Hi Wilma,

I received the information that you sent regarding the Cobb family.

I apologize for not writing to you sooner. Just a lot of things happening taking me away from the things that I want to do. I haven't had the time yet to act on the information that you sent. I do think that I need to see about probate records for Jacob and Cloe both. I am sure that the name really is Cobb even though the census has it as Copp. I'm hoping that probate records might give me some first names to go on.

I don't know anything about these people.

I did read some of the messages on the Cobb message board on Genforum and they appear to be a really old family who had steel mills prior to moving to NC. Jacob and Cloe are not mentioned as far as I could see in those messages. Clisby and Abiel are mentioned.

If I ever crack this nut I'll let you know what I find inside!

Your help has been greatly appreciated. You've given me places to look.

I was wondering also about voting records. Did they keep that kind of record in the 1800s?

Again, THANK YOU.

Kind regards, Joal

Joal,

Can you think of anything else that we might check for you here in Surry County? We

would love to have more information on this family also if you can share what you have.
We would like to know where this family went after leaving Surry County.
