything in writing to prove this. We found several epidemics in different areas of the US and other countries but nothing around 1818. We are sorry that we could not find a definite answer for you. If it was typhoid fever, this would have been four years after the war. We know that in 1918 in Surry County there was an influenza epidemic. Many members of a family died during this time.

We have checked our family files, local books and records of nearby counties and have been unable to help you with the missing generations between Thomas Ring of 1700 and Martin Ring of 1769. Both of these dates were before Surry County was formed from Rowan County, NC. We also searched for a book on Ring Genealogy but could not find one.

The Surry County, NC record on William Ring indicates a marriage bond to Elizabeth Draughon of March 4, 1839. Did William Ring marry a second time to Rebecca Evans around October 21, 1845 (probably a bond date) in Surry County? Celia J. Ring and John Hardee marriage bond in Surry Co. was dated February 28, 1867. Susanna Ring and William Ashbourne marriage bond in Surry Co. was April 27, 1822. William Ashburn may have married a second time to Nancy Ring Sept. 17, 1848 in Surry Co.
