THE TRIBUNE

SCC offers anthropology class

An Introduction to Anthropology class will be offered by the Evening Division of Surry Community College during the fall quarter. The course will be devoted to examining the many aspects of culture and society and, by examining the variety of ways in which man has met the conditions of life, the student may come to a broader understanding of human behavior.

years, will be the instructor of the course.

Registration will be held on Thursday, Sept. 5 from 6-8 p.m. The class will meet first on Monday, Sept. 9, and will continue on Monday evenings from 7-9:50 p.m. through Nov. 25.

Further information about application or registration may be obtained by visiting or calling the Evening Division office at Surry Community College (386-8121).

Surry Community Courses

Introduction to Criminal Justice will be offered by the Evening Division of Surry Community College during the fall quarter. This course will present an overview of the entire criminal justice system focusing on the various components that make up the criminal justice system—police, courts, corrections. In addition, the course will examine the purpose of the criminal law, crime problem generally, bail system, citizen's constitutional rights, and plea bargaining. Mr. J.T. Hanson, criminal justice instructor at Surry, will be the instructor to the Introduction to Criminal Justice class.

Registration will be held on Thursday, September 5 from 6-8 p.m. The class will meet first on Monday, September 9, and each Monday and Wednesday evening from 7-9:20 through November 20.

Further information about application or registration may be obtained by calling or visiting the Evening Division Office at Surry Community College (386-8121).

Another class in electrical installation and maintenance will be offered by the evening division of Surry Community College during the fall quarter. The class will include a study of basic electricity, blueprint reading, use of tools and materials, and an introduction to National Electrical Code specifications. The class will be taught by Mr. Max Church, a licensed electrician who has taught the class for eighteen years.

Registration for this class will be held on Thursday, September 5 from 6-8 p.m. The class will meet from 7-9:50 p.m., on Tuesdays and Thursdays.

An evening class in Plumbing Fundamentals will also be offered at Surry Community College in the fall quarter. The class will include

a study of plumbing tools, piping materials and fittings, plumbing system designs, pipe and fitting installation, fixtures, and water supply systems. This class is appropriate for anyone who wants to learn some plumbing skills for home repair. Also included will be a review of residential plumbing license requirements in North Carolina. The instructor will be Garry Chilton, Surry County Plumbing Inspector.

Registration for the class will be held on Thursday, September 5, from 6-8 p.m. The class will meet from 6:30-10:15 p.m., on Tuesday and Thursday. Further information can be obtained by calling the Evening Division office at the college 386-8121.

Surry CC Offers Course In Nursing

Surry Community College is offering a Nursing Assistant I Course. This 86 hour class will begin on September 3, at 6:30 p.m., at the Yadkin Nursing Care in Yadkinville.

A registration fee is charged, and class will meet on Tuesdays and Thursdays from 6:30-9:30 p.m.

Instructor will be Marie Lynch. Anyone interested should be present to register at the first class meeting.

Enterprise, August 28, 1985.

Community College To Begin Fall Registration

DOBSON—Registration for the 1985-86 fall quarter at Surry Community College is scheduled Thursday, with an increase in enrollment expected.

The registration will be held in the college's Administration Building from 8 a.m. to 5 p.m., with breaks for lunch and dinner.

Pre-registration for the fall classes has been under way during the summer, and prospective students who haven't pre-registered should contact the Student Services Department Thursday.

More than 550 credit courses will

be offered this year by the college. Students can select programs from 20 technical areas, six vocational areas and a college transfer program.

Tuition for a full-time student who is a North Carolina resident is \$31 per quarter. Tuition for a part-time, in-state student is \$4.25 per credit hour.

Pre-registration figures show a slight increase compared to this time last year. The college is anticipating an enrollment of 2,500 students, with a full-time equivalent enrollment of 1,900.

The Mount Airy News, September 3, 1985

NORTH CAROLINA RESIDENTS AGE 65 AND OLDER MAY REGISTER FREE OF CHARGE.

*No fees will be charged to members of lifesaving groups.

Registration and tuition fees are set by the North Carolina General Assembly.

You may pre-register for any of the courses listed by calling 386-8121. Yadkin County residents may pre-register by calling the center in Boonville at 367-7562.

Classes will begin as soon as sufficient registration permits. Those persons pre-registered will be notified of starting dates.

Continuing Education courses are located in communities in Surry and Yadkin counties where need exists and space is available. Residents of the two counties are encouraged to request courses for their communities.

Continuing Education Units (CEUs) are awarded to adults who satisfactorily complete all course requirements for the extension courses listed. One CEU will be awarded for each ten contact hours. A permanent record of each student's CEU attainments will be maintained by Surry Community College. Continuing Education Unit transcripts of individual records are available through the Continuing Education Division.

HUMAN RESOURCES DEVELOPMENT

The Human Resources Development (HRD) Program is designed to assist those persons who are either unemployed or having difficulty holding a job.

The HRD Program constitutes a class of five weeks, meeting six hours per day, five days a week. Three hours per day are devoted to Adult Basic Education. These three hours could be a part of a vocational, technical, or other college class, depending on the need of the student. The remaining three hours per day involve Human Resources Development. The HRD part of the class is designed to acquaint the student with the world of work, the proper approach in finding a suitable job, and what is needed to keep the job after obtaining it.

Special attention is given to each individual student, and special effort is made to assist the student in obtaining employment at the end of the program. For more information, call 789-0063.

Surry Community will offer courses at the community school locations listed below. These courses are offered in cooperation with the Surry County Board of Education, the Yadkin County Board of Education, the Elkin City Board of Education, and the Mount Airy Board of Education. Registration will be held on the beginning date listed for each course. Course offerings are subject to sufficient registration and attendance.

SCC To Begin Skills Training Program

Surry Community College has begun a cooperative skills training program, Dr. Claude V. Ayers, Dean of Continuing Education, has announced. Funding to operate the program came from the North Carolina Department of Community Colleges.

"The program was especially designed by the Department of Community Colleges to respond directly to the needs of industry," Ayers said. "This unique concept

enables representatives from education and industry to work together to develop training programs which are tailored to fit industry needs."

Training needs are established through an assessment needs survey, the college dean continued. Courses are developed through cooperative planning between Surry Community College and the manufacturing industry. The program provides flexibility so that small numbers of employees can be trained.

"We are fortunate to receive funding for the project, as only 19 of the 36 technical and community colleges were chosen as training center sites," Ayers said. "Our goal during the year is to help provide training to at least 24 area industries."

Surry Community College is offering the first cooperative skills class in conjunction with Lydall Inc. in Yadkin County. The college will sponsor short courses in basic welding, basic electricity and pneumatics specifically tailored for the company. The courses will be taught to the company's industrial maintenance staff.

SCC Nurses Do Well On State Board

DORSON—Surry Community College's 1985 nursing class achieved a 96 percent passing rate on the N.C. Licensing Examination for Registered Nurses, Dr. Swanson Richards, college president, has reported.

Richards said that 26 of the class's 27 students passed the test on the first attempt. It is given nationwide and must be successfully passed before nursing graduates can be titled registered nurses.

Over the past four years, Surry Community College's nursing graduates have posted a 98 percent passing rate with 78 of the 80 graduates passing the exam on their first try.

CPE MEETING—Chaplain Phil Carter (third from left) discusses the ministry of a prison chaplain with three of five student interns at Women's Correctional Center in Raleigh. Pictured left to right are Karen Overton, Randall Johnson, Carter, and Terri Kuczynski.

Merritt resigns from SCC board

Robert Merritt, Chairman of the Board of Renfro Corporation, retired recently from the Board of Trustees of Surry Community College after serving with that group for 21 years. Merritt was appointed to Surry's Board in 1964 as one of the original appointees.

Upon his retirement from the Board, Merritt was honored with a resolution which cited the many contributions he had made to Surry Community College. He served as Chairman of the Board on three occasions and as Chairman of the Long-Range Planning Committee.

Merritt commented that when he was appointed to the newly organized college board in 1964, the present campus location was a tobacco field and the first students were not yet enrolled.

As of the fall quarter of 1985-86, approximately 2,800 students are enrolled in day and evening classes at Surry Community College. Buildings, equipment and land have a value of over \$12 million dollars.

Dairy talk

Despite enrollment, Charles Boles, an agriculture instructor, is optimistic about the future of the dairy science program at Surry Community College.

THE TRIBUNE, Elkin-Jonesville, N.C., Friday, October 4, 1985

Two show up for dairy class; fledgling course in jeopardy

By PETE FIELDS
Staff Reporter

DOBSON — Low enrollment, a problem in all agriculture courses at Surry Community College this year, has hurt the school's fledgling dairy science program here.

Two students registered for the curriculum for the fall quarter.

If more students do not sign up for the dairy science classes for the winter quarter, the college will be able to offer the program on an independent study basis only, John Collins, Dean of Career Education, said Thursday.

Although enrollment in all agriculture courses is down, Collins said he is especially disappointed in the number of students who registered for the dairy science curriculum. He was expecting at least eight to 10, he said.

Collins blamed a general

pessimism about the future of farming as the major culprit in the enrollment problem.

"Young folks, I think, are looking at any type of farming as a dead-end situation," he said. "When they feel good about the money in agriculture, they're interested; when they don't (feel good about the money), they look for other occupations."

Charles Boles, who teaches forage crops in the dairy science curriculum, said the problem is three-pronged.

First, the cost of going into dairy farming is prohibitive. Only those young people who stand to inherit a dairy farm are likely to be interested in the curriculum, he said.

Second, parents who farm are discouraging their children from going into farming. "It's the 'I want you to have a better life,' thing," he said.

Third is the general attitude towards the future of farming. "When all they (students) hear is, 'There's no future in farming,' it's

hard for them to stick it out and go with it even if they want to," he said. Boles, however, remained optimistic about the future of the curriculum.

One reason is that there are so many dairy farms in the area, he said.

School officials have been told that about 60 percent of the milk produced in the state is produced within a 60-mile area around the college.

Alleghany, Iredell and Davie counties have more Grade A dairy farms than any other North Carolina counties, while Wilkes County has the most Grade B farms.

Grade A farms produce milk sold primarily for drinking. Grade B farms produce milk used in the manufacture of other dairy products.

Another reason for Boles' optimism is the strength and stability of local dairy farms, he said.

"We're in a milk-deficient (region), a dumping ground for milk (Please Turn to Back Page)

★ Dairy courses draw few

(Continued from Front Page)

from other parts of the country because we don't produce enough for ourselves," he said. "Those dairy farmers are going to be needed."

Of tobacco, grain and other type farms, dairies are probably the most stable. They probably will not see the bust predicted for some farms, he said.

Also, with many students abandoning the farming curricula, the area may see a shortage of young people with degrees in agriculture in the next five years.

While the agriculture courses may appear in trouble, Boles said he does not see a dim future for either those courses or farming in the area.

Collins expressed the same optimism in saying that the college would stick with the dairy science program, even if on an independent study basis.

The independent-study students would attend all of the classes they normally would, except those strictly in the dairy sciences. For those classes, they would meet once a week with instructors for assignments and criticisms.

Most of the lab work is done on area farms, so there has been no large capital investment. There were no plans for large purchases for the program, since administrators felt the students could learn more on local farms anyway, Collins said.

Course instruction emphasizes milk production, field management, animal husbandry, feeding, record-keeping, fertilization and business management.

About \$9,500 was budgeted for the program for this year, but that figure was based on the needs of 15 students. A portion of those funds will be transferred to other areas where enrollment is up, for example, electronics, Collins said.

N.C. State University in Raleigh is the only other school in the state that offers dairy management courses.

\$1 million SCC project

THE TRIBUNE, Elkin-Jonesville, N.C., Monday, November 18, 1985 —

Computer center site, design sought

DOBSON — A committee has been directed to select land while an architect sketches preliminary drafts of a new computer science and electronics building for Surry Community College here.

The college trustees allocated \$700,000 last week to cover costs of preliminary planning and construction. That sum was appropriated this year by the General Assembly. The

facility will probably cost about \$1 million.

The trustees did not indicate how the remaining \$300,000 will be raised, Swanson Richards, college president, said this morning.

Fred Butner of Fred Butner Associates in Winston-Salem was named the project architect. Butner developed the design for SCC's three administrative buildings.

Richards and the building committee will pick one of three proposed

sites for the building. The committee has no preference, Richards said.

The committee will authorize soil-testing and other studies to determine which site would be most economical, he said.

The proposed sites are: northwest of the main administration building along the street between SCC and downtown Dobson, near the parking lot at the entrance to U.S. 601 Business, or on newly purchased property north of the main administration building.

Construction of the 17,000-sq.-ft. building could begin as early as March, 1987, Richards said.

The \$1 million estimated cost does not include furnishing the building or purchase of electronic equipment and computers, he said.

In other actions at the meeting:

•The board unanimously appointed

Franklin Folger of Elkin as a new trustee.

•Richards informed the board that he might request \$2,000 to transport and install new fitness equipment in January. SCC has applied for a Wells Fargo grant to cover the \$12,000 cost of the equipment. The grant includes a provision that the college pay to transport the equipment from California and install it.

•The board approved a \$100 monthly salary increase for Bill Stroupe, who will take over as chairman of the Math, Science and Physical Education departments when instructor Guy McCann retires Nov. 30.

Stroupe's salary will increase from \$2,275 to \$2,375 a month.

McCann, who started teaching at SCC the year after it opened, may continue to teach some evening math classes.

Mount Airy News Thursday, November 14, 1985.

Winston-Salem Architect Selected For Project

SCC Trustees Authorize Plans For Computer Science Building

By JUDITH SMITH
News Staff Writer

DOBSON — The Surry Community College Board of Trustees has authorized preliminary planning for a new electronics and computer science building, including the selection of a site, and the obtaining of architectural drafts and educational specifications.

Also, in a meeting of the trustees here this week, authorization was given to seek \$1 million in funding

for the work.

The project architect is Fred Butner of Fred Butner Associates in Winston-Salem. SCC Building Committee Chairman John Frank called Butner "an excellent architect with wonderful foresight," who developed the scheme for SCC's three current administrative buildings when the college land-scape "was just a tobacco field."

SCC President Dr. Swanson Richards and the Building Committee will pick one of three

proposed sites for the building. Richards has no preference yet.

"We need to take some soil borings and do some further study as to which location would prove most economical," he said.

The proposed sites are: northwest of the main administration building along the street between SCC and downtown Dobson, close to the parking lot at the entrance to U.S. 601 Business; and on newly purchased property north of the administration building.

Also at the trustees meeting:

—It was noted that Richards might ask the board to approve \$2,000 to transport and install new fitness equipment in January. SCC has applied for a Wells Fargo grant to cover the \$12,000 actual cost of the equipment, with a provision that the college pay to transport it from California and install it on an old playing field west of campus, between SCC and downtown Dobson.

The town of Dobson also has expressed interest in limited usage of

the equipment.

—Richards commented on college programs in relation to local industry.

"One thing that SCC hasn't had the resources for is to work closely with personnel in industry," he said. "We have not yet tried to design classes to go to industry, classes like refrigeration and air conditioning, and machine repair. I've talked with N.C. Granite Corporation (a Mount Airy firm) about helping them with expansion and new machines, and

for those interested in small business, helping them with things like taxes and cash flow."

Richards said a plant could continue to operate during such phases of instruction. "We need to go out and contact industry and make a real effort in doing so."

—The college president asked the trustees to approve \$5,000 to pay the annual salary of a registrar to continue night registration for SCC.

(Continued on Page 16A)

of Elkin city schools, which they are. "This will benefit both sides because it will allow the schools to continue their night activities," Richards said.

The board unanimously agreed upon Franklin Folger of Elkin as a new trustee, and approved a \$100 monthly salary increase for Bill Stroupe, who will take over as

chairman of the Math, Science and Physical Education Department when longtime instructor Guy McCann retires on Nov. 30.

Stroupe's salary will be raised from \$2,275 to \$2,375 a month.

McCann, who was one of SCC's first instructors — coming to the institution the year after it was built — may continue to teach some

evening math classes. "He was a strength to this institution," Richards said. "I know of no one who worked better with students."

Another personnel change was made when the board approved the hiring of Diane Johnson as a temporary instructor in the Computer Science Department. Johnson had been working in the lab part-time.

Elkin Tribune Nov. 20, 1985

SCC board member retires

DOBSON — The chairman of the board of Renfro Corp. has retired from the Board of Trustees at Surry Community College.

Robert Merritt was appointed to

Surry's board in 1964. He has served as chairman of the board three times and also as chairman of the long-range planning committee.

McCann Ends 18-Year Career At Surry Community College

Educator Says It's Students, Not Money, That Provided Pleasure

By JODI SMITH
News Staff Writer

DOBSON—"Without meaning to sound corny, I believe the difference between a good teacher and a bad one boils down to love—the love a teacher has for teaching and for his students. Guy McCann has that love."

Carlos Surratt, dean of evening instruction at Surry Community College, was talking about longtime SCC math instructor James Guy McCann, who officially retired from full-time teaching on Nov. 30.

That "love," however, won't let McCann leave the education field, or his students. He will continue on a part-time basis at SCC instructing one day and one evening class.

McCann, 63, began working at the college about 18 years ago, in September 1967, when it opened.

"When I first got here, there were a lot fewer students, less than 200, now we've got over 2,000. My first year here I knew all the students on campus. You don't do that anymore," McCann said. He taught some night classes at SCC in 1965 before the classrooms were built, with classes held then at nearby Surry Central High School.

Born in a rural area of Alleghany County near Roaring Gap, McCann moved to Dobson, where he now lives, in 1944. Before joining the SCC faculty, he taught math at North Surry High School for eight years, from 1959 to 1967.

McCann also taught at Dobson High School for three years, and for a year at Flat Rock High School, which has since been consolidated into North Surry.

"There used to be eleven county high schools altogether," said McCann, "and eleven separate football teams. The old Schools School only had two teachers at time. The consolidation of them into three county schools allows them to offer a wider variety of classes, but I don't know whether that's good or bad."

"I thought it was nice when the high schools were more in the communities and parents felt more a part of the schools," McCann continued. "But then we couldn't offer the variety we have with a larger school. It's sort of a trade-off."

McCann recalls his years at North Surry and SCC fondly.

"I had a ball at North Surry and have had at the college as well. Things have gone very smoothly here at SCC. It's been most enjoyable because Dr. Richards (the college president) is probably the best man in the country to work for, and Carlos Surratt, the dean of the evening college, is probably the best instructor I ever met. It's been more than pleasant."

McCann will continue to teach one daytime College Algebra and Trigonometry course and one Technical Mathematics course in the evening on a part-time basis.

In his first year at SCC, he taught one course of college parallel physics. All his other courses have been math.

"We first started in 1967 with just three buildings. The same gentleman owned all this land before it was built up, and he wouldn't sell until a worthy enough cause came

along. I guess he felt the college was sufficient. He could have sold it 100 times before because of its location," recalled the veteran teacher.

Students Have Made Job Interesting

McCann has seen many changes at SCC, but says the quality of education has remained about the same.

"We've got more courses now, but the quality has been good from the very beginning. I really think we have an excellent staff, from the administration to the people that sweep the floors."

"But the thing that makes it what it is is the students," he continued, "for me anyway." It seems the students might not agree. According to several of McCann's former students who came to speak to him in SCC's student union last week, "the thing that makes it what it is" is largely McCann, and teachers like him.

"He is super—patient, understanding, always willing to help. He most definitely helped me overcome my fear of mathematics," said Nancy Brown, a mother of two and an SCC graduate from Courtney now attending part-time and teaching evening physical education classes.

"He wants you to really understand the procedure behind what you're doing," she continued.

"He always used to hold a study time and show up an hour before class started and stay late to be there for anyone who needed help. He really cares about his students. The best word for him is 'grand'—

he is a masterful teacher. We'll have good instructors in the future, but I don't think we'll be able to replace Guy McCann."

"He tried to retire, but they found out they really needed him back, and we're glad we have him back," said Sue Westervelt, another of McCann's students from Beulah, who is studying electronics.

What makes McCann so dedicated to a profession with which a significant percentage of its members are dissatisfied, monetarily and otherwise?

"I hope must would do it for enjoyment. You're not going to set the world on fire financially," noted McCann, who says he has no regrets about his career choice. "If you're

dedicated to making money, teaching's not the way to go, but it's a lot of fun. The students are the biggest part of it. This is an ideal place, as far as I'm concerned."

Another enjoyable aspect of teaching at SCC for McCann is the college's continuing education branch. "I really like teaching older students at night, too. I think they've got more grit—they work all day and come here at night and are more eager to learn than anyone I've ever seen."

McCann indulges in sports as a spectator in his spare time. "I always loved sports. I used to play a lot of tennis and golf and do some hunting," he said. McCann and his wife Nancy have a son, Mike, an "electronic trouble shooter" for United Technology in Mount Airy, and a daughter, Ellen, a real estate broker in Durham.

Nancy McCann also is a teacher.

Guy McCann's rapport with students like Dale Burke and Sue Westervelt have enhanced his teaching career.

SCC seeks scholarship funds

DOBSON—The Surry Community College Foundation has begun an end-of-the-year drive to obtain funds for student scholarships and college-related activities.

During 1984-85, the foundation assisted 110 students with scholarship funds and supported activities not funded through appropriations from governmental agencies.

Information on the foundation is available at the college. Additional information on establishing individual

memorials and specific endowment contributions may be obtained from the president's office.

SCC Officials Pushing New Programs Targeted At Correcting County Illiteracy

By JODI SMITH
News Staff Writer

DOBSON—"The declared public policy of the North Carolina Constitution is to keep low cost post-secondary education available," President William Friday of the University of North Carolina at Chapel Hill said at an annual Law Conference for Community Colleges last month in Chapel Hill.

"Community college doors should be kept wide open. We need to reach at least 60 percent of the high school graduates with higher education. Until we reach the norm of secondary and post-secondary education, we have no business reducing the educational opportunities in North Carolina," Friday continued.

"The (school) president must know the students," said former Duke University President Terry

Sanford in another conference address. He urged community colleges to look at their institutional needs with a statewide perspective, and to set goals to include a universal educational opportunity with a high priority on illiteracy.

Illiteracy in Surry County is ninth highest of the 100 counties in the state at 22 percent (meaning 35 percent of adults in the county have only zero to eight years of

education), according to Dr. Claude Ayers, dean of continuing education at Surry Community College.

Jan Crawford, dean of instruction at SCC, attended the Chapel Hill conference and reported on it to the SCC Board of Trustees at a meeting last week.

College officials say SCC is doing all it can to combat the county's high

(Continued on Page 11A)

Funds For College

As part of Surry Insurance Agency's 50th anniversary last week, the Dobson firm's president, Shirley Wright, presented last a \$500 check payable to Surry Community College Foundation to Dr. Swanson Richards, SCC president. Wright, noting the importance of youth, said, "After being so successful over the past 50 years, we just wanted to put something back in the community."

SCC Offers Management Class

DOBSON—Registration for an introductory class in Farm Business Management will be held here at Surry Community College Tuesday, Nov. 26, from 6-8 p.m.

The classes, which cover budgeting, record keeping and computer use, will meet from 7-9:30 p.m. each Wednesday from Dec. 4

through March 3. Charles Boles, an agriculture technology instructor at SCC, will teach students about practical and correct applications of procedures in dealing with daily farm problems.

Further information may be obtained by calling SCC at 386-8121.

illiteracy rate. Ayers shed some light on possible causes and mentioned several such programs the college is now involved with.

"A large number of folks in Surry County with no high school education are 50 years old or older, so the illiteracy rate may relate to the fact that we have been an agricultural county down through the years. People in the past may not have seen the need to continue their education to work on the farm or in the tobacco fields. Certainly that need is changing now."

"We currently have 350 students enrolled in the high school completion program, up from 250 last year," Ayers continued, "and have implemented such courses in several industries in Surry and Yadkin counties. We're trying to identify 15 or so people wanting to continue their education, and we'll hold special classes for them in

churches, schools or other locations throughout the community."

"Also, we just got a new Plato Computer System by way of a one-million-dollar grant from the North Carolina legislature that allows for 15 to 20 computers in each community college across the state through the Department of Community Education."

The computers will aid in the teaching of certain elementary-level courses to adults, officials believe. "We now have eight computers on campus, eight in Mount Airy and four in Boonville, and we have software for grades three to eight. In the next two or three months, we should be getting software for the high school level, too."

"I hope these efforts will be helpful in providing adequate opportunity and incentive for people in the county to continue their education," Ayers said.

There's A New Day Dawning For You At Surry Community College
And With Each New Day Comes New Opportunities. Prepare To
Meet Those Challenges.

EVENING DIVISION WINTER QUARTER 1985-1986

Registration: Tuesday, November 26 6:00-8:00 p.m.

Classes Begin: Monday, December 2

NORTH CAROLINA RESIDENTS AGE 65 AND OLDER MAY REGISTER FREE OF CHARGE

*No fees will be charged to members of listening group.

For more information on any of the courses listed by calling 386-8121. Volusia County residents may pre-register by calling the center at Bunnell at 387-1502.

Continuing Education courses are located in the Department of Early and Childhood Studies where most events and topics are available. Residents of the two counties are encouraged to request materials for their communities.

Caribbean Education Units (CEUs) are awarded to adults who satisfactorily complete all major requirements for the extension courses listed. One CEU will be awarded for each completed course. A permanent record of each student's CEU attainment(s) will be maintained by Unity Community College. Caribbean Education Unit transcripts of college records are available through the Caribbean Education Bureau.

Full Day Schedule Available Upon Request
Call Admission Office At 386-8121
Registration, November 26, 1985
8:00 a.m.-12:00 p.m.; 1-4 p.m.; 6-8 p.m.

SCC names dean's list

DOBSON — Surry Community College has named its dean's list for fall quarter. To qualify for dean's list, a student must have a "B" average with no grade less than a "C" and must be enrolled for at least 12 quarter hours work.

Dean's list students from this area are:

Dwight Anthony Allred, East Bend; Maria Jean Allred, Boonville; Joseph Paul Anderson, Dobson; John Demetrius Apostolopoulos, Dobson; Michael Vernon Ayers, Dobson; David Bradley Baker, Traphill; Richard Allen Bernabe, State Road; Georgia Lynn Billings, State Road; Barry Dean Bledsoe, Dobson; Donna Gail Ward Brown, Boonville; Karen Denise Brown, East Bend; Elizabeth Charlene Bryant, Boonville; Mitchell Albert Bryant, Hamptonville; Teresa Crabb Buelin, Jonesville; Amy Jo Burcham, Yadkinville; Jerry Lee Burnette, Dobson; Patricia Lynn Wilhelm Butler, Boonville; Timothy Linwood Campbell, Boonville; Jamie Bettina Carter, East Bend; Rebecca Lynn Evans Caudill, Boonville; Mariena Ann Caudill, Boonville;

Jonathan Derek Cave, Boonville; Sammie Lynne Cearley, Jonesville; Tonya Renee Chambers, East Bend; Susan Dennis Martin Childress, Elkin; W Kay Cockerham, East Bend; Becky Regina Coe, Jonesville; William Seagraves Collins, Hamptonville; Peggy Mae Couch, Elkin; Terry Scott Craver, Yadkinville; Kerry Hayes Crotts, East Bend; Andrea Jill Davis, Yadkinville; Michelle Lynn Davis, East Bend; Amy Childress Delgado, Hamptonville; Lisa Michelle Dew, Elkin; William Michael Draughn, Elkin; Thelma Bates Durham, Yadkinville; Lori Ann Edwards, Roaring River; Thomas Lyle Einstein, Dobson; Claudia Anne Evans, State Road; Thomas Clayton Ferguson, Dobson; Annis Marie Fowler, Dobson; Suzanne German Freeman, Dobson; Janet Lynn Sprinkle Gamble, Dobson; Daria Jo Godfrey, Elkin; Catherine Smith Goodman, Elkin; Cheri Elizabeth Grinsley, State Road; Donna Suzanne Groce, Hamptonville; Michele L. Gwynn, Jonesville;

David Martin Hamrick, Dobson; Donald Lee Harris, Elkin; Jeffrey D. Hayes, Dobson; Angela Renee Hemric, Boonville; Freddie Davis Hobson, East Bend; Lynn Aaron Holcomb, Jonesville;

Gerald Wayne Jenkins, Dobson; Nancy Carol Johnson, Yadkinville; Stephen Paul King, Dobson; Julius Gregory Kirkman, Elkin; Thomas Howard Kirkman, Elkin; Patricia Jean Lane, Yadkinville; Joseph Lee Lawrence Jr., Elkin; Lisa LuRinda Lawson, East Bend; David P. Leach, Dobson; Martin Klee Liles, Dobson; Jeffery L. SCC scholarship honors attorney

DOBSON — The Surry Community College Foundation, Inc. has established a student scholarship fund in memory of Elkin attorney Hoke F. Henderson.

Henderson served in various capacities in his association with the college. He was appointed as the first board attorney for the institution, serving in that capacity for five years. In 1972, he was appointed to the board of trustees for an eight-year term. During his board tenure he was elected as chairman by his

fellow board members in 1975. Henderson also served on the board of directors of the Surry Community College Foundation Inc. from 1979 until his retirement last year.

College president, Dr. Swanson Richards, says Henderson played a major role in the establishing of the college and his influence will have a lasting effect on the institution.

Individuals wishing to contribute to the scholarship fund may send donations in care of Surry Community College Foundation Inc., P.O. Box 304, Dobson, N.C. 27017.

Who's Who' lists 30 SCC students

DOBSON — The 1986 edition of "Who's Who Among Students In American Junior Colleges" will include the names of 30 students from Surry Community College who have been selected as national outstanding campus leaders.

Campus nominating committees and editors of the annual directory have included the names of these students based on their academic achievement, service to the community, leadership in extracurricular activities and potential for continued success.

They join an elite group of students selected from more than 1,400 institutions of higher learning in all 50 states, the District of Columbia and several foreign nations.

Outstanding students have been honored in the annual directory since

it was first published in 1934.

Students named this year from Surry Community College are:

Brinda Gail Allen, Dwight Anthony Allred, Stefanie LaRay Boley, Danny Lee Bottoms, Barbara Stevens Brindle, Rebecca Lynn Caudill, Timothy Gray Caudill, Dara Lynne Collins, John R. Dobbins, Karen Denise Doub, Anita Carol Elliott, Susan N. Flynn, Janet Lynn Gamble, Van Loren Gough, Curtis Thomas Jackson;

Also, Lisa Gay Jones, Judy Gail Kallam, Barry Wayne Kenny, Toni R. Ledford, Vicki Goodwin Lloyd, James Dennis Lowe, Robin Mooney Marsh, Dawn Sabina Matthews, Rita Kay Poplin, Wanda Grey Snyder, Cheryl Roberta Stewart, Richard Kip Thomas, Kevin Neil Willis, Elizabeth Dawn Wolfe and Frances Jackson Wood.

THE TRIBUNE, Elkin-Jonesville, N.C., Monday, January 13, 1986

Program To Begin At SCC

DOBSON — Starting Monday, a certified nursing assistant training program will begin at Surry Community College for persons 18 and older free of charge.

The program, entitled the "Older Workers Project," will give participants the chance to become certified nursing assistants, for which there is a huge demand in Surry County, according to Jamie Childress of the Pilot Mountain Parks and Recreation Department.

The project is sponsored by Yadkin Valley Economic Development District Inc. (YVEDDI), a local governmental agency. It will pay all fees for registration, tuition, required textbooks, supplies needed and even accident and liability insurance.

Uniforms and shoes, along with certification and CPR pins, also will be purchased for all participants upon completion of the course.

Employment counseling will be offered along with job placement opportunities. Possible job outlets for certified nursing assistants, Childress says, include positions within health departments, nursing or rest homes and private duty in-home care.

Throughout the course, training will be given in Basic Nursing, Long-Term Care, Geriatric Care, Cardiopulmonary Resuscitation, Human Relations-Communication and Orientation and Motivation.

Classes will be held for 10 weeks, six hours a day, each weekday. Transportation and dependent car costs will be covered for those reporting that.

All interested persons should contact Childress at 368-2347 or Doyle Haselden at 367-7251 as soon as possible, as the classes will begin Monday.

Surry Community College Working Hard To Enhance Job Opportunities For Grads

By JODI SMITH
News Staff Writer

DOBSON—Surry Community College officials are looking for ways to increase the number of graduates that find local employment and remain in Surry County.

SCC President Dr. Swanson Richards believes that improved communications between the college and area employers would enhance job opportunities for the college's graduates within the county.

"It's one of the reasons we're working harder with the placement office to pinpoint students with the right skills for jobs within the county, and to assess local company needs," Richards said.

He cited industrial training assistance for area employees as a priority item for 1986.

Dr. James Reeves, vice president of student services at the college, reported several recent job placement endeavors to the SCC Board of Trustees Monday.

Reeves mentioned a three-day job hunting skills workshop, open to the public with free admission, that is scheduled Feb. 18-20. The seminar will begin at 9:30 each morning and end at 10:30 a.m. on Feb. 18 and 19 and 11:15 a.m. on Feb. 20.

Featured speakers will include Brian Jones of R.J. Reynolds Industries' Personnel Department, Personnel Director Tom Bagnal of the Renfro Corp. in Mount Airy and Linda Joyce of the Mount Airy office

of the Employment Security Commission (ESC).

Workshops on resume-writing, interviewing and the job application process will be held, as well as discussions of state and federal job opportunities and alternatives to a tight job market. Participants will include representatives of the armed forces and the ESC.

Additionally, starting on Feb. 1, an office will be provided for the first time for an ESC representative to be on campus twice weekly to work with students concerning part- and full-time employment.

Also, Reeves says that about eight companies will visit the campus to interview students this year, about the same as last.

Dr. Jan Crawford, the school's dean of instruction, said SCC's technical and vocational programs have been reviewed in light of state standards and student needs. Crawford says he has talked with many students and "as always, are trying to upgrade our programs."

"The IBM lab now has 20 personal computers in full operation, and we will be receiving \$10,000 to upgrade our drafting software. We've got bids out now for the hardware to go along with it. We will be tied in with computer numerical control equipment in the machine shop to provide computer-assisted drafting," Crawford said.

It was further noted that Adams-Mills Corp. in Mount Airy was the first company to use SCC's new videotape training program. The tape is geared for supervisory and

higher levels of training, for use in Surry and Yadkin counties.

Workshops also will be held on Friday and Saturday for 22 employees of such area firms as Weyerhaeuser, Wayne Poultry and Exposed, on LOTUS I, II and III — a computer spreadsheet. Crawford said computers are being used more by farm families, and that SCC is helping train several such families and local businesses to implement computer capabilities.

"We have put \$350,000 to \$400,000 into new computers and equipment in the last few years, and I think we

need to set aside a part of our budget now to maintain them five years from now," Richards said. He predicted that the college would spend roughly \$175,000 to \$200,000 to train employees of the new Elkin Weyerhaeuser plant over the next three years.

He said another SCC goal and budget consideration in 1986 is more involvement in assisting the county's professional sector, via needs assessment, medical, legal and dental assistant training, computer implementation and the renewal of teaching certificates.

Graduation day

Program participants include Ruth Wilmoth, Dobson; Tootsie Loftis, Mount Airy; Josephine Brown, Hamptonville; Priscilla Sheek, Yadkinville; Aileen Hodges, Dobson; Avis Cheek, Hamptonville; Helen Woodruff, Elkin; Kathryn McKeithan, Mount Airy; Mamie Hill, Dobson; Gladys Collins, Dobson; Mary Gwyn, Dobson; Frances Hensley, Jonesville and Bonnie Hardy, instructor.

Program graduates third class from Surry college

DOBSON — The Older Workers Project (OWP) funded by a grant through the Job Training Partnership Act (JTPA) and operated by Yadkin Valley Economic Development District, Incorporated (YVEDDI) graduated its third class of 12 certified nursing assistants from Surry Community College here Dec. 13.

The grant was awarded to YVEDDI to provide nursing assistants training to 25 economically disadvantaged older adults aged 55 or older in Davie, Stokes, Surry and Yadkin counties. The Older Workers Project is designed to provide older adults with increased job skills to enable them to compete for job openings in the health care profession through specific skill training development, counseling, job development and job placement. Additionally, participants receive supportive services, such as transportation, registration, tuition, books and supplies, uniforms and shoes, dependent care, health care, financial counseling and legal assistance to enable them to remain in the project

until completion.

The course began Oct. 2 with 13 participants enrolled. Twelve of the 13 enrolled graduated. The JTPA participants ranged in age from 55-70 years of age. The class received training in basic nursing, cardiopulmonary resuscitation (C.P.R.) and long term care.

The class clinical training was conducted at Hugh Chatham Nursing Center, Northern Hospital of Surry County and Surry Community Nursing Center in Mount Airy.

Graduation exercises with presentations of certified nursing assistant certificates, certified nursing assistant pins and C.P.R. pins were held at the college. A Dutch-treat luncheon at The Lantern in Dobson was attended by the entire class. Maxine Reynolds, counselor/recruiter/specialist, and Bonnie Hardy, instructor, attended.

The training these participants received in this course qualifies them to be employed in hospitals, health departments, nursing homes, rest homes or in private homes to provide in-home nursing care.

RCC Officials Ask For Funds

Officials Asked To Purchase Land Near Community College

By JODI SMITH
News Staff Writer

DOBSON — Surry Community College officials have requested \$100,000 from the county to buy a 3.5-acre tract behind the school for future development.

SCC President Dr. Swanson Richards and college board of trustees member Oscar Smith asked the county commissioners Monday night to consider the proposal when the county's 1986-87 fiscal year budget considerations begin in April.

Also requesting county funding Monday were representatives of Reeves Community Center (RCC) in Mount Airy. RCC Executive Director Terry Pruett and board of directors member Gene Rees asked for an additional \$7,000 for a citywide recreation program contracted with Mount Airy officials.

Land Funds Sought

The property sought by SCC, just west of the college off Cave Mill Road, would be a "good deal," according to Smith.

"We've had an exploratory committee examining this, and the Bank of Pilot Mountain has agreed to let us have the land at a low eight percent interest. I think if we wait much longer we might have to pay quite a bit more for it," he told the commissioners.

The bank has foreclosed on the property and is trying to sell it; its actual cost would be about \$195,600 — \$2,000 an acre. The last property the college bought, 3.5 acres for a new computer science-electronics

Surry CC To Hold Financial Aid Meeting Thursday

Enterprise, January 29, 1986, Page 5-B

The week of Jan. 27 through Feb. 1 has been proclaimed by Governor Jim Martin as "Student Financial Aid Awareness Week" in North Carolina. The North Carolina Association of Student Financial Aid Administrators is sponsoring a statewide campaign to help make

students and parents aware of the financial aid resources available to them for 1986-87.

In conjunction with this special project, Wayne Molsinger, the director of financial aid at Surry Community College, will conduct a Financial Aid Information Meeting on Thursday, Jan. 30, at 7 p.m.

This meeting will be held on the college campus in the Science Lecture Room.

Molsinger said his discussion will be designed for any students and parents interested in financial aid for 1986-87, whether college attendance is planned for Surry Community Col-

lege or any other college or university.

The purpose of the Student Financial Aid Awareness Week is to create awareness of the student financial aid programs that are available to students. With the increasing rise in costs for postsecondary education, the need for stu-

dent financial assistance to meet these costs has become vital to many students and parents.

Students should begin the application process as soon as possible. Typical student financial aid application procedures include the filing of financial information

with a recognized need analysis services such as American College Testing or the College Scholarship Service.

Many institutions also require that students file an institutional financial aid application in addition to the need analysis documents.

SCC, City Schools Sponsoring Special Classes

News Staff Report

Mount Airy schools and Surry Community College are sponsoring a series of classes at Mount Airy junior and senior high schools which will start this month.

The classes are open to people 16 and older. There is no charge for senior citizens wanting to enroll.

The courses include:

—Men's Basketball, which will start Thursday at the junior high school gymnasium at 6:30 p.m. The instructor is Jim Wilmoth and there is a \$4.25 fee.

—Introduction to Computer Science, to begin Monday at the junior high. The course, which will meet from 6 to 10 p.m. each Monday, will be taught by Jim Grow. There is a \$12.75 charge.

—Basic Tennis, which also begins March 10, at the high school. There is a \$4.25 fee for the classes that will meet at 6 p.m. each Monday. James Hayes is the instructor.

—Small Engine Repair, to be held at the high school on Wednesdays starting March 12 at 6:30 p.m. There is a \$15 charge for the course, which

Guy Money will instruct.

—Introduction to Art, which will meet on Wednesdays starting March 12 at the junior high school at 6 p.m. There is a \$12.75 fee for the course, to be taught by Matt Rogers.

All courses will last 11 weeks. Registration will be held the first night of each class.

It's National Community College Month, And SCC Is Celebrating

By JODI SMITH
News Staff Writer

DOBSON—Surry Community College officials say the school is honoring "National Community College Month" in a variety of ways. February was recently designated by President Reagan to recognize the more than 1,000 technical, community and junior colleges in the nation.

Jim Reeves, vice president for Student Services at SCC, said the month has been recognized through representative clubs on campus, as well as a blood drive by nursing students.

"The Student Government Association (SGA) has also hosted a student leadership development seminar for all four county high schools, as well as Patrick County High School and two in Stokes County, in conjunction with Community College Month," Reeves said.

SGA President Brinda Allen said the seminar, which included workshops and lectures on developing leadership skills, was a success. It also introduced prospective students to SCC and its SGA.

The number of high school graduates choosing a technical community college education over a four-year university degree is increasing, and Reeves believes one of the reasons could be the advantages technical students have in the job market.

"In comparison with a pure liberal arts degree, our students might have an edge on the job market. Many

fields are becoming more and more technical in nature. This is only in terms of employment, however, because I believe society needs liberal arts majors as well," said Reeves.

He says that although the job market is still tight, SCC is doing much work with different companies to place students in positions (Continued on Page 9A)

SCC Theft Prompts Reward Offer

whose department is investigating the robbery along with the State Bureau of Investigation. Anyone with information about the theft is asked to call the office of those agencies.

DOBSON—Surry Community College is offering a reward as part of an investigation relating to a missing Apple computer. The computer, along with two Apple disc drives and an Apple II printer, were reported missing from the college's technical building on Jan. 21. According to Clyde H. Johnson, SCC's vice president for administrative services, the school is offering a \$500 reward for information leading to the recovery of the equipment, and the arrest and conviction of whoever is responsible for the theft. The equipment has a total value of nearly \$1,000, according to Dobson Police Chief Robert "Red" Aronson.

relating to their community college education.

SCC President Dr. Swanson Richards also believes that technical and community colleges are a fine training ground for the technical skills required by the U.S. military today. Richards pinpointed this function of the community college as an area to be developed and concentrated upon.

Governor Comments On Vocational Education

Nearly half of all undergraduate students in America attend technical and vocational institutions, which provide specialized training for more than 1,000 different occupations.

In light of this, Gov. Jim Martin

stated recently that attention should be focused on "the critical roles our public schools and our community college system are playing to help ensure our state's continued economic vitality."

"The community college system, working with the public schools, must continue their partnership in vocational education to help our young people make a comfortable transition from the classroom to the working world," the governor stated.

He added that technical schools have always maintained an "open-door" philosophy—working to keep quality high and costs low for students of all ages. Martin also called these institutions "community-based," allowing for programs and services designed to meet the unique needs of local industries and populations.

Former Gov. Robert W. Scott, president of the state Department of Community Colleges, said that nearly 60 percent of this year's high school freshman class will go directly from school to a job with no advance training beyond what they received in high school, with or

without a diploma.

He added that only 16 percent of those students will take advantage of advanced vocational or technical education offered through the community college system.

Scott addressed the Raleigh Chamber of Commerce recently with a proposal to better coordinate and simplify vocational training in North Carolina, saying there were "too many actors on the broad stage of vocational training."

North Carolina has 38 community and technical colleges and institutes located across the state, placing it among the nation's largest community college systems.

More than 6,000 adults enroll in community college classes in North Carolina each year. Martin added that the community college system also "reaches out to adults lacking basic literacy skills and provides them with free classes and training in order to help them take their place in a productive society."

In all North Carolina vocational agencies, including seven governmental departments, about a million state residents are provided with vocational training each year.

NORTH CAROLINA RESIDENTS AGE 65 AND OLDER MAY REGISTER FREE OF CHARGE.
* Notices will be charged to members of life-saving groups.

Registration and tuition fees are set by the North Carolina General Assembly.

You may pre-register for any of the courses listed by calling 386-8121. Yadkin County residents may pre-register by calling the center in Boonville at 367-7562.

Classes will begin as soon as sufficient registration permits. These persons pre-registered will be notified of starting dates.

Continuing Education courses are located in communities in Surry and Yadkin counties where need exists and space is available. Residents of the two counties are encouraged to request courses for their communities.

Continuing Education Units (CEUs) are awarded to adults who satisfactorily complete all course requirements for the extension courses listed. One CEU will be awarded for each 16 contact hours. A permanent record of each student's CEU attainment will be maintained by Surry Community College. Continuing Education Unit transcripts of individual records are available through the Continuing Education Division.

DO YOU NEED A JOB?

The Human Resources Development Program helps people get jobs! The service is available to anyone who is eighteen or over who is having difficulty in finding employment. Before placement on a job, the individual is asked to participate in training on how to get a job and keep it so that a good reference can be established with the Human Resources Development staff.

If you would like additional information, call 788-8843.

Surry Community will offer courses at the community school locations listed below. These courses are offered in cooperation with the Surry County Board of Education, the Yadkin County Board of Education, the Elkin City Board of Education, and the Mount Airy Board of Education. Registration will be held on the beginning date listed for each course. Course offerings are subject to sufficient registration and attendance.

COOPERATIVE SKILLS TRAINING CENTER

The State Board of Community Colleges has approved Surry Community College as a Cooperative Skills Training Center for the 1985-86 fiscal year. Cooperative Skills Training is especially designed to respond directly to the needs of industry. Courses are developed through assessment of training needs and cooperative planning between Surry Community College and manufacturing industries. The training will be directed toward industrial type occupations such as machine maintenance and industrial maintenance.

For more information regarding training programs available to industry, contact Cooperative Skills Coordinator at 386-8121, Extension 255.

Evening credit courses are offered through the Evening Division of the College each quarter. Call the Evening Division for more information at 386-8121.

Surry Community College provides educational opportunities to both men and women without regard to race, creed, national origin or handicap.

SCC Trustees Authorize Drawings For New Building

By JODI SMITH
News Staff Writer

DOBSON—Officials of Surry Community College (SCC) gave architect Fred Butner, of Fred Butner Associates in Winston-Salem, the go-ahead Monday to begin preliminary schematic drawings of the school's new computer science and electronics facility.

The drawings, which are to be submitted to the board of trustees for final approval and any minor adjustments, will provide a blueprint of the building to help establish its size and estimated cost. Final drawings will then be submitted to the state property control agency for approval, a process SCC President Dr. Swanson Richards says could take a minimum of six months, "but more like nine."

The property control agency will set the architect's fee contingent on the size of the facility, with a larger building yielding a smaller percentage of the total cost.

Richards added that a strip of land behind a row of houses north of the school Administration Building, which was bought this summer, appears to be the most feasible and

(Continued on Page 3A)

SCC Trustees

(Continued from Page 1A)

cost-efficient site for the new facility at three locations under consideration.

Other property being considered for the construction is near the SCC parking lot at the entrance to U.S. 501-Business, and along S. Main Street in Dobson.

The land was bought in July for \$42,982 through an appropriation from the N.C. General Assembly. The trustees also voted at their meeting Monday to ask the county commissioners to transfer \$42,500 from standby funds to a capital outlay fund for construction costs.

A letter to the board from the N.C. State Board of Community Colleges says that in order for SCC to utilize a remaining \$242,111 of the \$700,000 state appropriation it received last year for construction, it must have an additional amount of local funds as an overmatch. This would bring the total to \$942,111.

The college has not reached the point of having to match the grant with local monies, but that is a budget consideration for the upcoming fiscal year.

To help meet this future figure, the trustees authorized a request to be made to the commissioners for a minimum of \$60,000 to be added to \$42,500 targeted for operating costs of the facility. Also, \$32,018 is available from leftover funds from a \$75,000 land purchase appropriation in July.

Because requirements say that state funds must be matched locally on an equal basis, SCC could use up to \$400,000 in state appropriations before having to match it with extra local dollars. Thus, the \$32,018 left

SCC wants \$100,000

DOBSON — Trustees of Surry Community College here will ask the county for an extra \$100,000 toward construction of a computer science and electronics building. The trustees voted Monday to request the funds in its budget request for the fiscal year 1986-87, starting July 1. The total cost of the building and equipment will be about \$1.1 million. To obtain \$700,000 allocated by the General Assembly for the project, the school must match with \$250,000 in local funds. \$150,000 in county money has been provided. The college plans to use another \$150,000 from the state community college's equipment fund for building furnishings and equipment, Richards said.

DOBSON—The inscription on the Surry Community College seal says it all: "To Each His Farthest Star."

Sometimes this means supplying vocational training to prepare a county resident for a job in a competitive field, or basic studies for a would-be doctor or lawyer planning to transfer to a university. And it can mean just an occasional night class for someone who wants to sharpen their skills in a certain area.

In these and other ways, SCC proves daily that its motto is more than five words on a piece of paper.

In 1985, helping one reach "his farthest star" has a unique meaning. This is a high-tech era that even the far-reaching thinkers who first envisioned the Dobson college in 1960 would find baffling.

But in keeping with a tradition of innovation, SCC spent much of 1984 refining

curriculums to help people reach their goals, no matter how high, in fields like computer science.

"Industry is rapidly moving into computer-controlled technology," explained John K. Collins, the school's dean of career education.

"We're moving into that area just as fast as we can gear up for it."

SCC's Computer Engineering Technology program, now in its second year, is closely allied with electronics courses that the college has offered since 1966. Both are part of the school's two-year technical program, which allows students to gain skills for immediate employment in a variety of fields.

SCC now has about 160 computer and electronics students and the number is growing as more people realize those industries are "booming," Collins noted.

The rewards speak for themselves: some 54 electronics students from SCC have recently found jobs with major

companies around the state, and Collins expects similar success when the first computer graduates leave school this year.

He pointed out that SCC was the first institution of higher learning in the state to offer hands-on training in the types of computerized systems such manufacturers as R.J. Reynolds use to control machinery.

The college also was the first in the area to offer courses in digital electronics. When they began in the mid-1970s, enrollments doubled every year for about three years and waiting lists for some classes were long, Collins recalled. Friday afternoon and weekend classes in these areas are not a rarity, he added.

High-tech has also invaded SCC's Automotive Mechanics department, where students are receiving instruction on a computerized testing unit for vehicles. In this area, too, the aim is to help would-be mechanics operate the kind of electronic

equipment that auto dealerships and modern repair shops have.

The school has been able to obtain this and other sophisticated training devices through wise use of equipment allocations it receives from the state community college system, rated one of the best in the nation.

Collins also mentioned plans to offer industrial training to meet the skills needs of Weyerhaeuser and other new companies that are expanding to the area.

Hoping For New Building

Course additions in the electronics and computer fields have left Surry Community lacking in facilities to meet the space needs of these areas.

"Electronics and computer science have grown so fast, it's just tucked in corners here and there," Collins said. "They need reorganizing, more space."

This has led to plans for an estimated

\$1.1 million "high-tech building," the SCC official said. The college will learn this summer if funds will be available for the project, which would be paid for by the college system and the county commissioners.

Dairy Program Planned

Surry Community College's high-tech advancements have not kept it from recognizing needs of a business thriving in the area long before the floppy disc arrived.

Another of its big goals is beginning a Dairy Management Technology program this fall. Collins said it is tailor-made for Surry and surrounding counties, which contain 28 percent of the Grade A dairy herds and some 75 percent of the Grade B herds in the state.

The program would provide courses both for those now in the dairy business

(Continued on Page 4)

SCC (Continued from Page 1)

and newcomers to the field.

"A lot of kids want to stay on the farm. They can't take four years to go away to school," Collins remarked.

Individual classes would stress technical, scientific and managerial concepts, teaching a basic knowledge of dairying along with record-keeping and animal and crop science.

The college is trying to establish the program in response to requests from area dairy associations and agricultural agents.

Students Unique

SCC is a "comprehensive" institution, meaning it is a combination community college, technical school and vocational training center.

Its student body is unique. Yet

they share a general bond.

"Most of our students are sacrificing somewhere along the line

to attend school," Collins observed.

"A lot are in the 25- to 40-year-old range, with obligations — second- and third-shift jobs and children. They can't stay in class all day."

"This has made for a remarkable student body. In my fifteen years

here, we have never had a serious discipline problem," he continued.

The varying student population has meant flexible scheduling, a wide array of night classes and other developments to help the working man or woman gain knowledge.

At the same time, SCC is a practical alternative for the younger, full-time day students hoping to transfer to another school for a bachelor's degree. Many of them find they can get the same course-load during their first two years at Surry Community that they would get at a four-year college or university — at a much lower cost.

The years of planning that have evolved the school to this point have allowed it to become many things to different people.

But regardless of the ambitions of each, everyone is encouraged to grasp that farthest star.

Surry Community College offers training in such trades as auto mechanics (above) and welding (bottom left). At right, a student monitors one of the school's new 'toys', a computerized testing unit for cars.

Community college's summer session starts June 9

Surry Community College will begin its summer session with registration scheduled to begin June 9. New and returning students may register from 8 a.m. until noon, 1 p.m. until 4 p.m., or 6 p.m. until 8 p.m.

Classes are available for regular Surry Community College students, both full-time and part-time, who wish to continue their studies during the summer. New students may begin summer quarter as a full-time or part-time student. Special courses for students entering Surry this Fall or entering some other college or university will again be offered. These programs provide people with the opportunity to complete a full year of English, math, Spanish, history, biology,

or chemistry. These courses are fully transferable.

Full programs are available in approximately 12 technical or vocational areas. These include secretarial science, accounting technology, electronics, drafting, machinist technology, horticulture, agricultural technology, agricultural business technology, welding, auto mechanics, and carpentry. These may be taken on a full-time basis or be taken one or two courses each quarter during the day or evening.

Counselors will be available to help anyone desiring to take one course or begin a full program. Interested persons should call the college admissions office at 386-8121.

Vol. 43-No. 4

APRIL, 1986

in a very secure day care job and after a few years of employment moved to a clerical position in the same business. She had a "new beginning." Another student, Mary, had been working for around twenty years in sewing, but due to her health was not able to continue in that line of work. While attending H.R.D., she received her GED and obtained a job in a health service facility working with crafts (of which she was already talented) with emotionally, physically, and mentally handicapped adults. She has been employed for over nine years at the same place.

These are two of the many success stories of the H.R.D. Program at Surry Community. The program, in operation for 12 years at Surry Community College, is designed to help the students develop the problem solving and communication skills which are necessary to get and keep a job. The program also helps the student upgrade basic education skills and work toward receiving a high school equivalency diploma if the student is not already a high school graduate.

The curriculum covers such topics as preparation of job applications and resumes, interview techniques, employer-employee relations, and self-confidence building. Also, improvement on education for the high school graduate or non-high school graduate.

Although H.R.D. does not guarantee a job, placement rate in the past year was 90% for those completing the program. The increase in income for the student, along with the decrease in public assistance, shows a net return to the tax payer several times the investment in the program.

The H.R.D. course is held in the Martin Memorial Community Health Center (beside the hospital) in Mount Airy. Each class cycle is five weeks, Monday through Friday, 8:30-3:00 each day. There is no cost for the course and all materials are provided free of charge. The staff can be reached at 789-0063 and will be happy to take applications to provide additional information. This program is offered in 45 of the technical and community colleges across the state. H.R.D. is one of the best ways the state has found to invest \$1 and get a \$3 return in public assistance (unemployment benefits, food stamps, and AFDC) reduction and increased income for graduates. It gets people off public assistance rolls and onto taxpayer rolls, but even more importantly, it becomes a stepping stone to a better future for the state's unemployed adults.

Editor's Note: Wilkes County Residents call 667-7136 - Ask for Morris West for further information. Carolyn Flippin in Surry County, 789-0063.

For The Future You Never
Thought Existed

When Linda first entered the Human Resources Development (H.R.D.) Program, she was an unemployed laborer whose husband had left her before she had given birth to their first child. She was deeply depressed and receiving AFDC and Food Stamps. After completing the class, she became employed

College Trustees Will Request \$ 619,988 From County Coffers

By JOHN SMITH
News Staff Writer

DOBSON—The Surry Community College Board of Trustees will be requesting a total of \$619,988 from the county for the upcoming fiscal year.

The bulk of that figure will go for operating funds, including utility and building maintenance costs, and vehicle, equipment and facility repairs, at a total of \$507,488.

The trustees approved the budget request at their meeting Monday.

Also on the priority list are two

requests for capital construction funds for a proposed computer science facility — \$60,000 for the 1986-87 fiscal year, and \$42,500 held over for property bought for the site. The total \$102,500 will allow the college to match an in-kind state grant received last year for the building's construction.

SCC's vice president for administrative services, Clyde Johnson — who drew up the budget proposals — said the \$42,500 had been allocated from the county to buy the land last year before the state's

also will be requesting a \$10,000 buffer for possible future land acquisition.

College President Dr. Swanson Richards said the budget request projects a 3.5 percent increase in county funding over the \$490,123 received last year. The state pays all general administration and instruction costs.

A fixed charges line item in the budget reflects an increase of \$11,403 over last year, with liability insurance rates nearly tripling — from

(Continued on Page 2A)

College Budget

(Continued from Page 1A)

\$13,350 to \$37,642. Other fixed charges include legal fees, unemployment insurance and workmen's compensation, to bring total projected fixed expenditures to \$132,692.

Additionally, the board approved a preliminary tentative combined budget estimation for 1986-87 of state, local and internal expenditures and appropriations, estimated at \$8,653,786.

Appropriations from the state are merely speculative until the General Assembly adjourns and all state funding decisions are rendered. Federal funds are still subject to cuts through Gramm-Rudman as well.

The overall budget figures reflect an expected 5 to 8 percent teacher salary increase to be mandated by the General Assembly.

Board Chairman Bonnie Stuart, who attended a recent budget conference in Raleigh, said it was "frightening" to learn that North Carolina ranked 12th out of 14 southern region states in salaries for community college instructors, just below West Virginia, South Carolina and Kentucky.

After the expected increase, salaries will still be below the \$23,635 regional average, at \$20,810.

NORTH CAROLINA RESIDENTS AGE 65 AND OLDER MAY REGISTER FREE OF CHARGE.

*No fees will be charged to lifesaving groups.

Registration and tuition fees are set by the North Carolina General Assembly.

You may pre-register for any of the courses listed by calling 386-8121. Yadkin County residents may pre-register by calling the center in Boonville 367-7562.

Courses will begin as soon as sufficient registration permits. Those persons pre-registered will be notified by mail of starting dates.

Continuing Education courses are located in communities in Surry and Yadkin counties where need exists and space is available. Residents of the two counties are encouraged to request courses for their communities.

Continuing Education Units (CEU's) are awarded to adults who satisfactorily complete all course requirements for the extension courses listed. One CEU will be awarded for each ten contact hours. A permanent record of each student's CEU attainments will be maintained by Surry Community College. Continuing Education Unit transcripts of individual records are available through the Continuing Education Division.

DO YOU NEED A JOB?

The Human Resources Development Program helps people get jobs! The service is available to anyone who is eighteen or over who is having difficulty in finding employment. Before placement as a job, the individual is asked to participate in training on how to get a job and keep it so that a good reference can be established with the Human Resources Development staff.

If you would like additional information, call 789-0063.

Surry Community will offer courses at the community school locations listed below. These courses are offered in cooperation with the Surry County Board of Education, the Yadkin County Board of Education and the Elkin City Board of Education. Registration will be held on the beginning date listed for each course. Course offerings are subject to sufficient registration and attendance.

COOPERATIVE SKILLS TRAINING CENTER

The State Board of Community Colleges has approved Surry Community College as a Cooperative Skills Training Center for the 1985-86 fiscal year. Cooperative Skills Training is especially designed to respond directly to the needs of industry. Courses are developed through assessment of training needs and cooperative planning between Surry Community College and manufacturing industries. The training will be directed toward industrial type occupations such as machine metalworking and industrial maintenance.

For more information regarding training programs available to industry, contact Cooperative Skills Coordinator at 386-8121, Extension 265.

Graduates

Sixteen complete retail sales course at SCC

Sixteen retail merchandising students graduated from Surry Community College's Older Worker's Project funded by a grant from the Job Training Partnership Act.

The purpose of the project is to provide retail sales/merchandising training to persons aged 55 and older from Davie, Stokes, Surry and Yadkin counties who want to be trained as retail sales clerks and work in department stores, variety stores, supermarkets or any type retail establishment.

The 11-week course began Feb. 3 with 19 participants who received training in general merchandise retailing, product technology, marketing skills, good work habits and the retail salesperson.

Participants received supportive services such as transportation, registration, tuition, books and supplies, dependent care, health care, financial counseling and legal assistance to allow them to remain in the project until completion.

Additionally, supportive services were provided by N.C./Va. Green Thumb, Inc., an employment program for persons aged 55 and over funded by the U.S. Dept. of Labor.

Graduates were Beulah Gibbons of Mount Airy; Estelle Vernon, Dobson, Rt. 3; Treva Davis, Dobson, Rt. 3; Althea Spencer of Mount Airy; Marie McCann of Mount Airy; Lennis Nunn, Mount Airy; Pauline Atkins of Ararat; Cleo Gough of Hamptonville; Dorothy Shelton of King; Aileen Hodges, Dobson, Rt. 1; Vernie Edwards of Mount Airy; Catherine White, Elkin, Rt. 1; Mary Barker, Elkin, Rt. 1; Hallie Davis of Mount Airy; Ila Kinley, Elkin, Rt. 1; and Everette Metz of Francisco.

Program participants were Beulah Gibbons, Mount Airy; Maxine Lineberry, Thumb Area Leader; Estelle Vernon, Dobson, Rt. 3; Treva Davis, Dobson, Rt. 3; Althea Spicer, Mount Airy; Marie McCann, Mount Airy; Lennis Nunn, Mount Airy; Pauline Atkins, Ararat; Wilbur Hiatt, instructor; Cleo Gough, Hamptonville; Maxine Reynolds, counselor/recruiter/specialist; Dorothy Shelton, King; Aileen Hodges, Dobson, Rt. 1; Vernie Edwards, Mount Airy; Catherine White, Elkin, Rt. 1; Mary Barker, Elkin, Rt. 1.

THE TRIBUNE, Elkin-Jonesville, N.C., Friday, July 4, 1986

Students Make Dean's List At Surry Community College

The following students made Dean's List at Surry Community College during the spring semester of 1986.

Debra Lynn Atkins, David Christopher Atkins, Elizabeth Faye Atkins, Michael Vernon Ayers, Nancy Jean Bannister, Patricia Joella Battista, Deborah Babbins Bann, Robert David Bann, Wendell Lynn Bales, Kimberly Dawn Benson, Agnes Jackson Bennett, Pamela Leigh Bennett, Georgia Lynn Billings, Robert Delann Blanton, Marjorie Marie Bolan, Stefanie L. Lary, Nolan, Gary Lee Bullock, Trisha Jean Byrnes, Jorrell Thomas Byrnes, Teressa Rose Byrnes, Jeshi Jane Byrnes.

College President Expresses Concern For New Law Doubling Out-Of-State Fees

By JODI SMITH
News Staff Writer

DOBSON—The tuition for out-of-state students at Surry Community College (SCC) will nearly double, starting this fall.

According to SCC President Dr. Swanson Richards, out-of-state tuition will increase from \$250 to \$504 for the fall quarter, as mandated by the General Assembly, and possibly to \$710 in June 1987.

SCC President Dr. Swanson Richards looks over plans for a new computer science building at the school in conjunction with Monday's trustees meeting.

"We're concerned about the effect this will have on our students from Virginia. People in the Carolina and Ararat area consider Surry their school, and we encourage them to come and feel like a part of the community. Part of that is also shopping in Mount Airy and Elkin, which helps our economy," noted Richards. He added that the current out-of-state enrollment includes about 75 students (5 percent of the student population). Of each dollar spent shopping, one-and-a-half cents (soon possibly two cents) goes directly to the county and municipalities in sales tax.

"We have a larger number of students from Virginia than other community colleges in North Carolina. We think it's because they know of our excellent programs, as well as our geographic proximity to the Virginia border. We'd like to see the tuition remain where it is, so as not to be a deterrent to those students."

SCC also has a significantly greater number of students receiving financial aid than most of the other community colleges in the area.

"We have gotten some excellent

students from Virginia, who have really made a contribution to the college as well as to the work force in the area. We reap a double reward in that respect," Richards explained.

The college administrator made the SCC Board of Trustees aware of the increase at its Monday meeting. He noted in a later interview that he believes the public as well as area merchants and groups like the Chamber of Commerce should be aware of the change. Richards also has contacted the Surry Economic Development Commission and members of the County Commission.

"I am alerting the public to the situation, and then if they feel as I do, they should contact our congressmen and voice opposition to the second tuition increase. We certainly wouldn't object to any extra help in the matter," Richards added, saying he'd like to see the \$504 reduced, but doesn't see much hope of that.

"We want to freeze it at \$504 at least, and eliminate the possibility of an additional \$206 increase by next year's General Assembly," he

(Continued on Page 3A)

The Mount Airy News

Tuesday, July 15, 1986-3A

SCC Fees

(Continued from Page 1A)

said.

There is also a possibility that the school could lose additional state funding, in the event that full-time student enrollment in the fall quarter falls below 3 percent of a figure set by the state Department of Community Colleges, and based on past enrollment.

Richards sees no real problem with that, however. The same policy applied last year, when 1,830 full-time equivalent students were budgeted for by the state each quarter, and the college had no problem meeting that quota. "But it's always a threat," he admitted.

For the 1986-87 school year, the enrollment number has been set at 1,900 full-time students. If enrollment drops to 1,843 (minus 3 percent) or less, SCC will lose supplemental funds. Richards says the exact amount will not be known until the General Assembly

reconvenes.

There is a more positive side to the rule, however. If enrollment at SCC exceeds 1,900 by 3 percent or more next fall, the school will receive funding in addition to what will be appropriated.

SCC officials are expecting enrollment to be high in the upcoming year. "We had an excellent enrollment last fall, and it looks like we will again this year," said Richards.

Enrollment for the second six-week summer term will be held Wednesday at the college.

In other business Monday, SCC Vice President of Administrative Services Clyde Johnson presented the final 1986-87 budget to the board of trustees for its approval. The \$8,030,825 budget represents an approximate 25 percent increase over last year's \$7,009,855 budget.

No major increases or amendments were noted, with the exception of a 5 percent across-the-board salary increase for all employees as appropriated to the county by the state.

The budget notes that \$290,521 will be available for Pell Grants to needy students this year, and Richards added that the SCC Foundation "will probably begin discussing ways to intensify efforts to offer more financial aid scholarships for books and tuition to needy students."

The school also will receive a total state current fund appropriation of \$5,759,016. As might be expected, a large part of that appropriation — \$2,357,019 — will go toward technical, vocational and trade training. Similarly, \$830,006 has been allocated from the state

for continuing education in the following areas: academic, vocational, avocational, practical skills and supervision.

The total county current fund appropriation to the college — covering areas like general administration, curriculum supervision, student services, maintenance and operations — is \$613,588.

Richards noted that the school also received a significant amount in state funding for new industry training last year, which it has "put to work" at the new Lenox candle plant (\$21,208), at Weyerhaeuser's new factory in Elkin (141,000), and now at Hamlin Casting Co. in Pilot Mountain (\$14,600).

Additional funds for continued training at Weyerhaeuser will be requested in this year's budget, to a projected total of \$275,000 by

September.

The plant will not begin actual production until December, but is currently undertaking practice "dry-runs," Richards added that additional funds would be requested if training was sought by other new or existing industries in the area.

The new budget was adopted unanimously by the trustees, contingent on appropriations from the General Assembly and the state Department of Community Colleges.

Also Monday, the SCC board elected a new chairman and vice-chairman, both currently serving on the board. Floyd E. Rees will be the new chairman, and Jewel Jarrell the new vice chairman, effective in September. Both officials live in Mount Airy.

Certified Nursing Assistants

The Older Workers Project, funded by a grant through the Job Training Partnership Act and operated by Yadkin Valley Economic Development District, Inc., recently graduated a class of certified nursing assistants from Surry Community College. Reading from left to right are, first row, Joy Hlatt, Rt. 1, Dobson; Geneva Stewart, Pilot Mountain; Ethel Atkins, Ararat; Louise Draughn, Rt. 2, Dobson; Lena Hooper, Lafa (Wimpie) Burge and Sadie Banks, all of Mount Airy. Back row: Bonnie Hardy, instructor; Edie M. Boyles, Pilot Mountain; Freeda Doby, Rt. 2, Dobson; Betty Richardson, Rt. 2, Dobson; Ollie McIntyre and Audrey Hlatt, both of Mount Airy; and Nat W. Venning, JTPA program director. Not present when the picture was made was Nelta Howard, Rt. 1, Dobson.

12 — Times-Foothills, Tuesday, July 8, 1986

SCC reunion date set

DOBSON — The second annual alumni get-together for all former Surry Community College students will begin with a social hour at 6 p.m. on Aug. 16 at Cody Creek Park, 1.5 miles south of Dobson on U.S. 601.

Following the social hour, there will be a pig-pickin' with all the trimmings. Cost for the event is \$5.

Anyone interested in being a part of the alumni association, should send a name and address to Surry Community College, c/o Dr. Carlyle Shepherd, P.O. Box 304, Dobson, N.C.

2917-4304. Also include the years you attended Surry Community College.

Surry Community College Alumni Plans Pig Pickin'

SCC Alumni Pig Pickin'

The Surry Community College Alumni Association invites all former students and their spouses or guests to a social hour and a "pig pickin'" on Saturday, August 16. The event will be held at Cody Creek Park, located 1.5 miles south of Dobson on Highway 601. Festivities start at 6 p.m.

Those planning to attend are asked to mail in your name and address, spouse or guests' name and address and \$5 per person. This will be the total cost for an evening of music, fund, eating, socializing and reminiscing.

Send the above information along with a check to cover reservations to: Surry Community College Alumni Association, c/o Dr. Carlyle Shepherd, P.O. Box 304, Dobson, N.C. 27017-0304.

For further information, contact Dr. Shepherd at 386-8121 or Jerry Noble, president of SCCAA, First Citizens Bank, Dobson, N.C. 27017 or (386-8145).

To those unable to attend the picnic, but would like to be kept informed of the Alumni Association meetings and events, please send your name, address and phone number to the above address. Also if you know other folks that live out of town that would be interested, please share this article with them.

JWC Establishes Scholarship

The Mount Airy Junior Woman's Club Scholarship has been established at Surry Community College. Funds received from the local club will be channeled through the Surry Community College Foundation, Inc., which will use these funds to award two scholarships to students enrolled at Surry Community College from the Greater Mount Airy area.

Left to right are Wayne Molsinger, Gail Theard, Dr. Swanson Richards and Jeannie Noble.

The student recipients may be recommended each year by the Mount Airy Junior Woman's Club with final approval given by the Financial Aid Committee of SCC.

Recipients are selected, based on the following criteria:

- Must be women who have chosen to continue their education through night classes;
 - Should preferably be parents and at least 25 years old;
 - The need of the students should be taken into consideration.
- The two scholarships will be valued at \$150 each and will be renewable each year. The money will cover the cost of tuition and books.

Present when the scholarships were established were Dr. Swanson Richards, president of Surry Community College; Wayne Molsinger, Director of Financial Aid of the college; Gail Theard, education chairman of the Junior Woman's Club; and Jeannie Noble, club secretary.

Series Of Forums At SCC Opens With Segment On Surry History

By KATHY KELLER
News Staff Writer

DOBSON—A two-hour crash-course in Surry County history was presented during a humanities forum at Surry Community College Tuesday night entitled "Whatever Happened to Jesse Franklin and The Slaves Twins?"

It was the first of three forums running on the main theme of "Surry County: From Farm To Factory—What Good is an Education?" being presented at the college.

Tuesday's forum began with an overview of Surry County — from its rural roots to its "modern urban industrial society" — presented by Dr. Carl Ross, a history professor and director of the Center for Appalachian Studies at Appalachian State University.

"Ninety-five percent of Americans, at the time of the Revolutionary War, lived in a rural setting," Ross said. "That has drastically changed today."

"Agriculture was the real basis of American prosperity," he continued. "Farmers are the only major successful group in American society that have not been rewarded for their success."

Ross told of the founding of Surry County by settlers mostly from Pennsylvania and Virginia — "This is the original American frontier."

He explained that the majority of the settlers, being of Scotch-Irish, German and Huguenot heritage, were farmers and herdsmen — raising cattle and hogs in the woods of the area to help support their farming.

Although there were a large number of people in the county at the time of the American Revolution, "by the early 1800s, a large number of people were moving out of the area," the professor said.

"The county had its heyday by the end of the War of 1812," said Rodney Pell, a social studies teacher at North Surry High School and one of five panelists who spoke at

the forum.

"After that, the planters' sons left and went southward. That is the reason we fell behind by the end of the Civil War — we lost our culture...our opportunity to advance," Pell explained.

"Surry County was an important seed bed for populating the American nation," Ross said. "If you check closely, you can trace people from this frontier area to the Pacific Ocean."

Diverse Religious Groups Located In County

Religion also was important to the people of Surry — "The folks in Surry County had a fairly common religion; it was their source of strength and almost all were Protestant — the dominant religion being Calvinist," the professor said.

"Have you ever thought about the

diversity of religious denominations in the county?" asked R.O. Poplin, another panelist who is a history professor at the college. "Virtually every denomination you can think of is represented in Mount Airy."

Surry County was a part of the early industrialization of the nation. "Grist mills were one of the first evidences in the Piedmont of industrialization," said panelist James A. Hutchins, a semi-retired history teacher at the college.

The panelists explained that the mills made it possible to change corn into "liquid corn," which was easier to transport and provided ready cash.

"There were also many iron foundries in North Carolina — one in Ararat," added Poplin. "A great proportion of the woods were cut

(Continued on Page 14A)

SCC Forum

(Continued from Page 3A)

down to make charcoal to provide fuel for their furnaces."

"Our real transition came when the railroads arrived," said panelist Marion Venable, a county historian. "They made it possible for small industry to get their products out of the county, and for other cultures to come in."

"I think the automobile has been a force to keep Surry County more rural in appearance at least," added panelist William Sanders, another SCC history professor. "The reason people can still live or farm, is that they can commute quickly to factories."

"I think the automobile, as much as anything else, enabled us to

keep the family farm — to help substantiate the family income with cash (by providing a means to get to industry jobs)," Sanders said.

The audience also participated in the discussion by asking questions, and in some cases, providing answers. Questions ranged from details about the Bunkers — the Slaves Twins who lived in Surry — to why there is an anti-government feeling in the county, which can be traced to the early days of the its feelings of independence and isolation.

"I was really pleased with the turnout (of about 50 people), and I thought the discussion was very

interesting," said Thurmon Hollar, the forum director and an instructor at the college.

"I thought it was a real natural exchange of ideas. It made us aware of our past — and that made the forum," Hollar said today.

"Where Has Mayberry Gone and Do We Want It Back?" is the title of the second forum scheduled May 7, and "Where Are You Going, Surry County?" is that of the third, scheduled May 21. Both forums will begin at the college's Teaching Auditorium at 7 p.m. and are open to the public at no cost.

Registration dates set for SCC

DOBSON — Fall quarter evening class schedules are available at Surry Community College here by calling the college office at 386-8121.

Registration for fall quarter is scheduled for Sept. 4, from 8:30 a.m.-noon, 1-4 p.m. and 6-8 p.m. Classes begin Sept. 8 and continue through Nov. 24.

THE TRIBUNE July 28, 1986

SCC Program Highly Successful In Placing Graduates

DOBSON—In the past year, the placement rate for "graduates" of the Human Resources Development Program (HRDP) at Surry Community College (SCC) reached an all-time high of 95 percent.

The program, developed 12 years ago, is a course in job-hunting and related skills for those who need a helping hand getting into, or back into, the work force. Since its inception with 50 students enrolled, the HRDP has helped an average of 100 students each year find jobs, with a retention rate that is also increasing annually.

"The program is designed to help the student develop problem-solving and communication skills necessary to get and keep a job. It also helps participants upgrade basic education skills and work toward receiving a high school equivalency diploma if necessary," said SCC Dean of Continuing Education and County School Board Chairman Dr. Claude V. Ayers.

In the past year, the retention

rate of HRDP graduates retaining a job for at least the one year the program monitors, is 77 percent. That is also an all-time high, according to HRD Program Coordinator Carolyn Flippin. The increase in income for the student, along with a decrease in public assistance, show a net return to the taxpayers several times the financial investment in the program.

"For instance, if a student becomes gainfully employed through the program and is able to go off or decrease public assistance (welfare), that is a positive thing for the person, the program, and the taxpayer," Ayers said.

"We've placed 106 people in jobs through the program in the past year, mostly in local manufacturing and textile plants as well as other areas," he added.

Ayers says "graduates" who have been placed in jobs are evaluated on their work performance at three-month, six-month, and one-year intervals "to determine if the HRD Program had an advantage

for that person."

"Graduation" from the program is synonymous with finding a job, even if that happens before the course is completed. Flippin said only eight participants this year did not "graduate."

Funding for the program comes from the state level, and is based on those interval evaluations of on-the-job performances. The program curricula covers preparation of job applications and resumes, interview techniques, employer-employee relations, and self-confidence building, Flippin said, as well as educational improvement for both the high school and non-high school graduate.

"Anyone who wants to work and is not working or working at a low income level or has a record of job

jumping is eligible for the program," she added. "Students don't have to be on public assistance. We get a lot of housewives whose kids have grown and they need a little push getting back into the work force."

"For those who lack the basic educational skills, we just concentrate on reading and writing and the general application process in seeking employment."

The five-week HRD course is held in the Martin Memorial Community Health Center beside Northern Surry Hospital in Mount Airy, weekdays from 8:30 a.m. to 3 p.m. Tuition, books and supplies are free. For more information, contact 789-0063 from 8 a.m. to 4 p.m., Monday-Friday.

Landscape Gardening Classes Scheduled at SCC

An introductory Landscape Gardening Class will be offered by the Evening Division of Surry Community College during the fall quarter. Among the topics covered in the class will be the selection, care, and proper use of landscape plants. Portions of the class will be spent on practical and correct applications of procedures. Many day to day landscape problems will be discussed. Charles Boles, agriculture technology instructor at SCC, will teach the class.

Registration will be held on Thursday, Sept. 4 from 8:30 a.m. to 12 noon 1 to 4 p.m. and 6 to 8 p.m. The class will meet first on Monday, Sept. 8 and on each Monday evening from 7 to 9:50 p.m. through Nov. 24.

Further information about application, pre-registration, or registration may be obtained by visiting the Evening Division office at Surry Community College or by calling 386-8121.

SCC accepting applications for 1986 fall quarter

THE TRIBUNE,
August 18, 1986

DOBSON—The 1986-87 school year will mark the beginning of Surry Community College's 22nd year of instruction. In 1965 the college offered its first classes and enrolled 180 part-time students. The fall registration headcount in 1985 exceeded 2,800 students in day and evening programs.

Pre-registration for the fall quarter is underway for classes during both the day and evening. Space is available in all programs except nursing. Students who have not pre-registered should contact the college for enrollment information during the next two weeks. Financial aid is available to all students who qualify for assistance.

Admissions offices are open between the hours of 8:30 a.m. and 9 p.m. Monday-Thursday and 8:30 a.m. until 4:30 p.m. on Friday. The financial aid office is open between the hours of 8:30 a.m. and 4:30 p.m. Monday-Friday. Interested persons may call (919) 386-8121 or come by the college during these hours of information.

Registration day for the fall quarter is Thursday, Sept. 4, with classes beginning on Monday, Sept. 5.

Landscape Gardening Classes Scheduled at SCC

Times-Foothills, Tuesday, August 19, 1986

An introductory Landscape Gardening Class will be offered by the Evening Division of Surry Community College during the fall quarter. Among the topics covered in the class will be the selection, care, and proper use of landscape plants. Portions of the class will be spent on practical and correct applications of procedures. Many day to day landscape problems will be discussed. Charles Boles, agriculture technology instructor at SCC, will teach the class.

Registration will be held on Thursday, Sept. 4 from 8:30 a.m. to 12 noon 1 to 4 p.m. and 6 to 8 p.m. The class will meet first on Monday, Sept. 8 and on each Monday evening from 7 to 9:50 p.m. through Nov. 24.

Further information about application, pre-registration, or registration may be obtained by visiting the Evening Division office at Surry Community College or by calling 386-8121.

At local colleges

Financial aid still available

By TONYA V. SMITH
Staff Reporter

Unlike students enrolled in many state-supported colleges and universities, students planning to attend local community colleges aren't playing the waiting game for decisions on financial aid—if they completed their applications on time.

Financial aid officers at Surry and Wilkes community colleges said their institutions are not encountering the difficulty in receiving funds that has been reported at other state colleges and universities.

However, students who decided to apply for aid at the last minute shouldn't expect to receive their awards until the middle of the term. Alan Whittington, financial aid director at Wilkes Community College, said Monday.

"The only problem we are having is with kids just deciding to go to school," Whittington said. "It takes 4-6 weeks to process their forms, which means students who applied late will not have aid to pay registration fees."

Students who want to receive aid early in the school year have until Aug. 29 to apply. But students can apply for pell grants, the most popular form of financial aid, anytime.

"We want to encourage students to apply for aid, because it's not too late," Wayne Molsinger, financial aid director at Surry Community College, said. "They'll just get their money late, but we will back-pay . . . reimburse their money."

Due to an increase in tuition costs, the maximum money avail-

able from pell grant awards has also increased, Molsinger said.

"Tuition has increased from \$57 a quarter to \$72 a quarter for in-state students," Molsinger said. "The pell grant has been increased to offset the tuition increase."

Molsinger said for students receiving maximum pell grant awards, the increase will pay for all the tuition hike with money to spare.

However, out-of-state students

are not as lucky.

Tuition for out-of-state students increased by almost 50 percent—from \$261 to \$510. While pell grant awards for those students has increased, it's not enough to offset the rise in tuition costs.

Molsinger said about 800 students at Surry Community College received some type of financial aid last year. More than 400 of those were awarded full or partial

Crocheting classes offered at SCC

DOBSON — Two 33-hour crocheting I courses have been scheduled for fall term through Surry Community College.

A course will be held at the Mount Airy Community Action Center beginning Tuesday, Sept. 9, from 12:30-3:30 p.m.

A second crocheting I course has been scheduled to begin Wednesday, Sept. 10, in room L-11 on the Surry Community College campus in Dobson. The campus course will also be held from 12:30-3:30 p.m. Emmella Sladmore will teach both courses.

A \$25 registration fee will be charged. North Carolina residents age 65 years and older may register free.

For more information, you may call the Continuing Education Division of Surry Community College at 386-8121.

SCC offers government class

DOBSON — The Evening Division of Surry Community College will offer a three-hour course in American State and Local Government during fall quarter.

The organization, functions and powers of state and local government in the United States will be studied. Hugh Mills, local attorney, will teach the course.

Advising and pre-registration for

fall quarter is in progress. Registration will be held Sept. 4 from 8:30 a.m.-noon, 1-4 p.m. and 6-8 p.m. The class will meet on Wednesdays from 7-9:50 p.m. during the fall quarter. The first class meeting will be Sept. 10.

Information about application and registration may be obtained by calling 386-8121.

SCC establishes theater course

DOBSON — Beginning with the fall quarter, Surry Community College will offer the first in a series of courses in theater.

Don Barnes, who has worked closely with the Surry Arts Council for the past two years, will be teaching a course in drama application. This is an introductory course directed to the theater audience member.

Included will be an explanation of basic principles, facts, opinions and techniques involved in any dramatic stage, screen or television production. Pre-registration for the course is under way. Registration for fall quarter classes will be held on Thursday, Sept. 4.

Barnes has 23 years of professional experience in theater as a teacher, director and actor. He holds an MFA Degree in both acting and directing with a minor in Theater Criticism from the University of North Carolina at Greensboro and a BA Degree in Theater and Speech from Catawba College.

He directed all of last year's productions for the Surry Arts Players and just recently directed

"The Music Man" for the local group. Barnes, who resides in Mount Airy, will also direct the

next two shows in Mount Airy, "Night Must Fall" and "The Importance of Being Earnest."

WHAT DO PEOPLE SAY ABOUT SURRY COMMUNITY COLLEGE?

"Surry Community was a great way for me to 'get my feet wet' in college." After two years of study at Surry, I transferred easily to UNC-Chapel Hill.

Angie Scott, Dobson

"The faculty and staff are all very helpful and friendly. This is especially good for a new student. I am glad I decided to attend Surry Community."

Robin Key, Rockford, N.C.

"Surry Community College has given me an opportunity to live at home and save some money while getting a good education."

Ted Williams, Yadkinville, N.C.

"Because of the training I received at Surry Community, I have been able to establish my own business in electronics and videos. My classmates have been equally successful since completing their program."

Mitch Foster, Co-Owner

Tri-County Video-Electronics

"We have much praise for Surry Community College. Our son, Gordon, has the highest respect for every instructor he had there."

Mrs. Wayne Walters

New Visiting Artist Hoping To Stimulate Interest In Classical Music In Surry

DOBSON—"I'm trying to get the message across that musicians and artists are normal people," remarked Nathan Williams. "I want to reach those who are starved for classical music and stimulate those who have no interest in classical music."

Williams, an accomplished clarinetist, arrived here Aug. 5 and will be living and working in Surry County until June as part of Surry Community College's visiting artist program. A native of Asheville, he has played the instrument since elementary school and has studied at Brevard Music Center and under the instruction of the principal clarinetists of the Vienna Philharmonic Orchestra in Vienna.

In 1965, Williams earned a master of music degree in performance and literature from Eastman School of Music in Rochester, N.Y., and he has won numerous competitions and awards for his accomplishments in the field.

Yet, the artist stresses that he is not a "classical music snob," nor is he a "clarinet nerd."

"I am simply fascinated by the clarinet because I think it is the most beautiful instrument with the widest range of sounds," Williams explained. "Most people have an idea of the clarinet as a squeaky instrument they hear in a high school band."

"It's a real challenge to make it sound beautiful," he added, "and I love to perform and share my music."

Williams plans to give several concerts while he is here for church groups, civic organizations and the general public. His first recital, set for Sunday, Oct. 5, at 3 p.m. at the Andy Griffith Playhouse in Mount Airy, will be co-sponsored by the Surry Arts Council as well as the community college.

"I especially want to work closely with the school systems to reach all age groups," noted Williams. "I hope to work with elementary students to help give them a love of music."

He added that his performances will be geared toward all age groups, and will

Believing that everything can be improved with practice, Williams prepares for an upcoming clarinet performance at the Andy Griffith Playhouse.

include contemporary music and comical pieces as well as works by Mozart.

Williams said he tries to put his audience at ease and banish any preconceived notions they might have about classical music and a performance of clarinet music.

"Most people will be really surprised if they come to a performance," he noted. "It's an informal, relaxed atmosphere where I talk to the audience and tell them about the music. I don't want them to feel intimidated (by a lack of knowledge about classical music) or to feel left out."

The musician believes most people can

grow to like — or at least appreciate — anything in life once they learn more about it. He said classical music is no exception, and through his performances he wants to help people understand and learn to enjoy the music.

"In performing, the biggest challenge is reaching the people," said the young visiting artist.

"I want my performances to be thought-provoking and emotional. I just want to make people laugh, and cry, sing and dance through my music."

FALL QUARTER REGISTRATION
Now Through September 4
Call 386-8121 Today!

SURRY COMMUNITY COLLEGE
Dobson, North Carolina

Shorthand topic of class

DOBSON — Surry Community College will offer an evening class in shorthand I - BUS 103 in the fall quarter. This class is the first in a three-quarter series of classes which are required for a secretarial degree. Registration will be held on Thursday, Sept. 4 from 8:30 a.m.-noon, 1-4 p.m. and 6-8 p.m. The class will meet first on Tuesday, Sept. 9 from 7-9:30 p.m. and on each Tuesday and Thursday evening through Nov. 20.

Further information about registration or class content may be obtained by calling the evening division office at Surry Community College (386-8121).

THE TRIBUNE, Elkin-Jonesville, N.C., Wednesday, September 10, 1986

SCC plans COBOL class

DOBSON — A class in COBOL programming will be offered by the evening division of Surry Community College in the fall quarter. This is the first of a two-quarter sequence of COBOL programming. Prospective students should have an introductory course in computer science and a good business mathematics background. The class will meet on Thursdays from

6-9:50 p.m. Interested students should apply and pre-register as soon as possible.

Registration will be held on Thursday, Sept. 4 from 8:30 a.m.-noon, 1-4 p.m. and 6-8 p.m. The first class meeting will be on Thursday, Sept. 11.

(Continued from Page 1)

Williams also hopes to establish an exchange program with other visiting artists across the state in order to bring several different art forms to the people of Surry County.

NORTH CAROLINA RESIDENTS: AGE 65 AND OLDER MAY REGISTER FREE OF CHARGE

*This will be charged to members of the Mount Airy News.

The fee for each course is \$15.00. The fee for each course is \$15.00. The fee for each course is \$15.00.

On day will be held at the Mount Airy News. These persons will be notified of starting dates.

Continuing Education courses are located at communities in Surry and Yadkin counties where seed and soil are available. Residents of the two counties are encouraged to request courses for their communities.

Continuing Education Units (CEUs) are awarded to adults who satisfactorily complete all course requirements for the extension courses listed. One CEU will be awarded for each ten contact hours. A minimum of three CEUs is required for each student. CEU attainment will be maintained by Surry Community College. Continuing Education Unit transcripts of individual records are available through the Continuing Education Division.

DO YOU NEED A JOB?

The Human Resources Development Program helps people get jobs! The service is available to anyone who is eighteen or over who is having difficulty in finding employment. Before placement on a job, the individual is asked to participate in training on how to get a job and keep it so that a good reference can be established with the Human Resources Development staff. If you would like more information, call 386-8121.

Surry Community will offer courses at the community school locations listed below. These courses are offered in cooperation with the Surry County Board of Education, the Yadkin County Board of Education, the Elkin City Board of Education, and the Mount Airy Board of Education. Registration will be held on the beginning date listed for each course. Course offerings are subject to sufficient registration and attendance.

COOPERATIVE SKILLS TRAINING CENTER

The State Board of Community Colleges has approved Surry Community College as a Cooperative Skills Training Center for the 1985-86 fiscal year. Cooperative Skills Training is especially designed to respond directly to the needs of industry. Courses are developed through assessment of training needs and cooperative planning between Surry Community College and manufacturing industries. The training will be directed toward industrial type occupations such as machine metalworking and industrial maintenance.

For more information regarding training programs available to industry, contact the Director of Cooperative Skills Training at 386-8121, Extension 265.

STUDENT ACTIVITIES DIRECTOR

Position Available At Surry Community College. Initially This Will Be A Full-Time, Temporary Position For Nine Months. Applicant Should Have An Interest In Clubs, Student Organizations & Activities. Successful Applicant Will Work In These Areas As Well As Other Student Service Areas. Closing Date October 1, 1986.

Candidates Address Issue Of Out-Of-State Tuition Hikes For Community Colleges

Wednesday, September 17, 1986

Classes at the college, out-of-state enrollments this year are 23 percent lower than last, he said. "These people from Virginia work here and they pay state taxes here," stated Richards. "A lot of people don't know that, but if you work in North Carolina, you pay North Carolina state taxes." "They shop here and they pay five percent sales tax," he continued. "They pay three percent to the state and two percent to Surry County." "I say these people are already paying their way." Others attending the forum at the Derby Cafeteria included Democratic House candidates Wade Wilmoth and Judy Hunt, GOP House incumbent Marshall Hall and Democratic Bill Goldston and A.P. "Sandy" Sands, who are vying for the N.C. Senate. Goldston is an incumbent in his first two-year term.

Candidates seeking office in the North Carolina legislature in the November election met here Tuesday to discuss concerns for the community college system generated by a hike in tuition costs. Due to a recent increase that nearly doubled out-of-state tuition charges at the state's community colleges, the candidates attending the Mount Airy Chamber of Commerce forum were asked to address that issue. Officials of Surry Community College in Dobson have expressed concern that some residents of nearby Virginia counties will be unable to afford the higher cost.

"I'm very much opposed to the increase in out-of-state tuition, especially at Surry Community College," noted Mount Airy resident John Davis, a Republican

What Will You Do?

Out of work, out of school, out of luck and out of hope — a gloomy picture to say the least.

But it is a very real picture for millions of Americans and as many as 50 percent of the population 25 and older living in Surry County cannot read. The problem of illiteracy in our country is a national disgrace.

An exchange student from Finland, speaking at the local Rotary Club recently, was asked about illiteracy in her country. She was noticeably surprised at the question. Her response alludes to her surprise. In Finland everyone can read.

Statistics clearly indicate that the U.S. is headed on a disastrous course with regard to illiteracy. In some states, close to 90 percent of the prison population is illiterate. In some areas as many as 80 percent of the unemployed are illiterate. We do not know the percentages of people on public welfare who cannot read, but we are confident they are a reflection of the same trend.

The all-too obvious problem, as it relates to the standard of living for many Americans, is illiteracy. youths who cannot read who become adults who cannot read the telephone book, a prescription, a birthday card, highway signs, voting ballots, newspapers, books or anything. Welfare programs and "creating" jobs is not the answer.

The answer is pure and simple — individual commitments at the local level. It is going to take much time and effort to even put a dent in the illiteracy problems in Surry County. Just ask Dick Howerton and Bill Pearson and others working with the county Literacy Council. Ask Dr. Richards, Claude Ayers or Judy Riggs at the community college. These folks have made a frustrated beginning but they need a helping amount of support and help.

According to those already involved in attacking the problem of illiteracy in Surry County, the most frustrating part is discovering who the illiterates are (no one feels comfortable with other people knowing they cannot read), encouraging those who cannot read to get involved in a reading program, making them feel comfortable with their decision, helping them get to and from instructional classes and reassuring them they will not be exploited and that there is a good chance they will have a one-on-one tutor.

During the coming weeks and months you will be reading and hearing a lot about illiteracy and what communities big and small are doing to correct the problem. The Surry Literacy Council will be distributing information through churches and businesses about its program. Information is available daily at Surry Community College about its Basic Education program. For the fall quarter, there were 664 adults enrolled in programs at the college. Through the help of concerned individuals and civic organizations that number can easily double.

Volunteers also are needed by the council to become tutors. All that is required is that you can read well and that you take 12 hours of training to become a tutor. Those already involved say the rewards are immeasurable.

We know this is a busy time of year for each of you, but we challenge you to set aside some hours in the fast-approaching new year to help attack the problem of illiteracy in Surry County. We will only become an enlightened community in an enlightened nation when we all join together to bring those living in darkness into the light.

Out of school, out of work, out of luck, out of hope — what will you do to lend a helping hand?

SCC Enrollment Adversely Affected By Tuition Hike For Out-Of-State Students

By JODI SMITH
News Staff Writer

DOBSON — A recent major tuition hike for out-of-state community college students in North Carolina has affected Surry Community College enrollment adversely, in its unique situation near the Virginia border.

In Fall 1985, 1,449 on-campus students were enrolled at SCC. This past fall quarter, that number dropped to 1,225, marking a special significant decrease in out-of-state enrollment. Enrollment of Virginia

students at SCC has averaged about 150 yearly in curriculum programs.

"Virginia enrollment this fall quarter was considerably down, especially for freshmen. Upperclassmen tend to come back again," noted SCC President Dr. Swanson Richards.

"Surry has enrolled excellent students from Virginia in the past years. These students tend to graduate and are placed in industries in Surry County, making excellent employees. Several industries pay tuition of their

employees to attend SCC; therefore increased tuition penalizes these industries."

Richards said that nearly 40 percent of all Virginia students who take classes at a community college in North Carolina attend Surry Community College.

"The geography makes our situation unique here," he explained. "The mountain barrier pushes residents of Carroll and Patrick counties down into our area rather than up into Virginia. They get our TV and radio signals and are just

more a part of our community because of the mountain divider."

Up until the past fall quarter, Virginia students paid the regular fee of \$255 per quarter (\$21.25 per credit hour) for a full course load.

That fee has been raised by the N.C. General Assembly to \$504 per quarter (nearly a 50 percent increase), with a probable additional jump to \$702 in 1987.

In-state students now pay only \$66 per quarter for a full course load. Last year, they paid \$51.

(Continued on Page 9A)

Tuition Hike

(Continued from Page 1A)

"It Doesn't Seem Fair"

"I feel like the increase wasn't a good move from the standpoint of our particular area, where Virginians contribute so much to the economy. Many of them work and shop and pay sales and income taxes in Surry County — it doesn't seem fair to penalize them for that," the college president said.

"Many students we have from Virginia count Mount Airy and Surry County as theirs. They are employed here and attend school here and seek services in North Carolina. I think we rather need to encourage them to come in and to continue their education and improve job skills. It makes for a stronger economy."

Richards says the college's board of trustees has met several times to discuss the issue, and will make an all-out effort to persuade the General Assembly to freeze the tuition at \$504 and make out-of-state North Carolina taxpayers who work in-state and their families exempt from the recent hike.

Board of Trustees Chairman Floyd E. Rees has met with 40th District N.C. House representative David H. Diamond of Pilot Mountain to discuss that possibility. Diamond says a freeze may be possible, but a repeal is probably not.

"It would be very difficult to roll it back now," said Diamond. "The uniqueness of the situation to SCC makes it difficult to get people to back us up. Our approach will be to seek a freeze at \$504 and just wait to see how well they receive it."

Diamond did not know when that proposal would be made.

Members of the Mount Airy Chamber of Commerce's Government Commission also met recently with state representatives to discuss what might be done to help the situation. Richards said the state officials seemed concerned and said they would do what they could on the school's behalf.

The school administrator says his office has not really received many complaints from Virginia students on an individual basis. Richards attributes that in part to the "top-notch" job the Student Personnel Division is doing to assist Virginia students with scholarship money and financial aid information.

Rockingham Community College at Wentworth, Piedmont Technical Institute at Roxboro and Roanoke-Chowan Community College at Ahoskie are also close to the Virginia border and serve Virginia students. Richards said that none, however, have the close proximity and strong ties to the northern neighbor that SCC has because of the mountain barrier.

"We're also in a different situation than out-of-state students coming into universities in North

Carolina," said Richards. "It's not like having a student from Maine come to Chapel Hill who has not contributed to the state up until that time."

Evening and part-time students are probably hurt more by the tuition hike than full-time day students, Richards added, because they are paying higher prices for just one or two classes and may not think the cost is justified.

"It is obviously a problem for Surry Community College. But I believe it is also a community problem because it is one that will affect area jobs and business as well," Richards concluded.

"I hope merchants, residents and professionals will all voice their ideas on the matter to help us fight another increase."

Seminar Will Focus On Strategy To Attack Illiteracy

DOBSON — Surry County's 83 percent illiteracy rate places it in the bottom 25 percent of the state's counties for the proportional number of county residents who can read.

In other words, these thousands of residents — for a multitude of reasons — are completely or functionally illiterate. The latter means they don't possess enough reading skills to function adequately in society from day to day (such as reading labels, signs and directions).

To combat the problem, representatives of the local media are meeting with officials of Surry Community College and the county Literacy Council today to develop a strategy to help these people gain the skills they need.

Newspapers and radio stations are being asked to provide public service announcements about literacy programs at both SCC and the Literacy Council.

The groups also are discussing ways of building self-esteem among the illiterate through learning. Often it is extenuating circumstances that have kept someone from acquiring the needed skills — nothing to be ashamed of, just something to be overcome.

Adult illiterates are well-known for learning to read especially quickly because of increased exposure and life experiences.

The Literacy Council offers one-on-one instruction through 27 trained tutors. It currently has

about 75 members. Another tutoring session is scheduled for March 1987.

SCC offers literacy classes at several locations throughout the county, and attempts to bring all students to a 12th-grade reading level.

For more information on either program, contact SCC President Swanson Richards at (919) 386-8121.

SCC sponsors winter courses in Elkin

Surry Community College, in cooperation with Elkin City Schools will offer the following classes for the winter quarter:

• Adult Basic Education
Tuesday 6:30-9:30 p.m., Elkin High School
Joan Sanders, instructor
No charge for this class, and you may register any Tuesday. The class objective is to teach students to read and write or complete their high school education.

• General Shop and Woodworking
Tuesday 6:30-9:30 p.m., Elkin High School
Dale Aldridge, instructor
The class will make its own project, from craft items to a corner cupboard.
• Income Tax Preparation
Tuesday 6:30-9:30 p.m., Elkin High School
Bobby Hanes, instructor
Cost is \$15

The class is designed to teach students to prepare their own, other individuals or small business income tax.
• Typing I
Tuesday 7:30-10 p.m., Elkin High School
Kathy Reece, instructor
Cost is \$15
This class teaches students to type or renew their skills.
• Sign Language
Tuesday 6:30-9:30 p.m., Elkin

High School
Jane Hazelman, instructor
Cost is \$15
This class will enable anyone to talk to and understand the language of the deaf.
• Modern Dance (Aerobics)
Tuesdays 6:30-8:30 p.m., Elkin Primary
Lynn Hutchins, instructor
\$5.50
Registration for these classes will be Nov. 25.

TRIBUNE, Elkin-Jonesville, N.C., Wednesday, November 12, 1986

SCC offers guitar class; registration on Nov. 25

DOBSON — Guitar I will be offered by the Evening Division of Surry Community College during the winter quarter. This class is the first in a three-quarter series. Guitar I consists of teaching the seven major keys, major chords, minor chords, 7th chords, sharps and flats. Also included are the basic fundamentals of taking care of the guitar, installing new strings and tuning the guitar.

Registration for Guitar I will be

held on Tuesday, Nov. 25 from 8:30 a.m.-noon, 1-4 p.m., and 6-8 p.m. The class will meet first on Tuesday, Dec. 2, from 6:30-8:20 p.m. and each Tuesday morning through Feb. 24.

Further information about registration or class content may be obtained by calling the Evening Division Office at Surry Community College (386-8121).

THE TRIBUNE, Elkin-Jonesville, N.C., Friday, November 28, 1986 — Page A-9

SCC offers courses in graphics, music

DOBSON — Commercial Art I, a course for beginners interested in the graphic arts, will be offered by the Evening Division of Surry Community College during the winter quarter. In this three-quarter hour course, the student is taught the use of art materials, typography, color and how to prepare and execute a finished layout and mechanical for newspapers, magazines and other media.

The instructor for the Commercial Art I course will be Archie

Bennett, who has taught commercial art classes at Surry for the past eight years. Bennett studied at the Chicago Academy of Fine Arts and at the New York Art Students League. He worked for many years in New York.

DOBSON — The Evening Division of Surry Community College will offer BUS 278 - Estate Settlement in North Carolina during the winter quarter. This course is designed to provide the non-

professional with the basic information that is needed when acting as an administrator or executor of an estate. Included in the course will be the appointment, responsibility, and execution of responsibilities of the administrator/executor in the settlement of an estate.

DOBSON — Introduction to music, a non-technical course in music appreciation, will be offered by the Evening Division of Surry

Community College during the winter quarter. Among the topics covered in the class will be musical elements such as rhythm, melody, harmony, tone color and form. Benny Younger, music instructor at Surry, will teach the class.

More information about application or registration may be obtained by calling or visiting the Evening Division Office of Surry Community College (386-8121).

SCC names students to fall dean's list

Surry Community College has named its dean's list for the fall semester.

To qualify for dean's list, a student must have a "B" average with no grade less than a "C" and must be enrolled for at least 12 quarter hours work.

Local students named to dean's list are:

Joseph Paul Anderson, Dobson; Melissa Jean Atkins, Dobson; Donna Jarrell Badgett, Dobson; Wendell Lynn Beasley, Dobson; Pamela Lou Bell, Boonville; Lajorie Hamilton Billings, Jonesville; Dora Ellen Billings, Dobson; Amy Sue F. Edson, Dobson; Barry Jean Elbertson, Dobson; Jason Lee Gandy, Dobson; Wan La Brown Grandson, Yadkinville; Marilyn Newman Brooks, Dobson; Tonda Learn Brooks, Dobson; Susan Leigh Brown, Yadkinville; William Jeffrey Brown, Hamptonville; Wanda Mae Evans, Thurmond; Lyman Herman Rickett, Boonville; Patricia Lynn Wilhelm Butler, Boonville; Charles Bailey Calhoun, Dobson; Mitchell Wayne Caldwell, State Road; Timothy Andrew Campbell, Boonville; Cynthia Dawn Carter, Yadkinville; Jamie Betha Carter, East Bend; Also, Marietta Ann Caudie, Boonville; Henry Carter Cobb, Boonville; W. Ray Cockerham, East Bend; Becky Regina Coe, Elkin; Linda Addair Collins, Hamptonville; Melank Durham Collins, Thurmond; Sandra Snow Collins, Dobson; Sarcanda Junay Collins, Jonesville; Michelle Lee Comer, Dobson; Tony Trivette Cook, Hamptonville; Melvin Wayne Cummings, Boonville; Robert Henry Darbush, Dobson; Shilee Hedgecock Davis, Dobson; Michelle Lynn Davis, East Bend; Lavon Ezra Davis, East Bend; Ralph Edward Deaugh, Dobson; Stephanie Hill Elliott, Elkin; Bryon Douglas Faulk, Dobson; Thomas Layton Ferguson, Dobson; Annis Marie Fowler, Dobson; Bridgette Freerom, Yadkinville; James L. Galloway, Dobson; Glade Wall George, Siloam; Emil Glenn, Jonesville; Tammy Claudette Gorgs, Dobson; Robin Lynn Gordon, Siloam;

Cheri Elizabeth Cramley, State Road; Maria Rosario Gwyn, Dobson; Brenda Phelps Hakeneyer, Elkin; Cheryl Ann Hall, Elkin; Mark Edward Hall, Siloam; Michael Randolph Hall, Dobson; Leroy Harrington, Dobson; Cathy Cain Harris, Yadkinville; Donald Lee Harris, Elkin; Robert Andrew Harris, Dobson; Donald Joseph Hatch, Dobson; Christopher Labon Hauser, Yadkinville; Patricia Allen Haynes, Elkin; Steve Anthony Hazenwood, Dobson; Leola Blakley Helms, Yadkinville; Jesse Lee Hinsen, Dobson; B. Elizabeth Hobson, East Bend; Tommy Layon Hoover, Dobson; Ronald Neal Hunt, Dobson; Thirwana Jane Jackson, Elkin; Also, Robert Johnson, Dr. of Lori Lewis, Jonesville; Samuel Jones, Elkin; Duane

Leach, Dobson; Cynthia Kay Lee, Dobson; Daniel Charles Lewis, Dobson; Patricia Marie Lohmann, State Road; Kathy Ann Lyons, State Road; Kathy Ann Lyons, Jonesville; Keith Edward Martin, Elkin; Rhonda Carol Matthews, East Bend; Susan Ann McCormick, Boonville; Fred Ralph Mitchell, Dobson; Larry Dale Money, Elkin; Timothy Richard Murphy, East Bend; Sherry Renae Nixon, Dobson; Janice Lucille Norman, State Road; John Henry Norman, Dobson;

Larry Stephen Oneal, Siloam; Andrea Jill Pardue, Jonesville; Teresa C. Parker, Boonville; Amy Janette Phillips, Elkin; Mark Douglas Phillips, Siloam; Robert Aaron Polindexter, Elkin; Sheila Gray Bottom Polindexter, Siloam; Angela Michelle Reavis, Hamptonville; Howard Allan Reece, Boonville; Terry Donnell Rorie, Dobson; Linda Neer Russell, Yadkinville; Laura Christine Schmidt, Elkin; Thelma Karen Seaver, Dobson; Chris Reep Seidler, Elkin; Judy Barker Settle, Roaring River; Ronald Jeff Shore, Yadkinville; Tina Janae Sizemore, Yadkinville; Arville Reuben Smith, Yadkinville; Nancy Compton Smith, Elkin; Ronald Lee Snow, Siloam; Timothy Leroy Snow, Elkin; Michael Robert Sparks, Elkin; Anthony Hollan Spicer, State Road;

Also, Nelda Ann Spicer, State Road; Virginia Leann Spicer, Dobson; Dawn Lori Sprinkle, Elkin; Sherri Imogene Stanley, Dobson; Phillip Ray Steagall, Dobson; Jasper Calvin Summers, Dobson; Nancy Gonzales Unger, Dobson; Janette Taylor White, Dobson; Lora Ann White, Dobson; Eric Hugh Willard, Boonville; Regina Marie Williams, Dobson; Sherry Lynn Williams, Boonville; Stanley Willis, Dobson; Maurice Antuan Wilson, Dobson; Jeffery Kelly Wood, Dobson; Larry Vance Wood, Thurmond; Anne Marie Woodruff, Boonville; Angela Ann Wopprath, Elkin.

Quiz Bowl Competition Set Saturday At SCC

The third annual Northwestern Regional Library Quiz Bowl will be held Saturday, with a modicum of cooperation from the weatherman.

The main auditorium of Surry Community College will be the scene of the annual "Battle of the Brains," where intelligence, correctness and quickness of response share equal billing in producing a winner. The competition will begin at 10 a.m.

Teams from high schools throughout the counties comprising the library district will take part. The participants will include East Surry, Elkin, Forbush, Mount Airy Senior, North Surry, Star Mount and Surry Central high schools.

Participating from Mount Airy Senior High School will be Michael Dunning, Brock Harrill, Jimmy Littleton, Becky Thacker, Jennifer Urnston and Eric Warren, while the team from North Surry will include Shannon Branch, Eric Hiatt, Bill Holmes, Greg Isaacs, Dean Jones, Jan King, Robbie Montgomery and William Wright.

From Surry Central High School, team participants are Frances Brady, Andy Dezern, Lon Lowe, Amy Reece, Elizabeth Strickland, Wesley Strickland, Dale Weaver and David Wilmoth. East Surry High School's team includes Zack

Hanner, Jimmy Pettus, Phillip Hunt, Kevin Cokley, Christian Kerr, Daphne Beauchamp and Brad Watson.

The winner of the local Quiz Bowl competition will advance to a district meeting, to be held in Winston-Salem in March.

"Quiz Bowl," officials here said, "is a locally focused program aimed at the well-founded student and is intended to serve as a fun forum for academic excellence. Persons writing, reviewing and verifying the questions are public librarians interested in young adults."

The program does not have a paid staff. Volunteers receive no reimbursement.

Goals of the Quiz Bowl program include stimulating young adult interest and involvement in public libraries, supporting academic excellence through young adult programming, providing recognition for academic achievement beyond the immediate school context, encouraging young adults to use library materials, encouraging and fostering school/public library cooperation and raising the visibility of the public library within the community.

Friday, January 30, 1987-1B 'n Education

■ Mrs. Glenda Boyd White recently joined the faculty of Surry Community College as on-campus learning coordinator. She will oversee operation of the college's on-campus adult basic education, high school completion and supplemental education programs for college students.

She was previously a part-time instructor in the college high school completion program and, earlier, had taught in the Mount Airy, Harnett County and Haywood County school systems. She is a graduate of Mount Airy High School, earned her undergraduate degree in education from Western Carolina University and received her Master's degree at East Carolina University.

■ Nursing students who graduated last spring from Surry Community College have been recognized nationally for their performance in examinations leading to registered nurse status. In addition to a 100 percent passing rate, the 17 SCC graduates ranked second in overall scoring among 51 North Carolina nursing graduate groups taking the examinations and ninth among 1,425 nursing groups from throughout the nation.

The graduates are: Mrs. Vilena Smith, Rt. 1, State Road; Ms. Clara Hennings, Rt. 2, Yadkinville; Mrs. Elizabeth Smith, Cana, Va.; Mrs. Debbie Collins, Rt. 3, Elkin; Ms. Peggy Couch, Elkin; Mark Mayes, Mrs. Barbara Edwards, Ms. Cindy Vernon and Ms. Robbin Griffith, all of Mount Airy; Ms. Sybil Marion, Rt. 1, Pinnacle; Mrs. Christine Childress and Mrs. Roberta Cheek, both of Rt. 1, State Road; Ms. Annie James, Raleigh; Roger Vernon, Rt. 4, Clemmons; Thomas Spangler, Wilkesboro; and Ms. Vickie Lloyd, Rt. 1, Thurmond.

Mrs. Beverly Essick is director of Surry's Associate Degree Nursing Program.

THE TRIBUNE, Elkin-Jonesville, N.C., Wednesday, January 14, 1987 — Page A-3

Nursing students score high

DOBSON — Nursing students who graduated from Surry Community College last spring have been recognized nationally for their performance in examinations leading to Registered Nurse status.

In addition to a 100 percent passing rate, the 17 SCC graduates ranked second in overall scoring among 51 North Carolina nursing graduate groups taking the RN examinations and ninth among 1,425 nursing groups from throughout the nation.

Nurses for two-, three-, and four-year educational programs must successfully pass this examination before becoming registered.

The testing is performed by CTB/McGraw-Hill, of Monterey, Calif., for state nursing boards nationwide.

Beverly Essick, director of Sur-

ry's Associate Degree Nursing Program, noted that all of the 17 graduates are now employed in regional hospitals in a variety of positions: five at Forsyth Memorial in Winston-Salem; four at Hugh Chatham Memorial Hospital in Elkin; four at N.C. Baptist Hospital in Winston-Salem; and one each at Northern Hospital of Surry County in Mount Airy, Iredell Memorial Hospital in Statesville, Wake County Medical Center in Raleigh and Wilkes General Hospital in North Wilkesboro.

The graduates are Vilena Smith, State Road, Rt. 1; Clara Hennings, Yadkinville, Rt. 2; Elizabeth Smith, Cana, Va.; Debbie Collins, Elkin, Rt. 3; Peggy Couch, Elkin; Mark Mayes, Mount Airy; Barbara Edwards, Mount Airy; Cindy Vernon, Mount Airy; Toni Ledford, Mount Airy; Sybil Marion, Pinnacle, Rt. 1;

Christine Childress, State Road, Rt. 1; Roberta Cheek, State Road, Rt. 1; Annie James, Raleigh; Roger Vernon, Clemmons, Rt. 4; Thomas Spangler, Wilkesboro; Vickie Lloyd, Thurmond, Rt. 1; and Robin Griffith, Mount Airy.

THE TRIBUNE, Elkin-Jonesville, N.C., Monday, January 26, 1987 — Page 7

SOC hires learning center coordinator

DOBSON — A Mount Airy native has joined the faculty of Surry Community College as on-campus learning center coordinator.

In her new position, Glenda Boyd White oversees operation of the College's on-campus adult basic education, high school completion (HSC), and supplemental education programs for college

students. More than 850 are enrolled in these programs on the Dobson campus.

White had previously served as part-time instructor in the college high school completion (HSC) program. Earlier she taught in the Mount Airy, Harnett County and Haywood County school systems. She is a graduate of Mount Airy

High School, earned her undergraduate degree in education at Western Carolina University and her master's degree at East Carolina University.

Her husband is a Dobson attorney. They have two children and live in Mount Airy where they are members of the Central Methodist Church.

ILLITERACY!

More than one-half of our adult population cannot read a daily newspaper, a book, a welfare form, the Bill of Rights, a housing lease, a road map, instructions on a bottle of medicine or the word of God from the Bible.

WE WANT TO CHANGE THAT, AND WITH YOUR HELP WE CAN!

Encourage someone you know who cannot read- Let them know it is never too late to learn. Guide them to our adult basic education programs.

Former Visiting Artist At SCC In Stable Condition After Being Run Over By Train

News Staff Report

DOBSON—A Siloam man who is a former visiting artist at Surry Community College was run over by a train Saturday as he was chasing his dog across the tracks while jogging.

William Thompson, 33, Siloam, who apparently was trying to keep the dog from being hit, was listed in serious but stable condition today at N.C. Baptist Hospital in Winston-Salem following surgery. He was due to be transferred out of inten-

sive care into the hospital's intermediate care unit today, a hospital official said.

Mansfield was artist-in-residence at Surry Community College during 1985-86. An old-time music enthusiast, he plays the banjo and performed at many functions around the county as part of his duties with the state community college system's visiting artist program.

"Apparently, (Mansfield) was on a trestle (bridge) with a walkway chasing his dog across the railroad

track," said Norfolk Southern Railway spokesman Neil Monroe.

"The train came up on him and he was struck by the engine and five cars passed over him before it could stop. He is very fortunate," Monroe said.

"He didn't realize the train was coming is the best we could figure."

There were 21 cars, including the engine, in the train, which was going 15 miles per hour. The railroad company's records list the

(Continued on Page 2A)

Mansfield

(Continued from Page 1A)

time of the accident as 3:15 p.m. The mishap occurred on Siloam Road, 11 miles south of Dobson, near Mansfield's home. The man apparently was dragged 400 feet before the train stopped.

"I have talked to some neighbors who apparently saw the accident,"

the victim's mother, Jessie Mansfield of Raleigh, said today. "Bill was jogging and his dog was jogging with him and she jumped on the tracks and he grabbed her, hoping he could get her off the tracks."

"And he did get her off, but the

train hit him," Mansfield's mother continued. "Fortunately, no bones were broken."

Mansfield received lacerations to his head and multiple abrasions and bruises, said hospital spokesman Tyler Cox.

His dog Sadie was not hurt.

NORTH CAROLINA RESIDENTS AGE 65 AND OLDER MAY REGISTER FREE OF CHARGE.

*No fees will be charged to members of lifesaving groups.

Registration and tuition fees are set by the North Carolina General Assembly.

You may pre-register for any of the courses listed by calling 386-8121. Yadkin County residents may pre-register by calling the center in Boonville at 367-7562.

Classes will begin as soon as sufficient registration permits. Those persons pre-registered will be notified of starting dates.

Continuing Education courses are located in communities in Surry and Yadkin counties where need exists and space is available. Residents of the two counties are encouraged to request courses for their communities.

Continuing Education Units (CEUs) are awarded to adults who satisfactorily complete all course requirements for the extension courses listed. One CEU will be awarded for each ten contact hours. A permanent record of each student's CEU attainments will be maintained by Surry Community College. Continuing Education Unit transcripts of individual records are available through the Continuing Education Division.

DO YOU NEED A JOB?

The Human Resources Development Program helps people get jobs! The service is available to anyone who is eighteen or over who is having difficulty in finding employment. Before placement on a job, the individual is asked to participate in training on how to get a job and keep it so that a good reference can be established with the Human Resources Development staff.

If you would like additional information, call 789-0063.

Surry Community College will offer courses at the community school locations listed below. These courses are offered in cooperation with the Surry County Board of Education, the Yadkin County Board of Education, the Elkin City Board of Education, and the Mount Airy Board of Education. Registration will be held on the beginning date listed for each course. Course offerings are subject to sufficient registration and attendance.

Surry Community College provides educational opportunities to both men and women without regard to race, creed, national origin or handicap.

COOPERATIVE SKILLS TRAINING CENTER

The State Board of Community Colleges has approved Surry Community College as a Cooperative Skills Training Center for the 1986-87 fiscal year. Cooperative Skills Training is especially designed to respond directly to the needs of industry. Courses are developed through assessment of training needs and cooperative planning between Surry Community College and manufacturing industries. The training will be directed toward industrial type occupations such as machine metalworking and industrial maintenance.

For more information regarding training programs available to industry, contact the Director of Cooperative Skills Training at 386-8121, Extension 265.

SCC offers course in hosiery making

DOBSON — Training in half-hose hosiery manufacturing for a wide range of job levels, from machine operator to production supervisor, is being offered local industry by Surry Community College through its Cooperative Skills Training Program.

Owen Perkins, textile chemistry graduate of NC State University and a staff member at the North Carolina Vocational Textile School in Belmont, is the instructor. Perkins has 16 years' experience in hosiery manufacturing and specializes in textile management courses at NCVTS.

Perkins has 16 years' experience in hosiery manufacturing and specializes in textile management courses at NCVTS.

SCC, City Schools Announce Schedules For Special Classes

Continuing education classes are beginning in Mount Airy schools this week, open to anyone over 18.

The classes, being held in joint cooperation between the city schools and Surry Community College, are free to persons 65 or older.

All others must pay a minimal fee, which varies depending on the class. Registration for each course is occurring during the first class meeting.

One, a CPR and first aid class, is free to law enforcement officers, firemen or emergency and medical personnel.

Classes being offered are: Introduction to Computer Science, being held at Mount Airy Junior High Annex on Mondays from 6 to 10 p.m.; Men's Basketball, at the junior high gym on Mondays from 7 to 9 p.m., with another class offered on Thursdays from 7 to 9 p.m.; Tole Painting, at the junior high Art Room on Mondays from 6 to 9 p.m.; the CPR first aid class, at Mount Airy High School Vocational Building on Mondays and Wednesdays from 7 to 10 p.m.; and Woodworking, at the junior high shop on Mondays from 6 to 9 p.m.

Art Class Sited

In addition to the continuing education classes, an art course will be offered at Central Methodist Church in Mount Airy by the college. It will meet on Thursdays from 2:30 to 5:30 p.m.; the registration date is March 13.

The class is available to all interested people, from beginners up to advanced students, and offers full college credit.

More information on the classes is available by calling the college.

The Mount Airy Artist League

Art Lovers Organize To Promote Visual Arts

By KATHY KELLER
News Staff Writer

When people think of Surry County, they usually do not think of the arts — and several groups around the area are trying to change that.

Art shows, classes and leagues have sprung up in the county to meet a growing interest among residents for local art.

The Mount Airy Artist League was begun last summer. "Annette Bush, a very talented water-colorist, got the ball rolling," said Ginny Adams, a loan officer for Workmen's Federal Savings Bank in Mount Airy and a member of the league.

"Several people met last summer — there are eighty to a hundred people who dabble in art in this community, so there is a wealth," Adams observed in a recent interview.

She added that before the league could really get organized, the founder had to move and Gary Doby of Dobson was appointed acting president.

"We're still organizing," said Doby, an amateur photographer. "We have the basic organizational work out of the way and we welcome anyone who is interested."

"We do have a constitution voted on and we're ready to roll. We've invited the Elkin Art League to tell us what they've done," Adams said.

"We try to promote the visual arts — we will have shows, workshops, lectures and demonstrations," she continued. "There has been an art league off and on. There's been quite a bit of interest for a long time, but there has never really been a group that's taken hold."

"With all the talent that we do have, and other small towns do have active art leagues, we feel we can have one, too."

The league's constitution states: "The purpose of the organization shall be to promote creative and educational activity in the visual arts through exhibition, programs, projects, promotion and publicity."

"A lot of people who paint in Mount Airy wind up at Surry

Art students at Central Methodist Church learn new techniques explained by instructor William Sanders (seated).

Community College taking classes. We've had an opportunity to take classes, but we really haven't had the opportunity to promote our artwork and form a league until recently, so this ought to be a big outlet for everyone," Adams said.

Art Classes Open To Everyone

William Sanders, one of the teachers at the community college, also has an art class at Central Methodist Church in Mount Airy. "It's more or less the same as here on campus," he said.

"I start the beginners with still life and work gradually to things that are more complicated. It's a

regular college curriculum course for regular college credit, though by no means is everybody in there after credit. Most do it for their own personal enjoyment."

Added Sanders: "It's the second year we've done it and I hope to do a little bit of landscape in the spring to let the students get a little experience in painting outdoors."

He said the class has painted on the grounds where the White Sulphur Springs Hotel used to stand, just outside Mount Airy.

"We have several people in the class that have been painting for several years and are doing good amateur work — but we also welcome beginners and take people at any level. I work with them

where they are." "It is not necessary to study drawing before coming to the class — some people protest that they can't draw; we work on it together," the teacher continued.

"I believe the most important thing to teach a beginning student is perception — how to learn to look. For whether you paint from life or imagination, you have to learn to see to get the results you want."

Sanders encourages everyone to learn to paint.

"Everybody has the same equipment (two eyes, hands and a brain), but they need a little practice

Poet To Read And Discuss Poetry At Community College

DOBSON—An award-winning poet will give a talk and readings Wednesday at Surry Community College.

Shirley Anders, a Winston-Salem native, is a former recipient of the N.C. Arts Council Literacy Fellowship and the winner of the Devins Award last year for her book of poetry, "The Bus Home."

Anders

She will read and discuss her poetry, which is mainly about life

in the Piedmont.

Anders is a graduate of Salem College and received a master of fine arts degree from Bennington College. She is a former writer-in-residence at UNC-Greensboro.

After the reading and discussion, open to the public at no charge, the poet will conduct classroom poetry workshops in a college English class taught by Diana Calaway.

Wednesday's program will be at 10:30 a.m. in the college teaching auditorium.

THE TRIBUNE, Elkin-Jonesville, N.C., Monday, March 2, 1987

SCC offers course in 'old-timey' quilting

DOBSON — The Continuing Education Division of Surry Community College here will sponsor a 33-hour course in the art of quilting the "old timey" way.

Instructions will begin with the selection of a pattern for your quilt and go through the selection of fabrics, the "piecing" and "setting" the squares together to form

your own quilt top. An old timey "quilting bee" will be held one day to give everyone the chance to learn to quilt in a frame. Ways to finish the edges of your quilt will conclude the course. This 33-hour course will meet each Wednesday morning beginning March 4 from 9 a.m.-noon, for 11 weeks in Room C-103 on the college campus.

Bonnie Burchette and Wilda Gentry will be co-instructors.

A \$20 registration fee will be charged. Senior citizens age 65

and older may register free. For more information, you may call the Continuing Education Division at 386-8121.

Artist League (Continued from Page 5)

learning how to look. Not much in our culture teaches how to learn to look with our eyes."

"Whether or not they turn out competent paintings (after the class), they will look at the world differently after studying art," Sanders remarked.

He explained why there might not be a big interest in art in the community. "Art to most people is an exotic thing — not much to do with real life. Too readily they say, 'I can't, I ain't never done this.' They are defeated before they try. Anyone can do it with a little help and a little guidance."

Sanders, also a history teacher at the college, painted "Main Street Sunday Afternoon." The painting depicting downtown Mount Airy was entered in an annual art show sponsored by Workmen's Federal.

Bank's Show May Change Hands

The bank has sponsored an art show for nearly 15 years. Last year's, held in April, had 72 entries and was judged by Steve Herman, owner of a gallery.

"Fourteen years ago we began an art show basically to serve the public and include the counties that we serve," noted Adams, who has worked with the show for five years.

"Since there wasn't any kind of annual art show in the area,

(Workmen's officials) decided they wanted to serve the arts in Surry County."

"The entries were open to anyone who is eighteen or older and a native or resident of one of the counties we serve. The show grew and grew and grew. We would have a judge and, of course, prize money and an art show committee that sets up the guidelines."

"Our purpose was to create goodwill for the community and promote visual arts," Adams explained.

There will not be a show this year, however. "We outstripped our space, so this year, we're not going to have a show. Workmen's wants to continue to support the arts but through a different means," she said.

"The art show committee had a meeting and decided that Workmen's will continue to support future art shows by donating prize money."

Adams continued, "It would be a natural for the newly formed Artist League to step in and make arrangements with Workmen's offering the seed money."

Last year's event was at the bank's Main Street office for two weeks around Easter. The "Best in the Show" award went to Anne A. Pike of Mount Airy for her abstract look at a shell collection entitled "Borrowed Snail."

The new building at Surry Community College in Dobson will house computer science and electronics classrooms and laboratories, facilities for the county's new economic development function and small business education and cooperative skills facilities to support training for new technology in business and industry.

Course offered

A short course on supervisory styles — structured especially for newly appointed supervisors in industry — will be held at Surry Community College April 9 and 30.

The training sessions are sponsored by the college's Cooperative Skills Training Program.

A nominal registration fee will be charged. Those interested in the short course should contact Anne Hennis, Director of Cooperative Skills Training at the college.

Surry CC Awards Bids

Low bids totaling \$968,478 for construction of a new computer sciences and electronics building at Surry Community College were opened recently.

Low bidder for the general contract is Wishon & Carter of Yadkinville with a bid of \$597,302. Low bidder for heating and air conditioning was Commercial Comfort, Inc., of High Point, with a bid of \$136,000. Low

bidder for electrical work was Y.C. Ballenger of Greensboro, with a bid of \$95,300. P & H Service, Inc., of Greensboro entered the low bid of \$44,876 for plumbing. The total figure also includes architect fees and contingencies.

Six firms bid on the general contract, four on heating and air conditioning, three on electrical work, and

three on plumbing.

John Frank of Mount Airy and Bonnie Stuart of Elkin represented the college board of trustees building committee at the bid opening. Architect Fred Butner said if construction schedules can be maintained, the new building will be completed by year-end.

Contracts will be awarded as soon as details of the bidding are complete.

Surry Community College

Computer Science, Electronics Facility Being Added To Campus

By JODI SMITH
News Staff Writer

DOBSON—Surry Community College opened bids last week for a new 15,000-square-foot computer science and electronics building on the Dobson campus.

The \$1 million structure will house new and expanded facilities for computer sciences, electronics classrooms and laboratories, cooperative skills training, small business service functions and the newly created position of Surry County economic development director.

"We already have the programs set up. It's basically a matter of moving them from their present location to the new building. There won't be a lot of additional staff. We'll just be expanding facilities," explained SCC President Dr. Swanson Richards, who added that construction should begin sometime in May once bids are actually awarded.

"It will also make space available for industrial training programs, which ties in with economic development skills training programs there as well," Richards said. "That's not to mention the existing space it will free up for improved instruction in other areas. And the timing coincides well with the county's renewed interest in economic development."

SCC has been headquarters for Robert E. "Bob" Comer, Surry's first economic developer, for the past several months, and Richards says both Comer and the college seem to be happy with the arrangement.

Upon completion of the new building, Comer's office will relocate there, where it will remain on a yearly basis as requested by the county Economic Development Commission (as part of the newly established Surry Economic Development Corp.).

The one-story brick and stone building has become a reality for SCC officials over the past three years, and was designed by Winston-Salem architect Fred Butner of Fred Butner Associates. Butner designed all existing buildings on the Dobson campus as well, said Richards.

Butner's final renderings were

Swanson Richards (l) and Dick Byrd discuss a floor plan of the new facility.

approved by the state property control agency, which set his fee contingent on the building's size.

Land for the facility was bought in July 1985 through a \$425,000 appropriation from the N.C. General Assembly.

The building will occupy the upper northwest portion of the campus, across the parking lot from the library and administrative buildings, according to new SCC Communications Director Dick Byrd.

The total projected cost (including furnishings and equipment) is \$1,006,000. Of that, \$284,000 will come from local capital, and \$782,000 from state funds, as requested by the SCC Board of Trustees. The board requested the state and county assistance in January 1985.

The building should be complete and ready for operation by the end of 1987 or early 1988, Richards noted. Additional student parking

facilities will be located behind the structure.

High-Tech Needs To Be Addressed

"The facility will give us the resources to better serve the high-technology needs of industry and business in Surry and Yadkin counties, by offering high-tech training for young people preparing to enter the job market," the college president continued. "It will also provide new technology re-training for employees already in the work force."

Richards says the computers to be housed in the new building will be available to the public as well as SCC students, in terms of workshops and practical applications. The seasoned college official sees a great need for this type of training now and in the future.

"We're not expanding the curriculum per se, but I can see more students taking computer-type classes because of the demand for that type training in the marketplace," he said. "For instance, I can see computers replacing typewriters in many jobs in the near future."

Surry Community College

(Continued from Page 8)

"In light of increased demand for such training, the facilities we have now are inadequate," added Byrd. "And because of the new building, the cooperative skills training program will receive added emphasis in the 1987-88 school year."

"We consider that a partnership between the college and manufacturing industries in Surry and Yadkin to provide skills training for their employees," said

Richards. "Equipment changes by industry make it absolutely essential that we be in a position and be equipped to work closely with industry and business, as well as the public sector."

To that end, Richard Starr, director of human resources at Exposit Industries in Mount Airy, currently is teaching a 12-week course at the college on the principles of supervision. The course, part of the school's cooperative skills training curriculum, began March 5.

Starr is also past president of the Surry County Personnel Association.

Anne Hennis, director of SCC's cooperative skills training segment,

says the course is quite thorough. "The role of the industrial supervisor has taken on greater prominence through increased emphasis on productivity, operational efficiencies and effective communications in the work place," she explained.

"This course, prepared by McGraw-Hill, examines the entire range of supervisory responsibilities, challenges and skills. And it is flexible enough to be adapted to virtually any industrial situation, even to being held within an industrial plant on a schedule set by the host company."

'Secretarial Update' planned at Surry Community College

Office automation, effective written communications and telephone "personality" are major topics in a one-day "Secretarial Update" seminar on Secretary's Day, April 22, at Surry Community College.

The program, designed to recognize the importance of the secretary and to provide opportunity for professional development, is sponsored by the college's Division of Continuing Education.

Speakers include Bobbi Gemma, consultant and trainer for Triad Marketing Resources in Winston-Salem; Sue Jarvis, Counselor in Student Services at Surry Community College; and Ann S. Angel, Director of Office Technologies Center in Winston-Salem.

Ms. Gemma specializes in communications, telephone etiquette and telemarketing. She is a graduate of Ohio State University and is active in

several secretarial-related programs of the Winston-Salem Chamber of Commerce.

Ms. Jarvis is a graduate of Appalachian State University and the University of North Carolina at Charlotte. In her position at SCC she has conducted workshops in goal setting, improving study skills and developing job seeking skills.

Ms. Angel is a graduate of Guilford College and the University of North Carolina at Greensboro. She was responsible for developing a structured training program for data processing, technical training, personal computers and word processing at R.J. Reynolds Tobacco before establishing Office Technologies Center.

Reservations for the seminar are open until April 15. Mrs. Anne Hennis is in charge of arrangements at the college.

Surry groups combine efforts to sponsor arts festival

A Festival of the Arts will be held May 7 and 8 at Surry Community College in Dobson, Andy Griffith Playhouse in Mount Airy and Elkin Public Library.

The festival will be sponsored by the Surry Community College Visiting Artists Program, the Foothills Arts Council Council and the Surry Arts Council. The visiting artists will be Brian Morris and Joseph Hoey, classical guitar duo; Ronald Campbell, baritone; Carl Sugart, cello; Jerome Johnson, an actor; Ronald Campbell, baritone; Lea Beth Cram, soprano; Nathan Williams, clarinet; and Becke Raughton, poet.

Among area artists to be featured are William Sanders, painter; and Bill Mansfield and Johnny Deerrin, folk musicians. There will be workshops and performances on campus both Thursday and Friday, and the festival will culminate in a gala con-

cert on Friday at the Andy Griffith Playhouse in Mount Airy. All events are free and open to

the public. For more information, you may call 386-8121 and ask for Nathan Williams.

Travel

Travel specialists with the N.C. Department of Commerce Travel and Tourism Division will present a program at Surry Community College in Dobson at 7 p.m. April 14.

SCC sponsors travel program

DOBSON — What attracts millions of tourists to North Carolina each year? What does this mean to our economy? Are international travelers on the increase? Are we effective hosts? How well do we know our state and its history? What are new travel attractions in the Tar Heel state? What can we do to make North Carolina's travel industry even more successful?

These points and others will be covered April 14 when Surry Community College and the Surry Economic Development Commission sponsor an evening program on travel and tourism in the "Variety Vacationland."

The program will be held at the

college, beginning at 7 p.m. It is free and open to the public.

Representatives from the State Division of Travel and Tourism in Raleigh — Lynne Sizemore, director of the state's Welcome Centers, and Rebecca Moore, media specialist — will present the program. Local participants will include manager Sue Haugness and other staff members from the Surry County Welcome Center on 1-77.

Program highlights include the award-winning film "North Carolina: A Special Kind of Splendor," discussions on the effects of travel and tourism on the Tar Heel economy (currently, travel is

the state's third largest "industry"), role of the Division of Travel and Tourism, history of the Welcome Centers and special travel projects staged by the Division.

North Carolina has recently expanded its travel promotion to international markets. These efforts and their implications will be discussed.

Surry County historical, cultural, industrial and business attractions for the out-of-state traveler will also be part of the agenda.

Scholarship Fund Established At SCC In Memory Of Leslie Hatcher

DOBSON — A scholarship fund, created to assist needy Patrick and Carroll County, Va., students at Surry Community College, has been established in memory of a founder of Spencer's Inc. of Mount Airy.

The \$10,000 scholarship donation came from Miss Alice Hatcher, a Dobson resident who taught school in the Surry County and Carroll County school systems and in Duplin County for more than 40 years.

"Miss Alice" set up the scholarship fund in memory of her late brother, Francis Leslie Hatcher, one of the founders of the North Carolina-Virginia operation of the large textile-apparel manufacturer.

The fund, in recognition of the Hatcher family's prominence in Patrick County and the company's manufacturing plant in Carroll County, will give first preference to students from those two counties.

"Seeking education for ourselves has always been a tradition in the Hatcher family," Alice Hatcher said. "This is the first situation to present itself for me to do for someone else. Mr. Hatcher helped every school and church who asked for his

Francis Leslie Hatcher

help. He also helped to educate several students on an individual, personal basis."

SCC officials, meanwhile, are pleased that the scholarship has been established.

It "comes at a very opportune time, since Virginia students wishing to attend Surry Community College are penalized by out-of-state tuition rates

that have been almost doubled by the North Carolina General Assembly," said Dr. Swanson Richards, the school's president.

"We can put these funds to good use in attracting and serving qualified students from the bordering Virginia counties which mean so much to us," he added.

Hatcher was raised in Claudeville, Va., and sold dairy products widely throughout the region, including in Surry County.

In 1926, he joined John Banner Sr., Jim and Grover Lovill, W.E. Lindsay and J.H. Crossingham Sr. to establish Spencer's in Mount Airy.

He initially served as a director for the company, but later bought interests from Lindsay and Banner and became actively involved in its operation. Hatcher moved to Mount Airy in 1929 with his two sisters on Granite Street.

The company founder helped provide a college education for several of his 12 brothers and sisters.

Hatcher became chief executive of Spencer's after the death of Crossingham in 1964 and held that title at the time of his death in 1978 at the age of 95.

THE TRIBUNE, Elkin-Jonesville, N.C., Monday, April 20, 1987

Health trends topic of SCC lecture

DOBSON — The Surry County Health Department and Surry Community College are sponsoring a lecture by Marla Salmon, Sc.D., F.A.A.N., R.N., on April 23 at 7:30 p.m. The lecture will be held in the teaching auditorium at Surry Community College.

Salmon, who is Chair and Associate Professor at the UNC-

Chapel Hill School of Public Health, will speak on "Future Trends."

A 1977 graduate of Johns Hopkins University School of Hygiene and Public Health with a Doctor of Science degree, Salmon has numerous publications and presentations. She is a member of the National Advisory Committee

of the Public Health/Community Health Nursing National Leadership Institute, a professional consultant with the Minnesota Poison Control System, a member of the Nursing Outlook Review Panel, a member of the Public Health Nursing Editorial Advisory Board and a Kellogg National Leadership Fellow. The public is invited.

SCHOLARSHIP DONATION—Beverly Enterprises, which owns Surry Community Nursing Center here, has donated \$1,000 for four scholarships to the nursing program at Surry Community College. Making the presentation to Beverly Esick, director of the nursing program, were (left to right) Jay Underwood, administrator of the nursing center; Kent Fosha, vice president of Beverly Enterprises; and Buck Kerneer, regional manager.

The Mount Airy News Wednesday, April 22 1987-13A

Ex-Teacher Sues Surry Trustees

GREENSBORO—A woman from Forsyth County has filed a \$20,000 federal lawsuit against the trustees of Surry Community College and one of the college's deans, alleging that she was fired because of her views on women's rights.

Carol M. Lipkin, 44, of 2835 Glenhaven Lane filed the suit Tuesday in U.S. District Court.

Mrs. Lipkin's suit accuses Carole Shepherd, the school's dean of college transfer, of recommending that she not be granted tenure because she "did not suppress her speech and opinions with regard to women's rights."

The suit says that Mrs. Lipkin was hired as a full-time math and physics instructor on Nov. 24, 1981, and was fired on March 2, 1986.

The suit also charges that Mrs. Lipkin was "badgered and harassed" by her opinions, even though Shepherd

had assured her that those opinions did not affect her teaching. The suit says that she "was nonetheless criticized and told that she offended her colleagues by her stand. That is, her speech and association outside of the classroom was being censored."

At a meeting May 21, 1985, the suit says, Shepherd intimated that if she did not suppress her views on women's rights she would not receive tenure. Nine months later, on Feb. 14, 1986, Mrs. Lipkin says, Shepherd recommended to the school's dean of instruction that tenure not be granted.

Mrs. Lipkin also charges that Shepherd encouraged her to inflate grades in her physics classes. When she refused, she says, she was removed from teaching physics.

Mrs. Lipkin is asking that she be returned to her job, with back pay and interest, which she estimates at \$25,000, and that she get \$25,000 in punitive damages.

THE PILOT, PILOT MOUNTAIN, N.C. APRIL 29, 1987

SCC is planning a 'Festival of the Arts'

A two-day "Festival of The Arts" featuring workshops and concerts covering the entire spectrum of art forms, from poetry, drama and classical music to 'down-home picking and grinning' music, will be held at Surry Community College May 7 and 8, with a gala evening program at the Andy Griffith Playhouse at 8 p.m. Friday, May 8.

All performances are free and open to the public.

The festival is sponsored by the Surry Arts Council, Foothills Arts Council, Surry Community College and the North Carolina Visiting Artists program.

Featured in the Thursday, May 7 performances will be Nathan Williams, clarinetist and visiting artist at Surry Community (10:30 to 11:20); the SCC Chorus directed by Benny Younger (11:30 to 12:20); informal outdoor performances during the lunch hour (12:30 to 1:20); Jonathan Helton, saxophonist and visiting artist from Piedmont Technical College (1:30 to 2:20) and Bill Mans-

field, folk musician and N.C. visiting artist (2:30 to 3:20).

The evening program at 8 p.m. Thursday, May 7 will feature Joseph Hoey and Brian Morris, classical guitar duo who are visiting artists from Wayne Community College and James Sprunt Community College respectively.

The Friday, May 8 program will feature a workshop by Becke Roughton, poet and visiting artist from Carteret Technical Institute (10:30 to 12:20); Circle K Talent Show (12:30 to 1:30); Jerome Johnson, actor and visiting artist from Gaston College; acting workshop by Johnson for drama students at the college (2:30 to 3:20); and silk screen workshop by Jody Crawford (2:30 to 3:20).

The gala concert at the Andy Griffith Playhouse at 8 p.m. on Friday, May 8 will feature Lea Beth Cram, soprano and visiting artist at Coastal Carolina Community College.

Copeland Ruritan Club Sets Up Two-Year Scholarship Program

DOBSON—An academic scholarship that will pay two years' tuition at Surry Community College for a student who is a resident of the Copeland community has been established by the Copeland Ruritan Club.

The scholarship, developed as part of the group's 25th anniversary observance, is "...to memorialize those faithful and dedicated servants of the club," according to Jerry Venable, scholarship fund chairman.

The Copeland Ruritans were

among the earliest financial supporters of the college.

"We felt it would be appropriate to renew our support, both as a means of providing financial aid to academically outstanding students at Surry Central High School, and to recognize the college as a viable institution of higher education where many of the community's youth choose to study and acquire additional knowledge," said Venable.

The Copeland club has 30 members.

SCC Asks County For \$547,605 To Help Meet \$8 Million Budget

By JODI SMITH
News Staff Writer

DOBSON—Costs for a new computer science building budgeted in the current fiscal year have made Surry Community College's total requests for county money for 1987-88 less in comparison.

At a county Board of Commissioners' meeting this week, Clyde Johnson, vice president of SCC administrative services, and college President Dr. Swanson Richards presented the school's total \$547,605 county funding request — \$62,383 less than requested overall last year (with \$102,500 of that for construction of the new facility).

That equals a 10 percent decrease over last year's total \$609,988 local budget — about 10

percent of the college's overall budget. (SCC receives about 90 percent of its total operating budget — \$8.9 million last year including new building costs — from state funding and federal grants, Johnson said. He projects an overall budget of about \$8,025,000 this year.)

Richards said the college was in the process of signing final contracts for the new building and hopes to break ground within the next few days. It should be open for classes by March 1988.

The administrative portion of the budget request is \$547,605, compared with \$507,488 last year. For capital outlay (building and equipment-related) projects, \$21,000 is requested for next year, a 10 percent increase over the 1986-87

capital outlay budget.

Johnson noted that legal liability insurance hikes account for nearly 4 percent of that increase. Also up 4 percent (about \$8,000) are proposed salaries for the coming year, and administrative/maintenance supplies (to \$27,100).

Fixed charges — such as legal fees, Social Security and workmen's compensation — are up \$27,000 to \$159,474. Funding requests for grounds and repairs are up \$3,000 to \$48,900 as well.

Richards told the commissioners that SCC officials would be working closely with area business and industry in cooperative training efforts for students. "We can have the best training available today,"

(Continued on Page 2A)

But if there are no jobs, that training isn't worth much," he said.

The college president also reminded the board of pending legislation — House Bill 613 introduced by Rep. Dave Diamond, D-Surry — that would lower the tuition of Virginia students who work (or have parents who work) and pay income taxes in North Carolina back to that of in-state students.

"We had about 240 Virginia students last year when tuition increased from \$550 to \$600 per quarter," Richard explained. "Virginia students in 1986-87 paid \$133, and if the tuition rises to \$700 next year as scheduled, that will probably drop to about 25."

In other business this week, Surry Emergency Medical Services Director John A. Shelton asked the commissioners to consider allocating

\$2,000 to the EMS for two additional EMT-Intermediate positions to work convalescent non-emergency calls.

Currently, paramedics are working shifts to cover convalescent care for about \$30 a day, Shelton said, noting that they are overqualified for the duty. He added that because convalescent care fees bring in about \$20,000 a month, the allocation would soon pay for itself, as well as free up paramedics and other personnel for emergency duty.

The move also would save the

county money in the long run, he said, since paramedics require \$3.97 per hour in wages, and EMT-Intermediates only \$3.90 per hour.

The board will consider the EMS request during the 1987-88 budget process, according to County Manager Dennis N. Thompson. Thompson said the board will need more information on program operations costs, and will analyze additional revenue brought in from an increased EMS fee schedule, effective May 1, before making a decision.

The Mount Airy News Monday, May 11, 1987

Second In A Series Of Forums At SCC Focused On The Image Of 'Mayberry'

By KATHY KELLER
News Staff Writer

DOBSON—Audience and panelist participation contributed to a lively discussion about "Mayberry" during a recent forum at Surry Community College.

"Where Has Mayberry Gone and Do We Want It Back?" was the theme of the discussion led by Dr. Paul Laebke, a sociologist at the University of North Carolina at Greensboro. The forum was the second in a series under way here.

Laebke posed several thought-provoking questions to the audience of about 50 Surry Countians, such as "Does anyone really want (Surry County) back in the sense of the rural small-town community?"

Most of the audience members agreed with panelist Robert Merritt, chairman of the Renfro Corp. textile company in Mount Airy, who said, "Mayberry symbolically gives us a set of values — respect for other people as individuals without regard to education, or whether he is the village drunk or the preacher — and also the respect for yourself — self-esteem. If we debate whether we should return to Mayberry, I'll be on the side of Mayberry."

Loosely based on Mount Airy, the town of Mayberry was the fictional setting for the Andy Griffith television series.

Although the five panelists agreed that they would not particularly like to return to the days of outdoor "privies" and Model Ts, the small-town values that Mayberry represents are still wanted and present in Surry County today.

Children Are A Major Concern

"I questioned a sixth-grade class (about the Mayberry concept), said panelist Leroy Gillespie, a retired tobacco marketing specialist in the county. "The main thing they related to was the peaceful town. As far as wanting it back, they want law and order, and a sheriff who didn't carry a gun."

The young people of the county represented a major concern among those present at the forum. "The most important product of all (in Surry County) is children, and there is a void there," Gillespie said. "They feel they don't belong."

He added that there is a communication gap between parents and young people.

"There have been changes in the family," said panelist Dr. Carolyn Watkins, director of Bright Beginnings Pre-School Center in Pilot Mountain. "Parents are responsible for instilling in children the roles and morals important to society."

David Haynes, president of the Surry Young Farmers and Ranchers, advocated the closeness

of the family and the desire of farmers to stay on the family farm by adapting to new methods and different crops.

"We're expanding (in the county)," he said. "And bigger is not always better."

The audience expressed some concern about the children who go away to state colleges and don't return to Surry County to work — "I'm really concerned with the types of jobs (available in Surry)," said Dr. Swanson Richards, president of Surry Community College. "Some of the high-tech jobs are moving out of the county, and we're losing some of the best-trained people."

The current graduates of MBA (master's of business administration degrees) are earning \$30,000 to

\$100,000 right out of college," said John McKenzie, former mayor of Pilot Mountain. "Where are those jobs in Surry County?"

"We are experiencing an exodus of our young minds," Gillespie remarked.

"We need to be in touch with the goals of our young people," said Barbara Summerlin, editor of The Mount Airy News. "We want them back, and they want to come back."

"If we want to remain the type of area we are — and we do — the place I feel we should start is in the educational system," Watkins observed. "In order to progress, it is necessary to start by educating the young."

"I thought of the question — have

(Continued on Page 12A)

we done a better job of trying to make a living, rather than teaching families how to live?" said panelist Christine Green-Harris of the Surry Agricultural Extension Service. "There is a lot of stress today. A family needs two paychecks now, and North Carolina has the most working mothers of any other state."

"We need to help people cope and manage their stress."

Problem Areas Defined

"I see two problem areas in the county," said Laebke. "The general problem is with the kids not having enough to do. The problem focuses on education and the kinds of jobs available in the area."

"Once they (young people) have gone off to college, they don't want to come back. It is not so much that they don't want the values," he continued. "It's saying the job structure here does not allow

enough jobs for the college-educated kids."

"I thought the forum was good," said Dr. Thurmon Hollar, the forum director and instructor at the college. "The first one (which dealt with Surry County history) was informative, and this one was more like a debate."

"More controversial issues were presented in this one than in the first," he continued. "There was also more audience participation and more emotion."

Hollar said the third and final forum of the "Surry County — From Farm to Factory: What Good is an Education?" series will deal with even more controversial topics, such as a proposed school merger and illiteracy in the county.

The third forum, entitled "Where Are You Going, Surry County?," is scheduled May 21 at 7 p.m. at the college.

Community College Sponsoring Two-Day Celebration Of The Arts

DOBSON—Artists from across the state will congregate at Surry Community College later this week for a two-day "Festival of the Arts," which will end with a special evening performance at the Andy Griffith Playhouse in Mount Airy.

The festival and evening program, sponsored by the college, the Surry Arts Council, the Foothills Arts Council and the N.C. Visiting Artists Program, are free and open to the public.

Workshops, a talent show and concerts by visiting artists — including poetry, art, drama, classical music and "down-home pickin' and grinnin'" — will be offered both Thursday and Friday from 10:30 a.m. to 3:30 p.m. (with an evening program Thursday at 8 p.m.)

Work by area artists William Sanders, Jody Crawford and Faye Myers will be on exhibit at the college throughout the festival.

The schedule of workshops and concerts follows.

Thursday

■ 10:30 to 11:20 a.m. — clarinet performance by Nathan Williams, SCC visiting artist.

■ 11:30 a.m. to 12:20 p.m. — SCC chorus directed by Benny Younger.

■ 12:30 to 1:20 p.m. — informal outdoor concert during lunch hour.

■ 1:30 to 2:20 p.m. — saxophone performance by Jonathan Helton,

Johnson

Shugart

Hocy

Morris

Cream

visiting artist from Piedmont Technical College.

■ 2:30 to 3:20 p.m. — Bill Mansfield, folk musician and visiting artist.

■ 8 p.m. — Joseph Hocy and Brian Morris, classical guitar duo, visiting artists from Wayne Community College and James Sprunt Community College, respectively.

Friday

■ 10:30 a.m. to 12:20 p.m. — poet Backe Houghton, visiting artist from Carteret Technical Institute.

■ 12:30 to 1:20 p.m. — Circle K Talent Show.

■ 2:30 to 3:20 p.m. — acting workshop by Jerome Johnson, visiting artist from Gaston College, for SCC drama students.

■ 2:30 to 3:20 p.m. — silk screen workshop by Jody Crawford.

The "festival finale" concert at the Andy Griffith Playhouse Friday at 8 p.m. will feature performances by seven visiting singers and musicians.

Soprano Beth Cream also will be featured.

DO YOU NEED A JOB?

The Human Resources Development Program helps people get jobs! The service is available to anyone who is eighteen or over who is having difficulty in finding employment. Before placement on a job, the individual is asked to participate in training on how to get a job and keep it so that a good reference can be established with the Human Resources staff.

If you would like additional information, call 789-0063.

Surry Community College will offer courses at the community school locations listed below. These courses are offered in cooperation with the Surry County Board of Education, the Yadkin County Board of Education, the Elkin City Board of Education, and the Mount Airy Board of Education. Registration will be held on the beginning date listed for each course. Course offerings are subject to sufficient registration and attendance.

SCC Officials Will Fight \$50,000 Suit Filed By Former Faculty Member

By JODI SMITH
News Staff Writer

DOBSON—Surry Community College officials say they will fight a \$50,000 lawsuit filed against them earlier this month by a former faculty member who claims she was fired last year for her outspoken views on women's rights.

Carole R. Lipkin, 44, a former full-time math/physics instructor of 2635 Glenhaven Dr., Winston-Salem, filed the suit in U.S. District Court against the school and the school's dean of college transfer, Carlyle Shepherd.

At a recent closed meeting of the college's board of trustees, board members and attorneys unanimously agreed to contest the suit, and issued an official school statement

on the matter.

"The case involves an instructor who did not get her 1986-87 contract renewed. Surry Community College feels that was a valid decision based on the evidence in hand, and that the charges in the complaint are without merit," Dr. Swanson Richards, SCC president, read from the statement.

Richards noted that the college's position is supported by the fact that "the Greensboro office of the Equal Employment Opportunity Commission investigated (Lipkin's) complaint and in February 1987 found no reasonable cause to believe the allegations are true."

According to Richards, the school abides by an academic freedom policy adopted by the

board which assures every faculty member the "freedom of research and expression" with the expectation that they will "live up to the highest level of scholarship."

The policy says SCC's aim is to foster "open-mindedness and a critical approach to the subject under study." Richards said faculty members are not restricted from speaking out at extracurricular functions, but must clarify their views as not necessarily being those of the college.

The president said he could make no other comment on the reason Lipkin's contract was not renewed or the school's policy concerning women's rights.

In a telephone interview today, Shepherd said, "I disagree with all the charges. They are not true." He added that he had no other comment pending the litigation, on the advice of his attorneys.

Lipkin could not be reached for comment today. She was hired Nov. 24, 1981, and fired March 24, 1986.

(Continued on Page 3A)

Suit

(Continued from Page 1A)

The college's attorneys currently are formulating a response to the allegations, as required by law, at which time a trial date will be set.

Teaching

Electronics teacher Joe Sloop not only lectures at Surry Community College, but also at seminars and workshops throughout the country.

SCC teacher recognized for service

DOBSON - A recent letter from the American Council on Education in Washington cited Joseph G. Sloop for outstanding service in the Council's Military Evaluations program in which military training programs are studied and compared to civilian curricula for academic credits.

Thousands of military veterans are able to gain civilian educational credits based on these evaluations. The result—a smoother transition from military training to civilian education.

Joe Sloop is a specialist in electronics and teaches in that field at Surry Community College. The ACE citation is one of the many he has earned over the years for assistance to the military and to private firms and industrial associations throughout the country.

For instance, much of his work is for the Electronics Industries Association, in the form of workshops and seminars to help member firms keep up to date on

fast-moving changes in electronics.

"By the time most electronics textbooks can be put into print, they are often at least three years outdated," he says.

By association with member companies, including manufacturers and users of electronic gear, he is able to stay current on change and to share information with those in his workshops and seminars.

"I like to think I'm on the cutting edge of technological change," he says.

He has authored several publications on electronics and is producing a series of manuals for a Connecticut firm that are being marketed here and abroad. Some of his works have been translated into German and Spanish.

He has designed numerous teaching guides for public schools, with emphasis on a practical approach, noting that "teaching electronics relies on two human tendencies: thinking of

devices around us in terms of their function and an intellectual curiosity about how these devices work."

He does his consulting work on weekends and during summer months. For instance, he will be at the University of Southern Maine this summer to give a program on micro-processors. Missouri, Indiana, Ohio, Michigan and South Dakota are also on his summer calendar.

He spends considerable time on consumer electronics: microwave ovens, VCRs, personal computers, television equipment and other everyday applications of electronics in the home and workplace.

Sloop "grew up tinkering" in the

Yadkinville community. His father and grandfather were "tinkerers" too. It rubbed off.

He graduated from high school in Yadkinville, went to Western Carolina University and received his Industrial Arts and Business Administration degrees there. He taught school two years in Hickory and then attended Appalachian State University where he received his master's degree in Industrial Arts. He then began work on his doctorate at the University of North Dakota.

"I've been so busy that I haven't had a chance to complete the work yet," he says.

Sponsored by Community College Basketweaving, quilt courses taught here

Surry Community College will offer a basketweaving course beginning Monday, June 8, from 6:30-9:30 p.m. at the East Surry High School Library. Instructor for the course will be Rebecca Hanner.

Students will learn the various techniques and patterns of basketweaving. Each student will complete at least two baskets during the class. Cost for the course will be \$25 for registration plus materials.

The college will also offer a lap quilting course in Pilot Mountain beginning Thursday, June 11 at 6:30 p.m. at the Charles Stone Memorial Library.

The course will begin with a brief history of quilting. Students

will learn to choose material using fabric and color coordination, to make permanent templates, to piece quilt blocks on the sewing machine, to quilt by hand and related skills.

The goal of the class will be for each student to construct a full sized quilt, using techniques developed by Georgia Bonesteel, well known quilting expert. Instructor for the course will be Shirley Jones. Registration fee is \$20 plus materials.

Registration night will be the first class meeting for both courses. For further information contact Marion Venable at 368-5293 or the Continuing Education Division at 386-8121.

THE PILOT, MAY 27, 1987

Graduates Of SCC's North Campus Get Start On A New Way Of Life

DOBSON—Surry Community College refers to it as "Our North Campus." And it is just that.

Graduation was held recently with 50 certificates and six vocational diplomas awarded for completion of courses of study.

The site: a former prison north of Dobson, used by the college to house classes for first-offender inmates from Yadkin and Stokes County prison facilities.

Courses of study cover a wide range of disciplines designed to equip these men for a better life when they are released: from light construction that includes carpentry, cabinetmaking, electrical work, plumbing and masonry, to English, math, science, human relations and automotive mechanics. Classes are held four days a week, 7½ hours a day. Six instructors from SCC do the teaching on-site.

This is the 14th consecutive graduation since the program began 15 years ago. It was one of the first such efforts in the state

and despite dire predictions that it would fail, it has succeeded. During the 15 years, about 2,000 inmates have completed courses here; many have used the experience to carve out successful careers after release.

John Collins, dean of the program, recalls former students who are now skilled craftsmen in concrete work, masonry, cabinetmaking and carpentry. One is manager of an automobile dealership.

Boyd Bennett, North Piedmont administrator for the state prison system, who addressed the graduates, credits the program's success to personal concern for the individual, unusual skills and dedication of instructors and students who want to learn. While these educational programs are recommended to inmates, their decision to partici-

pate is voluntary. Bennett predicts that more educational efforts patterned after the SCC operation will be introduced in correctional facilities across the state.

Dr. Swanson Richards, president of SCC, told the graduates: "These diplomas and certificates are the very same that other graduates receive...they are transferrable to any institution in the state with similar programs. We commend you for your interest and dedication, and we encourage you to put this training to good use to improve your situation. You are part of our student body, and we are proud of you."

Bob Hemmings, division chairman at the facility, presided at the graduation ceremony.

Wednesday, May 27, 1987-3A

265 Graduating From SCC; Area High Schools Announce Graduation Dates

DOBSON—Degrees will be presented to 265 students at Surry Community College's graduation ceremonies Friday at 6:30 p.m. in the school gymnasium here.

This year's graduates include 182 who will be receiving two-year associate degrees in applied science, 51 who will be receiving associate in arts degrees, 10 who will receive associate in science degrees and 22 vocational diplomas.

The class of '87 represents seven North Carolina counties (Surry, Yadkin, Stokes, Wilkes, Alleghany, Forsyth and Cumberland) and three Virginia counties (Patrick, Carroll and Grayson).

Friday's ceremonies are open to the public, with a special invitation extended to families of the graduates.

The ceremonies will feature

remarks by several graduating students: Philip Ray Steagall of Dobson, representing the Vocational Division; Gregory F. Smith of Pilot Mountain, College Transfer Division; Wilma Kay Cockerham of East Bend, Business Division; Sheila B. Poindexter of Sileram, Nursing Division; and the Technical Division's Patricia Gail Peil.

Dr. James G. Reeves, vice president of student services, will extend the welcome and introduce speakers, while Dr. Jan Crawford, dean of instruction, will present diplomas and college President Dr. Swanson Richards will confer the degrees.

Jerry Tuttle, president of the SCC Student Government Association, will give the invocation and music will be provided by the college chorus. A president's reception will follow the ceremonies.

College officials say that in addition to the 265 who will receive degrees, a number of SCC students have found early jobs in technical vocational programs before graduation or have chosen to transfer to four-year colleges while lacking only a few credit hours to complete their degree requirements here.

Friday, June 5, 1987-9A

...In Education

Riggs

Judy Riggs, director of basic education programs at Surry Community College, has been named to the nine-member state board of the N.C. Community College Adult Educators Association. She represents the adult basic education area.

She has been a member of the SCC staff for 11 years and, in October, 1986, was named director of the ABE program. She was learning center coordinator for the college from 1976 to 1986.

The Surry native graduated from North Surry High School, received her AA degree at SCC, and Bachelor of Science in English and Master of Arts in reading from Appalachian State University. She also received an educational specialist degree in adult education from ASU.

Seniors wary of axe poised over free courses

By DEBORAH BAKER GOLDEN
Lifestyles Editor

Local senior citizens who take free extension courses courtesy of community colleges are afraid their "continuing education" might be discontinued.

A proposal of the Department of Community Colleges would

disallow the fee exemptions granted to senior citizens, and area nursing home residents and activities directors are worried those over 65 won't be able to afford to pay for the courses.

Academic, practical skills and avocational classes now are offered free to the seniors. The proposal recommends they be required to pay 50 percent of the normal course registration fee.

"Many of our residents are on Medicaid and are allotted so much per month," Debbie Barker, administrator at Triad Senior Village, says. "So much per month goes to medication, and there is little left. Where residents are on a very limited income, it would really be considered a luxury to take classes."

Triad Senior Village in Elkin offers music, basket weaving, arts and crafts and gardening to residents twice a week through Surry Community College. Guardian Care of Elkin also holds classes through the community college.

The proposal to charge senior citizens for classes was based partly on an operational audit conducted by the state auditor's office in Raleigh.

Ed Renfrow, state auditor, says

recommendations were presented to the Department of Community Colleges in mid-May. The purpose of the audit was to evaluate how well community colleges are providing educational opportunities to help people train and re-train for employment, he says.

Renfrow says auditors question whether avocational courses, like arts and crafts and aerobics, fall under the primary goals of the community college system and suggest they be self-supporting instead of funded by the state.

If people want to go take aerobics and use the class as a recreational center, they should pay for it as they would a health club, he says.

Currently, there are fees for avocational classes for people under the age of 65. These charges, however, will not support the classes without government assistance, he says.

Cy K. Lynn, director of public affairs for the Department of Community Colleges in Raleigh, also sees the 50 percent charge for senior citizens as a way to help make the classes self-supporting.

"It's the general feeling that state funds to support educational expenses ought to be concentrated in technical and vocational areas," with avocational courses being self-supported, Lynn says.

Mark Van Scler, assistant director of public affairs, says, though recommendations have been made to the General Assembly concerning funding to community colleges and the 50 percent charge for senior citizens,

Please Turn to Page Six

In class

Working on crafts helps pass the time for Annie Burgess, a resident of Triad Senior Village in Elkin. Through the classes offered by Surry Community College, Bur-

giss may participate in two or three activities each day including arts and crafts, basket weaving, gardening and music.

★ Seniors wary of axe poised over free courses

(Continued from Front Page)

no bill has been introduced. The deadline for filing bills has passed, but the proposal could be included in the general budget package.

Cost is a major concern in state funding of the avocational courses, Renfrow says, adding that charging seniors a fee could help eliminate that.

Since funding is based on the number of students enrolled in classes, there have been situations where "a concentrated effort was made to go into nursing homes and enroll the population in the classes," he says.

"There were people's names on the rosters who did not know they

were on the rosters," he says.

Renfrow says the state may want to provide classes for nursing home residents, but it might be more feasible to do so in the form of grants to community colleges based on need in the area.

Swanson Richards, president of Surry Community College, says he has no idea what will happen to nursing home classes if the proposal is accepted.

"We at Surry Community College have made every attempt to offer whatever the community felt like we needed," he says. If grants are procured for funding classes for senior citizens, the college would apply, he says.

Judy Walker, activities coordinator at Guardian Care of

Elkin, originates, carries through and documents a plan of care for each of the center's 100 patients. Though the center has a full activities program, Walker says classes offered through the college for the past four years have enhanced her program.

"There is a real need for the programs, and I'm afraid they are going to be lost," she says.

Guardian Care is an intermediate and skilled nursing center. While some of the residents are able to attend classes, others need one-on-one care in their rooms. Walker says having the classes through the community college has allowed her more time to spend with bedridden patients.

Arts and crafts classes at the center have been altered to meet

the residents' needs, she says. For example, even stroke patients who are able to use only one hand have learned to sand wooden objects by placing the sandpaper on a desk top and using their good hand to rub the object against the paper.

Walker says the residents look forward to the classes. She recalls one woman who had a relative bring fresh flowers each week for Gail Ashburn, a music teacher who has held classes at Guardian Care for four years.

Ashburn says her classes provide musical outlets for people who might have been musicians when younger and reach memories that "nothing else can tap."

"Certain residents have no interest in anything, but music is able to reach them," she says. "The fact that they can depend on me to be here also adds some continuity to their lives."

Ashburn says one resident told her, "When your feet are cold and your heads are high, it sure feels good to hear this music."

"Music has a way of soothing unlike anything else," she says. "It's also good exercise for the upper body. Anything that is rhythmic is good for the mind and body."

Though Walker says the activities she is able to provide through Guardian Care are good, "we've been fortunate enough to have extras through the community college."

with their time.

"I'd rather be doing something than be idle any time," she says. Included in the skills she has learned through the classes is basket weaving.

Her husband Grady, a poet and retired Baptist minister, also sees the classes as beneficial.

"One of the best ways to relieve boredom is to have something constructive to do," he says.

If the proposal does go into effect, Barker says Triad will try to find volunteers to teach classes. Activities directors say that while volunteers help with monthly

birthday parties and outings, it is difficult to find ones who will make the commitment to teach weekly classes.

In the meantime, families and residents at Guardian Care of Elkin are sending a petition to state legislators to make them aware of the need for nursing home programs like those offered through the community colleges.

"If we do lose the (free) programs, we'd like to have something to back them up," Walker says. "Something should be set up that's appropriate for nursing homes."

"We have more specialized groups, and that many more people residents deal with and have contact with," she says.

Joanna Chambers, activities coordinator at Triad Senior Village, says having the college programs has allowed her to offer as many as two or three activities a day.

"There is no way I could provide two activities a day and vary them (without the community college courses)," she says.

"Many of our residents are up and active and want to stay active," Barker says. On holidays, when activities are not scheduled, they do not know how to cope without something to do.

Triad is a rest home, not a nursing home, and all the residents are able to walk and get around fairly well.

Annie Burgess, a resident of Triad Senior Village, says she is a "faithful attendant of the classes." She thinks the classes are good because they provide the residents with something to do

SCC Officials Hoping For Relief From Tuition Increase

By JODI SMITH
News Staff Writer

DOBSON—Surry Community College officials are hoping a last chance effort in the N.C. General Assembly to freeze out-of-state tuition before it increases again in July will be successful.

College board of trustees members discussed the possibility of that at their monthly meeting at the school Monday.

"The original bill (House Rep.) Dave Diamond proposed (House Bill 813)—which would eliminate a tuition hike for out-of-state students who work and pay taxes in North Carolina, or whose parents work in state) was referred to the Appropriations Committee (of the General Assembly)—which killed it," SCC President Swanson Richards told the board.

"So Mr. Diamond proposed a committee substitute—a compromise bill—to freeze the out-of-state tuition at \$504 as of June 30, before it would increase to \$702 on July 1," he added.

"If that is approved, the state would have three community college tuition rates," said Richards. "Although the chances of it passing seem to be slim to none, it's the only way to keep the bill alive."

Richards said Diamond and other area legislators "tried their best to

defend" the original bill, despite opposition from some representatives in the southeastern portion of the state.

Diamond could not be reached for comment by presstime.

In other business, the board convened in a closed session to discuss a \$50,000 lawsuit filed against the school by former math and physics instructor Carole R. Lipkin, 44, of Winston-Salem, whose contract was not renewed this year. Lipkin claims she was fired because of her outspoken views on women's rights.

No vote was taken after the session, and Richards declined comment on how the school would respond to the suit. No court date has been set.

Also, board members voted unanimously to lease a 150-foot-square plot of land north of the new computer science building to the town of Dobson for a tentative site for a new water tank.

Richards said the school would be glad to help the town because of

(Continued on Page 3A)

SCC Officials

(Continued from Page 1A)

their past cooperation with the school. The town engineer has pinpointed the site as a prime location because of its high altitude, Richards said.

Before a site can be confirmed, however, it must be approved by the Local Government Commission and bond referendum must pass a two-thirds majority of Dobson residents.

One site that has been confirmed, and in fact is currently under construction, is the new computer science building grounds just north

of the college's administrative building.

Richards said he met with the project's general contractor—Wishon & Carter Builders Inc. of Yadkinville—four division contractors, and architect Fred Butner last week concerning a timetable for the new facility.

"Everything is in order," said Richards of the \$1 million structure. "The official completion date is April 15, although the contractors think the building will probably be ready by March 1."

SCC names spring dean's list

Tribune 6-26-87

Surry Community College has announced its dean's list for spring quarter from Surry Community College here. To qualify for dean's list, a student must have a "B" average with no grade less than a "C" and must be enrolled for at least 12 quarter hours work.

Local dean's list students are: Melissa Jean Atkins, Dobson; Michael Vernon Ayers, Dobson, Rt. 2; Donna Jarrell Badgett, Dobson; Pamela Lou Bell, Boonville, Rt. 2; Marjorie Hamilton Billig, Jonesville, Rt. 1; Karen Brown Billings, Thurmond; Amy Sue Bledsoe, Dobson, Rt. 4; Jason Lee Brady, Dobson, Gurney Thomas Branch, Dobson, Rt. 1; Wanda Brown Brandon, Yadkinville; Tonda Leann Brooks, Dobson, Rt. 1; Dayton Eugene Brown, East Bend, Rt. 1; Wanda Mae Brunke, Thurmond, Rt. 1; Scarlett Finney Bryant, Boonville, Rt. 2; Mark Wayne Burcham, State Road, Rt. 1; Lyman Herman Burkett, Boonville, Rt. 1; Grant Lloyd Byas, Dobson; Timothy Linwood Campbell, Boonville, Rt. 2; Cynthia Dawn Carter, Yadkinville, Rt. 4; Jamie Bettina Carter, East Bend, Rt. 4; Robin Denise Carter, Elkin; Mariena Ann Caudle, Boonville, Rt. 1; Jonathan Derek Cave, Boonville, Rt. 2; Susan Dennis Martin Childress, Elkin; Henry Carter Cobb, Boonville, Rt. 2; W. Kay Cockerham, East Bend; Lloyd Eugene Coley, Dobson; James Marvin Collins Dobson, Linda Addair Collins, Hampton-

ville, Rt. 3; Melante burham Collins, Thurmond; Sandra Snow Collins, Dobson; Sarcanda Yunay Collins, Jonesville, Rt. 1; Michelle Lee Comer, Dobson, Rt. 4; Julius Gary Cundiff, Dobson; Ashlee Hedgecock Davis, Dobson; Marcia Maudena Davis, East Bend, Rt. 1; Michelle Lynn Davis, East Bend, Rt. 1; Mitchell Wesley Davis Yadkinville, Rt. 2; Raveon Ezra Davis, East Bend, Rt. 1; Amy Childress Delgado, Hamptonville; Lisa Michelle Dew, Elkin, Rt. 2; William Anderson Dezarn, Siloam, Rt. 1; Terri Sue Jarvis Dimmette, Elkin; Kimberly Dawn Dockery, Dobson; Donna Yvonne Draughn, Yadkinville, Rt. 5; Charles Leonard Durham Jr., Elkin, Rt. 1; Thomas Clayton Ferguson, Dobson, Rt. 4; Bridga Hoots Freeman, Yadkinville; Robin Spencer Freeman, Elkin; Darlene Pardue Fulcher, Dobson, Rt. 1; Mary Elizabeth Gentry, Elkin, Rt. 1; Tina Thompson Gentry, Jonesville; Ben Kelly Gillingham, Jonesville; Darla Jo Godfrey, Elkin; Cheri Elizabeth Grimsley, State Road, Rt. 1; Donna Suzanne Groce, Hamptonville, Rt. 3; Brenda Phelps Hakemeier, Elkin; Cassandra Kaye Hall, State Road, Rt. 1; Mark Edward Hall, Siloam, Rt. 1; Michael Randolph Hall, Dobson; Leroy Harrington, Dobson; Donald Joseph Hatch, Dobson; Christopher Labon Hauser, Yadkinville, Rt. 4; Patricia Allen Haynes, Elkin; Kristi Lynn Coe Hinshaw, Dobson, Rt. 2; Sherre Lynn Hobson, East Bend, Rt. 3; Tonya Chambers Hobson, East

SCC Seeks Suit Dismissal

News Staff Report

DOBSON—Lawyers for Surry Community College are asking a federal judge to dismiss a \$50,000 lawsuit a former instructor filed against the school.

"They are asking that it be dismissed basically for lack of evidence," college President Dr. Swanson Richards said today.

Richards said he could not

(Continued on Page 7A)

SCC Suit

(Continued from Page 1A)

comment further on the suit, filed by former math and physics instructor Carole Lipkin, 44, of 2835 Glenhaven Dr., Winston-Salem, on May 5.

Lipkin charges that the school and Dean of College Transfer Carlyle Shepherd violated her rights in recommending and denying her tenure because of her outspoken views on women's rights.

She has been unavailable for further comment on the suit, filed in U.S. Middle District Court in

Winston-Salem.

Shepherd, the school and their attorneys say the allegations are without merit, and in a written statement uphold Lipkin's firing "based on evidence in hand."

The former faculty member taught at SCC from November 1981 to March 1986.

Richards said a pre-trial hearing is scheduled for 9:30 a.m., July 23, in the Winston-Salem Federal Building to decide whether the case will be dismissed.

Community college alumni name officers

DOBSON — Sheila May of Siloam (Class of 1982) has been elected president of the Surry Community College Alumni Association. Others named to serve with her were Sonia Sexton of Dobson (Class of 1984), first vice president; Charleen Bullin Mooney of Dobson (Class of 1985), second vice president; Tony Searcy of Pilot Mountain (Class of 1976), third vice president; Jan Hudson of Mount Airy (Class of 1985), secretary; and DeAnn McCormick Haynes of Copeland (Class of 1980),

treasurer. Dean Culler of Mount Airy (Class of 1984) is public relations chairman.

The association is making plans for its second annual cook-out on Aug. 22. All alumni are invited but should make reservations.

Dr. Carlyle Shepherd, dean of college transfer, is alumni activities coordinator on the college staff. There are more than 20,000 SCC alumni (those who either earned degrees or completed courses at the college). All are eligible for membership in the association.

SCC awards scholarships

DOBSON — Surry Community College has announced several scholarship awards which recognize educational leaders in the county.

Tommy Gray Branch, son of Mr. and Mrs. Jimmy Branch of Mount Airy and a graduate of Surry Central High School, has won the Sam Gentry Sr. Scholarship, formed in tribute to the retired county school superintendent. It is for two years of study at SCC.

Amy Suzanne Reece, daughter of Mr. and Mrs. David Reece, Dobson, Rt. 3, and a graduate of Surry Central High School, has won the Anne Patterson Mathematics Scholarship established to honor the retired math teacher at Surry Central.

Courses to remain free

By GREG COOK
Staff Reporter

RALEIGH — A proposal that threatened senior citizens' ability to enroll in continuing education courses has been dropped by the state Board of Community Colleges.

Tri-County

The proposal would have instituted charges for senior citizens for currently free courses such as pottery, sewing, crafts and other continuing education courses provided through North Carolina's community college system.

Area senior citizens and directors of nursing and retirement homes have said many older people could not afford to pay for the courses and would have to drop them if charged a fee.

However, the state board reversed its recommendation to the N.C. General Assembly that colleges charge senior citizens 50 percent of the normal fee for any continuing education course.

The proposal to charge senior citizens for classes was based partly on an operational audit conducted by the state auditor's office in Raleigh. The auditor's report made 21 recommendations to the board suggesting improvements in the system's audit-

ing procedures.

Swanson Richards, president of Surry Community College, said Thursday that he is pleased with the board's decision to rescind the proposal.

"I'm delighted," Richards said. "There is a need from the standpoint of senior citizens. It would be difficult for many to participate in classes (if fees were charged)."

Richards said he would not have been surprised if the board

had followed through with the recommendation. He cited recent increases in tuition for out-of-state and in-state students as justifications for using the charges as another revenue source.

Debbie Barker, administrator at Triad Senior Village in Elkin, said the board's decision comes as good news.

"We have many residents here who participate in basket weaving

☛ Please Turn to Page Three

★ Board drops proposal

(Continued from Front Page)

and adult education," Barker said. "If our residents had to pay, it would really limit the number who could participate. I'm very excited about this."

Barker said approximately 25 residents at Triad participate in the courses.

Judy Walker, activities coordinator at Guardian Care in Elkin, echoed the sentiments of Richards and Barker.

"We are pleased with it," Walker said. "For our people, it's (the fee exemption) the only way they can participate."

The recommendations to the Department of Community Colleges were made because state auditors questioned whether avocational courses, like arts and crafts and aerobics, fall under the primary goals of the community college system.

Ed Renfrow, state auditor, had said if people want to take courses for recreation, they should pay for them just as they would at a health club.

Business, Education Leaders Meet

Community Colleges Look for Ways to Stay in Step With Business

By Richard M. Barron
JOURNAL BUSINESS REPORTER

As businesses struggle to keep up with changing machinery and methods in their fields, the state's community college system finds itself struggling to keep its students in step with business.

Former Gov. Robert W. Scott, the system's president, recently finished a 12-session Business Conference Series that put business and community college leaders together to trade ideas on improving the colleges' business focus.

This effort to keep in step with business is also happening at the county level, local community college officials say.

Bob H. Greene, president of Forsyth Technical College, said that the college's role in recruiting business to Winston-Salem becomes more prominent every year.

"We are providing as much flexibility as possible to meet the needs of business and industry," he said.

He said that being able to retrain employees for companies is something that has become far more important recently than it was five years ago. "We're trying to stay one step ahead," he said.

The state-level sessions included leaders from the electronics, metalworking, utilities, health, chemicals and pharmaceuticals, travel/tourism, furniture, transportation, government, construction, textile and apparel and agriculture markets.

After the meetings, the program's steering committee recommended a series of changes and improvements that would make the community college sys-

tem more responsive and useful to business.

For example, the group said that the Board of Community Colleges should encourage its colleges to develop regional programs.

The cost of instructors and machinery can make some specialized programs too expensive to put in all community colleges, and their only chance for survival is through centralization, Scott said.

Scott said in an interview that though no plans are on the books yet for regional programs in the Piedmont, the state board is considering a regional program for southeastern North Carolina that would train technicians for the swine and poultry industries.

Students from other areas of the state could attend the southeastern program for a few months before returning home to use their skills, he said.

"Generally, we'll be looking at some of the programs that are exceptionally high cost, and we simply can't afford to have equipment in every school," Scott said.

Dr. Swanson Richards, president of Surry Community College in Mount Airy, said that one of the biggest challenges for community colleges is preparing students for the right jobs. If jobs don't exist in the areas they're training for, the colleges are not doing its best to guide students, Richards said.

"We have got to stay on the cutting edge of expanding industry and new industries that are coming in. We play a delicate balance between what the people want and what industry wants. It's a matchup," he said.

"We have got to emphasize more skills, a wider variety of skills in our area, so that our people can be flexible and change as time goes along," he said.

Scott said that the statewide sessions showed that businesses are eager to help the community colleges train and retrain their workers as the economy changes rapidly.

"It was quite clear that all of them wanted to keep up this dialogue with the business community," Scott said. "We need their input to help us with our long-range planning," he said.

Community colleges should learn to tailor their instruction to the needs of employers, the group said. For example, some students may need improved literacy and basic skills in addition to other work skills, and the group said that the colleges should be aware of those needs.

Richards said that the colleges are also responsible for giving students the desire to keep up with change. "I think we are talking about sending a person out with basic entry level skills and also with the motivation that's necessary to pursue the change that's going to come out in all aspects of the industry," he said.

The group also said that community colleges can improve the way they help employers search for qualified job applicants.

Scott said that he recently established a Commission on the Future to carry out some of the recommendations of the business group. The citizens committee will have a broad, 18-month focus to "take a hard look at who we are and who we need to be," Scott said.

SHRINKING MARKET

Glove Makers Replacing Cut-and-Sew Workers With Machines in the Battle Against the Japanese

By Ken Otterbourg
JOURNAL BUSINESS EDITOR

The factory floor of Golden Needles Knitting Co. is like few others in the apparel industry.

Yes, it's noisy, and little wisps of yarn float through the air. But missing are the people. They are pushed to the side, involved mainly in the finishing rather than assembly process of making the 1.8 million gloves that Golden Needles churns out a week. With annual sales of \$35 million, Golden Needles claims to be the largest manufacturer of gloves in the world.

More are on their way.

The company, based in Wilkesboro, is completing a \$4 million, 50,000-square-foot expansion that will add 325 knitting machines to the 625 that knit and purl the hours away, doubling its production output. With the machines will come 150 new jobs. The company now employs 230.

Golden Needles' boom is premised on the firm belief that a Japanese knitting machine is cheaper and faster than any cut-and-sew operation. Harold Plemmons, the company's president and founder, said that, "The future of the American glove industry is in the machine knit."

The machine of choice at Golden Needles is made by Shima Seiki, a Japanese company. It produces a glove every two minutes.

Plemmons started Golden Needles with

four machines back in 1976 after he sold his interest in the Tom Thumb Glove Co., also in Wilkesboro. Tom Thumb at the time was a traditional cut-and-sew manufacturer, relying on piece-work seamstresses working out of their homes to assemble the gloves.

"Nobody in the industrial glove market had done anything to get automated," Plemmons said.

Like many segments of the textile and apparel industry, glove making was and continues to be under pressure by foreign manufacturers who enjoy lower labor costs and operating expenses. That onslaught has forced glove makers to be more innovative and responsive to customers.

According to the Work Glove Manufacturers Association, an industry trade group in Washington, imported work gloves now make up 52 percent of the products shipped in the United States. That's come through a steady drop in domestic manufacturing, from 26.4 million dozen shipped in 1974 to 22.6 million dozen shipped in 1986.

The heat from abroad also comes at a time when there is lessened demand for industrial gloves, because fewer people are working in the heavy industries that are big buyers of gloves.

Ray Ryder, the president of Tom Thumb Glove, said, "The market is basically shrinking in the heavy gloves."

Tom Thumb still produces about half of its gloves through cut-and-sew methods and

half by machine. Ryder said the company has been forced to shift to machines by high labor costs and a difficulty in finding people to stitch together gloves. (The U.S. Labor Department is in the process of lifting restrictions against home work that forced 85 sewers at Tom Thumb to give up their jobs working at home).

The loss of traditional, blue-collar customers means glove makers are fighting for a smaller pie and trying to crack new markets with focused products. That means lots of styles, lots of sizes and lots of Kevlar.

Kevlar, a synthetic fiber made by Du Pont, has revolutionized the glove industry. Pound for pound, it is five times as strong as steel. It can be knit and woven into flexible handwear that protects against cuts from knives, glass and hot metal.

Kevlar can be knit in blends with other fibers to produce different strength fabrics. Golden Needles, working with Chrysler Corp., developed a 35-percent blend that the automaker uses on its production line.

Golden Needles makes arm protectors out of Kevlar, using a tubular knitting machine to knit long runs of the fabric. Employees use a Black & Decker circular saw to cut the tube into proper length.

Kevlar isn't unique to Golden Needles. Sinclair Bolick, the vice president and general manager of Carolina Glove, said that Kevlar, which has high heat resistance, has replaced asbestos in many applications.

The fiber's importance can't be overlooked, because it has enabled glove makers to produce a quality product on a machine and save their expensive cut-and-sew workers and equipment for specialty items.

"The imports have made tremendous inroads into cut-and-sew, and now also in machine knits," said Bolick. Carolina Glove has seven manufacturing plants in North Carolina, including one in Wilkesboro.

Golden Needles sells only a limited line of cut-and-sew products, hitching its future to the machine. Plemmons said it competes against imports by offering consistency of service and quality and by developing new products.

For example, two years ago Golden Needles introduced a line of gloves and arm protectors for the meat-packing industry. Knit of synthetic fibers wrapped around steel, the Polar Bear line won quick praise from meat packers, where cuts are the main industrial injury.

Golden Needles then produced the line in Black, calling it the Black Bear. The properties are similar, but the glove doesn't show dirt as much, making it ideal for dirty, grimy jobs where a white glove would quickly look spent.

Kevlar is now being introduced into consumer lines. Golden Needles and Du Pont are jointly exhibiting a machine-knit Kevlar product for home use, called the Armadillo.

See GLOVES, Page 18

GLOVES

Continued From Page 10

at the National Hardware Show in August. Sutton and Plemmons said that market tests indicate that people will use knitted gloves for yard work and other chores if the products fit well and are truly protective.

While Plemmons has faith in the knitting machines, he said that using the available technology leaves little room for errors.

And growth has also come at the expense of lesser competitors who bought the glove-knitting machines without having adequate sales and technical expertise to back up their investments. Since 1982, Golden Needles has bought out nine glove companies.

In spite of hardships, mother completes her education

DOBSON — Peggy Comer, married and mother of three sons, was a waitress in a Dobson restaurant in 1967. A regular customer was a serious man who brought his books into the restaurant and studied while eating. Impressed, with his efforts, Comer learned later that he was taking courses at the new Surry Community College, driving down the mountain from Galax, Va. two nights a week to attend classes.

"If he can do that, maybe I can too," she thought. Looking back, she says, "I had no intention of graduating, but I thought it would be a good idea to brush up on secretarial skills in case I needed them."

With support from her husband Porter and her sons, she entered Surry Community College in 1968, in the college's first building. She began with secretarial courses, but soon became intrigued by and switched to the overall business program.

The rest is a story of taking educational opportunities where you find them, despite age differences and family tragedy.

While holding down two part-time jobs, one in the college snack bar and the other tutoring students, Comer continued her studies, completed the Surry Community College programs in the spring of 1971. She was named technical assistant in the business department and in her new position, began giving individualized instruction and encouragement to students, providing assistance to other staff and faculty and to students in accounting and cost account-

"Looking back, I guess I just didn't have the sense enough to be afraid." **Peggy Comer**

ing.

She had caught the spirit, and in the fall of 1976 she enrolled in an Appalachian State University "cluster" program at Surry Community College, working toward a degree in business technology. In the spring of 1979, she earned her BT degree, with high honors.

"I've gone this far, so I might as well finish," she remembers telling her family. So, she entered the Appalachian State University masters program. She got a kick out of telling her instructors and younger fellow students that she was just "a late bloomer."

Tragedy struck in the winter of 1979. Her husband, an employee with a Dobson oil company, learned he had cancer. He died in March, 1980. Comer was not to stop, however. She picked up her studies after his death and sent on to earn her master's degree.

In 1983, she was named Rotary Scholar by the Mount Airy Rotary Club and studied for six months at the Center of Higher Education, University of Melbourne in Australia. She had to cut short her studies there and return home because of the illness of her father, Early Gentry of Zephyr. He died just a week after her return.

"Looking back, I guess I just didn't have the

sense enough to be afraid," she says. In the same breath she praises the many people who encouraged her during the tough times when "it would have been easier to quit": counselors, instructors, fellow students and staff members. Most reinforced her tendency to be self-reliant and venturesome.

An example of that venturesome spirit was completion last year of a course in auto body repair at Surry Community College.

"By the grace of God and Broadus Atkins (instructor) I passed," she says, pointing with pride to the 1973 Dodge Dart she had wrecked and then brought back to life through the course.

Not surprisingly, Comer is a NASCAR racing fan. But she also likes gardening, reading, music and dance. Her most enduring fans and supporters are sons Eric, employed with Quality Mills; Wyatt, who operates a service station in Stuart, Va. and Mark, manager of a quick lubrication facility in Winston-Salem.

All three took courses at Surry Community College.

PEGGY COMER

COMMITTEE'S FIRST MEETING—N.C. Department of Commerce Industrial Financing Director Bruce Strickland Jr. (left) talks with Surry Economic Development Director Robert F. Comer at a Committee of 100 picnic at Cody Creek Park near Dobson Saturday. Strickland addressed the more than 400 people who gathered for the committee's first meeting, which Comer termed "top-notch successful" and "a very excellent beginning for private sector support" at Surry.

Scholarship fund has been established

Pilot 7-15-87

The Surry Community College Alumni Association has established a scholarship fund to provide financial assistance to outstanding graduates of high schools in the college's service area, for study at SCC.

Selection of the recipient of the scholarship will be based on a combination of academic excellence, civic involvement and financial need. The first scholarship of \$300 will be awarded for the fall quarter of 1987.

Jerry Venable, president of the alumni group, said in announcing the scholarship, "We realize the positive difference that the college has made in our lives and we are hopeful that the scholarship will make a positive difference in the lives of others."

Interested applicants should apply to the Financial Aid Office at the college, by writing to Box 304, Dobson, N.C. 27017, or by calling 386-8121.

SCC alumni to meet at park

DOBSON — The Surry Community College Alumni Association will hold its second annual membership picnic at Cody Creek Park near here Aug. 22.

Registration and social hour begin at 5:30 p.m. All Surry Community graduates and former students, faculty, staff, trustees and spouses are invited. In addition to a business session, installation of officers and awards presentations, the program will include a barbecue supper and entertainment by Miles Wilmoth.

The Pilot 7-15-87

Surry Community College grad is winner of engineering award

Mrs. Ellen Miller West, a graduate of Surry Community College and now a junior in mechanical engineering at N.C. State University in Raleigh, has received a \$500 scholarship from the North Carolina Society of Professional Engineers for academic excellence. She has

also been named "Outstanding Mechanical Engineering Junior" for purposes of competition for a Senior Faculty Merit Scholarship.

Mrs. West took pre-engineering courses at SCC and with the exception of one B had a straight-A record here. Her husband, Gregory, is a pharmacist in

Raleigh. They have three children.

Four other SCC graduates are also making their mark in the N.C. State Engineering School: Danny Durham, senior, who received a similar scholarship last year; Robert Hutchins, Juan Acevedo and Jason Hodges.

The Tribune, Eikin-Jonasville, N.C., Wednesday, July 29, 1987

SCC to add electronics building

DOBSON — More space and added technology in the field of electronic and computer science will be a fact of life next year this time at Surry Community College.

A hole in the ground the size of a football stadium is now occupied by earth-movers and construction workers. A year from now it will be filled by a new 15,000-square-foot building devoted to enhancing the college's high technology programs.

Present computer science and electronics functions will move to the new building upon completion in early spring of 1988, with new classrooms, laboratories and related equipment.

"This facility is something we've needed and planned for a long

time," says Swanson Richards, SCC president. "We have 330 students enrolled in computer science and electronics. The new building and equipment will make it possible to provide 'state of the art' instruction in these fields."

In addition to electronics and computer science, the building will house the college's Cooperative Skills Training program for industry and business, possibly a Small Business Services function, office of the Surry Economic Development Commission and space for community service uses.

General contractor for the \$1 million project is Wishon and Carter Construction Company of Yadkinville.

SCC offers advanced course in machine shop

DOBSON — Surry Community College here will add a second, more advanced course to its evening machine shop program beginning with the fall quarter in September.

The advanced course is especially suited to the needs of general machinists, tool and diemakers and production machinists who are working in industry. Studies will

include gear cutting and terminology, multi-lead threading and computer numerical control.

The class will be held on Mondays and Wednesdays, 6:30 to 9:50 p.m., for 11 weeks beginning Sept. 9. Instructor is Steve Shepard.

These advanced studies are an expansion of the machine shop curriculum introduced at Surry Community College 16 years ago.

SCC offers electronics course

The Tribune
8-5-87

DOBSON—The Evening Division of Surry Community College here will offer a Fundamentals of Electronics I course during the fall quarter. Regular college credit will be given in the electronics engineering Technology program and the Computer Engineering Technology program.

The course, which will include both classroom and laboratory work, should be valuable to prospective radio and television technicians, maintenance technicians, computer technicians, ham radio operators or anyone who wants or needs basic training in electronics. Guy Tolbert will be the instructor.

Pre-registration for the Fundamentals of Electronics I class is in progress. For those who do not pre-register, registration will be held on Sept. 3. The class will begin Sept. 9 and will meet each Monday and Wednesday from 6 to 9:50 p.m. through Nov. 23.

Interested students should apply and pre-register as soon as possible. Anyone who needs more information may visit or call the Evening Office or the Student Services Office (386-8121).

Another Success Story From Surry Community College...

Peggy Comer

Peggy Comer, married and mother of three sons, was a waitress in a Dobson restaurant in 1967. A regular customer was a serious man who brought his books into the restaurant and studied while eating. Peggy was impressed, and learned later that he was taking courses at the new Surry Community College, driving down the mountain from Galax, Va. two nights a week to attend classes.

"If he can do that, maybe I can too," Peggy reasoned. Looking back, she adds, "I had no intention of graduating, but I thought it would be a good idea to brush up on secretarial skills in case I needed them."

With support from her husband Porter and the boys, she entered SCC in 1968, in the college's first building. She began with secretarial courses, but soon became intrigued by and switched to the overall business program.

The rest is a story of taking educational opportunities where you find them, despite age differences and family tragedy.

While holding down two part-time jobs, one in the college snack bar and the other tutoring students, Peggy continued her studies, completed the SCC programs in the spring of 1971, was named technical assistant in the Business Department and in her new position began giving individualized instruction (and encouragement) to students, providing assistance to other staff and faculty and to students in accounting and cost accounting.

She had caught the spirit, and in the fall of 1976, she enrolled in an Appalachian State University "cluster" program at SCC, working toward a degree in business technology. In the spring of 1979, she earned her BT degree, with high honors.

"I've gone this far, so I might as well finish," she remembers telling her family, who were still four-square behind her. So, she entered the Appalachian State Masters program. She got a kick out of telling her instructors and younger fellow students that she was just "a late bloomer."

Tragedy struck in the winter of 1979. Her husband, an employee with a Dobson oil company, learned he had cancer. He died in March of 1980. Peggy was not stopped, however. She picked up her studies after his death and went on to earn her Master's degree.

In 1983 she was named Rotary Scholar by the Mount Airy Rotary Club and studied for six months at the Center of Higher Education, University of Melbourne in Australia. She had to cut short her studies there and return home because of the illness of her father, Early Gentry of Zephyr. He died just a week after her return.

"Looking back," she says, "I guess I just didn't have sense enough to be afraid." In the same breath she praises the many people who encouraged her during the tough times when "it would have been easier to quit": counselors, instructors, fellow students and staff members. Most reinforced her tendency to be self-reliant and venturesome.

An example of that venturesome spirit was completion last year of a course in auto body repair at SCC. "By the grace of God and Broodius Atkins (instructor) I passed," she says, pointing with pride to the 1973 Dodge Dart she had wrecked and then brought back to life through the course.

Not surprisingly, Peggy is a NASCAR racing fan. But she also likes gardening, reading, music and dance.

Her most enduring fans and supporters are sons Eric, employed with Quality Mills; Wyatt, who operates a service station in Stuart, Va.; and Mark, manager of a quick lubrication facility in Winston-Salem.

All three took courses at SCC.

Computer class set for fall

A computer fundamentals class will be offered by the Evening Division of Surry Community College during the fall quarter. This is a class for beginners and provides concepts and terminology needed by all who may want to use a computer at home or on the job.

Step-by-step instructions are given for the use of electronic spreadsheet software, word processing software, and database software. Interested students may choose one of the sections of the class—Monday, Wednesday or Thursday nights. Each section will meet from 6-9:50 p.m.

Pre-registration is in progress and prospective students are urged to apply and pre-register as soon as possible. For those who do not pre-register, registration will be held on Thursday, Sept. 3 from 8:30 a.m.-noon, 1-4 p.m. and 6-8 p.m.

Further information is available from the Evening Division Office or the Student Services Office. (386-8121).

Notary Public Course Scheduled At SCC

The Continuing Education Division of Surry Community College will offer a five-hour notary public course Saturday, Aug. 22, from 8 a.m. to 1 p.m. in the Teaching Auditorium, L-121. Dennis W. "Bud" Cameron, Surry County register of deeds, will be the instructor.

The registration fee for the course is \$15 and the required textbook is available in the college bookstore for \$5. Adults can pre-register by calling the college at 386-8121. *Mt. Airy News 8-7-87*

SCC to offer machine shop course

DOBSON—The Evening Division of Surry Community College here will offer a course in Machine Shop Theory and Practice I-A during the fall quarter. This course is an introduction to the machinist trade and the potential it holds for a craftsman.

It deals primarily with the identification, care and use of basic hand tools and precision measuring instruments. Elementary layout procedures and processes of lathe, drill press, grinding (off-hand) and

milling machines will be introduced both in theory and practice. Machine Shop Theory and Practice I-A is a requirement for certificate, diploma or technical machine shop programs.

Pre-registration for this class is in progress. For those who do not pre-register, registration will be held Sept. 3 from 8:30 a.m.-12 noon, 1-4 p.m. and 6-8 p.m. The class will meet first on Sept. 8, and each Tuesday and Thursday evening from 6:30-10:20 p.m. Nov. 24.

Further information about registration or class content may be obtained by calling the Evening Division office or the Student Services office (386-8121).

College to register fall shorthand course

DOBSON—Surry Community College here will offer an evening class in Beginning Shorthand-BUS 106 in the fall quarter. This class is the first in a three-quarter series of classes required for a secretarial degree.

Pre-registration for fall quarter is in progress. For those who do not pre-register, registration will be held Sept. 3 from 8:30 a.m.-noon,

1-4 p.m., and 6-8 p.m. The class will meet first on Sept. 8 from 7-9:20 p.m. and each Tuesday and Thursday evening through Nov. 24.

For more information about registration or class content you may call the Evening Division Office or the Student Services Office at Surry Community College in Dobson (386-8121).

Twin winners highlight SCC tournament

Five netters earn two triumphs in initial college outing 8-19-87

DOBSON - Highlighted by Derek Slate's narrow boys' 12 and under triumphs, five participants earned two victories during final-round action at the initial Surry Community College Foundation tennis tournament Monday.

The SCC tournament drew 83 participants in eight singles and doubles divisions. Play in the two-day tournament was suspended to Monday because of Saturday's extensive rainfall.

In the men's open singles division, Tony Mayes edged Mike McHone in a three-set thriller, 7-6, 2-6, 7-6.

Meanwhile, Janet Moseley withstood a fierce second-set charge by Crystal Brim to earn the women's open single title, 6-1, 7-5.

Slate was extended to split-set decisions in both the boys' 12 and under singles and doubles title matchups.

In the singles' finale, Slate outlasted Michael Fann in a draining match, 6-4, 4-6, 6-3.

Slate and Luke Graham teamed to slip past Brooke Seaford and Fann in a back-and-forth struggle, 6-1, 2-6,

6-4.

Troy Hodges was the remaining player to earn a singles and doubles divisional title.

In the men's 45 singles championship match, Hodges had earned a 7-5 first-set victory over Harry Taylor, but was down 2-4 in the second set when Taylor was forced to retire.

Hodges joined with Donald Moseley to ease past Taylor and Sam Walker for the men's 45 doubles title, 6-2, 6-4.

Proving their doubles talents are adaptable to different partners, Crystal Brim, McHone and Rita Hiatt earned two titles during the tournament.

McHone and Junior Luffman teamed to cruise past Tony Mayes and Tommy Dapp in the men's doubles, 6-2, 6-3. Brim and Hiatt pulled away from Sheila Royal and Martha Brannon in the second set to earn the women's double crown, 7-6, 6-3.

In mixed-doubles competition, Hiatt and Taylor won the "B" division titles with a 7-5, 6-0 victory over Robin Check and Tommy

GINA IRELAND

Branch.

McHone and Brim won the open mixed-doubles title by default over Danny and Sandy Allen.

In men's "B" division action, Phillip Brannon breezed past Jody Rotenizer, 6-3, 6-0, while Drew and Sam Walker edged Doug Hines and Scotty Edwards for the men's "B" doubles title, 6-3, 6-4.

Starmount High School's Gina

Ireland overwhelmed Northwest Conference rival Rachel Gilley of East Surry for the girls' 18 and under singles crown, 6-2, 6-0.

Men's and Boys' Singles and Doubles Overall Results

Men's Singles—Tony Mayes def. Mike McHone, 7-6, 2-6, 7-6.
Men's "B" Singles—Phillip Brannon def. Jody Rotenizer, 6-3, 6-0.
Men's 35 Singles—Roger Schock def. Bill Carter, 6-1, 7-5.
Men's 45 Singles—Troy Hodges def. Harry Taylor, 7-5, 2-4, 6-3.
Boys' 18 and under Singles—Adam Mason def. Ben Taylor, 7-6, 6-2.
Boys' 12 and under Singles—Derek Slate def. Michael Fann, 6-4, 4-6, 6-3.
Men's Doubles—Junior Luffman and Mike McHone def. Tony Mayes and Tommy Dapp, 6-3, 6-2.
Men's "B" Doubles—Drew Walker and Sam Walker def. Doug Hines and Scotty Edwards, 6-3, 6-4.
Men's 45 Doubles—Troy Hodges and Donald Moseley def. Harry Taylor and Sam Walker, 6-2, 6-4.
Boys' 12 and under Doubles—Derek Slate and Luke Graham def. Brooke Seaford and Michael Fann, 6-1, 2-6, 6-4.

Women's and Girls' Singles and Doubles Overall Results

Women's Singles—Janet Moseley def. Crystal Brim, 6-1, 7-5.
Girls' 18 and under Singles—Gina Ireland def. Rachel Gilley, 6-2, 6-0.
Women's Doubles—Rita Hiatt and Crystal Brim def. Sheila Royal and Martha Brannon, 7-6, 6-3.
Girls' 18 and under Doubles—Kristy Baily and Tammy Reaven def. Mandi Coe and Andrea Molsinger, 6-4, 3-6, 6-4.

SCC Tennis Play Ends With Five Double-Winners

DOBSON—Five players came away double-winners during championship play in the Surry Community College Foundation Tennis Tournament in Dobson Monday.

Mike McHone, Rita Hiatt and Crystal Brim won their titles in doubles play, while Derek Slate and Troy Hodges were title winners in both singles and doubles.

Following a tough 6-7, 6-2, 6-7 loss to Tony Mayes in the men's singles final, McHone teamed with Junior Luffman to knock off Mayes and Tommy Dapp 6-3, 6-2 for the men's doubles championship.

Brim also missed out on a singles title—losing in the women's final 1-6, 5-7 to Janet Moseley—before teaming with Hiatt, her mother, for a 7-6, 6-3 victory over Sheila Royal and Martha Brannon in the women's doubles title match.

McHone and Brim were awarded the mixed "A" doubles title when Danny and Sandy Allen defaulted.

Hiatt got her second title when she and Harry Taylor defeated Robin Check and Tommy Branch 7-5, 6-0 in the mixed "B" doubles final.

Derek Slate defeated Michael Fann 6-4, 4-6, 6-3 for the boys' 12-

and-under singles championship, then teamed with Luke Graham to knock off Fann and Brook Seaford 6-1, 2-6, 6-4 for the doubles title.

Troy Hodges took the men's 45 singles title when Harry Taylor was forced to retire during second set action. Hodges won the first set 7-5, but was losing the second 2-4 when Taylor called it quits. Hodges and Donald Moseley later knocked off Taylor and Sam Walker 6-2, 6-4 in the men's 45 doubles final.

In other championship matches, Phillip Brannon whipped Jody Rotenizer 6-3, 6-0 in the men's "B" singles. Drew and Sam Walker defeated Doug Hines and Scotty Edwards 6-3, 6-4 in the men's 45 doubles. Adam Mason got past Ben Taylor 7-6, 6-2 in boys' 18-and-under singles. Roger Schock beat Bill Carter 6-1, 7-5 in men's 35 singles. Gina Ireland dominated Rachel Gilley 6-2, 6-0 in girls' 18-and-under singles, and Kristy Baily and Tammy Reaven held off Mandi Coe and Andrea Molsinger 6-4, 3-6, 6-4 in girls' 18-and-under doubles.

SCC registration ends Sept. 3

DOBSON—Final registration for fall quarter at Surry Community College is Sept. 3, beginning at 8:30 a.m. Students can still pre-register from 8:30 a.m.-4:30 p.m. Monday-Friday prior to final registration.

Student orientation for fall quarter will begin at 10 a.m., Sept. 2, in the college gymnasium; orientation in major curricula areas is at 10:30 a.m.; and students will meet with advisors at 11:30 a.m. that day. A cook-out for students,

staff and faculty will be held at noon following orientation.

First day of classes in the fall quarter is Sept. 8. All departments at the college will be closed Monday, Labor Day, Sept. 7.

Farm Briefs

SCC To Offer Dairy Science Course

DOBSON—Surry Community College is offering an evening course in Dairy Science I in the fall quarter.

It will be the first in a five-quarter series of classes covering the dairy industry.

Dairy Science I will include topics relating to the selection and breeding of superior animals—reading and understanding pedigrees, evaluating the selection of sires, embryo transfer, artificial insemination and natural breeding and the improvement of reproductive performance.

Charles Boles, agriculture technology instructor at SCC, will teach the class.

Pre-registration for Dairy Science I is now in progress. For those who do not pre-register, registration will be held Thursday from 8:30 a.m. to noon, 1 to 4 p.m. and 6 to 9 p.m. The first class will be Wednesday, Sept. 8, from 7 to 9 p.m., and the course will resume each Wednesday evening through Nov. 18.

More information is available by calling the college's Evening Division office or the Student Services office at 386-8121.

Entry deadline today for SCC tennis

The Tribune 8-10-87

Sports Shorts

DOBSON - Surry Community College will be sponsoring a College Foundation tennis tournament from Friday through Sunday on the college's courts.

There will be 15 divisions in the tournament, including six men's and women's and two boys' and girls' singles brackets.

Entry fee for singles play is \$15, while doubles is \$10 per partner. Deadline for entering the tournament is today.

The men's and women's singles classes are divided into six categories: singles, "B" singles, 35 singles, 45 singles, 55 singles and 65 singles.

The boys' and girls' singles and doubles are separated into two formats: 18 and under and 12 and under.

The tournament will also feature three men's and women's doubles competitions, along with two mixed-doubles divisions. The tournament committee reserves the right to cancel or consolidate any event or

events.

The tournament draw will be posted on Wednesday at SCC. All participants are responsible for finding out the starting time of their first match.

Each player will need to furnish one new can of Penn or Wilson tennis balls. Trophies will be awarded to winners and finalists in each division.

A social will be held on Aug. 16 at 6 p.m. for all participants.

Make checks out to Surry Community College Foundation. The entry fee is tax deductible.

All entries should be returned to Mike McHone, SCC, P.O. Box 304, Dobson, N.C., 27017, or call McHone at 386-8121 (work) or 786-8270 (home).

THE PILOT NOVEMBER 4, 1987

Winter quarter is ahead at college

Pre-registration for the winter quarter at Surry Community College is November 2-6, with final registration November 24 and first day of classes November 30.

Dr. James M. Reeves, Vice President for Student Services, underscored the advantage of pre-registering. "It really is the easiest and most problem-free way to register, since it can be done ahead of the crowd, and

gives free time in advance of the first day of classes. It also helps our staff and faculty gear up for the new quarter."

Reeves also emphasized the availability of financial aid for students who need assistance. "Our Foundation has money available for those who face financial problems, and we encourage students or prospective students to discuss any financial need with us."

Registration for the college winter quarter evening program began October 26, with regular registration scheduled November 24 and classes to begin November 30.

Ways To Combat High Medical Costs To Be Explored At SCC Seminar

Mt. Airy News 9-15-87

DOBSON—Rising health care costs will be "examined" this week during the second in a series of special Thursday night seminars at Surry Community College.

This Thursday's event, "A Practical, Workable Approach To Wellness and Fitness," will focus on wellness as an alternative to high health care costs.

The 7-30 p.m. seminar is sponsored by the Surry Health Department, in conjunction with SCC, and will be presented by county Health Director Dr. J. Dale Simmons.

"Rising health care costs are a major concern in every segment of our society today, putting new and urgent emphasis on the need to promote wellness and physical fitness among all ages," Simmons noted.

The average individual should be able to add three to five years to his or her life span, and at the same

time live a better-quality life by following simple, basic rules of wellness," he added.

Topics Simmons will cover include conventional ways of treating illness; national, state and local statistics on cancer, heart disease and auto accidents; risk factors of cancer and heart disease and how to minimize them; and an approach to worksite wellness, known as WATCH. A tape by UNC-Chapel Hill family practice professor Ed Shahady on when, why and how often different people should see their doctor also will be shown.

Simmons will expand on those themes during this week's meeting with a review of the historical development of medical care, discussions of how costs often prohibit effective health care and suggested alternatives for those willing to adopt less expensive, yet cost-effective, methods of health care — based on lifestyle changes.

A brief review of a new Health Department computer worksite program that predicts a worker's longevity based on health habits will be given as well. Simmons noted that the program is under way at four area businesses and industries, but it will take about three years before lifestyle changes show any tangible results (extended longevity and reduced health bills).

The upcoming program, like all in the Thursday night series, is free and open to the public. It will be held in the SCC Teaching Auditorium. Public questions and discussion involvement is encouraged.

The next Thursday, Sept. 24, the three public school superintendents in the county will address the question, "What's Happening In Our Schools?"

In addition to starting at Appalachian, Searcy was drafted by the Golden State Warriors of the NBA in 1979.

Searcy has both his Bachelor's and Master's degrees from Appalachian State.

Visiting Artist Program At SCC Will Host Versatile Soprano And Voice Instructor

By JODI SMITH
News Staff Writer

DOBSON—Surry Community College will host a new visiting artist for the 1987-88 academic year. She is Lea Beth Cram, now living in Dobson, a versatile soprano and voice instructor.

Born and raised in Plainview, Texas (near Abilene), she began her musical studies in piano and violin. Cram has degrees in vocal performance and pedagogy from Baylor University in Waco, Texas, and Western Carolina University.

She is coming to Surry County after a year as visiting artist at Coastal Carolina Community College in Jacksonville, N.C.

"I discovered singing was for me in high school, and I've sung ever since," she said. "I'm excited about the coming year, and look forward to meeting, performing for and working with the students and community."

Cram says she likes to sing all types of music — opera, recital, pop

Lea Beth Cram

and sacred, noting: "I'm comfortable performing in the formal recital, but equally at ease playing the piano and singing pop music. Her musical theater performing

Westfield man gets scholarship to SCC

David L. Dalton of Westfield, sergeant in the Stokes County unit of the N.C. Department of Corrections, has received a scholarship from the American Correctional Association's North Piedmont Region, which encompasses 11 counties.

A 17-year veteran with the Department of Corrections, Dalton will use the \$250 scholarship to continue studies at Surry Community College, working toward a degree in criminal justice and correctional technology.

He has studied part-time in the SCC evening program for the past two years, and estimates

that another two years will be required for completion of his degree work.

Dalton is a native of Westfield, graduated from North Stokes High School in 1965 and graduated from Forsyth Tech with honors in 1966 before joining the Army, where he served two years, part of which was in the Vietnam theatre. He joined the Department of Corrections in 1970.

He is married to the former Brenda Marsh, also a Stokes native. They have two daughters, ages 14 and 11.

Cabinet course is designed for beginners

A 60-hour course in Cabinetmaking I (for beginners) has been scheduled to begin Saturday, September 19 on the Surry Community College campus in Dobson. The class will be held in the carpentry room (V. Bldg.) from 8 a.m. until 12 noon for 15 weeks.

Interested adults may pre-register by calling the Continuing Education Division of the college at 386-8121, extension 202 or 234. The registration fee, payable at the first class meeting, is \$15. North Carolina residents age 65 years and older may register free of charge. Mr. Frank Simmons will be the instructor.

■ Sixteen of the 17 1987 nursing graduates of Surry Community College scored a passing rate in national examinations given recently for Registered Nurse status. All are employed at health-care facilities in this region. Members of the graduating class from the Mount Airy area are Sheila G. Poindexter, Siloam; Emily R. Overby, Kimberly D. Forrest, Violet J. Snow, Deloris A. Hawks, Lisa R. Welch, Michelle D. Roberts, Brenda F. King and Dan Meredith III, all of Mount Airy; Veda J. Luka, State Road; Susan D. Childress, Elkin; and Tina J. King, Arrant, Va.

Enrollment Down At Surry Community SCC

(Continued from Page 1A)

By JODI SMITH
News Staff Writer

DOBSON—A recent tuition hike at Surry Community College for out-of-state students is at least partially responsible for a drop in enrollment this fall quarter, college officials say.

"The hike has affected our enrollment of students from Virginia quite substantially," confided Dr. James Reeves, vice president of student services.

Despite efforts by school officials and state Rep. David Diamond, D-Surry, to freeze tuition costs, out-of-state tuition nearly doubled

from \$261 to \$510 last fall, and again to \$708 this quarter.

Virginia students (other out-of-state students are not included) currently registered at the school are down 37 percent from the previous year — from 117 to 74.

Reeves attributes part of a decrease in overall enrollment — from 1,436 daytime students in the fall of 1986 to 1,357 this fall quarter — to a better economy and job market, and the availability of off-campus classes.

"It really sounds worse than it is. We've probably not got as many part-time students enrolled as last

year because they've been more able to find jobs and have chosen to work," he explained.

"Some of our vocational classes that had been strong have been affected by that. Cosmetology classes, for instance, dropped 99 full-time students."

SCC President Dr. Swanson Richards agrees that the tuition hike has "definitely affected" out-of-state enrollment, but attributes part of the drop to fewer high school seniors graduating in the area this year.

Evening enrollment (for both in-state and out-of-state students) is

also down by 304 from 1986 — from 1,387 to 1,083, Reeves said.

The school's college transfer curriculum, as in the past, has the highest enrollment at 434 — more than either the technical or vocational curriculums.

Favorite areas of study seem to be the same as in the past, Reeves said, including electronics (120 enrolled for the daytime program and 10 in the evening) and business programs such as business administration, secretarial science and accounting.

Enrollment in other subjects (Continued on Page 3A)

(drafting, machine technology, nursing, etc.) ranges from 25 to 50 students apiece, according to Reeves.

The student services spokesman said school officials have "worked diligently" to make \$500,000 in financial aid available to eligible students — both in-state and out-of-state.

Reeves said about 800 students currently are receiving aid.

"We don't consciously single out Virginia students for aid, although we know they're in a bind," he commented. "We want to help as many as possible in the entire student body."

The Carroll News, Wednesday, September 23, 1987, Page 15

SCC professor recalls Rudolph Hess

The recent death of Rudolph Hess brings back vivid memories for James Hutchens of Yadkin County, NC, retired history professor at Surry Community College.

Hutchens served as guard at Nuremberg Prison, which held numerous Nazi leaders who were rounded up at the end of the war, and who later went on trial for war crimes. "One of the more enigmatic was Hess."

As part of his assignment, Hutchens and others of the First Infantry Division made a house-to-house search in the Nuremberg vicinity looking for Martin Bormann, one of Hitler's staff, but without success. A skeleton found later on the outskirts of the city was determined to be Bormann's remains.

Of Hess, Hutchens remembers, "I never heard him say a word. He would pace around and around his cell. As he passed the cell door, he would look me in the eye, but only in a passing way. Quickly, he would change his gaze to the ceiling, walking around and around, looking up, never saying anything. He was a recluse, plain and simple."

"I remember, too, the day a

group of officials came to the cell of Hermann Goering and read his death warrant. Bur Goering committed suicide by poisoning before he was to be hanged...there has been a suggestion that one of the psychiatrists who interviewed all the war criminals had secretly given the poison to Goering, and later committed suicide by the same method."

Nuremberg Prison was filled with prisoners at the time, the

JAMES HUTCHENS is an historian who was an active participant in the historic Nuremberg Trials. He is a retired Surry Community College professor.

more important ones on the main floor, lesser officials on the second level. Initially one guard was assigned to four cells, until Hitler's labor minister, Robert Ley, hanged himself. Then a guard was assigned to every cell.

Conversation with prisoners was strictly forbidden, but somehow a fellow soldier from Salisbury was successful in getting autographs of the major war crime figures, except one, Dr. H.H.G. Schacht, Hitler's finance minister. Why? "He wouldn't sign the sheet because Hermann Goering's name was on it... that tells you something of the feeling among the accused," Hutchens says.

"Being witness to and involved in such an historical occasion had a tremendous effect on me. It certainly made me appreciate historic events, as well as political and economic forces. I still marvel at the fact that the German people were gullible enough to listen to a demagogue like Hitler after having done so much for the country's economy with their engineering, economic and scientific expertise...but he appealed to the general populace, and it got out of hand."

Why was Nuremberg chosen for the war crime trials? "I think there was a psychological reason. This had been the scene of some of Hitler's most massive rallies...it is a medieval walled city with a rich history of art, culture and industry. Obviously having the trials there had a humbling effect on the German people," Hutchens says.

A Yadkin County native, he arrived at Nuremberg in a circuitous way.

After graduating from Yadkinville High School, he joined the Army in 1943 and was a member of a Coast Guard anti-aircraft unit. By the time his AA training was complete, the Allies had won air superiority and his unit was not needed, so he was transferred to the infantry. In late 1944 he sailed from New York on the British troop ship "Mauratania" for Liverpool. After training in England with the First Infantry Division (Big Red One), his unit landed at Normandy and was trucked to the front lines.

In a fire fight near Aachen, he and three others were assigned to retrieve the bodies of two infantrymen and a medic killed by a

German machine gun fire. Crawling back to his unit, he was hit. "I felt a blow on my leg...it never did hurt...but when I got back I noticed that my right side was covered with blood." Army surgeons removed a bullet that was bent in a peculiar way at its tip. "I've always felt that it was a ricochet and that the bullet struck a tree or a rock before hitting me. Otherwise, I probably would be dead."

During his convalescence in England, the First Division went through the Battle of Hurtgen Forest and the Bulge. "Odds are this saved my life, because casualties in both battles were extremely high," he says.

At war's end he was back on duty with a patrol unit near Pilsen in Czechoslovakia, and by the summer of 1945 his unit was in Bavaria near Nuremberg. They were given Military Police duty and transferred to the Nuremberg arena. He was assigned prison duty, as a sergeant, where he served until the spring of '46, when he returned to the states.

He joined the faculty at the new Surry Community College in '67 and taught American history, economics and political science fulltime until his retirement in '86. He still teaches American history at SCC on a parttime basis.

Courses Designed For Employees Of Textile Industry

DOBSON—In response to county corporate needs, Surry Community College will be offering two Cooperative Skills Program courses in October specially designed for the manufacture of textiles, hosiery and apparel.

A course on basic half-hose manufacturing will be held Oct. 5, 7, 12, 14 and 19 from 6 to 9 p.m. by Gwyn Perkins of the N.C. Vocational Textile School at Belmont. Perkins is a textile chemistry graduate of N.C. State University with 17 years of experience in hosiery manufacturing.

A second course — Introduction to Dyeing and Finishing — will be taught Oct. 26 and 28 and Nov. 2, 4, 9, 11, 16 and 18 — also from 6 to 9 p.m.

Its instructor will be Larry H. Runions of Roxboro, former lab manager for Collins and Aikman.

The course is designed for those currently employed with related industries in the area, rather than the general public, according to Anne Hennis, head of SCC's Cooperative Skills Program (CSP).

"The CSP is funded through the (state) Department of Community Colleges, and we get money annually for courses that might not be offered through other programs," Hennis said. "In designing the courses, I tried to determine the needs of local industry, and how we could best upgrade their employees' skills."

Both courses are limited to 30 students. Hennis said 12 have already registered for the basic hosiery-making course, and eight for the dyeing and finishing class.

A fee of \$15 will be charged for each.

Interested employees should contact Hennis at 396-6121 as soon as possible.

The Tribune, Elkin-Jonesville, N.C., Wednesday, October 7, 1987

Art exhibit planned

DOBSON—Surry Community College's Art Department, the Surry Arts Council and the Mount Airy Artists League will sponsor exhibits and painting workshops by one of Virginia's leading artists, J. Vance Miller, in mid-October.

Miller will exhibit a number of his works and give painting technique demonstrations in the art class of William Sanders at SCC on Thursday, Oct. 15, beginning at 11 a.m. On Saturday, Oct. 17, from 9:30 a.m.-3:30 p.m., he will exhibit and stage a workshop at the Andy Griffith Play house under sponsorship of the Arts Council and Artists League.

A fee of \$20 will be charged for the workshop on Oct. 17. Those interested in enrolling should contact Mrs. Cooper Adams, 29 Lakemont Trail at 786-8292. Mrs. Adams says Oct. 9 is the cut-off date for registration.

Parker

■ Tom Parker of Mount Airy, accounting instructor at Surry Community College, has been elected to membership in the American Institute of Certified Public Accountants. He is also a member of the North Carolina Association of Certified Public Accountants.

He received his undergraduate degree in business from Pembroke State University, his Master's degree in accounting from Appalachian State University and joined the SCC faculty in 1980.

AIDS problem is topic of college lecture series

DOBSON—An insight into the problem of AIDS by a recognized leader in North Carolina health circles, Dr. Jared Schwartz, is the topic of the Thursday, Oct. 8 program in the "Thursday Night at the College" series at Surry Community College. The program begins at 7 p.m.

Dr. Schwartz, who serves as chairman of the North Carolina Medical Society Task Force on AIDS, will cover all aspects of the disease and its medical and social implications, in terms understandable to the layman as well as the health practitioner.

Dr. Dale Simmons, Surry County Health Director, arranged the presentation by Dr. Schwartz. He says, "I can think of no one in the state who has a better knowledge of all the implications of the AIDS problem than does Jared Schwartz. And we must remember that AIDS is with us here in Surry County, and local AIDS cases are growing. I

urge everyone to attend this program for a better understanding of the magnitude of the problem."

Dr. Schwartz, in addition to his service on the AIDS task force, is director of the Department of Pathology and Laboratory Medicine at Presbyterian Hospital in Charlotte. He joined Presbyterian as staff pathologist in 1977.

He also serves as laboratory director of the Nalle Clinic and is consulting pathologist with the Humana Specialty Hospital, both in Charlotte.

He received his professional training at the Duke University Medical Center's Department of Pathology, where he was chief resident in 1976-77. He was certified by the American Board of Pathology in 1977. In addition to Master's and Doctor's degrees from Duke, he holds degrees from Ohio State University in microbiology and mycology. He has taught at

Bowman Gray School of Medicine, Queens College School of Nursing, the School of Medical Technology at Presbyterian Hospital, Duke University's Department of Pathology and Ohio State's Department of Botany.

He is a member of several state and national professional associations and has authored many publications in his field.

The Enterprise, October 21, 1987

SCC Program

A range of concern for children-day care, child support, child abuse, foster care and adoption—will be discussed Oct. 22 in the continuing series of Thursday night programs at Surry Community College.

The program is under the direction of Patricia S. Hamlin, supervisor of Social Work in children's services for the Surry County Department of Social Services. She and five other staff members will discuss their areas of special interest and training.

Barbara Anderson, Day Care Coordinator, will describe the problem of day care service, and progress in solving this growing need for working mothers and others.

Frank Snoddy, Child Support Agent, will discuss the department's various services in the area of child support.

Gary White, Child Protective Services Worker, will discuss the child abuse problem.

Linda Davis, Foster Care Social Worker, will speak on foster care services provided by DSS.

Jane Simmons, Adoptions Supervisor, will talk on the subject of child adoption.

The program, scheduled for 7:30 p.m., will provide adequate time for discussion. It is free and open to the public. No pre-registration is required.

On Oct. 29, the Surry Agricultural Extension Service will sponsor a program on attractive but safe holiday decorations, featuring Robert L. McLymore of Raleigh, Extension Specialist.

Nursing students win funds

DOBSON—A total of 21 nursing students at Surry Community College have received scholarship/loan funds from North Carolina Baptist Hospitals, Inc. and upon graduation will work at Baptist Hospital as registered staff nurses.

The Baptist program offers up to \$2,000 per year to academically qualified students who are following careers in health technologies. In return for the financial aid, students commit to a period of employment at the hospital.

SCC students receiving the Baptist Hospital scholarship/loans are: (To graduate in the spring of 1988) Mary Ann Brim, Marilyn Ann Brooks, Terri Jarvis Dimmette, Darlene Pardue Fulcher, Patricia Hiatt Hull, Heather Britton Lakey, Sandra Annette McCraw, Gail Allen Poplin, Judy Anne Willard, Martha V. Williams and Scottie Bowman Wilson.

The Tribune, Elkin-Jonesville, N.C., Monday, October 19, 1987

When she sings, Lea Beth Cram likes to include some songs that she thinks people don't like. "I want to make their brains itch," she says.

SINGING ARTIST

Visiting Artist at Surry Community College Wants to Educate People Through Music

By Paul Collins

JOURNAL SURRY COUNTY BUREAU

DOBSON

Being a professional singer is not as glamorous as most people think, says Lea Beth Cram, the new visiting artist at Surry Community College.

For one thing, she said, singers have to worry about bugs flying in their mouths, especially if they're doing an outside concert.

"You're trying to be a very composed somebody, and you're thinking, 'Please go away from me, you insect!'"

And singers sometimes forget the words to songs and have to make up something, she said.

Accidents sometimes happen on the stage, too. Once, Miss Cram was playing a princess in the Mozart opera *The Magic Flute* when she was a graduate student at Western Carolina University. A fellow cast member, who was to pretend to hit her, overdid things a bit and sent her sprawling across the floor and almost into the orchestra pit.

Singing is a job, she said. "It's hard work. You've got to learn foreign lan-

guages" to sing opera. And singers have to practice frequently.

But Miss Cram, 26, who grew up in Texas, said that she enjoys being a singer. "It's something that I can do for people. It's something that makes people happy or cry or forget everyday problems for a while."

She said that she tries to create a mental picture for her audiences when she sings, by putting emotion into the music and through facial expressions or gestures. "If paint could come out of my mouth and create a picture of what I was singing about, that's what I would want to do."

But she wants to educate people through her music, too. She always tries to include some songs in her concerts that people don't like. "I refuse to play only what people want to hear. I want to make their brains itch, so they can form an opinion" about whether they like a certain type of music.

"People go in and say they can't enjoy something because they don't understand the language. That's baloney. If you have an idea of what the song's about, hopefully the artist can bring it to life."

Miss Cram said that she usually does

"high-hat" music in her formal recitals, including works by Mozart, Schubert and Debussy. She also sings 20th-century music, some of which is atonal (has no melody) and sounds ridiculous, she says. But she does it to "stretch myself as a musician and do stuff that some people won't do."

When Miss Cram does a program for schoolchildren, it usually includes opera or classical music but also pop music. She even does bird calls. She said that she used to get in trouble when she was growing up when she did bird calls in church or in restaurants.

She also is available to work with school and church choirs, giving them tips on how to improve their singing.

She said that she tries to dispel people's opinion of singers as being prima donnas. "I'm a crazy person," she said. "I'm always making people laugh. I write silly songs." She wrote a funny song about body itch after she read a newspaper column on that topic.

She also writes serious music and love songs. "I'm a hopeless romantic," she said. She has never tried to get any of her songs published but would like to.

Her father, James D. Cram, who died in 1974, was a college voice professor and choir director who had hundreds of songs published, she said. One of his songs, "Teach Me, Oh Lord, to Care," was in the 1975 edition of the *Baptist Hymnal*.

She said that her mother, Nancy, a kindergarten teacher, also has a fine soprano voice and was an accompanist.

Miss Cram took piano and violin lessons for several years when she was growing up in Plainview and Abilene, Texas, and she continued her piano in college.

She received degrees in music at Baylor University in Waco, Texas, and at Western Carolina. She has attended master classes under such artists as singers Benita Valente and Judith Raskin of the Metropolitan Opera; and vocal coaches Dalton Baldwin and Gwendolyn Koldovsky. She appeared in a variety of operas and musicals in high school and college, and she has performed as a soprano soloist in college and professionally. On occasion, she has played easy-listening music in piano bars.

"I sing just about everything except twangy country and acid rock," she said. She enjoys singing opera, classical, sacred, pop, big band and Scott Joplin.

SCC Adopts Communicable Disease Policy

By JODI SMITH
News Staff Writer

DOBSON—With the continuing spread of AIDS in all areas of society, Surry Community College has adopted an official communicable disease policy to deal with students who have, or have a family member with, AIDS or other communicable diseases.

SCC Policy

(Continued from Page 1A)

Department of Community Colleges (DCC) suggested that all community institutions design and implement such a policy after reviewing other such documents throughout the state.

The policy authorizes Richards to make a final decision about whether such a student would be allowed to continue attending classes and college-sponsored employment. It says the college president might require a letter or certificate from one or more licensed physicians or public health officials saying that school attendance would not constitute a health risk to that student or fellow students, and faculty and staff members.

A student will not be excluded unless a medically based risk is confirmed.

"The only way we would really know if a student has AIDS or another communicable disease is if he or she tells us or someone else reports it," Richards added. "The same as with the general public."

Richards said a 14-member communicable disease panel of faculty and staff members from all areas of the college has been formed to discuss and advise the board on such matters.

Also, the college supports an ongoing program of educating and informing students and faculty members of such diseases, their warning signs and protective measures through publications and seminars.

In the case of a student who is suffering emotionally and academically because of a family member with such a disease—as has been the case at SCC in the recent past—Richards said education and counseling is available through the school.

In other matters Monday, Richards told the trustees that contractors for a new \$1 million computer science facility now under construction on campus have set Jan. 15 as their completion date. That is considerably earlier than the April 1 deadline set by the college and building architect Fred Butler of Winston-Salem.

Richards said he hopes to "move in" March 1 during the winter and spring quarters.

The bulk of the responsibility for handling such situations would fall on SCC President Swanson Richards, who—after consulting with the school's deans of instruction and student services—would decide on the proper course of action on a case-by-case basis.

"This policy will indicate to me the appropriate procedures to

follow," Richards explained. He said in certain instances, students with AIDS or other diseases could be restricted from certain activities on campus and in college programs.

"If a student with a disease was administering a service to another institution, such as a hospital, through a co-op program, he or she

would conform to the policies of that particular institution concerning the disease," he added.

The policy was adopted by the SCC Board of Trustees at its regular meeting Monday. This is "AIDS Awareness Week" in North Carolina. In late June, the N.C.

SCC class schedules available

DOBSON—The schedule for winter quarter evening classes at Surry Community College has been prepared and is ready for distribution. Copies are being mailed to students who attended in the fall quarter, and others may obtain a copy by picking it up at the college or by calling (386-8121).

The winter schedule includes a variety of classes in business, vocational, technical, general education and university transfer programs.

Pre-registration for winter quarter evening classes will begin Monday, Oct. 26. "Pre-registration is important because it can help assure that a student will be able to enroll in his or her first choice of classes; it saves time at the regular registration period, and it helps the college faculty and staff solve scheduling conflicts," says Carlos Surratt, Director of the evening program.

New students are urged to apply as soon as possible. The college

office is open until 9:30 p.m. Monday through Thursday to assist students with their planning.

Registration for winter quarter

will be held Tuesday, Nov. 24, from 8:00 a.m. to noon, from 1-4 p.m., and from 6-8 p.m. Classes begin on Monday, Nov. 30.

The Carroll News, Wednesday, October 21, 1987.

Surry Community College scholarship honors county's 104-year-old citizen

A scholarship has been established at Surry Community College in Dobson, NC, honoring Mrs. Willie Loftis, 104-year-old resident of the Flat Rock Community who is recognized as Surry's oldest citizen.

The scholarship will make funds available to young people wishing to attend SCC, with first preference given to those who are active in Flat Rock Baptist Church, where Loftis has been a member for years.

Donations to the scholarship can be made through the Flat Rock church, or directly to the college.

Loftis was born March 3, 1883, in the Shelton community southeast of Flat Rock. Her father was William Martin Shelton and her mother was Sally Frances.

She says her philosophy of life is, "Be happy and love people."

When she was 15 she met Ephraim Jackson (Jack) Loftis of the Salem Creek community. They were married December 23, 1900, by Magistrate Albert Bunker, son of one of the world famous Siamese twins, Chang and Eng Bunker.

The young couple settled in Flat Rock, where he was employed with the NC Granite Company for several years. They built a house in 1902 and she still lives there. "It was a turn-key job, \$75 to the carpenter and \$250 for materials, for three rooms, two porches, a hall and two chimneys...we paid \$38 for the lot."

Thinking back over her life, she says "We had some tough times, but we were happy. I was in love and stayed in love...we were poor but nobody told us we were...we never accumulated more than a living and a house, but it was enough...we were used to having a big family and lots of visitors...there was always room for one more at the table."

Her husband Jack left the granite company after 21 years and opened a general store near their home. He operated it until his death in 1949. They had seven children. Lettie Patterson and E.J. Loftis Jr., both of Mount Airy, NC, are surviving members of the immediate family.

Holiday Decorations For The Home Subject Of SCC Series

DOBSON—The holiday season is coming and decorations are sure to adorn many a household throughout the period.

To that end, Raleigh Extension Safety Specialist Robert M. McLymore will give a demonstration on effective but safe holiday decorations at tonight's "Thursday Night at the College" program at 7:30 at Surry Community College here.

McLymore will discuss and demonstrate unique, attractive, effective, yet safe home decorations for the holidays.

Pre-made decorative arrangements also will be given as door prizes, according to local Home Extension Specialist Christine S. Greene-Harris, who will introduce McLymore.

McLymore

"He's very talented and enthusiastic about the seminar," Greene-Harris said of the featured guest.

McLymore is a Roseboro native with a B.S. degree in biology from Campbell University in Bales Creek, and a master's degree in adult education from N.C. A & T State University in Greensboro.

He joined the Agricultural Extension Service in Raleigh as assistant 4-H extension agent in 1978. Since 1982, McLymore has held his present position as director of statewide extension farm safety programs, and is coordinator of both 4-H safety activities and computer programs.

As are all events in the "Thursday Night at the College" series, tonight's demonstration is free and open to the public, and will be held in the college's teaching auditorium.

On Nov. 5, the series will feature a special "Report to the People" by the Surry County Board of Commissioners.

SCC to hold landscape and nursery course

DOBSON—A landscape gardening course for nursery and landscape gardening practitioners will be held at Surry Community College during the winter quarter.

Charles Boles, head of SCC's agriculture and horticulture program, will teach the classes, which will be held Thursday evenings from 7-9:50, beginning Nov. 30. Cost is \$18.75 and pre-registration is Nov. 2-6, with final registration Nov. 24.

The course will include basic principles of landscape design, plants and their use, lawns, landscape structures, reading and interpreting blueprints, bidding and contract estimation.

"The nursery and landscape gardening business is growing in this region," Boles said. "It offers good career opportunities, and the purpose of this course is to help those in the business polish their skills and operate more efficiently and profitably."

NOVEMBER 11, 1987 THE PILOT

Shorthand course offered

Surry Community College will offer an evening class in Beginning Shorthand - BUS 106 in the winter quarter. This class is the first in a three-quarter series of classes required for a secretarial degree.

Pre-registration for winter quarter is now in progress. Registration will be held on Tuesday, November 24 from 8:30 a.m.-12 noon, 1-4 p.m. and 6-8 p.m. The class will meet first on Tuesday, December 1 from 7-9:20 p.m.

and each Tuesday and Thursday evening through March 1.

Further information about registration or class content may be obtained by calling the Evening Division Office of the Student Services Office at Surry Community College in Dobson (386-8121).

McCachren to Speak

William McCachren, instructor in mathematics at Surry Community College, has been honored with the college's "Excellence in Teaching Award" for the 1986-87 school year.

Criteria in making the selection included ability to lead and motivate students and to interact with them, innovative teaching methods, support of total community college educational mission, leadership among colleagues, and service beyond the classroom in professional organizations, service to college and community.

McCachren has taught at SCC for the past 15 years, with much of his classroom experience in the field of calculus.

A native of Cabarrus County, he received his Bachelor's degree at Catawba College in 1958 and was senior class president. He earned his Master's degree in Education at the University of Tennessee at

Chattanooga and his Master of Science degree at East Tennessee State University.

He taught for 10 years in the Charlotte-Mecklenburg public schools and also taught one year at Lenoir-Rhyne College before coming to SCC in 1972. He is a member of the Phi Delta Kappa national honorary fraternity and the National Council of Teachers in Mathematics.

His wife Nancy is a South Boston, Virginia native, also a graduate of Catawba, and teaches at Dobson Elementary School.

They have four children: Mac is a senior at N.C. State; Steve is a graduate of the University of North Carolina-Charlotte and works in Charlotte; Kim dances with the Ruth Mitchell Dance Company and also teaches dance in Atlanta; and Jim is a junior at the University of North Carolina-Charlotte.

November 11, 1987, The Enterprise

Foothills To Perform at SCC

The Foothills Arts Council has arranged a program of musical entertainment and discussion on status of regional arts, to be held Thursday night, Nov. 12 at Surry Community College.

Mrs. Carrie Kirkman, Council president, said the program will feature performances by Edward Hurt, violinist, and George Hildt, pianist who performed with a number of the "big bands" including Benny Goodman and Tommy Dorsey.

Edward Hurt, who will be 14 in December, is the son of Harold and Kay Hurt of Elkin. He began training with the Suzuki method when he was seven years old. When he was 10 years old he began piano lessons by the same method. His teacher, Patrick Hicks from Mocksville, has been his teacher from the beginning. Ed-

ward is an 8th grade honor student at Elkin High School.

George Hildt, who was 81 years old in May, has been "tickling the ebony and ivory keys" of pianos since he was six years old. With an electrical engineering degree from Rensselaer Polytechnic Institute in Troy, New York, Hildt's greatest pleasure seems to have been in performing in New York City's finest night clubs and lodges. To those who hear him play Dixieland and ragtime tunes he is truly "the piano man" par excellence.

Lenna Edwards, former member of the Foothills Council's board of directors, will give a report on Council programs and projects for the months ahead.

The program is scheduled for 7:30 p.m., and is free and open to the public. It is a part of the "Thursday Night at the College" series.

Music Will Highlight Program Tonight At Surry Community

DOBSON—There will be a musical mixture of youth and experience at Surry Community College tonight.

The Foothills Arts Council will present a 13-year-old violinist and an 81-year-old pianist in concert together in "Art For Goodness Sake" — the 10th program of the continuing "Thursday Night at the College" series.

Edward Hurt, 13, is an eighth-grade honors student at Elkin High and a talented violinist. He started violin lessons by the Suzuki method at age 7, and three years later began Suzuki piano training. He is the son of Harold and Kay Hurt of Elkin.

George Hildt, who turned 81 in May, has — on the other hand — been "tickling the ivories" for some 75 years, since he was 6.

Hildt, holder of an electrical engineering degree from a New York school, has performed with such big-band names as Tommy Dorsey and Benny Goodman in some of New York's finest night clubs and lodges. His forte is Dixieland and ragtime tunes.

Also Thursday, Lenna Edwards, a former member of the arts council's board of directors, will give a report on council programs and projects in the coming months. A discussion on the status of regional arts will follow.

As with all programs in the series, tonight's event is free and open to the public, and will begin at 7:30 in the SCC Teaching Auditorium.

SCC schedules guitar classes

Guitar I will be offered by the Evening Division of Surry Community College during the winter quarter.

Registration will be held November 24, 8:30 a.m.-noon, 1-4 p.m., and 6-8. The class will begin December 1, 6:30-8:20 p.m. and continue each Tuesday evening through March 1.

For further information about registration or class content, call the Evening Division Office of Student Services Office at Surry Community College (919) 386-8121.

SCC to offer algebra course

The evening division of Surry Community College will offer a course in introductory algebra during the winter quarter. The course is designed for those students who need college algebra and trigonometry or technical mathematics but do not have an adequate background to succeed in these courses. The introductory algebra class is also appropriate for students who need a review course in algebra.

Pre-registration for winter quarter

is now in progress. Registration will be held on Tuesday, Nov. 24 from 8:30 a.m.-12:00, 1:00-4:00 p.m. and 6:00-8:00 p.m. The class will meet on Tuesday and Thursday evenings from 7:00-9:20 during the winter quarter. The first class meeting will be on Tuesday, Dec. 1.

For further information on class content or registration, please call or visit the evening division office or the student services office at Surry Community College in Dobson (386-8121).

Landscape gardening course

A landscape gardening course for nursery and landscape gardening practitioners will be held at Surry Community College during the winter quarter.

Charles Boles, head of SCC's agriculture and horticulture program, will teach the classes, which will be held Thursday evenings from 7 to 9:50, beginning November 30. Cost is \$18.75 with final registration November 24.

The course will include basic principles of landscape design, plants and their use, lawns, landscape structures, reading and interpreting blueprints, bidding and contract estimation.

"The nursery and landscape gardening business is growing in this region," Boles said. "It offers good career opportunities, and the purpose of this course is to help those in the business polish their skills and operate more efficiently and profitably."

Photography will be taught

A 33-hour course in Photography has been scheduled to begin on the campus of Surry Community College on Monday evening, November 30, 1987 from 6:30 p.m. until 9:30 p.m. The class will meet in Room T-229 of the Technical Building. This class will meet for 11 weeks through February 22, 1988 with December 21 and December 28,

1987 being observed for Christmas holidays.

Mr. Francis Chodl will be the instructor for the class. A \$25 registration fee will be charged. We must have 15 students present to register at the first class meeting in order for the class to develop.

For more information you may call the college at 386-8121.

Calligraphy is scheduled

The Continuing Education Division of Surry Community College will sponsor a Calligraphy Class, beginning Tuesday, December 1, 1987 from 6 p.m. until 9 p.m. on the college campus. This 24-hour course will meet each Tuesday evening through February 2, 1988. Christmas holidays observed will be December 22 and December 29. This class will meet in Room L-205 on the college

campus. A \$25 registration fee will be charged.

Mrs. Rebecca Hanner will be the instructor for the course. A minimum of 15 students must be present to register at the first class meeting in order for the class to develop.

For more information concerning the class, you may call Surry Community College at 386-8121 - Continuing Education Division.

Course will be at ESHS

Surry Community College will offer the BUS 213 - Secretarial Procedures course at East Surry High School beginning Tuesday, November 24, 1987 at 6:30 p.m. in Room 24.

The course is designed to acquaint the student with the responsibilities encountered by a specialized secretary during the work day. Students will learn such job related activities as

making appointments, using proper telephone techniques, processing company mail, and using correct filing procedures. The course carries 4 hours of college credit. Instructor for the course will be Lisa Peele. Registration fee is \$25 plus textbooks.

There must be 10 persons present for the registration/first class meeting for the course to develop.

The Evening Division of Surry Community College will offer a Physical Geography class during the winter quarter. The class will include a study of the earth's astronomical relations, factors of weather and climate, physical features and change of landforms. Instructor of the course will be Rodney Pell, who has taught the course in the past at SCC.

Registration will be held on Tuesday, November 24 from 8:30 a.m.-12 noon, 1-4 p.m., and 6-8 p.m. The class will meet on Monday evenings from 7-9:50 p.m. during the winter quarter. First class meeting will be on Monday, November 30.

Music class offered

Introduction to Music, a non-technical course in music appreciation, will be offered by the Evening Division of Surry Community College during the winter quarter. Among the topics covered in the class will be musical elements such as rhythm, melody, harmony, tone color, and form. Benny Younger, music instructor at Surry, will teach the class.

Registration will be held on Tuesday, November 24 from 8:30 a.m.-12 noon, 1-4 p.m. and 6-8 p.m. The class will meet first on Monday, November 30 and each Monday evening from 7-9:50 through February 29.

Play the guitar

Guitar I will be offered by the Evening Division of Surry Community College during the winter quarter. This class is the first in a three-quarter series. Guitar I consists of teaching the seven major keys, major chords, minor chords, 7th chords, sharps, and flats. Also included are the basic fundamentals of taking care of the guitar, installing new strings, and tuning the guitar.

The course is taught by Willie Luffman.

Registration for Guitar I will be held on Tuesday, November 24 from 8:30 a.m.-12 noon, 1-4 p.m. and 6-8 p.m. The class will meet first on Tuesday, December 1 from 6:30-8:20 p.m. and each Tuesday evening through March 1.

Merchandising class

A course on buying and merchandising, especially designed both for those entering retail business or those already in it and who wish to brush up on their

skills, will be offered at Surry Community College beginning Wednesday, December 2.

Mary Emily Yokley, instructor in the college Business Department, will teach the class. Classes will be each Wednesday, 7 to 9:50 p.m., through the spring quarter. Registration is now open and students may register as late as the first night of class, December 2. Fee for the course is \$18.75.

Ms. Yokley says of the course, "It will be especially helpful to anyone in retail sales or buying or who aspires to getting into this growing segment of our economy. It will include mechanics and hands-on experience as well as theory. Trips to markets in High Point and Charlotte are planned to help give the students first-hand knowledge in the field."

She added that if there is sufficient interest, members of this class could participate in a five-day trip to New York in April, which is a regular part of her Buying and Merchandising Seminars course.

Computer skills

Surry Community College will offer a Word Processing I class on Tuesday evenings during the winter quarter. This course will introduce the students to the concepts, terminology, and skills in word processing for both administrative and correspondence positions. In addition, students will be introduced to and have hands-on experience on the IBM DisplayWriter and the IBM Personal Computer using DisplayWrite 2 software. The instructor for the Word Processing I course will be Mrs. Debbie Branch.

Pre-registration for winter quarter is now in progress. Registration will be held on Tuesday, November 24 from 8:30 a.m.-12 noon, 1-4 p.m. and 6-8 p.m. The class will meet first on Monday, November 30 from 6-9:50 p.m. and each Monday evening through February 29.

Notary public

A 5-hour Notary Public Education course has been scheduled to be held Saturday, December 12, 1987, on the Surry Community College campus in Dobson. The course will meet from 8 a.m. until 1 p.m. in the Teaching Auditorium (L-121). A \$15 registration fee will be charged. Mr. Bud Cameron will be the instructor.

For further information about registration or class content, call the Evening Division Office or the Student Services Office at Surry Community College in Dobson at 386-8121.

Historian to speak at college

DOBSON — Local historian Marion Venable will be featured speaker Dec. 3 in a program at Surry Community College.

Venable will use slides and commentary in a program combining an overview of Surry history and its architectural significance. She will also review recent history-oriented publications which will be valuable to amateur and professional historians and will discuss the current surge of interest in history, exemplified by new history-related organizations and projects.

The program will be at 7:30 p.m. and is free. It is sponsored by the Surry County Historical Society.

On Dec. 10 in the Thursday Night at the College series, the college chorus, directed by Benny Younger, and visiting artist Beth Cram and her new ladies' ensemble will present a program of Christmas music, both sacred and secular. This is also free.

SCC offers bookkeeping

DOBSON — A 33-hour Bookkeeping 1 course has been scheduled to begin, Jan. 6, at 6:30 p.m. at Surry Community College.

The class will meet each Wednesday from 6:30-9:30 p.m. for 11 weeks and will cover the basics of beginning bookkeeping procedures. Registration will be held at 6:30 p.m. Jan. 6 in Room C-201. The registration fee will be \$15, and the cost of text and working papers will be approximately \$25. North Carolina residents age 65 and older may register free.

The instructor will be Elizabeth McHone. For more information or to pre-register, you may call the Continuing Education Division

The Tribune, Elkin-Jonesville, N.C., Friday, December 11, 1987

Concert set for SCC

DOBSON — An evening of Christmas music, both sacred and secular, performed by vocal groups and a soloist will feature the annual Christmas music program at Surry Community College Dec. 10.

The 45-member SCC chorus under the direction of Benny Younger will perform several numbers, including "The Most Wonderful Time of the Year," a medley of several tunes entitled "Christmas Celebration," "Carol of the Bells," and "Have Yourself a Merry Little Christmas."

The chorus is composed of students in the college music program, and members are of all ages.

Soprano Beth Cram, SCC visiting artist, will give solo numbers including "Jesu Bambino," "Some Children See Him," and "Christmas Carol," a medley of Christmas tunes.

The program is scheduled for 7:30 p.m., is free and open to the public.

The Tribune, Elkin-Jonesville, N.C., Friday, December 4, 1987

Venable to Speak at SCC

Mrs. Marion Venable, local historian, will be featured speaker Thursday night, Dec. 3, in a program at Surry Community College sponsored by the Surry County Historical Society.

Mrs. Venable will use slides and commentary in a program combining an over-view of Surry history and its architectural significance. She will also review recent history-oriented publications which will be valuable to amateur and professional historians, and will discuss the current surge of interest in history, exemplified by new

history-related organizations and projects.

Future plans of the Historical Society will also be program topics. The program will be at 7:30 p.m. and is free and open to the public.

On Dec. 10 in the Thursday Night at the College series, the SCC Chorus, directed by Benny Younger, and Visiting Artist Beth Cram and her new Ladies Ensemble will present a program of Christmas music, both sacred and secular. This also is free and open to the public.

Area Classes Offered by SCC

The Continuing Education Division of Surry Community College in Yadkin County and the Yadkin County Community Schools will offer the following classes:

Jonesville Elementary School—Modern Dance I, Dec. 2, 6:30-8:30 p.m., 22 hours, instructor Sandra Martin.

West Yadkin Elementary School—Painting(acrylic on wood), Dec. 1, 6:30-9:30 p.m., 33 hours, Mrs. Becky Fowler instructor.

Painting(acrylic on wood), Dec. 2, 6:30-9:30 p.m., 33 hours, Mrs. Becky Fowler instructor.

Yadkinville Elementary School—Painting(acrylic on wood), Nov. 30, 6:30-9:30 p.m., 33 hours, Mrs. Becky Fowler instructor.

Area Class—Flower Arrangement,

Nov. 30, 6:30-8:30 p.m., 22 hours, Mrs. Eloise Crissman instructor. This class will meet at the Barney Hill Community Center.

These classes will meet once a week for 11 weeks. Christmas Holidays observed will be Dec. 21, through Jan. 1, 1988. A registration fee will be charged. A minimum of 15 students must be present to register at the first class meeting in order for the class to develop. North Carolina residents 65 years of age or older may register free of charge.

For more information about these classes, you may call Surry Community College Continuing Education Office in Boonville at 367-7562.

The Enterprise, November 26, 1987

CHARLES MADISON

Heart transplant patient out of intensive care

By LISA BOUCHEY
Staff Reporter

WINSTON-SALEM — The Tri-County Area's first heart transplant patient was released from the intensive care unit at Baptist Hospital here Monday.

A hospital spokesman said Thursday that Charles Madison, 55, of State Road is recovering more quickly and completely than any previous heart transplant patient at Baptist. Madison was released from intensive care seven days after becoming

Surry

Baptist Hospital's seventh heart transplant patient.

His wife, Sherry Madison, said Thursday that her husband has regained a good deal of his strength, considering what he has been through, and that if all continues to go well, doctors have told her to expect his release from the hospital on December 17 or 18. She said she would be very happy to have him home in time for Christmas.

Sherry Madison, who is a member of the Elkin school board, said

Please turn to Page 2

Page A-2 — The Tribune, Elkin-Jonesville, N.C., Friday, December 4, 1987

Transplant

continued from front page

that her husband is doing so well he spent about two minutes Thursday on an exercise bike.

Madison, a retired math professor who taught at Surry Community College, had suffered for years from a degenerative disease; congestive cardiomyopathy, that causes the heart muscles to stop working.

Emma Bowman, the cardiac transplant coordinator for Bowman Gray Medical Center, said the disease causes the heart to swell when healthy heart muscles try to com-

pensate for the affected ones, as fluids that are not pumped out build up in the heart. She said Madison was entered into the Medical Center's computer list of people waiting for heart transplants five weeks ago because he had become increasingly weak over the past month and a half, as a result of the disease.

Madison suffered a minor stroke three weeks ago as a result of his heart's condition, but he is expected to recover fully from the stroke, Bowman said.

SCC Has Good Credit Record

Failure by college students to repay government-insured educational loans is costing the federal government some \$1.6 billion per year. A U.S. Department of Education survey revealed loan default rates greater than 40 percent in 950 institutions across the country. As a result, stricter controls are being formulated, one requiring that institutions keep defaults at 20 percent loss or less, or risk losing the GSE program.

Meanwhile, here at Surry Community College, there has been no problems with loan repayments. Defaults on government educational loans among its students were zero in 1986-87, compared to six percent the year before.

Says President Swanson Richards, "This performance says much about the caliber of people in our area, people who are diligent in paying their debts and not passing the financial burden on to someone else."

Currently fourteen SCC students are studying on government insured loans. "We fully expect that virtually every one of them will be repaid in due course," Richards said.

The Enterprise, December 9, 1987

SCC will Feature Writers

Two writers with national credentials, Frank Levering and Wanda Urbanska, will teach an 11-week creative writing course at Surry Community College beginning Thursday, Jan. 7.

Levering is a Virginia native and has poetry, novel, book review, film and television credits. Ms. Urbanska is a New England native and has written extensively for major newspapers and magazines and is the author of "The Singular Generation: Young American in the 1980's," published by Doubleday in October, 1986.

Students can pre-register by calling, or register at the time of the first class, January 7. A registration is charged. Classes will meet each Thursday evening from 7 to 10. Both Levering and Ms. Urbanska now reside at Levering Orchard, Rt. 2, Ararat, Va. He is manager of the orchard as well as writer. He is working on a novel and a screenplay, reviews books for the Los Angeles "Times," the Washington "Post," Baltimore "Sun," and Winston-Salem "Journal."

She is also writing a novel and writes book reviews for the Los Angeles "Times" and Winston-Salem "Journal."

Levering was graduated from Mount Airy High School and is Magna Cum Laude graduate of Wesleyan University, with a degree in English and American Studies. While at Wesleyan he studied with now Poet Laureate Richard Wilbur and was sponsored by Wilbur as student poet at the Breadloaf Writers' Conference in Vermont. In 1973 he was named Connecticut Student Poet, and in 1974 won the Reid Prize for student fiction at Wesleyan.

In 1978 he received his Master's degree in Theological Studies at

the Harvard Divinity School and while at Harvard published poems in several national magazines. He also studied playwriting, screenwriting and fiction. His play, "Chest Pains," was produced at the University of Missouri in 1977. He also co-directed a documentary film, "In June at This Place" for South Carolina Public Television.

He later lived in Los Angeles and worked as screenwriter and producer. He is a member of the Writers' Guild of America and has written several screenplays for network television. He also produced a monster movie, "Parasite in 3-D," which is now in distribution.

Ms. Urbanska is a graduate of Harvard-Radcliffe with a degree in English and American Literature. She is a native of Orono, Maine, and while in college was a student intern with the Bangor "Daily News" and Maine Public Broadcasting and Radio. In 1976 she won the American Society of Magazine Editors college internship and worked at "Newsweek" magazine in New York. She was named one of "Clamour" magazine's top ten college women and one of her stories won honorable mention in "Mademoiselle's" 1978 college fiction competition.

After graduation she worked at the "Paris Review," literary magazine in New York under editor George Plimpton. She later served on the staff of the Los Angeles "Examiner" Sunday magazine and as a financial features editor.

Her book on "The Singular Generation" was published by Doubleday in 1986. She is currently working as a free-lance writer for "McCall's," "Vogue," "New Woman," and other magazines, as well as writing book reviews.

A new lease on life

Heart transplant changes man's outlook

By LISA BOUCHEY
Staff Reporter

Charles Madison is making the best recovery Baptist Hospital officials have witnessed in a heart transplant

Charles Madison's 11th-floor room at N.C. Baptist Hospital affords one of the best views of Winston-Salem, and Madison said his outlook on life is better than it has been in 12 years.

Recovering from a Nov. 24 heart transplant, Madison moved freely about his hospital room last weekend, complaining only that he was not allowed to shake hands. Doctors removed restrictions on visitors wearing masks and gloves to guard against possible contamination early last week, but still restrict Madison from physical contact with outside visitors.

Surry

Madison, 55, said he had prepared "way ahead of time" for his transplant surgery, explaining he had been forced to because he had known for 12 years that a transplant was the only hope he had.

Madison had suffered for years from a degenerative disease, congestive cardiomyopathy, that causes the heart muscle to stop working. Emma Bowman, cardiac transplant coordinator for Bowman Gray Medical Center, said Madison's heart was twice its normal size when it was replaced with a new one in the transplant operation. Bowman said the disease causes the heart muscle to swell as healthy heart muscles try to compensate for affected ones, and fluids that are not pumped out back up in the heart.

Madison said he was afflicted with strep throat 12 years ago, and the streptococcus from the infection invaded his heart muscle, causing the onset of the degenerative disease. He said the cardiomyopathy was diagnosed by Dr. Henry Miller of Bowman Gray, but at the time the disease was diagnosed, a transplant was not an option because of the high rejection factor.

Madison said that after the disease was diagnosed, he was put under the treatment of Dr. William Spencer in Winston-Salem. He said Spencer "really and truly just kept (me) alive." He said he and Spencer had discussed what his options were and had decided a transplant was his only choice.

A tearful Madison apologized for being emotional and explained that he had been thinking of dying for 12 years. "The doctors work wonders here, they really do," he said.

He explained that a transplant became a more feasible option when

Please turn to Page 5

patient since the hospital began performing the transplant operation in July 1986.

Madison

continued from front page

cephalosporin was discovered to be the "miracle drug" that suppresses the rejection factor in organ transplants, Madison said when his condition worsened earlier this fall, Dr. Spencer sent him to Dr. Barry Hackshaw at Bowman Gray. Hackshaw concurred with Spencer's diagnosis and added his name to Bowman Gray's computer list of people waiting for new hearts.

Madison said he was very lucky in terms of the people that helped treat his disease. He said that he could not have asked for better doctors and added that Dr. Evan Ballard of Jonesville Family Medical Center had been very helpful in working with doctors in Winston-Salem. "I appreciate everything he's done," Madison said.

Madison said he is still recovering from the effects of a stroke, but that he really has not suffered from any pain. He is expected to fully recover from a minor stroke he suffered in early November as a result of his heart's weakened condition.

Hospital spokesmen said Madison is recovering better than any of N.C. Baptist Hospital's six previous heart transplant patients. Last weekend, Madison was spending four to six minutes a day on an exercise bike and walking around the hospital's 11th floor seven to 10 times.

Madison is a retired math professor who taught at Surry Community College. He lives in State Road with his wife, Sherry, and his son, Wes.

Madison said he is planning on going home Friday. He said doctors told him he would probably be ready to go home before then, but that his wife would be able to be at home with him all day after Friday.

"After looking at death for 12 years — and it could have come at any time — I have a new lease on life," an emotional Madison says.

Tobacco Expert At SCC Jan. 7

(Dobson, N.C.) Dr. W.D. (Bill) Toussaint, professor in the Dept. of Economics and Business at N.C. State University, will be featured speaker January 7 in the "Thursday Night at The College" series at Surry Community College.

Dr. Toussaint will discuss the outlook for agriculture in the years ahead and especially the future of tobacco. He will also discuss the latest trends in technology and economics of farming.

The January 7 program is sponsored by the Surry County Agriculture Extension Service. It is scheduled for 7:30 p.m. and is free and open to the public.

Dr. Toussaint has responsibilities at N.C. State for teaching, research and extension. One of his specialties is agricultural policy, especially policies related to tobacco. He is co-director of the Extension Executive Development Institute and has helped provide other executive-type training for farm groups.

A native of North Dakota, he received his BS degree at North Dakota State in 1950, and his MS and PhD degrees in agricultural economics at Iowa State in 1954. He joined the NCSU faculty immediately after graduation.

He was chosen outstanding instructor in the School of Agriculture and Life Sciences in 1958, and was selected as one of the University's outstanding teachers in 1962 and 1968.

His research has been primarily on economics of tobacco production. He was named head of the Dept. of Economics and Business in 1967 and held that position until 1982. He is an Air Force veteran, former director of the American Agricultural Economics Association, and is a recipient of the Certificate of Merit from Gamma Sigma Delta, the honor society of agriculture.

Bookkeeping course will be offered soon

A 33-hour Bookkeeping I course has been scheduled to begin Wednesday, January 6, 1988 at 6:30 p.m. on the Surry Community College campus in Dobson. The class will meet each Wednesday from 6:30-9:30 p.m. for 11 weeks and will cover the basics of beginning bookkeeping procedures. Registration will be held at 6:30 p.m. on January 6 in Room C-201. The registration fee will be \$15 and the cost of text and working papers will be approximately \$25. The instructor will be Mrs. Elizabeth McHone.

THE PILOT, DECEMBER 16, 1987

The Enterprise, December 24, 1986

Surry CC Enrolls 4,400 Students

Surry Community College reports that over 4,400 people are enrolled in various credit and non-credit programs for the winter quarter, which began Dec. 1.

This includes 700 in college transfer programs, and over 1,200 in technical and vocational programs. An additional 2,500 adults are enrolled in non-credit continuing education, including basic education and high school equivalency (GED) studies.

College President Swanson Richards said the total enrollment is essentially the same as last year. Of all students registered, slightly more than 100 are from Virginia.

"The out-of-state figure is down over a year ago," Richards said. "Partially because of the increase in out-

of-state tuition by North Carolina; however, we are encouraged that the drop has not been greater. It tells us that there is a high degree of confidence in our program. Many parents of Virginia students, and in fact some of the students themselves, are employed in Surry."

THE BLUE RIDGE SUN, Sparta, N.C., Wednesday, December 30, 1987

Instructor Frank Simmons (left) and student/homeowner David Myers stand before the log "house that class built" in Ennice.

Students In SCC Building Class Put Their Skills To Practical Use

ENNICE—This is the house that class built.

It is a picture of rusticity and livability in a wooded setting in the Ennice community just off the Blue Ridge Parkway.

The white pine log house has one more unique feature — it was constructed entirely by a 21-member class enrolled in Surry Community College's Light Construction Program, ranging in age from the late teens to retirees.

The two-story home, owned by class member David Myers of Laurel, Va., consists of logs up to 29 feet in length cut from the Myers property by his father, then installed by students of former contractor Frank Simmons.

The three-bedroom house also contains a "great room," fireplace and chimney (to be finished when cold weather passes), modern kitchen and dining area and bathroom.

Front and back ceilinged porches give a country air. Inside paneling

will be walnut and cedar, also cut from the Myers' woodlot.

Construction of the house began last spring, and will be complete next spring.

The light construction class is versed in putting things together — from pie safes to dwellings.

The class, which meets five days a week, must complete such hands-on field work as a course requirement.

(Continued on Page 13A)

Building Class (Continued from Page 3A)

Such laboratory ventures have taken SCC construction classes to a number of locations across the county.

For example, Simmons' students assisted in restoring the Edwards-

Franklin Historic House at Beulah, owned by the Surry Historical Society.

"Field work on a project like this provides experience for students that they would never get in the classroom," said Simmons.

Toussaint Will Speak at SCC

Dr. W.D. (Bill) Toussaint, professor in the Department of Economics and Business at North Carolina State University, will be featured speaker Jan. 7, in the "Thursday Night at the College" series at Surry Community College.

Dr. Toussaint will discuss the outlook for agriculture in the years ahead and especially the future of tobacco. He will also discuss latest trends in technology and economics of farming.

The Jan. 7, program is sponsored by the Surry County Agricultural Extension Service. It is scheduled for 7:30 p.m. and is free and open to the public.

Dr. Toussaint has responsibilities at N.C. State for teaching, research and extension. One of his specialties is agricultural policy, especially policies related to tobacco. He is co-director of the Extension Executive Development Institute and has helped provide other executive-type training for farm groups.

A native of North Dakota, he received his BS degree at North Dakota State in 1950, and his MS and PhD degrees in agricultural economics at Iowa State in 1954. He joined the NCSU faculty immediately after graduation.

He was chosen outstanding instructor in the School of Agriculture and Life Sciences in 1958, and was selected as one of the University's outstanding teachers in 1962 and 1968.

His research has been primarily on economics of tobacco produc-

Dr. W.D. Toussaint

tion. He was named head of the Department of Economics and Business in 1967 and held that position until 1982. He is an Air Force veteran, former director of the American Agricultural Economics Association, and is a recipient of the Certificate of Merit from Gamma Sigma Delta, the honor society of agriculture.

Jack Waddell, Extension Director and Tobacco Agent, strongly recommends that producers attend this meeting to get an update on present tobacco economy and its future.

SCC Announces Dean's List

Surry Community College recently announced its students who were named to the college's Dean's List. In order to qualify this honor a student must have a "B" average with no grade less than a "C" and must be enrolled for at least 12 quarter hours work. Local students on the list are as follows:

Shen Lynn Beach, Elkin.
Wanda Brown Brandon, Yadkinville.
Bryan Keith Brawley, Yadkinville.
Van Gray Brawley, Yadkinville.
Susan Leigh Brown, Yadkinville.
Scarlett Finney Bryant, Mark Wayne Burcham, State Road.
Joey Alvin Burchette, Elkin.
Lyman Herman Burkett, Boonville.
Shirley Hinson Campbell, Elkin.
Cynthia Dawn Carter, Yadkinville.
Henry Carter Cobb, Boonville.
Bobbie Gayle Collins, Hamptonville.
Daniel Lee Collins, Yadkinville.
Marie Crouse, Elkin.
Terri Sue Jarvis Dimmette, Elkin.
Bridga Hoots Freeman, Yadkinville.
John Glenn Hale, Yadkinville.
Johnny Royce Hall, Elkin.
William Monroe Hanks, Elkin.
Sonya Annette Harris, East Bend.
Hope D. Harrison, Elkin.
Tabitha Elaine Hamson, Elkin.
Christopher Labon Hauser, Yadkinville.
Patricia Allen Haynes, Elkin.
Bonnie Elizabeth Hobson, East Bend.
Sherre Lynn Hobson, East Bend.
Jane Elizabeth Hoots, East Bend.
Cathy Pardue Johnson, Elkin.

John Edwin Johnson, Yadkinville.
Moses Samuel Joyner, Elkin.
Tina Dale Longworth, Jonesville.
Allison Marie Lynch, Yadkinville.
Keith Edward Martin, Elkin.
Eulala Williams Matthews, East Bend.
Lisa Ann McGee, State Road.
Patricia Smith Mendenhall, Boonville.
Tonya Michelle Mounce, Elkin.
Billy Darin Moxley, Boonville.
Timothy Richard Murphy, East Bend.
Robin Christine Myers, East Bend.
David Norman, Elkin.
Joseph Roger O'Neal, Jr., Elkin.
Tracy Trivette Pardue, Jonesville.
Kristie Elaine Parker, Yadkinville.
Licata Helms Prim, Boonville.
Aaron Charles Sale, East Bend.
Rhonda Matthews Sale, Boonville.
Melissa Katherine Shore, Boonville.
Arville Reuben Smith, Yadkinville.
Dwayne Byron Stone, Elkin.
Wendy Kaye Teague, Elkin.
Brent Matthew Trivette, State Road.
Tammy Gay Wagoner, Elkin.
Eric Hugh Willard, Boonville.

SCC nursing instructor wins excellence award

Mrs. Kathy A. Woodruff, Lead Pediatrics Instructor in Surry Community College's Nursing Program, has received the 1988 "Excellence in Teaching Award."

Mrs. Woodruff has served on the

SC Nursing staff since 1976. A native of Surry County, she is a graduate of Surry Central High School; received her Nursing diploma at Cabarrus Memorial Hospital School of Nursing in 1970; her Bachelor of

Science degree from Saint Joseph's College in 1980; and her Master of Science Degree from the University of North Carolina in Greensboro in 1987.

Prior to joining the SCC teaching staff, she was staff nurse at Northern Hospital of Surry County for 6 years.

The annual selection is made by SCC faculty members and staff, with evaluations of students also a contributions factor.

The citation from the college notes projects describing her master's thesis have attracted the attention of the American Public Health

Association, John Hopkins School of Hygiene and Public Health, Rutgers University Department of Health Education, and the Education Development Center in Massachusetts.

Mrs. Woodruff is married to Thomas Woodruff and they have three children.

Kathy A. Woodruff

SCC offers auto body repair course

A four-hour course in Auto Body repair has been scheduled to start on Tuesday, Jan. 26, 1988, in the auto repair shop on the Surry Community College campus in Dobson. Registration for the course

will be held at the first class meeting. The class will meet each Tuesday and Thursday evening from 6-10 p.m.

A registration fee of \$15 will be charged for the course. North Carolina residents age 65 and older may register free of charge. Class size is limited to 15 persons. Jerry Atkins will be the instructor for the course. For more information or to pre-register, call the Continuing Education Division of the college at 386-8121, extension 234.

SCC's Reece Works for National Defense

Dr. Joe W. Reece, physics and math instructor at Surry Community College, is lending his expertise to help assess safety systems at the Savannah River, S.C. plant, major producer of nuclear materials for the national defense.

Dr. Joe W. Reece

Reece is one of several consultants working for E.I. du Pont de Nemours, operator of the plant, to develop analysis methods on how to meet recommendations of a National Academy of Sciences review committee to predict behavior of nuclear reactors in accident conditions and to plan in-reactor tests to verify analysis results.

The study group was formed from among members of NAS and the National Academy of Engineering at the request of Energy Secretary John Herrington following the nuclear accident at Russia's Chernobyl plant.

Reece spends four days a month at Savannah River. For him it's a return to familiar ground. He served there from 1965 to 1972 as a researcher for DuPont. The Savannah River plant was designed and built by DuPont in the 1950's and has been operated by the company without profit as its contribution to the national defense program. Managed by the Department of Energy, its mission is to produce plutonium and tritium for nuclear weapons. A valuable spin-off is production of radioactive isotopes which are used extensively in both government and civilian medical and research programs.

The function of the NAS committee is to study thoroughly all systems at the plant from a safety point of view, and to develop recommendations to ensure a maximum level of safe operation.

One result of the study has been reduction to one-half power of the Savannah River reactors, and a close-down of the Hanford, Washington N reactor. Reece says he and others involved are hopeful that both units will go back to full operation, with adequate safety measures.

He says there is obviously a vital interest at the top in keeping these facilities operational. "Functional operation of our defense system requires the production from these reactors," he adds. Changing

technology in weapons systems has created more uses for the plant's plutonium and tritium. The MIRVing of re-entry vehicles is one example.

"I personally feel, based on our studies, that Savannah River units are very safe...I am not worried about their operation. They function at relatively low pressures, there is no steam, and all of the reactor boundary components are of extensively tested stainless steel. We have access to all accident analyses over the years, and based on these we have a great deal of confidence in the systems. Results show that the safety systems can respond in a predictable way to mitigate accident situations," Reece asserts.

In addition to conventional controls and shielding devices for routine operation, Savannah River is heavily protected from possible attack by conventional weapons. Reece's contract as consultant extends through next summer. He expects that it will be renewed since work will be on-going. Consultants presently used at SRP compose a blue-ribbon group, from leading universities and research centers around the country. Reece is the only community college engineer on the staff.

He is at home in this environment. He received his nuclear engineering degree at N.C. State in 1957, his Master's in mathematics there in 1961 and his Doctorate in engineering mechanics at the University of Florida in 1963. After graduation he served as teaching fellow and instructor at N.C. State, and professor in mechanical engineering at Auburn. He worked at Savannah River 1965-72, later with the Army Missile Command at Huntsville, Ala., and was deputy director of the Division of Operating Reactors for the U.S. Nuclear Regulatory Commission from 1976-78.

He is a member of the American Society of Mechanical Engineers, was a Ford Foundation Doctoral Fellow, Distinguished Classroom Teacher at N.C. State, a Danforth Associate, and received outstanding faculty awards at Auburn. He is a member of Who's Who in America, Who's Who in South and Southwest and American Men and Women in Science.

A native of Boonville, he returned to Surry County in 1983 and joined the faculty at SCC as instructor in math and physics.

"I enjoy tremendously the experience of firing up young people and sending them off to schools such as N.C. State, well prepared and capable of performing well," he says. Several of his former students are making their mark in engineering at N.C. State.

"Surry County is home to me," he adds. "My family is here and it's good to be back in North Carolina." His father is deceased and Joe operates the family farm in addition to his teaching and consulting work.

New Found Poetry Talent Expands to Other Avenues

By Kim Weavil

"I was lying there in bed, when it came to me. I asked the Lord, 'It this really how you want me to express myself?' I guess it was," said Patti Cockerham of her new found talent of poetry.

Although Patti has always been interested in writing, the first poem she ever wrote was, "A Tribute to Cindy," which was written Oct. 11, 1987 in preparation for a Ladies Appreciation Breakfast at

and mostly late at night," said Patti. She also noted that she often stays up all night or gets up in the middle of the night to write.

The idea to compose all of her poems into a booklet came from her husband, daughter Angela Murphy a senior at Starmount High School, and friends from her church. Patti had never done anything like it before and everything just seemed to fall into place. The cover illustration was

her church honoring Cindy Freeman, the pastor's wife. "I was lying in bed thinking about her and what I was going to say at the breakfast and the verses came out of the blue, from the Lord," remembered Patti.

She and her husband, Sam Cockerham, attend Peace Haven Baptist Church in Yadkinville, where she and her husband are very active and she teaches Sunday School.

Originally from Dobson in Surry County where she lived for 17 years, Patti has been living in Yadkinville for the past seven years.

Patti first realized she had a talent for writing during 1981 Spring Semester at Surry Community College. She was having a very rough time in her life with personal problems and when she went to Mrs. Caloway's English course her spirits seemed to lift and her problems seemed farther away. "I realized I could express my thoughts and feelings so much easier and better through writing," noted Patti.

Since that time Patti hadn't written much, beside notes to her family members which she says turn into books most of the time, but suddenly she was filled with an urge to write. The product of her efforts is her first poetry booklet, "Heart Warming Thoughts." The booklet went to press Thursday, Nov. 12, 1987 only 32 days after writing her first poem. "The verses just seemed to pour out from me after that,

created by her daughter's friend, Windy Collins. The design depicts Patti's feelings of the poems; the rose is an object of love and the rose coming from inside the heart symbolizes "love from the heart."

"I know to some people, writing poems doesn't seem like much, but to me it means a great deal because it's a talent I can use to serve the Lord," noted Patti.

Patti has begun a weekly ten-minute program on radio station WJOS Wednesdays, at 12:45 entitled "Heart Warming Thoughts." On the program Patti reads some of her poetry and shares uplifting thoughts.

Patti will also have a weekly program on radio station WYZD in Dobson beginning this week.

A second booklet, "To Strengthen Your Heart," will go to press February 1, 1988 and Patti has considered forming both booklets into one book, but that is still in the idea stage.

Her booklets can be found at various flower and gift shops in Yadkinville, Boonville, Elkin and Dobson.

There could be a chance for Patti's poem's becoming songs, since Evangelist Craig Edwards has the exclusive rights to making them songs.

"I have an desire to leave something behind, something that will inspire others and help them in some way. I had my friends to help me when I needed them the most so I know how it can be to be troubled," noted Patti.

SCC will Discuss 'School Trends'

Surry County School officials will address "trends, challenges and opportunities" in the public schools on Thursday night, Jan. 21 in the regular "Thursday Night at the College" series at Surry Community College.

The question of key factors shaping public schools today and how they impact on what children learn will be discussed by several spokespersons.

Mrs. Marsha Bledsoe, Director of Student Services for the Surry County School System, will present an overview of programs for exceptional children.

David Long, Director of Special Programs for the Mount Airy City Schools, will discuss the advent of micro-computers as instructional

tools. Miss Marcia Fincannon, Elkin City Schools Assistant Superintendent, will give an overview of special programs for elementary children, focusing on physical education, the arts and foreign language.

Dr. Don Lassiter, Elkin City Schools Superintendent, will chair the group and moderate questions afterwards.

Next in the college series of programs will be a presentation by leading young people in the county on the topic of "What's on the Mind of Youth?" This is scheduled for Jan. 28.

All programs are scheduled for 7:30 p.m. and are open to the public at no charge.

January 20, 1988, The Enterprise

Auto Body Course Offered

A 60-hour course in Auto Body Repair I has been scheduled to begin Tuesday, Jan. 26, in the auto repair shop on the college campus in Dobson. Registration for the course will be held at the first class meeting. The class will meet each Tuesday and Thursday evening from 6-10 p.m.

A registration fee will be charged for the course.

For more information or to pre-register, call the Continuing Education Division of the college at 386-8121, extension 234.

ter known as Eddie, hopes to return to Surry County government.

The former county manager filed on Friday for a seat on the county board of commissioners.

Bondurant will run against incumbent Bill Lowe in the Democratic primary this spring.

Bondurant served as county manager for 6½ years. Before that, he was county financial director.

He resigned as county manager in May 1985 to take a position in private industry.

Bondurant cited his ten years

THE PILOT JANUARY 20, 1988

MAKE MY LIFE COUNT

Walking daily through this life
I pray for joy and zeal;
The Lord has been so good to me
His presence I can feel.

Now I'm not rich and famous
I'm certainly not well-known;
But Jesus the Saviour redeemed me
and made me one of His own.

So now I serve dear Lord
with one thought in mind;
Please help me touch another's life
Your Word to leave behind.

I want to be a blessing...
maybe offer a listening ear;
Or lend a shoulder to cry on...
gently wiping away a tear.

Help me, Oh Lord, I pray...
for you the best to be;
And as I walk this pathway,
make my life count for Thee.

I just want to make a difference
in the lives of those I meet;
Tho not for my honor and glory,
but simply to lay at Jesus' feet.

Patti T. Cockerham

SCC physics instructor to assess nuclear safety

DOBSON — Dr. Joe W. Reece, physics and math instructor at Surry Community College, is lending his expertise to help assess safety systems at the Savannah River, S.C. plant, major producer of nuclear materials for the national defense.

Reece is one of the several consultants working for E.I. du Pont de Nemours, operator of the plant, to develop analyses methods on how to meet recommendations of a National Academy of Sciences review committee to predict behavior of nuclear reactors in accident conditions and to plan in-reactor tests to verify analysis results.

The study group was formed from among members of NAS and the National Academy of Engineering at the request of Energy Secretary John Herrington following the nuclear accident at Russia's Chernobyl plant.

Reece spends four days a month at Savannah River. For him it's a return to familiar ground. He served there from 1965 to 1972 as a researcher for DuPont. The Savannah River plant was designed and built by DuPont in the 1950s and has been operated by the company

with out profit as its contribution to the national defense program.

Managed by the Department of Energy, its mission is to produce plutonium and tritium for nuclear weapons. A valuable spin-off is production of radioactive isotopes which are used extensively in both government and civilian medical and research programs.

The function of the NAS committee is to study thoroughly all systems at the plant from a safety point of view, and to develop recommendations to ensure a maximum level of safe operation.

One result of the study has been reduction to one-half power of the Savannah River reactors, and a close-down of the Hanford, Washington N reactor. Reece says he and others involved are hopeful that both units will go back to full operation, with adequate safety measures. He says there is obviously a vital interest at the top in keeping these facilities operational.

"Functional operation of our defense system requires the production from these reactors," he adds. Changing technology in weapons systems has created more uses for

the plant's plutonium and tritium. The MIRVing of re-entry vehicles is one example.

"I personally feel, based on our studies, that Savannah River units are very safe . . . I am not worried about their operation. They function at relatively low pressures, there is no steam, and all of the reactor boundary components are of extensively tested stainless steel. We have access to all accident analyses over the years, and based on these we have a great deal of confidence in the systems. Results show that the safety systems can respond in a predictable way to mitigate accident situations," Reece says.

In addition to conventional controls and shielding devices for routine operation, Savannah River is heavily protected from possible attack by conventional weapons.

Reece's contract as consultants extends through next summer. He expects that it will be renewed since work will be on-going. Consultants used at SRP compose a blue-ribbon group, from leading universities and research centers around the country. Reece is the only com-

munity college engineer on the staff.

He received his nuclear engineering degree at N.C. State in 1957, his Master's in mathematics there in 1961 and his Doctorate in engineering mechanics at the University of Florida in 1963. After graduation he served as teaching fellow and instructor at N.C. State, and professor in mechanical engineering at Auburn. He worked at Savannah River 1965-72, later with the Army Missile Command at Huntsville, Ala., and was deputy director of the Division of Operating Reactors for the U.S. Nuclear Regulatory Commission from 1976-78.

He is a member of the American Society of Mechanical Engineers, was a Ford Foundation Doctoral Fellow, Distinguished Classroom Teacher at N.C. State, a Danforth Associate, and received outstanding faculty awards at Auburn. He is a member of Who's Who in America, Who's Who in South and Southwest and American Men and Women in Science.

A native of Boonville, he returned to Surry County in 1983 and joined the faculty at SCC as instructor

math and physics.

"I enjoy tremendously the experience of firing up young people and sending them off to schools such as N.C. State, well prepared and capable of performing well," he

says. Several of his former students are making their mark in engineering at N.C. State.

"Surry County is home to me," he adds. "My family is here, and it's good to be back

'Who's Who' names SCC students to list

DOBSON—Students from Surry Community College have been named to "Who's Who Among Students in American Junior Colleges."

Named were Sandra Gay Adams, Yadkinville, Rt. 5; Elva Imogene Badgett, Mount Airy; Joy Elaine Barlow, Mount Airy; Tina Marie Bell, Elkin; Tara Elizabeth Bennett, Pinnacle, Rt. 1; Christine Thomas Bingham, Mount Airy; Jason Lee Brady, Dobson; Wanda Brown Brandon, Yadkinville; Marilyn Newman Brooks, Dobson; Robin White Buie, Elkin, Rt. 1;

Mark Wayne Burcham, State Road, Rt. 1; Stacey Leigh Butcher, Mount Airy; Cynthia Dawn Carter, Yadkinville, Rt. 4; Loretta Higgins Cash, State Road, Rt. 2; Michael Dewitt Coble, Mount Airy; Melanie Durham Collins, Thurmond; Pamela Lyn Collins, Mount Airy; Jimmy Darryl Combs, Dobson; Randy Dale Cooke, Mount Airy; Kelly Michelle Creed, Mount Airy;

David Lloyd Dalton, Westfield, Rt. 2; Gilbert Aaron Draughon Jr., Mount Airy; Angela Dawn Duncan, King; Bobbie Ogle Easter, Lowgap, Rt. 1; Bridga Hoots Freeman, Yadkinville; Pamela Felts Gentry, Galax, Rt. 3; Billie Ray Goins, Mount Airy; Michelle Hylton Goodson, Mount Airy; Betsy Morris Grooms, Mount Airy; Gina Elizabeth Hawks, Mount Airy;

Roberta Handlin Hayes, Pilot Mountain; Gregory David Horton, Woodlawn, Rt. 1; Cheryl Sewell Johnson, Mount Airy; William Rex Lewis, Dobson, Rt. 4; Virginia Cregger McMillian, Mount Airy; Ann Schaeffer Martin, Yadkinville, Rt. 1; William Ricky Oliver, Hamptonville, Rt. 1; Marquitta Hutchens Pardue, Elkin; Marnie Ann Powell, East Bend, Rt. 1; Sara Thacker Raynor, Tobaccoville;

Rhonda Matthews Sale, Boonville, Rt. 1; Victor Anthony Simmons, Mount Airy; Tina Janac Sizemore, Yadkinville, Rt. 1; Ronald Lee Snow, Siloam, Rt. 1; Jean Steelman Swaim, Yadkinville, Rt. 1; Shannon Lee Taylor, Mount Airy; Lora Lee Wall, Mount Airy; Susan Gail Bates Westervelt, Mount Airy; Mitchell Wayne Whitener, Mount Airy; Regina Marie Williams, Sparta, Rt. 4; Patricia Bryson Pell, Pilot Mountain, Rt. 2.

SCC to Discuss Chronic Illness

A teleconference on chronic disease in women, with emphasis on reduction of risk factors, will be held at Surry Community College Friday, Jan. 29.

Sponsored by the college as a public service, the teleconference will feature nine professionals in the field of medicine and nutrition. Program content will be of special interest to individuals who work with women-educators, minority community leaders, extension agents and nutrition program personnel, physicians and nurses, public health professionals, dietitians and nutritionists, home economists and school and community personnel.

The program begins at 9:30 a.m. and concludes at 3:30 p.m. A fee will be charged to cover incidental expense.

Speakers will include Bylye Avery, project director of the Black Women's Health Project, Atlanta; Dr. Claudia Bacquet, chief of

special Population Studies Branch, National Institute of Health and National Cancer Institute; Dr. Carolyn Berdanier, professor in the department of foods and nutrition at the University of Georgia; Dr. Albert Carr, professor of medicine at the Medical College of Georgia; Cindy Darden, human development specialist with the Cooperative Extension Service, University of Georgia; Dr. Susan Jenkins, community development specialist in health programs, University of Georgia; Dr. Mary Jane Jesse, National Center of the American Heart Association; Dr. Max E. Stachura, professor of medicine and endocrinology at the Medical College of Georgia; and Valerie Williams, assistant to the chancellor, University of Maryland at Baltimore.

Topics of special interest include obesity, cardiovascular heart disease, hypertension, diabetes and cancer.

The Tribune, Elkin-Jonesville, N.C., Monday, February 1, 1988

SCC to sponsor bloodmobile

DOBSON — Surry Community College will sponsor a visit of the Red Cross bloodmobile on Wednesday, Feb. 3, from 9:30 a.m.-3 p.m., but it won't be just a routine visit.

The college's nursing staff and nursing students are coordinating the bloodmobile visit and have added features to give a "health fair" flavor to the event. Other students, faculty and staff are also involved to help make this visit the most successful ever staged here.

Beverly Essick, director of nursing at SCC, said her staff and students will serve in a number of volunteer roles during the visit.

For instance, they will do

diabetic screening as an added service to those visiting the bloodmobile.

"We're working with Red Cross to place our nurses on the same line to take a blood sample for diabetic testing when a sample is taken for hemoglobin tests. This way we accomplish two things at once, without a second finger prick. We can tell the individual on the spot if there are signs of diabetes which should be checked further, Essick said.

So far as local Red Cross officials know, this is the first time a diabetic screening has been integrated into a blood donor process.

Nursing students are also prepar-

ing displays on wellness and preventive health care for the bloodmobile visit.

The college Student Government Association is soliciting donors from the student body and offering prizes for students who sign up the greatest number.

Two local business are also participating by providing incentives. Ray's Starlight Restaurant in Mount Airy has donated 50 gift certificates good for a free lunch or dinner. Central Sandwich Shop in Dobson has donated 20 gift certificates for ice cream.

These "door prizes" will be awarded during the five-hour bloodmobile visit.

SCC Offering Renewal Courses

Three "renewal" courses for public school teachers have been scheduled at Surry Community College. All are approved by the North Carolina Department of Public Instruction for renewal credits.

The courses are: "First Aid and CPR" which begins Feb. 23, to be held each Tuesday from 6:30 to 9:30 p.m. This is free to public school teachers. Instructor is Bill Hardy. The course has 3.6 renewal credits.

"Effective Teacher Training" begins February 25 and will be held Tuesdays and Thursdays from 3:30 to 6:30 p.m. It offers 3 renewal credits. A tuition fee is charged and the instructors are Doug Cook and Suzanne Dearmin.

For further information, those interested should contact the Continuing Education Division at the College, 386-8121.

The Enterprise, February 3, 1988

Program to focus on aging

DOBSON — Various avenues of service for aging citizens will be explored in a meeting at Surry Community College Thursday, Feb. 18.

Sponsored by the Surry County Department of Social Services, the hour-long program will feature remarks by specialists from several county agencies.

Roger D. Cook, supervisor of the adult services unit of the Social Services department, will host the meeting.

Speakers on the program are Cook; Carolyn O. Wagoner, home health supervisor for the Department of Public Health; Gretchen Derda, psychotherapist with the Department of Mental Health; and Barbara Hall, coordinator of OAAAP (Older Americans Act Nutrition Program) for Surry Community Action.

The meeting is scheduled for 7:30 p.m. at the college. It is free and open to the public.

The Tribune, Elkin-Jonesville, N.C., Friday, February 12, 1988

SCC Offers Classes

The Continuing Education Division of Surry Community College and the Yadkin County Community Schools will sponsor a Health and Wellness class at the Yadkinville Elementary School. The class will begin Feb. 15, from 6:30 and 8:30 p.m., and will meet Monday and Thursday through April 11.

Miss Judy Cummings will be the instructor. Don't be old, do something about it. This new course with fun sessions to reduce stress, control weight and prevent disease will make you feel healthy, energetic, and vibrant.

A minimum of 15 students must be present to register at the first class meeting in order for the class to develop. Anyone 65 years of age or older may register free of charge. For more information on this course, call Surry Community College in Boonville 367-7562.

Two 42-hour courses in Auto Servicing have been scheduled to begin on the Surry Community College campus in Dobson. The Monday evening class will be held from 6:30 to 10 p.m. beginning Feb. 8.

A second course will be held Wednesday evenings beginning Feb. 10.

Registration for each course will be held at the first class meeting. There is a registration fee charged but N.C. residents age 65 and older may register free of charge.

Mr. Don Riddle will teach both courses.

The Enterprise, February 10, 1988

THE BLUE RIDGE SUN, Sparta, N.C., Wednesday, February 3, 1988

Financial Aid Workshop At SCC On Feb. 8

A financial aid informational meeting is scheduled at Surry Community College for Monday, February 8, at 7:00 p.m. The meeting will be held on campus in the teaching auditorium. Parents and students are invited to attend.

Mrs. Jamie P. Childress, Director of Financial Aid at Surry Community College, will conduct the meeting, which is designed to create an awareness of what types of financial aid are available, the sources, and how to apply. "With the costs for post secondary education increasing, many students will need financial aid to attend a college or university. Any student or parent interested in financial aid for the 1988-89 academic year is encouraged to attend this meeting. Financial Aid Application forms will be available," Mrs. Childress said.

For further information, call Surry Community College at 386-8121.

The Tribune, Elkin-Jonesville, N.C., Monday, February 8, 1988

'Young Farmers' to present program

DOBSON — Four members of the Surry Young Farmers and Ranchers Association will present a program on the future outlook and opportunities in agriculture for young people Feb. 11 at Surry Community College here.

The panel discussion will be led by David Haynes Jr., of the Copeland community and recent recipient of the State Young Farmer and Rancher Family of the Year Award.

Other participants will be Michael Wall of the Zephyr community, greenhouse operator and tobacco farmer; Don Sprinkle of Dobson, pork producer; and Danny Hodges of Lowgap, dairyman.

Haynes said the four will address

opportunities for the young person in agriculture, with emphasis on diversification and innovation, plus the pleasure of remaining on the land and using personal initiative to succeed.

"There is a future in agriculture for young people, and a good one, but it requires dedication and hard work," he says.

Haynes is one of 26 American Young Farmers who returned recently from a two-week tour of Southern Brazil, to review farm operations, including tobacco production and related business and industry there. He will share some of his experiences and impressions at the Feb. 11 meeting, which is one in the "Thursday Night at The College" series sponsored by the college to provide county agencies and organizations a forum for discus-

sion of timely topics.

The program begins at 7:30 p.m., is free and open to the public.

The Tribune, Elkin-Jonesville, N.C., Monday, February 8, 1988

Church site of chamber music

MOUNT AIRY — A chamber music program at Central Methodist Church here on Feb. 14 will feature violinist Susan McM. Tucker, visiting artist at Randolph Community College at Asheboro.

Sponsored by Surry Community College and the N. C. Visiting Artist Exchange Program, the Mount Airy performers will also include Nancy Johnston, pianist, and Leslie Moye, cellist. The program is scheduled for 2:30 p.m.

Selections will include "Chaconne in G Minor" by Tommaso Vitale; Meditation from "Thais" by J. Massenet; "Piece en forme de Habanera" by Maurice Ravel; "Duo, Opus 7" by Zoltan

Kodaly; "Elegy For All Victims of War" by Peter Allen; and "Sonata in D Major, Opus 12, No. 1" by Ludwig Von Beethoven.

Tucker received her Bachelor of Music in violin from the New England Conservatory of Music and her Master of Music from Southern Methodist University. She has toured extensively as a soloist and chamber musician, most recently as a member of the Cascade Quartet in Montana.

Moye, who was visiting artist at the College of the Albemarle last year, holds bachelor's degrees in chemistry from Duke and music performance from Columbus College, as well as Master of Music

degree from Southern Methodist.

Johnston is a member of the faculty at the North Carolina School of the Arts in Winston-Salem. She is described as a "consummate soloist and accompanist."

Nursing Program to Receive More Students

Surry Community College received two pieces of good news from the North Carolina Board of Nursing last week.

The Board approved SCC's request to add another class of ten students in its program to train LPN's (practical nurses) for RN status. SCC is one of only two community colleges in the state with this program, which began in 1986. The first class of nine students will graduate this spring, and another class is nearing the half-way mark in the two-year

program.

In other action the State Nursing Board renewed approval of SCC's regular nursing program, which began in 1971 and now has a total of 30 students enrolled. Since it began, SCC has graduated about 300 nursing students who became RN's.

SCC nursing students have consistently scored high in passing rates— an average of 98 percent over the past six years— in State Nursing Board examinations for Registered Nurse.

SCC Schedules Registration

DOBSON—Surry Community College will hold registration for its spring quarter Tuesday.

Students can register from 8:30 a.m. to noon, 1 to 4 p.m. and 6 to 8 p.m.

New students are allowed to begin the quarter on full-time or part-time schedules, in day or evening programs, a college spokesman said.

SCC Planning

Language Festival

A foreign Language Festival which is expected to draw nearly 1,000 students and teachers from 13 high schools in North Carolina and Virginia, will be held at Surry Community College April 20.

Mrs. Sharon Gates, Spanish instructor at SCC and festival coordinator, said, "The Festival is designed to give students another dimension of foreign language studies, through hands-on activities including music and dance, drama and costume competition, extemporaneous speaking and dramatic reading competition in foreign languages as well as construction and display of booths and projects reflecting foreign cultures."

Schools will also exhibit booths showing student work, ranging from native foods and artwork to craft demonstrations.

Projects will include foreign maps, flags, pinatas, masks, needlework, models, sculpture, paintings, sketches, posters and games. Computer programs in a language are often included as part of a booth.

"While the Festival is primarily for students and teachers, we welcome parents and others from the communities represented," Mrs. Gates said.

The festival begins at 10 a.m. and concludes at 2 p.m., following presentation of awards and trophies.

Schools to be represented include Elkin, Mount Airy, North Surry, Surry Central, East Surry, and Alleghany in North Carolina, and Carroll County, Fries, Patrick County, Radford, Woodlawn Intermediate, Independence, and Vaughan Intermediate in Virginia.

The Enterprise, March 30, 1988

Schools Schedule Evening Classes

Mount Airy schools and Surry Community College are co-sponsoring a series of classes at the city school facilities.

A tennis class is slated to begin tonight at 7 p.m., while other classes will be starting through March 7. Among the courses being offered are basic computers, a class in the dBase III computer language, men's basketball, oil painting, watercolors and tile painting.

Registration will be held the first night of each class. A fee will be charged unless those enrolling are 65 or older.

More information is available by calling Donnie Johnson at 786-8355.

Surry students lead SCC youth forum

DOBSON — Young people from high schools in Surry County will participate in a forum at Surry Community College here Thursday, Feb. 25 at 7:30 p.m. on the topic "What's on the Mind of Surry Youth?"

Representing youth leadership in the various schools (including county and city systems in Elkin, Mount Airy, and Dobson), the students will express their opinions on what they view as key concerns in today's society such as drugs in

the schools, peer pressure, aids and cruising, along with other topics, and will solicit discussion from the audience. The program is free and open to the public.

Tony Searcy, Director of Student Activities at SCC, has coordinated plans for the forum session through the high schools. He will also introduce the program and individuals who will participate. This is one in the series of "Thursday Night at the College" programs scheduled to provide county agencies and or-

ganizations opportunities to present current topics for public consideration.

Surry Community College's Student Government Association will also be represented at the forum.

Surry Community College promotes learning for all through Adult Basic Education

By Bart Massey

As Joseph Addison once said, "Education is a companion which no misfortune can depress, no crime can destroy, no enemy can alienate, no despotism can enslave. At home a friend, abroad an introduction, in solitude a solace, in society an ornament. It chastens vice. It guides virtue. It gives at once grace and government to genius. Without it, what is man? A splendid slave, a reasoning savage."

Surry Community College believes firmly in the promotion of the education of all. In fact, the Continuing Education Division promotes the on-going education of the adult population in SCC's service area.

Any person eighteen years of age or older may be admitted to a continuing education class. North Carolina adults age 65 and older may register for classes in the Continuing Education Division free of charge.

Fees vary with the type of course offered. Adult basic courses which are supported primarily from state and federal funds are free. Fees are announced in the course schedule and are paid at the first class session. Books and supplies are usu-

ally the responsibility of the student and may be purchased from the college bookstore.

One strength of the Continuing Education Division involves the High School Completion Program. North Carolina High School Completion Certificates are awarded to students who successfully complete the Adult High School Program. For the successful completion of other adult education programs, the student is awarded an Achievement Certificate. A minimum of 80 percent student attendance (and successful completion of other course requirements) entitles one to receive the Achievement Certificate.

The Individualized Instructional Learning Centers in Dobson, Mt. Airy, and Booneville provide an opportunity for any interested adult to study a variety of courses ranging from the elementary school level to the college level. Emphasis is placed on providing instruction on an individual basis through the use of programmed materials, film strips, tapes, and other learning/teaching strategies by professional instructors. Individuals are free to set their own study hours and pace at the beginning of each quarter.

Students who are advised to complete phases of programs leading to a high school diploma, or who are advised to do remedial study in association with a college course of study, are expected to show steady progress toward a predetermined objective. There are no teacher-administered tests, grade assignments, or set speeds of completion for most courses of instruction.

Currently, Adult Basic Education (ABE) classes are being held at all three Learning Center locations, at East Surry High School in Pilot Mt., Elkin High in Elkin, North Surry High in Mt. Airy, Yadkin Elementary in Yadkinville, Lowgap Elementary in Lowgap, and the MADOC Center in Mt. Airy.

Local businesses and industries also offer ABE classes, but these are for employees only. These include the Adams-Mills Corporation (Mt. Airy), Brown Wooten Mills (Mt. Airy), Chatham Manufacturing (Elkin), and the Renfro Corporation (Mt. Airy).

Persons interested in taking continuing education classes, including the High School Completion Program, may obtain additional information from Surry Community College by phoning (919) 386-8121.

Egg hunt at SCC

It's Easter Bunny time at Surry Community College! The Student Government Association will sponsor an Easter egg hunt on the college campus Thursday, March 31, for children of students, staff and faculty.

The event will begin at 3 p.m. and conclude at 4:30 p.m.

MARCH 30, 1988 THE PILOT

Last year's Foreign Language Festival provided entertainment, good food, cultural experiences, and much more.

Foreign Language Festival adds flavor and flair for 1,000

News Release

A Foreign Language Festival, which is expected to draw nearly 1,000 students and teachers from 13 high schools in North Carolina and Virginia, will be held at Surry Community College April 20.

Sharon Gates, Spanish instructor at SCC and festival coordinator, said, "The Festival is designed to give students another dimension of foreign language studies, through hands-on activities including music and dance, drama, and costume competition, extemporaneous speaking and dramatic reading competition in foreign languages, as well as construction and display of booths and projects reflecting foreign cultures."

\$20,000 grant for nursing program

Marine Midland Bank, headquartered in New York City, the Trustee of the Helene Fuld Health Trust, the nation's largest charitable trust devoted exclusively to the welfare of undergraduate student nurses, has announced a grant of \$20,000 to Surry Community College to be used to purchase laboratory and audio-visual equipment for its Nursing Program.

A spokesman for the bank stated that the grant was made in recognition of the outstanding contributions to the nursing profession being made by Surry Community College in training undergraduate student nurses to render bedside care to patients.

SCC recently announced plans to expand its nursing enrollment, following approval by the NC Board of Nursing. Total enrollment in the daytime RN program will be increased from 55 to 85.

SCC Scholarships Are Established

DOBSON—Proctor Silex, Inc., in Mount Airy has established two \$500 scholarships for second-year students in the Machinist Technology program at Surry Community College.

B.R. Barefoot, vice president and general manager of Proctor Silex, said the company is making the scholarships available to provide incentives for the study of machine technology and to recognize excellence in the program. Barefoot added that having well-trained machinists available locally is a substantial asset to the industry.

209 to receive diplomas

A graduating class of 209 persons will receive diplomas of high school equivalency in ceremonies at Surry Community College August 6.

The Pilot 7/26/89

Graduates range from 16 to 60 years old. This is the first time that formal graduation rites have been held for GED (high school equivalency) graduates. Judy Riggs, Director of Basic Education at SCC, noted that "enthusiasm among our graduates and their interest in being part of a graduation ceremony prompted us to schedule the event, in which they and their families can participate."

The ceremonies will be held at 3 p.m. in the college gymnasium. The public is invited.

GED classes are held at Elkin High School, East Surry High, Lowgap Elementary, Flat Rock Elementary and Yadkinville Elementary.

Registration for new classes in GED and ABE (Adult Basic Education) will begin Thursday, August 31. Those interested in registering should contact the college, or their employers which host these classes.

GED Graduates To Be Honored

DOBSON—A graduating class of 209 persons will receive high school-equivalency diplomas in ceremonies at Surry Community College Sunday at 3 p.m. in the college gymnasium.

This marks the first time formal graduation rites have been scheduled here for GED (high school-equivalency) graduates, who range from 16 to 60 years old.

Judy Riggs, director of basic education at SCC, said, "The enthusiasm among our graduates and their interest in being part of a graduation ceremony prompted us to schedule the event in which they and their families can participate."

Eighty-nine percent of the graduates plan to continue their education, according to Riggs; 40 of them are graduating with honors.

Registration for new GED and Adult Basic Education classes will begin Thursday, Aug. 31. Those interested in registering should contact the college or their employer if a GED course is offered by their company.

THE PILOT AUGUST 2, 1989

SCC picnic is August 19th

The 1989 edition of the annual Surry Community College picnic has been scheduled for August 19, 1989. This year the gathering will be held on the college campus in Dobson. The starting time for registration will be 4:30 p.m. with the activities getting under way at 5 p.m. Hamburgers and hot dogs will be served from 6:30-7 p.m. with music and dancing to follow the meal. This will be a family affair and all children will be welcome. Games and activities will be scheduled for children of all ages. A small admission fee will be charged.

The Tribune, Elkin-Jonesville, N.C., Wednesday, August 2, 1989

Proctor Silex sets scholarships

DOBSON — Proctor Silex, Inc., in Mount Airy has established two \$500 scholarships for second-year students in the Machinist Technology program at Surry Community College.

B. R. Barefoot, Vice President and General Manager of Proctor Silex, said the company is making the scholarships available to provide incentives for the study of machine technology and to recognize excellence in the program. Barefoot added that having well-trained machinists available locally is a substantial asset to industry.

Steven R. Shepard, head of Machinist Technology at SCC, indicated that two students who have completed the first year in the two-year program with superlative academic records will be selected soon to receive the scholarships.

Young People Air Concerns At SCC Program

By JODI SMITH
News Staff Writer

DOBSON—What's on the minds of Surry youth? The need for a teen center, AIDS awareness, the threat of drugs, cruising laws and parent/teen relationships are.

Young people's thoughts on such subjects were aired during the latest "Thursday Night at the College" series event, in a special program designed for them to do just that at Surry Community College.

About 35 students and advisers from the county's five high schools, along with SCC's Student Government Association officers, attended the meeting, organized and presided over by Tyny Searcy, a college counselor and its director of student activities.

The program was filmed for review by an SCC psychology class.

Teen Center Urged

All who spoke out on the subject of teen social activities — from every area of the county — agreed there is a need for more of them. A popular suggestion was the building of a two-story "teen center" — possibly in Mount Airy because of its higher population — that might include a dance floor and refreshment area on the top floor and a wide-screen TV, video games, a lounge area and pool tables on the lower level.

"Now you can go to a movie and when it's over you have nothing to do," said Cindy Shelton of Mount Airy High School. "That's why we cruise. And instead of nine or 10 policemen harassing teen-agers, they could be arresting criminals. They run

Staff Photo by Jodi Smith

High school students from across the county were eager to express their views on a variety of subjects.

us out of (Mayberry Mall in Mount Airy) if we're not buying anything, but the older people can walk up and down with no problem."

"The police know our cars and follow us home," added Kim Nance of Elkin High School. "They'd rather stop us for soliciting to fill their quota than stop the doctors and lawyers for speeding."

Added a fellow student: "If they see your car pass them four times or

more, they give you a ticket. They ride your bumper and almost instigate you into speeding."

"I don't think they're just out to keep you from having fun," explained SCC's Dr. Carlyle Shepherd, dean of college transfer. "Could it not have something to do with trash or traffic congestion, beer bottles in the road?"

"I used to be for cruising, until I thought, 'what if my mom needed an ambulance and it couldn't get through the traffic,'" noted one young man.

Youth

(Continued from Page 2A)

suggested SCC SGA Vice President Glenda Wetherholt. The students seemed to like that idea.

Surry Central High counselor Gene Everette asked if the new Pilot Mountain recreation center, Reeves Community Center in Mount Airy and a proposed recreation center with a pool in Elkin would not fill the bill of a teen center.

"We get burned out on sports. We do them all the time at school," explained a Surry Central student.

"The rec center is fine for the day, but what do we do on Friday and Saturday nights? I don't want to meet someone with my hair all wet from swimming. The girls like to get dressed up — and the guys do sometimes — that's the whole point."

Searcy and Shepherd suggested the students relate the idea to others at their home schools and start a petition to voice their concerns. "If you want a multi-purpose room to hold dances, dinners and video machines, take responsibility and present it to the county commissioners," Shepherd said.

Other areas the youths discussed included communication with parents. Most indicated they had no real problems there, saying there was a lot of trust in their relationships.

On another topic, those who spoke out said they would not tell anyone if someone they knew at school had AIDS, unless "the friend was getting intimate with someone I knew."

One teen said she would tell because "I don't trust scientific techniques."

Searcy said afterward that overall, he "was pleased with the turnout and response to the program," saying most students indicated they would like to have another such session and include more of their friends from school.

"Basically, what I heard was that they'd like to have a center of their own, that they don't like harassment from the police and that they have good relationships with parents on the whole," Searcy concluded. "We found out some of what they're thinking, and it's something I hope we can do again."

"Our parents did it. We're not vandalizing or breaking in," countered Shelton.

"Yeah, my dad talks about it all the time," added another student. "I've known people who met while cruising and are still married. There's nowhere else you can really meet people."

"If (adults) want us to do something besides cruising, they should supply us with something else to do. I don't like (gas) fumes, but I like to meet people. We need something like a teen night club or ice skating," another teen pointed out. "I bet it would cut down on a lot of the drug use if there was something to do."

"I just moved here from Winston-Salem, and we had a club there called Chez Andre (now Polo's) that had 'Teen Night' once a week with no alcohol. A lot of kids went to that."

"Maybe we could have a dance here just for high school students,"

The Mount Airy News

SCC teleconferences address drugs, feature beach party music

News Release

SCC held two teleconference programs on Wed., March 16. One addressed the serious problems of drugs, and the other featured the "Pepsi Satellite Beach Party" from Gainesville, Florida. Both were aired through the College Satellite Network and co-sponsored by Rock Against Drugs and Young Artists United.

The program on drugs began at 1 p.m. with information on how to recognize excessive drinking habits and drug abuse, special needs of children of alcoholics, and successful community-based programs for victims and helpers.

From 2 to 3 p.m. on-site discussion was held, with the telecast resuming at 3 p.m. and continuing through 4 p.m. The second segment addressed peer pressure. Students and program guests considered different attitudes between men and women about how they deal with peer pressure.

Guests included David Crosby of Crosby, Stills and Nash, actors Holly Robinson of "21 Jump Street," Blair Underwood of "L.A. Law," and Danny Goldberg who founded the Rock Against Drugs. Program host was Martha Quinn.

The Pepsi Satellite Beach Party began at 8 p.m. on March 16. It was hosted by comedian Tim Setiml, who was recently recognized by the National Association For Campus Activities as the 1987 Campus Entertainer of the Year.

Three bands were also featured: Gene Loves Jezebel, which recently released the "House of Dolls" album; Flesh For Lulu, one of the latest entries from British rock; and Love and Rockets in a special guest appearance.

While the teleconference programs were of special interest to students, the public was invited to attend. Admission was free.

Schools will also exhibit booths showing student work ranging from native foods and artwork to craft demonstrations.

Projects will include foreign maps, flags, pinatas, masks, needlework, models, sculpture, paintings, sketches, posters, and games. Computer programs in a language are often included as part of a booth.

"While the Festival is primarily for students and teachers, we welcome parents and others from the communities represented," Gates said.

The Festival begins at 10 a.m. and concludes at 2 p.m., following presentation of awards and trophies.

Schools to be represented include Elkin, Mount Airy, North Surry, Surry Central, East Surry, and Alleghany in North Carolina, and Carroll County, Fries, Patrick County, Radford, Woodlawn Intermediate, Independence, and Vaughan Intermediate in Virginia.

College celebrates anniversary

By Frances Owen

The North Carolina Community College System turns 25 in May. Many activities are scheduled to celebrate the silver anniversary. Some of the plans include that every Community College student be given a balloon and at a designated time all the balloons are to be released. There is also going to be a formal dinner in Raleigh, and memorabilia reflecting the anniversary will be sold.

One more activity in particular is to directly affect SCC. A mural which depicts one building from each of the 58 community college institutions is being made. The entire design consists of 180 seven-inch squares. The focal point of the design will be the 58 representations of the different institutions on white cotton. They are strategically placed among dyed velveted landscapes and delicate paintings of wildflowers on organdy. This design was selected by NCCAEA.

Former N.C. Visiting Artist Susanne Yowell Schuett, from Sampson County, was chosen to design and coordinate the project.

The quilt will be unveiled May 15, 1988, and the finished product will be presented as a gift to Bob Scott, representative of the Department of Community Colleges. After each of the schools has had an opportunity to display the quilt at their respective colleges, the quilt will be permanently placed in the Caswell Building in Raleigh.

Golf team (L to R): Todd Nichols, Tony Boles, Brian Waller, Burton Christie, Staw Roberts, and Darren Smith.

SCC students devote leisure time to athletic activities

Surry Community College is primarily a commuter school, so intercollegiate sports are not always attractive activities for students who work, as well as go to school. In fact, SCC offers only two intercollegiate sports, golf and tennis, in which participants compete against students enrolled at other post-secondary institutions. Regardless of the limited intercollegiate sports, however, SCC students are not without ample physical activities in terms of intramural volleyball, basketball, and softball for the avid sportsman.

Volleyball is a traditional fall sport (October and November) at Surry with established rules for team play. Interested players must be students who are taking at least five credit hours and are responsible for organizing their own teams and for devising a team name. A team consists of at least ten players, and only six of those members, one of whom must be female, are allowed on the court at a time. In order for the team to win a match, the players must win two out of three games, and all players must exhibit sportsmanlike conduct at all times.

This year's teams included a faculty team, High Voltage, The Jets, Hick's Slicks, and the Wads. The season champions were The Jets with a record of six wins and no losses and consisted of team members Sheri Beach, Kim Roberts, Glenda Weatherholt, Ziad Nakhle, Tommy Branch, Kevin Baird, Grayson Key, and Lynn Brindle. Trophies were awarded to all members of the championship team by coordinator of intramural program, Paul Hinshaw.

The other teams finished in this order according to their respective win-loss records during the season: Faculty (4-2), High Voltage (2-4), Hick's Slicks (0-6), the Wads (0-0).

November, December, and January bring intramural basketball to students who are carrying five or more credit hours during winter quarter. Should a student withdraw dur-

ing the quarter, that student is ineligible to participate in the sport.

All participants are expected to conduct themselves appropriately at all times during the games. Other rules governing intramural basketball are as follows:

— Each team must furnish one game official for the game in which they are not playing that day.

— Basketball shoes must be worn at all times on the court.

— Two time-outs are given to each team during each half of the game. If a game ends tied, a three-minute overtime will be played.

— A team who does not have five players ready to begin the game by five minutes after the scheduled game time will forfeit the game.

— The games are played according to intercollegiate rules with these exceptions:

1. No 45-second shot clock.

2. Clock runs continually, except for the last two minutes of the game, and will stop for time-outs only.

— The season champion will be determined by a tournament at the end of the season, and trophies will be awarded to each member of the championship team.

At the end of the season, team standings were Public Enemy (4 wins, 1 loss); Nighthawks (3-1); High Voltage (3-2); Silver Bullets (2-2); Brew Crew (1-3); Bulls (0-4). In spite of its winning record, however, Public Enemy was defeated in the season tournament to claim the title of season champs. Team members included team captain Brian Warren, Patrick Spence, Kyle Henley, Brent Hardy, Brian Waller, Mike McHone, and Mark Hiatt.

In addition to season champions, the top ten scorers from these teams were also recognized. These players, along with their respective averages of points per game, were Patrick

Spence (27.0), Bill Hall (23.2), Pernell Webster (21.3), Brian Warren (21.0), Burke Mauldin (20.8), Chad Branch (19.8), James Conner (19.4), Grant Hodges (18.0), Mike Willard (17.5) and Stu Roberts (17.3).

In terms of varsity intercollegiate sports, the golf and tennis seasons have just started. March, April, and May are primarily dedicated to these sports, as well as to intramural softball (which will be organized later this month).

The varsity golf team, coached by Paul Hinshaw, officially began its season against Catawba Valley Technical College (CVTC) on Mon., March 14. On Mon., March 21, the Knights met A.B. Tech and Mitchell College at Lakewood.

The intercollegiate team consists of freshman and sophomore members Burton Christie (graduate of South Stokes High), Kevin Collins (North Surry graduate), Eugene Groves (North Forsyth graduate), Bill Hall (Patrick Co., Va. graduate), Greg Magaraci (South Stokes grad), Todd Nichols (East Surry grad), Darren Smith (South Stokes grad), David Smith (North Surry grad), and Brian Waller (North Forsyth). Other scheduled matches will be played at 1 or 1:30 p.m. as follows:

— Mon., March 28 CVTC and Central Piedmont at Cross Creek

— Tues., Apr. 12 CVTC, A.B. Tech, Mitchell at Rock Barn

— Fri., Apr. 15 Mitchell and Forsyth Tech at Cross Creek

— Mon., Apr. 18 CVTC, A.B. Tech, Mitchell at Lakewood

— Thur., Apr. 21 CVTC, A.B. Tech, Mitchell at Asheville

— Mon., Apr. 25 CVTC, A.B. Tech, Mitchell at Cross Creek

Monday and Tuesday, May 2-3 are scheduled for the conference tournament and Saturday, Sunday, and Monday, May 7-9 have been scheduled for the Region X tournament. Additional information for both tournaments will be provided in a future edition of the Squire's Voice.

The Mount Airy News Friday, April 1, 1988

Expert to discuss seafood's role in diet

DOBSON—A look at the role of seafood in the diet, including samples of seafood dishes prepared by a specialist, will be the feature April 21 in the "Thursday Night at the College" program at Surry Community College.

Joyce Taylor, seafood education specialist at the NCSU Seafood Laboratory in Morehead City, will be the featured speaker. The program is sponsored by the Surry County Agricultural Extension Service, with agent Christine Greene-Harris presiding.

Taylor will not only discuss dietary values of seafood, but will use healthy ways to prepare various seafood dishes to be shared by the audience.

Subjects for discussion will include the debated question of cholesterol in shell fish, the protein content and other beneficial elements of all seafood if prepared properly.

Taylor is a native of Asheville, holds a bachelor's degree from Mars Hill College and master's degree from the University of North

Carolina at Greensboro. She taught in the Morehead City public schools before joining the Seafood Laboratory staff.

Those planning to attend the April 21 program are asked to register in advance, either with the Extension Service or with the college, so that enough food items can be ordered. There is no charge for the program.

Pilot Mountain native is speaker at college

The "politics of poverty" will be discussed April 14 in the "Thursday Night at the College" series at Surry Community College.

Speaker for the meeting is a Pilot Mountain native, Dr. Phil Cook, who heads the Public Welfare Administrative Program at the University of North Carolina in Chapel Hill.

The program will be sponsored by the Surry County Department of Social Services, with Director Carl Britain presiding.

Dr. Cook did his undergraduate work at Mars Hill College and

Furman University. He received his Master's Degree at UNC-Chapel Hill and his Doctorate at the University of Pennsylvania.

He worked with Children and Family services programs in Minneapolis, Philadelphia and Boston before joining the UNC-Chapel Hill program in 1967. Many of his students have since assumed leadership positions in social services work across the state.

The April 14 program is scheduled for 7:30 p.m. and is free and open to the public.

College Plans Seminar on Starting a New Business

Want to start your own business? A seminar at Surry Community College May 10 will provide answers to many of the questions facing would-be entrepreneurs—answers by experts in the field.

The seminar is offered as a public service to residents of Surry and Yadkin counties. It will be held at the college beginning at 6 p.m. No registration is required.

Speakers will include Bob Comer, Executive Director of the Surry County Economic Development Commission and Committee of 100; W.R. Dowe, Director of the Northern Piedmont Region, N.C. Small Business and Technology Development Center in Winston Salem; and Anne Hennis, Director

of Industrial Training Center at SCC.

Comer will discuss industrial and business development factors including site location, utility requirements, labor force requirements, taxation and transportation.

Dowe will concentrate on planning for a successful business, and business practices necessary for success, including cash flow analysis and pro forma balance sheets.

Mrs. Hennis will present resources provided new businesses by the College through Industrial Training and Continuing Education.

SCC Series To Tackle Involvement

DOBSON—A program focusing on public involvement in the schools will be held at Surry Community College here Thursday at 7:30 p.m. as part of SCC's continuing "Thursday Night at the College" series.

Donna Dyar, coordinator of school-community relations for the Northwest Regional Education Center of the N.C. Department of Public Instruction, will join local school officials to present "The Public Schools — Public Means YOU."

She will review various programs from around the state that focus on the "public" in public schools. Representatives from school systems in Surry will then discuss specific programs designed to emphasize community and citizen involvement.

Dr. David A. "Gus" Martin, county schools superintendent, is scheduled to chair the program and moderate questions.

SCC Foundation Offering Scholarships To Top Students

DOBSON—The Surry Community College Foundation has announced that, beginning with the 1988 spring graduating classes, it will offer \$250 scholarships to top students.

The scholarships will go to the top five graduates at each of the high schools in Surry and Yadkin counties in North Carolina and Carroll and Patrick counties in Virginia, the college's coverage area.

In addition, SCC is extending the same scholarship offer to the top five graduates of its GED (high school equivalency) program.

The intent, according to college President Dr. Swanson Richards, is to encourage the top academic achievers to attend Surry Community

College.

"This effort is in addition to our ongoing program of providing financial assistance to students on the basis of need," said Richards.

"This will continue, and in fact, be expanded. For example, the foundation is receptive to helping Virginia students who now face high out-of-state tuition costs because of action by the N.C. General Assembly. We want these and other students to know that where financial need exists, the foundation can provide assistance."

The SCC Foundation, which is involved in the funding of many such efforts at the school, also is making plans to broaden the base of the support, especially by industry and business.

Surry Offers Scholarships

The Surry Community College Foundation announced that beginning with the 1988 spring graduating classes, it will offer \$250 scholarships to the top five graduates at each of the high schools in Surry and Yadkin counties of North Carolina and Carroll and Patrick counties in Virginia.

In addition, the foundation is extending the same scholarship offer to the top five graduates of the college's GED (high school equivalency) program.

Dr. Swanson Richards, college president, said the intent is to encourage the top academic

achievers to attend Surry Community College.

"This effort is in addition to our ongoing program of providing financial assistance to students on the basis of need. This will continue and in fact be expanded. For example, the foundation is receptive to helping Virginia students who now face high out-of-state tuition costs because of action by the North Carolina General Assembly. We want these and other students to know that where financial need exists, the foundation can provide assistance."

SCC Asks County Board For \$601,000 For Upcoming Year

By JODI SMITH
News Staff Writer

DOBSON—Surry Community College is asking for an increase in local funds of just less than 10 percent over last year for its 1988-89 budget, presented to the county Board of Commissioners Monday night.

The college's \$601,000 request for county funds for the next academic year, presented by SCC President Swanson Richards and Vice President of Administrative Services Clyde Johnson, is \$53,000 (or 9.8 percent) more than last year.

Overall, SCC's combined \$732,207 local budget request of current and capital outlay money represents a 7.9 percent increase over 1987-88, with \$110,000 brought forward from the 1987-88 budget.

Of that, \$702,707 is budgeted for current expenses, and \$29,500 for capital outlay, or building- and equipment-related, needs (an \$8,500 increase over last year's capital outlay request because of added space to old buildings to change their original use).

The tentative estimated total state budget for the college is \$5.6 million, Johnson said in a later interview, with about \$350,000 in federal grants for financial aid.

The school's local request of

\$208,240 for utilities and fuel represents the largest single increase (12.7 percent more than last year's \$184,800 request), because of a \$21,250 increase for electricity for a newly completed computer science building.

Fixed charges (Social Security, legal fees, insurance) would actually decrease by more than \$8,000. Salary costs would rise 5 percent, including the addition of a janitor for the new structure.

"Everyone considers Surry Community College one of the outstanding places in the county," Commissioner Sam Couch told the college officials. "I've never heard anything derogatory about it as long as I've lived and worked here."

"Well, they say whenever three or more are gathered, I can't help but make a speech about the college," Richards said in his easygoing manner. "That's probably true because I'm really proud of it. Because you and the state have been supportive of us, and our graduates do well, which is a reflection on the community and their attitudes and morals."

SCC now has 19 two-year technical programs, six one-year vocational programs and college transfer and clinical liberal arts programs serving some 5,500 students daily and nightly 16 to 82.

Needs Of The Mentally Ill Will Be Addressed Thursday Night At SCC

DOBSON—John Baggett, an advocate for the needs of the mentally ill as executive director of the N.C. Alliance for the Mentally Ill, will be the featured speaker at an informational meeting for families of mentally ill persons this week.

It is scheduled for Thursday at 7:30 p.m. at Surry Community College.

The meeting is to be held in the teaching auditorium and sponsored by the Crossroads Surry-Yadkin Area Mental Health, Mental Retardation and Substance Abuse Authority — is the latest in the continuing "Thursday Night at the College" series.

Baggett became interested in programs for the mentally ill in the mid-1970s, when his son experienced a

major psychotic episode. "My son is seriously, chronically mentally ill and is classified as schizophrenic," he related, explaining that about 1 percent of the world's population has schizophrenia, and that it has been established that the illness has genetic connections.

"Schizophrenia is a brain disease," he continued. "It is not the result of bad parenting or bad behavior. It is a disease just like diabetes is a disease."

A combination of programs such as group therapy, daytime activity programs and medication offer effective treatment for individuals like Baggett's son, according to a report issued by Crossroads. They don't cure patients, but they do enable them to maintain life at a higher level.

At Thursday's meeting, Baggett will discuss what the Alliance for the Mentally Ill does for afflicted persons and their families.

"The most important thing about the alliance is the support it provides for families," Baggett said. "Through it, families come together with others who know what it is like to live with

and take care of someone who is mentally ill. It lifts the sense of isolation. We learn from one another, gain insight and become better able to deal with the mental health system."

"I attended the first organizational meeting of the alliance in 1984. At that very first meeting, my wife and I felt we had found other people who could understand our problems. It was as if a great burden somehow became lighter."

A similar group now operates in Mount Airy, co-directed by Patricia Okada, a Crossroads social worker, and psychologist Anthony Kelly.

The alliance has more than 1,200 members in the state and 33 local affiliates. In addition to providing emotional support, members gain information about the treatment of mental illness, including referral data, and lobby for more and better mental health services.

More information about Thursday's meeting is available by contacting Suzanne Kelly at Crossroads at 386-9896 or 1-679-8882.

Baggett

SCC program offers teachers renewal credit

DOBSON—Four evening sessions with renewal credits for teachers will be held at Surry Community College as part of the College's Teacher Renewal Program. The subject: "Dealing With Children's Emotional Problems—the Classroom Perspective."

Classes will be held May 10, 12, 17 and 18, from 6-8:30 p.m. Instructor is Mike Wells. The course has been approved by the N.C. Department of Public Instruction, with one renewal credit awarded upon completion.

Those interested in enrolling should contact the college's Continuing Education Department at 386-8121.

The Tribune, Elkin-Jonesville, N.C., Wednesday, May 4, 1988.

SCC offers scholarships

DOBSON—The Surry Community College Foundation announced this week that, beginning with the 1988 spring graduating classes, it will offer \$250 scholarships to the top five graduates at each of the high schools in Surry and Yadkin counties of North Carolina and Carroll and Patrick counties in Virginia.

In addition, the foundation is extending the same scholarship offer to the top five graduates of the college's GED (high school equivalency) program.

Dr. Swanson Richards, college president, said the intent is to encourage the top academic achievers to attend Surry Community Col-

lege.

"This effort is in addition to our ongoing program of providing financial assistance to students on the basis of need. This will continue and in fact be expanded. For example, the foundation is receptive to helping Virginia students who now face high out-of-state tuition costs because of action by the North Carolina General Assembly. We want these and other students to know that where financial need exists, the foundation can provide assistance."

The SCC Foundation is also making efforts to broaden the base of support, especially by industry and business.

SCC Wins Tarheel Tennis Crown

DOBSON — Surry Community College won eight of nine individual titles to easily win the Western Tarheel Conference tennis championship Sunday.

Tony Mayes, Tommy Dapp, Brent Hardy, Tommy Branch and Jody Rotenizer each won singles titles, while the teams of Dapp-Mayes, Hardy-Branch and Rotenizer-Terry Lyon took doubles titles.

Mayes, Dapp and Hardy also earned all-conference honors for SCC, which had an perfect 8-0 record

in regular season play.

Individual Results
SINGLES — No. 1, Tony Mayes (SCC) def. Brian Whitlow (Mitchell) 6-4, 7-6; No. 2, Tommy Dapp (SCC) def. Scott Spont (McDowell Tech) 6-1, 6-2; No. 3, Brent Hardy (SCC) def. Brian Boland (McDowell Tech) 6-4, 6-1; No. 4, Tommy Branch (SCC) def. Robert Rogers (Mitchell) 6-2, 6-3; No. 5, Jody Rotenizer (SCC) def. Darren Redding (SCC) 6-3, 1-6, 6-4; No. 6, Jody Rotenizer (SCC) def. Bill Heflinger (Catawba Valley) 6-0, 2-6, 6-2.
DOUBLES — No. 1, Dapp-Mayes (SCC) def. Randy Spant (McDowell Tech) 6-1, 6-1; No. 2, Hardy-Branch (SCC) def. Kennedy-Rogers (Mitchell) 6-4, 6-4; No. 3, Rotenizer-Lyon (SCC) def. Kimo-Yoder (Mitchell) 6-4, 3-6, 6-2.

Thursday Night College Series Will Focus On Kids And Drugs

DOBSON—Kids and drug/alcohol abuse will be the topic of this week's hour-long "Thursday Night at the College" presentation at 7:30 at Surry Community College.

A program by Jamie H. Norton called "Kids and Chemicals — Kids in Crisis" will focus on the drug situation on the streets, in the home and in high schools, junior highs and even elementary schools which is affecting children at an increasingly younger age.

It is sponsored by the local Crossroads mental health agency.

Norton, who holds a master's degree in education, is chief of Youth Substance Abuse Services for the N.C. Division of Mental Health, Mental Retardation and Substance Abuse Services in Raleigh.

A certified substance abuse counselor, Norton is a private consultant and trainer for the National

Council of Juvenile and Family Court Judges and a number of other youth services groups.

She is also chairperson and founding member of the N.C. Association for Children of Alcoholics, and a member of both the National Association for Children of Alcoholics and the Association of Drug Abuse Prevention.

Norton is responsible for designing and implementing student assistance programs throughout the state and has spent eight years working with substance-abusing children from chemically dependent families.

Tonight's program will be in the teaching auditorium and is free and open to the public.

Program at SCC will offer new courses

In response to a recent survey showing that local industry has an immediate need of 50 trained employees, Surry Community College has introduced two new programs in the Day Curriculum—Industrial Maintenance and Electrical Installation and Maintenance—effective with the fall quarter. Registration is now open for both programs, which are offered on a full-time basis.

Each program awards a one-year vocational diploma; high school completion is recommended but not mandatory to enroll; and students may finish GED (high school equivalency) while enrolled if necessary.

The Industrial Maintenance program prepares students to repair and maintain machinery, electrical wiring and fixtures, as well as hydraulic and pneumatic devices found in industry.

Electrical Installation and Maintenance is designed to provide a training program in the basic knowledge, fundamentals and practices involved in the electrical trades. A large segment of the program is laboratory and shop instruction to give the student practical knowledge and application experience in the fundamentals.

The Enterprise, May 11, 1988

Two lectures on Holocaust to be delivered on Tuesday

DOBSON — Dr. Charles W. Sydnor Jr., president of Emory & Henry College in Emory, Va., will deliver two lectures on the Holocaust at Surry Community College May 17, the first at 12:30 p.m. and the second at 7 p.m.

The public is invited to attend the lectures, which are sponsored by the Surry Community College Faculty Association. Conrad Holcomb Jr., chairman of the association, will introduce Dr. Sydnor.

Dr. Sydnor was named president of Emory & Henry in 1984. Prior to that time he had served as executive assistant to the Virginia Governor's Office; was earlier an independent writer and project producer for Central Virginia Educational Television; was an instructor in history at Ohio State University; received his M.A. and Ph.D. from Vanderbilt University; did graduate work at Albert-Ludwigs Universität

in West Germany; and did German language studies in the Goethe Institute there. He earned his undergraduate degree at Emory & Henry in 1965.

He is a recognized expert and published author in the field of German-Jewish relations prior to and during World War II, and has worked actively in promoting awareness of the Nazi atrocities against Jews and other races during that period. He currently serves as chairman of the Virginia-Israel Commission's Subcommittee on Holocaust Education.

Among his writing credits are the book "Soldiers of Destruction: The SS Death's Head Division, 1933-1945," published in 1977, and extensive television research and writing, including the script for "Adolf Hitler: 1889-1945," a 90-minute documentary made for public television in 1976-77.

Writing in the *Chronicle of Higher Education* last September, he said, "I am a 44-year-old American Protestant, born in the South in the midst of the Second World War. On the day I was born, Aug. 26, 1943, Auschwitz, Belzec, Chelmno and Sobibor were running to capacity, destroying human life. The revolt in Treblinka, after the murder of nearly one million Jews, had occurred three weeks earlier; the heroic uprising in the Warsaw Ghetto had been suppressed three months before. The deportations from all over Europe were continuing apace, and the destruction of Hungarian Jewry was still 10 months away.

"To the people who ask me, 'How can you bear to study the Holocaust?', I can only reply, 'How can we not?'"

The Tribune, Elkin-Jonesville, N.C., Monday, May 16, 1988

SCC Plans Graduation Ceremonies, May 27

Surry Community College will hold graduation ceremonies Friday, May 27 at 6:30 p.m.

Degrees will be presented to 214 graduates, 63 of these in Associate in Arts, 137 in Associate in Applied Science, four in Associate in Science and ten receiving vocational diplomas.

Graduation speaker will be Robert Chilton, Superintendent of Mount Airy Schools. Chilton was first academic dean of SCC after its founding in 1964.

Dr. Swanson Richards, President, will make special remarks and confer the degrees. Dr. James Reeves, Vice-president of Student Services, will extend the welcome and introduce special guests; Dr. Jan Crawford, Dean of Instruction, will present the diplomas. Tina Bell, president of the Student Government Association, will give the invocation, and music will be provided by the College Chorus.

The entire program is open to the public, with special invitations

to families of graduates. The President's reception will follow graduation ceremonies.

leagues for commercial, church and church co-ed softball teams. To register or for more information call the recreation department at 679-8742.

Study: Community Colleges Must Update Job Skills Programs

CHAPEL HILL (AP) — As the state's community college system celebrates its 25th anniversary this week, a new report says the 58 two-year colleges must update their worker-training programs to fit increasingly sophisticated job requirements.

A bridge that was once successfully designed to take the state into the manufacturing age ... now must be transformed to take it into the information age," the panel said in the report prepared for the Commission on the Future of the N.C. Community College system.

The study was coordinated by MDC Inc., a private, non-profit research organization in Chapel Hill.

"We have run smack into a new economy and into major problems," said George Autry, MDC president.

By 1990, the report said, an estimated three of every four jobs in North Carolina will require some education beyond high school. Yet more than 1.5 million adult North Carolinians lack high school diplomas, while 25,000 students drop out of high schools

across the state each year.

"While this dilemma is confounding and the solutions are elusive, the severity of its consequences will multiply without the state's deliberate intervention," the report says.

North Carolina community colleges already suffer from an identity crisis created, in part, by the system's tremendous breadth of curricula, the report says. More than 1,200 courses are offered in areas ranging from commercial fishing on the coast to sawmill operation in the mountains.

To make matters worse, the system's emphasis seems to change from year to year, according to Jesse McDaniel, president of Lenoir Community College in Kinston.

"Are we going to concern ourselves with new industry next year, or illiterate adults?" McDaniel said. "We jump year to year to whatever is politically expedient at the time to get the support of the General Assembly."

Among other things, the report recommends that student recruit-

ment and outreach be stepped up, while basic skills education should be woven into technical and vocational programs.

It also urges that the enrollment-driven funding system be revised. Community colleges now receive funding based on numbers of students.

That system ends up rewarding programs that are least expensive and most in demand, regardless of the state's economic needs, the panel said.

Whether or not the system is overhauled ultimately may depend on state financing.

North Carolina community colleges last year were found to be seriously underfunded, according to a report by the Z. Smith Reynolds Foundation.

State spending per community college student decreased 25 percent from 1973 to 1983, that report said, while state funding levels remained constant for the University of North Carolina system and increased 20 percent for public elementary, middle and high schools, according to the findings.

All-Day Seminar Scheduled On The Law, Older Adults

DOBSON—A seminar on "The Law and Older Adults" will be held Tuesday from 8:30 a.m. to 2 p.m. at Surry Community College.

Sponsored by the Northwest Piedmont Council of Governments in Winston-Salem, several featured speakers will address often-little-known areas of the law affecting older Americans.

The list includes Leisa Fink, regional long-term care ombudsman, who will discuss her program's role in

answering complaints about long-term care facilities in Surry County; attorney Greg Brewer, with the state Division of Aging, who will talk about legislation affecting older adults; and Bob Betz of the N.C. Insurance Commission, who will discuss health insurance benefits for senior citizens.

There is a \$5 registration fee for the seminar, which covers lunch. More information is available by contacting the Surry Agricultural Extension Service at 386-9274.

Neal Plans Seminar At SCC

DOBSON—Rep. Steve Neal, D-N.C., has scheduled seminars in Fifth District communities to offer area businesses tips on how to bid for federal government contracts and find overseas markets.

Neal will be at Surry Community College here Wednesday from 3 to 5 p.m.

His seminar will be a follow-up to a districtwide conference held Feb. 19 in Winston-Salem. "Business people who did not attend the Winston-Salem conference can get much of the same information at these May 'mini-conferences,'" Neal said.

Those who did attend can get follow-up assistance.

"North Carolina, especially our area, does not get its fair share of federal government business," explained the longtime Fifth District congressman, who is seeking re-election in 1988 to another two-year term.

"We've been working hard to correct that. Likewise, our businesses have been reluctant to seek export opportunities. We need the jobs and income this business can provide. We need to be competitive."

Neal is urging business owners and managers to attend Wednesday's session. "The federal government is the world's largest single purchaser of goods and services," he noted, "and

export market opportunities are endless. Breaking in may not be as hard as you think."

The seminar is free, with the help of the Mount Airy Chamber of Commerce, development organizations and the college.

Counseling will be provided by experts from the N.C. Small Business and Technology Development Center, the U.S. Commerce Department and the U.S. Small Business Administration.

About 180 business people attended the Winston-Salem seminar in February — conferring with federal procurement specialists, representatives of large companies that are prime government contractors and international trade experts.

excel in Surry Foreign Language Festival

CCHS LATIN STUDENTS winning the vocal music competition are: (back row) Mike Largin, left, Darin Quesenberry and Alan Webb; and (front row) Cathy Jo Compton, Tamara Alderman, Laurie Hawks, Christie Vass and Rebecca Russell.

THE SPANISH BOOK EXHIBIT placed second in the foreign language competition. Students who entered exhibits are (standing) Kristi Stoots, left, Lynn Houser, Vicky Edwards, Rena Wallen, Kathy Burnette, Holly Phillips, Valerie Horton, Bobbi Jo Hill, Debbie Lineberry and Tracy Brown; and (kneeling) Chris Robinette, James Nester, Laura Houser, Dawn Primm, Chuck Thompson and Randy Lindsey. Photo by Tom Coleman.

CHAIRPERSONS of the Latin first place trophy award in best exhibit at the Foreign Language Festival held at Surry Community College are: (back row) Heather Carter, Jennifer Byrd and Jennifer Carpenter; and (front row) Stephanie Webb, Ellen Nixon and Robin Cruey.

MARY MABE, left, SHELIA WEEKS, Sally Vass and Kevin Noel (kneeling) won awards in the Spanish costume category at the Foreign Language Festival. Mabe and Noel placed third. Weeks and Vass won first place. The costume Weeks is wearing was made by both Weeks and Vass. Photo by Tom Coleman.

AEP offers free testing for GEDs

The Carroll County Adult Education Program is offering free counseling and diagnostic testing for any adult interested in taking the Virginia General Educational Development Test (GED).

Adults may call for an appointment or may just come by the Adult Center for counseling and testing. The center is located beside Woodlawn Intermediate School.

Anyone interested in taking the GED test at Galax High School on May 13 and 14 is encouraged to take advantage of this free service. Begin now and find out if you need additional study or review prior to taking the GED test. Adults interested in taking the GED in Galax in May must register by May 11.

The Adult Center is open by the following schedule and provides free instruction and materials for adults wishing to complete their education and receive a high school certificate.

Monday—12 noon to 9 p.m.

Tuesday—8:30 a.m. to 2:30 p.m.

Wednesday—12 noon to 9 p.m.

Thursday—8:30 a.m. to 2:30 p.m.

For additional information call 236-9221 or write Adult Education, Route 1, Box 3-A4, Woodlawn, Va., 24381.

Mt. Bethel honor roll

Honor roll for the third nine weeks for Mt. Bethel Elementary School.

—Fourth grade: Tonya Smith, Kelly Hiatt, Latanya York, Terry Mayes.

—Fifth grade: Tammy Hiatt, Chasity Dawson, Le Ann McMillan, Carmen Shockly.

—Sixth grade: Kristi Allen, Billie Jean Crabb, Lynn Allen, Jessie McMillan, Regina Smith.

FRENCH BOOTH COMMITTEE SECOND PLACE WINNERS are: Tammy White, left, Robbie Nations, Melody May, Denise Isom and Becky Semones. Photo by Tom Coleman.

CCHS STUDENTS WITH ENTRIES in the Spanish extemporaneous speaking category at the Foreign Language Festival were: DeDe Dalton (Level I/third place), left, Chris Robinette (Level II), and Tracey Edwards (Advanced Level/third place). Photo by Tom Coleman.

CHERYL PINKERTON AND LESLIE AMOSS won the first place trophy in instrumental music for Latin at the Foreign Language Festival on April 20.

THE BEST LATIN DRAMATIC PRESENTATION TROPHY given at the Foreign Language Festival went to these students: (back row) Kevin Bryant, left, Dwayne Stillwell, Jeff Puckett, Leslie Amoss and Sharon Utz; (middle row) Tamara Jones, Matt Phillips, Andy Stockner, Hayley Goins, Robin Cox and Keli Burnett; and (front row) Billy Worrell, Chris Edwards and Ricky Vernon.

FRENCH WINNERS AT THE FOREIGN LANGUAGE FESTIVAL at Surry Community College April 20 are: (back row) Missy Rippey (third place/sculpture), Billie Towe (second place/poster), Julie Champion (second place/needlework), Jamey Dalton (third place/model) and Ann Martin (third place/sketch); and (front row) Sandi Marshall (second place/needlework), Heather Sutphin (third place/flag), Melody May (third place/costume) and Marisa Petty (second place/sketch). Photo by Tom Coleman.

SHELIA WEEKS won a first place trophy in the Spanish costume category. The costume she is wearing was created by Shelia and Sally Vass. Photo by Tom Coleman.

THESE LATIN STUDENTS from CCHS won ribbons at the Foreign Language Festival held recently at Surry Community College.

SPANISH PROJECT WINNERS at the Foreign Language Festival are: (kneeling) Holly Phillips (first place/models) and Tracey Edwards (second place/needlework); (standing) Toni Myers (second place/painting), left, Laura Houser and Dawn Primm (third place/games), Cherie Diamond (third place/pinatas), Mitzi Frazier and Kathy Burnette (second place/games), Mindy Woods (second place/sculpture) and Pam Quesenberry (second place/posters). Not pictured is Melissa Alley (second place/sketches). Photo by Tom Coleman.

FIRST PLACE AWARD WINNING Latin students from CCHS participating in the Foreign Language Festival are Billy Worrell, left, (Extemporaneous Speaking, Latin I), Jennifer Carpenter (Extemporaneous Speaking, Latin II), Tracy Collins (Dramatic Reading) and Amber Fritz (Extemporaneous Speaking, Advanced).

Carroll County High School students

Foreign language students from Carroll County High School participated in the annual Foreign Language Festival held at Surry Community College on April 20.

Other schools involved in competition at the festival were Radford, Patrick County, North Surry, East Surry, Surry Central, Alleghany, Mt. Airy, Elkin, Vaughan, Woodlawn, Independence, St. Paul and Fries.

Competition was held in the areas of projects, vocal music, instrumental music, drama, dance, costume, dramatic reading, extemporaneous speaking and best exhibit.

Students from Carroll County High School earned the right to compete at the festival at Surry by first competing against other students within the school. Each school was allowed only one entry in most categories. Three entries were allowed each school in each project area.

Fifty-two Spanish students from Carroll County High School participated in the Surry Foreign Language Festival and received trophies in dance, instrumental music and costume.

In music competition, the instrumental music entry, a band of 11 students playing a medley of "Malaguena," "Tequila" and "La Bamba," won a first place trophy. Kevin Noel, Mary Mabe, Tammy Burnette, Mark Mayberry, Kenny Cornett, Steve Richardson, Michael Goad, DeDe Dalton, Tracey Edwards, Lora Napier and Duane Sutphin composed the band.

The dance entry, 15 students dancing the Conga, won the trophy for first place. The students were Kevin Noel, Angie Webb, Hal Barlow, Chasity Hofstee, Carrie Marshall, Shawn Carter, Missi Marshall, Toni Myers, Tracey Edwards, Tracie Phillips, Stacy Quesenberry, Mindy Woods, Cathy Gates, Billie Jo Bays and Andrea Bobbitt.

DeDe Dalton placed third in extemporaneous speaking, Level I. Tracey Edwards placed third in the advanced level of extemporaneous speaking.

Shelia Weeks was awarded a first place trophy in the costume category. She modeled a flamenco costume and mantilla which she and Sally Vass made. Kevin Noel, in a Mexican charro costume, and Mary Mabe, costumed as a Mexican senorita, won third place.

The Spanish booth exhibit received a second place award. The booth was organized by Laura Houser, Debbie Lincherry, Valerie Horton, Dawn Primm, Tara Whittaker, Lynette Bennett, Vicky Edwards, Laura McCraw and James Nester.

Richard Brown created a Spanish program for the computer used in the booth. Art work and projects were displayed. Lynn Houser and Rena Waller made flowers and "ojos de Dios" and gave them as favors. Spanish refreshments also were served. Terry Simone and Duane Sutphin, guitarists, and a group of singers entertained with Spanish music.

Carroll County Spanish students awarded ribbons for projects were: Holly Phillips (first place/models), Tracey Edwards (second place/needlework), Mindy Woods (second place/sculpture), Toni Myers (second place/painting), Melissa Alley (second place/sketches), Pam Quesenberry (second place/posters), Kathy Burnett and Mitzi Frazier (second place/games), Laura Houser and Dawn Primm (third place/games), and Cherie Diamond (third place/pinatas).

Spanish instructors from Carroll County High School who participated in the event with their students were Josephine Giles and Charles Thomas.

The parents of Spanish students will be invited to the Spring Fiesta in May when the Carroll County Spanish entries to the Surry Foreign Language Festival along with other exhibits and performances will be presented.

Carroll County High School French students also participated in the foreign language festival. Melody May, Denise Isom, Tammy White, Robby Nations and Becky Semones won second place for their booth exhibit.

Carroll County French project winners were: Sandi Marshall (second place/needlework), Heather Sutphin (third place/flag), Melody May (third place/costume), Marisa Petty (second place/sketching), Missy Rippey (third place/sculpture), Billie Towe (second place/poster), Julie Champion (second place/needlework), Jamey Dalton (third place/model), Ann Martin (third place/sketch).

Rebecca McClung, a French instructor at Carroll County High School, also participated in the festival with her students.

Latin students from Carroll County High School received trophies in best exhibit, drama, vocal music, instrumental music, dramatic reading and extemporaneous speaking levels I, II and III.

Featured in the Latin exhibit were foods such as those eaten by the early Romans, a newsletter developed by third year students using a computer, photographs of Latin activities throughout the school year, and Latin projects.

Students in Roman dress who organized and presented the exhibit were Heather Carter, Robin Cruet, Stephanie Webb, Ellen Nixon, Jennifer Carpenter and Jennifer Byrd.

The award winning vocal selection for Latin, "Veni Jesu," was sung by Tamara Alderman, Cathy Jo Compton, Laurie Hawks, Rebecca Russell, Darin Quesenberry, Alan Webb and Mike Largen with Christie Vass accompanying them with piano.

Cheryl Pinkerton and Leslie Amoss received a first place trophy for their instrumental selection.

The Latin dramatic presentation was written and directed by first year students Chris Edwards and Keli Burnett with help from the rest of the cast. Entitled "Temulum Colloquit," it featured Ricky Vernon as the Church Lady, Matt Phillips and Tamara Jones as Jim and Tammy Baker, Andy Stockner as Offie North with Billy Worrell his lawyer, Hayley Goins as Miss America accompanied by photographers Dwayne Stillwell and Matt Phillips, and Jeff Puckett as Michael Jackson wearing a black toga. Robin Cox was the Church Chat announcer and Leslie Amoss, Kevin Bryant and Sharon Utz provided backup.

Projects winning ribbons at the festival were: Maps: first place—Matt Phillips; second place—Nan Everidge and Christy Vass. Flags: first—Cheryl Pinkerton, second—Jeff Bond. Needlework: first—Rhonda Wilson, second—Heather Carter, third—Ricky Vernon. Models: first—John Marshall, second—Robin Cruet, third—Jeff Puckett. Sculpture: second—Alan Webb and Darin Quesenberry. Painting: second—Tamara Jones. Sketches: first—Hayley Goins, second—Chris Edwards, third—Leslie Amoss. Posters: first—Nan Everidge, Christy Hawks, second—Tammy Hall. Costume: second—Nan Everidge, third—Tamara Jones. Games: first—Robin Cox, second—Billy Worrell, third—Keli Burnett. Miscellaneous: first—Sharon Utz, third—Tracy Collins and Amber Fritz.

Tracy Collins won the first place trophy for Latin Dramatic Reading. Extemporaneous winners of trophies were Latin I, Billy Worrell; Latin II, Jennifer Carpenter and Advanced, Amber Fritz.

Carroll County High School Latin instructor Ruth Bunn accompanied her students to the Foreign Language Fair at Surry Community College. Bunn furnished the photographs of her students.

THE CCHS SPANISH DANCERS won a first place trophy at the Foreign Language Festival. They are: Mindy Woods, left, Missi Marshall, Andrea Bobbitt, Tracie Phillips, Stacy Quesenberry, Toni Myers, Cathy Gates and Tracey Edwards. The couples in front are: Chasity Hofstee and Hal Barlow, left, Kevin Noel and Angie Webb, and Shawn Carter and Carrie Marshall. Photo by Tom Coleman.

THE SPANISH BAND won first place in instrumental music at the Foreign Language Festival at Surry Community College recently. Band members are: DeDe Dalton, left, Steve Richardson, Lora Napier, Kevin Noel, Mary Mabe, Tracey Edwards, Mark Mayberry, Kenny Cornett and Tammy Burnette. Not pictured are Michael Goad and Duane Sutphin. Photo by Tom Coleman.

SCC Continuing Education -

Flower Arranging Offered in Elkin

Surry Community College will offer a Flower Arranging course at Elkin High School beginning Tuesday, June 7, 1988 at 7 p.m. Registration and the first class meeting will be held that night.

Students will be instructed in arranging a variety of flowers including flowers from summer gardens. Students will be free to bring any flowers they wish to use in creating various designs. Eloise

Crissman will be the instructor for the course. A registration fee will be charged.

Adults age 65 and older may register for college courses free of charge. Interested persons should plan to attend the first class meeting. For further information, contact the Continuing Education Division at 386-8121.

Variety Offered in Area

The Continuing Education Division of the Surry Community College and the Yadkin County Community Schools will offer the following college credit courses during the Summer Quarter:

At Starmount High School: Drama (DRA 101) June 6,

6:30-9:30 p.m., 3 credit hours, Phillip Parrish instructor, class will meet on Monday evening for 11 weeks; Computer Fundamentals (EDP 100) June 6, 6:00-10:00 p.m., 3 credit hours, Susan Simmons instructor, class will meet for four hours each week for 11 weeks.

At Barney Hill Community Center: Flower Arrangement (ART 137) June 6, 6:30-8:30 p.m., 1 credit hour, Eloise Crissman instructor, class will for 2 hours each Monday for 11 weeks.

Surry College Plans Sewing Class

Surry Community College will sponsor a Custom Sewing Class beginning Thursday morning, June 23, in Room C-104 on the college campus. The class will meet each Thursday morning through September 1, 1988 from 8 a.m. until 12 noon.

Mrs. Lydia Taylor will be the instructor. A registration fee will be charged.

For more information, you may call the college at 386-8121, extension 234.

Archeology Field School Offered By SCC

SILOAM—A three-week Archeology Field School is being offered by Surry Community College in conjunction with a Wake Forest University Summer Field School dig at the Hardy Site here beginning Tuesday.

The course (ANT 101 — An Introduction to Anthropology) is designed to provide a localized opportunity to learn the value of archeology in understanding local and regional history with a hands-on, scientific study of the excavation process.

A temporary lab has been set up at the site along the Yadkin River, where excavations have been held since 1986 and yielded much information on the Indian communities of the Great Bend area of the Yadkin River basin from A.D. 1200-1500.

The WFU Summer Field School has been under the direction of Dr. J. Ned Woodall of Winston-Salem, chairman of the WFU Department of Anthropology.

Woodall and students from Wake Forest and other schools around the country have uncovered pottery, arrowheads, jewelry, tools, a burial ground with human skeletons, the remains of a house, and trash pits full of a number of other artifacts in recent summers.

The course will meet three hours per day from Tuesday to Friday (either 8-11 a.m. or 11:30 a.m.-2:30 p.m.) beginning Tuesday and ending Thursday, June 30. It carries three hours of college credit and 3.1 teacher renewal credits.

The registration fee is \$18.75 and participation is limited to 10 people. Interested persons must pre-register by calling the SCC Continuing Education Division at 386-8121.

Gary C. Tilley

Advanced degree earned by Gary Tilley

Gary C. Tilley of Pilot Mountain was awarded the Doctor of Education (Ed.D.) degree at commencement exercises, Sunday, May 15, at the University of North Carolina at Greensboro.

Dr. Tilley is a 1965 graduate of East Surry High School and holds undergraduate degrees from both Surry Community College and the University of North Carolina at Chapel Hill. He obtained a master's degree in economics from South Dakota State University prior to doctoral study at UNC-G. He has taught business administration and economics at Surry Community College for several years.

An active member and lay leader of the Church of Jesus Christ of Latter Day Saints (Mormon) in Pilot Mountain, Dr. Tilley resides in Pilot Mountain with his wife, Connie, and five children. He is the son of Mr. and Mrs. Vance C. Tilley of Mt. Airy.

SCC Getting Aviation Class Off The Ground

DOBSON—Surry Community College is offering people a chance to reach "new heights" of education.

Beginning next Tuesday, SCC will offer a 33-hour Aviation Ground School course covering topics including Introduction to the Airplane, Airports and Air Traffic Control, Meteorology and Federal Aviation Regulations.

The class will meet every Tuesday and Thursday night through July 26 (excluding the week of July 4) in Room L-202 on the college campus.

There will be a \$15 registration fee and, for those who wish to purchase a ground school kit, an additional \$86 charge.

Interested persons should plan to be present for registration and the first class meeting Tuesday.

SCC to offer flower arranging course at school

Surry Community College will offer a flower arranging course at Elkin High School beginning Tuesday, June 7 at 7 p.m. Registration and the first class meeting will be held that night.

Students will be instructed in arranging a variety of flowers, including flowers from summer gardens. Students will be free to bring flowers they wish to use in creating various designs. Eloise Crissman will be the instructor for the course. The registration fee will be \$6.25. Adults age 65 and older may register for college courses free of charge. Interested persons should plan to attend the first class meeting. For further information, you may contact the Continuing Education Division at 386-8121.

Five Locals Graduate in Nursing at SCC

Graduating nursing students of Surry Community College held their 16th annual pinning exercise Saturday evening, May 28 at the First Baptist Church in Mount Airy.

The 20 graduates had received their Associate in Applied Science Degrees Friday evening during graduation exercises on the college campus.

Each of the SCC graduate nurses is employed in area health care agencies in North Carolina and Virginia. Included in this year's graduates are nine Licensed Practical Nurses who, while employed, attended classes at night and on weekends to pursue this degree. Following are the names of graduates, hometowns and places of employment.

Cynthia Ireland, Hamptonville; employed at Hoots Memorial Hospital, Yadkinville.

Martha Vogler, East Bend; employed at N.C. Baptist Hospital, Winston-Salem.

Gail Poplin, Jonesville; employed at Hugh Chatham Memorial Hospital, Elkin.

Darlene Fulcher, Yadkinville; employed at N.C. Baptist Hospital, Terri Dimmette, Elkin, employed at N.C. Baptist Hospital.

June 8, 1988, The Enterprise.

The Tribune, Elkin-Jonesville, N.C., Wednesday, June 8, 1988

SAT course planned

Surry Community College will sponsor a Scholastic Aptitude Test (SAT) preparation course for high school students beginning on Monday, June 13 at 6 p.m. in room R-209 on the college campus. The class will meet each Monday and Thursday evening from 6-8 p.m. for three weeks. Registration fee is \$25.

The primary objective of the course is to help students overcome test anxiety and to sharpen verbal and math skills. The course will include simulated SAT testing in both verbal and math areas. The result, it is hoped, will be higher SAT scores.

For further information, you may contact the Continuing Education Division at 386-8121.

Two Surry students win Elks scholarships

The Tribune, Elkin-Jonesville, N.C., Friday, July 1, 1988

Two Surry County students, Deborah A. Brown of Lowgap, Rt. 1, and Kathleen D. Fowler of Elkin, Rt. 1, have won scholarships from the National Elks Foundation for studies at Surry Community College.

Brown is a graduate of North Surry High School and is the daughter of Mr. and Mrs. Curtis Brown. She was awarded a two-

year scholarship and has enrolled in Surry Community College's Executive Secretarial Program. She is a member of the National Honor Society, Key Club and DIWIKAL Club. She is soloist and assistant pianist at Mount Vernon Baptist Church.

Fowler was awarded a one-year scholarship and has enrolled in Surry Community College's Paralegal Program.

She is the daughter of Mr. and Mrs. Dennis A. Fowler and is a graduate of Surry Central High School where she received the DAR Good Citizens Award; held numerous positions in the Air Force Junior ROTC, including drill team commander, and earning the Commandant's Award; won the American Legion Scholastic Excellence Award; is a member of the National Honor Society; is a VIF

blood donor and was a buddy in the Special Olympics, among other activities.

The two scholarships were awarded through the Mount Airy Elks Lodge.

Roberta Hayes receives academic award

The United States Achievement Academy announced recently that Roberta H. Hayes has been named a Collegiate Scholastic All-American.

The USAA has established the Scholastic All-American Collegiate Award Program in order to offer deserved recognition to superior students who excel in the academic

disciplines. The Scholastic All-American Collegiate Scholars must earn a 3.30 or better grade point average. Only scholars selected by a school official or other qualified sponsor are accepted. These scholars are also eligible for other awards given by the USAA. These are awards few students can ever hope to attain.

Roberta H. Hayes, who attends Surry Community College, was nominated for this National Award by Tony Searcy, counselor. Ms. Hayes will appear in the Scholastic All-American Collegiate Directory, which is published nationally.

Ms. Hayes is the daughter of Mr. and Mrs. Robert C. Handlin. Her grandparents are the late Mr. and

Roberta H. Hayes

Mrs. C.F. Handlin of Geneseo, KS and the late Mr. and Mrs. Joseph Rous of Hollywood, KS.

Courses

A 33-hour course in Teacher Assistant I has been scheduled to begin Thursday, July 7 on the Surry Community College campus in Dobson. The course will meet from 6:30-9:30 p.m. each Thursday for 11 weeks in Room C-102.

The registration fee of \$15 will be collected at the beginning of the first class meeting. Glenda Younger will be the instructor.

For more information, you may call the college at 386-8121.

SCC 25th Anniversary Celebration Will Begin

Surry Community College will launch its 25th anniversary observance Sunday afternoon, August 7, with a public open house and tours of all campus facilities.

The occasion will also mark formal opening of the college's new million-dollar Electronics/Computer/Community Services Building. Faculty and staff members will assist in tours, and many departments will give demonstrations of education activities carried out there.

The open house, to which the public is invited, will be from 2:30 to 5 p.m.

Former Governor Robert Scott and now president of the North Carolina Community College System, will be special guest and make remarks noting the 25th anniversary. Dr. Swanson Richards, SCC president, will welcome guests, and Joe Maye, psychology instructor and chairman of the College's 25th Anniversary Committee, will serve as master of ceremonies.

Entertainment will be provided by several performers, including the SCC Chorus directed by Benny Younger; soprano Beth Gram,

Robert C. Scott

visiting artist; the Pine Ridge Boys and Patsy, including Ernest East, Scotty East, Patsy East, Andy Cahan and Verlin Clifton; and the Piedmont Grass, another "old times" string group including Danny Castevens, Bill Summers, Ted Nixon, John Polk and Tony Riddle.

Refreshments will be served and 25th anniversary mementoes given those attending.

Surry Community College was formally established January 9, 1964. SCC President Swanson Richards said the College chose to begin the celebration early to take advantage of good weather. A number of activities will be scheduled over the next several months and into early 1989.

Brendle Has Mixed Emotions About Leaving A Job That Has Provided So Much Satisfaction

Mt. Airy News 7-7-88

By LOUISE NORMAN
News Staff Writer

Kent Brendle has more than 2,000 high school graduations in his background, but personally attended none of them.

Brendle, an extension coordinator in adult education for Surry Community College, has helped numerous other students as well as General Education Development (GED), or high school-equivalency, graduates. Now, he is retiring from public education, and admits he has mixed emotions about that.

Brendle said during a recent interview that there have been both sad times and victories, and that his greatest satisfaction has been working with the people, "seeing them get through; seeing the folks improve themselves socially, educationally and financially."

The coordinator has worked with adults from the basics of learning how to read on up until they complete the GED program.

At least 2,000 students have received their GED high school diplomas since Brendle, a Boonville resident, began working at the college in 1966 on a part-time basis. He became a full-time staff member in 1970.

His first assignment was to set up a learning center at Boonville. He came to Mount Airy in 1976.

The retiree recalled several examples of students who have furthered their education under his leadership:

"One individual was receiving VA (Veterans Administration) benefits to further his education. Each time he would get a VA check, he would use it to buy lumber and building materials. By the time he got through high school, he had completely remodeled his house."

Another story involves a sad ending.

"We had a young man that when he was in school one day, his nose started bleeding. He went over to the emergency room and spent the night there. The next day he went to the Baptist Hospital (in Winston-Salem) and stayed two months," Brendle recalled.

"He came by on his way back home to let me know where he had been. He was diagnosed as having leukemia, but he was in very good spirits and continued to come back to school. Then, the next time he had to the hospital, he died. He never did get his GED. He was 21 years old."

One of the victories that stands out in Brendle's memories concerns a lady who couldn't read or write when she first came to the Mount Airy learning center.

"She wouldn't even have known her own name if she saw it written down. She worked in a furniture factory, and her mother would always take her check to the bank for her. So, when she got to the place she could write and read a little bit, I thought she was going to sign her check the next time she got paid."

"When she came in here on Monday

afternoon," Brendle continued, "I asked her if she had endorsed her check. 'No,' she didn't want anyone to know she could read and write until Sunday — and, of course, we wondered why. She said, 'Well, Sunday was Mother's Day, and I bought her a card. I wrote her name on the outside and my name on the inside and gave it to her — and she cried.'"

Everyone is not capable of getting a diploma, says Brendle, but if those who can't can come in and get their immediate need met, then that's as good for them as a GED certificate would be for other students.

"This lady was in her late 30s or early 40s. She met her needs. She learned to read, she learned to write. She has gotten her driver's license and can read a map and has become mobile since that time," he said.

Brendle's work involves no one particular area, but encompasses the realm of total education. He is his students' only contact with an educational institution.

Those capable of making above the minimum score on their GED tests are capable of going on to handle college work, he pointed out. The GED program has graduated "a good 95 percent" of those tested, Brendle reported.

"We've had folks go to employment situations of minimum wage to \$25,000 a year just simply because of their GED. When an adult decides to go back to school," Brendle con-

(Continued on Page 11A)

THE MOUNT AIRY NEWS 7-7-88

Kent Brendle is leaving a lot of good memories behind as he closes the door on a lengthy career at Surry Community College.

The retiring extension coordinator in adult education for the college has guided a program that has led to more than 2,000 high school graduates, among them, Frances Bryant (pictured here). More details in the story below.

Staff Photo by Judy Dikerson

Kent Brendle

(Continued from Page 10A)

tinued, "then employers know that if they complete a fairly rigid program, they have got something on the ball, that they will stick with it."

"We had one man (whose) company made him manager of one of their subsidiary manufacturing units. As a graduation present for getting his GED, his company sent him and his wife to New York to see the World Series, then immediately after that, they promoted him to a plant manager."

There have been second and third generations to complete the GED program, Brendle related.

"We had one man who had retired, but he was still working part-time. He came in and quit his job — said he just believed he'd go to school. In a few days, he brought his son in and he quit his job, too. They were both in the construction business and they graduated at the same time. The dad was about 64 and the son about 32, and their scores were probably within 10 points of each other."

Every person is different, and a personalized program to meet each student's needs — whether it's the basics of learning to read and write or to get a diploma and go on to finish college — is the main goal, Brendle explained.

"We try our best to treat everybody exactly alike, to have no social or class lines. Everybody is of a single society."

The retiring teacher said he has averaged about 100 students per quarter for many years, and that an estimate of 2,000 GED graduates would be a conservative one.

On the day of the interview, Brendle received a call from the college giving him the GED scores for the last testing day. All those who are involved in various departments at the Mount Airy learning center stood close by in hushed expectation,

then rejoiced together upon learning the results.

"I can't think of but about a half-dozen over the years that couldn't pass it, that had reached their peak; they had done all they could do," he said.

Although Brendle says he will miss his work, he and his wife Pattie, a teacher in Yadkin County, will be retiring together. They plan to go into a free lance-type antique business on a part-time basis, traveling and looking for particular antiques for individuals.

The couple also are planning some antique shows at places like Greensboro and Charlotte.

"We will be doing some general farming at our farm in Yadkin County, and some 'grandson-playing,'" Brendle added with a grin.

The Brendles are members of Boonville Baptist Church. They have three children, Kent Jr. of Boonville; an administrator at Forsyth Health Care in Winston-Salem, where his wife Pam is a nurse; Mike, who lives at home and has an automobile parts business in Boonville; and Patricia "Trish," a personnel secretary for an engineering firm in Winston-Salem. She and her husband, Joey Riddle, have one son, Joseph.

Jones Elected to State Board

Mrs. Eleanor S. Jones

and did further studies at Eastern Michigan University, N.C. Central and Appalachian State University.

After graduation, she taught in the Chapel Hill city Schools and later was teacher and librarian in the J.J. Jones High School. She then served as supervisor of elementary libraries in the Mount Airy City Schools, was librarian at Mount Airy Senior High, and served as librarian at the Martin Memorial School of Nursing.

She presently serves on the Home Health Care Board of Northern Hospital of Surry and the Advisory Board of the Surry Nursing Homes. She has also served on the Mount Airy Parks and Recreation Commission, Reeves Community Center Board, Surry Arts Council and Girl Scout Council.

Mrs. Eleanor S. Jones, member of the Surry Community College Board of Trustees, has been elected to the executive committee of the North Carolina Association of Community College Trustees. She has served on the SCC Board since November 1983.

Mrs. Jones, who taught public school and directed library facilities in Mount Airy Schools for more than 30 years prior to her retirement, also serves on a number of other boards in the county.

A native of Chapel Hill, she is a graduate of Palmer Memorial Institute, Hampton University and Winston Salem State University,

SCC Awards Scholarships to Area Students

August 3, 1988, The Enterprise,

The Surry Community College Foundation has awarded eight scholarships of \$250 each to academically outstanding students in the 1988 graduating class, including four persons who received their high school equivalency (GED) diploma through SCC's adult education program.

Winners from high school graduating classes include Andrew Lyle, son of Mrs. Alice Cheek of Mount Airy and graduate of Mount Airy High school; Carla Shepherd, daughter of Mr. and Mrs. Carlyle Shepherd of Dobson and Margaret Smith, daughter of Mr. and Mrs. Billy C. Smith of Dobson, both graduates of Surry Central; and Kathleen Fowler, daughter of Mr. and Mrs. Dennis A. Fowler of Rt. 1, Elkin and graduate of Elkin High.

GED graduates who led their classes academically include Ms. Lisa M. Ward of Haystack Road, Mount Airy; Ms. Carolyn P. Vernon, Rt. 1, Pilot Mountain; Ms. Lena H. Bruner, Sheep Farm Road, Mount Airy; and David G. Kingston, Rt. 3, Elkin.

These are the first scholarships awarded in the Foundation's new program to give special recognition to high school graduates with exceptional academic records. High schools in Surry and Yadkin counties of North Carolina, and Patrick and Carroll counties, Virginia, are considered in selecting scholarship winners.

Robert Scott To Speak At SCC Observance

News Staff Report
DOBSON—Surry Community College will launch its 25th anniversary observance Sunday afternoon, Aug. 7.

Featured will be an open house, tours of all campus facilities, food, entertainment and an address by former Gov. Robert Scott, president of the N.C. Community College System.

The occasion, set for 2:30 to 5 p.m., also will mark the official opening of

Scott

SCC's new million-dollar Electronics, Computer and Community Services Building.

The public is invited to the open house and campus tours by faculty and staff members. Many college departments also will give demonstrations of their respective educational endeavors.

Scott will be special guest for the event and is to make remarks relevant to the occasion.

SCC President Dr. Swanson Richards will welcome guests, while Joe Maye, psychology instructor and chairman of the college's 25th Anniversary Committee, is to serve as master of ceremonies.

(Continued on Page 5A)

(Continued from Page 1A)

Refreshments will be provided and mementos given to those attending. Musical entertainment will be provided by the SCC Chorus, directed by Benny Younger; SCC visiting artist, soprano Beth Cram; and old-time musicians Ernest East and the Pine Ridge Boys and Patsy, and the Piedmont Grass, another old-time string group.

SCC was formally established Jan. 9, 1964.

Richards explained that the college will begin its celebration early to take advantage of good weather, and he invites all interested to attend.

A variety of other anniversary activities will be held over the next several months and into 1989.

SCC Foundation awards 8 scholarships for \$250

The Tribune, Elkin-Jonesville, N.C., Wednesday, August 3, 1988—Elkin, Rt. 1, and graduate of Elkin High School.

GED graduates who led their classes academically include Lisa M. Ward of Haystack Road, Mount Airy; Carolyn P. Vernon of Pilot Mountain, Rt. 1; Lena H. Bruner of Mount Airy; and David G. Kingston of Elkin, Rt. 3.

These are the first scholarships awarded in the foundation's new program to give special recognition to high school graduates with exceptional academic records. High schools in Surry and Yadkin counties of North Carolina, and Patrick and Carroll counties of Virginia, are considered in selecting scholarship winners.

Winners from high school graduating classes include Andrew Lyle, son of Alice Cheek of Mount Airy and graduate of Mount Airy High School; Carla Shepherd, daughter of Mr. and Mrs. Carlyle Shepherd of Dobson and Margaret Smith, daughter of Mr. and Mrs. Billy C. Smith of Dobson, both graduates of Surry Central; and Kathleen Fowler, daughter of Mr.

SCC to observe 25th anniversary

DOBSON — Surry Community College will launch its 25th anniversary observance Sunday afternoon, Aug. 7, with a public open house and tours of all campus facilities.

The occasion will also mark formal opening of the college's new million-dollar Electronics/Computer/Community Services Build-

ing. Faculty and staff members will assist in tours, and many departments will give demonstrations of education activities carried out there.

The open house, to which the public is invited, will be from 2:30 to 5 p.m.

Former Gov. Robert Scott and

now president of the North Carolina Community College System, will be special guest and make remarks noting the 25th anniversary. Dr. Swanson Richards, Surry Community College president, will welcome guests, and Joe Maye, psychology instructor and chairman of the college's 25th Anniversary Committee, will serve as master of ceremonies.

Entertainment will be provided by several performers, including the Surry Community College Chorus directed by Benny Younger; soprano Beth Cram, visiting artist; the Pine Ridge Boys and Patsy East, including Ernest East, Scotty East, Patsy East, Andy Cahan and Verlin Clifton; and the Piedmont Grass, another "old timey" string group including Danny Casstevens, Bill Summers, Ted Nixon, John Polk and Tony Riddle.

Surry Community College was formally established Jan. 9, 1964. Surry Community College president Swanson Richards said the college chose to begin the celebration early to take advantage of the good weather.

Letters to the editor

SCC Looks To The Future

Dear Editor:

I appreciated your editorial in the Mount Airy News on Wednesday, August 3, 1988. The faculty, staff, trustees, and others associated with the college are extremely proud of our growth in quality and size over this 25-year period.

As we celebrate the past, we also look to the future, as you indicated, to grander days ahead. We will look with more intensity to the needs of business and industry. There continues to be a widening gap between industry needs and the qualifications of entry-level workers.

Various agencies have predicted the level of training that will be needed in future entry-level jobs. If they are correct, 75 percent of the jobs available will require skills beyond the high school.

Literacy has been in the news for several years as North Carolina continues to be at the bottom of the states in this important area. Opportunities

abound in Surry and Yadkin counties for citizens as classes are located throughout the two-county area. Many day and evening classes could enroll additional students each quarter.

Surry Countians have always wanted to provide opportunities for improvement. A wide range of courses are offered from learning to read and write to completion of two years of college education.

I want to encourage our citizens to take advantage of the dream that was discussed in 1960 and became a reality in 1964. Come and join us at SCC and become better prepared for days and years ahead. I, too, look forward to the next 25 years.

Very truly yours,
Swanson Richards, President

Hundreds join SCC in celebrating '25 Years of Excellence'

By BEVERLY BROCK
Staff Reporter

DOBSON — Surry Community College opened its 25th school year with a bang when it celebrated its anniversary here Sunday.

The day featured exhibits and demonstrations by many of its departments, including vocational, continuing education and college preparatory departments. Department tours were given, and video tapes on campus life alumni discussion were also provided.

It also gave the school a chance to dedicate and show off its new Electronics/Computer Science/Community Services building completed earlier this year, Dick Byrd, director of communications, said. It will house the school's new business center, recently approved by the state.

Byrd said the actual birthday of the school is January 9, but it was decided to get the celebration off early for the school year. He said the all-day event was a real success, with between 800 and 900 people in attendance. These folks came from a variety of areas including alumni, young families and community and civic leaders.

Byrd said he was pleased to see the number of young families at the occasion, saying a special effort was made to get them there with a day care

Please turn to page 3

was provided to keep young children.

Guest speaker was Robert W. Scott, president of the state Department of Community Colleges. The North Carolina system is the third largest in the nation, and Surry boasts students ranging in age from 16 to 84 years.

This, however, is not the end of the celebrating, Byrd said, explaining there are numerous activities planned throughout the school year. The next biggest event is a golf tournament on August 25 as a fund raiser for the school's foundation. The foundation provides money for scholarships.

Surry Community College President Swanson Richards addresses a group at the college's 25th anniversary celebration Sunday.

McHone, Mosely, Snow Double Winners In SCC Tennis Play

DOBSON — Mike McHone, Janet Mosely and Ron Snow dominated their respective events during play in the second annual Surry Community College Foundation Tennis Tournament Sunday. The four-day tournament, held at the SCC courts, had over 80 participants vying for championships in 18 divisions.

McHone defeated Drew Walker 7-6, 6-2 for the men's singles championship, then teamed with Walker to take the men's doubles final against Henry Vuurmans and Mike Quisenberry 6-4, 6-2.

Mosely won the women's singles title by downing Keri Whitehead 6-0, 6-3, and along with Junior Luffman, won the mixed "A" doubles 6-3, 6-2 over Mike Chappell and Sandy Murfin.

Snow topped Jerry Marshall 6-1, 7-5 to win the men's 35 singles and picked up another title when he and Tony Forrest beat Marshall and Sherrill Fowler 7-5, 6-4 defeat in the 35 doubles final.

In men's "B" singles play, Tommy Branch downed Patrick Hanks 6-4, 6-3, while the men's "B" doubles title was taken by Drew and Sam Walker who defeated Danny Draughn and Tim Parks in three sets, 3-6, 6-2, 6-1. The mixed "B" doubles championship was won by Rita Hiatt and Harry Taylor, 6-4, 6-2 over Cheryl Snow and Henry Burris.

In boys' 18 singles play, James Banner beat Adam Mason 6-4, 7-5, but in the boys' 18 doubles Muson and Ben Taylor edged Banner and Derek Slate 6-2, 3-6, 6-3. Keri Whitehead defeated Albiston Yokley 6-1, 6-3 in girls' 18 singles final, and Amy and Mendi Coe rolled over Ashley Hunter and Christie Bales 6-3, 6-1 for the girls' 18 doubles title. In the girls' 14 singles final, Charlotte Yokley whipped Holly

(Continued on Page 7A)

Steelman 6-3, 6-1 and in the boys' 14 singles final Slate was a 6-2, 6-1 winner over Josh Taylor. The boys' 14 doubles title was won by Dwayne Maltis and Jason Shore, 7-6, 5-7, 7-5 winners over Taylor and Luke Graham. In women's doubles play, Sheila

Charlotte Yokley, left, won the girls' 14 singles, while James Banner, right, was the boys' 18 singles champ in the SCC Foundation tennis tournament.

The Mount Airy News

Tuesday, August 16,

Janet Mosely, shown stretching for a shot in semifinal play, won the women's singles championship. She also teamed with Junior Luffman for a win in mixed "A" doubles.

Royall and Sandy Martin came from behind to down Rita Hiatt and Joyce Greenwood 1-6, 6-2, 6-2 in the title match, while Harry Taylor and Troy Hodges staged a comeback of their own to defeat Sam Walker and Joe Keys 1-6, 6-1, 6-1 in the men's 50-and-over final.

Professor Conrad Holcomb proudly displays a shirt from the old city of Jerusalem that he bargained down to 85 shekels (about \$35) for, and on his desk is a portrait of King "Tut" that was hand-painted on papyrus.

Holcomb shares some of his experiences in the Holy Land in the story below.

The Mount Airy News

Thursday, August 11, 1988

A Recent Visit To The Holy Land Gives SCC Professor Something To Share With Students

By KATHY KELLER
News Staff Writer

DOBSON—To many, the pyramids of the pharaohs, the holy city of Jerusalem and the Dead Sea are sights seen only in photographs. Those sights became reality recently for a Surry Community College professor who visited Egypt and Israel for six weeks.

Conrad C. Holcomb Jr., chairman of SCC's social sciences division, along with 14 other college educators in North Carolina, spent three weeks in each country in a study program under a Fulbright grant.

"We flew to Cairo on June 12, and flew back from Tel Aviv July 26," he recalled in an interview Tuesday.

"Taking the trip as a whole, our main headquarters were in Cairo and Jerusalem. We attended about 45 lectures and each lasted about 1½ hours. Most of the lectures were delivered by professors of the American University in Cairo and the Hebrew University in Jerusalem."

"From Cairo, we traveled to the south, which the Egyptians call 'Upper Egypt,' to Atwan, where the High Dam is located," Holcomb continued. "Also in the south, we went to Abu Simbel. We were at Luxor, and near Luxor is where the Valley of the Kings and the Valley of the Queens is located—and, of course, the great temples of Karnak and Luxor are located in Luxor."

"We went to the Suez Canal, and also to Fayum Depression—a vast oasis not too far from Cairo," the professor said. "On our way to Israel, we passed through the Sinai Peninsula and spent the night near St. Catherine's Monastery."

"The day we arrived there, we climbed to the top of Mount Sinai. That certainly was one of the highlights of the trip for me. Supposedly, Mount Sinai is where Moses received the Ten Commandments. I'm not as young as I used to be, and the climb was demanding physically. It took 2½ hours to go up on this path that was not well-defined, and about 1½ hours to come back down," Holcomb added.

He noted that the famed mount was not what he had imagined from the stories read in the Bible as a youth raised in the Methodist church.

"At St. Catherine's Monastery, they do have a bush which the monks say was the burning bush which God spoke to Moses through," Holcomb stated, adding he was not sure about its authenticity.

The local educator also had the chance to swim in the Dead Sea at Masada in Israel. "It was impossible to sink there—it was so salty that one would float, and there were certainly no fish. The water was also very hot."

In addition, the North Carolina contingent toured Jericho, "the oldest excavated town known to man," according to Holcomb, and saw the Sea of Galilee.

While in Bethlehem, Holcomb went to the Church of the Nativity. "It is built over the spot that many Christians believe was the place of the birth of Jesus Christ. The church was a beautiful church," he related.

Another famous city became a favorite of Holcomb—"I was in Europe in 1974 for almost four months and I thought that Rome was the greatest city that I had ever been in. But, I really loved Jerusalem—especially the

old, walled city of Jerusalem. It is so different from anything we in this country see. It has very narrow streets, shops lining the streets and merchants trying to get you to come into their shops."

"To Jews, it's the holiest city in the world, and I suspect most Christians would regard it the holiest city of Christianity, and certainly Moslems regard it as one of their holiest cities," Holcomb said.

"The most impressive structure I saw during the entire trip, if you leave out the pyramids, was the Dome of the Rock and the El Aqsa Mosque. Both of those are located on Temple Mount."

"Of course," the professor explained, "both are Moslem structures, but Temple Mount is also a very special place for Jews, for both the first and second temples were located there—the temple built by Solomon, and the temple built following the Babylonian Captivity."

Holcomb said there are some interesting stories associated with the Dome of the Rock: "Inside (the gold-domed building), one finds a very large rock. According to tradition, this is the rock on which Abraham was going to sacrifice Isaac. The Moslems believe that the spirit of Mohammed made a nocturnal trip to heaven (from the site)."

"Not too far from Temple Mount is the Wailing Wall—a remnant of the wall of the second temple destroyed by Romans in 70 A.D.," he continued. "You see Jews there praying—people write out their prayers on a piece of paper and put it in the crevices of the wall."

(Continued on Page 9A)

"I suppose to Christian pilgrims, the principle site in Jerusalem is the Church of the Holy Sepulcher. Many Christians believe the church was built over the spot where Jesus Christ was crucified and entombed."

Poverty And Political Strife Are Evident

"When we got into Cairo on June 13, one thing that hit me hard was the poverty. Another thing is there is a good deal of tension in old Jerusalem. There are many Arabs who have no desire to be under Israeli rule," Holcomb related.

"We did go to Bethlehem, but our initial plan to go to Bethlehem was cancelled because there was a substantial amount of turmoil in the area."

Additional evidence of the political upheaval surfaced while the group was in Israel. An Arab teen-ager was killed not too far from the Damascus gate.

"Most of the overwhelming majority of the Arabs who live on the West Bank have no desire to be under Israeli rule," Holcomb reiterated.

In contrast, he said there is almost no violent crime in Egypt. "In Cairo, there is usually only one reported murder a year."

The professor said that although there are many examples of modern culture evident in both countries, it was easy to be absorbed into the history of each.

Although he was there to learn more about the area from a historical perspective, the SCC faculty member said he could visualize the area as it was in Biblical times, and seeing the sights had an effect on him.

Holcomb noted that he plans to infuse all the knowledge about the history and people of the two coun-

tries, along with the hundreds of pictures that he took, into his teachings.

In that way, students at Surry Community College stand to get a better idea about the cultures of Israel and Egypt than if they simply read about the countries in black and white.

In Education

Glenda Parker of Mount Airy has won a two-year teaching scholarship from Teaching Fellows of North Carolina.

GLENDIA PARKER

Mrs. Parker recently graduated with honors at Surry Community College and was one of several finalists competing from across the state for the scholarship.

She has been active in community service activities, including work with Girl and Boy Scouts, the American

Red Cross, and at Franklin Elementary School.

She is a native of Mount Airy and a graduate of North Surry High School. She and her husband, Larry, have two children.

Three Surry County high school graduates have won \$800 scholarships for study at Surry Community College.

Stephanie Watts, daughter of Carolyn Watts of Mount Airy, is a graduate of North Surry High School.

Jane Johnson, daughter of Mr. and Mrs. W. Kirk Johnson of Elkin, is a graduate of Surry Central High School.

Sheryl Luffman, daughter of N. Vernon Luffman of Elkin, is a graduate of Elkin High School.

LaShene Connie Lowe of Westfield, Rt. 1, received a master's degree from Western Carolina University in graduation ceremonies Aug. 6. She majored in special education for gifted and talented students.

Opening of Computer-Science Center Allows College to Expand Curriculum

By Paul Collins
JOURNAL SURRY COUNTY BUREAU

Rick E. Koehl figures he lost a year at Surry Community College because he had problems scheduling a computer science class he needed.

With the opening of the Computer Sciences-Electronics-Community Service Building at the college, Koehl said he doesn't think that will happen again. With more laboratory space, the college has room to offer the classes at more convenient times.

Betty M. Lowe, 42, of Mount Airy said that the opening of the new building has helped her, too. That's because the college's expanded curriculum enabled her to take more advanced courses.

Koehl said that he needed to take an introductory computer course that was offered only one time in the fall quarter. He said that he couldn't work it into his schedule because he had a job. When he had time in the winter quarter, he couldn't take the higher level computer course he needed because he hadn't taken the introductory course.

He might have gone to another community college to take the course that he needed, but Koehl said that he and his wife, Pat, have only one car and that they couldn't afford to buy another one.

The problem "kept me as a burger-flipper for a year," said Koehl, 28, of Dobson.

"Without a degree, I'm confined to minimum-wage jobs," he said. "I want to get out of that situation as soon as I can, with a wife and child at home."

They have a 4-year-old son, Robbie.

Both Koehl and his wife work, and he is a part-time student at the college.

"We're just really making it on the skin of our teeth," he said. "I'd like to take my son to see Bambi, but we can't afford to do that."

He said they only have money for the essentials, such as food and rent.

Koehl said he works part time at the college as a lab assistant and he picks up temporary jobs.

He is majoring in computer-science at Surry Community College. He said he is a first-year student and that it may take him up four years to get an associate degree.

Mrs. Lowe, an accountant at Mount Airy Oil Co., is not working on a degree at the college. She already has a four-year degree in economics and business administration.

"I like computers, and I want to keep abreast with new computer information that comes out," she said. "I'll be able to do a lot more in my profession. I'll be able to do it quicker, better and more of it."

For example, she is learning how to enter historical business information into computers. "With years of historical data for sales and profits, I can make a projection as what next year's profits should be," she said.

She plans to use word-processing skills she is learning to send a personalized letter to customers with overdue accounts.

"People don't like to get firm letters. A personal letter to someone makes them pay more attention, and it collects more money."

The new building, which opened in the spring, cost about \$1 million to build and supply with fixtures, landscaping, and a paved a parking lot. Initial equipment for the building cost about \$250,000.

Jan J. Crawford, the college's dean of instruction, has said that the new building increases the amount of lab space for the college's computer-science and electronics programs and puts most of the classes in those departments under one roof.

He said that with more space available, more students would be able to take classes.

Another part of the 15,500-square-foot building is the headquarters for for Surry County's economic development program and for the college's industrial training program that offers specialized training such as how to operate new equipment.

Swanson Richards, the president of the college, said that the General Assembly has provided \$50,000 to set up a small-business training program, which will also be in the building.

He said that training will be provided for people interested in starting small businesses or small businesses already in operation in such things as keeping up with governmental regulations, filing taxes, marketing, sales and budgeting.

Backhands back local college

This weekend over 90 tennis players served their community by playing in the Surry Community College Foundation Tennis Tournament. The players along with the tournament's sponsor, Domino's Pizza, raised over \$1,000 for the school's scholarship fund.

Here are the results from the tournament:

Men's Singles — Mike McHone def. Drew Walker, 7-6, 6-2.
Men's Doubles — Mike McHone-Drew Walker def. Henry Vuurmans-Mark Quesinberry, 6-4, 6-2.
Women's Singles — Janet Moseley def. Keri Whitehead, 6-0, 6-3.
Women's Doubles — Sheila

Royal-Sandy Martin def. Joyce Greenwood-Rita Hant, 1-6, 6-2, 6-2.
Men's "B" Singles — Tommy Branch def. Patrick Hawks, 6-4, 6-3.
Men's "B" Doubles — Drew Walker-Sam Walker def. Danny Draughn-Tim Parks, 3-6, 6-2, 6-1.
Men's 35 Singles — Ron Snow def. Jerry Marshall, 6-1, 7-5.
Men's 35 Doubles — Ron Snow-Tony Forrest def. Jerry Marshall-Sherrill Fowler, 7-5, 6-4.
Men's 50 Doubles — Harry Taylor-Troy Hodges def. Joe Keys-Sam Walker, 1-6, 6-1, 6-1.
Mixed "A" Doubles — Jr. Lufman-Janet Moseley def. Mike Chappell-Sandy Martin, 6-3, 6-2.
Mixed "B" Doubles — Harry Taylor-Rita Hant def. Cheryl Snow-

Henry Burris, 6-4, 6-2.

Boy's 18 Singles — James Banner def. Adam Mason, 6-4, 7-5.

Boy's 18 Doubles — Adam Mason-Ben Taylor def. Derek Slate-James Banner, 6-2, 3-6, 6-1.

Girl's 18 Singles — Keri Whitehead def. Allyson Yokley, 6-1, 6-3.

Girl's 18 Doubles — Amy Coe-Mandi Coe def. Christy Boles-Ashley Hunter, 6-3, 6-1.

Girl's 14 Singles — Charlotte Yokley def. Holly Steelman, 6-1, 6-0.

Boy's 14 Singles — Derek Slate def. Josh Taylor, 6-2, 6-1.

Boy's 14 Doubles — Jason Shore-Dwayne Maltais def. Josh Taylor-Luke Graham, 7-6, 5-7, 7-5.

The Tribune, Elkin-Jonesville, N.C., Friday, August 19, 1988 -

Surry Community College Quality Education

*Sometimes The Grass Is Greener —
— Right Here At Home!*

For Kristie Parker of Yadkinville the lure of going away to college was outweighed by her common-sense approach to her future. "I knew early in high school that I would pursue a bachelor's degree, but I was uncertain about a major. Enrolling in the College Transfer Program at Surry Community College seemed like a good way to move into the academic world and to make some decisions about my future."

Kristie goes on to say that she was positively impressed by Surry Community College from the very beginning. "The counselors and instructors greeted me with a smile and were genuinely interested in me and my education during the two years I studied there. My courses were challenging, and the credits transferred easily to UNC-Charlotte where I will enroll in the fall to study Business Administration. Surry Community was a great place for me to mature, to make definite career plans, and to complete my freshman and sophomore years of study — all at a fraction of the cost of attending many colleges!"

The cost of tuition and fees at Surry Community College is \$81 per quarter (\$243 per academic year) as compared to approximately \$800 per year at a state-supported university (This does not include room, board and additional fees). A student can complete the first two years of a four-year program of study and transfer to any state-supported or private senior college or university in North Carolina.

Below is an example of Surry Community College courses and their equivalents at several universities:

Monday, August 29, 1988

Registration At Community College To Begin Thursday

DOBSON—Registration for fall quarter classes will be held at Surry Community College Thursday beginning at 8:30 a.m.

College officials predict that enrollment should equal enrollment for the spring quarter, which was 2,500 in college parallel courses and

3,000 in vocational and technical programs.

The first day of classes is Tuesday, Sept. 6. This includes on-campus studies in Dobson as well as various continuing education classes in 20 other locations in Surry and Yadkin counties. Most classes in the evening program will also begin on that date.

City Schools, SCC, Offering Series Of Classes

Mount Airy schools and Surry Community College will offer a series of classes, beginning in September, at city school facilities.

Registration will be held the first night of each course and there is no charge for those 65 or older.

The classes include Beginning Physical Fitness, which starts Thursday, Tennis, beginning Sept. 6; and two sections of Basic Computers along with a Men's Basketball class, all starting Sept. 12.

More information on class times and fees is available from Thurmond Carter, community-schools coordinator for city schools, at 786-8355.

— The Tribune, Elkin-Jonesville, N.C., Monday, August 29, 1988

Needlepoint classes open

DOBSON — Surry Community College will offer the following needlework and sewing classes for the fall quarter.

Local classes include: Crochet, college campus, Room C-103, Sept. 7, 12:30-3:30, \$25; Creative Quilting, college campus, Room C-104, Sept. 1, 6:30-9:30, \$25; Custom

Sewing, college campus, Room C-104, Sept. 15, 9-12, \$25; Drapery Making, college campus, Room C-104, Sept. 12, \$25; Sewing, college campus, Room C-104, Sept. 6, 9-12, \$25; Sewing, college campus, Room C-104, Sept. 6, 12:30-3:30, \$25; and Quilting, Elkin High School, Sept. 1, 6:30-9:30, \$25.

Sweet music

Gail Ashburn, a music teacher at Surry Community College, plays "Sweet Low Sweet Chariot" on her Autoharp for Susan Freeman and other residents of

the Hugh Chatham Nursing Center Thursday afternoon. This is a weekly trip for Ashburn who plays a list of hymns and mountain songs at the residents' request.

SURRY COMMUNITY COLLEGE EVENING DIVISION FALL QUARTER, 1988-89

REGISTRATION: Thursday, September 1, from 6:00-8:00 p.m. at the college in the Administration Building

Classes Begin September 5

SCC grants 289 high school equivalency degrees

DOBSON — During the 1987-88 school year, Surry Community College graduated the largest class ever in its GED (high school equivalency) program.

A total of 289 graduates received GED certificates indicating that they met all requirements for high school diplomas.

The SCC class represents 22 percent of all high school diplomas issued in the Surry-Yadkin County service area last school year.

A survey of GED graduates revealed that 85 percent plan to continue their education past high school.

Judy Riggs, director of basic education for SCC, notes that "the success of our programs is due in large part to the partnerships established to make GED

classes readily available throughout the two counties. Local industries, public schools and community centers have provided locations for classes. Industries participating include Adams-Miller, Brown Wooten Mills, Chatham Manufacturing, Kentucky Derby Hosiery, Carolina Designs, Lydall, Inc., Renfro Corporation, Unifi, and Wayne Poultry.

"Public school sites include East Surry, North Surry and Elkin high schools, and Flat Rock, Lowgap, Shoals, Westfield and Yadkinville elementary schools. The Madoc Center in Mount Airy is also a GED class site."

Riggs also credited several agencies with support in making the program successful—Surry County Health Department,

Employment Security Commission, Department of Social Services, Ministerial Association, Surry-Yadkin Mental Health and the court system.

New GED classes begin Sept. 1 in the various two-county locations. Information on registration is available at the college, telephone 386-8121.

The Tribune, Elkin-Jonesville, N.C., Wednesday, September 7, 1988

SCC offers Yadkin classes

The Continuing Education Division of Surry Community College and the Yadkin County Community Schools will offer the following classes:

At Yadkinville Elementary School, advanced painting (acrylic), Sept. 12, 6:30-9:30 p.m., 33 hours; and beginning painting (acrylic), Sept. 15, 6:30-9:30 p.m., 33 hours.

At West Yadkin Elementary School, painting (acrylic), Sept. 13, 6:30-9:30 p.m., 33 hours. Three classes will be taught by Becky Fowler and will meet each week for 11 weeks.

A registration fee will be charged. For anyone 65 years of age or older there is no charge. For more information on these or other classes in Yadkin County, you may call 367-7562.

THE PILOT, SEPTEMBER 14, 1988, PAGE 7

Course in local history will be taught at the college

Surry Community College will sponsor a Local History course beginning Wednesday, September 14 at 1 p.m. in Room T-103 on the college campus. The course carries 3 hours of college credit and will meet for 10 weeks.

The course will cover topics including the Indians, our earliest inhabitants; formation of North Carolina and Surry County; locations of county seats; architectural styles; the Revolutionary and Civil Wars; interesting Surry characters, plus tours of outstanding Surry County sites.

The cost of the course is \$18.75 and the instructor will be Marion

Venable. Interested persons may call the college for further information at 386-8121, Ext. 269.

SCC Sets Dates For Programs, New Retailing Class

News Staff Report
DOBSON—Surry Community College here has announced several programs and/or classes that will start soon.

They range from an effort to prepare students for one of the most important tests they will ever take, to a class in retail fashion, to a test for helping participants determine their aptitude for engineering studies.

SAT Program Begins Sept. 6

SCC will repeat a successful program held last fall to help prepare students to take Scholastic Aptitude (SAT) tests, which are needed to gain entry to most colleges.

Simulated conditions will be used in giving participants sample SAT tests in verbal and mathematics skills during the program, to be held in both Surry and Yadkin counties.

A primary objective of the course is to help students overcome test anxiety and achieve higher scores.

Verbal sessions will include vocabulary, antonyms, analogies, etymology, reading comprehension and sentence completion. Mathematics is to include basic math, algebra, geometry, quantitative comparisons and other exercises.

Classes will be held in Surry at the college campus beginning Sept. 6, when final registration is scheduled. They will meet from 6:30 to 9 p.m. on Tuesdays and Thursdays.

The cost of the course is \$25. Contacts should be made with SCC Student Services at 386-8121.

Fashions Class Registration Is Thursday

Fashions in Retailing, a class designed to teach students to anticipate markets and become more effective retailers, will be taught at Surry Community College during the fall quarter.

Registration for the course is Thursday.

It will meet first on Wednesday, Sept. 7, from 7 to 9:50 p.m., and each Wednesday through Nov. 16.

Tuition for Fashions in Retailing, which Nancy Cox will instruct, is \$18.75.

Registration assistance is available by calling 386-8121.

National Aptitude Search Test Coming In October

Another effort planned by SCC is the National Engineering Aptitude Search test, to be offered in October. It will help students determine their capability for engineering studies before entering or choosing a college.

The search is a joint project of the college and the Junior Engineering

Technical Society (JETS).

Studies have shown that the National Engineering Aptitude Search test is a direct predictor of four-year college grade point averages. The examination battery used in the program was developed by the American College Testing Program, covering in a three-hour test period mathematical understanding, science reading and problem solving, an interest inventory, an out-of-class accomplishment scale and a biographic questionnaire.

The test will be given at SCC from 9 a.m. to noon Oct. 29, according to John Brame, the school's director of testing.

"We're happy to be a participant in this testing program," stated Brame. "Faculty of our pre-engineering division, recognized as one of the more outstanding in the North Carolina community college system, will be interested in seeing how local students perform. We anticipate that many will end up taking pre-engineering courses at SCC."

Students must register by Sept. 23 to take the October test. A required \$15 fee should be mailed with registration forms. The charge also will cover the JETS report newsletter and guidance materials mailed to students throughout the year.

In September, high school guidance counselors will receive information about the test. Students should see their guidance counselors about registration.

There are separate versions of the test for younger (ninth- and 10th-

grade) and older (11th- and 12th-grade) participants.

A comprehensive score report and interpretive guide is to be mailed to each student's home, containing information to help parents, teachers and counselors evaluate the student's aptitude for a career in engineering, science, mathematics or technology.

SCC offers course to help train for taking the SAT

DOBSON — Surry Community College will repeat a successful program held last fall to help prepare students to take Scholastic Aptitude (SAT) tests.

Simulated conditions will be used to give participants sample SAT tests in verbal and mathematics skills.

A primary objective of the course is to help them overcome test anxiety and to help them achieve higher scores.

Verbal sessions will include vocabulary, antonyms, analogies, etymology, reading comprehension and sentence completion.

Mathematics will include basic math, algebra, geometry, quantitative comparisons and other exercises.

The classes will be held in both Surry and Yadkin counties, those for Surry to be held at the college and those for Yadkin at Yadkinville Elementary School.

The course begins in Surry County on Sept. 6 and in Yadkin County on Sept. 8. Final registration

Registration for day care training slated

Surry Community College invites you to participate in the upcoming day care training sessions. Registration and the first session will be held on Monday, Sept. 26 at 6:30 p.m. in the teaching auditorium on the college campus. The training will continue on Oct. 3, 10 and 24. Registration fee for the 12 hours of training will be \$15. The sessions will cover the following topics: infant care, legal issues of day care, music for the pre-school child, puppetry, playground activity planning, basic nutrition, parent-child relations and stimulating the mentally handicapped.

Interested persons should pre-register before Sept. 15 by calling Marion Venable at 386-8121, extension 269.

SCC offers real estate course

DOBSON — A 33-hour course in real estate finance will be taught at Surry Community College, beginning Tuesday night, Sept. 6. The class will meet from 6:30-9:30 p.m. in Room L-205 each Tuesday night through Nov. 15.

Shirley Wilson will be the instructor. A \$15 registration fee will be charged.

For credit toward the Real Estate Broker's License, the fundamentals of real estate class will be a prerequisite.

For more information or to pre-register, you may call the college at 386-8181.

Dr. Southern in Louisiana State Laboratory

"An Extremely Valuable Experience"

When Lee Southern grew up in Surry County and graduated from North Surry High School in 1973 he, like many young people, was looking for proper direction in his life.

Surry Community College served as the first link in that road to success.

Now Dr. L. Lee Southern, Associate Professor in Animal Science at Louisiana State University, he recalls the Surry Community College days as "an extremely valuable experience."

From SCC he went to N.C. State University, earning both BS and MS in animal science; his PhD followed at the University of Illinois. In 1982 he was named Assistant Professor in Animal Science at Louisiana State. He became Associate Professor in 1987.

In addition to other honors, he won the 1987 LSU Phi Kappa Phi Award for Outstanding Research by Non-Tenured Faculty; he has worked extensively in international animal science, serving as project leader in a short course in wine production from Belize, Central America; and has served as advisor to the Chinese delegation preparing an Agricultural Curriculum.

He says of SCC: "It was an extremely valuable experience. It allowed me to continue my education that otherwise may have ended at high school, or at least have been delayed for some time. Just as important, if not more so, was the fact that Surry Community College allowed me to mature for two years prior to leaving home and entering North Carolina State. This social preparation was probably just as important as the academic preparation."

"Academically, Surry Community College prepared me for further studies at N.C. State and the University of Illinois. Upon transferring from SCC, I was as competitive as students that had transferred from other schools as well as students that had attended North Carolina State for the previous two years."

"Of less magnitude now, but of considerable importance at the time, was the low cost of attending SCC — a real educational bargain!"

SCC still offers the opportunity — and bargain — that helped Dr. Southern along his career path. Try it. Call 386-8121. Come by the College, or write to Box 304, Dobson, NC 27017.

SURRY COMMUNITY COLLEGE

1964-89 CELEBRATING 25 YEARS OF EXCELLENCE

September 7, 1988, The Enterprise,

SCC Plans Engineering Test for October

Surry Community College will offer the National Engineering Aptitude Search test October 29, to help students determine their aptitude for engineering studies prior to entering or choosing a college.

The Search is a joint project of the College and the Junior Engineering Technical Society (JETS).

Studies have shown that the NEAS is a direct predictor of four-year college grade point average (GPA). The examination battery used in the program was developed by the American College Testing Program, covering in a three-hour test period mathematical understanding, science reading and problem solving, interest inventory, out-of-class accomplishment scale and biographic questionnaire.

The test will be given at the College from 9 a.m. to noon on October 29, according to John Brame, Director of Testing at SCC. Brame said, "We're happy to be a participant in this testing program. Faculty of our pre-engineering division, recognized as one of the more outstanding in the North Carolina community college system, will be interested in seeing how local students perform. We anticipate that many will end up taking pre-engineering courses at SCC."

Students must register by September 23 in order to take the October 29 test. A fee is charged,

and the fee should be mailed with the registration form. The fee also includes the JETS Report newsletter and guidance materials mailed to students throughout the year.

In September, high school guidance counselors will receive information about the test. Students should see their guidance counselor about registration.

There are separate versions of the test for younger (9th and 10th grade) and older (11th and 12th grade) students. A comprehensive score report and interpretive guide will be mailed directly to each student's home, containing information to help parents, teachers and counselors evaluate the student's aptitude for a career in engineering, science, mathematics or technology.

■ Beth Cram, visiting artist at Surry Community College, will continue that role for a second year. She is now developing plans for the new season.

Her musical talents are available to public groups at no charge by calling Surry Community College, 386-8121.

One project of the Abilene, Tex. native is an opera for children. She reports that school children in Surry and Yadkin counties have composed some of her most prized audiences.

Zoo topic of SCC program

DOBSON — It has the largest land area of any facility of its kind; it is the first in the world planned around a natural habitat; it has hosted six million visitors; and it is providing vital research information that could help ensure the survival of many endangered species of animals.

This is part of the North Carolina Zoological Park story. These and other facts will be outlined Thursday night, Sept. 15 at Surry Community College, when Rod Hackney, the zoo's public relations coordinator, will speak at a public meeting scheduled for 7:30 p.m.

The zoo (near Asheboro) is now adding its second exhibit region devoted to North American animals. Hackney will make the point that the zoo has made a transition from just a visit-and-look facility to one where serious animal research is also going on, with emphasis on conservation of endangered species.

Hackney will use commentary and audio/visuals to tell the N.C. Zoological Park story. Earlier in the day he will visit compensatory education classes at Crossroads and share with clients there some of the same insights into the zoo.

The evening program at the college on Sept. 15 will be of special interest to school children, and the public is invited to attend at no charge.

Hackney is a Tar Heel native (Chatham County). He graduated from Sandhills Community College in 1972 and received his bachelor's degree in journalism at the University of North Carolina at Chapel Hill in 1974. He did public information work for the Greater Greensboro United Way, served as a reporter for the *Greensboro News and Record* and joined the zoo in 1987. He is host for several TV programs about the zoo.

The Tribune, Elkin-Jonesville, N.C., Wednesday, September 28, 1988

SCC to sponsor forum series

Surry Community College, the Surry County Constitution Bicentennial Committee and the North Carolina Humanities Council will sponsor a four-part forum series beginning Oct. 13 on the U.S. Constitution.

The meetings will feature university scholars in history and sociology and will have a timely conclusion on the theme of voting rights guaranteed by the Constitution, this last meeting on Nov. 3, just five days before the presidential election.

Topics and guest lecturers in the humanities series are: Oct. 13, "Values and the Constitution: The 'American Creed' and the Shaping of a Nation," by Dr. Fred Reagan, faculty of the history department at East Carolina University in Greenville; Oct. 20, "Communities and the Constitution," by Dr. David Pratto, sociology department at the University of North Carolina in Greensboro; Oct. 27, "Employment and the Constitution: Economic Liberties in the History of America," by Dr. Gail O'Brien, history department at North Carolina State, Raleigh; and Nov. 3, Dr. Daniel Pollitt, Graham Kenan Professor of Law in the UNC-Chapel Hill Law School, speaking on "Citizenship, the Right to Vote

and the Constitution."

Local panelists are also being selected to participate in the programs, according to Dr. Thurman Hollar, coordinator for the Humanities Series at Surry Community College. Rose Gatens, assistant director of programs for the Humanities Council in Greensboro, is coordinator at the state level.

SCC offers insurance course

The life and health insurance course will begin on Tuesday, Oct. 4 at 6:30 p.m. on the Surry Community College campus in Dobson. The course will meet each Tuesday and Thursday from 6:30-9:30 p.m. and on Saturday from 9 a.m.-noon in Room L207.

A registration fee of \$15 will be charged at the first class meeting. The textbook cost is approximately \$35.

The course is approved by the

community College. Rose Gatens, assistant director of programs for the Humanities Council in Greensboro, is coordinator at the state level.

All of the meetings are free and open to the public.

North Carolina Department of Insurance. Adults who meet attendance and exam requirements will be issued a "Certificate of Preliminary Course Completion." This certificate is required in North Carolina to sit for the state examination.

For more information, you may call the Continuing Education Division of Surry Community College at 386-8121.

"Attending Surry Was The Smart Thing For Me To Do"

MICHAEL GROCE

Communications, with interests reflecting his rural Yadkin County origin, is the career of Michael Groce, a Surry Community College alumnus who now directs marketing for the nation-wide Fertilizer Institute in the nation's capital.

Groce grew up in Hamptonville and was graduated from Starmount High School in 1977. He served as State FFA Officer in 1977-78, and in 1978 he received the American Farmer degree.

He received his AA degree at SCC in 1980 and then transferred to N.C. State University in Raleigh, where he received a degree in education and communications in 1982.

In 1983 he served as information intern with the National Future Farmers of America (FFA) in Alexandria, Va., and later the same year joined the National 4-H Council in Chevy Chase Md., as staff associate.

Two years later he was named consumer affairs research analyst with Potomac Electric Power Company in Washington, D.C., and in 1987 was named Director of Marketing for the National Fertilizer Institute.

While at SCC he was active in the Student Government Association and remembers that as excellent leadership training.

Mike has fond memories of his SCC experience: "For me, Surry provided the perfect transition from high school to a major university. I particularly remember the willingness of the entire staff to offer help and guidance, which helped to prepare me for classes at N.C. State, as well as for the job marketplace. My decision to attend Surry was the smart thing to do."

IT COULD BE THE SMART THING FOR YOU TOO!

Great opportunities exist in college transfer, in vocational and in technical programs at SCC. As with Mike Groce and some 35,000 other SCC alumni, the "SCC Experience" has ensured two years of quality education, close to home, at bargain prices, and with a personal student-faculty relationship that's unbeatable.

Come Visit With Us. Or call 386-8121 for information on all programs. Or write to let us know of your interests (Box 304, Dobson, NC 27017).

SURRY COMMUNITY COLLEGE
1964 - 89 CELEBRATING 25 YEARS OF EXCELLENCE

SCC nursing graduates pass RN examination

DOBSON — Surry Community College nursing graduates again performed well—with 95 percent passing rate—in national examinations given for Registered Nurse status.

The tests were taken by SCC's 1988 graduates over a two-day period in July. Nineteen of the 20 passed the test. All are employed at health-care facilities in this region.

The North Carolina statewide average passing the RN examinations was 85 percent, out of 11,422 students.

Local members of the 1988 SCC graduating class are: Cynthia Ireland of Hamptonville, employed at Hoots Memorial Hospital in

Yadkinville; Sandra Stanley of Elkin, employed at Hoots Memorial Hospital in Yadkinville; Linda Stanley of Siloam, employed at Forsyth Memorial Hospital in Winston-Salem; Martha Williams of East Bend, employed at N.C. Baptist Hospital in Winston-Salem; Marilyn Brooks of Dobson, employed at N.C. Baptist Hospital in Winston-Salem; Gail Poplin of Jonesville, employed at Hugh Chatham Memorial Hospital in Elkin; Darlene Fulcher of Yadkinville, employed at N.C. Baptist Hospital in Winston-Salem; and Terri Dimmette of Elkin, employed at N.C. Baptist Hospital in Winston-Salem.

EMT RECERTIFICATION COURSE OFFERED

The Continuing Education Division of Surry Community College will sponsor a EMT Recertification class, beginning Oct. 10, from 7-10 p.m. This 36 hour course will meet on Monday and Wednesday at the Yadkin County Rescue Squad Building in Yadkinville. A registration fee will be charged to anyone who is not working with a life saving organization.

Mr. Barry Childress and Mr. Donnie Martin will be the instructors for this course. For more information concerning this class, you may call Surry Community College in Boonville at 367-7562.

Gary Tilley, local man, to head new center

Dr. Gary C. Tilley of Pilot Mountain, a member of the business faculty at Surry Community College for the past 8 years, has been named Director of the new Business Center established at the College.

Tilley will direct operations of the Center to better serve the needs of business through liaison, providing special services of an instructional and development nature, and making available to firms in the College's service area information and expertise to enhance their operations.

The Center is housed in the new Computer Science/Electronics/Community Services Building which SCC formally opened during its

25th anniversary observance August 7.

Dr. Swanson Richards, president of SCC, said of the appointment, "For a number of years we have expanded our service to business and industry in various ways. Approval by the State Community College System of the new Business Center here greatly improves our effectiveness in this endeavor. And Gary Tilley, who through his work in the Business Department has already established ties with business, is a natural to direct its operations."

He said Tilley will continue some of his teaching functions in addition to directing the Center's operations. Tilley is a native of the Westfield

Gary Tilley

Community and a graduate of East Surry High School. He attended Surry Community College and the University of North Carolina at Chapel Hill, where he received his AB degree in Economics in 1969. He received his Master's degree in Economics from South Dakota State University in 1975, and his

Doctorate in Education in May, 1988 from UNC-Greensboro.

Prior to joining the SCC Business faculty in 1979, he was research analyst for First Citizens Bank in Raleigh, property and site manager for Drucker and Falk Realtors and was loan officer for Wachovia Bank in Winston-Salem. He served with the Air Force five years, with the rank of captain.

He is a member of the Pilot Mountain Elementary School Advisory Board; lay leader of the Pilot Mountain Branch of the Church of Jesus Christ of Latter-Day Saints (Mormon); and is coordinator for Scout Pack 546 and member of the Troop 545 committee in Pilot Mountain.

He is married to the former Connie Lynn Holland of Chapel Hill and they have five children. His parents are Mr. and Mrs. Vance C. Tilley of Mt. Airy.

SCC names faculty member as new business center director

DOBSON — Dr. Gary C. Tilley, member of the business faculty at Surry Community College here for the past eight years, has been named director of the business center established at the college.

Dr. Tilley will direct operations of the center to better serve the needs of business through liaison, providing special services of an instructional and development nature, and making available to firms in the college's service area information and expertise to enhance their operations.

The center is housed in the new Computer Science/Electronics/Community Services Building which SCC formally opened during its 25th anniversary observance Aug. 7.

Dr. Tilley will continue some of his teaching functions in addition to directing the center's operations.

Tilley is a native of the Westfield community and a graduate of East Surry High School. He attended Surry Community College and the University of North Carolina at Chapel Hill, where he received his AB degree in economics in 1969. He received his Master's degree in economics from South Dakota State University in 1975, and his Doctorate in education in May, 1988 from UNC-Greensboro.

Prior to joining the SCC business faculty in 1979, he was research analyst for First Citizens Bank in Raleigh, property and site manager for Drucker and Falk Realtors, and was loan officer for Wachovia Bank

in Winston-Salem. He served with the Air Force five years, with the rank of captain. He is a member of the Pilot Mountain Elementary School Advisory Board; lay leader of the Pilot Mountain Branch of the Church of Jesus Christ of Latter-Day Saints (Mormon); and is

coordinator for Scout Pack 546 and member of the Troop 545 committee in Pilot Mountain. He is married to the former Connie Lynn Holland of Chapel Hill, and they have five children. His parents are Mr. and Mrs. Vance C. Tilley of Mount Airy.

Seven-day course in fresco art has openings at SCC

DOBSON — Charlotte artist Tony Griffin, who assisted his brother-in-law, Ben Long, in creation of the famous frescoes in churches at Glendale Springs and West Jefferson, will teach a seven-day course on fresco art for Surry Community College beginning Nov. 1.

Griffin will be completing a fresco in Rockford Methodist Church, in the historic Rockford village on the Yadkin River, a project sponsored by the Rockford Preservation Society.

The SCC-sponsored fresco classes will be held at the Rockford church and are for art teachers and artists. The class size is limited and registration closes Oct. 10. Those interested should contact Marion Venable at the college. Registration fee is \$18.75.

Dates and subjects of the classes are: Nov. 1, history of fresco art; Nov. 2, producing a fresco; Nov. 5, field trip to Glendale Springs and West Jefferson; Nov. 12, demonstration of fresco creation; Nov. 14, student lab in drawing; Nov. 16, student lab in plaster and pigment; and

Nov. 19, creation of individual frescoes.

In addition to teaching the fresco classes, Griffin will give a one-hour program on fresco painting at the college on Thursday, Nov. 17, at 7:30 p.m. This program is free and open to the public.

The Tribune, Elkin-Jonesville, N.C., Monday, October 10, 1988

The Tribune, Elkin-Jonesville, N.C., Wednesday, October 19, 1988

EMT recertification class begins at SCC Nov. 1

DOBSON — Surry Community College will offer an EMT Recertification class beginning Tuesday, Nov. 1 at 7 p.m. This 27-hour course will meet each Tuesday and Thursday night from 7-10 p.m. through Dec. 1 in room L-207 on the college campus.

The registration fee will be \$15 for non-providers. The course is designed to meet the requirements of the December state exam.

For further information, you may contact the Continuing Education Division at 386-8121.

October 5, 1988, The Enterprise,

Teacher Aid Class Planned at College

A 33-hour course in Teacher Aide has been scheduled to begin Thursday night, October 6 at Surry Community College. Sponsored by the Continuing Education Division, this course will meet each Thursday night for eleven weeks, running through January 5, 1989. Holidays will be November 24, December 22 and December 29. The class will meet in Room C-207. Mrs. Glenda Younger will be the instructor and a \$15 registration fee will be charged.

Please be present for registration at the first class meeting Thursday night, October 6 at 6:30 p.m. The class will meet from 6:30 p.m. to 9:30 p.m. each Thursday night.

OCTOBER 12, 1988 THE PILOT

Fresco class will begin at SCC on November 1st

Charlotte artist Tony Griffin, who assisted his brother-in-law Ben Long in creation of the famous frescoes in churches at Glendale Springs and West Jefferson, will teach a seven-day course on fresco art for Surry Community College beginning November 1.

Griffin will be completing a fresco in Rockford Methodist Church, in the historic Rockford vil-

lage on the Yadkin River, a project sponsored by the Rockford Preservation Society.

The SCC-sponsored fresco classes will be held at the Rockford church and are for art teachers and artists. The class size is limited and registration closes October 1. Those interested should contact Marion Venable at the college. Registration fee is \$18.75.

SCC offers auto parts cataloging

DOBSON — A course in auto parts cataloging will be held by Surry Community College in October and November. The course is designed especially to train individuals who need additional information to sell spare and replaceable parts in a parts store, and for those wishing to enter the parts field.

How to determine make, year and type of part, use and features of various parts, and parts catalog reading are included. Instructor will be Wade Gilley of Gilley's Automotive and Supply Company.

The classes will be held from 7-9 p.m. on Oct. 18 and 25 and Nov. 3, 10 and 17. Registration fee is \$15, and pre-registration prior to the first class is necessary.

The course is offered through SCC Industrial Training. Those interested in enrolling should contact the college at 386-8121.

The Tribune, Elkin-Jonesville, N.C., Wednesday, October 12, 1988

The Tribune, Elkin-Jonesville, N.C., Monday, October 10, 1988

Income tax course offered

The Continuing Education Division of Surry Community College will sponsor an Income Taxes I class, beginning Thursday night, Oct. 13, and continuing through Jan. 12. This 33-hour course will meet from 6:30-9:30 p.m. in Room L-205 on campus.

Bobby Hanes will be the instructor.

A \$25 registration fee will be charged.

For more information or to pre-register, you may call the college at 386-8121.

SCC training welders; they're in short supply

"There's a shortage of welders all over," says Roy Thomas, director of Surry Community College's welding program since 1968. "Right now, for example, a Rural Hall firm needs four welders. So the opportunity is there. Pay? Depending on the situation, starting wages can range up to \$10 or \$15 per hour."

Thomas went ahead to say that welding was one of the core programs offered when SCC opened in the fall of 1965. Today welding and related course such as blueprint reading and math, are offered in his program day and evening.

"We have 24 in our evening program and that's about all we can handle, but there are plenty of openings in the morning and afternoon programs. This schedule is especially suited for people who have a second-shift job and would like to take welding to improve their job skills, or to branch out on their own."

"There's an excellent opportunity for individuals to start their own welding business, either full time or as a sideline," he added.

Welding, like most SCC courses, has changed over the years. Today, a student has the opportunity of learning oxyacetylene, plasma, arc, pulsed arc, gas tungsten and shielded metal arc welding and cutting.

Welding is required in SCC's auto mechanics, auto body and machinist programs, and Thomas' department accommodates their students.

"Robotic welding is a coming thing," Thomas says, "but behind every welding robot is an experienced welder with the know-how to program the robot. That's where we come in. We teach the theory and practice of welding."

Industry requirements for weld-

ers are increasingly strict. SCC encourages its welding graduates to take certification tests. Students can take these tests at the College and Pittsburg Testing Laboratory in Greensboro will subject the weldment to radiographic inspection. If the weld passes, they will issue the necessary certification papers.

Thomas points to a recent graduate, Rodney Simpson, of the Blackwater Community in Surry County, who completed the welding program in August and was certified. He is now a key figure in the operation of C & B Salvage, a Surry County metal sales and fabrication firm.

"That's entrepreneurship at work," Thomas says.

SCC lecture to focus on voting rights

DOBSON — The unique right to vote. Responsibility that goes with that right. Apathy at the polls. What the Constitution says about the voting right and how we risk abdicating that right.

These and other questions on the American right to vote will be discussed in the last in a series of humanities lectures at Surry Community College on Nov. 3—just five days before the general election.

Dr. Daniel Hubbard Pollitt,

Graham Kenan professor of law at the University of North Carolina at Chapel Hill, will be the guest lecturer. Discussions will be developed around the history of voting rights in North Carolina, the anti-slavery origins of the 14th amendment, the N.C. Suffrage movement and the 1924 Citizenship Act for Native Americans.

The Nov. 3 meeting is scheduled for 7:30 p.m. It and three previous programs on the Constitution were

sponsored by Surry Community College, the N.C. Humanities Council and the Surry County Constitutional Bicentennial Committee.

Dr. Pollitt is a Washington, D.C. native and graduate of Wesleyan University and the Cornell Law School. He has been a member of the UNC-Chapel Hill faculty since 1957 and Kenan professor since 1970. He also has taught at the American University, University of Arkansas, University of Oregon,

Duke University, University of Virginia and Georgetown University.

He has served in various civic, public and professional associations, including the U.S. Commission on Civil Disorders, Southerners for Economic Justice, N.C. Labor Law Center, N.C. Civil Liberties Union and the American Association of University Professors. He currently serves on the national board of the American Civil Liberties Union.

Foundation expands scholarship program

DOBSON — A scholarship program announced by the Surry Community College Foundation this past spring has been expanded to include more graduates from area high

schools in North Carolina and Virginia and to lengthen the term of the scholarships from one to two years.

Dr. Swanson Richards, president of Surry Community College, said

the foundation move was prompted by the belief that a broader base of financial assistance would make it possible for more regional graduates to attend SCC. Scholarships were

awarded to nine graduates in the 1988 class.

The scholarships of \$250 each will be expanded to include the top 10 students at each high school, rather than the top five. And the length of the scholarship will be extended to cover two years of study, at \$250 per year.

In addition to graduates from the public high schools, the scholarships are available to top graduates completing SCC-sponsored GED (high school equivalency) courses to earn their diploma.

Schools included in the program are in Surry County (Mount Airy, North Surry, Surry Central, East Surry and Elkin); Yadkin (Forbush and Starmount); Carroll County, Va., (Carroll High in Hillsville); and Patrick County High in Stuart.

Local students enroll at Surry college

DOBSON — One out of every three 1988 graduates of Surry and Yadkin county high schools has enrolled in the freshman class at Surry Community College here.

At Surry Central in Dobson, 68 of the 160 graduates this year, or 43 percent, enrolled at SCC. At North Surry, 96 of its 250 graduates in 1988 registered at SCC. Thirty-five of the 125 graduates at Mount Airy High are at SCC, and 14 of the 61 graduates at Elkin High chose SCC for their freshman year of higher education.

In Yadkin County, Forbush High provided 26 students, out of a graduating class of 185, and from Starmount High 22 of the graduating class of 152 are studying at SCC.

SCC President Swanson Richards says, "We are very pleased that so many of our local high school graduates chose to study here. The combination of convenience, low cost and quality educational programs has again proved itself. It's part of our tradition, and we strive always to improve on what we have to offer."

While Surry and Yadkin comprise SCC's primary service area, 1988 fall registration includes 36 freshmen students from Stokes and 33 from Virginia counties. Other freshmen at SCC are from Wilkes, Alleghany and Forsyth.

SCC's total curriculum enrollment for the fall quarter is 2,791, up from 2,440 in the fall of 1987. Of the total in 1988, over 1,100 students are in college transfer and special college studies. Among the 30 other programs, business administration leads with 166 enrolled; technical special education 156, electronics engineering 141, business computers 95, general office technology 92 and accounting tech-

nology 90.

SCC's Continuing Education program accounts for an additional 3,600 enrollment this quarter, up slightly from 1987. Continuing education classes are held on campus and at more than 30 locations within Surry and Yadkin communities, on both day and evening schedules.

The Oct. 27 meeting is scheduled for 7:30 p.m. at the college. It is open to the public.

On Nov. 3, Dr. Daniel Hubbard Pollitt, Graham Kenan Professor of Law at the University of North Carolina in Chapel Hill, will close the lecture series with a discussion on "The Right to Vote and the Constitution." General discussion will follow his lecture, just five days before the general election.

SCC Scholarship Program Expanded

DOBSON—More graduates of area high schools in North Carolina and Virginia will now be included in a scholarship program announced by the Surry Community College Foundation last spring.

The foundation also has lengthened the term of the scholarships from one to two years.

Dr. Swanson Richards, SCC president, said the foundation move was prompted by the belief that a broader base of financial assistance would make it possible for more regional graduates to attend the college. Scholarships were awarded to nine graduates in the 1988 class.

Along with the scholarships now

covering two years of study, those of \$250 each will be expanded to include the top 10 students of each high school rather than the top five.

In addition to graduates of the public high schools, the scholarships are available to top graduates completing SCC-sponsored GED (high school equivalency) courses to earn their diplomas.

Schools included in the program are Mount Airy, North Surry, Surry Central, East Surry and Elkin high schools in Surry County; Forbush and Starmount in Yadkin County; and Carroll and Patrick County high schools in Virginia.

"Surry Community College Did a Thorough Job of Preparing Me"

Mrs. Elen Frances Miller West is currently an honors student in the demanding Master of Science in Mechanical Engineering program at N.C. State University. Winner of several scholarships and honors, Mrs. West is viewed by her peers as one of N.C. State's most outstanding students.

She began her odyssey of higher education at Surry Community College. A native of Rhode Island and resident of Elkin 1980-86, she is a graduate of Charles E. Jordan High School in Durham; she completed pre-engineering courses at SCC in 1986 and received her BS in Mechanical Engineering at N.C. State in 1988. Her present studies will lead to a Master's degree in Mechanical Engineering.

She says of SCC: "The years I spent at SCC were both exciting and challenging. My college education was delayed for a number of years, and I was naturally hesitant when the time finally arrived. What a pleasure it was to find that with the encouragement of the faculty, I could master the subjects presented! Upon transferring to the University, I found that SCC had done a thorough job in preparing me for the level of work expected.

"The math, science, English and engineering classes taken at SCC gave me the complete set of 'tools' needed to proceed with the engineering curriculum at N.C. State. I will always be grateful to the faculty and staff at SCC for giving me such a complete background and the confidence necessary to succeed."

In addition to her academic excellence, Mrs. West is a mother and homemaker. Her husband, Greg, is an Elkin native and is a pharmacist in Fuquay-Varina. They have three children.

Mrs. West on N.C. State Campus

SURRY COMMUNITY COLLEGE
1964 - 89 CELEBRATING 25 YEARS OF EXCELLENCE

SCC offers basketweaving

Surry Community College will offer a course in basketweaving beginning Monday, Nov. 14. There will be an afternoon class from 1-4 p.m. and an evening class from 6:30-9:30 p.m. The classes will meet in Room L-11 on the college campus.

Carrie Casstevens, a skilled basketweaver from Dobson, will be the instructor. Casstevens is well known for her ability to create an endless

variety of woven treasures. The course will allow students to create baskets of their choice, after learning basic design and techniques.

Registration fee for the class is \$25, plus materials for 33 hours of instruction. The classes will meet three hours per week for 11 weeks. Interested persons should plan to attend the class most convenient for them on Monday, Nov. 14 to register and begin a basketweaving project.

The Tribune, Elkin-Jonesville, N.C., Wednesday, November 9, 1988

Artist presents SCC program on fresco art

DOBSON — Tony Griffin, Charlotte artist now in the process of creating a fresco at Rockford Methodist Church for the Rockford Preservation Society, will give an hour-long program at Surry Community College Thursday, Nov. 17 featuring the fresco art form.

Griffin is the brother-in-law of Ben Long and assisted Long in creation of the now famous frescoes in churches at Glendale Springs and West Jefferson. In addition to doing the Rockford fresco, Griffin also began fresco classes at the church Nov. 1 for area artists and art teachers.

These classes are sponsored by SCC, and will continue through Nov. 19. The Nov. 17 program is scheduled for 7:30 p.m. It will be free and open to the public.

Other programs scheduled at the college: Dec. 1, Charles Boles, instructor in agriculture and horticulture, program on organic gardening; Dec. 8, Conrad Holcomb, chairman of the college's social sciences division, recounting his experiences during a Fulbright study trip to Israel and Egypt this past summer; and Dec. 15, the annual SCC Christmas music program, featuring the SCC chorus and visiting artist Beth Cram. All programs are free and open to the public.

■ SCC Plans Program On Export Opportunities

Regional business firms will have a chance to explore export opportunities during a free program at Surry Community College Thursday, Dec. 1, at 7 p.m.

The program, "Export Now," will be sponsored by the new SCC Business Center and the N.C. Department of Community Colleges in cooperation with the Surry Economic Development Commission, chambers of commerce in Mount Airy and Elkin-Jonesville and the SCC Industrial Training Program.

Featured speaker will be Robert L. Quinlan, director of trade for the international division of the N.C. Department of Commerce. A successful local exporter also is to be present to share experiences and answer questions. Another feature will be a video presentation that introduces the newcomer to export service groups and individuals who assist in marketing, financing, documenting and shipping goods abroad.

Reservations for participants should be made with Dr. Gary C. Tilley, business center director, at 386-8121.

SCC Winter Quarter Begins November 30

Winter quarter registration at Surry Community College is November 28 from 8:30 a.m. to noon, 1 to 4 p.m. and 6 to 8 p.m.

Dr. James M. Reeves, Vice President for Student Services, said the College expects about 3,000, both day and evening students, to register for the quarter. He said pre-registration already accounts for 1,030 day and 420 evening students signed up for classes, which begin November 30.

"Winter quarter at SCC provides a variety of educational opportunities," Reeves said. "Classes are still available for returning SCC students, both full-time and part-time, who plan to continue their studies here. New students may begin the winter quarter on a full-time or part-time basis."

In addition to our College

Transfer Program which prepares the student for transfer to a four-year institution, we offer a wide range of vocational and technical programs for those who wish to improve skills related to their vocation, or to broaden their educational horizons for personal enjoyment and satisfaction."

Reeves emphasized the availability of financial aid for students who need assistance. "Our Foundation has funds available for those who face financial problems, and we encourage students or prospective students to discuss any financial need with us."

Surry college offers businesses seminar on export opportunities

DOBSON — Regional business firms will have a chance to explore export opportunities during a program at Surry Community College Dec. 1.

The program, entitled "Export Now," will be sponsored by the new SCC Business Center and the N.C. Department of Community Colleges in cooperation with the Surry Economic Development Commission, chambers of commerce in Mount Airy and Elkin-Jonesville and the SCC Industrial Training Program.

Featured speaker will be Robert L. Quinlan, director of trade for the

International Division of the N.C. Department of Commerce. A successful local exporter will also be present to share experiences and answer questions.

Another feature of the program will be a video presentation which introduces the newcomer to the export service groups and individuals capable of assisting in marketing, financing, documenting and shipping goods abroad.

The video will include remarks by Gov. Martin; Robert W. Scott, president of the Community College System; U.S. Department of Com-

merce Secretary William C. Verity; N.C. Secretary of Commerce Claude E. Pope; Commissioner of Agriculture James Graham; Deputy Secretary of Commerce William A. Dunn; and State Senator Frank Block.

The program is scheduled for 7 p.m. at the college. It is free and open to anyone wishing to attend. Those planning to participate should reserve space by contacting Dr. Gary C. Tilley, director of the Business Center, telephone 386-8121.

Winter registration begins at Surry Nov. 28

DOBSON — Winter quarter registration at Surry Community College is Nov. 28 from 8:30 a.m.-noon, 1-4 p.m. and 6-8 p.m.

Dr. James M. Reeves, vice president of student services, said the college expects about 3,000, both day and evening students, to register for the quarter. He said pre-registration already accounts for 1,030 day and 420 evening students signed up for classes, which begin Nov. 30.

"Winter quarter at SCC provides a variety of educational opportunities," Reeves said. "Classes are still available for returning SCC students, both fulltime and parttime, who plan to continue their studies here. New students may begin the winter quarter on a full-time or part-time basis."

Reeves emphasized the availability of financial aid for students who need assistance.

"Surry Community College Did a Thorough Job of Preparing Me"

Mrs. Ellen Frances Miller West is currently an honors student in the demanding Master of Science in Mechanical Engineering program at N.C. State University. Winner of several scholarships and honors, Mrs. West is viewed by her peers as one of N.C. State's most outstanding students.

She began her odyssey of higher education at Surry Community College. A native of Rhode Island and resident of Elkin 1980-86, she is a graduate of Charles E. Jordan High School in Durham; she completed pre-engineering courses at SCC in 1986 and received her BS in Mechanical Engineering at N.C. State in 1988. Her present studies will lead to a Master's degree in Mechanical Engineering.

Mrs. West on N.C. State Campus

She says of SCC: "The years I spent at SCC were both exciting and challenging. My college education was delayed for a number of years, and I was naturally hesitant when the time finally arrived. What a pleasure it was to find that with the encouragement of the faculty, I could master the subjects presented! Upon transferring to the University, I found that SCC had done a thorough job in preparing me for the level of work expected."

"The math, science, English and engineering classes taken at SCC gave me the complete set of 'tools' needed to proceed with the engineering curriculum at N.C. State. I will always be grateful to the faculty and staff at SCC for giving me such a complete background and the confidence necessary to succeed."

In addition to her academic excellence, Mrs. West is a mother and homemaker. Her husband, Greg, is an Elkin native and is a pharmacist in Fuquay-Varina. They have three children.

Flower arrangement course to be offered at Surry college

Surry Community College will offer an 11-week course on flower arrangement at the Yadkin County Senior Center. This one-credit course, taught by Eloise Crissman, will begin Nov. 29 at 9 a.m.

Dr. William Virtue, an oral surgeon from Yadkinville will be at the Senior Center on Friday, Dec. 9 at 10 a.m. He will conduct an oral cancer screening on senior citizens.

The Yadkin County Public Library will host a library hour for our seniors at 11 a.m. on Wednesday, Dec. 7. Melinda Sells will ex-

plain some of the services available through our library.

On the afternoon of Dec. 7 at 1 p.m. the Yadkin County Senior Center will have a "Where were you when . . . ?" time. Several of men have promised to help relive Pearl Harbor Day with their remembrances of World War II. Come join us as we salute the "day that will live in infamy" on Dec. 7.

If any older Yadkinians need information on services and resources available for senior citizens, you may call 679-3596.

The Tribune, Elkin-Jonesville, N.C., Wednesday, November 23, 1988

SCC offers lap quilting

Surry Community College will offer a lap quilting course at the Charles Stone Memorial Library beginning Tuesday, Nov. 29 from 1-4 p.m. The classes will meet for 11 weeks for a total of 33 hours of instruction.

Students will learn techniques for making quilted sweaters, vests, tote bags, wall hangings and traditional quilts. They will be learning to choose fabric colors and textures for

creating the most unique and useful designs. The class will certainly provide new gift ideas as well as attractive items for the home.

Registration fee will be \$25. North Carolina residents 65 and older may register for the class free of charge.

For more information, you may contact the Continuing Education Division at 386-8121.

Swanson Richards

FULL NAME: Swanson Richards
PROFESSION: President, Surry Community College

BIRTHPLACE: Beulah, Surry County
AGE: 58
FAMILY: Wife, Ruth Nichols Richards
Daughter, Anne Hennis

EDUCATION: Beulah High School,
Appalachian State
University, B.S. and M.A.
Florida State University, Ed.D.

HOBBIES: Reading and occasionally golf

By NICOLE HATCH
News Staff Writer

Webster's Dictionary defines encouraging as giving hope or promise; inspiring, favoring. The American Heritage Dictionary defines the word as imparting courage or confidence to; giving support, fostering.

All of the above is how Dr. Swanson Richards defines himself—but not in vain. The president of Surry Community College in Dobson would make a good cheerleading captain, as he often refers to supporting people as cheerleaders but forgets he too is on the squad.

Richards grew up and still lives around the word encouraging. His role in the definition stems from the encouragement he received from his parents, teachers and community friends as a boy and young adult, the encouragement he provides to students and others as an adviser and friend and the encouragement he gives and takes from the people in the community to make Surry County a better place to live.

Asked if he considers himself encouraging, Richards dismissed the point of the question and talked about the advantages of encouragement. "I think that is a benefit of being in education," he began.

"One of the main benefits is that you see the students mature as you encourage them. And later in life, you see them in different places and talk to them and you see the growth of those individuals. And I think that is one of the rewarding experiences you can have," said the 58-year-old educator.

But he does attribute the same benefit to his successes? "I think this is one of the truths of my childhood. I think really that I haven't experienced a lot of problem areas. The things I have experienced in life have been mostly successes because of the people that surrounded me. And how can you help from being successful when everybody is your cheerleader?" he said.

"Take Surry Community College. I think it is a matter of people being encouraging. They offer good suggestions and that certainly makes your job easier. And they want the college to be a great, successful place — and so it is."

Richards claims to have no ambitions in life other than to build the college to its full potential and continue improving life for all. But his successes have far outweighed his expectations, he said, as all he wanted to do was have a professional job as a teacher.

"Growing up in the country, that was about the only professional people (teachers) that you ever ran into," recalled the native of the Beulah community in Surry County who now resides in Mount Airy. "Maybe you saw the dentist but he never talked to you. But those were the only professional people that I ever talked to."

Richards was a teacher through coaching for several years. And now that he sits in the head chair of the college, he said he still considers himself a teacher, "but instead of working with students, you work with the faculty and staff."

But Richards admits that he "had no idea" he would ever be where he is today.

"I would have been satisfied with my life if I would have just been a teacher in the public schools—I think I would have. But when I got out of high school, I knew that would have been the highest of my dreams to achieve."

As a young student, Richards' teachers encouraged him to get an education. As a young child, his mother encouraged him to get an education. And as a neighbor, Richards' community peers encouraged him to get an education.

After having grown up and lived on a tobacco farm, Richards took the advice and went to college. "I didn't particularly like the farm," he said, explaining that his home life and the fun and social aspects of high school athletics pushed him to seek higher education.

"I was looking for a way to get off the farm and I think that basically, the teachers indicated that to do other things in life, you need an education," Richards said, adding that the folks at the country store would often ask what he planned to do with his life. "And in any little community like that, the people are always close-knit. And that was an important part of my life too."

Although his father died when he was 14, Richards' mother encouraged him to get off the farm and learn a skill or go to college. Now 97 years old, his mother still lives in Surry County—and one would think she was sitting in the room when the college president talks about the woman who taught him encouraging values.

"She was quite an influence. She was always a very positive per-

Staff Photo by John Dickerson

son in life and she encouraged us to go to school and learn as much as we could. And she encouraged others in the community. She was quite positive," he said, while describing himself also.

A basketball and baseball player in high school, Richards said he was an "about average" student. "When I went to college, one class I remember everybody having to get up and tell something about themselves. So I got up and said I grew up outside of Mount Airy and I was 12th in my class. We didn't have but 13—I didn't tell them that," he said.

Richards was busy socially in college and didn't study as much as he should, he admits. But when the going got tough, he began studying. "I think that I really did much better when I started on my master's. And then in graduate school when I did more studying, it became more meaningful," Richards recalled.

"I saw that the things that I was studying and the courses that I was taking had more implications in life from the standpoint of my career objectives and that made me work harder. And I found a lot of the areas quite stimulating and quite interesting. And one thing would lead to something else and I began to broaden my understanding of education," he said.

As a person heavily involved in the education field, Richards claims that he was not a demanding parent when it came to his daughter's grades. "I certainly believed that students should do the best they possibly can in school, but I don't think I was a demanding parent as far as achievement in classes."

"From being connected and being involved in education," the encouraging man continued, "I felt I understood that people have different abilities in life. And I think it is a mistake to put pressure on children who are unable to achieve A's. But I think it is important that we encourage children to do the best they possibly can with the skills they possibly have."

Doing the best one can is important for people in developing positive attitudes toward life, work and education, Richards said. He strives to make students enjoy learning and teachers enjoy teaching. "And if you can do that in an institution, a lot of good things will happen," he said.

One could also call Richards a bookworm, as he said he has always enjoyed reading even when he was not an above-average student. "Books have made quite an impact on me in life. I have enjoyed a lot of reading all my life," Richards said.

"And by that, I would go to the library in the evening during grad school and would need to read articles for class the next day. And I would find myself reading everything else in the library until it closed and then I would find myself not having my work done," he said.

The non-resident tuition fee for credit courses is \$58.50 per credit hour.

NORTH CAROLINA RESIDENTS AGE 65 AND OLDER MAY REGISTER FREE OF CHARGE. No fees will be charged to members of lifesaving groups.

*Registration and tuition fees are set by the North Carolina General Assembly and may change.

You may pre-register for any of the courses listed by calling 386-8121. Yadkin County residents may pre-register at the center in Boonville at 367-7562.

Classes will begin as soon as sufficient registration permits. Those persons pre-registered will be notified of starting dates. Classes will be canceled if a sufficient number of adults do not register at the first class meeting.

Continuing Education courses are located in communities in Surry and Yadkin counties where need exists or is probable. Residents of the two counties are encouraged to request courses for their communities.

Continuing Education Units (CEUs) are awarded to adults who satisfactorily complete all course requirements for a session course listed. One CEU will be awarded for each ten contact hours. A permanent record of each student's CEU earnings will be maintained by Surry Community College. Continuing Education Unit transcripts of individual residents may be obtained through the Continuing Education Division.

**Insurance courses offered by approval of the North Carolina Department of Insurance.

December 7, 1988, The Enterprise,

"Attention Given At SCC Can Rarely Be Matched At Larger University"

Randel Stanley serves effectively as vice president of a large construction firm, Blue Ridge Enterprises, Inc., in Mount Airy.

He came to this responsible position by way of Surry Community College and Appalachian State University. He credits SCC with providing him the incentive to continue his education and earn a degree. It has paid off!

Randel Stanley In Mount Airy Office

A native of Dobson, Stanley was graduated from Surry Central High School in 1969. He served in the military, farmed and worked in construction prior to entering the SCC College Parallel program in 1974. The momentum he built up there propelled him to Appalachian, where he graduated Summa Cum Laude in 1978 with a BS degree in Industrial Arts. He joined Blue Ridge Enterprises as an estimator in 1979 and was promoted to his present position in 1984.

"My experience at SCC was very positive," he recalls. "The educational training I received was very good and in some ways I believe it was superior to that which I could have received at a four-year institution."

"The degree of personal attention one gets at SCC can rarely be matched at a larger university. My positive experience at SCC was largely responsible for my going on to obtain my BS degree."

This is another success story of how a young man with Surry County roots found a way to fulfill his educational interests, convenient to home, at reasonable costs, and within an atmosphere of support by teachers and staff.

You can have this experience too. Opportunity awaits you, not only in College Parallel, but in Technical and Vocational programs as well. And you can attend SCC part-time or full-time, day or evening.

Let us tell you more of what we can offer to help you realize your educational dreams. Come by the Dobson campus; telephone (919) 386-8121, or write to Surry Community College, Box 304, Dobson, NC 27017.

SURRY COMMUNITY COLLEGE
1964 - 89 CELEBRATING 25 YEARS OF EXCELLENCE

The Tribune, Elkin-Jonesville, N.C., Wednesday, December 7, 1988

SCC to hold sewing class

Surry Community College will begin a sewing class on Monday, Dec. 12 at 6:30 p.m. in Room C-104 on the college campus. The 33-hour class will meet each Monday from 6:30-9:30 p.m. for 11 weeks. Due to the Christmas holiday, the class will only meet on Dec. 12 and 19, and the class will resume on Jan. 9.

Edith Snow will be the instructor for the class.

Registration fee is \$25. Persons 65 and older may register free. Interested persons are encouraged to attend the registration/first class meeting on Dec. 12. For further information, you may contact the Continuing Education Division at 386-8121.

Page A-8 — The Tribune, Elkin-Jonesville, N.C., Friday, December 9, 1988

Surry Community College instructor honored for 'excellence in teaching'

DOBSON — Kathy A. Woodruff, lead pediatrics instructor in Surry Community College's Nursing Program, has received the 1988 "Excellence in Teaching Award."

Woodruff has served on the SCC Nursing Staff since 1976. A native of Surry County, she is a graduate of Surry Central High School; received her nursing diploma at Cabarrus Memorial Hospital School of Nursing in 1980; and her Master of Science degree from the University of North Carolina at Greensboro in 1987.

Prior to joining the SCC teaching staff she was staff nurse at Northern Hospital of Surry County for six years.

The annual selection is made by SCC faculty members and staff, with evaluations of students also a contributions factor.

During her career at SCC, Woodruff has developed an in-depth workbook for students; in her service in the clinical rotation program at N.C. Baptist Hospital's Pediatrics Unit, she "insists that nursing students discuss patient care with both medical students and hospital personnel . . . in the interest of improving cooperation within the hospital environment. She serves on the board of directors of Hospice of Surry County."

She has taught in all fields of nursing at SCC, including medical, surgical, psychiatric, pediatric and obstetrical. She has been described by students as "... a super clinical instructor . . . with so much patience and always willing to listen."

She has involved herself in various projects to enhance the nursing

profession, encouraging students to continue their education and visiting high schools to recruit students into the nursing field.

The citation from the college notes projects described in her master's thesis have attracted the attention of the American Public Health Association, John Hopkins School of Hygiene and Public Health, Rutgers University Department of Health Education and the Education Development Center in Massachusetts.

It further states that "the school has prospered from her instruction . . . graduates in nursing from SCC have maintained a 96 percent passing rate on the state registered nursing examinations."

Woodruff is married to Thomas Woodruff. They have three children and reside on Old Hwy. 601, Mount Airy. They are members of Piney Grove Baptist Church, where she teaches seventh and eighth graders in Sunday school and leads three to five-year-olds in singing.

SCC Holiday Program Set

DOBSON — Surry Community College's annual Christmas concert featuring a variety of talent will be held on the college campus Thursday at 7:30 p.m.

The concert is scheduled to feature the 35-member combined choruses of the college's day and evening programs, the 11-member Ladies Ensemble and soloists. It is free and open to the public.

The chorus is directed by Benny Younger, who also will serve as accompanist. The chorus program is to consist of various selections, such as "Joy to the World," "We Wish You

a Merry Christmas," "The Jesus Gift" featuring soloist Arlis Hefrin, "Loog, Long Ago" and "He is Born."

The Ladies Ensemble will be directed by soprano Beth Cram, visiting artist at SCC, who also will sing solo selections. The ensemble program is to consist of songs like "On Christmas Night All Christians Sing," "What Child is This?," "Do You Hear What I Hear?," "No Golden Carriage, No Bright Toy" and "Pine Cones and Holly Berries."

Cram will sing several Christmas selections, including international carols, and repeat her rendition of "The 12 Days After Christmas."

Surry college offers family program

Do you feel that enough is being said about what's right with our American families?

For more than some nine years, researchers at the University of Nebraska felt that time was now to concentrate on the secrets of strong families. What makes strong families? The secrets that these researchers have discovered is too good to keep and they are now sharing them with families through a project known as the Building Family Strengths Project/Model. The national program is the result of a grant from the U.S. Department of Health and Human Services—one of the first of its kind to receive such funding.

Martha L. Joyce, local contact for the Building Family Strengths Sessions that are currently being held at Surry Community College in Dobson in Room R-212 above the library, "the secrets violate some current myths." She listed what

research has found to be vital to a strong family:

•Quantity time together is what counts, not simply quality. Happy families commit more than an average amount of time together.

•Members of strong families spend a lot of time talking to each other, although this doesn't mean they never fight. They are able to take care of conflicts and share their feelings openly.

•They join together to deal with stress and crisis head-on. UNL researchers discovered, and have the ability to see something positive in situations, no matter how bad or hopeless the situation may seem, and try to focus on that aspect. These are just a few of what makes a strong family.

The first mission of the Building Family Strengths Project, according to Martha L. Joyce, "has been to train leaders in as many states as possible in the Building Family

Strengths teaching and counseling model. The model put emphasis on "prevention and coping skills that can be applied before situations occur which pull families apart."

In August 1988, a seminar was held at the YWCA in High Point with Thealeta Monroe, assistant to Gov. Martin for the model and coordinator for the Building Family Strengths Model conducting the seminar for persons that would become advocates for the project and able to conduct the program in their community. Among participants were NCNW members Kathy Dobson of Dobson and Roxie Tompkins of the Timberlake community along with Martha L. Joyce. As a facilitator for the Building Family Strengths Model, there are sessions being held at Surry Community College on Monday evenings from 7:30-9 p.m.

"All families possess strengths," says Martha L. Joyce, a health care

worker and a trained facilitator for the Building Family Strengths Project and the program will help families discover and build upon their own unique strengths.

For more information about the Building Family Strengths Program you may contact Martha L. Joyce 919-789-9863.

SCC Plans Post-Holiday Courses

Surry Community College will offer two courses to help you with post-holiday projects for your home and wardrobe.

A custom Sewing class will begin Thursday, January 5, at 9:00 a.m. in Room C-104 on the college campus. The 33-hour course will meet from 9:00-12:00 each Thursday morning for eleven weeks ending March 16.

A course in Interior Design will begin Monday, January 15, at 6:30 p.m. in Room T-227 on the college campus. This 33-hour course will meet each

Monday night from 6:30-9:30 for eleven weeks ending on March 27.

Surry Community College will offer a Typing I and II course beginning Tuesday, January 10, at 6:30 in Room V-206C on the college campus.

The course is designed for beginning typist as well as those more advanced students who need to review and increase speed and accuracy.

The 33-hour course will meet each Monday night from 6:30-9:30 p.m. for 11 weeks. Instructor will be Elizabeth

McHone.

Persons 65 and older may register for any course free of charge. Instructor for the courses will be Lydia Taylor. Interested persons should plan to attend the registration/first class meeting.

For more information contact the Continuing Education Division at 386-8121.

Pediatrics Instructor At SCC Receives School's 'Excellence In Teaching Award'

By NICOLE HATCH
News Staff Writer

DOBSON—"Humble" is how Kathy A. Woodruff said she feels for having been named the recipient of the 1988 "Excellence in Teaching Award" citation by Surry Community College.

The lead pediatrics instructor in SCC's nursing program, Woodruff said she is being modest because of the help the program receives from its director, Beverly Essick. Woodruff described Essick as "the pedestal of the program."

"I feel honored that I got the award, of course. There are so many excellent teachers and I just feel real honored," she said.

Having served on the SCC nursing staff since 1976, Woodruff has taught in all fields of nursing at the college, including medical, surgical, psychiatric, pediatric and obstetrical. She has been described by students as "a super clinical instructor... with so much patience and always willing to listen."

Woodruff discussed the teaching philosophy she uses in the nursing program: "I think one thing that I try to let the students know is that we treat everyone the same as far as patient care. And that is on an emotional, physical and especially spiritual foundation."

Woodruff is involved in various projects to improve the nursing profession. She has developed an in-depth workbook for students and serves on the board of directors of Hospice of Surry County. Her master's thesis attracted interest from the American Public Health Association, John Hopkins' School of Hygiene and Public

Kathy Woodruff

Health, the Rutgers University Department of Health Education and the Education Development Center in Massachusetts.

She also is credited with helping the nursing program maintain a high passing mark of 96 percent on the state Registered Nursing examination.

Woodruff further credits her immediate family and church family for the receiving of the award. "I am just so thankful for my church family and for my family that has helped me with my school-

ing and my work," she said, adding that without them, "I would not have accomplished anything."

A Surry County native, Woodruff is married to Thomas Woodruff. They have three children and live in Mount Airy. A member of Piney Grove Baptist Church, she teaches seventh- and eighth-graders in Sunday School and leads 3- and 5-year-olds in singing.

Before joining the SCC faculty, Woodruff was a staff nurse at Northern Hospital of Surry County. A graduate of Surry Central High School, she received her nursing diploma at Cabarrus Memorial Hospital School of Nursing in 1970 and a bachelor of science degree from Saint Joseph's College in 1980. In 1987, Woodruff obtained her master's degree in science from the University of North Carolina at Greensboro.

SCC To Offer New In-Home Service Course

DOBSON—A program of instruction for persons interested in rendering in-home service to elderly and disabled citizens has been established at Surry Community College.

The program will include opportunities for full- or part-time work and a flexible schedule of providing service to the elderly and disabled that will be coordinated through the Surry County Health Department and Surry County Friends of Seniors. Workers will be paid for their service.

The classes are scheduled weekly from Jan. 5 through March 9 from 6:30 to 9:30 p.m. The instructor is Glenda Smith of the Health Department.

A basic requirement for course participants is "an understanding of and genuine liking for older and disabled persons demonstrated through patience, warmth and maturity."

Those interested can pre-register through the College's Continuing Education Division (the telephone number is 386-8121) or register on the evening of the first class. The course carries a \$15 fee, but there is no charge for North Carolina residents 65 and older.

SCC Offers Area Classes

The Continuing Education Division of Surry Community College and the Yadkin County Community Schools will offer the following courses in the area schools.

Forbush High School:
Welding, Jan. 10, 1989, 42 hours, 6:30-10 p.m.
Starmount High School:
Furniture Refinishing, Jan. 9, 33 hours, 6:30-9:30 p.m., Frank Nolan instructor.
Yadkinville Elementary School:

Advanced Painting (Acrylic), Jan. 9, 1989, 33 hours, 6:30-9:30 p.m., Becky Fowler instructor.

Beginning Painting (Acrylic), Jan. 12, 1989, 33 hours, 6:30-9:30 p.m., Becky Fowler instructor.

Woodenware, Jan. 9, 1989, 33 hours, 6:30-9:30 p.m., Ina Martin instructor.

West Yadkin Elementary School:

Painting (Acrylic), Jan., 10, 1989, 6:30-9:30 p.m., 33 hours, Becky Fowler instructor.

A minimum of 15 students must be present to register at the first class meeting in order for the class to develop. Anyone 65 years of age or older may register free of charge. For more information on these courses, you may call Surry Community College in Boonville 367-7562.

SCC offers textile dyeing course

DOBSON — A new course, introduction to textile dyeing and finishing, will be offered at Surry Community College beginning Jan. 25, under sponsorship of the college's Industrial Training program.

The introductory course will familiarize production employees, first-line supervisors and textile technicians with the basic principles and procedures used in the preparation, dyeing, finishing and printing of natural and man-made fibers and fabrics.

Instructor for the course will be Larry Runions, who serves on the staff of the N.C. Vocational Textile School in Belmont. He studied textiles at VPI and N.C. State University and has practical textile experience with Burlington Industries and Collins & Alkman.

Registration is \$15 and pre-registration ends Jan. 23. Classes will be held Jan. 25, Feb. 1, 8, 15 and 22 and March 1, 8 and 15, from 6-9 p.m.

Those interested should contact Anne Hennis or Renee Huichins in the Industrial Training office at SCC, telephone 386-8121, and toll free from Elkin, 366-2921 before Jan. 23 to pre-register.

Subjects to be covered into the 24-hour course include coloring of textiles, dyeing equipment, dyeing mechanisms and dyeing defects, wet fastness of dyed goods, textile printing, printing classifications, printing equipment, printing defects, textile finishing, finishing equipment and chemical and mechanical finishes.

SCC visiting artist delights Daughters with music

Jonathan Hunt Chapter
Daughters of the
American Revolution

The Jonathan Hunt Chapter, Daughters of the American Revolution met Dec. 21 at the home of Pauline Stinson in Boonville with Harriet Sherrin and Mrs. Stinson as hostesses.

Regent Stinson called the meeting to order and welcomed the 12 members and four guests—Beth Cram, soloist; Mrs. George Corby, DAR District IV director; Mrs. Richard Hutchinson, state DAR genealogist; and Jan Paulson, daughter of DAR member, Melissa Paulson.

Ruby Canipe introduced Beth Cram, visiting artist from Surry Community College who delighted the group with her presentation of Christmas music. Among the favorites were "The Most Wonderful Time of the Year," "Jingle Bells," "Silent Night," (sung in English, German and Spanish), "I'll Be Home For Christmas," "Counting My Blessings," "I'm Dreaming Of A White Christmas," and "O,

Little Town of Bethlehem."

After the program, Cram left early to catch a plane for Abilene, Texas, so she could be home for Christmas.

After a short business session, the members enjoyed a covered dish Christmas buffet luncheon.

The Tribune, Elkin-Jonesville, N.C., Wednesday, January 4, 1989

SCC offers crochet class

DOBSON — Surry Community College will offer a class in crochet beginning Jan. 18 at the college in Room C-104 from 12:30-3:30 p.m.

These are 33-hour classes meeting three hours each week for 11 weeks. All interested persons are

encouraged to attend the registration/first class meeting listed above. Registration fee is \$25. Persons 65 and older may register free of charge. For more information, you may contact the Continuing Education Division at 386-8121.

Seminar addresses difficult employees

DOBSON — One of the most difficult tasks for business and industry—motivating the difficult employee—will be addressed in a one-day seminar at Surry Community College on Feb. 15.

The program is sponsored by the SCC Industrial Training Center. Instructor is Beverly Dickson of Cobb Miller & Associates in Charlotte, trainer and business woman with more than 12 years of supervisory and management experience. She has conducted more than 100 seminars in the Southeast for more than 5,000 people in private companies and government.

Cost of the seminar is \$5, including lunch. Those wishing to enroll should contact Hennis, Director of Industrial Training, Surry Community College.

The Tribune, Elkin-Jonesville, N.C., Wednesday, January 4, 1989

Chamber, SCC program aimed at entrepreneurs

By TED ALLEN
Staff Reporter

Have ever you dreamed of starting a your own business, but were unsure how you would do it?

If you have, you might want to attend a program about "The Fundamentals of Starting a Business" at Elkin Public Library next Tuesday and Thursday nights.

Sponsored by the Business Center of Surry Community College (SCC), the Greater Elkin-Jonesville

wait out for. The program includes two sessions, one on Tuesday, Jan. 10, the other on Thursday, Jan. 12. Both sessions run from 7 to 9:30 p.m.

There is no fee required, but you are advised to call ahead to reserve your space. To register, you may phone Dr. Gary Tilley, director of SCC's Business Center, at 386-8121, extension 309. In Elkin, you may call 366-2921 toll free.

To make sure that everyone attending gets a chance to participate, attendance will be limited to 60 people, Tilley said.

During the first session on Jan. 10, Bill Dowell of the N.C. Small Business and Technology Development Center will speak on "Choosing & Starting The Right Business For You." His presentation will include tips about coming up with an idea for a new business, developing a "business plan" and understanding the market.

On the second night, Jim Smoak, executive vice-president of Yadkin Valley Bank, will speak on "Money—Can You Finance Your Idea?" Smoak will be followed by Elkin attorney Joe Freeman, who will give legal advice on business ownership, insurance, taxes and regulations.

Next will be Sam Dobbins of the

Chamber of Commerce, the N.C. Small Business and Technology Development Center and the Agricultural Extension Service, the program will offer basic information and tips about starting a small business.

The program will feature local businessmen giving their advice about financing a small business, bookkeeping and accounting, sales and promotion and legal pitfalls to

Please see Tips, page 8

accounting firm of Scott, Dobbins & Co. with a presentation on bookkeeping and accounting. Royce McInnis, a consultant from Hickory, then will speak on sales and promotion.

"We think it will be a good program for those who are thinking about starting a new business," Tilley said, noting it will be "a good chance for them to test their ideas."

"A lot of people don't know much is involved and they get overwhelmed," he said.

Tilley also hopes that those people who recently have started their own businesses, but who may be having problems, will show up to learn how they can improve on what they're doing.

Tilley credits the work of Webb Smalling, the Chamber's executive director, for bringing the business fundamentals program to Elkin. "Webb's been a great help to me," Tilley said.

The program will be the first of many in Elkin to be sponsored by SCC's Business Center. On Feb. 9, the center will offer "People Magic," a program designed to "give people better skills at working with others." A program about merchandising is also in the works, Tilley said.

SCC Offers Medical Course

Surry Community College will offer the second in a series of courses for the Medical Office Assistant.

A Medical Terminology class will begin Monday, January 9, at 7 p.m. in room 1-204 on the college campus. The 33-hour course will meet each Monday night from 7-10 p.m. for 11 weeks.

Instructor for the course is Bob Jones who is a hospital administrator in Conover. He brings much energy and enthusiasm about Medical Assisting to the classroom.

Students interested in the Medical Office Assistant program should contact the Continuing Education Division at

386-8121 for more information. Registration fee is charged, plus textbooks.

The Enterprise, December 28, 1988

SCC Plans Parenting Class

Surry Community College will offer an Effective Parenting course beginning Thursday, January 12 at 7 p.m. at the Church of Jesus Christ of Latter Day Saints (Mormon Church) on Golf Course Road in Pilot Mountain.

The course is designed for parents seeking more effective communication with their children, more effective forms of discipline, and improved parenting skills.

The 20-hour course will meet each Thursday evening from 7:00-9:00 p.m. for 10 weeks.

Instructor will be Sandra Wood who is a Child and Group Therapist with Surry Friends of Youth.

A Registration fee is charged. All interested persons are encouraged to attend the registration/first class meeting January 12.

For further information, contact the Continuing Education Division at 386-8121.

SCC To Sponsor Talk On Migrants

DOBSON—Juan Pablo Acevedo, a native of Colombia who has served as a field representative for the N.C. Department of Labor in work with migrants, will speak at Surry Community College Thursday at 7:30 p.m.

Acevedo, an SCC graduate and now a student in aeronautical engi-

neering at N.C. State University, has worked with migrants for the past two summers and established a unique rapport with them. In his appearance at SCC, he will relate experiences with migrant workers, how they have adjusted to the American way of life and their contributions to the local farm economy.

Design, sewing classes are to be offered

Surry Community College will offer two courses to help you with post-holiday projects for your home and wardrobe.

A Custom Sewing class will begin on Thursday, January 5, 1989 at 6:30 p.m. in Room C-104 on the college campus. The 33-hour course will meet from 6:30-9:30

p.m. each Thursday evening for 11 weeks, ending March 16. Registration fee will be \$25.

A course in Interior Design will begin on Monday, January 16, 1989 at 6:30 p.m. in Room T-227 on the college campus. This 33-hour course will meet each Monday night from 6:30-9:30 for 11 weeks, end-

ing on March 27. Registration fee will be \$25.

Persons 65 and older may register for any course free of charge. Instructor for the courses will be Lydia Taylor. Interested persons should plan to attend the registration/first class meeting. For more information, contact the Continuing Education Division at 386-8121.

SCC to present magician

DOBSON — Bob Garner, nationally-known magician and comedian, will perform at Surry Community College Friday, Jan. 13, under sponsorship of the Student Government Association.

His show will begin at 12:30 p.m. in the college teaching auditorium following a "laser" performance in the cafeteria. While his appearance is planned especially for students, the public is invited. There is no admission charge.

Garner started at the age of 8 with a Jerry Lewis book of card tricks and a beat-up deck of cards. By age 10, he was performing his first magic show and continued performing during his school years. After graduation he performed on a local ABC-TV station. Preferring live audiences, he switched to personal appearances.

Wharton, Dobson;

Also, Michael Wayne Whicker, Dobson; Lucie Shinault White, Elkin, Rt. 1; Melissa Ladawn White, Boonville, Rt. 1; Linda Robinette Whitt, Dobson, Rt. 3; Eric Hugh Willard, Boonville, Rt. 1; Tammy Lanette Willard, Boonville, Rt. 1; Frances Bailey Willey, Elkin, Rt. 1; Angela Jane Wilmod, Dobson, Rt. 1; Jamie Chatman Wood, Elkin; Larry Vance Wood, Thurmond, Rt. 1; and Sheila Flynn Wood, Elkin, Rt. 1.

'Night of the Arts' includes Surry

DOBSON — North Carolina and Surry County will have a place of prominence at the John F. Kennedy Center For the Performing Arts in Washington, D.C. on Feb. 26.

A two-hour "Night of the Arts" program will be presented by the state's Visiting Artists organization, the only one of its kind in the nation. Performing artists from most of the state's 58 community colleges will participate.

Outstanding among those performers is soprano Beth Cram, visiting artist at Surry Community College. Cram will have a 10-minute segment in the program, singing a selection of Gerwyn songs.

The concert is funded by the American Express Company in conjunction with the North Carolina Association of Community College trustees, whose members will be attending a national legislative semi-

nar at that time. Co-sponsors are the N.C. Arts Council of the State Department of Cultural Resources, the N.C. Department of Community Colleges and member colleges.

The Surry Community College board of trustees will be represented at the national meeting. Jewell Jarrell of Mount Airy is chairman of the local board, and Eleanor Jones is a member of the local board and also serves on the state association's executive committee.

SCC offers income tax class

DOBSON — Surry Community College will sponsor an income tax class beginning Thursday night, Jan. 19 and continuing through March 30. The class will meet on campus in Room L-105 from 6:30 p.m.-9:30 p.m. each Thursday night.

January 18, 1989, The Enterprise

CPR Class Planned at SCC

Surry Community College will offer a First Aid and CPR class beginning Monday, January 23, at 6:30 p.m. in Room L-121.

The 36-hour course will meet Monday evenings from 6:30-9:30 p.m. for 12 weeks ending April 14, 1989.

Bill Hardy will be the instructor for the course. A registration fee is charged, plus textbook.

This course has been approved by the N.C. Department of Public Instruction and carries 3.6 units of renewal credit. There is no registration fee for public school teachers.

For further information, contact the Continuing Education Division at 386-8121.

The Tribune, Elkin-Jonesville, N.C., Wednesday, January 25, 1989

SCC offers free seminar

DOBSON — A free public service program on industrial lubricants will be held at Surry Community College Feb. 1, from 1:30-3:30 p.m.

Guest speaker will be Joe Wise of Huntersville, Division Sales Engineer for Mobil Corporation.

The seminar is free, but space must be reserved with the SCC Industrial Training Center, which sponsors the program. The telephone number is 386-8121, or from the Elkin area 366-2921.

Bridgette Bunker, a Mount Airy resident who attends Surry Community College. I think the oil spill has something to do with it. I think Exxon used the oil spill to raise prices and other companies are raising prices to stay in competition.

The Enterprise, February 8, 1989

Renewal Courses Planned For Teachers at SCC

Four teacher renewal courses have been announced by Surry Community College for March and April.

Beginning March 7, and meeting on Tuesdays and Thursdays, a course on "Effective Teacher Training," taught by Doug Cook, principal at Dobson Elementary School from 4 to 6:30 p.m. offering three renewal credits. Fee is \$15.

Also beginning March 7 on Tuesdays from 7 to 9:50 p.m. is a course on "Adolescent Psychology," taught by Jack Cincio of SCC's psychology faculty. It offers three renewal credits and the fee is \$18.75.

Beginning April 3, scheduled for each Monday from 4 to 6:30 p.m., is a course on "The Grieving Process in Children." It will be taught by Mrs. Kathy Woodruff of SCC's nursing faculty. Tuition is \$15 and the course offers one renewal credit.

Beginning April 3, scheduled for Mondays 6:30 to 9:30 p.m., is a course on "Construction Estimating and Energy Conservation Construction." It will be taught by Randel Stanley, vice president of Blue Ridge Enterprises in Mount Airy. Fee is \$15 and it offers one renewal credit.

Beth Cram

Recital Planned

Surry Community College visiting artist soprano Beth Cram, baritone Scott Agnew and pianist John Coffey will perform Sunday, January 22 at First Baptist Church of Elkin.

The program will consist of works by Bach and Mozart, American French and Italian art songs, as well as duets from American musical theater.

The recital is scheduled for 3 p.m., is free and open to the public.

The Mount Airy News Sunday, February 5, 1989-5C

Sewing Classes Planned At SCC

Have a sewing project? Surry Community College will offer two sewing classes beginning Tuesday, Feb. 14.

Choose the one most convenient for you — a morning class is to meet from 9 a.m. to noon and an afternoon class from 12:30 to 3:30 p.m.

The classes will be held in Room C-104 on the college campus. Each will meet for 11 weeks ending April 25.

Edith Snow is the instructor and the registration fee is \$25. Persons 65 and older can register free of charge.

For more information, call the college's Continuing Education Division at 386-8121.

Starmount Quiz Team Takes Top Honors

Starmount High School was the winner in the Northwestern Regional Library Quiz Bowl held Saturday, January 28 at Surry Community College in Dobson.

Starmount defeated teams from Surry Cattle High School, Mount Airy Senior High School and in the final match defeated North Surry High School to become the Northwestern Regional Library champion.

Ferbush High School and Elkin High School also participated in the competition.

The Starmount High School team members are Robby Evans, Dale Ray Hemrick, David Hudspeth and Tonya Tucker. Alternate team members are Belinda Campbell, Candi Hudspeth, Deana King and Rick Norman. Phillip Parrish is the team advisor.

As Quiz Bowl champions Starmount High School will represent the Northwestern Regional Library in the district Quiz Bowl to be held March 18 in Eden, North Carolina.

The non-resident tuition fee for credit courses is \$58.50 per credit hour.

NORTH CAROLINA RESIDENTS AGE 65 AND OLDER MAY REGISTER FREE OF CHARGE.

*No fees will be charged to members of lifesaving groups.

*Registration and tuition fees are set by the North Carolina General Assembly and may change.

You may pre-register for any of the courses listed by calling 386-8121. Yadkin County residents may pre-register by calling the center in Boonville at 367-7562.

Classes will begin as soon as sufficient registration permits. Those persons pre-registered will be notified of starting dates. Classes will be cancelled if a sufficient number of adults do not register at the first class meeting.

Continuing Education courses are located in communities in Surry and Yadkin Counties where need exists and space is available. Residents of the two counties are encouraged to request courses for their communities.

Continuing Education Units (CEU's) are awarded to adults who satisfactorily complete all course requirements for the extension courses listed. One CEU will be awarded for each ten contact hours. A permanent record of each student's CEU attainments will be maintained by Surry Community College. Continuing Education Unit transcripts of individual records are available through the Continuing Education Division.

**Insurance courses offered by approval of the North Carolina Department of Insurance.

Parenting Course Offered At SCC

A course on effective parenting is being offered by Surry Community College for parents seeking better communication with their children, more effective forms of discipline and improved parenting skills.

The 20-hour course will start Thursday, March 2, at 7 p.m. in room T-102 on the college campus in Dobson. The class will meet each Thursday from 7 to 9 p.m. for 10 weeks.

Sandra Wood, a child and group therapist with Surry Friends of Youth, is the instructor.

The registration fee for the course is \$15. All interested persons can register at the first class meeting on March 2.

■ SCC To Sponsor Seminar At Library

"Fundamentals of Starting a Business" will be the topic of a three-day seminar planned Tuesday, Thursday and the following Tuesday, Feb. 28, at the Mount Airy Public Library. The seminar is being offered under the sponsorship of the Surry Community College Business Center. Co-sponsors are the N.C. Small Business and Technology Development Center, Mount Airy Chamber of Commerce and N.C. Agricultural Extension Service.

No registration fee is required. Those interested are asked to register early with Dr. Gary Tilley, head of the SCC Business Center, by calling 386-8121.

The seminar speakers will include Bill Dowe and Alexis Smith of Winston-Salem, staff members of the N.C. Small Business and Technology Development Center; Cooper Adams, city executive with First Citizens Bank in Mount Airy; Carol Schwab, legal specialist with the Agricultural Extension Service; John Haynes of the Haynes, Strand, Henry and Company accounting firm of Mount Airy; and Nancy Cox, instructor in retailing at SCC.

Parenting Class Planned

Surry Community College will offer an Effective Parenting course beginning Thursday, March 2, at 7 p.m. on the college campus in Room T-102.

The 20-hour course will meet each Thursday evening from 7-9 p.m. for 10 weeks. Instructor will be Sandra Wood who is a Child and Group Therapist with Surry Friends of Youth.

For further information, contact the Continuing Education Division at 386-8121.

SCC helping to mark 'National Community College Month'

More than 5 million students took credit classes at America's community colleges last year, representing 41% of all undergraduate students and 55% of all first-time freshmen in the U.S.

This February, Surry Community College joins with more than 1200 other community, technical and junior colleges in the U.S. to celebrate National Community College Month. With a theme of "Community Colleges: Where America Goes to College," the month is a celebration of past success and future achievements of technical and junior colleges and their students.

"More and more Americans are choosing community colleges for their educational needs," SCC president Swanson Richards said. "Our ability to provide diverse programs and specialized service, close at home and at reasonable rates, make community colleges an affordable option for everyone."

SCC's current enrollment is more than 5,000, in college transfer, vocational and technical programs. Students, young people and adults alike, come from 5 North Carolina counties and 3 in Virginia.

He said the role of community colleges has expanded in the past 50 years to keep up with the nation's changing needs. In this time, the number of community, technical and junior colleges has grown from 553 in 1937 to 1,222 in 1987. The community college system in North Carolina observed its 25th anniversary in 1988. Today, the state has 58 community colleges with enrollment of more than 600,000. Governor Martin, in proclaiming February Community College Month, said, "The North Carolina Community College System, the nation's third largest, has remained true to its original mission of providing technical/vocational training and college transfer programs to adults."

"Because we are community-based, we are responsible to meet the needs of our specific area," explained Richards. "Through educational partnerships with local business and industry, the public schools, we are able to keep up with the changing educational and technical demands of our residents and provide them with the education they need to succeed."

"People come to SCC for several reasons," said Richards. "While our smaller class size, experienced faculty and convenient location attract some, others find our broad scope of instruction and exciting learning environment appealing."

Also, our tuition rates are less than half those of most four-year colleges and universities."

"We are proud of our students and our service to the community," said Richards. "We invite all community residents to join us in celebrating National Community College Month, which incidentally is the beginning of our 26th year."

■ SCC Exams Delayed

Due to the weather, Surry Community College has announced that the first day of exams will resume on Tuesday, Feb. 28, at 10 a.m. Registration for the spring quarter will also be held on Tuesday.

SCC To Offer Quilting Course

DOBSON — Surry Community College will offer a course in Creative Quilting at the Pilot Mountain Civic Center. The first class is scheduled Monday, March 6, at 6:15 p.m.

Techniques to be covered are machine and hand quilting, machine and strip piecing, log cabin piecing, drafting and sewing 12-inch blocks, cathedral window design, pieced borders and invisible applique.

Projects that will be completed in the class include a glasses holder, country place mat, a tulip wall hanging, a Jacob's ladder quilt patch, a tote bag, continuous bias binding and a vest.

Shirley Jones of White Plains, a skilled quilter, is the instructor for the course, which will meet each Monday from 6:15 to 9:15 p.m. for 11 weeks, except Easter Monday. The registration fee is \$25 and North Carolina residents 65 and older can register free of charge.

Additional information is available by calling the Continuing Education Division of the college at 386-8121.

CONTINUING EDUCATION DIVISION SPRING 1989

The following courses can be offered at suitable locations in Surry and Yadkin County if there is sufficient interest.

The non-resident tuition fee for credit courses is \$58.50 per credit hour.

NORTH CAROLINA RESIDENTS AGE 65 AND OLDER MAY REGISTER FREE OF CHARGE.

*No fees will be charged to members of lifesaving groups. *Registration and tuition fees are set by the North Carolina General Assembly and may change.

You may pre-register for any of the courses listed by calling 386-8121. Yadkin County residents may pre-register by calling the center in Boonville at 367-7562.

Classes will begin as soon as sufficient registration permits. Those persons pre-registered will be notified of starting dates. Classes will be cancelled if a sufficient number of adults do not register at the first class meeting.

Continuing Education courses are located in communities in Surry and Yadkin counties where need exists and space is available. Residents of the two counties are encouraged to request courses for their communities.

Continuing Education Units (CEUs) are awarded to adults who satisfactorily complete all course requirements for the extension courses listed. One CEU will be awarded for each ten contact hours. A permanent record of each student's CEU attainments will be maintained by Surry Community College. Continuing Education Unit transcripts of individual records are available through the Continuing Education Division.

**Insurance courses offered by approval of the North Carolina Department of Insurance.

SCC visiting artist to present concert

DOBSON - Surry Community College visiting artist, Beth Cram, and classical guitarist, Bill Hearn, will present a program at the Gertrude Smith House in Mount Airy March 12.

The free performance will begin at 2:30 p.m. and feature solo guitar music from Brazil, music for voice

and guitar from Brazil and Spain, as well as ragtime selections.

Cram is in her second year as visiting artist at SCC. She is an accomplished soprano and during her service here has touched many audiences with her talent, versatility and style. She performed selections by Gershwin with other North

Carolina visiting artists in a concert at the Kennedy Center in Washington on Feb. 26, a feature of the national community college trustees conference there.

Hearn is in Statesville, where he recently served as visiting artist at Mitchell Community College. His classical style has been enjoyed by

more than 40,000 people in audiences before which he has performed. He is a graduate of Florida State University, one of the top schools in the nation for classical guitar, and has been active in the Visiting Artist Program since 1983.

SCC fits courses to clients

DOBSON - Like the tailor making a suit or a gown to fit the customer, Surry Community College's Industrial Training Division tailors courses to fit the needs of the client.

Take for example two courses, one for the John S. Clark Co. in Mount Airy, and the other for Chatham Manufacturing Co. in Elkin. The SCC Industrial Training staff, in cooperation with the college's Drafting Department, will teach classes in computer-aided drafting, the latest wrinkle in the drafting profession, for both firms.

For Clark, it will be a 33-hour course, customized to fit drafting needs of an engineering and construction firm. For Chatham, it's a 40-hour course designed to fit drafting needs of the textile manufacturer.

Instructor is Bobby Schumaker, head of the SCC Drafting Department. Classes will be held in the evening and on the Dobson campus where CAD equipment is in place. Anne Hennis, director of industrial training for SCC, said these

are only two examples of her operation's flexibility.

A current course in textile dyeing and finishing has some 35 textile people enrolled; a basic mathematics course was given for North Carolina Granite employees on site. Blueprint and basic math classes are provided for Hibco Plastics in Yadkinville, and forklift safety training is provided on campus. Principles of supervision is an ongoing course appealing to a wide range of industries.

"In some cases we hold the classes on-site for the convenience of the client and employees; some classes are held on campus. But in every case the size of the class, scheduling and subject matter is

designed specifically for that firm and its particular needs," Hennis says.

"We take the measure of the company by letting management tell us how they want the course to fit for the best effect. We match our capabilities with their wishes and in nearly every case we can design a good course.

"And the price is right! The cost of most courses is \$15 per person. Our intent is to ensure customer satisfaction, to give them a quality product which will enhance their operation. Like clothing styles, training needs of industry change. We welcome the challenge of designing something new in the latest 'fashion for industry'," she says.

Working: Preparing Elkin's Centennial book are committee members William Sanders, Claire Smith and Lynne Neaves.

Book part of Elkin's Centennial offerings

Collecting information about Elkin's past is a never-ending process. In 1968, former Mayor James Harrell Sr. established a committee to solicit information about Elkin's history. In 1978, the Friends of the Elkin Public Library joined this group, forming the Joint Committee for the Collection of Historical Information.

Today, this committee is performing a vital role in Elkin's Centennial celebration to be held in May.

At the request of Mayor Tom Gwyn, the committee is publishing a book to be issued as part of the celebration. The book will be approximately 175 pages long and feature about 200 pictures, along with an appendix of references and documentation. The committee is currently selecting pictures for the book and refining the text.

Claire Smith, chairman of the committee, says the group began work on the book in March, 1988. Members of the editorial board are Louise Atkinson, Virginia Barker, Emma Cooke, Aline Engel, Grace Laffoon, Lynne Neaves, Mabel Sale, William Sanders and Alexander Smith.

The committee originally intended to limit the book to the people and organizations within the town limits for the past 100 years. This was impossible, however, because town limits have changed throughout the years and background information was necessary for the past century to be understood.

The committee's job has not been an easy one. Each member of the editorial board was given an area to research, such as communications, transportation, schools, churches or clubs and organizations.

The research turned up such interesting tidbits of history that it has made

Cake Decorating Classes Planned

DOBSON - Surry Community College has announced two upcoming cake decorating classes. Both will be held for 11 weeks on Tuesday or Thursday in Room C-104 on the college campus from 6:30 to 9:30 p.m.

Registration for Cake Decorating was scheduled Tuesday, when the first meeting of the class began, while registration for Advanced Cake Decorating is planned for Thursday, when that class will first meet. The registration fee is \$25.

Lettie Hodge will be the instructor. Persons who were unable to attend the Tuesday class may register Tuesday, March 7. Others interested should plan to register during the times specified. P

Additional information can be obtained from the college's Continuing Education Division at 386-8121.

Book

selecting material for the book difficult.

A significant amount of space has been allotted to the first decade of the century. Walter Bell, then editor of the Elkin Times, had detailed accounts of the town's progress beginning in 1895. Bell was the oldest son of John S. Bell, who had lived in Elkin since 1869, and the brother of the late Janie Bell Royall, a lifelong resident of Elkin.

In addition to newspaper articles, information was collected from town records and maps, census records, the Moravian records and business directories. Accuracy was of the utmost importance to the committee, Claire Smith says.

The committee found that the 1870 census showed that there were 14 households in Elkin. Each member of the household was listed, including children and servants. By 1880, that number had increased to 26.

The Centennial period itself was characterized by change and growth, and that change is recorded in the book.

The book is organized in three parts—Part I giving the background and setting the stage for the Centennial period; Part II providing a chronological account of notable events between 1889 and 1989; and Part III presenting historical information which has been accumulated by the research committee organized under 20 categories.

George Waldrep III, a Harvard University student from Summerfield, assisted the committee with its research, and financial backing was provided by the R.T. Chatham Funds at the Winston-Salem Foundation, the Town of Elkin, the Foothills Arts Council and the Surry County Historical Society.

The Tribune will publish interesting historical information collected by the committee members in special Centennial Moments columns every other week.

ASU Professor To Talk At SCC

DOBSON—Dr. George R. Wesley, professor of abnormal psychology at Appalachian State University, will present two lectures at Surry Community College Tuesday. Both sessions, scheduled for 1 and 7:30 p.m., are open to the public.

Wesley's appearance here is sponsored by the SCC Faculty Association. He will be introduced by James R. Fink, association chairman and instructor in the SCC Sociology/Psychology Department. "We have scheduled Dr. Wesley's appearance as part of the 25th anniversary celebration of Surry Community College," said Fink.

In addition to serving as professor at ASU, Wesley is an experienced counselor and evaluator for educational institutions, including public schools and colleges, in the field of psychology.

A native of Texas, he attended the University of Mississippi, has an undergraduate degree from the University of Houston and a graduate degree from the University of Denver.

Wesley has held several teaching posts in higher education, and in addition to his duties at ASU, acts as mentor for Columbia Pacific University in San Rafael, Calif.

Among other credentials, he has served as a consultant to the Hospital of Mental and Nervous Diseases at St. John's, Newfoundland; with New River Mental Health Center at Boone; with Wilkes County schools; and with the N.C. Juvenile Evaluation and Correction Center at Swanton.

Wesley is a member of national psychological associations and honor societies and has written extensively in the field of psychology.

Painting Classes Set

The Continuing Education Division of Surry Community College and the Yadkin County Community Schools will offer the following Painting Classes:

Yadkinville Elementary School:

Beginning Painting, April 6, 6:30-9:30 p.m., 33 hours, Mrs. Becky Fowler instructor.

Advanced Painting, April 17, 6:30-9:30 p.m., 33 hours, Mrs. Becky Fowler instructor.

West Yadkin Elementary School:

Painting, April 4, 6:30-9:30 p.m., 33 hours, Mrs. Becky Fowler instructor.

These classes are limited to 20 students in each class.

For more information on these classes please call 367-7562.

Guest Lecturer at SCC

Dr. George R. Wesley, Professor of Abnormal Psychology at Appalachian State University, will present two lectures at Surry Community College Tuesday, April 11. Both sessions, scheduled for 1 p.m. and 7:30 p.m., are open to the public.

Dr. Wesley's appearance here is sponsored by the SCC Faculty Association. He will be introduced by James R. Fink, Association Chairman and instructor in the SCC Sociology/Psychology Department. "We have scheduled Dr. Wesley's appearance as part of the 25th anniversary celebration of Surry Community College," Fink said.

In addition to serving as professor at Appalachian, Dr. Wesley is an experienced counselor and evaluator for educational institutions, including public schools and colleges, in the field of psychology.

A native of Texas, he attended the University of Mississippi, holds an undergraduate degree from the University of Houston and graduate degrees from the University of Denver.

He held several teaching posts in higher education, and in addition to his duties at Appalachian he is currently serving as mentor for the Columbia Pacific University in San Rafael, California.

He has served as consultant to the Hospital of Mental and Nervous Diseases at St. John's Newfoundland; New River Mental Health Center at

Boone; Wilkes County Schools; the N.C. Juvenile Evaluation and Correction Center at Swannanoa; Head Start in Wilkes, Watauga and Buncombe counties; vocational rehabilitation for the N.C. Department of Human Resources; the Social Security Disability Determination; and for several professional counseling organizations.

He is a member of national psychological associations, honor societies and has written extensively in the field of psychology.

'Who's Who' honors SCC students

DOBSON - Fifty students at Surry Community College have been named to "Who's Who Among Students in American Junior Colleges" for 1989.

Students are chosen for academic achievement, service to the community, leadership in extracurricular activities and potential for continued success. Students from more than 1,400 institutions in 50 states and the District of Columbia are included in the directory, which was first published in 1934.

Students from SCC are Cynthia Allred, Rt. 2, Dobson; Patsy Amburn, Glade Valley; Janet Anderson, Rt. 2, Elkin; Lester Bennett III, Rt. 3, King; Wanda Bowman, Mount Airy; Janice Brown, Rt. 2, Pinnacle; Lisa Brown, Rt. 1, Siftom; Melissa Bryant, Mount Airy; Lyman Burkett, Rt. 1, Boonville; Betty Calloway, Rt. 5, King; Lisa Calloway, Rt. 5, King; Joey Chandler, Rt. 1, Pilot Mountain; April Childress, Mount Airy; Randy Wade Collins, Mount Airy; June Corns, Rt. 2, Westfield; and Susan Deeds, Rt. 4, Dobson.

Also, Carolyn Easter of Mount Airy; Jeff Edwards of Mount Airy; Patricia Evans of Dobson; Noah Gilmore, Rt. 1, Jonesville; Tammy Golding of Mount Airy; Sandra Hill, Rt. 2, Westfield; Jennifer Holter, Dobson; Cathy Johnson of Elkin; Tammy Jones of Mount Airy; Rosemarie Koves, Rt. 2, Dobson; Debbie Lanier of King; Jealynn Liddle, Rt. 2, Galax, Va.; Pam Manual, Rt. 4, Yadkinville; Lonnie Marion, Mount Airy; Jack Marshall, Dobson; Marisa Neal, Rt. 2, Pinnacle; Cathy Nichols, Rt. 1, Sparta; Dawn Niten, Mount Airy; Donna Lou Pruitt, Rt. 2, Pilot Mountain; Amy Reece, Rt. 3, Dobson; Angela Reece, Rt. 1, Jonesville; Bob Rowinsky, Mount Airy; Sue Sapp, Rt. 1, Tobaccoville; Calvin Sawyers, Rt. 2, Ararat, Va.; Marsha

Shaw, Boonville; Annette Shinault, Rt. 1, Dobson; Robert Simmons, White Plains; Sara Taylor, Rt. 1, Westfield; Nan Transon, State Road; Michele Vernon, Mount Airy; Mike Willard, Mount Airy; Scottie Wilson, Pilot Mountain; Marsha Woods, King; and Randy Wayne Collins, Elkin.

100 years old & still 'kicking'

SARAH BANNER SMITH

DOBSON - When Sarah Banner Smith was growing up on the family farm near Mount Airy she was always active—tending the chickens, playing marbles, hopscotch, baseball and often helping hitch the team to the family buggy—typical pursuits of a little farm girl with five brothers and two sisters to keep up with.

Sarah hasn't let up. And that's something. She's five months past her 100th birthday.

Her daughter, with whom she lives in Mount Airy, marvels at her energy.

"She's on the go all the time, caring for the house, sewing, working with flowers in the yard," daughter Virginia Crowell says.

Her latest venture—working out on exercise equipment in the physical education department at Surry Community College. She has already tried seven of the dozen or so machines.

"I like them all," she says, noting that she favors the treadmill.

Letty Hinshaw, who teaches the classes two afternoons a week for adults of the community, says Sarah takes the prize for longevity among her students, and is just about as active as any.

"She's an amazing person," she says. She is the daughter of the late W.C. Banner, and the granddaughter of John Banner, one of the founders and early leaders of Mount Airy, for whom the community of Bannertown was named. Four of her uncles were doctors.

The surviving brother, Jim, still lives at the homeplace. A surviving sister, Virginia Vestal of Glade Valley, is now 92. At age 80, following the death of her husband, she had a log cabin built for herself, and still lives there.

She was born Aug. 14, 1888, attended school through the first grade on the farm, under the tutelage of an aunt, Mary Foy, who had a private school on Welch Street, was her teacher for two years. She then transferred to Rockford School in Mount Airy.

In June, 1922 she married T. William Smith, also a Surry native, who was a "railroad man" for some 60 years. For half a century, they lived in Charlotte where he served the Southern Railway as an accountant. After his retirement in 1973, they returned to Mount Airy.

"We were so closed in by all the growth down there. We came back home," she says. Mr. Smith died in 1985.

They have five children, 11 grandchildren and five great-grandchildren.

Through a neighbor, Sarah and her daughter learned of the physical fitness program at SCC and signed on. They attend class together, with a lot of friendly banter with others in the group about who's doing best of which machine.

Sarah holds her own, belying the fact that she's lived more than a century. She has no plans to quit.

"Too many things to do," she says. She especially enjoys tending her flowers.

"I remember so many of the oldtimey ones, like cosmos, hollyhocks, daffodils, peonies, but best of all, the roses," she says.

Energy... Sarah Banner Smith is a bundle of energy. Her latest venture is working out at Surry Community College.

Wednesday, April 12, 1989
4-5 p.m. At-Arena will have its regular weekly meeting at Surry Community College in Dobson in Room 103.

Thursday, April 13, 1989
6:30-9:30 p.m. Surry Community College will offer to anyone who has dropped out of school an opportunity to complete work toward a CHED diploma at Elkin High School.

SCC to host psychology lecture

DOBSON - Dr. George R. Wesley, professor of abnormal psychology at Appalachian State University, will present two lectures at Surry Community College on Tuesday, April 11. Both sessions are scheduled for 1 p.m. and 7:30 p.m., and are open to the public.

Dr. Wesley's appearance here is sponsored by the SCC Faculty Association. He will be introduced by James R. Fink, association chairman and instructor in the SCC Sociology/Psychology department.

"We have scheduled Dr. Wesley's appearance as part of the 25th anniversary celebration of Surry Community College," Fink says.

In addition to serving as professor at Appalachian, Dr. Wesley is an experienced counselor and evaluator for educational institutions, including public schools and colleges, in the field of psychology.

A native of Texas, he attended the University of Mississippi, holds an undergraduate degree from the

University of Houston and graduate degrees from the University of Denver.

He held several teaching posts in higher education, and in addition to

his duties at Appalachian, he is currently serving as mentor for the Columbia Pacific University in San Rafael, Calif.

He has served as consultant to the Hospital of Mental and Nervous Diseases at St. John's Newfoundland; New River Mental Health Center at Boone; Wilkes County Schools; the N.C. Juvenile Evaluation and Correction Center at Swannanoa; Head Start of Wilkes, Watauga and Buncombe counties; vocational rehabilitation for the N.C. Department of Human Resources; the Social Security Disability Determination; and for several professional counseling organizations.

He is a member of the national psychological associations, honor societies and has written extensively in the field of psychology.

The Tribune, Elkin-Jonesville, N.C., Wednesday, April 5, 1989

SCC to sponsor language festival

DOBSON—A Foreign Language Festival will be held at Surry Community College April 12 for the ninth consecutive year. Last year, the festival involved 1,100 students from 13 public schools in North Carolina and Virginia in a variety of displays depicting foreign cultural activities.

Sharon Gates, SCC instructor and coordinator of the festival program, says "participation, in numbers and in quality of competition, continues to grow every year." She estimates that 1,200 could take part in the event this year.

Featured will be student participation in music, dance, drama and costume competition, extemporaneous speaking and dramatic reading

competition in foreign languages, as well as construction and display of booths and projects reflecting foreign cultures. Booths prepared by students will include exhibits ranging from native foods and artwork to craft demonstrations. Even computer programs in foreign languages will be featured.

Projects entered for judging will include foreign maps, flags, pinatas, masks, needlework, models, sculpture, paintings, sketches, posters and games.

While it is designed primarily for students and teachers, the festival attracts parents and others from the communities represented. Mrs. Gates observe that "this is icing on the cake. . . we welcome them all.

They will find it entertaining as well as educational."

The festival begins at 10 a.m. and concludes at 2 p.m., following presentation of awards and trophies.

Schools to represented include Elkin, Mount Airy, North Surry, Surry Central, East Surry and Alleghany in North Carolina, and Carroll County, Fries, Patrick County, Radford, Woodlawn, Intermediate, Independence and Vaughan Intermediate in Virginia.

SCC To Host DOT Meeting

RALEIGH—Members of the N.C. Board of Transportation have begun a five-month process of deciding how to set priorities for state highway construction.

Business and government leaders and local residents are getting a chance to discuss projects to be included in a Transportation Improvement Program (or TIP) during a series of 15 public meetings which began April 25.

This area's program meeting will be Wednesday, May 17, at Surry Community College in Dobson, in Building "L" in the auditorium. Registration begins at 1 p.m. and the meeting at 2 p.m.

The TIP is the N.C. Department of Transportation's blueprint for highway construction. It was updated last year during a similar series of public meetings.

This year's meetings have added importance because of an \$8.6 billion, 12-year highway construction program under consideration by the General Assembly.

The program calls for establishing a Highway Trust Fund to pay for an "intrastate" road system that will unite all regions of the state with a series of four-lane roads. The trust fund also would pay for portions of outer loops around seven major cities and supplement the paving of the state's secondary roads.

If adopted, the bill for the fund will lead to faster completion of many projects in the TIP. By designating the "intrastate" system, and the special trust fund to finance it, the DOT

can use hundreds of millions of dollars now programmed to accelerate other projects in the TIP.

In addition to highway needs, other transportation-related matters such as aviation, public transportation, bicycles and the state rail program are being discussed at the meetings.

College Submits Its Budget

JOURNAL SURRY COUNTY BUREAU

DOBSON

Officials with Surry Community College yesterday submitted a proposed local budget for 1989-90 that calls for a \$44,775, or 7.4 percent, increase in spending by Surry County.

The budget request was submitted to officials of the Surry County Board of Commissioners.

The local budget totals \$769,682, an increase of 5.1 percent compared with this year's \$732,207 local budget.

Of the \$769,682, some \$645,832 would come from Surry County.

An additional \$101,000 would be money previously budgeted by the county that the college did not spend.

The rest would come from interest on investments, sale of property, auto-expense refunds, and miscellaneous sources.

H. CLYDE JOHNSON, the college's vice president for administrative services, noted these increases in the proposed budget: utilities and fuel, up \$10,910, or 5.2 percent; supplies, up \$3,075, or 9.8 percent; salaries, up \$10,670, or 5 percent (for 13 full- and part-time maintenance workers and administrative supplements).

The fund for repairs, motor vehicles and grounds is up \$7,320, or 13.6 percent, bringing it to \$61,020.

Johnson said that it will cost \$35,000 to \$40,000 to replace the roof of the Administration Building and, if money is available, \$20,000 to \$25,000 to repave a parking lot.

One car would be replaced. Johnson said that there is a \$3,600, or 2.4 percent, increase in fixed charges, including insurance, retirement, social security and worker's compensation.

THE CAPITAL OUTLAY budget — for such things as building alterations or additions and maintenance or janitorial equipment — is up \$1,500, or 5 percent, bringing it to \$31,000.

Johnson said that it will cost \$15,000 to \$20,000 to install insulation in the machine-shop building at the college.

He said that the 1988-89 budget totaled \$8.55 million, including all sources of revenues.

Figures for state and federal spending for 1989-90 are not yet available, he said.

SCC Prepares To Double Size Of Nursing Program

News Staff Report

DOBSON—Surry Community College is preparing to nearly double the size of its registered nursing (RN) program this fall in response to the public shortage of qualified nurses and a high level of interest in its program of study.

Beverly A. Essick, chairman of the health occupations division at SCC, said student enrollment in nursing in the day program will total 85, compared to 55 now. In addition to the 85 will be another 20 students, LPN's in the evening program, who are studying to become RN's.

About 30 of the new students will begin classes this summer in fundamentals of nursing. The rest will begin in the fall, Essick said.

"It's going to be a big relief for all of those applicants out there who are wondering if they're going to get in nursing school," she commented.

SCC received permission for the program expansion from the North Carolina Board of Nursing. The board oversees nurse training statewide.

Essick said the college had 300 applicants this year and only 25 slots available to them. "That's why we were really concerned," she noted.

Three instructors will be added to the staff to accommodate the increased number of students, she said, and "more supplies, more classroom

space and more clinical facilities" will be necessary. Although a cost for the expansion was not available, Essick said that the college has agreed to support and fund the move.

The expanded program will require additional regional medical facilities for clinical training. "We have a commitment from Twin-County Community Hospital in Galax, Va., and we are considering at least two others," Essick mentioned.

SCC nursing students now take their clinical training at Northern Hospital of Surry County, Baptist Hospital and Forsyth Memorial in Winston-Salem and Hugh Chatham Memorial Hospital in Elkin.

For the clinical training, Essick said, "students will be within an hour's driving distance from any one facility."

Because "we're seeing more and more applicants," she mentioned, "we may continue the expansion in the future."

Dr. Swanson Richards, president of SCC, complimented the State Nursing Board for its approval of enlarging the SCC program. "This will enable us to meet a serious community need for nursing services, and also to provide educational opportunities for those people with a sincere desire to enter the nursing

See SCC, page 11A

mt. airy
news
May 24, 1989

SCC

Continued from page 1A

profession."

The daytime nursing program takes two years, or eight quarters, to complete and leads to a license as a registered nurse, Essick added.

SCC's nursing program began in 1973. Last year 96 percent of a graduates passed the state nursing examination on the first try, well above the state average even for graduates from four-year institutions.

Duke Professor Of Foreign Studies To Speak At SCC

DOBSON—Dr. Ralph Braibanti, a James B. Duke Professor of Political Science and director of the Islamic and Arabian Development Studies Program at Duke University, will give a public lecture at Surry Community College Tuesday.

Sponsored by the SCC History Department, Braibanti's lecture will begin at 12:30 p.m. It is free and open to the public.

A native of Connecticut, Braibanti received his bachelor's and doctorate degrees at Syracuse University and served with the U.S. occupation forces in Japan during World War II. He taught at Kenyon College, American and

George Washington universities and has been on the Duke faculty since 1953. Since 1968, he has served as James B. Duke professor and established the program in Islamic and Arabian Development Studies in 1977.

Braibanti has served as adviser in the establishment of the government of the Ryukyu Islands, as a U.N. consultant in Malaysia, Ford Foundation consultant in Beirut and Saudi Arabia, World Bank consultant in Bangladesh and visiting professor at the University of Kuwait.

He is now president of the American Institute of Pakistan Studies and is on the advisory boards of the National Council of U.S.-Arab relations, American-Arab Affairs Council and National Council for the Study of Islamic Societies.

Braibanti has authored more than 100 articles and book chapters.

The Mount Airy News

Julie Gols, a student at Surry Community College: I think they should spend it on education. They should spend it on something that needs the money. It's OK to celebrate the holiday — that's just too much money.

Tuesday, May 9, 1989.

SCC names students to honor fraternity

DOBSON — Phi Theta Kappa national honor fraternity, entering its second year at Surry Community College, will induct 39 new scholars in ceremonies May 5. A reception including students, faculty and staff will follow the induction.

New members of the fraternity, based on a 3.5 or better grade point average, are: Angela Ball of Jonesville, Lisa Brown of Siloam, Gail Chilton of Pilot Mountain, Peggy Dalton of Rhonda, Shannon Dollyhite of Mount Airy, Sara Doub of East Bend, Patricia Evans of Dob-

son, Nancy Everidge of Cana, Va., Kathleen Fowler of Elkin, Wendy Freeman of Yadkinville, Craig Hanks of Elkin, Teresa Hill of Pineville, Samuel Holder, Jr. of Mount Airy, Jane Johnson of Elkin, Michael Johnson of Dobson, Rebecca Kemp of Mount Airy, Emily Lineback of Pilot Mountain, Timothy Marshall of Mount Airy, Donna Mastin of State Road, Mark Maynard of Glade Valley, Pamela Maynard of Dobson, Allen McDevitt of Dobson, Tamara Money of Mount Airy, Julie Myers of Yadkinville, Thomas Payne of

King, Angela Poff of Dobson, April Reid of Dobson, Bonnie Rowinsky of Mount Airy, Barbara Sapper of State Road, Vickie Scheneck of Westfield, Carla Shepherd of Dobson, Carolyn Smith of Mount Airy, Darren Smith of Mount Airy, Margaret Smith of Dobson, Janice Van Renswou of Jonesville, Jostelyn Vogler of Mount Airy, David Watkins of Lawsonville, Frances Willey of Elkin and Wendie Williams of

Toast.

The SCC chapter of PTK was formed in Dec. 1988, with 10 charter members.

BUSINESS

SCC offers course in Investing for the 90s

DOBSON — Investing for a secure future has become a critical issue for many. With so many investing options and questions confronting us, Surry Community College is planning an Investing for the '90's course beginning Tuesday, June 6 at 6:30 p.m.

The 24-hour course will meet each Tuesday for eight weeks from 6:30-9:30 p.m. on the college campus in Room L-105.

Some of the many topics to be covered are planning for retirement including early retirement plans and maintaining a tax deferred status

through IRA rollovers, stocks, tax free bonds, mutual funds, annuities and the Medicare surtax. Specific student interests will be addressed.

Registration fee is \$25 and there is no textbook required. North Carolina residents 65 and older may register free.

Lance E. Hausman will be the instructor for the course. He brings to the course 10 years of experience in investment analysis and portfolio management. He was with a major investment firm in New York for eight years which gave him first-hand experience with the broad spectrum of investment and financial management. He is based in Winston-Salem.

Interested persons are asked to pre-register by contacting Marion Venable, at 386-8121. Questionnaires will be mailed to insure the topics of most interest to the students are covered. For more information, you may contact the Continuing Education Division at the college.

Degrees Earned

Four Yadkin County citizens were pinned during Surry Community College's annual ceremonies Sunday, May 28 at the First Methodist Church in Elkin at 3 p.m.

In all, 27 graduates will be receive pins. Local students include:

Dennis Haynes of Rt. 4, Yadkinville; Carolyn Dobbins of Rt. 2, Boonville; Tonja Reavis of Rt. 4, Yadkinville; and Heather Lakey of Rt. 1, Boonville.

Margaret Shepherd brought a tray of vegetables and low-calorie dip.

May 10, 1989

The Tribune, Elkin-Jonesville, N.C.

Team work: A long period of sacrifice, dedication and team work nears completion for Wayne and Joann McMillian who will graduate from Surry Community College this month.

Full-time jobs don't stop couple from graduating from SCC

DOBSON — To anyone out there who has been out of the education scene for a long time but wonders what it would be like to get back in, Wayne McMillian says, "Go for it!"

McMillian, pastor of three Methodist churches in Surry County and a fourth in Virginia, dropped out of public school 30 years ago.

Then he made several decisions which totally changed the direction of his life.

In 1982 he married Joann Cregger Murray, who had moved to Surry County with her family from Wytheville, Va. in 1959.

He left a textile dyeing and finishing job to enter the ministry. He entered Surry Community College and earned his GED (high school equivalency). Joann had done the same.

Three years ago, he and Joann entered SCC's Evening Program in college parallel classes three nights a week. They have attended class together ever since.

Both will graduate in May. After summer studies at Duke University, Wayne will enroll at High Point College next fall to continue work on his bachelor's degree. He will continue his ministry, which includes Beulah, Zion and Mount Herman Methodist Churches in Surry, and Hatcher's Chapel in Patrick County, Va.

"Outside of meeting and marrying Joann, education has been the best thing ever to happen to me," he says.

Joann, who had dropped out of school 25 years ago, adds,

"It's an experience we'll never forget. At first we were literally scared to death that we wouldn't fit in, or couldn't make it."

"We were overjoyed with the quality of instruction," Wayne says. "The curriculum was fantastic. Admittedly we were older than most students in our classes, but instructors seemed to welcome older people. And after the initial impact, younger students took to us too."

Wayne grew up in the Dobson community, one of five children (his father, John Thomas, is a farmer and is now 83). Joann grew up in Wytheville, one of three children (her father, Ely worked at Patterson Buick in Mount Airy).

She has worked with Spencer's in Mount Airy for more than 17 years.

Being pastor of four churches in the Mount Airy-Surry Circuit is a full-time job for Wayne, but he believes a person can find time to do what he wants to do. Worship services are held at all four churches every Sunday. Bud Cameron, Surry register of deeds and also a licensed minister, serves as his assistant.

Their time is not confined to the pulpit, both are known for their ministry to the individual church member.

Now that the three years are over, how do Wayne and Joann feel?

"Honestly," Wayne points out, "Jo has been my inspiration, in the ministry and in school too. She's the rock I lean on. We both feel that we now have a good education—something nobody can take away from us."

SCC graduation Friday Tribune May 24, 1989

DOBSON — Surry Community College will hold 1989 graduation ceremonies Friday, May 26, at 6:30 p.m.

Degrees and vocational diplomas will be presented to 221 students, 83 in Associate in Arts and Associate in Science, 126 in Associate in Applied Science, and diplomas to 12 graduates in vocational studies.

A trio of Surry officials—Dr. "Gus" Martin, Superintendent of Surry County Schools; David Beal,

Surry Clerk of Court; and Robert Comer, Director of the Surry County Economic Development Commission—will be guest speakers. They will address the close working relationships between the college and public schools, community service functions and service to industry.

Glenda Hinshaw, president of the Student Government Association, will give the invocation, and music will be presented by the college

choir. Dr. Swanson Richards, SCC president, will make special remarks and confer the degrees. Dr. James Reeves, Vice President of Student Services, will extend the welcome and introduce special guests; and Dr. Jan Crawford, Vice President and Dean for Instruction, will present diplomas.

The public is invited to attend the graduation ceremonies, and the President's reception to follow.

The Tribune, Elkin-Jonesville, N.C., Wednesday, June 21, 1989

Assistant superintendent awarded degree

DOBSON — Byron R. Lawson, assistant superintendent with the Surry County Schools, has completed all requirements for the Ed.D. degree in Educational Administration from Nova University in Fort Lauderdale, Fla.

An 11-year employee of the Surry County Board of Education, Dr. Lawson previously served as principal of Copeland Elementary School and of Surry Central High School. Prior to that time, he served as a counselor and the Coordinator of Veteran Affairs at Surry Community College and was a teacher and coach in the Winston-Salem/Forsyth County Schools.

Lawson is the son of Mr. and

Mrs. Ralph Lawson of Winston-Salem. His wife, Carol, is a Surry County educator. They have two children, Ashley and Kelly and live in Dobson.

Two Surry students scholars

DOBSON — Kimberly Dawn Key, graduate of Surry Central High School, and Karen Dawn Semones, graduate of East Surry, have been named winners of the \$500 David Hatcher Scholarship to study at Surry Community College. Key is the daughter of Mr. and Mrs. Ernest Key of Siloam, Rt. 1. Mrs. Semones is the daughter of Mr. and Mrs. David Semones of Pilot Mountain.

The scholarships, awarded on the basis of future community leadership potential and financial need, are in honor of retired Lt. Col. David B. Hatcher of Mount Airy, who served with the Air Force during the Vietnam conflict and was a prisoner of war. Also at his request the scholarship honors all other Surry County Veterans who served during the Vietnam conflict.

After completion of formal education under the scholarship, the recipient shall contribute two days of work per year to any community project. Applicants come from the five Surry County high schools.

Business Center To Sponsor Seminar

The Surry Community College Business Center will sponsor a seminar that provides insights into the topic of equal employment opportunity and human rights.

There will be no charge for the seminar, to be held Tuesday from 6:30 until 9:30 p.m. on the college campus in Dobson. Those interested should pre-register by calling Renee Hutchins at the center, 386-8121 or 366-2921 direct toll-free from Elkin.

Topics to be covered include affirmative action and reverse discrimination, age discrimination and sexual harassment.

Timothy J. Whitener of Wayne Whitener and Associates in Winston-Salem will present the program. He is director of human resources for the Blakt, Inc., Bahnsen Division, Winston-Salem, and has had 14 years of experience as management consultant, group facilitator and trainer.

EDUCATION

Local students receive degrees from SCC

DOBSON — The following local students have received degrees from Surry Community College: Jon Thomas Allen, Yadkinville, Rt. 2, vocational Diploma, light construction; Cynthia Denise Allred, Dobson, Rt. 2, associate in arts, associate in science; Paul T. Angell, East Bend, Rt. 1, Associate in applied science electronics; Melinda Gail Beamer, Elkin, associate in arts; Lori Ann Benfield, Elkin, associate in arts; Joe Bill Billings, Jr., Siloam, Rt. 1, associate in arts; Chadwick Joel Branch, Dobson, Rt. 1, associate in applied science accounting; Michael Ray Brannock, Dobson, Rt. 1, associate in arts, associate in science; Bryan K. Brawley, Yadkinville, Rt. 4, associate in arts; Barry Wayne Brown, Yadkinville, Rt. 2, vocational diploma, light construction; Charles Bailey Callahan, Dobson, associate in applied science horticulture; Melissa W. Casey, Thurmond, Rt. 1, associate in applied science nursing; Loretta Higgins Cash, State Road, Rt. 2, associate in arts; Darlene S. Clark, Elkin, associate in applied science, legal secretarial; Daniel Lee Collins, Yadkinville, Rt. 5, vocational diploma, light construction; Randy Wayne Collins, Elkin, associate in applied science, machinist; Shannon Lee Cranfill, Yadkinville, Rt. 1, associate in applied science, business administration; Melissa Ann Danley, Dobson, Rt. 1, associate in arts, associate in science; David Ricky Davis, Jonesville, Rt. 2, associate in arts, associate in science; Ravon Ezra Davis, East Bend, Rt. 1, associate in applied science, computer engineering; Susann Lynn Deeds, Dobson, Rt. 4, associate in applied science, dairy management; Carolyn Ann Dobbins, Boonville, Rt. 2, associate in applied science, nursing; Ricky K. Draughn, Dobson, associate in applied science, business administration; Frances Annette Eads, Siloam, Rt. 1, associate in arts; Patricia A. Evans, Dobson, associate in arts and Darrell Gene Gilmore, Dobson, Rt. 3, associate in applied science, electronics.

Also: Noah Gaston Gilmore,

Jonesville, Rt. 1, associate in science, electronics; John Royce Hall, Elkin, associate in arts; Laurie Brown Harlowe, Dobson, Rt. 2, associate in applied science, electronics; Linda Gillespie Harris, Thurmond, Rt. 1, associate in arts; Tabitha Elaine Harrison, Elkin, Rt. 3, associate in applied science, general office; Paul Dennis Haynes, Yadkinville, Rt. 4, associate in applied science, nursing; Kristi Lynn Coe Hinshaw, Dobson, Rt. 2, associate in applied science, nursing; Joseph Grant Hodges, Dobson, associate in arts; Jennifer Lynn Hollar, Dobson, associate in arts; Gregory Douglas Ingram, Dobson, Rt. 1, associate in arts; Kathryn Elaine Ingram, Dobson, Rt. 1, associate in arts; Cathy Pardue Johnson, Elkin, associate in applied science, nursing; John Edwin Johnson, Yadkinville, Rt. 1, associate in applied science, electronics; Shahbaz Haider Khan, Dobson, associate in applied science, business computer programming; Heather Britton Lakey, Boonville, Rt. 1, associate in applied science, nursing; Patrick Michael Lane, Hamptonville, Rt. 3, associate in arts; Michael Larry Lawson, Dobson, associate in applied science, electronics; Tami Brindle Ledford, Dobson, Rt. 4, associate in applied science, nursing; Tina Dale Longworth, Jonesville, Rt. 1, associate in applied science, accounting, business administration; Bobby Ray Manuel, Yadkinville, Rt. 2, vocational diploma, automotive mechanics; Pamela Dawn Manuel, associate in applied science, business computer programming; Gene Matthews, East Bend, Rt. 4, associate in applied science, electronics; Scott Wayne Mooney, Dobson, Rt. 3, associate in arts, associate in science; Timothy Richard Murphy, East Bend, Rt. 3, associate in applied science, horticulture and Patricia Inez Nations, Elkin, Rt. 1, associate in applied science, nursing.

Also: Teresa Gail O'Dell, Dobson, associate in applied science, correctional; Melissa Laws Park, Dobson, Rt. 1, associate in arts; Chris Dale Phillips, Elkin, associate

in arts; Linda Holt Poindexter, Siloam, Rt. 1, associate in applied science, nursing; Robert Aaron Poindexter, Elkin, Rt. 3, associate in science; Tonja J. Reavis, Yadkinville, Rt. 3, associate in applied science, nursing; Amy Suzanne Reece, Dobson, Rt. 3, associate in arts, associate in science; Angela Lynne Reece, Jonesville Rt. 1, associate in applied science, marketing and retailing; John Irvin Ring, Dobson, associate in arts, associate in science; Wanda Corder-Rogers, Rt. 3, Elkin, associate in applied science, nursing; Marsha Sanders Shaw, Boonville, associate in arts, associate in science; Annette Michele Shinnault, Dobson, Rt. 1, associate in arts, associate in science; Joseph Harrison Smith, Yadkinville, Rt. 2, vocational diploma, automotive mechanics; Ronald Lee Snow, Siloam, Rt. 1, associate in applied science, business administration; Susan Renae Stewart, Boonville, Rt. 1, associate in arts; Dwayne Byron Stone, Elkin, Rt. 3, associate in applied science, computer engineering; Wendy Kaye Teague, Elkin, associate in arts; Harold A. Teeter Yadkinville, Rt. 2, vocational diploma, light construction; Nan Alison Transou, State Road, associate in arts; Charles Nathan Trivette, East Bend, Rt. 2, associate in arts, associate in science; Mickey L. Vestal, Boonville, associate in applied science, drafting; Tammy Gay Wagoner, Elkin, Rt. 3, associate in applied science, executive secretarial; Kelly Lynn Wall, Siloam, Rt. 1, associate in applied science, electronics; Eric Hugh Willard, Boonville, Rt. 1, advanced vocational diploma, automotive mechanics; Howard Franklin Wimbley, Elkin, Rt. 1, associate in arts; Billy Keith Wolfe, Dobson, Rt. 2, associate in applied science, business administration; Larry Vance Wood, Thurmond, Rt. 1, associate in applied science,

electronics and Sandra Denise York State Road, Rt. 1, associate in applied science, business computer programming.

SCC Announces Graduating Students

The following students from this area will graduate from Surry Community College this spring.

Jon Thomas Allen of Yadkinville, receiving a Vocational Diploma in Light Construction.

Paul T. Angell of East Bend, who attended Forbush High School, receiving an Associate Degree in Applied Science in Electronics.

Bryan K. Brawley of Yadkinville, who attended Forbush High School, receiving an Associate in Arts.

Barry Wayne Brown of Yadkinville, receiving a Vocational Diploma Light Construction.

Loretta Higgins Cash of State Road, who attended Surry Central High School, receiving an Associate in Arts.

Daniel Lee Collins of Yadkinville, who attended Star Mount High School, receiving a Vocational Diploma in Light construction.

Shannon Lee Cranfill of Yadkinville who attended Forbush High School, receiving an Associate in Applied Science in Business Administration.

David Ricky Davis of Jonesville who attended Star Mount High School, receiving an Associate in Arts and Associate in Science.

Ravon Ezra Davis of East Bend who attended Forbush High School, receiving an Associate in Applied Science and Computer Engineering.

Carolyn Ann Dobbins of Boonville who attended Davie County High School, receiving an Associate in Applied Science in Nursing.

Noah Gaston Gilmore, Jr. of Jonesville who attended Star Mount High School, receiving an Associate in Applied Science in Electronics.

Paul Dennis Haynes of Yadkinville who attended Forbush High School, receiving an Associate in Applied Science in Nursing.

John Edwin Johnson of Yadkinville who attended Forbush High School, receiving an Associate in Applied Science in Electronics.

Heather Britton Lakey of Boonville who attended Star Mount High School, receiving an Associate in Applied Science in Nursing.

Patrick Michael Lane of

Hamptonville who attended Elkin High School, receiving an Associate in Arts.

Tina Dale Longworth of Jonesville who attended Star Mount High School, receiving an Associate in Applied Science Accounting and Business Administration.

Bobby Ray Mahan, Jr., of Yadkinville, receiving a Vocational Diploma in Automotive Mechanics.

Pamela Dawn Manuel of Yadkinville who attended Mount Airy Senior High School, receiving an Associate in Applied Science and Business Computer Programming.

Gene Matthews of East Bend who attended Forbush High School, receiving an Associate in Applied Science in Electronics.

SCC To Sponsor

Vocational

Teleconference

A teleconference on the outlook for vocational education in North Carolina will be held Friday from 10 to 11:30 a.m. at Surry Community College in Dobson.

The Carl B. Perkins Vocational Education Act, federal legislation that has set the tone for future vocational education in public schools and post-secondary schools, is to be given special attention.

The program will open with an interview involving Dr. Cliff Belcher, director of vocational education for the N.C. Department of Public Instruction; Margaret Gayle, associate director of vocational education; and the director of staff development and telecommunications for the N.C. Department of Community Colleges, Dr. Bob Bealum.

A panel of speakers will present a report card on vocational education. Those speakers include Bob Bullen, the state's deputy director of vocational education; Dr. Mike Latta, executive director of the State Advisory Council on Vocational Education; Peggy Neumann, industrial education coordinator of Gaston County public schools; and Jerry Cochran, chairman of the Lincoln County Board of Commissioners.

Friday's program is free and open to the public.

Assistant superintendent receives Ed.D degree

Byron R. Lawson, Assistant Superintendent with the Surry County Schools, has completed all requirements for the Ed.D degree in Educational Administration from Nova University in Fort Lauderdale, FL. An eleven-year employee of the Surry County Board of Education, Dr. Lawson previously served as principal of Copeland Elementary School and of Surry Central High School. Prior to that time, he served as a counselor and the Coordinator of Veteran Affairs at Surry Community College and was a teacher and coach in the Winston-Salem/Forsyth County schools.

Dr. Lawson is the son of Mr. and Mrs. Ralph Lawson of Winston-Salem. His wife, Carol, is a Surry County educator. They have two children, Ashley and Kelly and reside in Dobson.

JUNE 7, 1989 THE PILOT

Student named to 'Who's Who'

Angela Lynne Reece, daughter of Jenny Case and student at Surry Community College, has been selected as one of the country's most outstanding campus leaders by the *Who's Who Among Students In American Junior Colleges* editorial staff.

She will be included in the 1989 edition of *Who's Who Among Students In America Junior Colleges*, an annual directory of outstanding students first published in 1966.

A campus nominating committee and editors of the publication have included the name of this student based on academic achievements, community service, leadership in extra-curricular activities and potential for continued success.

She joins an elite group of students selected from institutions of higher learning in all 50 states, the District of Columbia and several foreign nations.

The faculty (above) and students (below) get ready for last week's graduation ceremonies.

*Congratulations
Class of '89*

SCC class offers instruction in dealing with elderly

The Tribune, Elkin-Jonesville, N.C., Wednesday, June 14, 1989

DOBSON — A program of instruction for people interested in rendering in-home service to elderly and disabled citizens has been established at Surry Community College, with the first class to begin June 15.

Opportunities for either full-time or part-time workers are available, and schedules are flexible. Service to the elderly and disabled will be coordinated through the Surry County Health Department and the

Surry County Friends of Seniors. Workers are paid for the service.

The classes will be held weekly June 15 - Aug. 17; hours are 6:30 - 9:30 p.m. Instructor is Glenda Smith of the Health Department staff.

The Tribune, Elkin-Jonesville, N.C., Friday, August 11, 1989 —

The Annual Surry Community College Alumni Picnic will be held on the college campus in Dobson. Starting time for registration will be 4:30 p.m. with the activities getting underway at 5 p.m. Hamburgers and hot dogs will be served from 6:30 p.m.-7 p.m. Music and dancing will follow the meal. This will be a family affair, and all children will be welcome. Games and activities will be scheduled for children of all ages. Admission or registration will be \$5; children 12 and under, \$3; and SCC 1989-1990 alumni memberships, \$5.

Tuesday, Aug. 22 The Tribune Aug. 18, 1989
6:30 - 9:30 p.m.: Surry Community College will offer to anyone who has dropped out of school an opportunity to complete work toward a GED diploma at Elkin High School.

The Tribune, Elkin-Jonesville, N.C., Wednesday, June 14, 1989

SCC to sponsor trucking course

DOBSON — Surry Community College will sponsor an 8-week truck driver training course beginning June 26.

The course will consist of 440 hours of study, instruction and practical on-the-road training.

Instructors for the course will be from Johnston Community College in Smithfield, a leading truck driver training center for a number of years, with state certification.

"We are offering the course in response to interest and inquiry from the large trucking industry in Surry and surrounding counties," Claude Ayers, Dean of the Continuing Education Division at SCC, said. "A number of trucking firms

will be directly involved in support of the program. The job market for well-trained truck drivers is excellent."

Ayers said the class is restricted to about 25 students; therefore applicants will be screened closely. Students must be at least 18 years of age and have "clean" driving

records. Classes will be held days a week, 7 a.m. to 6 p.m.

The course fee is \$117.25 state students. Those who register for the course, or to more information about it, call the college, 386-8121 or Elkin area, 366-2921, toll free

Elkin woman establishes SCC scholarship

DOBSON — Patty Brendle Redway of Elkin has established a \$7,500 scholarship at Surry Community College in memory of her late husband Frank Redway.

The funds will support studies of horticulture at SCC. The SCC Foundation will award the full scholarships on the basis of financial need and students' interest in horticulture.

Redway said her late husband's love of gardening and his devotion to landscaping their home on Breckenridge Drive in North Elkin prompted her to establish the scholarship in his memory. Frank Redway died May, 1988. He was an avid gardener, growing orchids, irises, fruit trees and other plants. He was a member of the Triad Orchid Society, a native of New Haven, Conn., he had retired from Certified Grocers of Florida.

She learned of the SCC horticulture program through her brother, who is a member of the Elkin Kiwanis Club. Charles Boles, director of the horticulture program, spoke to the Kiwanians, describing his work at the college.

"My brother suggested that this would be a fitting memorial to him," Redway said. A long-time resident of Elkin, Redway is the former Patty Amburn and is a native of Booneville.

Surry Community College provides educational opportunities to both men and women without regard to race, creed, national origin or handicap.

NORTH CAROLINA RESIDENTS AGE 65 AND OLDER MAY REGISTER FREE OF CHARGE.
The non-resident tuition fee for credit courses is \$70.00 per credit hour.

You may pre-register for any of the courses listed by calling 386-8121. Yadkin County residents may pre-register by calling the center in Booneville at 367-7562.

Classes will begin as soon as sufficient registration permits. Those persons pre-registered will be notified of starting dates.

Continuing Education Units (CEUs) are awarded to adults who satisfactorily complete all course requirements for the extension courses listed. One CEU will be awarded for each ten contact hours. A permanent record of each student's CEU attainments will be maintained by Surry Community College. Continuing Education Unit transcripts of individual records are available through the Continuing Education Division.

Evening credit courses are offered through the Evening Division of the College each quarter. Call the Evening Division for more information at 386-8121.

TEACHER RENEWAL COURSES
Each course offered for Teacher Renewal Credit has been approved by the North Carolina Department of Public Instruction. All interested persons should contact the superintendent's office for final approval. Courses will be held on the college campus. Tuition for renewal courses is \$15.00. (Tuition is free for First Aid and CPR for teachers taking the class for renewal credit.)

FIRST AID AND CPR	SIGN LANGUAGE	ARCHAEOLOGY FIELD SCHOOL
3.6 Renewal Credits	3.0 Renewal Credits	3.1 Renewal Credits
EFFECTIVE TEACHER TRAINING	THE GRIEVING PROCESS IN CHILDREN	
3.0 Renewal Credits	1.0 Renewal Credits	

INDUSTRIAL TRAINING
The tuition cost is \$15 for any course offered in the Industrial Training Program. For more information, call the Director of Industrial Training at 386-8121, ext. 263.

The following courses have been offered for manufacturing industries in the past:

Blueprint Reading	First Aid and CPR	Employee Selection and Interviewing
Basic Mail-Box	Forklift Operator	Statistical Process Control
Hydraulics	Welding	Basic Electrical Maintenance
Air Conditioning	Train the Trainer	Textile Dyeing and Finishing
Principles of Supervision	Industrial Sewing	Sewing Machine Repair

DO YOU NEED A JOB?
The Human Resources Development Program helps people get jobs! The service is available to anyone who is eighteen or over who is having difficulty in finding employment. Before placement on a job, the individual is asked to participate in training on how to get a job and keep it so that a good reference can be established with the Human Resources Development staff free of charge.

If you would like additional information, call 789-0063.
