

All-inclusive Member Roster for Central United Methodist Church

Because Central Church believes that the church is the people, an attempt has been made to list all known people that have been members of or have ministered to Central over the years. Eventhough over 3500 names have been found, still there will be many ommissions. These names are drawn from multiple merged sources. Females are listed by married name when known. Names are ordered alphabetically by surname. Ministers are shown in red. Older records frequently list only initials only and women by their husband's name only.
