NOTES ON SURRY COUNTY "PAST PROJECTS," PROGRAM OF RESEARCH INTO LOCAL CULTURAL AND POLITICAL HISTORY, FOR THE YOUTH OF SURRY COUNTY, 1974-76

1. Our goals should be to encourage an awareness of personal participation in history, especially in the processes of social change. Secondly to increase communication between younger and older generations in the county; thirdly to build up contributions to a permanent collection of archival and ethnic material probably to be housed at the College.
2. We should begin this fall by:
  - (a) Meeting with the local high school teachers to gain this involvement in planning and their support.
  - (b) Producing an attractive, simple, but thorough brochure to describe the program.
  - (c) Planning visiting meetings to high school classes in groups to encourage participation, first to be carried out by Commission representatives, later to be followed up by locally available experts in archaeology, music, and history, geneological work, etc. to stimulate interest and give guidance.
3. We should have a regularly operating committee to approve projects, give help suggestions, and co-ordinate communication between the workers and business leaders, ministers or other organizational leaders where needed. This committee should oversee the production of a "magazine" to publish (locally), the best of the literary productions, describe collections, list projects underway, and perhaps award prizes.
4. We should get out (soon after conferring with local history teachers) a general letter to businessmen, ministers, newspaper editors, and anyone else who might be concerned informing them of our project, asking for their suggestions and information on what historical materials might be available (or histories already written) relative to their own business, industry, church or community organization.

5. Here are some topical suggestions for "past projects":

- |                       |                                                     |
|-----------------------|-----------------------------------------------------|
| -Industries           | -Play writing and production on local history theme |
| -Churches             |                                                     |
| -Schools              | -Old roads or road sites, trails                    |
| -Banks                | -Local music, ballads or instruments                |
| -Newspapers           | -Folk tales, superstitions, or home remedies        |
| -Civic Clubs          | -Indian relics                                      |
| -Family Histories     | -Handicraft collections in pre-industrial           |
| -Local Communities    | home industries, farming tools, furniture           |
| -Recording Gravesites | making, domestic economy, etc.                      |

Where the project involves demonstration of a physical skill in the use of implements, musical instruments, etc., we should plan for the use of videotape and/or tape recording equipment to preserve these projects.

6. For interesting collections, we should plan for displays during celebrations 1976, plus perhaps local "mini-museum" display centers to host "traveling" exhibits of the students' projects.

Dear County Chairman,

I am the Bi-Centennial Committee chairman for Youth Councils of North Carolina (YCNC). Part of my job is to encourage and to coordinate youth Bi-centennial activities all over the state. For this reason I would like to ask you to find a student willing to be in charge of the youth's part of the celebration in your county. If you already have one, great! If you don't, please try to find someone who is enthusiastic and willing, as this is a very important job.

Please send me the name and address of this person as soon as possible. I need to start corresponding with them right away. If you have any questions or cannot find someone for this position, please let me know. Help the youth of North Carolina be a part of something great!

Sincerely yours,

*Dodee Carney*

The Youth Division of the Surry County Bicentennial Commission is planning to develop a program in cooperation with the schools of Surry County to encourage an interest and awareness in Surry history. A meeting of all history teachers in the county, with emphasis on United States and North Carolina history teachers, is planned for these alternative dates: Monday, Sept. 23, or Monday, Sept. 30. There is space below to indicate preference of date. You may also put down an alternate date of your own. The meeting will be held at Surry Community College in the teaching auditorium at 7:30 p.m. A self-addressed envelope is included for your convenience and/or phone number to contact the Bicentennial Office. Please at the bottom include your home and school phone number.

At this meeting, suggestions will be discussed concerning the programs and some guidelines drawn up for projects. Several possibilities are:

1. devoting a week to Surry County history in class.
2. sponsoring an essay contest on Surry history, folklore, Indians, etc.
3. exhibits.
4. publication of a history magazine for three months in June, July, and August, 1976.
5. inviting knowledgeable persons to lecture on Surry history in class.

These are only suggestions; we would welcome your ideas and advice at this planning meeting. Please try to attend. Thank you.

Sincerely yours,

  
Edward J. Spanski, Jr.  
Executive Director

Dear Educator:

The Youth Division of the Surry County Bicentennial Commission is planning to develop a program in cooperation with the schools of Surry County to encourage an interest and awareness in Surry history. A meeting of all history teachers in the county, with emphasis on United States and North Carolina history teachers, is planned for these alternative dates: Monday, Sept. 23, or Monday, Sept. 30. There is space below to indicate preference of date. You may also put down an alternate date of your own. The meeting will be held at Surry Community College in the teaching auditorium at 7:30 p.m. A self-addressed envelope is included for your convenience and/or phone number to contact the Bicentennial Office. Please at the bottom include your home and school phone number.

At this meeting, suggestions will be discussed concerning the programs and some guidelines drawn up for projects. Several possibilities are:

1. devoting a week to Surry County history in class.
2. sponsoring an essay contest on Surry history, folklore, Indians, etc.
3. exhibits.
4. publication of a history magazine for three months in June, July, and August, 1976.
5. inviting knowledgeable persons to lecture on Surry history in class.

These are only suggestions; we would welcome your ideas and advice at this planning meeting. Please try to attend. Thank you.

Sincerely yours,

  
Edward J. Spanski, Jr.  
Executive Director

Re: Bicentennial Contest to design County Seal. and County Flag.

Date: September 12, 1974

Proposal: The Bicentennial Commission under the Research and Youth ~~EXHIBITION~~ Divisions propose to ~~run~~ a contest to design ~~a separate contest for the county seal and flag in the local~~ junior high schools, the high schools, and Surry Community College. There would be three cash awards (funds to come from existing budget of the Bicentennial Commission) of \$50.00 first prize; (Savings Bond \$25.00 second prize (Savings Bond); \$10.00 cash. and several honorable mentions to be awarded certificates or some memento. This contest is designed to promote civic interest in our county and ~~attract~~ in Bicentennial among our youth.

Dr. J. Dale Simmons  
819 Rockford Street  
Mount Airy, N. C.

Dear Dr. Simmons:

I would like to recommend two rising seniors from Mount Airy Senior High School to your Bicentennial Planning Committee. I am sure they will be willing to work with you in any way you see fit to use them.

They are:

Miss Ellen Mills  
735 Greenhill Road  
Telephone 786-7453

Mr. Rick Southgate  
734 Country Club Road  
Telephone 786-6464

If we can be of further help, please call on us.

Sincerely,

L. W. Bledsoe  
Principal

LWB/t

NOTES ON SURRY COUNTY "PAST PROJECTS," PROGRAM OF RESEARCH INTO LOCAL CULTURAL AND POLITICAL HISTORY, FOR THE YOUTH OF SURRY COUNTY, 1974-76

1. Our goals should be to encourage an awareness of personal participation in history, especially in the processes of social change. Secondly to increase communication between younger and older generations in the county; thirdly to build up contributions to a permanent collection of archival and ethnic material, probably to be housed at the College.
2. We should begin this fall by:
  - (a) Meeting with the local high school teachers to gain this involvement in planning and their support.
  - (b) Producing an attractive, simple, but thorough brochure to describe the program.
  - (c) Planning visiting meetings to high school classes in groups to encourage participation, first to be carried out by Commission representatives, later to be followed up by locally available experts in archaeology, music, and history, geneological work, etc. to stimulate interest and give guidance.
3. We should have a regularly operating committee to approve projects, give help and suggestions, and co-ordinate communication between the workers and business leaders, ministers or other organizational leaders where needed. This committee should oversee the production of a "magazine" to publish (locally), the best of the literary productions, describe collections, list projects underway, and perhaps award prizes.
4. We should get out (soon after conferring with local history teachers) a general letter to businessmen, ministers, newspaper editors, and anyone else who might be concerned informing them of our project, asking for their suggestions and information on what historical materials might be available (or histories already written) relative to their own business, industry, church or community organization.

5. Here are some topical suggestions for "past projects":

- |                       |                                               |
|-----------------------|-----------------------------------------------|
| -Industries           | -Play writing and production on local history |
| -Churches             | theme                                         |
| -Schools              | -Old roads or road sites, trails              |
| -Banks                | -Local music, ballads or instruments          |
| -Newspapers           | -Folk tales, superstitions, or home remedies  |
| -Civic Clubs          | -Indian relics                                |
| -Family Histories     | -Handicraft collections in pre-industrial     |
| -Local Communities    | home industries, farming tools, furniture     |
| -Recording Gravesites | making, domestic economy, etc.                |

Where the project involves demonstration of a physical skill in the use of implements, musical instruments, etc., we should plan for the use of videotape and/or tape recording equipment to preserve these projects.

6. For interesting collections, we should plan for displays during celebrations in 1976, plus perhaps local "mini-museum" display centers to host "traveling" exhibits of the students' projects.

QUESTIONS REGARDING THE PUBLICATION OF A NEW HISTORY OF SURRY COUNTY BY 1976 (SUMMER)

1. What is the necessary time to be allowed between the completion of a MSS and return of completed product for sale? I would make a guess at between 5 and 10 months, allowing time for editing, proof reading, and correcting and printing-binding. The question could only be answered by the publisher himself, of course, but it should be settled before we commit ourselves to a specific date.
2. Assuming 5 months between completion of MSS and publication date, this gives a little more than a year and a half for research, organization, and writing. It may be possible to make use of some of the earlier material turned up by "past projects" or by other private workers in the winter of 1974-75. Perhaps some of the projected archival-type material may be collected by 1975, although this too might be slow in coming in. Would it not be wise to assume that actual writing could not begin before the summer of 1975, and that even then, it would involve almost a full-time job for several months, at least through the summer of 1975?
